TRANSACT TECHNOLOGIES INCORPORATED
(Exact name of registrant as specified in its charter)

DELAWARE
(State or other jurisdiction of
incorporation or organization)

06-1456680
(I.R.S. Employer
Identification No.)

7 LASER LANE, WALLINGFORD, CT
(Address of principal executive offices)

06492
(Zip Code)

Registrant's telephone number, including area code 203-859-6800

Securities registered pursuant to Section 12(b) of the Act:

TITLE OF EACH CLASS -----	NAME OF EXCHANGE ON WHICH REGISTERED -----
------------------------------	---

Common Stock, par value \$.01 per share	The NASDAQ Stock Market, LLC
---	------------------------------

Securities registered pursuant to Section 12(g) of the Act: None

Indicate by check mark if the registrant is a well-known seasoned issuer (as defined in Rule 405 of the Securities Act).

Edgar Filing: TRANSACT TECHNOLOGIES INC - Form 10-K

Yes No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Securities Act.

Yes No

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15 (d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes No

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any other amendment to this Form 10-K.

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer. See definition of "accelerated filer and large accelerated filer" in Rule 12b-2 of the Exchange Act. (check one):

Large accelerated filer Accelerated filer Non-accelerated filer

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes No

As of June 30, 2006 the aggregate market value of the registrant's issued and outstanding voting stock held by non-affiliates of the registrant was \$93,200,000.

As of February 28, 2007, the registrant had outstanding 9,574,777 shares of common stock, \$0.01 par value.

ITEM 1. BUSINESS.

THE COMPANY

TransAct was incorporated in June 1996 and began operating as a stand-alone business in August 1996 as a spin-off of the printer business that was formerly conducted by certain subsidiaries of Tridex Corporation. We completed an initial public offering on August 22, 1996.

TransAct Technologies Incorporated ("TransAct" or the "Company") designs, develops, assembles, markets and services world-class transaction printers under the Epic(TM) and Ithaca(R) brand names. Known and respected worldwide for innovative designs and real-world service reliability, our impact, thermal and inkjet printers generate top-quality transaction records such as receipts, tickets, coupons, register journals and other documents. We focus on two core markets: (1) point-of-sale ("POS") and banking and (2) gaming and lottery. We sell our products to original equipment manufacturers ("OEMs"), value-added

Edgar Filing: TRANSACT TECHNOLOGIES INC - Form 10-K

resellers ("VARs"), selected distributors, as well as directly to end-users. Our product distribution spans across the Americas, Europe, the Middle East, Africa, Asia, Australia, the Caribbean Islands and the South Pacific. In addition, we have a strong focus on the after-market side of the business, with a growing commitment to printer service, supplies and spare parts. We have one primary operating facility located in Ithaca, NY, five sales offices located in the United States (including our global gaming and lottery headquarters and western region service center in Las Vegas, NV), and a European sales and service center in the United Kingdom. Our executive offices and eastern region service center are located at 7 Laser Lane, Wallingford, CT 06492, with a telephone number of (203) 859-6800.

FINANCIAL INFORMATION ABOUT SEGMENTS

We have determined that we operate in one reportable segment, the design, development, assembly and marketing of transaction printers and printer-related service, supplies and spare parts.

PRODUCTS AND SERVICES

Printers

TransAct designs, develops, assembles and markets a broad array of transaction-based printers utilizing inkjet, thermal and impact printing technology for applications requiring up to 60 character columns, primarily in the POS and banking, and gaming and lottery markets. Our printers are configurable and offer customers the ability to choose from a variety of features and functions. Options typically include interface configuration, paper cutting devices, paper handling capacities and cabinetry color. In addition to our configurable printers, we design and assemble custom printers for certain OEM customers. In collaboration with these customers, we provide engineering and manufacturing expertise for the design and development of specialized printers.

POS and banking: Our POS and banking printers include hundreds of optional configurations that can be selected to meet particular customer needs. We believe that this is a significant competitive strength, as it allows us to satisfy a wide variety of printing applications that our customers request. In the POS market, we sell several models of printers utilizing inkjet, thermal and impact printing technology. Our printers are used primarily by retailers in the hospitality, restaurant (including fine dining, casual dining, and fast food) and specialty retail industries to print receipts for consumers, validate checks, or print on other inserted media. We also sell printers that are used by banks, credit unions and other financial institutions to print and/or validate receipts at bank teller stations.

Gaming and lottery: In the lottery portion of our gaming and lottery market, we supply lottery printers to GTECH, our largest customer and the world's largest provider of lottery terminals, with an approximate 70% market share. These printers are designed for high-volume, high-speed printing of lottery tickets for various lottery applications.

In the gaming portion of our gaming and lottery market, we sell several models of printers used in slot machines and video lottery terminals that print tickets instead of issuing coins at casinos, racetracks and other gaming establishments worldwide. These printers utilize thermal printing technology and can print tickets in monochrome or two-color (depending upon the model), and offer various other features such as jam resistant bezels and a dual port interface that will allow casinos to print coupons/promotions. In addition, we sell printers using thermal and impact printing technology for use in non-casino gaming establishments, including game types such as Amusements with Prizes ("AWP"), Skills with Prizes ("SWP"), Video lottery terminals ("VLT"), Fixed Odds Betting Terminals ("FOBT") and other off-premise gaming type machines around the

world.

TransAct Services Group

Through our TransAct Services Group, we proactively market the sale of consumable products (including inkjet cartridges, ribbons and receipt paper), replacement parts and maintenance services for all of our products. Our maintenance services include the sale of extended warranties, multi-year maintenance contracts, 24-hour guaranteed replacement product service TransAct Xpress(SM), and other repair services for our printers. Within the United States, we provide repair services

3

through our eastern region service center in Wallingford, CT and our western region service center in Las Vegas, NV. Internationally, we provide repair services through our European service center located in Doncaster, United Kingdom, and through partners strategically located around the world.

We also provide customers with telephone sales and technical support, and a personal account representative to handle orders, shipping and general information. Technical and sales support personnel receive training on all of our manufactured products and our services.

Product Warranty

Our printers generally carry up to a two-year limited warranty against defects in material and workmanship. Defective equipment may be returned to any of our service centers, or our manufacturing facility in Ithaca, NY for newly-released printers only, for repair or replacement during the applicable warranty period.

PRODUCTION, MANUFACTURING AND SOURCES AND AVAILABILITY OF RAW MATERIALS

We design our products to optimize product performance, quality, reliability and durability. These designs combine cost efficient materials, sourcing and assembly methods with high standards of workmanship. We finalize assembly of our products in our Ithaca, NY facility largely on a configure-to-order basis using components that have been sourced from around the world. Our manufacturing engineers work closely with our new product engineers and vendors during the development of new products. As a result, this collaboration increases manufacturing efficiency by specifying materials and designing manufacturing processes in conjunction with new product design.

We procure component parts and subassemblies for use in the manufacture and assembly of our products. Critical component parts and subassemblies include inkjet, thermal and impact printheads, printing/cutting mechanisms, power supplies, motors, injection molded plastic parts, circuit boards and electronic components, which are obtained from domestic and foreign suppliers at competitive prices. In addition, we have begun to procure fully assembled printers from a foreign supplier. We typically strive to maintain more than one source for our component parts, subassemblies and fully assembled printers to reduce the risk of parts shortages or unavailability. However, we could experience temporary disruption if certain suppliers ceased doing business with us, as described below.

Okidata Americas, Inc. ("Okidata"), is the sole supplier for an impact printer component kit consisting of a printhead, control board and carriage (the "Oki Kit"), that is used in all of our Ithaca(R) brand impact printers. The loss

Edgar Filing: TRANSACT TECHNOLOGIES INC - Form 10-K

of the supply of Oki Kits would have a material adverse effect on TransAct. However, sales of impact printers continue to decline as sales of these printers are replaced by sales of thermal and inkjet printers. As such, we believe that any possible loss of supply of Oki Kits will have less of an impact on TransAct in 2007 and beyond. Although we do not have a supply agreement with Okidata, our relationship with Okidata remains strong and we have no reason to believe that Okidata will discontinue its supply of Oki Kits to us or that their terms to us will be any less favorable than they have been historically.

Hewlett-Packard Company ("HP") is the sole supplier of inkjet cartridges that are used in all of our inkjet printers. The loss of the supply of HP inkjet cartridges would have a material adverse effect on the sale of our inkjet printers. Prior to February 2006, we had a supply agreement with HP to purchase inkjet cartridges at fixed prices. This agreement expired on February 1, 2006 and was not renewed, as HP informed us that they no longer maintain supply agreements for these inkjet cartridges; however, we continue to purchase inkjet cartridges from HP. Although we no longer have a supply agreement with HP, our relationship with HP remains strong and we have no reason to believe that HP will discontinue its supply of inkjet cartridges to us. The inkjet cartridges we purchase from HP are used not only in our inkjet printers for the POS and banking market, but also in other manufacturer's printing devices across several other markets.

We currently buy substantially all of our thermal print mechanisms, an important component of our thermal printers, from one supplier. Although we believe that other suppliers could provide similar thermal print mechanisms on comparable terms, a change in suppliers could cause a delay in manufacturing and possible loss of sales which may have a material adverse effect on our operating results.

4

PATENTS AND PROPRIETARY INFORMATION

We have significantly expanded our patent portfolio over the past six years, and expect to continue to do so in the future. We also believe our patent portfolio could provide additional opportunities to license our intellectual property in the future. We hold 21 United States and nine foreign patents and have nine United States and 19 foreign patent applications pending pertaining to our products. The duration of these patents range from 11 to 18 years. The expiration of any individual patent would not have a significant negative impact on our business. We regard certain manufacturing processes and designs to be proprietary and attempt to protect them through employee and third-party nondisclosure agreements and similar means. It may be possible for unauthorized third parties to copy certain portions of our products or to reverse engineer or otherwise obtain and use, to our detriment, information that we regard as proprietary. Moreover, the laws of some foreign countries do not afford the same protection to our proprietary rights as do United States laws. There can be no assurance that legal protections relied upon by the Company to protect our proprietary position will be adequate or that our competitors will not independently develop technologies that are substantially equivalent or superior to our technologies.

During 2004, we signed a cross licensing agreement with Seiko Epson. Under the agreement, Seiko Epson received a license to three of our patents, and we received a license to eighteen of Seiko Epson's patents relating to printing applications for the point of sale and banking markets. In addition, we agreed to pay \$900,000 as a royalty for the usage of certain Seiko Epson technology prior to January 1, 2003, which was paid in full by January 2005. Under the

Edgar Filing: TRANSACT TECHNOLOGIES INC - Form 10-K

agreement, we continue to pay royalties on a quarterly basis related to the sales of licensed printers, which is reflected in cost of sales.

SEASONALITY

Retailers typically reduce purchases of new POS equipment in the fourth quarter, due to the increased volume of consumer transactions in that holiday period, and our sales of printers in the POS market historically have increased in the third quarter and decreased in the fourth quarter. Similarly, installations of lottery terminals are typically reduced in the fourth quarter, resulting in decreased sales of lottery printers.

CERTAIN CUSTOMERS

We currently have an ongoing OEM purchase agreement, as amended in February 2006, (the "GTECH Thermal Printer Agreement") with GTECH Corporation ("GTECH") that provides for the sale of thermal on-line lottery printers and spare parts, at fixed prices, through June 28, 2012. Firm purchase orders for printers under the GTECH Thermal Printer Agreement may be placed as required by GTECH. Prior to this agreement, we had a purchase agreement with GTECH that provided for the sale of impact on-line lottery printers and spare parts through December 31, 2004. Because our new thermal on-line lottery printer is a replacement for our impact on-line printer, we do not expect any further shipments of impact on-line lottery printers. However, we do expect to continue to sell spare parts to GTECH for the remaining installed base of impact on-line lottery printers, although we expect such sales to decline as the installed base of impact on-line lottery printers are replaced with our thermal printer.

BACKLOG

Our backlog of firm orders was approximately \$4,300,000 as of February 28, 2007, compared to \$8,300,000 as of February 28, 2006. Based on customers' current delivery requirements, we expect to ship our entire current backlog during 2007.

COMPETITION

The market for transaction-based printers is extremely competitive, and we expect such competition to continue in the future. We compete with a number of companies, many of which have greater financial, technical and marketing resources than us. We believe our ability to compete successfully depends on a number of factors both within and outside our control, including durability, reliability, quality, design capability, product customization, price, customer support, success in developing new products, manufacturing expertise and capacity, supply of component parts and materials, strategic relationships with suppliers, the timing of new product introductions by us and our competitors, general market, economic and political conditions and, in some cases, the uniqueness of our products.

In the POS and banking market, our major competitor is Epson America, Inc., which holds a dominant market position of the POS markets into which we sell. We also compete, to a much lesser extent, with Transaction Printer Group, Star Micronics America, Inc., Citizen -- CBM America Corporation, Pertech Resources, Inc. and Samsung/Bixolon. Certain competitors of ours have greater financial resources, lower costs attributable to higher volume production and sometimes offer lower prices than us.

In the lottery market (consisting principally of on-line lottery transaction printing), we hold a leading position, based largely on our long-term purchase agreement with GTECH, which holds approximately 70% market share of the worldwide on-line lottery market. We compete in this market based solely on our ability to provide specialized, custom-engineered products to

GTECH.

5

In the gaming market (consisting principally of slot machine and video lottery terminal transaction printing), we compete with several companies including FutureLogic, Inc., Nanoptix, Inc., Custom Engineering SPA and others. Certain of our products sold for gaming applications compete based upon our ability to provide highly specialized products, custom engineering and ongoing technical support.

The TransAct Services Group business is highly fragmented, and we compete with numerous competitors of various sizes depending on the geographic area.

Our strategy for competing in our markets is to continue to develop new products and product line extensions, to increase our geographic market penetration, to take advantage of strategic relationships, and to lower product costs by sourcing certain products overseas. Although we believe that our products, operations and relationships provide a competitive foundation, there can be no assurance that we will compete successfully in the future. In addition, our products utilize certain inkjet, thermal and impact printing technology. If other technologies, or variations to existing technologies were to evolve or become available to us, it is possible that we would incorporate these technologies into our products. Alternatively, if such technologies were to evolve or become available to our competitors, our products could become obsolete, which would have a significant negative impact on our business.

RESEARCH AND DEVELOPMENT ACTIVITIES

We spent approximately \$2,824,000, \$2,726,000 and \$2,715,000 in 2006, 2005 and 2004, respectively, on engineering, design and product development efforts in connection with specialized engineering and design to introduce new products and to customize existing products.

ENVIRONMENT

We are not aware of any material noncompliance with federal, state and local provisions that have been enacted or adopted regulating the discharge of materials into the environment, or otherwise relating to the protection of the environment.

EMPLOYEES

As of February 28, 2007, TransAct and our subsidiaries employed 185 persons, of whom 172 were full-time and 13 were temporary employees. None of our employees are unionized, and we consider our relationships with our employees to be good.

FINANCIAL INFORMATION ABOUT GEOGRAPHIC AREAS

We have foreign operations primarily from TransAct Technologies Ltd., a wholly-owned subsidiary located in the United Kingdom, which had sales to its customers of \$2,722,000, \$2,181,000, and \$1,000,000, (primarily for the service of printers used in the British Post Office) in 2006, 2005 and 2004, respectively. We had export sales from our domestic operations of approximately \$11,416,000, \$10,137,000 and \$5,423,000 in 2006, 2005 and 2004, respectively. Total international sales, which include sales from our foreign subsidiary and export sales from our domestic operations, were approximately \$14,138,000, \$12,318,000 and \$6,423,000 in 2006, 2005 and 2004, respectively.

Edgar Filing: TRANSACT TECHNOLOGIES INC - Form 10-K

ADDITIONAL INFORMATION

We make available free of charge through our internet website, WWW.TRANSACT-TECH.COM, our annual report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, and all amendments to those reports as soon as reasonably practicable after such material is electronically filed with or furnished to the SEC.

We maintain a Code of Business Conduct that includes our code of ethics that is applicable to all employees, including our Chief Executive Officer, Chief Financial Officer and Controller. This Code, which requires continued observance of high ethical standards such as honesty, integrity and compliance with the law in the conduct of our business, is available for public access on our internet website. Any person may request a copy of our Code of Business Conduct free of charge by calling (203) 859-6800.

EXECUTIVE OFFICERS OF THE REGISTRANT

The following list is included as an unnumbered item in Part I of this Report in lieu of being included in the Proxy Statement for the Annual Meeting of Stockholders to be held on May 15, 2007.

6

The following is a list of the names and ages of all executive officers of the registrant, indicating all positions and offices with the registrant held by each such person and each person's principal occupations and employment during at least the past five years.

Name	Age	Position
Bart C. Shuldman	49	Chairman of the Board, President and Chief Executive Officer
Steven A. DeMartino	37	Executive Vice President, Chief Financial Officer, Treasurer and Secretary
Michael S. Kumpf	57	Executive Vice President - Engineering

BART C. SHULDMAN has been Chief Executive Officer, President and a Director of the Company since its formation in June 1996. Previously, Mr. Shuldman served as President of Magnetec and later the combined operations of Magnetec and Ithaca Peripherals from August 1993 until June 1996. In February 2001, Mr. Shuldman was elected Chairman of the Board.

STEVEN A. DEMARTINO was named as TransAct's Executive Vice President, Chief Financial Officer, Treasurer and Secretary on June 1, 2004. Previously, Mr. DeMartino served as Senior Vice President, Finance and Information Technology from October 2001 to May 2004, Vice President and Corporate Controller from January 1998 to October 2001, and Corporate Controller from August 1996 to December 1997. Prior to joining TransAct, Mr. DeMartino was a self-employed financial consultant from May 1996 to August 1996. Prior to that, Mr. DeMartino served as Controller of Copart, Inc. from September 1994 to May 1996. Mr. DeMartino is a certified public accountant.

MICHAEL S. KUMPF was appointed Executive Vice President of Engineering in March 2002. He served as Senior Vice President, Engineering from June 1996 to

Edgar Filing: TRANSACT TECHNOLOGIES INC - Form 10-K

March 2002 and Vice President, Engineering of Ithaca Peripherals from 1991 until June 1996.

ITEM 1A. RISK FACTORS

Investors should carefully consider the risks, uncertainties and other factors described below, as well as other disclosures in Management's Discussion and Analysis of Financial Condition and Results of Operations, because they could have a material adverse effect on our business, financial condition, operating results, and growth prospects. The risks described below and incorporated by reference are not the only ones facing our Company. Additional risks not known to us now or that we currently deem immaterial may also impair our business operations.

Our success will depend on our ability to sustain and manage growth.

As part of our business strategy, we intend to pursue an aggressive growth strategy. Assuming this growth occurs, it will require the expansion of distribution relationships in international markets, the successful development and marketing of new products, expanded customer service and support, an increased number of personnel throughout the Company and the continued implementation and improvement of our operational, financial and management information systems.

To the extent that we seek growth through acquisitions, our ability to manage our growth will also depend on our ability to integrate businesses that have previously operated independently. We may not be able to achieve this integration without encountering difficulties or experiencing the loss of key employees, customers or suppliers. It may be difficult to design and implement effective financial controls for combined operations and differences in existing controls for each business may result in weaknesses that require remediation when the financial controls and reporting functions are combined.

There can be no assurance that we will be able to successfully implement our growth strategy, or that we can successfully manage expanded operations. As the Company expands, we may from time to time experience constraints that will adversely affect our ability to satisfy customer demand in a timely fashion. Failure to manage growth effectively could adversely affect our results of operations and financial condition.

We compete in a highly competitive market, which is likely to become more competitive. Competitors may be able to respond more quickly to new or emerging technology and changes in customer requirements.

We face significant competition in developing and selling our printers and services. Principal competitors have substantial marketing, financial, development and personnel resources. To remain competitive, we believe we must continue to provide:

- Technologically advanced printers that satisfy the user demands,
- Superior customer service,
- High levels of quality and reliability, and
- Dependable and efficient distribution networks.

We cannot ensure we will be able to compete successfully against current or

Edgar Filing: TRANSACT TECHNOLOGIES INC - Form 10-K

future competitors. Increased competition in printers or supplies may result in price reductions, lower gross profit margins and loss of market share, and could require increased spending on research and development, sales and marketing and customer support. Some competitors may make strategic acquisitions or establish cooperative relationships with suppliers or companies that produce complementary products. Any of these factors could reduce our earnings.

We have been dependent on sales to one large customer; the loss of this customer or reduction in orders from this customer could materially affect our sales.

We expect that sales to one large customer will continue to represent a significant percentage of our net sales for the foreseeable future. A reduction or delay in orders from this customer, including reductions or delays due to market, economic, or competitive conditions in the industries in which we serve, could have a material adverse effect upon our results of operations.

We rely on resellers to sell our products and services.

We use a variety of distribution channels, including OEMs and distributors, to market our products. We may be adversely impacted by any conflicts that could arise between and among our various sales channels.

Our dependence upon resellers exposes us to numerous risks, including:

- loss of channel and the ability to bring new products to market;
- concentration of credit risk, including disruption in distribution should the resellers' financial condition deteriorate;
- reduced visibility to end user demand and pricing issues which makes forecasting more difficult;
- resellers leveraging their buying power to change the terms of pricing, payment and product delivery schedules; and
- direct competition should a reseller decide to manufacture printers internally or source printers from a competitor.

We cannot guarantee that resellers will not reduce, delay or eliminate purchases from us, which could have a material adverse effect upon the business, consolidated results of operations and financial condition.

Our operating results and financial condition may fluctuate.

Our operating results and financial condition may fluctuate from quarter to quarter and year to year and are likely to continue to vary due to a number of factors, many of which are not within our control. If our operating results do not meet the expectations of securities analysts or investors, who may derive their expectations by extrapolating data from recent historical operating results, the market price of our common stock will likely decline. Fluctuations in our operating results and financial condition may be due to a number of factors, including, but not limited to, those identified throughout this "Risk Factors" section:

- changes in accounting rules
- changes in the amount that we spend to develop, acquire or license new products, consumables, technologies or businesses;
- changes in the amount we spend to promote our products and services;
- changes in the cost of satisfying our warranty obligations and

Edgar Filing: TRANSACT TECHNOLOGIES INC - Form 10-K

servicing our installed base of printers;

- delays between our expenditures to develop and market new or enhanced printers and consumables and the generation of sales from those products;
- development of new competitive printers by others;
- the geographic distribution of our sales;
- our responses to price competition;
- the outcome of lawsuits between TransAct and FutureLogic, Inc.
- market acceptance of our products, both domestically and internationally;
- availability of third-party components at reasonable prices;
- general economic and industry conditions, including changes in interest rates affecting returns on cash balances and investments, that affect customer demand;
- severe weather events (such as hurricanes) that can disrupt or interrupt the operation of our customers facilities; and
- our level of research and development activities.

Due to all of the foregoing factors, and the other risks discussed in this report, quarter-to-quarter comparisons of our operating results may not be an indicator of future performance.

Our stock price may fluctuate significantly.

8

The market price of our common stock could fluctuate significantly in response to variations in quarterly operating results and other factors, such as:

- changes in our business, operations or prospects;
- developments in our relationships with our customers;
- announcements of new products or services by us or by our competitors;
- announcement or completion of acquisitions by us or by our competitors;
- changes in existing or adoption of additional government regulations;
- unfavorable or reduced analyst coverage; and
- prevailing domestic and international market and economic conditions.

In addition, the stock market has experienced significant price fluctuations in recent years. Broad market fluctuations, general economic conditions and specific conditions in the industry in which we operate may adversely affect the market price of our common stock.

Limited trading volume of our capital stock may contribute to its price volatility.

Edgar Filing: TRANSACT TECHNOLOGIES INC - Form 10-K

Our common stock is traded on the NASDAQ National Market. During the twelve months ended December 31, 2006, the average daily trading volume for our common stock as reported by the NASDAQ National Market was approximately 53,900 shares. We are uncertain whether a more active trading market in our common stock will develop. In addition, many investment banks no longer find it profitable to provide securities research on micro-cap and small-cap companies. If analysts were to discontinue coverage of our common stock, our trading volume may be further reduced. As a result, relatively small trades may have a significant impact on the market price of our common stock, which could increase the volatility and depress the price of our common stock.

Future sales of our common stock may cause our stock price to decline.

In the future, we may sell additional shares of our common stock in public or private offerings, and we may also issue additional shares of our common stock to finance future acquisitions. Shares of our common stock are also available for future sale pursuant to stock options that we have granted to our employees, and in the future we may grant additional stock options and other forms of equity compensation to our employees. Sales of our common stock or the perception that such sales could occur may adversely affect prevailing market prices for shares of our common stock and could impair our ability to raise capital through future offerings.

We depend on key personnel, the loss of which could materially impact our business.

Our future success will depend in significant part upon the continued service of certain key management and other personnel and our continuing ability to attract and retain highly qualified managerial, technical and sales and marketing personnel. There can be no assurance that we will be able to recruit and retain such personnel. The loss of Bart C. Shuldman, the Company's Chairman of the Board, President and Chief Executive Officer, or the loss of certain groups of key employees, could have a material adverse effect on our results of operations.

We source some of our component parts from sole source suppliers; any disruptions may impact our ability to manufacture and sell our products.

A disruption in the supply of such component parts could have a material adverse effect on our operations and financial results.

The inability to protect intellectual property could harm our reputation, and our competitive position may be materially damaged.

Our intellectual property is valuable and provides us with certain competitive advantages. Copyrights, patents, trade secrets and contracts are used to protect these proprietary rights. Despite these precautions, it may be possible for third parties to copy aspects of our products or, without authorization, to obtain and use information which we regard as trade secrets.

Infringement on the proprietary rights of others could put us at a competitive disadvantage, and any related litigation could be time consuming and costly.

Third parties may claim that we violated their intellectual property rights. To the extent of a violation of a third party's patent or other intellectual property right, we may be prevented from operating our business as planned and may be required to pay damages, to obtain a license, if available, or to use a non-infringing method, if possible, to accomplish our objectives. Any of these claims, with or without merit, could result in costly litigation and divert the attention of key personnel. If such claims are successful, they could result in costly judgments or settlements.

Edgar Filing: TRANSACT TECHNOLOGIES INC - Form 10-K

We sell a significant portion of our products internationally and purchase important components from foreign suppliers. These circumstances create a number of risks.

9

We sell a significant amount of our products to customers outside the United States. Shipments to international customers are expected to continue to account for a material portion of net sales. Risks associated with sales and purchases outside the United States include:

- Fluctuating foreign currency rates could restrict sales, or increase costs of purchasing, in foreign countries.
- Foreign governments may impose burdensome tariffs, quotas, taxes, trade barriers or capital flow restrictions.
- Political and economic instability may reduce demand for our products or put our foreign assets at risk.
- Restrictions on the export or import of technology may reduce or eliminate the ability to sell in or purchase from certain markets.
- Potentially limited intellectual property protection in certain countries, such as China, may limit recourse against infringing products or cause us to refrain from selling in certain geographic territories.

We cannot provide any assurance that current laws, or any laws enacted in the future, will not have a material adverse effect on our business.

Our operations are subject to laws, rules, regulations, including environmental regulations, government policies and other requirements in each of the jurisdictions in which we conduct business. Changes in laws, rules, regulations, policies or requirements could result in the need to modify our products and could affect the demand for our products, which may have an adverse impact on our future operating results. In addition, we must comply with new regulations restricting our ability to include lead and certain other substances in our products. If we do not comply with applicable laws, rules and regulations we could be subject to costs and liabilities and our business may be adversely impacted.

Our business could be adversely affected by actual or threatened terrorist attacks or the related heightened security measures, military actions and other efforts to combat terrorism.

Our business could be adversely affected by actual or threatened terrorist attacks or the related heightened security measures, military actions and other efforts to combat terrorism. It is possible that terrorist attacks could be directed at important locations for the gaming industry. Heightened security measures and other efforts to combat terrorism may also have an adverse effect on the gaming industry by reducing tourism. Any of these developments could also negatively affect the general economy and consumer confidence. Any downturn in the economy or in the gaming industry in particular could reduce demand for our products and adversely affect our business and results of operations. In addition, heightened security measures may cause certain governments to restrict the import/export of goods, which may have an adverse effect on our ability to buy/sell goods.

Edgar Filing: TRANSACT TECHNOLOGIES INC - Form 10-K

Additional risks and uncertainties not presently known to us or that we currently believe to be immaterial also may adversely impact our business. Should any risks or uncertainties develop into actual events, these developments could have material adverse effects on our business, financial condition, and results of operations.

We assume no obligation (and specifically disclaim any such obligation) to update these Risk Factors or any other forward-looking statements contained in this Annual Report to reflect actual results, changes in assumptions or other factors affecting such forward-looking statements, except as required by law.

ITEM 1B. UNRESOLVED STAFF COMMENTS

Not applicable.

ITEM 2. PROPERTIES.

Our corporate headquarters is currently located in Wallingford, CT. However, in November 2006, we entered into a ten-year lease for office space for a new, approximately 11,000 square feet corporate headquarters located in Hamden, CT. We expect to move into our corporate headquarters on approximately May 1, 2007. Concurrent with the signing of this new lease, we executed an agreement effective May 1, 2007 to terminate the lease agreement for our existing corporate headquarters and eastern region service center located in Wallingford, CT (the "Release Agreement"). Our global engineering and manufacturing center is located in Ithaca, NY. We also maintain a facility in Las Vegas, NV that serves as our global gaming and lottery headquarters and western region service center. Our eastern region service center is currently located in our Wallingford, CT facility, however, we are currently in negotiations for a new facility location.

Our principal facilities as of December 31, 2006 are listed below:

Location -----	Operations Conducted -----	Size (Approx. Sq. Ft.) -----	Owned or Leased -----
Wallingford, Connecticut	Executive offices and service center	49,000	Leased
Hamden, Connecticut	Executive offices	11,000	Leased
Ithaca, New York	Manufacturing facility	74,000	Leased
Las Vegas, Nevada	Service center and gaming and lottery sales headquarters	13,700	Leased
Doncaster, United Kingdom	Sales office and service center	2,800	Leased
Georgia (2), New York and Texas	Four regional sales offices	600	Leased

Edgar Filing: TRANSACT TECHNOLOGIES INC - Form 10-K

We believe that our facilities generally are in good condition, adequately maintained and suitable for their present and currently contemplated uses.

ITEM 3. LEGAL PROCEEDINGS.

On April 28, 2005, we announced that we filed a complaint in Connecticut Superior Court against FutureLogic, Inc. ("FutureLogic") of Glendale, California. The complaint charges FutureLogic with disseminating false and misleading statements, which impugn our business reputation with the intent of damaging our business. We assert claims of defamation, tortious interference with contractual relations, tortious interference with business expectancy, and violation of the Connecticut Unfair Trade Practices Act, and seek an award of compensatory and punitive damages, attorneys' fees and costs. FutureLogic removed this action to the United States District Court for the District of Connecticut and, on June 7, 2005, filed a motion to dismiss the claims for lack of jurisdiction. On December 7, 2005, we amended our complaint in the action pending in the District of Connecticut to add claims that FutureLogic's conduct violated the Lanham Act's bar on false and deceptive advertising.

On May 20, 2005, FutureLogic filed a complaint in the United States District Court for the Central District of California against us. The complaint charges us with false advertising, defamation, trade libel, intentional interference with prospective economic advantage, common law unfair competition and statutory unfair competition and seeks an award of compensatory and punitive damages, attorneys' fees and costs. On August 3, 2005, FutureLogic amended its complaint in California to seek a declaratory judgment that Patent No. 6,924,903 issued to us by the United States Patent and Trademark Office ("PTO") on August 2, 2005, for our dual-port printer technology, is invalid, and that FutureLogic is not infringing our patent. We moved to dismiss FutureLogic's action in California, on the grounds that any claims raised in that action should have been brought as part of the case filed by us in the District of Connecticut. In the alternative, we moved to stay the California action pending the resolution of jurisdictional motions in the Connecticut court.

On January 20, 2006, the California District Court filed an order granting our motion to stay the California proceeding pending the resolution of jurisdictional motions in the Connecticut case. Under the California court's order, should the Connecticut court find that it has jurisdiction over FutureLogic, FutureLogic's case will be transferred to the District of Connecticut for consolidation with the action pending in that forum. On September 1, 2006, the District of Connecticut dismissed our case because of a lack of jurisdiction. The decision was not on the merits of our claims, but on the jurisdiction of the court in which the suit was brought. The California District Court has been notified of this development. We intend to vigorously defend TransAct against FutureLogic's claims, which we believe to be without merit. At this stage in the proceedings we are unable to estimate any potential or probable liability.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS.

No matters were submitted to a vote of security holders during the last quarter of the year covered by this report.

PART II

ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES.

Edgar Filing: TRANSACT TECHNOLOGIES INC - Form 10-K

Our common stock is traded on the NASDAQ Global Market under the symbol TACT. As of February 28, 2007, there were 624 holders of record of the common stock. The high and low sales prices of the common stock reported during each quarter of the years ended December 31, 2006 and 2005 were as follows:

	Year Ended December 31, 2006		Year Ended December 31, 2005	
	High	Low	High	Low
First Quarter	\$ 9.90	\$7.80	\$22.19	\$9.90
Second Quarter	14.87	8.95	10.65	6.71
Third Quarter	11.23	8.49	10.35	6.95
Fourth Quarter	9.38	7.47	8.70	6.09

No dividends on common stock have been declared except for a cash dividend paid in lieu of fractional shares resulting from our three-for-two stock split in April 2004, and we do not anticipate declaring dividends in the foreseeable future. Our new credit agreement with TD Banknorth, N.A. restricts the payment of cash dividends on our common stock for the term of the agreement.

ISSUER PURCHASES OF EQUITY SECURITIES

On March 25, 2005, the Board of Directors approved a stock repurchase program ("the Stock Repurchase Program"). Under the Stock Repurchase Program, we are authorized to repurchase up to \$10 million of our outstanding shares of common stock from time to time in the open market over a three year period ending on March 25, 2008, depending on market conditions, share price and other factors.

The following table summarizes repurchases of our common stock in the quarter ended December 31, 2006:

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Approximate Doll Value of Shares that May Y Be Purchased under t Plans or Program
October 1, 2006 - October 31, 2006	--	\$ --	--	\$5,281,000
November 1, 2006 - November 30, 2006	126,000	\$8.81	126,000	\$4,170,000
December 1, 2006 - December 31, 2006	78,000	\$8.49	78,000	\$3,508,000
	-----		-----	
Total	204,000	\$8.69	204,000	
	=====		=====	

Edgar Filing: TRANSACT TECHNOLOGIES INC - Form 10-K

CORPORATE PERFORMANCE GRAPH

The following graph compares the cumulative total return on the Company's Common Stock from December 31, 2001 through December 31, 2006, with the CRSP Total Return Index for the Nasdaq Stock Market (U.S.) and the Nasdaq Computer Manufacturer Stocks Index. The graph assumes that \$100 was invested on December 31, 2001 in each of the Company's common stock, the CRSP Total Return Index for the Nasdaq Stock Market (U.S.) and the Nasdaq Computer Manufacturer Stocks Index, and that all dividends were reinvested.

	December 31,				
	2006	2005	2004	2003	2002
Balance Sheet Data:					
Total assets	\$33,706	\$29,332	\$34,099	\$26,361	\$22,030
Working capital	16,438	15,375	20,511	11,787	8,798
Long-term debt, excluding current portion	--	--	--	330	2,791
Redeemable convertible preferred stock	--	--	--	3,902	3,824
Shareholders' equity	24,290	21,257	23,715	10,347	6,545

- (1) Net income (loss) per share amounts have been restated to reflect a three-for-two stock split effected in the form of a stock dividend in April 2004.

14

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

This discussion should be read in conjunction with the Consolidated Financial Statements and notes thereto.

FORWARD LOOKING STATEMENTS

Certain statements included in this report, including without limitation statements in this Management's Discussion and Analysis of Financial Condition and Results of Operations, which are not historical facts are "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Forward-looking statements generally can be identified by the use of forward-looking terminology, such as "may", "will", "expect", "intend", "estimate", "anticipate", "believe", "project" or "continue" or the negative thereof or other similar words. All forward-looking statements involve risks and uncertainties, including, but not limited to those listed in Item 1A of this Annual Report. Actual results may differ materially from those discussed in, or implied by, the forward-looking statements. The forward-looking statements speak only as of the date of this report and we assume no duty to update them to reflect new, changing or unanticipated events or circumstances.

OVERVIEW

The year 2006 was a successful and much improved year for TransAct as compared to 2005. During 2006, we marked our tenth year as a publicly traded company by achieving a record level of sales. We also shipped a record 186,000 printers during 2006, led by our top-selling Epic 950(R) casino printer. In addition to our financial success, some of our other key accomplishments for 2006 include the following:

- Extending our sales contract through 2012 with GTECH for the purchase of our lottery printers
- Extending our strategic sales alliance through 2009 with Eurocoin, one

Edgar Filing: TRANSACT TECHNOLOGIES INC - Form 10-K

of Europe's leading suppliers of products for the amusement and gaming industries, to sell our gaming and casino printers in Europe and Africa

- Receiving three new patents, including another key patent in connection with dual port technology
- Partnering with Merley Paper Converters Ltd., the U.K.'s largest independent manufacturer of receipt paper rolls, for exclusive U.S. distribution rights for thermal receipt paper that has true full color images printed on the front or back under our newly-created POWEROLL(TM) brand
- Signing an agreement with a leading national office supply chain to supply inkjet cartridges with an expected annual sales value of \$1.4 million

We continue to focus on sales growth in our two core markets, POS and banking and gaming and lottery, and in our TransAct Services Group, to drive increased profitability. During 2006, our total net sales increased by 26% to approximately \$64,328,000. See the table below for a breakdown of our sales by market.

(In thousands)	Year ended		Year ended		Change	
	December 31, 2006	2006	December 31, 2005	2005	\$	%
POS and banking	\$16,858	26.2%	\$16,410	32.1%	\$ 448	2.7%
Gaming and lottery	34,677	53.9%	23,634	46.3%	11,043	46.7%
TransAct Services Group	12,793	19.9%	11,047	21.6%	1,746	15.8%
Total net sales	\$64,328	100.0%	\$51,091	100.0%	\$13,237	25.9%

We experienced an increase of approximately 3% in sales of POS and banking printers in 2006. Although we experienced increases in sales of our line of thermal printers and our Bankjet(R) printers to existing banking customers, these increases were largely offset by lower sales of our legacy line of POS impact printers, as these printers are being replaced by our newer thermal and inkjet printers. Our sales into the POS and banking market over the last several years have been impacted by a market shift in technology from impact printing to thermal and inkjet printing. This change in technology has resulted in declining sales of our impact printers that were at higher average selling prices and increasing sales of our thermal and inkjet printers that are at lower average selling prices. Although our unit sales volume has increased over the last several years, the revenue generated from those sales have not increased to the same extent due to lower average selling prices of thermal and inkjet printers as compared to impact printers. In fact, since 1996, unit sales of all of our printers, including POS and banking printers, have more than doubled, while average selling prices of these printers have declined by approximately 38%. We expect sales of legacy impact printers to continue to decline. In 2007, we plan to focus a substantial portion of our engineering and product development resources on continuing to expand our portfolio of POS printers. With the global POS printer market of approximately \$800 million, we have many opportunities for market share gains, primarily through increasing and enhancing our product portfolio, increasing geographic coverage, and growing our customer base.

Our focus in the gaming and lottery market is two-fold. On the lottery

Edgar Filing: TRANSACT TECHNOLOGIES INC - Form 10-K

side, we continue to hold a leading position based on our long-term purchase agreement with GTECH Corporation ("GTECH"), our largest customer and the world's

15

largest provider of lottery terminals, with approximately a 70% market share. GTECH has been our customer since 1995, and we continue to maintain a good relationship with them. In fact, during 2006, we extended our contract with GTECH through 2012. Currently, we fulfill substantially all of GTECH's printer requirements for lottery terminal installations and upgrades worldwide. During 2006, we experienced solid sales growth from GTECH, with total printer sales increasing by approximately \$4,499,000, or 65%, compared to 2005. However, our sales to GTECH each year are directly dependent on the timing and number of new and upgraded lottery terminal installations GTECH performs. Our sales to GTECH are not indicative of GTECH's overall business or revenue.

On the gaming side, our focus lies primarily in supplying printers for use in slot machines at casinos and racetracks, as well as in other gaming devices that print tickets, primarily in the United States, Europe and Australia, as well as in the emerging Asian market, including Macau. During 2006, our domestic gaming printer sales increased by 42% from 2005, as we gained market share in the U.S. casino market due to (1) our strategic alliance agreement with JCM American Corporation, the worldwide leading bill acceptor company, to sell our casino printers, (2) increased sales to IGT, the world's largest slot machine manufacturer, and (3) expanded acceptance of our new Epic 950(R) thermal casino printer. With the success of our Epic 950(R) thermal casino printer, and our expanding portfolio of patented technology on this printer, including dual port technology, we believe we are well positioned to continue to expand our market share in the North American slot machine market, which now stands at over 850,000 slot machines. In the international gaming market, we experienced our third consecutive record sales year in 2006, as our international gaming sales increased by 34% to \$8.4 million, largely due to sales growth from the Australian market. We expect continued strength from gaming sales internationally during 2007, as markets such as Europe, Australia and Asia (including Macau) continue to adopt and/or expand ticket printing for slot machines and other gaming machines, and as our new line of Epic printers launched in 2005 for the off-premise gaming market begin to take hold.

Our TransAct Services Group ("TSG"), which sells service, replacement parts and consumable products, including receipt paper, ribbons and inkjet cartridges, continues to offer a substantial growth opportunity and recurring revenue stream for TransAct. Even with declining sales of replacement parts for legacy impact printers as the installed base of these printers in the market declines, TSG revenue reached a record \$12,793,000 or 20% of net sales in 2006, representing an increase of 16% from 2005. During 2006, our sales benefited from increased sales from our maintenance services, including extended warranty contracts and our innovative 24-hour guaranteed replacement product service called TransAct Xpress(SM). In addition, our sales benefited from higher inkjet cartridge sales including incremental sales resulting from the signing of an agreement with a leading national office supply chain to supply inkjet cartridges. During 2006, we also partnered with Merley Paper Converters Ltd., the U.K.'s largest independent manufacturer of receipt paper rolls, to distribute exclusively in the U.S. specialized thermal receipt paper that will have true full color images printed on the front or back. This receipt paper, that we will market under our newly-created POWEROLL(TM) brand, will allow users the ability to leverage the receipt for branding and marketing purposes, while also helping to reduce copied receipt fraud. We remain focused on continuing to grow the lucrative TSG in 2007 and expect these initiatives to contribute to our growth.

Edgar Filing: TRANSACT TECHNOLOGIES INC - Form 10-K

Operationally, our gross margin and operating margin showed marked improvement during 2006, reflecting the investment we made in the growth elements of our business during 2005. During 2006, our gross margin improved to 34.8% compared to 30.5% in 2005, and our operating margin also improved to 9.5% compared to just 0.4% in 2005.

Overall, we reported net income of \$3.9 million and earnings per share (diluted) of \$0.40 per share for 2006. We also generated sufficient cash during 2006 to fund \$2.9 million of capital expenditures, repurchase \$2.6 million of our common stock (approximately 3% of our common stock outstanding) and finish the year with \$3.4 million of cash and no debt on our balance sheet as of December 31, 2006.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

Our discussion and analysis of our financial condition and results of operations are based upon our consolidated financial statements, which have been prepared by us in accordance with accounting principles generally accepted in the United States of America. These principles require the use of estimates, judgments and assumptions. Such estimates and judgments are based upon historical experience and certain assumptions that are believed to be reasonable in the particular circumstances. Those judgments affect both balance sheet items and income statement categories. Our estimates include those related to revenue recognition, allowance for doubtful accounts, inventory obsolescence, the valuation of deferred tax assets and liabilities, goodwill impairment, warranty obligations, restructuring accruals, share-based compensation and contingent liabilities. We evaluate our assumptions on an ongoing basis by comparing actual results with our estimates. Actual results may differ from the original estimates. The following accounting policies are those that we believe to be most critical in the preparation of our financial statements.

16

REVENUE RECOGNITION - Our typical contracts include the sale of printers, which are sometimes accompanied by separately-priced extended warranty contracts. We also sell spare parts, consumables, and other repair services (sometimes pursuant to multi-year product maintenance contracts), which are not included in the original printer sale and are ordered by the customer as needed. We recognize revenue pursuant to the guidance within SAB 104, "Revenue Recognition." Specifically, revenue is recognized when evidence of an arrangement exists, delivery (based on shipping terms which are generally FOB shipping point) has occurred, the selling price is fixed and determinable, and collectibility is reasonably assured. We provide for an estimate of product returns and price protection based on historical experience at the time of revenue recognition.

Revenue related to extended warranty and product maintenance contracts is recognized pursuant to FASB Technical Bulletin 90-1 ("FTB 90-1"), "Accounting for Separately Priced Extended Warranty and Product Maintenance Contracts." Pursuant to FTB 90-1, revenue related to separately priced product maintenance contracts is deferred and recognized over the term of the maintenance period. We record deferred revenue for amounts received from customers for maintenance contracts prior to the maintenance period.

Our customers have the right to return products that do not function properly within a limited time after delivery. We monitor and track product returns and record a provision for the estimated future returns based on historical experience. Returns have historically been within expectations and

Edgar Filing: TRANSACT TECHNOLOGIES INC - Form 10-K

the provisions established, but we cannot guarantee that we will continue to experience return rates consistent with historical patterns.

We offer some of our customer's price protection as an incentive to carry inventory of our product. These price protection plans provide that if we lower prices, we will credit them for the price decrease on inventory they hold. Our customers typically carry limited amounts of inventory, and we infrequently lower prices on current products. As a result, the amounts paid under these plans have not been material. However, we cannot guarantee that this minimal level will continue.

We charge our customers for shipping and handling services. The amounts billed to customers are recorded as revenue when the product ships. Any costs incurred related to these services are included in cost of sales.

ACCOUNTS RECEIVABLE - We have standardized credit granting and review policies and procedures for all customer accounts, including: credit reviews of all new customer accounts; ongoing credit evaluations of current customers; credit limits and payment terms based on available credit information; and adjustments to credit limits based upon payment history and the customer's current creditworthiness. We also provide an estimate of doubtful accounts based on historical experience and specific customer collection issues. Our allowance for doubtful accounts as of December 31, 2006 was \$204,000, or 1.8% of outstanding accounts receivable, which we feel is appropriate considering the overall quality of our accounts receivable. While credit losses have historically been within expectations and the reserves established, we cannot guarantee that our credit loss experience will continue to be consistent with historical experience. As of December 31, 2006, we had accounts receivable balances due from three customers of approximately 14%, 14% and 10%, respectively, of the total balance due, and no other customer accounts receivable balance exceeded 10%. As of December 31, 2005, we had accounts receivable balances due from one customer of 19% of the total balance due, and no other customer accounts receivable balance exceeded 10%.

INVENTORY - Our inventories are valued at the lower of cost or market. We assess market value based on historical usage and estimates of future demand. Assumptions are reviewed at least quarterly and adjustments are made, as necessary, to reflect changing market conditions. Should circumstances change and we determine that additional inventory is subject to obsolescence, additional write-downs of inventory could result in a charge to income. As of December 31, 2006, our net inventory included a reserve of \$1,900,000, or 20.1% of gross inventory, to write inventory down to lower of cost or market.

GOODWILL - We test the impairment of goodwill each year or more frequently if events or changes in circumstances indicate that the carrying value may not be recoverable. We completed our last assessment as of December 31, 2006. Factors considered that may trigger an impairment review are: significant underperformance relative to expected historical or projected future operating results; significant changes in the manner of use of acquired assets or the strategy for the overall business; significant negative industry or economic trends; and significant decline in market capitalization relative to net book value. Goodwill amounted to \$1,469,000 at December 31, 2006 and we have determined that no goodwill impairment has occurred.

INCOME TAXES - In preparing our consolidated financial statements, we are required to estimate income taxes in each of the jurisdictions in which we operate. This involves estimating the actual current tax exposure together with assessing temporary differences between the tax basis of certain assets and liabilities and their reported amounts in the financial statements, as well as net operating losses, tax credits and other carryforwards. These differences result in deferred tax assets

and liabilities, which are included within our consolidated balance sheets. We then assess the likelihood that the deferred tax assets will be realized from future taxable income, and to the extent that we believe that realization is not likely, we establish a valuation allowance.

Significant judgment is required in determining the provision for income taxes and, in particular, any valuation allowance or tax reserves with respect to our deferred tax assets and uncertain tax positions. On a quarterly basis, we evaluate the recoverability of our deferred tax assets based upon historical results and forecasted taxable income over future years, and match this forecast against the basis differences, deductions available in future years and the limitations allowed for net operating loss and tax credit carryforwards to ensure that there is adequate support for the realization of the deferred tax assets. While we have considered future taxable income and ongoing prudent and feasible tax planning strategies in assessing the need for a valuation allowance or tax reserve, in the event we were to determine that we would not be able to realize all or part of our deferred tax assets in the future, an adjustment to the valuation allowance or tax reserves would be charged as a reduction to income in the period such determination was made. Likewise, should we determine that we would be able to realize future deferred tax assets in excess of its net recorded amount, an adjustment to the valuation allowance or tax reserves would increase net income in the period such determination was made.

In July 2006, the FASB issued FIN 48, "Accounting for Uncertainty in Income Taxes", which will be effective the first quarter of 2007. Based on the "more-likely-than-not" standard under FIN 48, we expect that this guidance may impact the Company's recognition of tax benefits related to uncertain tax positions. However, the Company has not yet finalized its assessment of FIN 48.

As of December 31, 2006, we recorded a net deferred tax asset of approximately \$2,709,000, net of a valuation allowance of \$64,000, and a tax reserve of \$333,000, primarily on portions of certain tax credits. We will need to recognize approximately \$6.8 million in future taxable income in order to realize all of our deferred tax assets at December 31, 2006. Based on our projection of future taxable income, no additional valuation allowance is considered necessary. Should circumstances change and we determine that some or all of the deferred taxes would not be realized, a valuation allowance would be recorded, resulting in a charge to income in the period such determination is made.

RESTRUCTURING - In February 2001, we announced plans to establish a global engineering and manufacturing center at our Ithaca, NY facility. As part of this strategic decision, we undertook a plan to consolidate all manufacturing and engineering into our existing Ithaca, NY facility and close our Wallingford, CT manufacturing facility (the "Consolidation"). As of December 31, 2001, we successfully transferred substantially all our Wallingford operations to Ithaca, NY, with the exception of our Corporate headquarters and a service center that remains in Connecticut. The closing of the Wallingford manufacturing facility resulted in the related termination of employment of approximately 70 production, administrative and management employees.

In connection with the Consolidation of manufacturing facilities in 2001, we recorded significant accruals. Through December 31, 2006, we have recognized approximately \$5.5 million of expenses associated with the Consolidation, including severance pay, stay bonuses, employee benefits, moving expenses, non-cancelable lease payments, and other costs. Management has made reasonable estimates of such costs and expenses. During November 2006, we executed an

Edgar Filing: TRANSACT TECHNOLOGIES INC - Form 10-K

agreement, effective May 1, 2007, to terminate the lease agreement for our Wallingford, CT facility. As a result, we changed our estimate of the restructuring accrual and reversed approximately \$479,000 of restructuring expenses in 2006. We do not expect to incur any additional restructuring expenses related to the Consolidation.

WARRANTY - We generally warrant our products for up to 24 months and record the estimated cost of such product warranties at the time the sale is recorded. Estimated warranty costs are based upon actual past experience of product repairs and the related estimated cost of labor and material to make the necessary repairs. If actual future product repair rates or the actual costs of material and labor differ from the estimates, adjustments to the accrued warranty liability and related warranty expense would be made.

CONTINGENCIES - We record an estimated liability related to contingencies based on our estimates of the probable outcomes pursuant to FAS 5. On a quarterly basis, we assess the potential liability related to pending litigation, audits and other contingencies and confirm or revise estimates and reserves as appropriate. If the actual liabilities are settled in an amount greater than those recorded on the balance sheet, a change to income would be recorded.

SHARE-BASED COMPENSATION - We calculate share-based compensation expense in accordance with SFAS 123(R), "Share-Based Payment (as amended)" using the Black-Scholes option-pricing model to calculate the fair value of share-based awards. The key assumptions for this valuation method include the expected term of an option grant, and the stock price volatility, risk-free interest rate, dividend yield, and forfeiture rate. The determination of these assumptions is based on

18

past history and future expectations, and is subject to a high level of judgment. To the extent any of the assumptions were to change from year to year, the fair value of new option grants may vary significantly.

(A) RESULTS OF OPERATIONS

(I) YEAR ENDED DECEMBER 31, 2006 COMPARED TO YEAR ENDED DECEMBER 31, 2005

NET SALES. Net sales, which include printer sales and sales of spare parts, consumables and repair services, by market for the years ended December 31, 2006 and 2005 were as follows:

(In thousands)	Year ended		Year ended		Change	
	December 31, 2006	December 31, 2006	December 31, 2005	December 31, 2005	\$	%
Point of sale and banking	\$16,858	26.2%	\$16,410	32.1%	\$ 448	2.7%
Gaming and lottery	34,677	53.9%	23,634	46.3%	11,043	46.7%
TransAct Services Group	12,793	19.9%	11,047	21.6%	1,746	15.8%
	-----	-----	-----	-----	-----	-----
	\$64,328	100.0%	\$51,091	100.0%	\$13,237	25.9%
	=====	=====	=====	=====	=====	=====
International*	\$14,138	22.0%	\$12,318	24.1%	\$ 1,820	14.8%
	=====	=====	=====	=====	=====	=====

Edgar Filing: TRANSACT TECHNOLOGIES INC - Form 10-K

* International sales do not include sales of printers made to domestic distributors or other domestic customers who in turn ship those printers to international destinations.

Net sales for 2006 increased \$13,237,000, or 26%, from 2005 due to significantly higher printer shipments into our gaming and lottery market, as well as increased sales from our TransAct Services Group and a slight increase in printer shipments into our POS and banking market. Overall, international sales increased by \$1,820,000, or 15%, due largely to higher international shipments of our gaming printers, primarily to Australia, somewhat offset by lower POS printer shipments through our international distributors.

Point of sale and banking: Revenue from the POS and banking market includes sales of inkjet, thermal and impact printers used primarily by retailers in the hospitality, restaurant (including fine dining, casual dining and fast food) and specialty retail industries to print receipts for consumers, validate checks, or print on other inserted media. Revenue from this market also includes sales of printers used by banks, credit unions and other financial institutions to print and/or validate receipts at bank teller stations. Sales of our POS and banking printers worldwide increased approximately \$448,000, or 3%, from 2005.

(In thousands)	Year ended		Year ended		Change	
	December 31, 2006	December 31, 2005	December 31, 2006	December 31, 2005	\$	%
Domestic	\$15,410	91.4%	\$14,188	86.5%	\$1,222	8.6%
International	1,448	8.6%	2,222	13.5%	(774)	(34.8%)
	\$16,858	100.0%	\$16,410	100.0%	\$ 448	2.7%

Domestic POS and banking printer sales increased to \$15,410,000, representing a \$1,222,000, or 9%, increase from 2005, due primarily to higher sales of (1) our line of thermal printers including our new thermal printer launched in 2005 exclusively for POS distributors and (2) our Bankjet(R) line of inkjet printers to existing banking customers. Although we are currently pursuing additional banking opportunities, due to the project-oriented nature of these sales, we cannot predict if and when future sales may occur. These increases were offset by lower sales of our legacy line of POS impact printers, as expected, as these printers are being replaced by our newer thermal and inkjet printers. Our sales into the POS and banking market over the last several years have been impacted by a shift in technology in the market from impact printing technology to thermal and inkjet printing technology. This change in technology has resulted in declining sales of our impact printers that were at higher average selling prices and increasing sales of our thermal and inkjet printers that are at lower average selling prices. And, although our unit sales volume has increased over the last several years, the revenue generated from those sales have not increased to the same extent due to lower average selling prices of thermal and inkjet printers as compared to impact printers.

International POS and banking printer sales decreased by approximately \$774,000, or 35%, due primarily to lower sales of our legacy impact printers to our international POS distributors in Europe and Latin America, somewhat offset by higher sales of our iTHERM(R) 280 thermal printer to our distributors in Latin America.

Gaming and lottery: Revenue from the gaming and lottery market includes sales of printers used in slot machines, video lottery terminals ("VLTs") and other gaming machines that print tickets instead of issuing coins ("ticket-in, ticket-out" or "TITO") at casinos, racetracks ("racinos") and other gaming venues worldwide. Revenue from this market also includes sales of lottery printers to GTECH, the world's largest provider of lottery terminals, for various lottery applications. Sales of our gaming and lottery printers increased by \$11,043,000, or 47%, from 2005, primarily due to an increase in sales of our slot machine and other gaming printers, both domestically and internationally, as well as higher sales of lottery printers to GTECH.

(In thousands)	Year ended		Year ended		Change	
	December 31, 2006		December 31, 2005		\$	%
Domestic	\$25,198	72.7%	\$16,271	68.8%	\$ 8,927	54.9%
International	9,479	27.3%	7,363	31.2%	2,116	28.7%
	-----	-----	-----	-----	-----	-----
	\$34,677	100.0%	\$23,634	100.0%	\$11,043	46.7%
	=====	=====	=====	=====	=====	=====

Domestic sales of our gaming and lottery printers increased by \$8,927,000, or 55%, from 2005 due largely to a significant increase in both sales of lottery printers to GTECH and thermal casino printers. Lottery printer sales to GTECH (excluding any international sales), which include thermal on-line lottery and other lottery printers, increased by approximately \$4,512,000, or 77%, in 2006 compared to 2005. Our sales to GTECH are directly dependent on the timing and number of new and upgraded lottery terminal installations GTECH performs, and as a result, may fluctuate significantly between quarters and years. Our sales to GTECH are not indicative of GTECH's overall business or revenue.

Domestic gaming printer sales increased by approximately \$4,415,000 driven primarily by increased market share as we continue to benefit from our sales relationship with JCM American Corporation.

International gaming and lottery printer sales increased by approximately \$2,116,000, or 29%, to \$9,479,000 in 2006 compared to 2005. Such sales represented 27% and 31% of total sales into our gaming and lottery market during 2006 and 2005, respectively. This increase was led primarily by continued growth in international gaming printer sales, primarily in Australia and Asia, as these international markets continue to expand ticket printing in slot machines and other gaming machines. In addition, we experienced higher gaming printer sales in Canada, and slightly lower international lottery printer sales to GTECH.

TransAct Services Group: Revenue from TSG includes sales of consumable products (inkjet cartridges, ribbons and receipt paper), replacement parts, maintenance and repair services, refurbished printers and shipping and handling charges. Sales by TSG increased by approximately \$1,746,000, or 16%.

Year ended	Year ended	Change

Edgar Filing: TRANSACT TECHNOLOGIES INC - Form 10-K

(In thousands)	December 31, 2006		December 31, 2005		\$	%
-----	-----	-----	-----	-----	-----	-----
Domestic	\$ 9,582	74.9%	\$ 8,314	75.3%	\$1,268	15.3%
International	3,211	25.1%	2,733	24.7%	478	17.5%
	-----	-----	-----	-----	-----	-----
	\$12,793	100.0%	\$11,047	100.0%	\$1,746	15.8%
	=====	=====	=====	=====	=====	=====

Domestic TSG revenue increased by approximately \$1,268,000 or 15%, to \$9,582,000 due to revenue generated from service contracts, as well as increased sales of refurbished printers and consumable products. These increases were somewhat offset by a decline in the sale of replacement parts for certain legacy impact printers, as the installed base of these legacy printers in the market declines. International TSG sales increased by approximately \$478,000, or 18%, to \$3,211,000, due largely to an increase in maintenance and repair services revenue, as well as increased sales of consumable products.

The primary operations of our United Kingdom subsidiary, a European sales and service center, relates to revenue generated from a service contract from a single customer in the United Kingdom. The contract has a termination date of May 2007. We do not expect that such contract will be renewed at the same volume of activity as the previous contract. We are currently evaluating the impact that this may have on our financial results.

GROSS PROFIT. Gross profit is measured as revenue less cost of goods sold. Cost of goods sold includes primarily the cost of all raw materials and component parts, direct labor, and the associated manufacturing overhead expenses. Gross profit increased by \$6,775,000, or 43%, to \$22,365,000, and gross margin increased to 34.8% from 30.5% due primarily to a higher volume of sales and a more favorable sales mix in 2006 compared to 2005, as well as lower product costs resulting from increased sourcing of components for our printers in Asia. In addition, gross profit for 2005 was negatively impacted

20

by a charge of \$600,000, or 1.2% of net sales, related to the write-down of inventory and accrual for estimated settlement/cancellation payments for non-cancelable purchase orders for certain excess inventory components related primarily to our Model 850 casino ticket printer. The charge was largely the result of the faster than expected acceptance of our new Epic 950(R) casino ticket printer, which replaces our Model 850 casino ticket printer.

ENGINEERING AND PRODUCT DEVELOPMENT. Engineering, design and product development expenses primarily include salary and payroll related expenses for our engineering staff, depreciation and design expenses (including prototype printer expenses, outside design and testing services and supplies). Such expenses increased by \$98,000, or 4%, to \$2,824,000, from 2005 as we incurred higher expenses related to increased engineering staffing and other employee compensation expenses and product development expenses related to our new line of off-premise gaming printers, which were largely offset by a decrease in costs associated with International Game Technology's ("IGT") integration and attainment of jurisdictional approvals for our Epic 950(R) thermal casino printer on all of IGT's slot platforms worldwide (the "IGT Integration"). We incurred approximately \$150,000 of IGT Integration costs in 2005 that did not recur in 2006. Engineering and product development expenses decreased as a percentage of net sales to 4.4% from 5.3%, primarily due to higher sales volume in 2006 compared to 2005.

Edgar Filing: TRANSACT TECHNOLOGIES INC - Form 10-K

SELLING AND MARKETING. Selling and marketing expenses primarily include salaries and payroll related expenses for our sales and marketing staff, sales commissions, travel expenses, expenses associated with the lease of sales offices, advertising, trade show expenses and other promotional marketing expenses. Selling and marketing expenses increased by \$573,000, or 9%, to \$6,892,000, as we incurred the full year effect in 2006 of expenses related to the addition of new corporate marketing staff, and new sales staff for our three strategic sales units, including those for our service centers in Las Vegas, NV and Wallingford, CT, made throughout 2005. We also incurred increased expenses related to demonstration printers and the redesign of our website that we re-launched in August 2006. These increases were somewhat offset by decreased travel, trade show, advertising, consulting and other promotional marketing expenses compared with 2005. Selling and marketing expenses decreased as a percentage of net sales to 10.7% from 12.4%, due primarily to higher sales volume in proportion to a higher level of expenses in 2006 compared to 2005.

GENERAL AND ADMINISTRATIVE. General and administrative expenses primarily include: salaries and payroll related expenses for our executive, accounting, human resource and information technology staff, expenses for our corporate headquarters, professional and legal expenses, telecommunication expenses, and other expenses related to being a publicly-traded company. General and administrative expenses increased by \$719,000, or 11%, due primarily to (1) the full year effect in 2006 of compensation related expenses associated with the relocation of our accounting department from Ithaca, NY to Wallingford, CT during 2005, (2) expenses associated with the Company's Oracle implementation including data conversion expenses, temporary help, travel and compensation related expenses, (3) approximately \$220,000 of legal and consulting services related to a potential acquisition that was not consummated, (4) higher incentive compensation expenses based on the Company's improved performance in 2006 and (5) increased telecommunications expenses associated with the implementation of our new company-wide phone system. These increases were partially offset by lower travel expenses and a decrease in recruiting costs incurred during 2005 related to the relocation of our accounting department and the increased staffing of the TSG sales unit that did not recur in 2006. General and administrative expenses decreased as a percentage of net sales to 10.9% from 12.4%, due primarily to increased sales in proportion to higher expenses in 2006 as compared to 2005.

BUSINESS CONSOLIDATION AND RESTRUCTURING. During the fourth quarter of 2006, we executed an agreement, effective May 1, 2007, to terminate the lease agreement for our existing corporate headquarters and eastern region service center facility located in Wallingford, CT (the "Release Agreement"). Prior to the execution of the Release Agreement, we accrued for the remaining non-cancelable lease payments and other related costs for this facility through the expiration date of the lease (March 31, 2008). As a result of the Release Agreement and the early termination of the old lease, we were released from the legal obligation for lease payments after May 1, 2007 and, accordingly, we reversed \$479,000 of previously accrued expenses related to the Consolidation in the fourth quarter of 2006. As of December 31, 2006, we have provided for the estimated remaining non-cancelable lease payments and other related costs for this facility through the new termination date of the lease (May 1, 2007).

We do not expect to incur any further restructuring expenses or to adjust our restructuring accrual. The restructuring accrual balance will be reduced to zero as of May 1, 2007.

OPERATING INCOME. During 2006, we reported operating income of \$6,088,000, or 9.5% of net sales, compared to \$224,000, or 0.4% of net sales, in 2005. The substantial increase in our operating income and operating margin was due largely to the operating leverage we experienced in 2006 resulting from higher sales and gross profit, somewhat offset by higher operating expenses, compared to that of 2005.

INTEREST. We recorded net interest income of \$104,000 in 2006 compared to net interest income of \$73,000 in 2005. Even though our average cash balance was lower in 2006 compared to 2005 due largely to the repurchase of common stock under our stock repurchase program, our net interest income still increased as we substantially improved our overall rate of return on our invested cash balance. See "Liquidity and Capital Resources" below for more information.

OTHER EXPENSE. We recorded other expense of \$159,000 in 2006 due primarily to transaction exchange losses recorded by our UK subsidiary in 2006 due to the weakening of the U.S. dollar against the British pound. We recorded other income of \$32,000 in 2005 due primarily to transaction exchange gains due to the strengthening of the U.S. dollar against the British pound in 2005.

INCOME TAXES. We recorded an income tax provision of \$2,117,000, at an effective rate of 35.1% during 2006 compared to an income tax benefit of \$48,000, at an effective rate of (14.6%) in 2005. During 2005, we recorded an income tax benefit, as compared to an income tax provision in 2006, as we recognized certain discrete tax benefits and tax credits and reversed certain valuation allowances during 2005, combined with an unusually low level of income before taxes.

NET INCOME. We reported net income in 2006 of \$3,916,000, or \$0.40 per diluted share compared to net income of \$377,000, or \$0.04 per diluted share in 2005.

(II) YEAR ENDED DECEMBER 31, 2005 COMPARED TO YEAR ENDED DECEMBER 31, 2004

NET SALES. Net sales, which include printer sales and sales of spare parts, consumables and repair services, by market for the years ended December 31, 2005 and 2004 were as follows:

(In thousands)	Year ended		Year ended		Change	
	December 31, 2005		December 31, 2004		\$	%
Point of sale and banking	\$16,410	32.1%	\$17,659	29.5%	\$ (1,249)	(7.1%)
Gaming and lottery	23,634	46.3%	31,937	53.4%	(8,303)	(26.0%)
TransAct Services Group	11,047	21.6%	10,251	17.1%	796	7.8%
	-----	-----	-----	-----	-----	-----
	\$51,091	100.0%	\$59,847	100.0%	\$ (8,756)	(14.6%)
	=====	=====	=====	=====	=====	=====
International	\$12,318	24.1%	\$ 6,423	10.7%	\$ 5,895	91.8%
	=====	=====	=====	=====	=====	=====

* International sales do not include sales of printers made to domestic distributors or other domestic customers who in turn ship those printers to international destinations.

Net sales for 2005 decreased \$8,756,000, or 15%, from 2004 due to significantly lower printer shipments into our gaming and lottery market, as well as lower printer shipments into our POS and banking market. However, sales from our TransAct Services Group increased by \$796,000, or 8%, from 2004, as our

Edgar Filing: TRANSACT TECHNOLOGIES INC - Form 10-K

installed base of printers grows and as we continue to aggressively pursue these after-market sales. Overall, international sales almost doubled to \$12,318,000, due largely to higher international shipments of our gaming printers, primarily to Europe and Australia, as well as international shipments of lottery printers to GTECH.

Point of sale and banking: Sales of our POS and banking printers worldwide decreased approximately \$1,249,000, or 7%, from 2004.

(In thousands)	Year ended		Year ended		Change	
	December 31, 2005		December 31, 2004		\$	%
	-----	-----	-----	-----	-----	-----
Domestic	\$14,188	86.5%	\$15,734	89.1%	\$(1,546)	(9.8%)
International	2,222	13.5%	1,925	10.9%	297	15.4%
	-----	-----	-----	-----	-----	-----
	\$16,410	100.0%	\$17,659	100.0%	\$(1,249)	(7.1%)
	=====	=====	=====	=====	=====	=====

Domestic POS and banking printer sales decreased to \$14,188,000, or 10%, due largely to significantly lower shipments of our BANKjet(R) line of inkjet printers in 2005 as compared to 2004. We experienced this decrease due to the project-oriented nature of banking printer sales. During 2004, we shipped banking printers to two top-tier financial services companies. However, during 2005, we shipped banking printers primarily to only one top-tier financial services company. The decrease in banking printer sales was slightly offset by increasing sales of our POS printers, primarily our iTHERM(R)

22

280 thermal printer and our new line of printers exclusively for POS distributors. Excluding banking printers, sales of our POS printers increased by 2% in 2005 compared to 2004.

International POS and banking printer sales increased by approximately \$297,000, or 15%, due primarily to higher sales through our growing network of international POS distributors in Europe and Latin America, somewhat offset by lower sales to distributors in the Pacific Rim.

Gaming and lottery: Revenue from the gaming and lottery market includes sales of printers used in slot machines, video lottery terminals ("VLTs") and other gaming machines that print tickets instead of issuing coins ("ticket-in, ticket-out" or "TITO") at casinos, racetracks ("racinos") and other gaming venues worldwide. Revenue from this market also includes sales of lottery printers to GTECH, the world's largest provider of lottery terminals, for various lottery applications. Sales of our gaming and lottery printers decreased by \$8,303,000, or 26%, from 2004, primarily due to a decrease in sales of slot machine printers in North America, as well as a decrease in sales of lottery printers to GTECH. This decrease was partially offset by significantly higher sales of our slot machine and other gaming printers in Europe and Australia.

	Year ended	Year ended	Change
	-----	-----	-----

Edgar Filing: TRANSACT TECHNOLOGIES INC - Form 10-K

(In thousands)	December 31, 2005		December 31, 2004		\$	%
	-----	-----	-----	-----	-----	-----
Domestic	\$16,271	68.8%	\$29,692	93.0%	\$ (13,421)	(45.2%)
International	7,363	31.2%	2,245	7.0%	5,118	228.0%
	-----	-----	-----	-----	-----	-----
	\$23,634	100.0%	\$31,937	100.0%	\$ (8,303)	(26.0%)
	=====	=====	=====	=====	=====	=====

Domestic sales of our gaming and lottery printers declined by \$13,421,000, or 45%, from 2004. Due to the continued decline in slot machine sales into the domestic casino market, including the effects of Hurricane Katrina, lower capital spending due to mergers of major casino operators, and the loss of revenue from a large slot machine manufacturer as it depletes a large inventory position, we experienced significantly lower sales of our TITO casino printers throughout North America during 2005.

Printer sales to GTECH Corporation (a worldwide lottery terminal provider and major customer), which include impact and thermal on-line lottery printers, decreased by approximately \$1,153,000, or 14%, in 2005 compared to 2004. This decrease was largely due to shipments of legacy impact printers to GTECH in 2004 that did not recur in 2005.

International gaming and lottery printer sales more than tripled to \$7,363,000 in 2005 compared to 2004. Such sales represented 31% and 7% of total sales into our gaming and lottery market during 2005 and 2004, respectively. We experienced growth in both international gaming and lottery printer sales in 2005 as markets in Europe and Australia continue to adopt and roll out ticket printing in slot machines and other gaming/amusement machines, and GTECH installs our lottery printers in its international markets.

TransAct Services Group: Revenue from TSG includes sales of consumable products (inkjet cartridges, ribbons and receipt paper), replacement parts, maintenance and repair services, refurbished printers and shipping and handling charges. Sales by TSG increased by approximately \$796,000, or 8%.

(In thousands)	Year ended		Year ended		Change	
	December 31, 2005	December 31, 2004	December 31, 2005	December 31, 2004	\$	%
	-----	-----	-----	-----	-----	-----
Domestic	\$ 8,314	75.3%	\$ 7,998	78.0%	\$316	4.0%
International	2,733	24.7%	2,253	22.0%	480	21.3%
	-----	-----	-----	-----	-----	-----
	\$11,047	100.0%	\$10,251	100.0%	\$796	7.8%
	=====	=====	=====	=====	=====	=====

Domestic TSG revenue increased by approximately \$316,000 or 4%, to \$8,314,000 largely due to higher revenue from maintenance and repair services and refurbished printer sales, offset by a decline in the sale of spare parts, mostly for legacy printers. International TSG sales increased by approximately \$480,000, or 21%, to \$2,733,000, due primarily to an increase in service revenue.

GROSS PROFIT. Gross profit decreased by \$6,452,000, or 29%, to \$15,590,000, and gross margin decreased to 30.5% from 36.8% due primarily to lower volume of sales in 2005 compared to 2004 and a less favorable sales mix. In addition, gross profit for 2005 was negatively impacted by a charge of \$600,000, or 1.2%

Edgar Filing: TRANSACT TECHNOLOGIES INC - Form 10-K

of net sales, related to the write-down of inventory and accrual for estimated settlement/cancellation payments for non-cancelable purchase orders for certain excess inventory components related primarily to our Model 850 casino ticket printer. The charge was largely the result of the

23

faster than expected acceptance of our new Epic 950(R) casino ticket printer, which replaces our Model 850 casino ticket printer.

ENGINEERING AND PRODUCT DEVELOPMENT. Engineering, design and product development expenses increased slightly by \$11,000, or less than 1%, to \$2,726,000, from 2004 as we incurred higher expenses related to increased engineering staffing and other employee compensation expenses, which were almost entirely offset by a decrease in costs associated with IGT's integration and attainment of jurisdictional approvals for our new Epic 950(R) thermal casino printer on all of IGT's slot platforms worldwide (the "IGT Integration"). We incurred approximately \$150,000 of IGT Integration costs in 2005 compared to \$350,000 in 2004. Engineering and product development expenses increased as a percentage of net sales to 5.3% from 4.5%, primarily due to lower sales volume in 2005 compared to 2004.

SELLING AND MARKETING. Selling and marketing expenses increased by \$1,208,000, or 24%, to \$6,319,000, due primarily to increased expenses related to (1) the addition of new sales staff for our three business units and our new service centers in Las Vegas, NV and Wallingford, CT, (2) marketing, promotional and trade show expenses related to the launch of our new line of printers exclusively for POS distributors and our increased presence at this year's Global Gaming Exposition (G2E) trade show in Las Vegas, NV, and (3) the recruitment and hiring of a Senior Vice President of Marketing during the second quarter of 2005. Selling and marketing expenses increased as a percentage of net sales to 12.4% from 8.5%, due primarily to the increases noted above in proportion to lower sales volume in 2005 compared to 2004.

GENERAL AND ADMINISTRATIVE. General and administrative expenses increased by \$331,000, or 6%, due primarily to (1) recruiting and compensation related expenses associated with the re-location of our accounting department from Ithaca, NY to Wallingford, CT, (2) higher legal expenses related to our lawsuit against FutureLogic, Inc., and (3) increased software maintenance, travel, training and temporary help expenses associated with our Oracle software implementation. These increases were partially offset by (1) a decrease related to a one-time listing fee incurred in 2004 resulting from our move back onto the NASDAQ National Market from the NASDAQ SmallCap Market, (2) lower audit and professional expenses related to compliance with the Sarbanes-Oxley Act of 2002 incurred during 2005 (our second year of compliance) compared to 2004 (our initial year of compliance), and (3) expenses incurred in 2004 associated with our proposed acquisition of TPG, Inc. that was terminated and did not recur in 2005. General and administrative expenses increased as a percentage of net sales to 12.4% from 10.0%, due primarily to the increased expenses noted above in proportion to a lower volume of sales in 2005 compared to 2004.

BUSINESS CONSOLIDATION AND RESTRUCTURING. We recorded a reversal of expense of \$225,000 related to the Consolidation in 2004. This amount was the result of a revision to our original estimate for non-cancelable lease payments included in the restructuring accrual.

OPERATING INCOME. During 2005, we reported operating income of \$224,000, or 0.4% of net sales, compared to \$8,451,000, or 14.1% of net sales, in 2004. The significant decrease in our operating income and operating margin was due

Edgar Filing: TRANSACT TECHNOLOGIES INC - Form 10-K

largely to lower sales and gross margin, and higher operating expenses (primarily selling and marketing expenses and general and administrative expenses).

INTEREST. We recorded net interest income of \$73,000 in 2005 compared to net interest income of \$4,000 in 2004, due to our higher average cash balances and slightly higher interest rates throughout 2005 as compared to 2004.

OTHER EXPENSE. We recorded other income of \$32,000 in 2005 compared to other expense of \$18,000 in 2004, due primarily to transaction exchange gains recorded by our UK subsidiary in 2005 due to the weakening of the British pound against the U.S. dollar as compared to transaction exchange losses recorded in 2004 due to the strengthening of the British pound against the U.S. dollar.

INCOME TAXES. We recorded an income tax benefit of \$48,000, at an effective rate of (14.6%) during 2005 compared to an income tax provision of \$2,979,000, at an effective rate of 35.3% in 2004. Despite reporting \$329,000 of income before taxes in 2005, we recorded a net income tax benefit, resulting largely from the recognition of certain discrete tax benefits and tax credits, as well as the reversal of valuation allowances during the year, combined with an unusually low level of income before taxes.

NET INCOME. We reported net income in 2005 of \$377,000, or \$0.04 per diluted share compared to net income of \$5,458,000, or \$0.51 per diluted share in 2004. Dividends paid in 2004 were approximately \$86,000, and there will be no dividends or allocation of earnings to preferred shareholders beyond 2004, as the preferred stock was converted to common stock in April 2004. All share and per share amounts reflect the April 2004 stock split on a retroactive basis.

24

(B) LIQUIDITY AND CAPITAL RESOURCES

CASH FLOW

Overview: During 2006, our cash flows reflected the results of higher sales volume, increased investment in infrastructure and our stock repurchase program as compared to 2005. Even with the repurchase of approximately \$2,625,000 of our common stock, and capital expenditures of \$2,891,000, we still finished 2006 with no outstanding bank debt and approximately \$3.4 million of cash and cash equivalents.

Operating activities: The following significant factors primarily affected our cash provided by operations of \$3,300,000 in 2006:

- We reported net income of \$3,916,000.
- We recorded depreciation, amortization and non-cash compensation expense of \$2,149,000.
- Accounts receivable increased by \$3,063,000 due primarily to a higher volume of sales in the fourth quarter of 2006 compared to the fourth quarter of 2005.
- Inventories increased by \$1,531,000 and accounts payable increased by \$1,138,000 due to higher inventory purchases and inventory levels related to higher sales volume in the fourth quarter of 2006 compared to the fourth quarter of 2005.

Edgar Filing: TRANSACT TECHNOLOGIES INC - Form 10-K

- Accrued liabilities and other liabilities increased by \$1,423,000 due to increases in: (1) compensation related accruals, (2) income tax accrual based on the increased level of income before taxes, (3) deferred revenue balances related to increased sales of extended service contracts, (4) accruals for legal fees and (5) consulting services accruals related to our Oracle software implementation. These increases were partly offset by a decrease in warranty accruals.
- Accrued restructuring expenses decreased by \$878,000 due to \$399,000 of payments made on our Wallingford, CT lease obligation and the reversal of \$479,000 of expense related to the execution of an agreement effective May 1, 2007 to terminate the lease agreement for our existing corporate headquarters located in Wallingford, CT.

Investing activities: Our capital expenditures were approximately \$2,891,000 and \$2,756,000 in 2006 and 2005, respectively. Expenditures in 2006 included approximately \$1,058,000 for the purchase of hardware, software and outside consulting costs related to our Oracle software implementation, \$366,000 for the purchase of hardware and consulting costs related to our new phone system, \$244,000 for the purchase of leasehold improvements made on the gaming and lottery headquarters and western region service center in Las Vegas, NV, with the remaining amount primarily related to the purchase of new product tooling.

Financing activities: We used approximately \$1,684,000 from financing activities during 2006, largely due to the repurchase of Company stock of approximately \$2,625,000, partly offset by proceeds and tax benefits from stock option exercises of approximately \$1,029,000. We also used approximately \$88,000 of cash related to deferred financing costs for the new revolving credit facility we entered into with TD Banknorth during November 2006.

WORKING CAPITAL

Our working capital increased to \$16,438,000 at December 31, 2006 from \$15,375,000 at December 31, 2005. The current ratio decreased to 2.9 to 1 at December 31, 2006 compared to 3.2 to 1 at December 31, 2005. The decrease in the current ratio was largely due to higher accounts payable resulting from higher sales volume and inventory purchases and an increase in income taxes payable resulting from a higher level of income before taxes, somewhat offset by higher accounts receivable and inventory levels. In addition, our working capital and current ratio were impacted by our stock repurchase program, as we continue to use available cash to repurchase shares of our common stock in the open market.

DEFERRED TAXES

As of December 31, 2006, we had a net deferred tax asset of approximately \$2,709,000. In order to utilize this deferred tax asset, we will need to generate approximately \$6.8 million of taxable income in future years. Based on future projections of taxable income, we have determined that it is more likely than not that the existing net deferred tax asset will be realized.

CREDIT FACILITY AND BORROWINGS

On November 28, 2006, we signed a new, five-year \$20 million credit facility (the "New TD Banknorth Credit Facility") with TD Banknorth, N.A. ("TD Banknorth"). The new credit facility provides for a \$20 million revolving credit line expiring on November 28, 2011. The New TD Banknorth Credit facility replaces a previous \$11.5 million credit facility also with TD Banknorth. Due to TransAct's improved financial performance, our New TD Banknorth Credit Facility provides substantially improved terms compared to our existing credit facility, including lower on-going costs, fewer financial covenants, reduced reporting requirements and a lower interest rate. Borrowings under the new revolving

credit line

25

bear a floating rate of interest at the prime rate minus one percent and are secured by a lien on all of our assets. We also pay a fee of 0.25% on unused borrowings under the revolving credit line. Deferred financing costs relating to expenses incurred to complete the New TD Banknorth Credit Facility were \$88,000 at December 31, 2006. The New TD Banknorth Credit Facility imposes certain quarterly financial covenants on us and restricts the payment of dividends on our common stock and the creation of other liens. We were in compliance with all financial covenants of the New TD Banknorth Credit Facility at December 31, 2006.

As of December 31, 2006, we had no balances outstanding on the revolving credit line. Undrawn commitments under the New TD Banknorth Credit facility were approximately \$20,000,000 at December 31, 2006.

STOCK REPURCHASE PROGRAM

On March 25, 2005, the Board of Directors approved a stock repurchase program ("the Stock Repurchase Program"). Under the Stock Repurchase Program, we are authorized to repurchase up to \$10 million of our outstanding shares of common stock from time to time in the open market over a three year period ending on March 25, 2008, depending on market conditions, share price and other factors. During 2006, we repurchased a total of 296,300 shares of common stock for approximately \$2,625,000 at an average price of \$8.86 per share. As of December 31, 2006, we have repurchased a total of 801,300 shares of common stock for approximately \$6,492,000, at an average price of \$8.10 per share.

SHAREHOLDERS' EQUITY

Shareholders' equity increased by \$3,033,000 to \$24,290,000 at December 31, 2006 from \$21,257,000 at December 31, 2005. The increase was primarily due to (1) net income of \$3,916,000, (2) proceeds of approximately \$687,000 from the issuance of approximately 136,000 shares of common stock from stock option exercises, (3) an increase in additional paid-in capital of approximately \$342,000 resulting from tax benefits from tax deductions arising from the sale of employee stock from stock option exercises and vesting of restricted stock, and (4) non-cash compensation expense of \$581,000 related to stock options and restricted stock, and (5) foreign currency translation adjustments of approximately \$132,000. These increases were offset by treasury stock purchases of 296,300 shares of common stock for approximately \$2,625,000.

CONSOLIDATION EXPENSES

During 2001 through 2007, we recognized approximately \$5.5 million of business consolidation, restructuring and related expenses as a result of the Consolidation. These expenses primarily included employee severance and termination related expenses, facility closure and consolidation expenses (including moving expenses, estimated non-cancelable lease payments and other costs) and accelerated depreciation and asset disposal losses on certain leasehold improvements and other fixed assets.

In November 2006, we executed an agreement, effective May 1, 2007, to terminate the lease agreement for our facility located in Wallingford, CT (the "Release Agreement"). Prior to the execution of the Release Agreement, we accrued for the remaining non-cancelable lease payments and other related costs for this facility through the expiration date of the lease (March 31, 2008). As

Edgar Filing: TRANSACT TECHNOLOGIES INC - Form 10-K

a result of the Release Agreement and the early termination of the old lease, we were released from the legal obligation for lease payments after May 1, 2007 and, accordingly, we reversed \$479,000 of previously accrued expenses related to the Consolidation in the fourth quarter of 2006. As of December 31, 2006, we have provided for the estimated remaining non-cancelable lease payments and other related costs for this facility through the new termination date of the lease (May 1, 2007).

As of December 31, 2006, our restructuring accrual amounted to \$315,000 which represents the estimated remaining non-cancelable lease payments and other related costs for the Wallingford facility through the new termination date of the lease (May 1, 2007). We do not expect to incur any further restructuring expenses or to adjust our restructuring accrual. The restructuring accrual balance will be reduced to zero as of May 1, 2007. We paid approximately \$399,000, \$447,000 and \$446,000 of expenses related to the Consolidation in 2006, 2005 and 2004, respectively.

CONTRACTUAL OBLIGATIONS

TransAct's contractual obligations as of December 31, 2006 were as follows:

(In thousands)	Total	<1 year	1-3 years	3-5 years	> 5 years
	-----	-----	-----	-----	-----
Operating lease obligations	\$ 5,622	\$ 978	\$1,743	\$1,461	\$1,440
Purchase obligations	16,918	16,848	70	--	--
	-----	-----	-----	-----	-----
Total	\$22,540	\$17,826	\$1,813	\$1,461	\$1,440
	=====	=====	=====	=====	=====

Purchase obligations are for purchases made in the normal course of business to meet operational requirements, primarily of raw material and component part inventory.

RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

ACCOUNTING FOR INCOME TAX UNCERTAINTIES: In July 2006, the FASB issued FASB Interpretation 48, "Accounting for Income Tax Uncertainties" ("FIN 48"). FIN 48 defines the threshold for recognizing the benefits of tax return positions in the financial statements as "more-likely-than-not" to be sustained by the taxing authority. The recently issued literature also provides guidance on the derecognition, measurement and classification of income tax uncertainties, along with any related interest and penalties. FIN 48 also includes guidance concerning accounting for income tax uncertainties in interim periods and increases the level of disclosures associated with any recorded income tax uncertainties. FIN 48 is effective for fiscal years beginning after December 15, 2006. The differences between the amounts recognized in the statements of financial position prior to the adoption of FIN 48 and the amounts reported after adoption will be accounted for as a cumulative-effect adjustment recorded to the beginning balance of retained earnings. In July 2006, the FASB issued FIN 48, Accounting for Uncertainty in Income Taxes, which will be effective the first quarter of 2007. Based on the "more-likely-than-not" standard under FIN 48, we expect that this guidance may impact the Company's recognition of tax benefits related to uncertain tax positions. However, the Company has not yet

Edgar Filing: TRANSACT TECHNOLOGIES INC - Form 10-K

finalized its assessment of FIN 48.

EFFECTS OF PRIOR YEAR MISSTATEMENTS WHEN QUANTIFYING CURRENT YEAR MISSTATEMENTS: In September 2006, the Securities and Exchange Commission issued Staff Accounting Bulletin ("SAB") No. 108, "Considering the Effects of Prior Year Misstatements when Quantifying Current Year Misstatements". SAB No. 108 requires analysis of misstatements using both an income statement (rollover) approach and balance sheet (iron curtain) approach in assessing materiality and provides for a one-time cumulative effect transition adjustment. SAB No. 108 is effective for our fiscal year 2006 annual financial statements. The adoption of this guidance did not have a material impact on our financial position, results of operations or cash flows.

FAIR VALUE MEASUREMENTS: In September 2006, the FASB issued Statement of Financial Accounting Standards No. 157, "Fair Value Measurements" ("FASB 157") which is effective for fiscal years beginning after November 15, 2007 and for interim periods within those years. This statement defines fair value, establishes a framework for measuring fair value and expands the related disclosure requirements. Because the guidance was recently issued, management has not yet determined the impact, if any, of adopting the provisions of FASB 157 on the Company's financial position and results of operations.

RESOURCE SUFFICIENCY

We believe that our cash on hand, cash flows generated from operations and borrowings available under the New TD Banknorth Credit Facility will provide sufficient resources to meet our working capital needs, including costs associated with the Consolidation, to finance our capital expenditures, to fund our Stock Repurchase Program, and meet our liquidity requirements through at least the next twelve months.

(C) IMPACT OF INFLATION

TransAct believes that its business has not been affected to a significant degree by inflationary trends because of the low rate of inflation during the past three years, nor does it believe it will be significantly affected by inflation during 2007.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

INTEREST RATE RISK

Our exposure to market risk for changes in interest rates relates primarily to the investment of our available cash and cash equivalents. In accordance with our investment policy, we strive to achieve above market rates of return in exchange for accepting a prudent amount of incremental risk, which includes the risk of interest rate movements. Risk tolerance is constrained by an overriding objective to preserve capital. An effective increase or decrease of 10% in interest rates would not have a material effect on our results of operations or cash flows.

FOREIGN CURRENCY EXCHANGE RISK

A substantial portion of our sales are denominated in U.S. dollars and, as a result, we have relatively little exposure to foreign currency exchange risk with respect to sales made. This exposure may change over time as business practices evolve and could have a material adverse impact on our financial results in the future. We do not use forward exchange contracts to hedge exposures denominated in foreign currencies or any other derivative financial instruments for trading or speculative purposes. The effect of an immediate 10% change in exchange rates would not have a material impact on our future results of operations or cash flows.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholders of TransAct Technologies Incorporated:

We have completed integrated audits of TransAct Technologies Incorporated's consolidated financial statements and of its internal control over financial reporting as of December 31, 2006 in accordance with the standards of the Public Company Accounting Oversight Board (United States). Our opinions, based on our audits, are presented below.

Consolidated financial statements and financial statement schedule

In our opinion, the consolidated financial statements listed in the accompanying

Edgar Filing: TRANSACT TECHNOLOGIES INC - Form 10-K

index present fairly, in all material respects, the financial position of TransAct Technologies Incorporated and its subsidiaries (the "Company") at December 31, 2006 and 2005, and the results of their operations and their cash flows for each of the three years in the period ended December 31, 2006 in conformity with accounting principles generally accepted in the United States of America. In addition, in our opinion, the financial statement schedule listed in the accompanying index presents fairly, in all material respects, the information set forth therein when read in conjunction with the related consolidated financial statements. These financial statements and financial statement schedule are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements and financial statement schedule based on our audits. We conducted our audits of these statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit of financial statements includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

As discussed in Note 2 to the consolidated financial statements, the Company changed the manner in which it accounts for share-based compensation in 2006.

Internal control over financial reporting

Also, in our opinion, management's assessment, included in Management's Report on Internal Control Over Financial Reporting appearing under Item 9a, that the Company maintained effective internal control over financial reporting as of December 31, 2006 based on criteria established in Internal Control - Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO), is fairly stated, in all material respects, based on those criteria. Furthermore, in our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2006 based on criteria established in Internal Control - Integrated Framework issued by the COSO. The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting. Our responsibility is to express opinions on management's assessment and on the effectiveness of the Company's internal control over financial reporting based on our audit. We conducted our audit of internal control over financial reporting in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. An audit of internal control over financial reporting includes obtaining an understanding of internal control over financial reporting, evaluating management's assessment, testing and evaluating the design and operating effectiveness of internal control, and performing such other procedures as we consider necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinions.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted

Edgar Filing: TRANSACT TECHNOLOGIES INC - Form 10-K

accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

TRANSACT TECHNOLOGIES INCORPORATED

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. DESCRIPTION OF BUSINESS

TransAct Technologies Incorporated ("TransAct"), which has its headquarters in Wallingford, CT and its primary operating facility in Ithaca, NY, operates in one industry segment, market-specific printers for transaction-based industries. These industries include gaming, lottery, banking and hospitality. Our printers are designed based on market specific requirements and are sold under the Ithaca(R) and Epic(TM) product brands. We distribute our products through OEMs, value-added resellers, selected distributors, and directly to end-users. Our product distribution spans across the Americas, Europe, the Middle East, Africa, Asia, Australia, the Caribbean Islands and the South Pacific. We also generate revenue from the after-market side of the business, providing printer service, supplies and spare parts.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

STOCK SPLIT: On March 17, 2004, we effected a three-for-two split of our common stock in the form of a 50 percent stock dividend. All share and per-share amounts within the accompanying financial statements and footnotes reflect the stock split.

PRINCIPLES OF CONSOLIDATION: The accompanying consolidated financial statements were prepared on a consolidated basis to include the accounts of TransAct and its wholly-owned subsidiaries. All intercompany accounts, transactions and unrealized profit were eliminated in consolidation.

RECLASSIFICATIONS: Certain amounts in the prior years' financial statements have been reclassified to conform to the current year's presentation.

USE OF ESTIMATES: The accompanying consolidated financial statements were prepared using estimates and assumptions that affect the reported amounts of assets, liabilities, revenue and expenses, and disclosure of contingent assets and liabilities as of the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

SEGMENT REPORTING: We apply the provisions of Statement of Financial Accounting Standards No. 131, "Disclosures about Segments of an Enterprise and Related Information" ("FAS 131"). We view our operations and manage our business as one segment: the design, development, manufacture and sale of transaction-based printers. Factors used to identify TransAct's single operating segment include the organizational structure of the Company and the financial information available for evaluation by the chief operating decision-maker in making decisions about how to allocate resources and assess performance. We operate predominantly in one geographical area, the United States of America. See Note 20 for information regarding our international operations. We provide the following disclosures of revenues from products and services:

Edgar Filing: TRANSACT TECHNOLOGIES INC - Form 10-K

(In thousands)	Year ended		Year ended		Year ended	
	December 31, 2006		December 31, 2005		December 31, 2004	
	-----	-----	-----	-----	-----	-----
POS and banking printers	\$16,858	26.2%	\$16,410	32.1%	\$17,659	29.5%
Gaming and lottery printers	34,677	53.9%	23,634	46.3%	31,937	53.4%
Services, spare parts and consumables	12,793	19.9%	11,047	21.6%	10,251	17.1%
	-----	-----	-----	-----	-----	-----
Total net sales	\$64,328	100.0%	\$51,091	100.0%	\$59,847	100.0%
	=====	=====	=====	=====	=====	=====

CASH AND CASH EQUIVALENTS: We consider all highly liquid investments with a maturity date of three months or less at date of purchase to be cash equivalents.

ACCOUNTS RECEIVABLE AND ALLOWANCE FOR DOUBTFUL ACCOUNTS: We have standardized credit granting and review policies and procedures for all customer accounts, including:

- Credit reviews of all new customer accounts,
- Ongoing credit evaluations of current customers,
- Credit limits and payment terms based on available credit information,
- Adjustments to credit limits based upon payment history and the customer's current creditworthiness.

34

TRANSACT TECHNOLOGIES INCORPORATED

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

We establish an allowance for doubtful accounts to ensure trade receivables are valued appropriately. We maintain an allowance for doubtful accounts based on a variety of factors, including the length of time receivables are past due, significant one-time events and historical experience. We record a specific allowance for individual accounts when we become aware of a customer's inability to meet its financial obligations, such as in the case of bankruptcy filings or deterioration in the customer's operating results or financial position. If circumstances related to customers change, we would further adjust estimates of the recoverability of receivables. Allowances for doubtful accounts on accounts receivable balances were \$204,000 and \$240,000, as of December 31, 2006 and 2005, respectively.

INVENTORIES: Inventories are stated at the lower of cost (principally standard cost which approximates actual cost on a first-in, first-out basis) or market. We assess market value based on historical usage and estimates of future demand in the market.

FIXED ASSETS: Fixed assets are stated at cost. Depreciation is

Edgar Filing: TRANSACT TECHNOLOGIES INC - Form 10-K

recorded using the straight-line method over the estimated useful lives. The estimated useful life of tooling is five years; machinery and equipment is ten years; furniture and office equipment is five to ten years; and computer software and equipment is three to seven years. Leasehold improvements are amortized over the shorter of the term of the lease or the useful life of the asset. Costs related to repairs and maintenance are expensed as incurred. The costs of sold or retired assets are removed from the related asset and accumulated depreciation accounts and any gain or loss is recognized. Depreciation expense was \$1,466,000, \$1,419,000 and \$1,608,000 in 2006, 2005 and 2004, respectively.

LEASES: Rent expense under non-cancelable operating leases with scheduled rent increases or free rent periods is accounted for on a straight-line basis over the lease term, beginning on the date of control of physical use of the asset or of initial possession. The amount of the excess of straight-line rent expense over scheduled payments is recorded as a deferred liability. Construction allowances and other such lease incentives are recorded as deferred credits, and are amortized on a straight-line basis as a reduction of rent expense beginning in the period they are deemed to be earned, which generally coincides with the occupancy date.

GOODWILL: We adopted the provisions of Statement of Financial Accounting Standard No. 142, "Goodwill and Other Intangible Assets" ("FAS 142") on January 1, 2002. Under FAS 142, goodwill is no longer amortized and is tested for impairment at least annually at the reporting unit level.

We test goodwill annually for impairment, or whenever events or changes in circumstances indicate that the carrying value may not be recoverable. We have performed an impairment test as of December 31, 2006 and determined that no impairment has occurred.

REVENUE RECOGNITION: Our typical contracts include the sale of printers, which are sometimes accompanied by separately-priced extended warranty contracts. We also sell spare parts, consumables, and other repair services (sometimes pursuant to multi-year product maintenance contracts) which are not included in the original printer sale and are ordered by the customer as needed. We recognize revenue pursuant to the guidance within SAB 104, "Revenue Recognition." Specifically, revenue is recognized when evidence of an arrangement exists, delivery (based on shipping terms, which are generally FOB shipping point) has occurred, the selling price is fixed and determinable, and collectibility is reasonably assured. We provide for an estimate of product returns based on historical experience at the time of revenue recognition.

Revenue related to extended warranty and product maintenance contracts is recognized pursuant to FASB Technical Bulletin 90-1 ("FTB 90-1"), "Accounting for Separately Priced Extended Warranty and Product Maintenance Contracts." Pursuant to FTB 90-1, revenue related to separately priced product maintenance contracts is deferred and recognized over the term of the maintenance period. We record deferred revenue for amounts received from customers for maintenance contracts prior to the maintenance period.

Edgar Filing: TRANSACT TECHNOLOGIES INC - Form 10-K

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

CONCENTRATION OF CREDIT RISK: Financial instruments that potentially expose TransAct to concentrations of credit risk are limited to accounts receivable.

Accounts receivable from customers representing 10% or more of total accounts receivable were as follows:

	December 31,	
	2006	2005
	----	----
Customer A	14%	19%
Customer B	10%	*
Customer C	14%	*

* - customer balances were less than 10% of total accounts receivable

Sales to customers representing 10% or more of total net sales were as follows:

	Year ended December 31,		
	2006	2005	2004
	----	----	----
Customer A	20%	17%	16%
Customer B	*	14%	*
Customer C	*	*	14%

* - customer balances were less than 10% of total net sales

The primary operations of our United Kingdom subsidiary, a European sales and service center, relates to revenue generated from a service contract from a single customer in the United Kingdom. The contract has a termination date of May 2007. We do not expect that such contract will be renewed at the same volume of activity as the previous contract. We are currently evaluating the impact that this may have on our financial results.

WARRANTY: We generally warrant our products for up to 24 months and record the estimated cost of such product warranties at the time the sale is recorded. Estimated warranty costs are based upon actual past experience of product repairs and the related estimated cost of labor and material to make the necessary repairs.

The following table summarizes the activity recorded in the accrued product warranty liability:

	Year ended December 31,		
	2006	2005	2004
	----	----	----
(In thousands)			

Edgar Filing: TRANSACT TECHNOLOGIES INC - Form 10-K

	-----	-----	-----
Balance, beginning of year	\$ 644	\$ 597	\$ 495
Additions related to warranties issued	595	613	610
Warranty costs incurred	(636)	(566)	(508)
	-----	-----	-----
Balance, end of year	\$ 603	\$ 644	\$ 597
	=====	=====	=====

Approximately \$160,000 and \$145,000 of the accrued product warranty liability were classified as long-term at December 31, 2006 and 2005, respectively.

RESEARCH AND DEVELOPMENT EXPENSES: Research and development expenses include engineering, design and product development expenses incurred in connection with specialized engineering and design to introduce new products and to customize existing products, and are expensed as a component of operating expenses as incurred. We recorded approximately \$2,824,000, \$2,726,000 and \$2,715,000 of research and development expense in the years ended December 31, 2006, 2005 and 2004, respectively.

ADVERTISING: Advertising costs are expensed as incurred. Advertising expenses, which are included in selling and marketing on the accompanying consolidated statements of income, for the years ended December 31, 2006, 2005 and 2004 totaled \$182,000, \$371,000 and \$343,000, respectively.

36

TRANSACT TECHNOLOGIES INCORPORATED

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

RESTRUCTURING: In 2001, we undertook a plan to consolidate all manufacturing and engineering into our existing Ithaca, NY facility and close our Wallingford, CT manufacturing facility. We continue to apply the consensus set forth in EITF 94-3, "Liability Recognition for Certain Employee Termination Benefits and Other Costs to Exit an Activity (Including Certain Costs Incurred in a Restructuring)" in recognizing restructuring expenses. See Note 8 for additional disclosures related to our restructuring plan.

INCOME TAXES: The income tax amounts reflected in the accompanying financial statements are accounted for under the liability method in accordance with FAS 109 "Accounting for Income Taxes." Deferred tax assets and liabilities are recognized for the estimated future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and operating loss and tax credit carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates in effect for the year in which those temporary differences are expected to be recovered or settled. We assess the likelihood that net deferred tax assets will be realized from future taxable income, and to the extent that we believe that realization is not likely, we establish a valuation allowance.

FOREIGN CURRENCY TRANSLATION: The financial position and results of operations of our foreign subsidiary in the United Kingdom are measured

Edgar Filing: TRANSACT TECHNOLOGIES INC - Form 10-K

using local currency as the functional currency. Assets and liabilities of such subsidiary have been translated into U.S. dollars at the year-end exchange rate, related revenues and expenses have been translated at the weighted average exchange rate for the year, and shareholders' equity has been translated at historical exchange rates. The resulting translation gains or losses, net of tax, are recorded in stockholders' equity as a cumulative translation adjustment, which is a component of accumulated other comprehensive income. Foreign currency transaction gains and losses, including those related to intercompany balances, are recognized in other income (expense).

FAIR VALUE OF FINANCIAL INSTRUMENTS: The carrying amount for cash and cash equivalents approximates fair value because of the short maturity of these instruments. The carrying amount of receivables, accounts payable and accrued liabilities is a reasonable estimate of fair value because of the short-term nature of these accounts.

COMPREHENSIVE INCOME: Statement of Accounting Standard No. 130, "Reporting Comprehensive Income" ("FAS 130"), requires that items defined as comprehensive income or loss be separately classified in the financial statements and that the accumulated balance of other comprehensive income or loss be reported separately from accumulated deficit and additional paid-in-capital in the equity section of the balance sheet. We include the foreign currency translation adjustment, net of tax, related to our subsidiary in the United Kingdom within our calculation of comprehensive income.

SHARE-BASED PAYMENTS: In December 2004, the Financial Accounting Standards Board ("FASB") revised Statement of Financial Accounting Standards No. 123 (revised 2004), "Share-Based Payment" ("FAS 123R"), which establishes accounting for share-based awards exchanged for employee services and requires companies to expense the estimated fair value of these awards over the requisite employee service period. We adopted the accounting provisions of FAS 123R beginning in the first quarter of 2006. Prior to January 1, 2006, we accounted for share-based compensation to employees in accordance with Accounting Principles Board Opinion No. 25, ("APB 25") "Accounting for Stock Issued to Employees," and related interpretations. We also followed the disclosure requirements of Statement of Financial Accounting Standards No. 123, "Accounting for Stock-Based Compensation" ("FAS 123"), as amended by Statement of Financial Accounting Standards 148, "Accounting for Stock-Based Compensation - Transition and Disclosure" ("FAS 148").

Under FAS 123R, share-based compensation expense is measured at the grant date, based on the estimated fair value of the award, and is recognized as expense over the employee's requisite service period. We have no awards with market or performance conditions. We adopted the provisions of FAS 123R on January 1, 2006, using a modified prospective application ("MPA"), which provides for certain changes to the method for valuing share-based compensation. Under the MPA, prior periods are not revised for comparative purposes. The valuation provisions of FAS 123R apply to new awards and to modifications or cancellations of awards that are outstanding on the effective date.

Edgar Filing: TRANSACT TECHNOLOGIES INC - Form 10-K

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

In November 2005, the FASB issued FASB Staff Position No. FAS 123(R)-3, "Transition Election Related to Accounting for Tax Effects of Share-Based Payment Awards." We have elected to adopt the alternative transition method provided in this FASB Staff Position for calculating the tax effects of share-based compensation pursuant to FAS 123R. The alternative transition method includes a simplified method to establish the beginning balance of the additional paid-in capital pool related to the tax effects of employee share-based compensation, which is available to absorb tax deficiencies recognized subsequent to the adoption of FAS 123R.

We use the Black-Scholes option-pricing model to calculate the fair value of share based awards. The key assumptions for this valuation method include the expected term of the option, stock price volatility, risk-free interest rate, dividend yield and exercise price. Many of these assumptions are judgmental and highly sensitive in the determination of compensation expense. In addition, we estimate forfeitures when recognizing compensation expense, and we will adjust our estimate of forfeitures over the requisite service period based on the extent to which actual forfeitures differ, or are expected to differ, from such estimates. Changes in estimated forfeitures will be recognized through a cumulative true-up adjustment in the period of change and will also impact the amount of compensation expense to be recognized in future periods.

On November 2, 2005, the Compensation Committee of the Board of Directors approved the acceleration of the vesting of all outstanding unvested stock options granted to directors, officers and employees of the Company under our applicable stock incentive plans. As a result of the acceleration, options to acquire approximately 109,500 shares of our common stock, which otherwise would have vested from time to time over the next four years, became immediately exercisable. All other terms and conditions applicable to the outstanding stock option grants remain in effect. The option plans under which accelerated grants were issued are our 1996 Stock Plan, 1996 Directors' Stock Plan and the 2001 Employee Stock Plan.

The Compensation Committee's decision to accelerate the vesting of affected stock options was primarily based upon our required adoption of FAS 123R effective January 1, 2006. Due to the acceleration of vesting of unvested options prior to the adoption of FAS123R, we are only recording compensation expense related to stock options granted in 2006 and beyond. We recorded approximately \$26,000 of compensation expense in the fourth quarter of 2005 related to the acceleration of vesting.

NET INCOME AND LOSS PER SHARE: We report net income or loss per share in accordance with Financial Standard No. 128, "Earnings per Share (EPS)" ("FAS 128"). Under FAS 128, basic EPS, which excludes dilution, is computed by dividing income or loss available to common shareholders by the weighted average number of common shares outstanding for the period. Unvested restricted stock is excluded from the calculation of weighted average common shares for basic EPS. Net income or loss available to common shareholders represents reported net income or loss less accretion of redeemable convertible preferred stock and allocation of preferred earnings. Diluted EPS reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock. Diluted EPS includes restricted stock, in-the-money options and warrants using the treasury stock method, and also includes the assumed conversion of preferred stock using the if-converted method, but only if dilutive. During a loss period, the assumed exercise of in-the-money stock options and warrants and the conversion of convertible preferred stock has an anti-dilutive effect, and therefore, these

Edgar Filing: TRANSACT TECHNOLOGIES INC - Form 10-K

instruments are excluded from the computation of dilutive EPS. See Note 16 for EPS calculation.

Beginning in the second quarter of 2004, the Company applied the consensus set forth in EITF 03-06 "Participating Securities and the Two-Class Method under FASB Statement No. 128, Earnings Per Share", which requires the two-class method of computing earnings per share when participating securities, such as our redeemable preferred stock, are outstanding. The two-class method is an earnings allocation formula that determines earnings per share for common stock and participating securities based upon an allocation of earnings as if all of the earnings for the period had been distributed in accordance with participation rights on undistributed earnings. EITF 03-6 became effective for reporting periods beginning after March 31, 2004. The application of EITF 03-06 only impacted the calculation of earnings per share for the year ended December 31, 2004 due to no preferred stock outstanding in 2006 and 2005.

38

TRANSACT TECHNOLOGIES INCORPORATED

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

3. RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

ACCOUNTING FOR INCOME TAX UNCERTAINTIES: In July 2006, the FASB issued FASB Interpretation 48, "Accounting for Income Tax Uncertainties" ("FIN 48"). FIN 48 defines the threshold for recognizing the benefits of tax return positions in the financial statements as "more-likely-than-not" to be sustained by the taxing authority. The recently issued literature also provides guidance on the derecognition, measurement and classification of income tax uncertainties, along with any related interest and penalties. FIN 48 also includes guidance concerning accounting for income tax uncertainties in interim periods and increases the level of disclosures associated with any recorded income tax uncertainties. FIN 48 is effective for fiscal years beginning after December 15, 2006. The differences between the amounts recognized in the statements of financial position prior to the adoption of FIN 48 and the amounts reported after adoption will be accounted for as a cumulative-effect adjustment recorded to the beginning balance of retained earnings. In July 2006, the FASB issued FIN 48, Accounting for Uncertainty in Income Taxes, which will be effective the first quarter of 2007. Based on the "more-likely-than-not" standard under FIN 48, we expect that this guidance may impact the Company's recognition of tax benefits related to uncertain tax positions. However, the Company has not yet finalized its assessment of FIN 48.

EFFECTS OF PRIOR YEAR MISSTATEMENTS WHEN QUANTIFYING CURRENT YEAR MISSTATEMENTS: In September 2006, the Securities and Exchange Commission issued Staff Accounting Bulletin ("SAB") No. 108, "Considering the Effects of Prior Year Misstatements when Quantifying Current Year Misstatements". SAB No. 108 requires analysis of misstatements using both an income statement (rollover) approach and balance sheet (iron curtain) approach in assessing materiality and provides for a one-time cumulative effect transition adjustment. SAB No. 108 is effective for our fiscal year 2006 annual financial statements. The adoption of this guidance did not have a material impact on our financial position, results of operations or cash flows.

FAIR VALUE MEASUREMENTS: In September 2006, the FASB issued Statement

Edgar Filing: TRANSACT TECHNOLOGIES INC - Form 10-K

of Financial Accounting Standards No. 157, "Fair Value Measurements" ("FASB 157") which is effective for fiscal years beginning after November 15, 2007 and for interim periods within those years. This statement defines fair value, establishes a framework for measuring fair value and expands the related disclosure requirements. Because the guidance was recently issued, management has not yet determined the impact, if any, of adopting the provisions of FASB 157 on the Company's financial position and results of operations.

4. INVENTORIES

The components of inventories are:

	December 31,	
(In thousands)	2006	2005
Raw materials and purchased component parts	\$7,337	\$5,788
Finished goods	230	248
	\$7,567	\$6,036
	\$7,567	\$6,036

5. FIXED ASSETS

The components of fixed assets are:

	December 31,	
(In thousands)	2006	2005

	20,003	19,765
Less: accumulated depreciation and amortization	(14,065)	(15,255)
	\$ 5,938	\$ 4,510

TRANSACT TECHNOLOGIES INCORPORATED

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

6. INTANGIBLE ASSETS

On June 30, 2005, we acquired certain intangible assets related to

Edgar Filing: TRANSACT TECHNOLOGIES INC - Form 10-K

casino ticket printer designs and technology from Bally Gaming, Inc. ("Bally") for \$475,000, plus the costs of effecting the acquisition (approximately \$35,000). Prior to the acquisition, pursuant to the terms of a license agreement, we were required to pay Bally a royalty on sales of certain gaming printers utilizing the licensed technology. As a result of the acquisition, effective July 1, 2005, we were no longer required to pay any future royalties to Bally.

The purchase price was allocated, based on management's estimates, to intangible assets based on their relative fair value at the date of acquisition. The fair value of the intangibles, comprised of purchased technology and a covenant not to compete, was determined using the future discounted cash flows method. The intangible assets are being amortized on a straight-line basis over six and seven years, respectively, for the estimated life of the assets.

The following summarizes the allocation of the purchase price for the acquisition of certain intangible assets from Bally (in thousands):

Purchased technology	\$364
Covenant not to compete	146

Consideration paid	\$510
	=====

Amortization expense associated with the technology purchased from Bally was \$81,000 and \$41,000 for 2006 and 2005, respectively. Amortization expense for each of the next five years ending December 31 is expected to be as follows: \$81,000 in each of 2007 through 2010; and \$51,000 in 2011.

7. ACCRUED LIABILITIES

The components of accrued liabilities (current portion) are:

	December 31,	
(In thousands)	2006	2005
	-----	-----
Payroll and fringe benefits	\$1,671	\$1,219
Income taxes	710	679
Warranty - current portion	443	499
Rent and occupancy	251	200
Professional and consulting	364	80
Other	608	521
	-----	-----
	\$4,047	\$3,198
	=====	=====

8. ACCRUED BUSINESS CONSOLIDATION AND RESTRUCTURING EXPENSES

In February 2001, we announced plans to establish a global engineering and manufacturing center at our Ithaca, NY facility. As part of this strategic decision, we undertook a plan to consolidate all manufacturing and engineering into our existing Ithaca, NY facility and close our Wallingford, CT manufacturing facility (the "Consolidation"). As of

Edgar Filing: TRANSACT TECHNOLOGIES INC - Form 10-K

December 31, 2001, substantially all Wallingford product lines were successfully transferred to Ithaca, NY. We currently maintain our corporate headquarters and a service center in Wallingford. The closing of the Wallingford manufacturing facility resulted in the termination of employment of approximately 70 production, administrative and management employees. We continue to apply the consensus set forth in EITF 94-3, "Liability Recognition for Certain Employee Termination Benefits and Other Costs to Exit an Activity (Including Certain Costs Incurred in a Restructuring)" in recognizing the accrued restructuring expenses.

During 2001 through 2003, we recorded expenses of approximately \$6,182,000 related to costs associated with the Consolidation, including severance pay, stay bonuses, employee benefits, moving expenses, non-cancelable lease payments, accelerated depreciation and other costs.

40

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

8. ACCRUED BUSINESS CONSOLIDATION AND RESTRUCTURING EXPENSES (CONTINUED)

In December 2004, we determined that certain functions would be relocated and/or expanded in our Wallingford, CT corporate offices. In order to achieve the benefit of these changes, we expanded our use of space in our current facility. Because of this increase in use of space in the Wallingford facility, and because we had experienced lower than expected operating and maintenance costs than previously estimated, during 2004 we reversed \$225,000 of previously accrued amounts provided for the remaining non-cancelable lease payments and related costs.

In November 2006, we executed an agreement effective May 1, 2007 to terminate the lease agreement for our Wallingford, CT facility (the "Release Agreement"). Prior to the execution of the Release Agreement, we accrued for the remaining non-cancelable lease payments and other related costs for the unused portion of this facility through the expiration date of the lease (March 31, 2008). As a result of the Release Agreement and the early termination of the lease, we were released from the legal obligation for lease payments after May 1, 2007 and, accordingly, we were released from the legal obligation for lease payments after May 1, 2007 and, accordingly, we reversed approximately \$479,000 of previously accrued restructuring reserve in the fourth quarter of 2006. As of December 31, 2006, our restructuring accrual was \$315,000, which represents the estimated remaining non-cancelable lease payments and other related costs for the unused portion of this facility through the new termination date of the lease (May 1, 2007).

The following table summarizes the activity recorded in the restructuring accrual:

(In thousands)	Year ended December 31,		
	2006	2005	2004
Accrual balance, beginning of year	\$1,193	\$1,640	\$2,311

Edgar Filing: TRANSACT TECHNOLOGIES INC - Form 10-K

Business consolidation and restructuring expenses:			
Reversal of lease obligation related to unused space	(479)	--	(225)
	(479)	--	(225)
Cash payments	(399)	(447)	(446)
Accrual balance, end of year	\$ 315	\$1,193	\$1,640
	=====	=====	=====

At December 31, 2006 and 2005, \$0 and \$773,000, respectively, of the restructuring accrual was classified as part of long-term liabilities. The long-term portion represents the portion of non-cancelable lease termination costs and other costs expected to be paid beyond one year.

9. RETIREMENT SAVINGS PLAN

On April 1, 1997, we established the TransAct Technologies Retirement Savings Plan (the "401(k) Plan"), a defined contribution plan under Section 401(k) of the Internal Revenue Code. All full-time employees are eligible to participate in the 401(k) Plan at the beginning of the calendar quarter immediately following their date of hire. We match employees' contributions at a rate of 50% of employees' contributions up to the first 6% of the employees' compensation contributed to the 401(k) Plan. Our matching contributions were \$249,000, \$225,000 and \$201,000 in 2006, 2005 and 2004, respectively.

41

TRANSACT TECHNOLOGIES INCORPORATED

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

10. BORROWINGS

On November 28, 2006, we signed a new, five-year \$20 million credit facility (the "New TD Banknorth Credit Facility") with TD Banknorth, N.A. ("TD Banknorth"). The new credit facility provides for a \$20 million revolving credit line expiring on November 28, 2011. The New TD Banknorth Credit facility replaces a previous \$11.5 million credit facility also with TD Banknorth. Borrowings under the new revolving credit line bear a floating rate of interest at the prime rate minus one-percent and are secured by a lien on all of our assets. We also pay a fee of 0.25% on unused borrowings under the revolving credit line. Deferred financing costs relating to expenses incurred to complete the New TD Banknorth Credit Facility were \$88,000 at December 31, 2006. The New TD Banknorth Credit Facility imposes certain quarterly financial covenants on us and restricts the payment of dividends on our common stock and the creation of other liens. We were in compliance with all financial covenants of the New TD Banknorth Credit Facility at December 31, 2006.

As of December 31, 2006, we had no outstanding borrowings on the revolving credit line. Undrawn commitments under the New TD Banknorth Credit Facility were \$20,000,000 at December 31, 2006.

Edgar Filing: TRANSACT TECHNOLOGIES INC - Form 10-K

11. COMMITMENTS AND CONTINGENCIES

In April 2005, we announced a complaint against FutureLogic, Inc. ("FutureLogic") in Connecticut, which charges FutureLogic with disseminating false and misleading statements. We assert claims of defamation and certain other charges. In May 2005, FutureLogic filed a complaint against us in California, asserting false advertising, defamation, trade libel and certain other charges. We moved to dismiss FutureLogic's action in California, on the grounds that any claims raised in that action should have been brought as part of the case filed by us in Connecticut. In the alternative, we moved to stay the California action pending the resolution of jurisdictional motions in the Connecticut court. In January 2006, the California court filed an order granting our motion to stay the California proceeding pending the resolution of jurisdictional motions in the Connecticut case. Under the California court's order, should the Connecticut court find that it has jurisdiction over FutureLogic, FutureLogic's case will be transferred to the Connecticut court for consolidation with the action pending in that forum. In September 2006, the District of Connecticut dismissed our case because of a lack of jurisdiction. The decision was not on the merits of our claims, but on the jurisdiction of the court in which the suit was brought. The California District Court has been notified of this development. The action is currently in the pre-trial motion stage and, as of December 31, 2006, we are currently unable to estimate any potential liability or range of loss associated with this litigation. Accordingly, no amounts have been accrued in the financial statements related to this matter.

At December 31, 2005, we were lessee on operating leases for equipment and real property. Rent expense was approximately \$1,330,000, \$1,294,000 and \$1,098,000 in 2006, 2005 and 2004, respectively. Minimum aggregate rental payments required under operating leases that have initial or remaining non-cancelable lease terms in excess of one year as of December 31, 2006 are as follows: \$978,000 in 2007; \$877,000 in 2008; \$867,000 in 2009; \$716,000 in 2010; \$745,000 in 2011; and \$1,440,000 thereafter. Such payments include those related to the lease of our Wallingford, CT manufacturing facility, a portion of which has been recognized within the restructuring accrual described in Note 8.

12. PATENT LICENSE FEES

During 2004, we signed a cross licensing agreement with Seiko Epson. Under the agreement, Seiko Epson received a license to three of our patents, and we received a license to eighteen of Seiko Epson's patents relating to printing applications for the point of sale and banking markets. In addition, we agreed to pay \$900,000 as a royalty for the usage of certain Seiko Epson technology prior to January 1, 2003, which we paid in full by January 2005. Under the agreement, we continue to pay royalties on a quarterly basis related to the sales of licensed printers, which is reflected in cost of sales.

42

TRANSACT TECHNOLOGIES INCORPORATED

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

13. STOCK INCENTIVE PLANS AND WARRANTS

STOCK INCENTIVE PLANS. We currently have four primary stock incentive

Edgar Filing: TRANSACT TECHNOLOGIES INC - Form 10-K

plans: the 1996 Stock Plan, which provides for the grant of awards to officers and other key employees of the Company; the 1996 Directors' Stock Plan, which provides for non-discretionary awards to non-employee directors; the 2001 Employee Stock Plan, which provides for the grant of awards to key employees of the Company and other non-employees who may provide services to the Company; and the 2005 Equity Incentive Plan, which provides for awards to executives, key employees, directors and consultants. The plans generally provide for awards in the form of: (i) incentive stock options, (ii) non-qualified stock options, (iii) restricted stock, (iv) restricted stock units, (v) stock appreciation rights or (vi) limited stock appreciation rights. However, the 2001 Employee Stock Plan does not provide for incentive stock option awards. Options granted under these plans have exercise prices equal to 100% of the fair market value of the common stock at the date of grant. Options granted have a ten-year term and generally vest over a three- to five-year period, unless automatically accelerated for certain defined events. Effective upon the approval of the 2005 Equity Incentive Plan on May 25, 2005, no new awards will be made under the 1996 Stock Plan, the 1996 Directors' Stock Plan or the 2001 Employee Stock Plan. At December 31, 2006, approximately 462,000 shares of common stock remained available for issuance under the 2005 Equity Incentive Plan.

EMPLOYEE STOCK PURCHASE PLAN: In May 2000, our shareholders approved the Employee Stock Purchase Plan (the "ESPP"), under which 75,000 shares of our common stock were available for issuance to employees beginning June 1, 2000. All full-time employees were eligible to participate in the ESPP at the beginning of each six-month period (the "Offering Period"), which began on June 1 and December 1. Eligible employees could elect to withhold up to 5% of their salary to purchase shares of our common stock at a price equal to 85% of the fair market value of the stock on the first or last day of each Offering Period, whichever is lower. The ESPP was terminated on May 31, 2005. We issued 2,690 and 3,706, shares of common stock under the ESPP during 2005 and 2004, respectively. At December 31, 2006, no shares remained available for issuance due to the termination of the ESPP.

Under the assumptions indicated below, the weighted-average fair value of stock option grants for the year ended December 31, 2006 and 2004 was \$5.91 and \$20.64, respectively. No fair value or assumptions have been disclosed for the year ended December 31, 2005 as no stock option grants were made during this period. The table below indicates the key assumptions used in the option valuation calculations for options granted in the twelve months ended December 31, 2006 and 2004 and a discussion of our methodology for developing each of the assumptions used in the valuation model:

	Year ended December 31, 2006	Year ended December 31, 2004
	-----	-----
Expected option term	5.2 years	8.9 years
Expected volatility	78.4%	81.5%
Risk-free interest rate	4.5%	3.6%
Dividend yield	0%	0%

Expected Option Term - This is the weighted average period of time over which the options granted are expected to remain outstanding giving consideration to our historical exercise patterns. Options granted have a maximum term of ten years. An increase in the expected term will increase compensation expense.

Edgar Filing: TRANSACT TECHNOLOGIES INC - Form 10-K

Expected Volatility - The stock volatility for each grant is measured using the weighted average of historical daily price changes of our common stock over the most recent period approximately equal to the expected option term of the grant. An increase in the expected volatility factor will increase compensation expense.

Risk-Free Interest Rate - This is the U.S. Treasury rate in effect at the time of grant having a term approximately equal to the expected term of the option. An increase in the risk-free interest rate will increase compensation expense.

Dividend Yield - We have not made any dividend payments on our common stock, and we have no plans to pay dividends in the foreseeable future. An increase in the dividend yield will decrease compensation expense.

43

TRANSACT TECHNOLOGIES INCORPORATED

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

13. STOCK INCENTIVE PLANS AND WARRANTS (CONTINUED)

Prior to adopting the provisions of FAS 123R, we recorded estimated compensation expense for employee stock options based upon their intrinsic value on the date of grant pursuant to APB 25 and provided the required pro forma disclosures of FAS 123. Because we established the exercise price based on the fair market value of our common stock at the date of grant, the stock options had no intrinsic value upon grant, and therefore no expense was recorded prior to adopting FAS 123R. We recorded compensation expense for restricted stock at the fair value of the stock at the date of grant, recognized over the service period. Each accounting period, we reported the potential dilutive impact of stock options in our diluted earnings per common share using the treasury-stock method. Out-of-the-money stock options (i.e., the average stock price during the period was below the strike price of the stock option) were not included in diluted earnings per common share as their effect was anti-dilutive.

For purposes of pro forma disclosures under FAS 123 for the years ended December 31, 2005 and 2004, the estimated fair value of the share-based awards was assumed to be amortized to expense over the stock option's vesting periods. The pro forma effects of recognizing estimated compensation expense under the fair value method on net income and net income per common share were as follows:

	Year ended December 31, 2005	Year ended December 31, 2004
	-----	-----
(In thousands, except per share data)		
Net income available to common shareholders:		
Net income available to common shareholders, as reported	\$ 377	\$5,236
Add: Stock-based compensation expense included in reported net income, net of tax	315	205
Deduct: Stock-based compensation expense determined under fair value based method for all awards, net of tax	(1,294)	(390)

Edgar Filing: TRANSACT TECHNOLOGIES INC - Form 10-K

Pro forma net (loss) income available to common shareholders	----- \$ (602) =====	----- \$5,051 =====
Net (loss) income per common share:		
Basic:		
As reported	\$ 0.04	\$ 0.55
Pro forma	\$ (0.06)	\$ 0.53
Diluted:		
As reported	\$ 0.04	\$ 0.51
Pro forma	\$ (0.06)	\$ 0.49

The fair values used to reflect the pro forma effects of estimated share-based compensation expense on net income and earnings per common share for the years ended December 31, 2005 and 2004 were estimated at the date of grant using the Black-Scholes option-pricing model.

44

TRANSACT TECHNOLOGIES INCORPORATED

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

13. STOCK INCENTIVE PLANS AND WARRANTS (CONTINUED)

After the adoption of FAS 123R, we recognized compensation expense associated with awards granted after January 1, 2006, and the unvested portion of previously granted restricted stock awards that were outstanding as of January 1, 2006, in our condensed consolidated statement of income for the year ended December 31, 2006. During 2006, we recognized compensation expense, net of reversal of expense related to forfeitures, of \$111,000 for stock options and \$470,000 for restricted stock, which was recorded in our consolidated statement of income. The income tax benefits from share-based payments recorded in the income statement totaled \$204,000 for 2006. No compensation expense related to stock options was recorded in 2005 and \$458,000 in compensation expense related to restricted stock was recorded in 2005. The following table illustrates the impact of the adoption of FAS 123R on reported amounts:

	Year ended December 31, 2006	
	-----	-----
	As Reported	Impact of FAS 123R Adoption
	-----	-----
Operating income	\$6,088	\$ 111
Income before income taxes	6,033	111
Net income	3,916	72
Net income per share:		
Basic	\$ 0.41	\$0.01
Diluted	0.40	0.01

For the year ended December 31, 2006, the adoption of FAS 123R resulted in tax benefits from stock options exercised in the period being classified as financing activities in the 2006 statement of cash flows.

Edgar Filing: TRANSACT TECHNOLOGIES INC - Form 10-K

Shares that are issued upon exercise of employee stock options are newly issued shares and not issued from treasury stock. Upon the adoption of FAS 123R, we also reclassified the unamortized restricted stock compensation account of \$1,837,000 against additional paid-in capital. This adjustment was applied using MPA and, accordingly, has not been reflected in the 2005 financial statements.

13. STOCK INCENTIVE PLANS AND WARRANTS (CONTINUED)

RESTRICTED STOCK: Under the 1996 Stock Plan, 2001 Employee Stock Plan and 2005 Equity Incentive Plan, we have granted shares of restricted common stock, for no consideration, to our officers, directors and certain key employees. Restricted stock activity for the 1996 Stock Plan, 2001 Employee Stock Plan and 2005 Equity Incentive Plan is summarized below:

	Weighted Average Grant Date Fair Values -----
Nonvested shares at December 31, 2005	\$12.23
Granted	13.78
Vested	12.78
Canceled	12.64
Nonvested shares at December 31, 2006	12.22

Edgar Filing: TRANSACT TECHNOLOGIES INC - Form 10-K

	Year Ended December 31,		
	2006	2005	2004
Nonvested shares at beginning of period	187,550	79,500	16,999
Granted	15,000	125,400	81,000
Vested	(36,684)	(17,100)	(15,499)
Canceled	(11,750)	(250)	(3,000)
Nonvested shares at end of period	154,116	187,550	79,500

As of December 31, 2006, unrecognized compensation cost related to restricted stock totaled \$1,426,000, which is expected to be recognized over a weighted average period of 3.1 years. The total intrinsic value of restricted stock that vested during the twelve months ended December 31, 2006 was \$338,000.

14. STOCKHOLDER RIGHTS PLAN

In December 1997, our Board of Directors adopted a Stockholder Rights Plan declaring a distribution of one right (the "Rights") for each outstanding share of our common stock to shareholders of record at December 15, 1997. Initially, each of the Rights will entitle the registered holder to purchase from the Company one one-thousandth of a share of Series A Preferred Stock, \$0.01 par value, at a price of \$69 per one one-thousandth of a share. The Rights, however, will not become exercisable unless and until, among other things, any person or group of affiliated persons acquires beneficial ownership of 15 percent or more of the then outstanding shares of the Company's Common Stock. If a person, or group of persons, acquires 15 percent or more of the outstanding Common Stock of the Company (subject to certain conditions and exceptions more fully described in the Rights Agreement), each Right will entitle the holder (other than the person, or group of persons, who acquired 15 percent or more of the outstanding Common Stock) to purchase Preferred Stock of the Company having a market value equal to twice the exercise price of the Right. The Rights are redeemable, under certain circumstances, for \$0.0001 per Right and will expire, unless earlier redeemed, on December 2, 2007.

On February 16, 1999, we amended the Stockholder Rights Plan to remove the provision in the plan that stipulated that the plan may be modified or redeemed only by those members of the Board of Directors who are defined as continuing directors.

15. INCOME TAXES (CONTINUED)

During 2006 and 2005, we recorded a valuation allowance of \$64,000 and \$207,000 on a portion of our foreign tax credits, research and development credits and certain state net operating loss carryforwards. We have determined that it is more likely than not that the remaining net deferred tax assets will be realized, and no additional valuation allowance is considered necessary, as of December 31, 2006 and 2005.

Differences between the U.S. statutory federal income tax rate and our effective income tax rate are analyzed below:

	Year Ended December 31,		
	2006	2005	2004
	----	-----	----
Federal statutory tax rate	34.0%	34.0%	34.0%
State income taxes, net of federal income taxes	1.1	(9.1)	1.0
Tax benefit from tax credits, net of valuation allowance	(0.7)	(17.5)	(0.8)
Foreign rate differential	--	9.4	(0.7)
Valuation allowance and tax accruals	0.4	(41.7)	--
Permanent items	0.6	13.0	--
Other	(0.3)	(2.7)	1.8
	----	-----	----
Effective tax rate	35.1%	(14.6%)	35.3%
	=====	=====	=====

16. EARNINGS PER SHARE

For the years ended December 31, 2006, 2005 and 2004, earnings per share were computed as follows (in thousands, except per share amounts):

	Year Ended December 31,		
	2006	2005	2004
	-----	-----	-----
Net income	\$3,916	\$ 377	\$ 5,458
Dividends and accretion on preferred stock	--	--	(111)
Earnings allocation to preferred shareholders	--	--	(111)
	-----	-----	-----

Edgar Filing: TRANSACT TECHNOLOGIES INC - Form 10-K

Net income available to common shareholders	\$3,916	\$ 377	\$ 5,236
	=====	=====	=====
Shares:			
Basic: Weighted average common shares outstanding	9,577	9,849	9,593
Add: Dilutive effect of outstanding options and warrants as determined by the treasury stock method	293	314	638
	-----	-----	-----
Diluted: Weighted average common and common equivalent shares outstanding	9,870	10,163	10,231
	=====	=====	=====
Net income per common share:			
Basic	\$ 0.41	\$ 0.04	\$ 0.55
Diluted	0.40	0.04	0.51

For the years ended December 31, 2006 and 2005, potentially dilutive shares that were excluded from the earnings per share calculation, consisting of out-of-the-money stock options and warrants, were 101,750 and 52,250 shares, respectively.

49

TRANSACT TECHNOLOGIES INCORPORATED

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

17. PREFERRED STOCK

On April 7, 2000 we sold 4,000 shares of 7% Series B Cumulative Convertible Redeemable Preferred Stock (the "Preferred Stock") in consideration of \$1,000 per share (the "Stated Value"), for a total of \$4,000,000, less issuance costs. The holders of the Preferred Stock were entitled to receive a cumulative annual dividend of \$70 per share, payable quarterly and had preference to any other dividends, if any, paid by the Company. In April 2004, all shareholders of our Series B Preferred Stock converted all their preferred shares into common stock. Pursuant to the conversion, a total of 666,665 new shares of common stock were issued. We recorded the costs of registering and issuing these shares as a deduction to Additional Paid-In Capital.

18. STOCK REPURCHASE PROGRAM

On March 25, 2005, our Board of Directors approved a stock repurchase program ("the Stock Repurchase Program"). Under the Stock Repurchase Program, we are authorized to repurchase up to \$10 million of our outstanding shares of common stock from time to time in the open market over a three-year period ending on March 25, 2008, depending on market conditions, share price and other factors. As of December 31, 2006, we repurchased a total of 801,300 shares of common stock for approximately \$6,492,000 under this program, at an average price of \$8.10 per share. We use the cost method to account for treasury stock purchases, under which the price paid for the stock is charged to the treasury stock account.

19. INTERNATIONAL OPERATIONS

We have foreign operations primarily from TransAct Technologies Ltd., a wholly-owned subsidiary in the United Kingdom, which had sales to its customers of approximately \$2,722,000, \$2,181,000 and \$1,000,000 in 2006,

Edgar Filing: TRANSACT TECHNOLOGIES INC - Form 10-K

2005 and 2004, respectively. Tangible assets at foreign locations are not material. We had sales from the United States to our customers outside of the United States of approximately \$11,416,000, \$10,137,000 and \$5,423,000 in 2006, 2005 and 2004, respectively. International sales do not include sales of printers made to domestic distributors or other domestic customers who in turn may ship those printers to international destinations.

20. QUARTERLY RESULTS OF OPERATIONS (UNAUDITED)

Our quarterly results of operations for 2006 and 2005 are as follows:

(In thousands, except per share amounts)	Quarter Ended			
	March 31	June 30	September 30	December 31
2006:				
Net sales	\$16,434	\$16,905	\$15,276	\$15,713
Gross profit	5,687	5,746	5,438	5,494
Net income	1,057	857	1,019	983

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE.

None.

ITEM 9A. CONTROLS AND PROCEDURES

Attached as exhibits to this Form 10-K are certifications of our Chief Executive Officer (CEO) and Chief Financial Officer (CFO), which are required in accordance with Rule 13a-14 of the Securities Exchange Act of 1934, as amended (the Exchange Act). This "Controls and Procedures" section includes information concerning the controls and controls evaluation referred to in the certifications. Part II, Item 8 of this Form 10-K sets forth the report of PricewaterhouseCoopers LLP, our independent registered public accounting firm, regarding its audit of TransAct's internal control over financial reporting as of December 31, 2006 and of management's assessment of internal control over financial reporting as of December 31, 2006 set forth below in this section. This section should be read in conjunction with the CEO and CFO certifications and the PricewaterhouseCoopers LLP report for a more complete understanding of the topics presented.

EVALUATION OF DISCLOSURE CONTROLS AND PROCEDURES

We conducted an evaluation of the effectiveness of the design and operation of our "disclosure controls and procedures" ("Disclosure Controls") for the period covered by this Form 10-K. The controls evaluation was conducted under the supervision and with the participation of management, including our CEO and CFO. Disclosure Controls are controls and procedures designed to reasonably assure that information required to be disclosed in our reports filed under the Exchange Act, such as this Form 10-K, is recorded, processed, summarized and reported within the time periods specified in the U.S. Securities and Exchange Commission's (SEC's) rules and forms. Disclosure Controls are also designed to reasonably assure that such information is accumulated and communicated to our management, including the CEO and CFO, as appropriate to allow timely decisions regarding required disclosure. Our quarterly evaluation of Disclosure Controls includes an evaluation of some components of our internal control over financial reporting, and internal control over financial reporting is also separately evaluated on an annual basis for purposes of providing the management report which is set forth below.

The evaluation of our Disclosure Controls included a review of the controls' objectives and design, the company's implementation of the controls and the effect of the controls on the information generated for use in this Form 10-K. In the course of the controls evaluation, we review data errors, control problems or acts of fraud, if any, and seek to confirm that appropriate corrective actions, including process improvements, are being undertaken. This type of evaluation is performed on a quarterly basis so that the conclusions of management, including the CEO and CFO, concerning the effectiveness of the Disclosure Controls can be reported in our periodic reports on Form 10-Q and Form 10-K. Many of the components of our Disclosure Controls are also evaluated

Edgar Filing: TRANSACT TECHNOLOGIES INC - Form 10-K

on an ongoing basis by personnel in our finance organization. The overall goals of these various evaluation activities are to monitor our Disclosure Controls, and to modify them as necessary. Our intent is to maintain the Disclosure Controls as dynamic systems that change as conditions warrant.

Based upon the evaluation of the controls, our CEO and CFO have concluded that, as of the end of the period covered by this Form 10-K, our Disclosure Controls were effective to provide reasonable assurance that information required to be disclosed in our Exchange Act reports is recorded, processed, summarized and reported within the time periods specified by the SEC, and that material information relating to TransAct and our consolidated subsidiaries is made known to management, including the CEO and CFO, particularly during the period when our periodic reports are being prepared.

CHANGES IN INTERNAL CONTROL OVER FINANCIAL REPORTING

The implementation of our new accounting system, completed effective January 8, 2007, required us to modify and add certain internal controls and processes and procedures. Otherwise, no change in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) occurred during the three months ended December 31, 2006 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

MANAGEMENT'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING

Our management is responsible for establishing and maintaining adequate internal control over financial reporting to provide reasonable assurance regarding the reliability of our financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. Internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that in reasonable detail accurately and fairly reflect the transactions and dispositions of the assets of the company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the company's assets that could have a material effect on the financial statements.

52

Management assessed our internal control over financial reporting as of December 31, 2006. Management based its assessment on criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO).

Based on our assessment, management has concluded that our internal control over financial reporting was effective as of December 31, 2006 based on the COSO criteria identified above, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external reporting purposes in accordance with generally accepted accounting principles.

Our management's assessment of the effectiveness of the Company's internal control over financial reporting as of December 31, 2006 has been audited by PricewaterhouseCoopers LLP, an independent registered public accounting firm, as stated in their report which appears herein.

Edgar Filing: TRANSACT TECHNOLOGIES INC - Form 10-K

INHERENT LIMITATIONS ON EFFECTIVENESS OF CONTROLS

A control system, no matter how well designed and operated, can provide only reasonable, not absolute, assurance that the control system's objectives will be met. The design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Further, because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that misstatements due to error or fraud will not occur or that all control issues and instances of fraud, if any, within the company have been detected.

These inherent limitations include the realities that judgments in decision-making can be faulty and that breakdowns can occur because of simple errors or mistakes. Controls can also be circumvented by the individual acts of some persons, by collusion of two or more people, or by management override of the controls. The design of any system of controls is based in part on certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Projections of any evaluation of controls effectiveness to future periods are subject to risks. Over time, controls may become inadequate because of changes in conditions or deterioration in the degree of compliance with policies or procedures.

The TransAct Technologies Incorporated 2001 Employee Stock Plan (the "2001 Employee Plan") was adopted by our Board of Directors, without approval of our security holders, effective February 26, 2001. Under the 2001 Employee Plan, we may issue non-qualified stock options, shares of restricted stock, restricted units to acquire shares of common stock, stock appreciation rights and limited stock appreciation rights to key employees of TransAct or any of our subsidiaries and to non-employees who provide services to TransAct or any of our subsidiaries. The 2001 Employee Plan is administered by our Compensation Committee, which has the authority to determine the vesting period and other similar restrictions and terms of awards, provided that the exercise price of options granted under the plan may not be less than the fair market value of the underlying shares on the date of grant.

In May 2005, our shareholders approved the adoption of the 2005 Equity Incentive Plan. No new awards will be available for future issuance under any existing TransAct equity plan other than the 2005 Equity Incentive Plan.
