The supplemental schedule of assets (held at end of year) and the schedule of reportable transactions as of and for the year ended June 30, 2004, are presented for the purpose of additional analysis and are not a required part of the basic financial statements, but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental information is the responsibility of the Plan's management. The supplemental information has been subjected to the auditing procedures applied in our audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

HARRIS CORPORATION RETIREMENT PLAN

Notes to the Financial Statements

June 30, 2004 and 2003

NOTE 1 DESCRIPTION OF PLAN

The following description of the Harris Corporation Retirement Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan s provisions.

- A. **General** The Plan is a defined contribution plan with a 401(k) feature covering substantially all eligible employees of Harris Corporation and its subsidiaries (collectively, the Company or Employer). The Plan Administrator is the Harris Corporation Employee Benefits Committee comprised of persons appointed by Harris Corporation. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.
- B. **Contributions** Participants may contribute both pre-tax and after-tax eligible compensation, as defined in the Plan and subject to Internal Revenue Code limitations. The Company shall match 100% of pre-tax and after-tax contributions subject to a limit of 6% of eligible compensation for any eligible employee who has completed one year of service. Participants who have made no elections with regard to pre-tax or after-tax contributions will be deemed to have made an election to defer 6% on a pre-tax basis. The employer has an obligation to make a profit sharing contribution to the Plan in the amount of 11.5% of adjusted consolidated net income as defined in the Plan. The contribution is allocated to eligible participants as defined in the Plan who have completed one year of service and were employed on the last day of the Plan year. The employer may also make additional discretionary profit sharing contributions which are allocated to eligible employees based on compensation and excess compensation as defined in the Plan document.
- C. **Payments of Benefits** Prior to termination of employment, a participant may withdraw all or any portion of his or her after-tax account balance. Upon death, disability, retirement, termination of employment or financial hardship a participant may elect to receive either a lump-sum amount equal to the participant s vested interest in his or her account, or installments over a future period.
- D. **Participant Loans** The loan program permits employees to borrow against their pre-tax, after-tax and rollover contributions. Employees may borrow in increments of \$100 from a minimum of \$500 to a maximum of \$50,000, within certain limitations established by the Plan. Payback periods range from one to five years at the option of the participant. Interest rates are established by the Company based on market rates. The outstanding loans have been established as a separate fund.
- E. **Vesting** Participants are immediately vested in their pre-tax and after-tax contributions plus actual earnings thereon. Vesting in the employer matching, profit sharing and discretionary contributions plus earnings is based on years of continuous service. A participant is 100% vested after six years of credited service, based on the following schedule:

Years of Service	Vesting Percentage
Less than 2 years	0%

Edgar Filing: HARRIS CORP /DE/ - Form 11-K

2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 years	100%

June 30, 2004 and 2003

NOTE 1 DESCRIPTION OF THE PLAN (CONTINUED)

- F. Forfeitures** A participant who terminates employment for reasons other than retirement or other specified circumstances and is not 100% vested will forfeit the non-vested portion of the Company's contributions unless the participant returns to employment within five years. The forfeited contributions are used first to restore recently located missing participants, as defined in the Plan; next, to restore accounts of participants who were reemployed prior to incurring a break in service of five consecutive years; next, to fund any matching or profit sharing contributions to be allocated to participants who are reemployed after a period of qualified military service, as defined in the Plan; and finally, to reduce future contributions to the Plan by the Company. Forfeited amounts included in Plan assets at June 30, 2004 and 2003 were \$4,182,635 and \$1,509,913, respectively. For the year ended June 30, 2004 employer contributions were reduced by \$1,603,421 from forfeited nonvested accounts.
- G. Plan Termination** Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination participants will become 100 percent vested in their accounts.
- H. Investment Options** Upon enrollment into the Plan, a participant may direct employer and employee contributions in any of twelve investment options, except that profit sharing contributions may not be invested in the Harris Stock Fund. The investment options are fully described in the Employer Summary Plan Description. Elections to change funds can be made daily; however, amounts in the Stable Value Fund, which is comprised of unallocated insurance contracts, cannot be transferred directly to the Money Market Fund. A participant may not transfer amounts from other investment funds to the Harris Stock Fund.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting The accounting records of the Plan are maintained on the accrual basis.

Valuation of Investments The Plan's investments are stated at fair value. Quoted market prices are used when available, to value investments. Investments for which a quoted market value is not available are stated at fair values reported by the trustee or investee company. Participant loans are valued at their outstanding balances, which approximate fair value. Guaranteed investment contracts held in the Plan's Stable Value Fund are fully benefit-responsive. In accordance with Statement of Position No. 94-4 Reporting of Investment Contracts Held by Health and Welfare Benefit Plans and Defined-Contribution Pension Plans, these contracts are recorded at contract value, which approximates fair value. The average effective yield for the years ended June 30, 2004 and 2003 was 3.49% and 3.82%, respectively. Crediting interest rates range from 1.79% to 7.42% at June 30, 2004 and from 1.79% to 7.53% at June 30, 2003. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The net appreciation (depreciation) in fair value of investments represents the sum of the unrealized appreciation or depreciation in aggregate fair value of investments and the realized gain or loss on sale of investments.
