

Item 8.01 – Other Events

On June 28, 2016, pursuant to an agreement dated June 13, 2016, Vishay Intertechnology, Inc. ("Vishay" or the "Company") acquired from a holder approximately \$12.4 million principal amount of the Company's floating rate exchangeable unsecured notes due 2102. The purchase price for this privately negotiated transaction was approximately \$11.4 million. Vishay will recognize a gain on early extinguishment of debt of approximately \$1.0 million in its fiscal quarter ending July 2, 2016.

Following this transaction, there are no floating rate exchangeable unsecured notes outstanding.

The exchangeable unsecured notes were issued in 2002 in connection with an acquisition, and were subject to a put and call agreement dated December 13, 2002. The notes that Vishay repurchased from a holder had been exchangeable for 807,995 shares of Vishay common stock.

This transaction will reduce the number of shares considered in the Company's calculation of the weighted average shares outstanding used for computing diluted earnings per share, because the Company's earnings per share computation assumed that the exchangeable unsecured notes would be converted. Because of the timing of the transaction, the impact on the weighted average shares outstanding for the second fiscal quarter of 2016 will not be significant. See the Company's Form 8-K filed May 3, 2016 for additional discussion of factors impacting the diluted earnings per share computation.
