We will pay interest on the 2018 notes on February 15 and August 15 of each year, beginning on February 15, 2009. **The effective yield on the 2018 notes if held to maturity will be 6.820% per year.** Unless we redeem the 2018 notes earlier, the 2018 notes will mature on August 15, 2018. We will pay interest on the 2038 notes on February 15 and August 15 of each year, beginning on February 15, 2009. **The effective yield on the 2038 notes if held to maturity will be 7.529% per year.** Unless we redeem the 2038 notes earlier, the 2038 notes will mature on August 15, 2038. We may redeem some or all of the notes at any time and from time to time at 100% of their principal amount plus a make-whole premium described in this prospectus supplement. We may also redeem all of the notes at any time in the event that certain changes involving Canadian withholding taxes occur. If we experience a change in control and there is a specified decline in the credit rating of any series of the notes, we will be required to make an offer to purchase all of the notes of such series at a price equal to 101% of their principal amount plus accrued interest to the date of purchase in order to avoid an event of default under the notes of such series.

The notes will be unsecured, unsubordinated obligations of Rogers Communications Inc. and will rank equally with its unsecured, unsubordinated obligations. Subject to the release provisions described herein, payment of principal, premium, if any, and interest on the notes will be fully and unconditionally guaranteed, jointly and severally, on an unsecured, unsubordinated basis by two of our wholly-owned subsidiaries.

Investing in the notes involves risks. See the Risk Factors section beginning on page 18 of the accompanying prospectus, as well as Risks Related to the Notes beginning on page S-7 of this prospectus supplement.

The notes have not been approved or disapproved by the Securities and Exchange Commission or any state securities regulator, nor has the Securities and Exchange Commission or any state securities regulator passed upon the accuracy or adequacy of this prospectus supplement or the prospectus to which it relates. Any representation to the contrary is a criminal offense.

We are permitted to prepare this prospectus supplement and the accompanying prospectus in accordance with Canadian disclosure requirements, which are different from those of the United States. We prepare our financial statements in accordance with Canadian generally accepted accounting principles, and are subject to Canadian and U.S. auditing and auditor independence standards. They may not be comparable to financial statements of U.S. companies.

Owning the notes may subject you to tax consequences both in the United States and Canada. You should read the tax discussion contained in this prospectus supplement. This prospectus supplement and the accompanying prospectus may not describe these tax consequences fully.

Your ability to enforce civil liabilities under the U.S. federal securities laws may be affected adversely because we are organized under the laws of British Columbia, Canada, most of our directors, substantially all of our officers and the experts named in this prospectus supplement are Canadian residents, and substantially all of our assets are located outside the United States.

The debt securities offered hereby have not been qualified for sale under the securities laws of any province or territory of Canada (other than the Province of Ontario) and are not being offered in Canada or to any resident of Canada. See **Underwriting** .

The underwriters may sell notes for less than the initial offering price in circumstances discussed under **Underwriting** . In addition, the underwriters may over-allot or effect transactions which stabilize or maintain the market price of the notes at levels other than those that might otherwise prevail on the open market. Such transactions, if commenced, may be discontinued at any time. See **Underwriting** . **Each of the underwriters is an affiliate of a bank or a financial institution that is currently, or may become concurrently with this offering, a lender to us under our bank credit facility and/or a counter-party to cross-currency interest rate exchange agreements with us. Accordingly, we may be considered to be a connected issuer of each such underwriter for purposes of applicable securities legislation in each of the provinces of Canada. See **Underwriting** .**

There is no market through which the notes may be sold and purchasers may not be able to resell the notes purchased under this prospectus supplement. This may affect the pricing of the notes in the secondary market, the transparency and availability of trading prices, the liquidity of the notes, and the extent of issuer regulation. See **Risks Related to the Notes .**

The underwriters expect to deliver the notes to purchasers on or about August 6, 2008, but in any event not later than September 10, 2008, through the book entry facilities of the Depository Trust Company and its direct and indirect participants, including Euroclear and Clearstream, Luxembourg.

**IMPORTANT NOTICE ABOUT INFORMATION IN THIS PROSPECTUS SUPPLEMENT
AND THE ACCOMPANYING PROSPECTUS**

This document is in two parts. The first part is this prospectus supplement, which describes the specific terms of the notes that we are offering and also adds to and updates certain information contained in the accompanying prospectus and the documents incorporated by reference therein and herein. The second part is the accompanying short form base shelf prospectus dated November 8, 2007, which gives more general information, some of which may not apply to the notes we are offering pursuant to this prospectus supplement. The accompanying short form base shelf prospectus is referred to as the prospectus in this prospectus supplement.

If the description of the notes varies between this prospectus supplement and the prospectus, you should rely on the information in this prospectus supplement.

You should rely only on the information contained in or incorporated by reference into this prospectus supplement and the accompanying prospectus and on other information included in the registration statement of which this prospectus supplement and the accompanying prospectus forms a part. We have not, and the underwriters have not, authorized any other person to provide you with information that is different. If anyone provides you with different or inconsistent information, you should not rely on it. We are not, and the underwriters are not, making an offer to sell these securities in any jurisdiction where the offer or sale is not permitted. The information in this prospectus supplement and the prospectus, including the information in any document incorporated by reference herein and therein, is accurate only as of the date of this prospectus supplement.

Except as set forth under Summary of the Offering, The Guarantors and Description of the Notes or unless the context otherwise requires, in this prospectus supplement (excluding the documents incorporated by reference herein) the terms RCI, Company, we, us and our refer to Rogers Communications Inc. and its subsidiaries, references to Canadian dollars, Cdn\$ and \$ are to the currency of Canada and references to U.S. dollars or US\$ are to the currency of the United States.

Our consolidated financial statements have been prepared in accordance with the accounting principles generally accepted in Canada (Canadian GAAP) and are stated in Canadian dollars.

KEY PERFORMANCE INDICATORS AND NON-GAAP MEASURES

We measure the success of our strategies using a number of key performance indicators, some of which we present in the table contained in this prospectus supplement under the heading Selected Consolidated Financial and Operating Data. Important details in respect of these measures, including how they are defined and calculated, are included in our management's discussion and analysis incorporated by reference into this prospectus supplement. Particular reference should be made to the section of our management's discussion and analysis in respect of our annual audited consolidated financial statements entitled Key Performance Indicators and Non-GAAP Measures. For the measures in the table referenced above that are presented under the heading Selected Subscriber Data, see also the subsections of the Segment Review in our management's discussion and analysis (for the corresponding period) entitled Wireless Summarized Wireless Subscriber Results and Cable Cable Operations Summarized Subscriber Results, as applicable.

These key performance indicators are not measurements in accordance with Canadian GAAP. The non-GAAP measures presented in Selected Consolidated Financial and Operating Data in this prospectus supplement include adjusted operating profit and operating profit. None of these measures should be considered as an alternative to net income or any other measure of performance calculated in accordance with Canadian GAAP. In general, we present

these additional measures as we believe they allow us to more effectively measure our performance against our operating strategy as well as against the results of our peers and competitors. Similarly titled measures presented by other companies may have a different meaning and may not be comparable. For a further discussion of why and how we present these measures, see the section entitled Key Performance Indicators and Non-GAAP Measures in our management's discussion and analysis in respect of our annual audited consolidated financial statements incorporated by reference into this prospectus supplement. For a calculation of any of these non-GAAP measures expressed for the years ended December 31, 2007 and 2006, see the sections of our associated management's

discussion and analysis incorporated by reference into this prospectus supplement entitled Supplementary Information: Non-GAAP Calculations and Consolidated Financial and Operating Results Reconciliation of Net Income to Operating Profit and Adjusted Operating Profit for the Period . For a calculation of any of these non-GAAP measures expressed for the six months ended June 30, 2008 and 2007, see the sections of our associated management s discussion and analysis entitled Supplementary Information and Summarized Consolidated Financial Results Reconciliation of Net Income to Operating Profit and Adjusted Operating Profit for the Period .

RISKS RELATED TO THE NOTES

An investment in the notes involves risk. In addition to the risks set forth below and the other information contained in this prospectus supplement and the accompanying prospectus, you should consider carefully the risks and uncertainties described in the documents incorporated by reference into this prospectus supplement and the accompanying prospectus.

Discussions of certain risks and uncertainties affecting our business are provided in our annual information form, our management's discussion and analysis for the year ended December 31, 2007 and our management's discussion and analysis for the three and six months ended June 30, 2008, each of which are incorporated by reference into this prospectus supplement. Any of these risks could materially adversely affect our business, financial condition or results of operations. Additional risks not currently known to us or that we currently deem to be immaterial may also materially and adversely affect our business, financial condition or results of operations.

The notes and guarantees will be effectively subordinated to the debt and other liabilities of our non-guarantor subsidiaries and to any of our and the guarantors' secured debt.

Subject to the release provisions described herein, the notes will be unconditionally guaranteed on a senior, unsecured basis by two of our wholly-owned subsidiaries, RCCI and RWP. Our other subsidiaries will not guarantee or otherwise be responsible for the payment of principal or interest or other payments required to be made by us on the notes. Accordingly, the notes will effectively be subordinated to all existing and future liabilities (including trade payables and debt) of such subsidiaries and, upon any release of their respective guarantees, RCCI and RWP. We conduct a substantial portion of our operations through, and hold a substantial portion of our assets in, our non-guarantor subsidiaries. As a result, our ability to meet our financial obligations, including servicing our debt under the notes, depends significantly upon our receipt of funds from these non-guarantor subsidiaries. These subsidiaries are distinct legal entities and have no obligation to make funds available to us to pay our obligations under the notes. In the event of an insolvency, bankruptcy, liquidation, reorganization or similar proceeding in respect of any of our subsidiaries that are not, at the time, guaranteeing the notes, holders of the notes will have no right to proceed against the assets of such non-guarantor subsidiaries. Creditors of such non-guarantor subsidiaries would generally be entitled to payment in full from such assets before any assets are made available for distribution to Rogers Communications Inc., RCCI or RWP to pay their respective debts and other obligations. As of June 30, 2008, our subsidiaries (excluding the guarantors) had in the aggregate approximately \$9 million of debt and other liabilities (excluding intercompany liabilities and current liabilities). Pursuant to the terms of our existing debt obligations, including those of the notes, our subsidiaries are permitted to incur additional debt subject to certain limitations.

The notes and subsidiary guarantees will also be effectively subordinated in right of payment to all existing and any future secured debt of Rogers Communications Inc. and the guarantors, respectively, to the extent of the value of the assets securing such debt. In the event of an insolvency, bankruptcy, liquidation, reorganization or similar proceeding, the assets of Rogers Communications Inc. or of a guarantor, as applicable, that serve as collateral under any such secured debt would be made available to satisfy the obligations under the secured debt before any payments are made on the notes or the applicable subsidiary guarantee. As of June 30, 2008, Rogers Communications Inc. and the guarantors had in the aggregate approximately \$1.4 million of secured debt. Pursuant to the terms of our existing debt obligations, including those of the notes, we may incur additional secured debt subject to certain limitations.

There can be no assurance that a trading market for the notes will develop or as to the liquidity of any trading market that might develop for the notes.

There is no established trading market for the notes and we do not intend to have the notes listed on any securities exchange. We have been informed by the underwriters that they presently intend to make a market in the notes after this offering is completed, as permitted by applicable laws and regulations. The underwriters are not obligated, however, to make a market in the notes and any market making may be discontinued at any time at the sole discretion of the underwriters. In addition, the liquidity of the trading market in the notes and the market price quoted for the notes may be adversely affected by, among other things, changes in the overall market for debt securities and by changes in our financial performance or prospects or in the prospects for companies in our industry

S-7

generally. As a result, you cannot be sure that an active trading market will develop for the notes or as to the liquidity of any trading market that may develop.

Credit ratings may change adversely affecting the market value of the notes and our cost of capital. Adverse changes to the credit ratings assigned to some of our outstanding public debt may also subject us to certain restrictive covenants.

There is no assurance that the credit ratings assigned to a particular series of notes will remain in effect for any given period of time or that any such rating will not be lowered or withdrawn entirely by the relevant rating agency. Real or anticipated changes in credit ratings assigned to a particular series of notes will generally affect the market price of such notes. In addition, real or anticipated changes in our credit ratings may also affect the cost at which we can access the capital markets.

Some of our outstanding public debt indentures contain restrictive covenants to which we are not subject for so long as more than one rating agency assigns the debt issued under the indenture an investment grade rating and we are not in default of our obligations under the indenture. If we fail to meet these conditions, we will again be subject to these restrictive covenants which will limit our operating flexibility and may limit our ability to execute our business strategy.

We may be unable to purchase the notes upon a change in control triggering event.

If we experience a change in control and a particular series of the notes experiences a specified credit rating decline, we will be required to offer to purchase the notes of such series for cash at a price equal to 101% of the principal amount of such notes plus accrued interest to the date of purchase in order to avoid an event of default under such notes. See Description of the Notes Events of Default Change in Control Triggering Event . A change in control and a specified credit rating decline under the terms of any series of notes is likely to correspond with a change in control and a specified credit rating decline under the terms of our other public debt, which would require us to make a similar offer to purchase with respect to that debt in order to avoid an event of default thereunder. In addition, a change in control and a specified credit rating decline in respect of our senior public debt will constitute an event of default under our bank credit facility. In the event of a change in control and a specified credit rating decline relating to our debt, we may not have sufficient funds to purchase all of the affected notes, in addition to all of our existing public debt, and to repay the amounts outstanding under our bank credit facility.

All information contained in the foregoing table is presented as if the intracompany amalgamation that occurred on July 1, 2007, as well as the provision of the RCCI and RWP guarantees in respect of our bank debt, our public debt and our cross-currency interest rate exchange agreements, had occurred at the start of the earliest period presented (i.e. January 1, 2006). - (2) Effective December 31, 2006 we terminated the management fee arrangements which had previously been in place between RCI and each of Rogers Wireless Inc., Rogers Cable Inc. and Rogers Media Inc. and, as a result, commencing January 1, 2007 the management fees are no longer paid to RCI by these segments. Such fees paid to RCI totaled approximately \$93 million for the year ended December 31, 2006.
- (3) In December 2006 and January 2007, certain real estate assets having an aggregate net book value of \$137.2 million and \$81.9 million, respectively, together with the related premises leases were transferred to RCI by certain of its subsidiaries.
- (4) For the purposes of this table, investments in subsidiary companies are accounted for by the equity method.
- (5) Amounts recorded in current liabilities and non-current liabilities for the guarantors do not include any obligations arising as a result of being a guarantor or co-obligor, as the case may be, under any of RCI's long-term debt.

credit facility are guaranteed by RCCI and RWP. For further details in respect of this credit facility, see Note 15 to our audited consolidated financial statements as at and for the years ended December 31, 2007 and 2006 and Note 5 to our unaudited interim consolidated financial statements as at June 30, 2008 and for the three and six months ended June 30, 2008 and 2007. - (4) On July 1, 2007, RCI amalgamated with, among other subsidiaries, its then wholly-owned subsidiaries, Rogers Cable Inc. (Cable) and Rogers Wireless Inc. As part of the amalgamation process, on June 29, 2007, Cable and Wireless released all security provided by bonds issued under the Cable deed of trust and the Wireless deed of trust for all of the then outstanding Cable and Wireless senior public debt. As a result, none of our senior public debt outstanding on that date remains secured by such bonds effective as of June 29, 2007. For further details in respect of this senior public debt, see Note 15 to our audited consolidated financial statements as at and for the years ended December 31, 2007 and 2006 and Note 5 to our unaudited consolidated financial statements as at June 30, 2008 and for the three and six months ended June 30, 2008 and 2007. EARNINGS COVERAGE

The following pro forma earnings coverage ratios and associated financial information have been calculated on a consolidated basis for the 12-month periods ended December 31, 2007 and June 30, 2008 based on our financial statements for the respective periods and have been prepared in accordance with Canadian GAAP. The pro forma information does not give effect to adjustments for normal course advances and repayments of long-term debt under our bank credit facility subsequent to June 30, 2008 as these would not materially affect the ratios.

DESCRIPTION OF THE NOTES

Each of the 6.80% senior notes due 2018 (the 2018 notes) and the 7.50% senior notes due 2038 (the 2038 notes) constitutes a series of senior debt securities as described in the accompanying prospectus. Each of these series of notes will be issued under its own supplemental indenture (each, a Supplemental Indenture) which, for purposes of that series, will supplement the terms and conditions applicable to senior debt securities in the indenture to be dated as of the original issue date of the notes between RCI and The Bank of New York Mellon, as trustee (as supplemented by supplemental indentures from time to time, excluding supplemental indentures establishing the terms of a series of debt securities, the Base Indenture). References in this prospectus supplement to the Indenture are to the Base Indenture as supplemented by the Supplemental Indenture applicable to the series of notes.

For purposes of this Description of the Notes , the words we, us, our and RCI refer to Rogers Communications Inc. (or its successors, if any, under the Indenture) and not any of its subsidiaries. Any reference to the notes contained in this prospectus supplement refers to both the 2018 notes and the 2038 notes unless the context indicates otherwise.

The 2038 notes will bear interest at a rate of 7.50% per year from and including August 6, 2008 or from the most recent interest payment date to which interest has been paid.

Interest on each of the 2018 notes is payable semi-annually in arrears on February 15 and August 15 of each year, beginning on February 15, 2009, to the person in whose name such note is registered at the close of business on the February 1 or August 1 next preceding such interest payment date. Interest on each of the 2038 notes is payable semi-annually in arrears on February 15 and August 15 of each year, beginning on February 15, 2009, to the person in whose name such note is registered at the close of business on the February 1 or August 1 next preceding such interest payment date. To the extent lawful, interest will accrue on any overdue interest at the same rate. Interest will be computed on the basis of a 360-day year comprised of twelve 30-day months.

We may from time to time without notice to, or the consent of, the holders of a particular series of the notes, create and issue additional notes of the same series equal in rank to the notes of that series described herein in all respects (or in all respects except for the payment of interest accruing prior to the issue date of the additional notes or except for the first payment of interest following the issue date of the additional notes) so that the additional notes may be consolidated and form a single series with the other notes of that series described herein and have the same terms as to status, redemption or otherwise as such other notes described herein, as applicable.

Principal of, premium, if any, and interest on the notes including, if applicable, the Change in Control Purchase Price in relation to the notes will be paid in United States dollars. Principal of, premium, if any, and interest on the notes will be payable, and the notes will be exchangeable and transferable, at the corporate trust office of the trustee, The Bank of New York Mellon, in The City of New York (currently located at 101 Barclay Street, Floor 4-East, New York, New York, 10286), or at such other office or agency, in The City of New York or elsewhere, as may be designated and maintained by RCI for such purpose; *provided, however*, that payment of interest on the notes may be made at the option of RCI by check mailed to the person entitled thereto as shown on the applicable securities register. Notwithstanding the foregoing, the final payment of principal shall be payable only upon surrender of the note to the paying agent.

The notes will be issued only in fully registered form without coupons, in denominations of US\$2,000 or any integral multiple of US\$1,000 in excess thereof. Subject to the terms of the Indenture, no service charge will be made for any registration of transfer or exchange or redemption of notes, except for certain taxes or other governmental charges that may be imposed in connection with any registration of transfer or exchange.

The notes will not be entitled to the benefit of any sinking fund.

Guarantees and Ranking

The payment of principal, premium, if any, and interest on the notes of each series will be fully and unconditionally guaranteed (the guarantees), jointly and severally, by two of RCI's wholly-owned subsidiaries, RCCI and RWP (collectively, the guarantors). The guarantees will be fully and unconditionally guaranteed by RCI on an unsecured, unsubordinated basis. Any payments made by a guarantor with respect to a note or guarantee will be made without withholding or deduction for or on account of Taxes unless required by law or by interpretation or administration thereof. If a guarantor is so required to withhold or deduct any amount for or on account of Taxes, such guarantor will pay Additional Amounts on the same terms, and subject to the same conditions and limitations, as would apply to RCI if it were required to pay Additional Amounts. See the section entitled Description of Debt Securities Additional Amounts in the accompanying prospectus.

The Indenture and the guarantees will provide that each guarantor will be released and relieved of its obligations under its guarantee in respect of a series of notes, and that guarantee will be terminated, upon the request of RCI (without the consent of the trustee) if, immediately after giving effect to such release (and any other concurrent release, termination, repayment or discharge of any other guarantee or other debt of such guarantor), RCI would be in compliance with the Limitation on Restricted Subsidiary Debt covenant described below under Additional Covenants. Notwithstanding the above, the guarantee of a guarantor may not be released pursuant to the above provisions if, immediately after the release, that guarantor remains a co-obligor or guarantor in respect of any of RCI's existing public debt securities outstanding on the date hereof. Among other things, the above release provisions will permit the release and termination of a guarantee in the event of a sale or other disposition as a result of which the applicable guarantor would cease to be a Subsidiary of RCI provided that RCI is in compliance with the aforementioned covenant after giving pro forma effect for such disposition (including the application of any proceeds therefrom). Other than in accordance with these release provisions, or the other release provisions provided for in the Indenture, no guarantor will be released from its payment obligations under its guarantee and no amendment or waiver of these release provisions will be permitted except, in each case, with the consent of the holder of each outstanding note of the affected series. RCI may also, at its option, and at any time, elect to have its obligations and the obligations of the guarantors discharged with respect to the notes upon fulfillment of the conditions described in the accompanying prospectus under Description of Debt Securities Defeasance and Covenant Defeasance of Indenture.

The Indenture and the guarantees will provide that, unless a guarantor has already been released, or in connection with the applicable transaction will be released, from its obligations under its guarantee in accordance with the above release provisions or any other release provision set forth in the Indenture, that guarantor will not amalgamate or consolidate with or merge with or into any other Person or convey, transfer, lease or otherwise dispose of its properties and assets substantially as an entirety to any Person by liquidation, winding-up or otherwise (in one transaction or a series of related transactions) unless (a) immediately after giving effect to such transaction (and treating any Debt which becomes an obligation of the guarantor or a subsidiary of the guarantor in connection with or as a result of such transaction as having been incurred at the time of such transaction), no Default or Event of Default shall have occurred and be continuing and (b) either (1) the guarantor will be the continuing Person or (2) the Person (if other than the guarantor) formed by such consolidation or amalgamation or into which the guarantor is merged or the Person that acquires by conveyance, transfer, lease or other disposition the properties and assets of the guarantor substantially as an entirety shall, unless that Person is RCI, (i) be a corporation, company, partnership or trust

organized and validly existing under (A) the federal laws of Canada or the laws of any Province thereof or (B) the laws of the United States or any State thereof or the District of Columbia and (ii) assume by operation of law or expressly assume, by a supplemental indenture, all of the obligations of the applicable guarantor under its guarantee. In the event of any transaction described in and complying with the conditions listed in this paragraph in which the guarantor is not the continuing corporation, the successor or continuing Person formed or

remaining will succeed to, and be substituted for, and may exercise every right and power of, such guarantor under the Indenture and thereafter, except in the case of a lease, such guarantor will be released and relieved from all of its obligations under its guarantee.

The notes and the guarantees will be unsecured, unsubordinated obligations of RCI and the guarantors, respectively, and will rank *pari passu* with our and the guarantors' existing and future unsecured, unsubordinated debt. The notes will be effectively subordinated to (1) all of our and the guarantors' existing and future secured debt to the extent of the assets securing such debt and (2) all existing and future debt and other liabilities of our subsidiaries (other than the guarantors, for so long as their guarantee remains in effect). As of June 30, 2008, our subsidiaries (excluding the guarantors) had in the aggregate approximately \$9 million of debt and other liabilities (excluding intercompany liabilities and current liabilities) and RCI and the guarantors had in the aggregate approximately \$1.4 million of secured debt.

Optional Redemption

The notes of each series will be redeemable, in whole or in part, at the option of RCI at any time at a redemption price equal to the greater of:

(1) 100% of the principal amount of the notes of the series to be redeemed, and

(2) as determined by the Quotation Agent, the sum of the present values of the remaining scheduled payments of principal and interest on the notes of the series to be redeemed (not including any portion of the payments of interest accrued as of the date of redemption) discounted to the redemption date on a semi-annual basis (assuming a 360-day year consisting of twelve 30-day months) at the Adjusted Treasury Rate plus 40 basis points, in the case of the 2018 notes, or 45 basis points, in the case of the 2038 notes,

plus, in each case, accrued interest thereon to the date of redemption.

Adjusted Treasury Rate means, with respect to any redemption date, the rate per year equal to the semi-annual equivalent yield to maturity of the Comparable Treasury Issue, assuming a price for the Comparable Treasury Issue (expressed as a percentage of its principal amount) equal to the Comparable Treasury Price for the redemption date.

Comparable Treasury Issue means the United States Treasury security selected by the Quotation Agent as having a maturity comparable to the remaining term of the notes of the series to be redeemed that would be utilized, at the time of selection and in accordance with customary financial practice, in pricing new issues of corporate debt of comparable maturity to the remaining term of the notes of the series to be redeemed.

Comparable Treasury Price means, with respect to any redemption date, the average of the Reference Treasury Dealer Quotations for the redemption date.

Quotation Agent means the Reference Treasury Dealer appointed by RCI.

Reference Treasury Dealer means (i) either of Citigroup Global Markets Inc. or J.P. Morgan Securities Inc. or any successor of either entity; *provided, however*, that if either shall cease to be a primary U.S. Government securities dealer in New York City (a Primary Treasury Dealer), RCI shall substitute for such dealer another Primary Treasury Dealer; and (ii) any other Primary Treasury Dealer(s) selected by RCI.

Reference Treasury Dealer Quotations means, with respect to each Reference Treasury Dealer and any redemption date, the average, as determined by the Reference Treasury Dealer, of the bid and asked prices for the

Comparable Treasury Issue (expressed in each case as a percentage of its principal amount) quoted by the Reference Treasury Dealer at 5:00 p.m. on the third business day preceding the redemption date.

The notes of each series also will be subject to redemption in connection with certain changes in applicable withholding taxes. See Description of Debt Securities Redemption Upon Changes in Withholding Taxes in the accompanying prospectus.

RCI will not be obligated, pursuant to mandatory sinking fund payments or otherwise, to redeem the notes and will not be obligated, at the option of the holder, to purchase or repay the notes.

In addition to the Events of Default specified in the accompanying prospectus under *Description of Debt Securities Events of Default*, the occurrence of any Change in Control Triggering Event with respect to a series of notes will also constitute an Event of Default for that series of notes; *provided, however*, that holders of the notes of such particular series may not declare the principal of the notes of such series due and payable following an Event of Default arising from a Change in Control Triggering Event, and such Event of Default will be cured, if, (i) within 20 business days after the occurrence of the Change in Control Triggering Event, RCI notifies the trustee in writing of such event and makes an offer to all holders of the notes of the affected series to purchase all outstanding notes of such series properly tendered (a *Change in Control Offer*) at a purchase price (the *Change in Control Purchase Price*) equal to 101% of the principal amount thereof plus any accrued and unpaid interest to the Change in Control Purchase Date (as defined below) and (ii) on the date that is 40 business days after the occurrence of the Change in Control Triggering Event (the *Change in Control Purchase Date*) all notes of the affected series properly tendered into the Change in Control Offer are purchased. In the event of a Change in Control Offer, RCI shall comply with all applicable tender offer rules including Rule 14e-1 under the Exchange Act, to the extent applicable.

Acceleration and Rescission

If an Event of Default (other than an Event of Default specified in clause (f) of the section of the accompanying prospectus entitled *Description of Debt Securities Events of Default*) shall occur and be continuing in respect of a series of debt securities, the trustee or the holders of not less than 25% in aggregate principal amount of the outstanding debt securities of the affected series may declare the principal of all outstanding debt securities of such series due and payable; *provided, however*, that holders of either series of the notes may not declare the principal of

the notes of such series due and payable upon an Event of Default arising upon a Change in Control Triggering Event unless and until RCI (or a third party, as applicable) fails in any material respect to comply with the provisions of the applicable Supplemental Indenture that establish the requirements for the associated Change of Control Offer. If an Event of Default specified in clause (f) of the section of the accompanying prospectus entitled Description of Debt Securities Events of Default occurs and is continuing in respect of a series of debt securities, then the

principal of all outstanding debt securities of such series shall become due and payable without any declaration or other act on the part of the trustee or any holder of such series.

At any time after a declaration of acceleration with respect to one or more series of debt securities has been made, but before a judgment or decree for payment of the money due has been obtained by the trustee, the holders of a majority in aggregate principal amount of the outstanding debt securities of any such affected series acting in writing may, on behalf of the holders of all the debt securities of such individual series, rescind and annul such declaration of acceleration and its consequences if (a) RCI has paid or deposited, or caused to be paid or deposited, with the trustee a sum sufficient to pay (i) all sums paid or advanced by the trustee with respect to such series of debt securities and the reasonable compensation, expenses, disbursements and advances of the trustee, its agents and counsel, (ii) the principal of, and interest, premium or other amounts, if any, on, any debt securities of such series that have become due and payable otherwise than by such declaration of acceleration, and (iii) for purposes of each series of the notes, interest upon overdue interest at the interest rate provided for in the notes of such series to the extent that payment of such interest is lawful; and (b) all Events of Default in respect of such series, other than the nonpayment of principal of, or interest, premium or other amounts, if any, on, the debt securities of such series which have become due solely by such declaration of acceleration, have been cured or waived.

The Base Indenture contains a provision entitling the trustee to be funded and indemnified by the holders of debt securities of the applicable series before proceeding to exercise any right or power under the Base Indenture or the supplemental indenture establishing such series at the request or direction of such holders. Subject to such provisions for funding and indemnification of the trustee and certain other limitations and conditions contained in the Base Indenture, the Base Indenture provides that the holders of a majority in aggregate principal amount of outstanding debt securities of the applicable series may direct the time, method and place of conducting any proceeding for any remedy available to the trustee or exercising any trust or power conferred upon the trustee under the Base Indenture (as supplemented for purposes of such debt securities). The Base Indenture provides that no holder of debt securities of any series may pursue a remedy with respect to the Base Indenture (as supplemented for purposes of such debt securities) except under certain circumstances where the trustee has failed to act.

Additional Covenants

The notes of each series will be subject to the covenants described in the accompanying prospectus. In addition, the notes of each series will be subject to the additional covenants described below.

Restricted Subsidiaries

The Board of Directors of RCI may designate any Restricted Subsidiary or any Person that is to become a Subsidiary as an Unrestricted Subsidiary, or RCI or any Restricted Subsidiary may transfer any assets or properties to an Unrestricted Subsidiary, if (i) prior to and immediately after such designation, no Default or Event of Default shall have occurred and be continuing and (ii) such Subsidiary or Person, together with all other Unrestricted Subsidiaries, shall not in the aggregate have Net Tangible Assets greater than 15% of RCI's Consolidated Net Tangible Assets; *provided, however*, that for the purposes of this Restricted Subsidiaries covenant, (1) RCI's Consolidated Net Tangible Assets shall also include the aggregate Net Tangible Assets of such Subsidiary or Person and all other Unrestricted Subsidiaries and (2) Excluded Assets shall be excluded from the calculation of Net Tangible Assets and Consolidated Net Tangible Assets. On the initial issue date of the notes, none of RCI's Subsidiaries will be designated as an Unrestricted Subsidiary.

The Board of Directors of RCI may not designate any Unrestricted Subsidiary as a Restricted Subsidiary unless immediately before and after giving effect to such designation, no Default or Event of Default shall have occurred and be continuing.

Nothing in this Restricted Subsidiaries covenant shall restrict or limit RCI or any Restricted Subsidiary from transferring any asset that is an Excluded Asset to any Unrestricted Subsidiary or any Person that is to become an Unrestricted Subsidiary.

S-24

Table of Contents***Limitation on Secured Debt***

RCI will not, and RCI will not permit any of its Restricted Subsidiaries to, create, assume, incur or guarantee any Secured Debt unless and for so long as RCI secures, or causes such Restricted Subsidiary to secure, the notes of the applicable series equally and ratably with (or prior to) such Secured Debt. However, any of RCI or its Restricted Subsidiaries may incur Secured Debt without securing such notes if, immediately after incurring the Secured Debt, the aggregate principal amount of all Secured Debt then outstanding plus the aggregate amount of the Attributable Debt then outstanding pursuant to Sale and Leaseback Transactions would not exceed 15% of RCI's Consolidated Net Tangible Assets. The aggregate amount of all Secured Debt in the preceding sentence excludes Secured Debt which is secured equally and ratably with the notes of the applicable series and Secured Debt that is being repaid concurrently. Any Lien which is granted to secure notes of a series under this covenant shall be discharged at the same time as the discharge of the Lien securing the Secured Debt that gave rise to the obligation to secure such notes under this covenant.

If, upon any consolidation, amalgamation or merger of RCI or a guarantor, as applicable, with or into any other Person, or upon any conveyance, transfer, lease or disposition of the properties of RCI or a guarantor, as applicable, substantially as an entirety to any Person, in each case as described in the accompanying prospectus in the section entitled "Description of Debt Securities - Mergers, Amalgamations and Sales of Assets by RCI", in the case of RCI, and as described in the section of this prospectus supplement entitled "Description of the Notes - Guarantors and Ranking", in the case of a guarantor, any property or asset of RCI or any Subsidiary of RCI would become subject to a Lien, then, unless such Lien could be created pursuant to the covenant described in the paragraph above without equally and ratably securing the notes of the applicable series, RCI or the guarantor, as applicable, simultaneously with or prior to such transaction, will, as to such property or asset, secure such notes (or cause such notes to be secured) equally and ratably with (or prior to) the Debt that upon such transaction is to become secured as to such property or asset by such Lien.

Limitation on Sale and Leaseback Transactions

RCI will not, and will not permit any Restricted Subsidiary to, enter into any Sale and Leaseback Transaction, unless either (a) immediately thereafter, the sum of (1) the Attributable Debt to be outstanding pursuant to such Sale and Leaseback Transaction and all other Sale and Leaseback Transactions entered into by RCI or a Restricted Subsidiary on or after the initial issue date of the notes (or, in the case of a Restricted Subsidiary, the date on which it became a Restricted Subsidiary, if on or after the initial issue date of the notes) and (2) the aggregate amount of all Secured Debt, excluding Secured Debt which is secured equally and ratably with the notes of the applicable series, would not exceed 15% of RCI's Consolidated Net Tangible Assets or (b) an amount, equal to the greater of the net proceeds to RCI or a Restricted Subsidiary from such sale and the Attributable Debt to be outstanding pursuant to such Sale and Leaseback Transaction, is used within 180 days to retire Debt of RCI or a Restricted Subsidiary. However, Debt which is subordinate to the notes or which is owed to RCI or a Restricted Subsidiary may not be retired in satisfaction of clause (b) above.

Limitation on Restricted Subsidiary Debt

RCI will not permit any Restricted Subsidiary to, directly or indirectly, create, incur, assume or suffer to exist any Debt (other than Debt to the extent that the notes of the applicable series are secured equally and ratably with (or prior to) such Debt), unless (1) the obligations of RCI under the notes of such series are guaranteed (which guarantee may be on an unsecured basis) by such Restricted Subsidiary such that the claim of the holders of the notes of such series under such guarantee ranks prior to or *pari passu* with such Debt or (2) after giving effect to the incurrence of such Debt and the application of the proceeds therefrom, the sum of (without duplication) (x) the then outstanding aggregate principal amount of Debt (other than Exempted Secured Debt) of all Restricted Subsidiaries, (y) the then

outstanding aggregate principal amount of Secured Debt of RCI (not on a Consolidated basis) and (z) Attributable Debt relating to then outstanding Sale and Leaseback Transactions, would not exceed 15% of Consolidated Net Tangible Assets; *provided, however*, that this restriction will not apply to, and there will be excluded from any calculation hereunder, (A) Debt owing by a Restricted Subsidiary to RCI or to another Restricted Subsidiary and (B) Debt secured by Permitted Liens; *provided, further*, that this restriction will not prohibit the incurrence of Debt in connection with any extension, renewal or replacement (including successive extensions, renewals or

S-25

Table of Contents

replacements), in whole or in part, of any Debt of the Restricted Subsidiaries (*provided* that the principal amount of such Debt immediately prior to such extension, renewal or replacement is not increased).

Modification and Waiver

The Indenture provides that modifications and amendments to the Base Indenture and the particular terms and conditions of any series of debt securities issued under the Base Indenture may be made by RCI (and any applicable guarantors) and the trustee, and will be made by the trustee upon the request of RCI, with the consent of the holders of not less than a majority in aggregate principal amount of the outstanding debt securities of each such series to which such modification or amendment will apply; *provided, however*, that no such modification or amendment may, without the consent of the holder of each outstanding debt security of such series affected thereby: (i) change the Stated Maturity of the principal of, or any installment of interest on, any such debt security, or reduce the principal amount thereof or the rate of interest thereon, or reduce the redemption price thereof, or change the coin or currency in which any such debt security or any premium or the interest thereon is payable, or impair the right to institute suit for the enforcement of any such payment after the Stated Maturity thereof (or, in the case of redemption, on or after the applicable redemption date); (ii) reduce the percentage in principal amount of outstanding debt securities of such series, the consent of whose holders is necessary to amend or waive compliance with certain provisions of the Base Indenture or the supplemental indenture applicable to such series or to waive certain defaults; or (iii) modify any of the provisions relating to the modification or amendment of the Base Indenture or the supplemental indenture applicable to such series which provisions require the consent of holders of outstanding debt securities of such series or relating to the waiver of past defaults or certain covenants, except to increase the percentage of outstanding debt securities of such series the consent of whose holders is required for such actions or to provide that certain other provisions of the Base Indenture or the supplemental indenture applicable to such series cannot be modified or waived without the consent of the holder of each debt security of such series affected thereby. In addition, modifications and amendments to the Base Indenture and the particular terms and conditions of any series of debt securities may be made by RCI (and any applicable guarantors) and the trustee without the consent of any holders of debt securities in order to, among other things, (i) provide certain additional rights or benefits to the holders of any series of debt securities, (ii) cure any ambiguity or correct or supplement any defective or inconsistent provision or make any other change to the Base Indenture or a series of debt securities, provided, in each case, that such modification or amendment does not adversely affect the interests of the holders of debt securities of any such series in any material respect, and (iii) give effect to any direction or other act of the holders of a series of debt securities permitted to be given, made or taken under the Base Indenture (as supplemented for purposes of such debt securities). Any modification or amendment to the Base Indenture or the particular terms and conditions of a series of debt securities that is permitted or authorized for a particular series will be binding on all holders of debt securities of that series notwithstanding whether a particular holder has approved it and, except as otherwise provided in any required approval for such modification or amendment, regardless of whether the holders of any other affected series of debt securities has approved it.

The holders of a majority in aggregate principal amount of the outstanding debt securities of any affected series may, on behalf of all holders of the debt securities of such series, waive RCI's compliance with certain covenants and other provisions of the Base Indenture that apply to such series of debt securities and the supplemental indenture applicable to such series, including any existing default or Event of Default and its consequences under the Base Indenture and such supplemental indenture other than a default or Event of Default (i) in the payment of interest (or premium, if any) on, or the principal of, the debt securities of that series, (ii) arising from a Change of Control Triggering Event or (iii) in respect of a covenant or other provision that cannot be modified or amended without the consent of the holders of each outstanding debt security of that series. In addition to certain covenants and other provisions identified in the Base Indenture, the Indenture provides that holders of a majority in aggregate principal amount of the outstanding notes of each series affected may waive compliance with the additional covenants set forth above under Additional Covenants .

Global Securities

The notes of each series will be issued in the form of one or more global securities that will be deposited with, or on behalf of, the depository, The Depository Trust Company. Interests in the global securities will be issued only

S-26

Table of Contents

in denominations of US\$2,000 or integral multiples of US\$1,000 in excess thereof. Unless and until it is exchanged in whole or in part for notes of the particular series in definitive form, a global security may not be transferred except as a whole to a nominee of the depository for the global security, or by a nominee of the depository to the depository or another nominee of the depository, or by the depository or any nominee to a successor depository or a nominee of the successor depository.

Book-Entry System

Initially, each series of notes will be registered in the name of Cede & Co., the nominee of the depository. Accordingly, beneficial interests in the notes will be shown on, and transfers thereof will be effected only through, records maintained by the depository and its participants.

The depository has advised us and the underwriters as follows: the depository, or DTC, is a limited-purpose trust company organized under the New York Banking Law, a banking organization within the meaning of the New York Banking Law, a member of the United States Federal Reserve System, a clearing corporation within the meaning of the New York Uniform Commercial Code and a clearing agency registered pursuant to the provisions of Section 17A of the Exchange Act. The depository holds securities that its participants (Direct Participants) deposit with the depository. The depository also eliminates the need for physical movement of securities certificates by facilitating the settlement among Direct Participants of securities transactions, such as transfers and pledges, in deposited securities through electronic computerized book-entry changes in the Direct Participants' accounts. Direct Participants include securities brokers and dealers, including the underwriters, banks, trust companies, clearing corporations, and certain other organizations. The depository is a wholly-owned subsidiary of The Depository Trust & Clearing Corporation, or DTCC. DTCC is owned by a number of Direct Participants of the depository and members of the national Securities Clearing Corporation, Government Securities Clearing Corporation, MBS Clearing Corporation and Emerging Markets Clearing Corporation, as well as by the New York Stock Exchange, Inc., the American Stock Exchange LLC and the National Association of Securities Dealers, Inc. Access to the depository system is also available to others such as both U.S. and non-U.S. securities brokers and dealers, banks, trust companies and clearing corporations that clear through or maintain a custodial relationship with a Direct Participant, either directly or indirectly (Indirect Participants). The rules applicable to the depository and its Direct Participants and Indirect Participants are on file with the Commission. All interests in the global securities including those held through the Euroclear System (Euroclear) or Clearstream Banking S.A. (Clearstream, Luxembourg) may be subject to procedures and requirements of DTC. Those interests held through Euroclear or Clearstream, Luxembourg may also be subject to the procedures and requirements of such systems.

The depository advises that its established procedures provide that:

upon our issuance of the notes, the depository will credit the accounts of Direct Participants and Indirect Participants designated by the underwriters with the principal amounts of the notes purchased by the underwriters, and

ownership of interest in the global securities will be shown on, and the transfer of the ownership will be effected only through, records maintained by the depository, the Direct Participants and the Indirect Participants.

The laws of some states require that certain persons take physical delivery in definitive form of securities which they own. Consequently, the ability to transfer beneficial interest in the global securities is limited to such extent.

So long as a nominee of the depository is the registered owner of the global securities, the nominee for all purposes, except as required by law, will be considered the sole owner or holder of the global securities under the Indenture.

Except as provided below, owners of beneficial interests in the global securities will not be entitled to have notes registered in their names, will not receive or be entitled to receive physical delivery of notes in definitive form and will not be considered the owners or holders thereof under the Indenture.

S-27

Table of Contents

None of RCI, the guarantors, any underwriters, the trustee or any paying agent will have any responsibility or liability for any aspect of the records relating to or payments made on account of beneficial ownership interests in the global securities, or for maintaining, supervising or reviewing any records relating to those beneficial ownership interests.

Principal and interest payments on the notes registered in the name of the depositary's nominee will be made in immediately available funds to the depositary's nominee as the registered owner of the global securities. Under the terms of the notes, we and the trustee will treat the persons in whose names the notes are registered as the owners of those notes for the purpose of receiving payment of principal and interest on those notes and for all other purposes whatsoever. Therefore, neither we, the trustee nor any paying agent has any direct responsibility or liability for the payment of principal or interest on the notes to owners of beneficial interests in the global securities. The depositary has advised us and the trustee that its current practice is upon receipt of any payment of principal or interest, to credit Direct Participants' accounts on the payment date in accordance with their respective holdings of beneficial interests in the global securities as shown on the depositary's records, unless the depositary has reason to believe that it will not receive payment on the payment date. Payments by Direct Participants and Indirect Participants to owners of beneficial interests in the global securities will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name", and will be the responsibility of the Direct Participants and Indirect Participants and not of the depositary, the trustee, the underwriters or us, subject to any statutory requirements that may be in effect from time to time. Payment of principal and interest to the depositary is our responsibility or the responsibility of the trustee, but disbursement of those payments to the owners of beneficial interests in the global securities shall be the responsibility of the depositary and Direct Participants and Indirect Participants.

Each series of notes represented by a global security will be exchangeable for notes of such series in definitive form of like tenor as the global security in denominations of US\$2,000 and integral multiples of US\$1,000 in excess thereof if (i) the depositary notifies us that it is unwilling or unable to continue as depositary for the global security or at any time the depositary ceases to be a clearing agency registered under applicable law and, in either case, a successor depositary is not appointed by us within 90 days, (ii) we in our discretion at any time determine not to require all of such notes to be represented by a global security and notify the trustee thereof or (iii) an Event of Default in respect of notes shall have occurred and be continuing (and, in the case of an Event of Default arising upon a Change in Control Triggering Event, such Event of Default shall not have been cured by a Change in Control Offer in the prescribed time). Any notes of a series that are exchangeable pursuant to the preceding sentence are exchangeable for notes of such series issuable in authorized denominations and registered in such names as the depositary shall direct. Subject to the foregoing, a global security is not exchangeable, except for a global security or global securities of the same aggregate denominations to be registered in the name of the depositary or its nominee.

The information in this section concerning DTC and DTC's book-entry system has been obtained from sources that we believe to be reliable, but neither we nor the underwriters take responsibility for the accuracy thereof.

Global Clearance and Settlement Procedures

Initial settlement for the notes will be made in immediately available funds. Secondary market trading between DTC participants ("DTC Participants") will occur in the ordinary way in accordance with DTC rules and will be settled in immediately available funds using DTC's Same-Day Funds Settlement System. Secondary market trading between Clearstream participants ("Clearstream Participants") and/or Euroclear participants ("Euroclear Participants") will occur in the ordinary way in accordance with the applicable rules and operating procedures of Clearstream, Luxembourg and Euroclear, as applicable.

Cross-market transfers between persons holding directly or indirectly through DTC on the one hand, and directly or indirectly through Clearstream Participants or Euroclear Participants, on the other, will be effected through DTC in

accordance with DTC rules on behalf of the relevant European international clearing system by its U.S. depositary; however, such cross-market transactions will require delivery of instructions to the relevant European international clearing system by the counterparty in such system in accordance with its rules and procedures and within its established deadlines (European time). The relevant European international clearing system will, if the transaction meets its settlement requirements, deliver instructions to its U.S. depositary to take

S-28

Table of Contents

action to effect final settlement on its behalf by delivering or receiving securities in DTC, and making or receiving payment in accordance with normal procedures for same-day funds settlement applicable to DTC. Clearstream Participants and Euroclear Participants may not deliver instructions directly to their respective U.S. depositaries.

Because of time-zone differences, credits of notes received in Clearstream, Luxembourg or Euroclear as a result of a transaction with a DTC Participant will be made during subsequent securities settlement processing and dated the business day following the DTC settlement date. The credits or any transactions in the notes settled during the processing will be reported to the relevant Euroclear Participant or Clearstream Participant on that business day. Cash received in Clearstream, Luxembourg or Euroclear as a result of sales of the notes by or through a Clearstream Participant or a Euroclear Participant to a DTC Participant will be received with value on the DTC settlement date but will be available in the relevant Clearstream, Luxembourg or Euroclear cash account only as of the business day following settlement in DTC.

Although DTC, Clearstream, Luxembourg and Euroclear have agreed to the foregoing procedures in order to facilitate transfers of notes among participants of DTC, Clearstream, Luxembourg and Euroclear, they are under no obligation to perform or continue to perform such procedures and such procedures may be discontinued or changed at any time.

Same-Day Settlement and Payment

Settlement for the notes will be made by the underwriters in immediately available funds. So long as the depositary continues to make same day settlement available to us, all payments of principal and interest on the notes will be made by us in immediately available funds.

Secondary trading in long-term notes and debentures of corporate issues is generally settled in clearing-house or next-day funds. In contrast, the depositary will facilitate same day settlement for trading in the notes until maturity, and secondary market trading activity in the notes will therefore be required by the depositary to settle in immediately available funds. No assurance can be given as to the effect, if any, of settlement in immediately available funds on trading activity in the notes.

Governing Law

The Indenture and the notes will be governed by and construed in accordance with the laws of the State of New York. The Indenture is subject to the provisions of the Trust Indenture Act.

CREDIT RATINGS

The following table discloses the credit ratings and credit ratings outlooks accorded to each series of notes by the rating agencies indicated:

Rating Agency	Rating	Outlook
Moody's Investors Service, Inc. (Moody's)	Baa3	Positive
Standard & Poor's Ratings Services (S&P)	BBB-	Positive
Fitch Ratings Ltd. (Fitch)	BBB	Stable

Moody's credit ratings are on a long-term debt rating scale that ranges from Aaa to C, which represents the range from highest to lowest quality of such securities rated. A rating of Baa is the fourth highest of nine major categories used by Moody's. According to the Moody's rating system, debt securities rated Baa are subject to moderate credit risk. They

are considered medium grade obligations and as such may possess certain speculative characteristics. Moody's applies numerical modifiers 1, 2 and 3 in each generic rating classification from Aa through Caa in its corporate bond rating system. The modifier 1 indicates that the issue ranks in the higher end of its generic rating category, the modifier 2 indicates a mid-range ranking and the modifier 3 indicates that the issue ranks in the lower end of its generic rating category.

S&P's credit ratings are on a long-term debt rating scale that ranges from AAA to D, which represents the range from highest to lowest quality of such securities rated. A rating of BBB is the fourth highest of ten major categories used by S&P. According to the S&P rating system, debt securities rated BBB exhibit adequate protection

Table of Contents

parameters. However, adverse economic conditions or changing circumstances are more likely to lead to a weakened capacity of the obligor to meet its financial commitments on the securities. The ratings from AA to CCC may be modified by the addition of a plus (+) or minus (-) sign to show relative standing within the major rating categories.

Fitch's credit ratings are on a long-term debt rating scale that ranges from AAA to D, which represents the range from highest to lowest quality of such securities rated. The BBB rating category is the fourth highest of the 11 major ratings categories used by Fitch. Fitch describes debt instruments rated BBB as having good credit quality. According to Fitch, BBB ratings indicate that there are currently expectations of low credit risk and that the capacity for payment of financial commitments is considered adequate but adverse changes in circumstances and economic conditions are more likely to impair this capacity. The modifiers + or - may be appended to a rating to denote relative status within major rating categories.

The credit ratings accorded to the notes of each series by these rating agencies are not recommendations to buy, hold or sell the notes of such series since such ratings do not comment as to market price or suitability for a particular investor. There is no assurance that any rating will remain in effect for any given period of time or that any rating will not be revised or withdrawn entirely by a rating agency in the future if, in its judgment, circumstances so warrant and, if any such rating is so revised or withdrawn, we are under no obligation to update this prospectus supplement. See **Risks Related to the Notes** Credit ratings may change adversely affecting the market value of the notes and our cost of capital. Adverse changes to the credit ratings assigned to some of our outstanding public debt may also subject us to certain restrictive covenants.

CERTAIN U.S. FEDERAL INCOME TAX CONSIDERATIONS

General

This section summarizes the material U.S. federal income tax consequences to holders of the notes. However, the discussion is limited in the following ways:

The discussion is based upon the U.S. Internal Revenue Code of 1986, as amended, (the Code), U.S. Treasury Regulations issued thereunder, U.S. Internal Revenue Service (the IRS) rulings and pronouncements and judicial decisions now in effect, all of which are subject to change at any time.

The discussion only covers you if you buy your notes in the initial offering at their initial issue price.

The discussion only covers you if you hold your notes as a capital asset (that is, for investment purposes), and if you do not have a special tax status.

The discussion does not cover tax consequences that depend upon your particular tax situation in addition to your ownership of notes, such as if you are a tax-exempt entity, bank, insurance company or financial institution, you hold the notes as a hedge against, or the notes are hedged against, currency risk or as part of a straddle or conversion transaction, you are a regulated investment company, subject to the alternative minimum tax, a dealer in securities or foreign currencies, a U.S. expatriate or your functional currency is not the U.S. dollar. We suggest that you consult your tax advisor about the consequences of holding notes in your particular situation.

The discussion is based on current law. Changes in the law may change the tax treatment of the notes, possibly with retroactive effect.

The discussion does not cover state, local or foreign law.

We have not requested a ruling from the IRS on the tax consequences of owning the notes. As a result, the IRS could disagree with portions of this discussion.

If a partnership or other entity treated as a partnership for U.S. federal income tax purposes holds notes, the tax treatment of a partner will generally depend upon the status of the partner and upon the activities of the partnership. If you are a partner of a partnership holding notes, we suggest that you consult your tax advisor.

If you are considering buying notes, we suggest that you consult your tax advisor about the tax consequences of holding the notes in your particular situation.

Tax Consequences to U.S. Holders

This section applies to you if you are a U.S. Holder. A U.S. Holder is:

an individual U.S. citizen or resident alien;

a corporation or entity taxable as a corporation for U.S. federal income tax purposes that was created under U.S. law (federal, state or District of Columbia);

an estate whose worldwide income is subject to U.S. federal income tax; or

a trust if a court within the United States is able to exercise primary supervision over the administration of the trust and one or more U.S. persons have the authority to control all substantial decisions of the trust.

Interest

If you are a cash method taxpayer (including most individual holders), you must report interest on the notes in your income as ordinary interest income when you receive it.

If you are an accrual method taxpayer, you must report interest on the notes in your income as ordinary interest income as it accrues.

Table of Contents

Such interest will constitute foreign source income for U.S. foreign tax credit limitation purposes, but with certain exceptions, will be treated separately, together with other items of passive category income or, in the case of certain holders, general category income for purposes of computing the foreign tax credit allowable under U.S. federal income tax laws. The rules governing the foreign tax credit are complex. You are urged to consult your tax advisors regarding the availability of the foreign tax credit under your particular circumstances.

Sale, Exchange, Redemption or Retirement of Notes

On your sale, exchange, redemption or retirement of a note:

You will have taxable gain or loss equal to the difference between the amount received by you and your tax basis in the note. Your tax basis in the note is your cost, subject to certain adjustments.

Your gain or loss will generally be capital gain or loss, and will be long term capital gain or loss if you held the note for more than one year. For noncorporate taxpayers, including individuals, the maximum tax rate on long term capital gains is 15% for taxable years beginning before January 1, 2011 and 20% thereafter. Deductibility of capital losses is subject to limitations.

If you sell the note between interest payment dates, a portion of the amount you receive reflects interest that has accrued on the note but has not yet been paid by the sale date. That amount is treated as ordinary interest income and not as sale proceeds.

Your gain or loss generally will be treated as U.S. source income for U.S. foreign tax credit limitation purposes.

Information Reporting and Backup Withholding

Under the tax rules concerning information reporting to the IRS:

Assuming you hold your notes through a broker or other securities intermediary, the intermediary must provide information to the IRS and to you on IRS Form 1099 concerning interest and retirement proceeds on your notes, unless an exemption applies.

Similarly, unless an exemption applies, you must provide the intermediary with your Taxpayer Identification Number on a certified IRS Form W-9 for its use in reporting information to the IRS. If you are an individual, this is your Social Security number. You are also required to comply with other IRS requirements concerning information reporting.

If you are subject to these requirements but do not comply, the intermediary must withhold 28% of all amounts payable to you on the notes (including principal payments) or the proceeds from the sale or other disposition of the notes. This is called backup withholding. If the intermediary withholds payments, you may use the withheld amount as a credit against your U.S. federal income tax liability, provided you furnish the required information to the IRS in a timely manner.

All individual U.S. Holders are subject to these requirements. Some holders, including all corporations, tax-exempt organizations and individual retirement accounts, are exempt from these requirements.

CERTAIN CANADIAN FEDERAL INCOME TAX CONSIDERATIONS

The following is a summary of the principal Canadian federal income tax considerations generally applicable to a holder of notes who acquires such notes, as a beneficial owner, pursuant to this prospectus supplement and who, at all relevant times, for purposes of the *Income Tax Act* (Canada) (the Canadian Tax Act) (i) is not, and is not deemed to be, a resident of Canada (and has never been, or been deemed to be, a resident of Canada), (ii) deals at arm's length with RCI and with any transferee resident in Canada to whom the holder disposes of notes, and (iii) does not use or hold, and is not deemed to use or hold, the notes in a business carried on in Canada. Special rules, which are not discussed in this summary, may apply to a holder of notes that is an insurer that carries on an insurance business in Canada and elsewhere. Such holders should consult their own tax advisors.

This summary is based upon the provisions of the Canadian Tax Act in force on the date hereof and the regulations thereunder (the Regulations), all specific proposals to amend the Canadian Tax Act and the Regulations publicly announced prior to the date hereof by or on behalf of the Minister of Finance (Canada) (the Proposed Amendments) and counsel's understanding of the current administrative practices of the Canada Revenue Agency published in writing prior to the date of this prospectus supplement. This summary does not otherwise take into account or anticipate any other changes in law or administrative or assessing practice, whether by legislative, regulatory, governmental or judicial decision or action, nor does it take into account provincial, territorial or foreign income tax considerations which may differ from the Canadian federal income tax considerations described herein. No assurance can be given that the Proposed Amendments will be enacted as proposed or at all.

This summary is not exhaustive of all Canadian federal income tax considerations that may be relevant to a particular holder of the notes. This summary is of a general nature only and is not, and should not be construed to be, legal or tax advice to a particular holder of notes, and no representation with respect to the income tax consequences to any particular holder is made. Accordingly, prospective purchasers of notes should consult with their own tax advisors for advice regarding the income tax considerations applicable to their particular circumstances.

No withholding tax will apply under the Canadian Tax Act to interest, principal or premium, if any, paid or credited to a holder on a note or to proceeds received by a holder on the disposition of a note, including on a redemption, payment on maturity, repurchase or purchase for cancellation.

No other tax on income (including taxable capital gains) will be payable under the Canadian Tax Act by a holder of a note on interest, principal or premium, if any, or on proceeds received by a holder on the disposition of a note, including on a redemption, payment on maturity, repurchase or purchase for cancellation.

The underwriters may allow, and dealers may reallocate a concession not to exceed 0.250% on sales to other dealers with respect to the 2018 notes. The underwriters propose to offer some of the 2038 notes directly to the public at the public offering price set forth on the cover page of this prospectus supplement and some of the 2038 notes to dealers at the public offering price less a concession not to exceed 0.500%. The underwriters may allow, and dealers may reallocate a concession not to exceed 0.250% on sales to other dealers with respect to the 2038 notes. The offering price and the other terms of the notes have been determined by negotiation between us and the underwriters.

The following table shows the underwriting commission that we are to pay to the underwriters in connection with this offering (expressed as a percentage of the principal amount of the notes).

	Paid by RCI
Per 2018 note	0.650%
Per 2038 note	0.875%

After the underwriters have made a reasonable effort to sell all of the notes at the initial offering price, the concessions allowed and the offering price of the notes may be changed (but not in excess of the initial offering price) and the compensation realized by the underwriters will change accordingly.

In connection with this offering, Citigroup Global Markets Inc. and J.P. Morgan Securities Inc., on behalf of the underwriters, may purchase and sell notes in the open market. These transactions may include over-allotment, syndicate covering transactions and stabilizing transactions. Over-allotment involves syndicate sales of the notes in excess of the principal amount of the notes to be purchased by the underwriters in this offering, which creates a syndicate short position. Syndicate covering transactions involve purchases of the notes in the open market after the distribution has been completed in order to cover syndicate short positions. Stabilizing transactions consist of certain bids or purchases of the notes made for the purpose of preventing or retarding a decline in the market price of the notes while the offering is in progress.

The underwriters also may impose a penalty bid. Penalty bids permit the underwriters to reclaim a selling concession from a syndicate member when Citigroup Global Markets Inc. and J.P. Morgan Securities Inc., in covering syndicate short positions or making stabilizing purchases, repurchase notes originally sold by that syndicate member.

Any of these activities may have the effect of preventing or retarding a decline in the market price of the notes. They may also cause the price of the notes to be higher than the price that otherwise would exist in the open market in the absence of these transactions. The underwriters may conduct these transactions in the over-the-counter market or otherwise. If the underwriters commence any of these transactions, they may discontinue them at any time.

We estimate that our total expenses for this offering will be approximately US\$3 million (not including the underwriting commission).

We expect that delivery of the notes will be made against payment therefor on or about August 6, 2008, which will be the fifth business day following the date of this prospectus supplement (such settlement cycle being herein referred to as T+5). Under Rule 15c6-1 under the Exchange Act, trades in the secondary market generally are required to settle in three business days, unless the parties to any such trade expressly agree otherwise. Accordingly, purchasers who wish to trade notes on the date of this prospectus supplement or the next succeeding business day will be required, by virtue of the fact that the notes initially will settle T+5, to specify an alternate settlement cycle at the time of any such trade to prevent a failed settlement. Purchasers of notes who wish to trade notes on the date hereof or the next succeeding business day should consult their own advisor.

The underwriters have performed and may in the future perform investment and commercial banking and advisory services for us from time to time for which they have received or may in the future receive customary fees and expenses.

The underwriters may, from time to time, engage in transactions with and perform services for us in the ordinary course of their business. Each of the underwriters (other than Merrill Lynch, Pierce, Fenner & Smith Incorporated) is an affiliate of a bank or a financial institution that is currently a lender to us under our bank credit facility (such affiliates, the Lenders) and each of the underwriters (other than J.P. Morgan Securities Inc.) is an affiliate of a bank or a financial institution that is currently, or may become concurrently with this offering, a counter-party to cross-currency interest rate exchange agreements with us (such affiliates, the Counter-Parties) and, accordingly, we may be considered to be a connected issuer of each such underwriter for purposes of applicable securities legislation in each of the provinces of Canada. Concurrently with this offering we will refinance certain of our cross-currency interest rate exchange agreements with an affiliate of Scotia Capital (USA) Inc. We were indebted to the Lenders for approximately \$628 million as of June 30, 2008 under our bank credit facility, representing approximately 10.5% of our total debt as of that date. At the date hereof our obligations under our bank credit facility and cross-currency interest rate exchange agreements are unsecured. We are in compliance with the terms of, and the Lenders and the Counter-Parties have not waived any material breach of, the agreement governing our bank credit facility and our cross-currency interest rate exchange agreements since their respective dates of execution. All or a portion of the proceeds of this offering may be used to repay debt, including advances under our bank credit facility. None of the Lenders or Counter-Parties were involved in the decision to offer the notes or in the determination of the terms of the distribution of the notes. None of the underwriters will receive any direct benefit from this offering other than as disclosed above and other than its respective share of the underwriters' commission.

As a consequence of the sale of the notes, each of the underwriters will receive a commission on the principal amount of notes sold by it and it is currently anticipated that the banks affiliated with certain of the underwriters may receive more than 10% of the net proceeds from the sale of the notes as repayment of advances under our bank credit facility. Because more than 10% of the proceeds of this offering, not including underwriting compensation, may be received by entities who are affiliated with Financial Industry Regulatory Authority members who are participating in this

offering, this offering is being conducted in compliance with the NASD Conduct Rule 2710(h). Pursuant to that rule, the appointment of a qualified independent underwriter is not necessary in connection with this offering, as the offering is of a class of securities rated Baa or better by Moody's or BBB or better by S&P. See Use of Proceeds and Credit Ratings in this prospectus supplement.

For purposes of this provision, the expression an offer to the public in any relevant member state means the communication in any form and by any means of sufficient information on the terms of the offer and the securities to be offered so as to enable an investor to decide to purchase or subscribe the securities, as the expression may be varied in that member state by any measure implementing the Prospectus Directive in that member state, and the expression Prospectus Directive means Directive 2003/71/EC and includes any relevant implementing measure in each relevant member state.

The sellers of the notes have not authorized and do not authorize the making of any offer of notes through any financial intermediary on their behalf, other than offers made by the underwriters with a view to the final placement of the notes as contemplated in this prospectus supplement. Accordingly, no purchaser of the notes, other than the

underwriters, is authorized to make any further offer of the notes on behalf of the sellers or the underwriters.
