TOWERS WATSON & CO.

Notes to the Condensed Consolidated Financial Statements

(Tabular amounts are in thousands, except per share data)
(Unaudited)

Note 1 Organization and Basis of Presentation.

On January 1, 2010, pursuant to the Agreement and Plan of Merger, as amended by Amendment No. 1 (the Merger Agreement), Watson Wyatt Worldwide, Inc. (Watson Wyatt) and Towers, Perrin, Forster & Crosby, Inc. (Towers Perrin) combined their businesses through two simultaneous mergers (the Merger) and became wholly-owned subsidiaries of Jupiter Saturn Holding Company, which subsequently changed its name to Towers Watson & Co. (Towers Watson, the Company or we).

Although the business combination of Watson Wyatt and Towers Perrin was a merger of equals, generally accepted accounting principles require that one of the combining entities be identified as the acquirer by reviewing facts and circumstances as of the acquisition date. Watson Wyatt was determined to be the accounting acquirer. This conclusion is primarily supported by the facts that Watson Wyatt shareholders owned approximately 56 percent of all Towers Watson common stock after the redemption of Towers Watson Class R common stock and that Watson Wyatt s Chief Executive Officer became the Chief Executive Officer of Towers Watson. Watson Wyatt is the accounting predecessor in the Merger and as such, the historical results of Watson Wyatt through December 31, 2009 have become those of the new registrant, Towers Watson. Towers Watson s condensed consolidated financial statements as of and for the three and nine months ended March 31, 2011 include the results of Towers Perrin s operations. The condensed consolidated financial statements of Towers Watson as of and for the three and nine months ended March 31, 2010, include the results of Towers Perrin s operations beginning January 1, 2010.

The accompanying unaudited quarterly condensed consolidated financial statements of Towers Watson & Co. and our subsidiaries are presented in accordance with the rules and regulations of the Securities and Exchange Commission (SEC) for quarterly reports on Form 10-Q and therefore do not include all of the information and footnotes required by U.S. generally accepted accounting principles (GAAP). In the opinion of management, these condensed consolidated financial statements reflect all adjustments, consisting only of normal recurring adjustments, which are necessary for a fair presentation of the condensed consolidated financial statements and results for the interim periods. All intercompany accounts and transactions have been eliminated in consolidation. The condensed consolidated financial statements should be read together with the Towers Watson audited consolidated financial statements and notes thereto contained in its Annual Report on Form 10-K for the fiscal year ended June 30, 2010, which was filed with the SEC and may be accessed via EDGAR on the SEC s web site at www.sec.gov. Balance sheet data as of June 30, 2010 was derived from Towers Watson s audited financial statements.

Our fiscal year 2011 began July 1, 2010 and ends June 30, 2011.

The results of operations for the three and nine months ended March 31, 2011 are not indicative of the results that can be expected for the entire fiscal year ending June 30, 2011. The results reflect certain estimates and assumptions made by management including those estimates used in calculating consideration and fair value of tangible and intangibles, estimated bonuses and anticipated tax liabilities that affect the amounts reported in the condensed consolidated financial statements and related notes.

Cash and Cash Equivalents We consider all instruments that are readily convertible to known amounts of cash, and so near their maturity that they present insignificant risk of changes in value because of changes in interest rates to be cash equivalents.

Restricted Cash Our restricted cash balance as of March 31, 2011 and June 30, 2010, includes \$125.0 million and \$164.5 million, respectively, of cash received from our clients and reinsurers in connection with our reinsurance brokerage business. This cash is under our control such that we direct the investment of this cash and retain the interest income but is restricted to current operation of this business, consisting of the payment of reinsurance premiums, refund of overpayments and reinsurer payments on claims. According to regulations governing our reinsurance business, we are unable to use the cash in a way that deviates from these activities. In addition, we have \$5.9 million of restricted cash from our recently acquired Aliquant business which is restricted for the payment of our client s health and welfare premiums. The change in restricted cash from period to period is included in the cash flows

from operating activities on our statement of cash flows.

Change to Presentation of our Balance Sheet and Cash flows We have changed the presentation of our cash received from our clients and reinsurers in connection with our reinsurance brokerage business to restricted cash from cash and cash equivalents on our consolidated balance sheet as of June 30, 2010. As a result of the balance sheet change, we decreased cash flows from investing activities by \$118.5 million and total ending cash and cash equivalents on the statement of cash flows for the nine months ended March 31, 2010 related to the amount of reinsurance cash received from Towers Perrin in the Merger by \$153.1 million. In addition, the change in restricted cash from the Merger date to March 31, 2010 is included as an increase in restricted cash in the cash flows from operating activities of \$37.6 million, which is offset by an increase in reinsurance payables.

5

Note 2 Mergers and Acquisitions.

Merger

Watson Wyatt and Towers Perrin merged on January 1, 2010 to form Towers Watson to combine the strengths and a strong set of complementary services of the legacy firms to drive growth and result in a larger global presence and market share gains across all of our business lines.

Consideration Exchanged

The consummation of the Merger resulted in the following:

Each share of Watson Wyatt Class A common stock, par value \$0.01 per share issued and outstanding immediately prior to the Merger was converted into the right to receive one (1) share of Towers Watson Class A common stock, par value \$0.01 per share (the Class A Common Stock). In addition, outstanding deferred rights to receive Watson Wyatt Class A common stock were converted into the right to receive an equal number of shares of Towers Watson Class A common stock, and outstanding options to purchase Watson Wyatt Class A common stock were assumed by Towers Watson and converted on a one-for-one basis into fully vested options to purchase shares of Towers Watson Class A common stock with the same exercise price as the underlying Watson Wyatt options.

Each share of Towers Perrin common stock, par value \$0.50 per share, issued and outstanding immediately prior to the Merger was converted into the right to receive 545.627600377 fully paid and nonassessable shares of Towers Watson common stock, which ratio was determined at the time of the Merger in accordance with the Merger Agreement. Shares of Towers Watson common stock issued to Towers Perrin shareholders (other than 209,013 shares issued to Towers Perrin shareholders located in certain countries (as detailed below) and other than shares issued to Towers Perrin shareholders who elected to receive a portion of their Merger Consideration as shares of Towers Watson s Class R common stock, par value \$0.01 per share) were divided among four series of non-transferable Towers Watson common stock, Classes B-1, B-2, B-3 and B-4, each with a par value of \$0.01 per share. Class B-1 shares converted into shares of freely transferable shares of Towers Watson Class A common stock on January 1, 2011. The remaining outstanding shares of Towers Watson Class B common stock generally will automatically convert on a one-for-one basis into shares of freely transferable shares of Towers Watson Class A common stock on the following timetable:

Class B-2 common stock- January 1, 2012

Class B-3 common stock- January 1, 2013

Class B-4 common stock- January 1, 2014

In accordance with the Merger Agreement, to provide immediate liquidity to certain Towers Perrin shareholders located in countries where the Merger consideration may be subject to current tax, such Towers Perrin shareholders received a portion of their merger consideration in the form of unrestricted shares of Towers Watson Class A Common Stock instead of shares of Towers Watson Class B Common Stock.

Certain Towers Perrin shareholders who met defined age and service criteria elected to terminate their employment no later than January 31, 2010 (except as extended by Towers Watson s executive committee) and received a portion of their Merger consideration in shares of Towers Watson Class R Common Stock, which subsequently were automatically redeemed for equal amounts of cash and subordinated one-year promissory notes (such election, a Class R Election). The amount of cash and principal amount of Towers Watson notes issued in exchange for each share of Towers Watson Class R Common Stock was determined based on the Exchange Ratio and the average closing price per share of Watson Wyatt Common Stock for the 10 trading days ending on December 28, 2009, the second trading day immediately prior to the closing of the Merger, which was \$46.79. Class R Elections were prorated so that the amount of cash and notes payable on the automatic conversion of the shares of Towers Watson Class R common stock would not exceed \$400 million, shareholders who made valid Class R Elections received shares of Towers Watson Class B-1 common stock in exchange for their shares of Towers Perrin common stock that were not exchanged for shares of Towers Watson Class R common stock due to proration or because the Towers Perrin shareholder elected to receive

less than 100% of his or her Merger consideration in the form of Towers Watson Class R common stock. Shares of Towers Watson Class B-1 common stock converted into freely tradable shares of Towers Watson Class A Common Stock on January 1, 2011.

Prior to the Merger, Towers Perrin issued awards of restricted stock units to certain Towers Perrin employees, which were exchanged in the Merger for shares of Towers Watson Class A common stock, generally subject to a three-year contractual vesting schedule and other restrictions (Restricted Towers Watson Class A Common Stock). At the time of the Merger, the restricted stock units were converted using the Merger Agreement exchange ratio (545.627600377) into Towers Watson Restricted Class A common stock. The restriction on the underlying shares lapses over the service period for the employees,

6

Table of Contents

which is from grant date in October 2009 to January 1, 2011 through 2013, annually. The Towers Watson Restricted Class A common stock is held by an administrator or in a trust and the dividends accrue and the shares are voted in blocks according to provisions in the Merger Agreement.

In summary, as a result of closing of the Merger, all outstanding Towers Perrin and Watson Wyatt common stock, restricted stock units and derivative securities were converted into the right to receive the following forms of consideration:

46,911,275 shares of Towers Watson Class A Common Stock (less a number of shares that were withheld for tax purposes in respect of Watson Wyatt deferred stock units and deferred shares), including 4,248,984 shares of Restricted Towers Watson Class A Common Stock:

29,483,008 shares of Towers Watson Class B Common Stock, including:

12,798,118 shares of Class B-1 Common Stock (which was subsequently reduced by 2,267,265 shares related to our tender offer in June 2010 and 4,921,001 shares related to our secondary offering in September 2010, further described in Note 10);

5.561.630 shares of Class B-2 Common Stock:

5,561,630 shares of Class B-3 Common Stock;

5,561,630 shares of Class B-4 Common Stock; and

8,548,835 shares of Towers Watson Class R Common Stock, which subsequently were redeemed automatically in exchange for the right to receive:

\$200 million in cash (subject to applicable tax withholding and gross-up adjustments); and

Towers Watson Notes in an aggregate principal amount of \$200 million.

In addition, on January 1, 2010, Towers Watson issued shares of Class F stock, no par value, pro rata to all holders of Towers Perrin common stock, which shares represent only the contingent right to receive, three years after the Merger, a pro rata portion of a number of shares of Towers Watson Class A common stock equal to the number of shares of Restricted Towers Watson Class A common stock forfeited by former Towers Perrin employees plus a number of shares of Towers Watson Class A common stock with a value equivalent to the amount of dividends attributed to such forfeited shares.

The Towers Watson common stock issued in conjunction with the Merger was registered under the Securities Act of 1933, as amended, pursuant to Towers Watson's Registration Statement on Form S-4/A (Registration No. 333-161705) filed with the SEC, and declared effective on November 9, 2009. The Class A Common Stock is listed on The New York Stock Exchange and The NASDAQ Global Select Market under the ticker symbol TW, and began trading on January 4, 2010.

Fair Value of Consideration

The Merger has been accounted for using the acquisition method of accounting as prescribed in Accounting Standards Codification 805, *Business Combinations* (ASC 805). The total consideration of \$1.8 billion is comprised of \$200 million of cash and \$200 million of notes payable to Class R shareholders and of stock consideration for the following: Class A shares for certain foreign shareholders of \$9.9 million, Restricted Class B-1, B-2, B-3 and B-4 shares of \$1.3 billion and Restricted Class A shares of \$43.7 million.

The consideration given in the form of cash and notes payable was measured in the amount of cash paid and notes payable issued. According to ASC 805 the fair value of the securities traded in the market the day before the Merger is consummated is used to determine the fair value of the equity consideration. As accounting predecessor, Watson Wyatt s closing share price on the NYSE on December 31, 2009 of \$47.52 was used to determine the fair value of equity consideration. The equity consideration for the Class A shares to certain foreign shareholders of \$9.9 million is valued at \$47.52 multiplied by 209,013, the number of shares issued. The estimated fair value of the restricted Class B-1-B-4 shares of \$1.3 billion was calculated at \$47.52 multiplied by 29,483,008, the number of shares issued

and applying a discount to approximate the fair value of the one-, two-, three- and four-year period of restriction lapse until the shares are converted into freely tradable Towers Watson Class A common stock. The estimated fair value of the Restricted Class A shares of \$43.7 million includes (i) the vested portion of the Towers Perrin restricted stock units, which was earned by employees related to the service condition from grant date in October 2009 until January 1, 2010, the date of the Merger, valued at \$47.52 per share and (ii) 10% of the unvested portion of the Towers Perrin restricted stock units, which is the estimate of forfeitures that will result from employees not fulfilling the service condition during the three year vesting post-Merger, which will be proportionately distributed to Class F shareholders, the Towers Perrin shareholders as of the Merger date.

7

PCIC

As of December 31, 2009, Towers Perrin and Watson Wyatt each owned a 36.4% equity investment in Professional Consultants Insurance Company (PCIC). PCIC is a captive insurance company that provides professional liability insurance on a claims-made basis. Watson Wyatt applied the equity method of accounting for its investment in PCIC through December 31, 2009. As of December 31, 2009, Watson Wyatt s investment in PCIC was \$13.7 million. Towers Watson s financial statements as of and for the nine month period ended March 31, 2010, included herein, reflect Watson Wyatt s equity method of accounting for PCIC for the six months ended December 31, 2009, which resulted in recording a loss from affiliates of \$0.1 million.

As a result of the Merger, Towers Watson has a majority ownership interest in PCIC and consequently retained a majority of the economic risks and rewards of PCIC. As a result, Towers Watson now consolidates PCIC s financial position and results of operations in its consolidated financial statements beginning January 1, 2010. All intercompany accounts and transactions have been eliminated in consolidation.

Fair value of net assets acquired and intangibles

According to ASC 805, the assets acquired and liabilities of Towers Perrin assumed by Towers Watson were recorded at their respective fair values as of January 1, 2010, the Merger s effective date. The valuation and determination of estimated fair value include significant estimates and assumptions. Management also evaluated the methodology and valuation models to determine the estimated useful lives and amortization method.

Customer relationships

A customer relationship intangible asset was identified separate from goodwill based on determination of the length, strength and contractual nature of the relationship that Towers Perrin shared with its clients. This customer relationship information was analyzed via the application of the multi-period excess earnings method, an income approach. Significant assumptions used in the income approach are revenue growth, retention rate, operating expenses, charge for contributory assets and trade name and the discount rate used to calculate the present value of the cash flows. The customer relationship, valued at \$140.8 million, is amortized on an accelerated amortization basis over the estimated useful life of 12 years which correlated to the years of material results included in the income approach model.

Trademarks and trade names

The Towers Perrin trade name was identified as an intangible asset separate from goodwill based on evaluation of the importance of the Towers Perrin trade name to the Towers Perrin business through understanding the brand recognition in the market, importance of the trade name to the customer, and the amount of revenue associated with the trade name. In developing the estimated fair value, the trade name was valued utilizing the relief from royalty method, an income approach. Significant assumptions used in the relief from royalty method were revenue growth, royalty rate, and discount rate used to calculate the present value of cash flows. The Towers Perrin trade name, valued at \$275.5 million, has an estimated indefinite-lived asset and is not amortized but tested annually for impairment or if factors exist to indicate impairment.

Developed technology

Developed technology identified separately from goodwill as an intangible asset consists of intellectual property such as proprietary software used internally for revenue producing activities or by clients. Developed technology can provide significant advantages to the owner in terms of product differentiation, cost advantages and other competitive advantages. Three external-use technologies of Towers Perrin: MoSes, eValue and the Global Compensation technology are offered for sale or subscription and have associated revenue streams. In addition, 22 internally developed technology applications were identified as primary applications used in Towers Perrin s business but did not have associated revenue streams. The external-use technologies, for which revenue sources were directly identified, were valued by applying the multi-period excess earnings method, an income approach. The internal-use technologies were valued by applying the cost to replicate method, a cost approach. Significant assumptions used in the multi-period excess earnings method were revenue growth, decay rate, cost of revenue, operating expenses, charge for use of contributory assets and trade name and discount rate used to calculate the present value of the cash flows. The external-use technology, valued at \$58.2 million, is amortized on an accelerated basis over a weighted-average useful life of 3.6 years. Significant assumptions used in the cost to replicate method were cost to replace including the

number and skill level of man hours and cost per hour based on fully burdened salary of staff; profit margin if the work were performed by a third party; and obsolescence factor. The internal-use technology, valued at \$67.2 million, is amortized on a straight-line basis over the weighted-average estimated useful life of 4.2 years.

8

Favorable and unfavorable lease contracts

Assets and liabilities for favorable and unfavorable lease contracts were identified separately from goodwill related to Towers Perrin s real estate lease agreements. The assets and liabilities were valued by comparing cash obligations for lease agreements to the estimated market rent at the time of the transactions. The resulting favorable or unfavorable positions are recorded gross as assets or liabilities on the balance sheet. Significant assumptions used in the valuation were market rent, annual escalation percentages based on current inflation rates and a discount rate used to calculate the present value of the cash flows. Both the assets for favorable lease agreements, valued at \$11.1 million, and the liabilities for unfavorable lease agreements, valued at \$28.6 million, are amortized on a straight-line basis over the life of the respective lease to occupancy costs. The weighted-average estimated useful life for the leases is 7.3 years. *Measurement period*

As of December 31, 2010, the accounting for the Merger was complete. During the six months ended December 31, 2010, we identified the following adjustments to the initial fair value of the opening balance sheet of Towers Perrin to increase non-current deferred tax asset by \$10.5 million, decrease to non-current assets by \$0.9 million, decrease fixed assets by \$0.5 million, increase accounts payable, accrued liabilities and deferred income by \$0.2 million, resulting in a decrease to goodwill of \$8.9 million. Our June 30, 2010 comparative balance sheet has been retrospectively adjusted to reflect these adjustments.

The table below sets forth the Merger consideration transferred to Towers Perrin shareholders and the tangible and intangible net assets received in the Merger:

January 1, 2010

Acquisitions

The following unaudited pro forma condensed combined statement of operations have been provided to present illustrative combined unaudited statement of operations for the nine months ended March 31, 2010, giving effect to the business combination as if it had been completed on July 1, 2009. The pro forma condensed combined statement of operations for the nine months ended March 31, 2010 combines Watson Wyatt s historical unaudited condensed consolidated statement of operations for the six months ended December 31, 2009 with Towers Perrin s historical unaudited condensed consolidated statement of operations for the six months ended December 31, 2009 and Towers Watson unaudited condensed consolidated statement of operations for the three months ended March 31, 2010. The unaudited pro forma condensed consolidated statements of operation are presented for illustrative purposes only and are not indicative of the results of operations that might have occurred had the business combination actually taken place as of the date specified, or that may be expected to occur in the future. The unaudited pro forma combined statement of operations are as follows:

Revenue	Nine Mont Ended March 31 2010 (in thousan \$ 2,43	l ,
Costs of providing services: Salaries and employee benefits Professional and subcontracted services Occupancy	17	59,131 70,764 .0,559

Net income attributable to controlling interests	\$ 12	22,542
A servicitions		

During the second and third quarters of fiscal 2011, we completed two acquisitions. These acquisitions individually or combined were insignificant for pro forma and other disclosures required by ASC 805. The following summary is provided to give our investors better understanding of our recent strategic acquisitions.

On December 31, 2010, Towers Watson purchased Aliquant, a privately-held, full-service health and welfare benefits administration outsourcing firm for \$67.7 million. The Aliquant business complements our Technology and Administration Solutions practice in our Benefits segment. The preliminary estimate of consideration transferred and allocation of the fair value to tangible and intangible assets received and liabilities assumed was recorded in the third quarter of fiscal 2011, which included fixed assets, customer related intangibles, developed technology and non-compete agreements at their estimated acquisition date fair values. Our estimate of fair value was developed using income approach valuation models such as the multi-period excess earnings method for the customer related intangibles of \$12.9 million and the relief from royalty method for the developed technology intangible of \$4 million. Significant assumptions used in the valuation are: revenue growth rate, retention rate, expense and contributory asset charges, royalty rate and discount rate. We also anticipate recording additional intangible assets or liabilities during the fourth quarter of fiscal 2011 related to Aliquant s favorable or unfavorable lease agreements. As of March 31, 2011, we recorded \$50.6 million of goodwill related to the acquisition of Aliquant.

10

On January 31, 2011, Towers Watson purchased EMB, a non-life insurance consulting and software company. The EMB business complements our Risk Consulting and Software practice in our Risk and Financial Services segment. We paid \$69.8 million cash and issued common stock valued at \$11.2 million consisting of 113,858 shares of Class B-3 and 113,858 shares of Class B-4 common stock, which convert to Towers Watson Class A common stock on January 1, 2013 and 2014, respectively. The Asian put model was used to calculate the discounts on the restrictions of the underlying stock. We have included an estimated earn-out payment of \$19.0 million in consideration. The purchase agreement calls for deferred cash payments totaling \$25.5 million which are recorded as compensation expense over the period earned by the former partners subject to continued employment. During the third quarter of fiscal 2011, we recorded the tangible assets received and liabilities assumed and we expect to record the preliminary fair value of deferred revenue and intangibles (customer related intangibles, developed technology, trademark and trade name and favorable or unfavorable lease agreements) and related deferred income tax amounts in the fourth quarter of fiscal 2011. As a result of our preliminary assessment we determined that total consideration transferred was \$104.3 million and preliminary goodwill was \$90.6 million. Goodwill will be reduced in the fourth quarter of fiscal 2011 as we record the estimated fair value of deferred revenue, deferred income tax and intangible assets.

Note 3 Fixed Income Securities.

We hold available-for-sale fixed income securities comprised of U.S. treasury securities and obligations of the U.S. government, government agencies and authorities; corporate bonds; and obligations of states, municipalities and political subdivisions. The fixed income securities are classified either as short-term investments or non-current assets (within other assets on the condensed consolidated balance sheet) depending on the date of their maturity. Additional information on fixed income security balances is provided in the following table as of March 31, 2011 and June 30, 2010:

	March 31, 2011			June 30, 2010					
	Unrealized			Unrealized					
	Amortized Cost	Gains/ (Losses)	Estimated Fair Value	Amortized Cost	Gains/ (Losses)	Estimated Fair Value			
Short-term investments: due in one year or less	\$32,276	\$457	\$32,733	\$50,585	\$ 424	\$51,009			
Non-current assets: due in one through five years	67,533	662	68,195	60,142	1,956	62,098			

Proceeds from sales and maturities of investments for fixed income securities during the nine months ended March 31, 2011 were \$70.0 million, resulting in a gain of \$0.3 million. There were no investments that have been in a continuous loss position for more than one year, and there have been no other-than-temporary impairments recognized.

Note 4 Goodwill and Intangible Assets.

The components of goodwill and intangible assets are outlined below for the nine months ended March 31, 2011:

		Risk and			
		Financial	Talent and	All	
	Benefits	Services	Rewards	Other	Total
Balance as of June 30, 2010	\$ 1,150,799	\$ 459,373	\$ 105,909	\$ 1,214	\$1,717,295
Goodwill acquired	50,597	90,642	2,027		143,266
Translation adjustment	78,494	30,018	6,527		115,039
Balance as of March 31, 2011	\$1,279,890	\$ 580,033	\$ 114,463	\$ 1,214	\$ 1,975,600
		11			

The \$50.6 of goodwill acquired in Benefits relates to the acquisition of Aliquant which was completed on December 31, 2010. We had previously recorded the entire consideration as goodwill as we had not yet completed the preliminary assessment of the fair value of tangible assets and liabilities and intangible assets separate from goodwill as of December 31, 2010. In the three months ended March 31, 2011, we reclassified \$17.2 million to intangible assets consisting of customer related intangible, developed technology and non-compete intangible. We anticipate establishing additional intangibles related to Aliquant s favorable and unfavorable lease agreements during the fourth quarter of fiscal 2011.

The \$90.6 of goodwill acquired in Risk and Financial Services relates to the acquisition of EMB which was completed on January 31, 2011. We recorded the consideration less the tangible assets and liabilities as goodwill as of March 31, 2011. We have not yet completed the preliminary assessment of the fair value of tangible assets and liabilities and intangible assets separate from goodwill but expect to do so in the fourth quarter of fiscal year 2011.

The following table reflects changes in the net carrying amount of the components of intangible assets for the nine months ended March 31, 2011:

		Customer	Core/		Fa	vorable	
	 ademark & ade name	related intangible	developed technology	Non-compete agreements	agı	lease reements	Total
Balance as of June 30,							
2010	\$ 366,793	\$ 188,806	\$ 118,726	\$	\$	9,162	\$ 683,487
Intangible assets acquired during the							
period		12,900	4,000	250			17,150
Amortization		(21,077)	(15,916)	(250)		(2,328)	(39,571)
Translation adjustment	6,616	13,535	41			300	20,492
Balance as of March 31,							
2011	\$ 373,409	\$ 194,164	\$ 106,851	\$	\$	7,134	\$681,558

For the three and nine months ended March 31, 2011, we recorded \$13.7 million and \$37.2 million of amortization related to our intangible assets, respectively. For the three and nine months March 31, 2010, we recorded \$12.5 million and \$19.3 million of amortization related to our intangible assets, respectively.

In conjunction with the Merger and ASC 805, we estimated the fair value of acquired leases and recorded an intangible unfavorable lease liability. As of March 31, 2011 and June 30, 2010 this liability was \$22.3 million and \$26.0 million, respectively. The change for the nine months ended March 31, 2011 was comprised of a reduction to rent expense of \$4.0 million and translation of \$0.3 million.

Components of the change in the gross carrying amount of trademark and trade name, customer related intangibles, core/developed technology and favorable and unfavorable lease agreements reflect foreign currency translation adjustments between June 30, 2010 and March 31, 2011 as well as the addition of the intangible assets identified from the acquisition of Aliquant. Certain of the intangible assets and liabilities are denominated in the currencies of our subsidiaries outside the United States, and are translated into our reporting currency, the U.S. dollar, based on exchange rates at the balance sheet date.

The following table reflects the carrying value of intangible assets and liabilities as of March 31, 2011 and June 30, 2010:

As of Ma	arch 31, 2011	As of June 30, 2010					
Gross		Gross					
Carrying	Accumulated	Carrying	Accumulated

Total intangible assets	\$ 803,030	\$ 121,472	\$ 764,863	\$ 81,376
	12			

Table of Contents

Certain trademark and trade-name intangibles have indefinite useful lives and are not amortized. The weighted average remaining life of amortizable intangible assets and liabilities at March 31, 2011, was 8.2 years. The following table reflects

1) future estimated amortization expense for amortizable intangible assets consisting of: customer related intangibles

core/developed technology

non-compete agreements

2) the rent offset resulting from the amortization of the net lease intangible assets and liabilities for the remainder of fiscal 2011 and for subsequent fiscal years:

		Rent	
Fiscal year ending June 30,	Amortization	Offset	
2011	\$ 13,416	\$ (653)	
2012	52,388	(2,850)	
2013	47,822	(2,506)	
2014	41,106	(2,152)	
2015	33,833	(1,916)	
Thereafter	112,450	(5,085)	
Total	\$ 301,015	\$ (15,162)	

Note 5 Fair Value Measurements.

We have categorized our financial instruments into a three-level fair value hierarchy. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets and liabilities (Level 1) and lowest priority to unobservable inputs (Level 3). In some cases, the inputs used to measure fair value might fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement in its entirety falls is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

Financial assets recorded in the accompanying condensed consolidated balance sheets are categorized based on the inputs in the valuation techniques as follows:

Level 1 Financial assets and liabilities whose values are based on unadjusted quoted prices for identical assets or liabilities in an active market.

Level 2 Financial assets and liabilities whose values are based on the following:

- a) Quoted prices for similar assets or liabilities in active markets;
- b) Quoted prices for identical or similar assets or liabilities in non-active markets;
- c) Pricing models whose inputs are observable for substantially the full term of the asset or liability; and
- d) Pricing models whose inputs are derived principally from or corroborated by observable market data through correlation or other means for substantially the full asset or liability.

Level 3 Financial assets and liabilities whose values are based on prices, or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement. These inputs reflect management s own assumptions about the assumptions a market participant would use in pricing the asset or liability.

13

The following presents our assets and liabilities measured at fair value on a recurring basis as of March 31, 2011 and June 30, 2010:

⁽a) These assets are included in short-term investments or other assets on the condensed consolidated balance sheet. See Note 3 for the classification of all fixed income securities as current or non-current.

⁽b) These assets are included in short-term investments or other assets on the condensed consolidated balance sheet.

- (c) These assets are included in other assets on the condensed consolidated balance sheet.
- (d) These derivative investments are included in other current assets or accounts payable, accrued liabilities and deferred income on the condensed consolidated balance sheet. See Note 6 for further information on our derivative investments.

We recorded a gain of \$0.1 million for both the three and nine months ended March 31, 2011, in general and administrative expenses in the condensed consolidated statements of operations related to the changes in the fair value of our financial instruments for foreign exchange forward contracts accounted for as foreign currency hedges, which are still held at March 31, 2011. There was no material gain or loss recorded in the condensed consolidated statements of operations for available-for-sale securities still held at March 31, 2011.

14

To determine the fair value of our derivative investments, we receive a quoted value from the counterparty for each contract. The quoted price we receive is a Level 2 valuation based on observable quotes in the marketplace for the underlying currency. We use these underlying values to estimate amounts that would be paid or received to terminate the contracts at the reporting date based on current market prices for the underlying currency.

The available-for-sale securities are valued using quoted market prices as of the end of the trading day. We monitor the value of the investments for other-than-temporary impairment on a quarterly basis.

Note 6 Derivative Financial Instruments.

We are exposed to market risk from changes in foreign currency exchange rates. To manage this exposure, we enter into various derivative transactions. These instruments have the effect of reducing our exposure to unfavorable changes in foreign currency rates. We do not enter into derivative transactions for trading purposes.

Our reinsurance intermediary subsidiary in the United Kingdom receives revenues in currencies (primarily in U.S. dollars) that differ from its functional currency. As a result, the foreign subsidiary s functional currency revenue will fluctuate as the currency exchange rates change. To reduce this variability, we use foreign exchange forward contracts and over-the-counter options to hedge the foreign exchange risk of the forecasted collections. We have designated these derivatives as cash flow hedges of its forecasted foreign currency denominated collections. We also use derivative financial contracts, principally foreign exchange forward contracts, to hedge non-functional currency obligations. Primarily, these exposures arise from intercompany lending between entities with different functional currencies. At March 31, 2011, the longest outstanding maturity was twenty months. As of March 31, 2011, a net \$1.8 million pretax gain has been deferred in accumulated other comprehensive income. A pretax gain of \$0.7 million is expected to be recognized in general and administrative expenses during the next twelve months when the hedged revenue is recognized. During the three and nine months ended March 31, 2011, we recognized no material gains or losses due to hedge ineffectiveness.

As of March 31, 2011 and June 30, 2010, we had cash flow hedges with a notional value of \$98.1 million and \$87.7 million, respectively, to hedge revenue cash flows. We determine the fair value of our foreign currency derivatives based on quoted prices received from the counterparty for each contract, which we evaluate using pricing models whose inputs are observable. The net fair value of all derivatives held as of March 31, 2011 and June 30, 2010 was an asset/(liability) of \$1.8 million and (\$3.5) million, respectively. See Note 5 *Fair Value Measurements*, for further information regarding the determination of fair value.

The fair value of our derivative instruments held as of March 31, 2011 and June 30, 2010 and their location in the condensed consolidated balance sheet are as follows:

		Asset derivat	ives		Lia	Liability derivatives			
	Balance sheet location	Fai	r value		Balance sheet location	Fair	value		
	location	March	i value		iocation	March			
		31, 2011	June 201			31, 2011	June 30, 2010

Note 7 Retirement Benefits.

Defined Benefit Plans

Towers Watson sponsors both qualified and non-qualified defined benefit pension plans and other post-retirement benefit plan or OPEB plans in North America and Europe. As of June 30, 2010, these funded and unfunded plans represented 98 percent of total Towers Watson s pension obligations and as a result are disclosed herein. Towers Watson also sponsors funded and unfunded defined benefit pension plans in certain other countries as well, representing the remaining 2 percent of the liability.

Under the legacy Watson Wyatt plans in North America, benefits are based on the number of years of service and the associate s compensation during the five highest paid consecutive years of service. The non-qualified plan, included only in North America, provides for pension benefits that would be covered under the qualified plan but are limited by the Internal Revenue Code. The non-qualified plan has no assets and therefore is an unfunded arrangement. Beginning January 2008, Watson Wyatt made changes to the plan in the U.K. related to years of service used in calculating benefits for associates. Benefits earned prior to January 2008 are based

16

Table of Contents

on the number of years of service and the associate s compensation during the three years before leaving the plan and benefits earned after January 2008 are based on the number of years of service and the associate s average compensation during the associate s term of service since that date. The plan liabilities in Germany were a result of Watson Wyatt s acquisition of Heissmann GmbH in 2007. A significant percentage of the liabilities represent the grandfathered pension benefit for employees hired prior to a July 1991 plan amendment. The pension plan for those hired after July 1991 is a defined contribution type arrangement. In the Netherlands, the pension benefit is a percentage of service and average salary over the working life of the employee, where salary includes allowances and bonuses up to a set maximum salary and is offset by the current social security benefit. The benefit liability is reflected on the balance sheet. The measurement date for each of the plans is June 30.

The legacy Towers Perrin pension plans in the U.S. accrue benefits under a cash-balance formula for associates hired or rehired after 2002 and for all associates for service after 2007. For associates hired prior to 2003 and active as of January 2003, benefits prior to 2008 are based on a combination of a cash balance formula, for the period after 2002, and a final average pay formula based on years of plan service and the highest five consecutive years of plan compensation prior to 2008. Under the cash balance formula benefits are based on a percentage of each year of the employee s plan compensation. The Canadian Retirement Plan provides a choice of a defined benefit approach or a defined contribution approach. The non-qualified plans in North America provide for pension benefits that would be covered under the qualified plan in the respective country but are limited by statutory maximums. The non-qualified plans have no assets and therefore are unfunded arrangements. The U.K. Plan provides predominantly lump sum benefits. Benefit accruals under the U.K. plan ceased on March 31, 2008. The plans in Germany mostly provide benefits under a cash balance benefit formula. Benefits under the Netherlands plan accrue on a final pay basis on earnings up to a maximum amount each year. The benefit assets and liabilities are reflected on the balance sheet. The measurement date for each of the plans had historically been December 31 but has been changed to June 30 as a result of the Merger.

The compensation committee of our board of directors approved an amendment to the terms of the existing U.S. qualified and non-qualified defined benefit pension plans, postretirement benefit plans and defined contribution plans which was communicated in September 2010. Effective December 31, 2010, the existing U.S. qualified and non-qualified pension plans were frozen to new participants, and benefit accruals will be frozen under the current benefit formulas effective December 31, 2011. New pension benefits will accrue beginning on January 1, 2012 under a new stable value pension design for qualified and non-qualified pension plans maintained for U.S. associates, including U.S. named executive officers. Retiree medical benefits provided under our U.S. postretirement benefit plans were frozen to new hires effective January 1, 2011. Life insurance benefits under the same plans will be frozen with respect to service, eligibility and amounts as of January 1, 2012 for active associates. As a result of these changes to the U.S. pension and post-retirement benefit plans, there were remeasurements of the legacy Watson Wyatt U.S. plans and the legacy Towers Perrin post-retirement benefit plan as of September 30, 2010. The legacy Towers Perrin pension plan was not required to be remeasured due to the plan design.

17

Components of Net Periodic Benefit Cost for Defined Benefit Pension Plans

The following tables set forth the components of net periodic benefit cost for the Company s defined benefit pension plan for North America and Europe for the three and nine month periods ended March 31, 2011 and 2010:

	Three Months Ended March 31,				
	2011		2010		
	North		North		
	America	Europe	America	Europe	
Service Cost	\$ 14,374	\$ 2,558	\$ 13,107	\$ 3,217	
Interest Cost	35,017	9,057	35,787	10,037	
Expected Return on Plan Assets	(39,988)	(9,464)	(35,146)	(8,659)	
Settlement/(curtailment)	411				
Amortization of Net Loss	5,837	1,334	3,764	671	
Amortization of Prior Service (Credit)/Cost	(2,006)	10	(406)	10	
Net Periodic Benefit Cost	\$ 13,645	\$ 3,495	\$ 17,106	\$ 5,276	

	Nine Months Ended March 31,			
	2011		2010	
	North		North	
	America	Europe	America	Europe
Service Cost	\$ 44,344	\$ 9,323	\$ 25,009	\$ 7,044
Interest Cost	105,691	28,318	60,604	21,708
Expected Return on Plan Assets	(118,630)	(29,455)	(58,282)	(18,836)
Settlement/(curtailment)	4,056			
Amortization of Net Loss	18,031	4,118	11,080	2,013
Amortization of Prior Service (Credit)/Cost	(4,417)	31	(1,218)	31
Net Periodic Benefit Cost	\$ 49,075	\$ 12,335	\$ 37,193	\$ 11,960

The assumptions used to determine net periodic benefit cost for the fiscal years ended June 30, 2010, 2009 and 2008 were as follows:

	Year Ended June 30,					
	2010		2009		2008	
	North		North		North	
	America	Europe	America	Europe	America	Europe
Discount rate	6.43%	6.03%	6.91%	6.47%	6.25%	5.72%
Expected long-term rate of						
return on assets	8.11%	6.48%	8.61%	6.53%	8.61%	6.74%
Rate of increase in						
compensation levels	3.93%	5.09%	4.08%	5.36%	3.84%	4.73%

The following table presents the assumptions used in the valuation to determine the projected benefit obligation for the fiscal years ended June 30, 2010 and 2009:

June 30, 2010		June 30, 2009	
North		North	
America	Europe	America	Europe

Discount rate	5.86%	5.25%	7.21%	6.29%
Rate of increase in compensation levels	3.88%	3.88%	3.29%	5.15%

For the 2011 fiscal year, the discount rate used to determine net periodic benefit cost was initially based on the rates in the table shown above for the determination of the projected benefit obligation as of June 30, 2010, which included a 5.86% rate for North America. As a result of plan changes adopted during the first quarter of fiscal year 2011, the legacy Watson Wyatt U.S. Pension Plans were remeasured as of September 30, 2010. Upon remeasurement the discount rate assumption was changed for these plans and the net periodic benefit cost for the 2011 fiscal year is now calculated using a weighted average discount rate of 5.79% for North America.

Employer Contributions

The Company made \$34.4 million in contributions to the North American plans during the first nine months of fiscal year 2011 and anticipates making \$4.4 million in contributions over the remainder of the fiscal year. The Company made \$14.0 million in

18

contributions to Europe plans during the first nine months of fiscal year 2011 and anticipates making \$7.4 million in contributions over the remainder of the fiscal year.

Defined Contribution Plans

Under the legacy Watson Wyatt plan, we sponsor a savings plan that provides benefits to substantially all U.S. associates. We match associate contributions at a rate of 50% of the first 6% up to \$60,000 of associates eligible compensation. We will also make an annual profit sharing contribution to the plan in an amount that is dependent upon our financial performance during the fiscal year.

The legacy Watson Wyatt U.K. pension plan has a money purchase section to which we make core contributions plus additional contributions matching those of the participating associates up to a maximum rate. Contribution rates are dependent upon the age of the participant and on whether or not they arise from salary sacrifice arrangements through which an individual has taken a reduction in salary and we have paid an equivalent amount as pension contributions. Core contributions amount to 2-6% of pensionable salary with additional matching contributions of a further 2-6%. The legacy Towers Perrin plans consist of sponsoring savings plans in 21 countries that provide benefits to substantially all associates within those countries. Certain of these plans provide for a Company match to associate contributions at various rates. In the United States, we provide a matching contribution of 100% of the first 5% of associate contributions. We make contributions of 10% of pay to the legacy Towers Perrin U.K. plan. Effective January 1, 2011, all eligible employees hired subsequent to that date will participate in a new savings plan design which provides for 100% match on the first 2% of pay and 50% match on the next 4% of pay, and vesting at 100% upon two years of service for employer contributions. All other associates will continue participating in their respective legacy plans until January 1, 2012 at which time the legacy plans will be frozen to new contributions and the associates will begin participation in the new savings plan design.

Health Care Benefits

In the legacy Watson Wyatt and Towers Perrin U.S. plans, we sponsor a contributory health care plan that provides hospitalization, medical and dental benefits to substantially all U.S. associates. We accrue a liability for estimated incurred but unreported claims based on projected use of the plan as well as prior plan history.

Postretirement Benefits

Under both the legacy Watson Wyatt and legacy Towers Perrin plans, we provide certain health care and life insurance benefits for retired associates. The principal plans cover associates in the U.S. and Canada who have met certain eligibility requirements. Our principal post-retirement benefit plans are primarily unfunded. We accrue a liability for these benefits. Retiree medical benefits provided under our U.S. postretirement benefit plans were frozen to new hires effective January 1, 2011. Life insurance benefits under the same plans will be frozen with respect to service, eligibility and amounts as of January 1, 2012 for active associates.

Components of Net Periodic Benefit Cost for Other Postretirement Plans

The following table sets forth the components of net periodic benefit cost for the Company s healthcare and post-retirement plans for the three and nine months ended March 31, 2011 and 2010:

	Three Months Ended March 31,		Nine Months Ende March 31,	
	2011	2010	2011	2010
Service cost	\$ 997	\$ 1,400	\$ 3,551	\$ 1,995
Interest cost	2,738	3,721	9,034	5,034
Expected return on plan assets	(33)	(33)	(99)	(33)
Settlement/(curtailment)			(3,386)	
Amortization of net loss/(gain)	445	(275)	977	(825)
Amortization of prior service cost	(1,780)	(143)	(3,689)	(428)
Net periodic benefit cost	\$ 2,367	\$ 4,670	\$ 6,388	\$ 5,743

Note 8 Debt, Commitments and Contingent Liabilities

The debt commitment and contingencies described below are currently in effect and would require Towers Watson, or domestic subsidiaries, including Towers Watson Delaware and Towers Watson Pennsylvania, to make payments to third parties under certain

19

circumstances. In addition to commitments and contingencies specifically described below, Towers Watson and its historical predecessor companies, Watson Wyatt and Towers Perrin, have historically provided guarantees on an infrequent basis to third parties in the ordinary course of business.

Subordinated Notes due January 2011

On December 30, 2009, in connection with the Merger and the Class R Elections as described in Note 2, Towers Watson entered into an indenture with the trustee for the issuance of Towers Watson Notes due January 2011 in the aggregate principal amount of \$200 million. The Towers Watson Notes due January 2011 were issued on January 6, 2010, bearing interest from January 4, 2010 at a fixed per-annum rate of 2.0%, and matured on January 1, 2011. The indenture contained limited operating covenants, and obligations under the Towers Watson Notes due January 2011 were subordinated to and junior in right of payment to the prior payment in full in cash of all Senior Debt (as defined in the indenture) on the terms set forth in the Indenture. On January 3, 2011 (the first business day following the note maturity date), Towers Watson repaid both principal and interest on the Notes which was funded in part by a \$75 million borrowing under our Senior Credit Facility.

Subordinated Notes due March 2012

On June 15, 2010, in connection with an offer to exchange shares of Class B-1 Common Stock for unsecured subordinated notes, Towers Watson entered into an indenture with the trustee for the issuance of Towers Watson Notes due March 2012 in the aggregate principal amount of \$97.3 million. The Towers Watson Notes due March 2012 were issued on June 29, 2010, bearing interest from June 15, 2010 at a fixed per annum rate, compounded quarterly on the interest reset dates, equal to the greater of (i) 2.0%, or (ii) 120.0% of the short-term applicable federal rate listed under the quarterly column, in effect at the applicable interest reset date. The Towers Watson Notes due March 2012 will mature on March 15, 2012 and are included in the notes payable balance on our consolidated balance sheet as of March 31, 2011. Obligations under the Towers Watson Notes due March 2012 are subordinated to and junior in right of payment to the prior payment in full in cash of all Senior Debt (as defined in the indenture).

Towers Watson Senior Credit Facility

On January 1, 2010, in connection with the Merger, Towers Watson and certain subsidiaries entered into a three-year, \$500 million revolving credit facility with a syndicate of banks (the Senior Credit Facility). Borrowings under the Senior Credit Facility bear interest at a spread to either Libor or the Prime Rate. We are charged a quarterly commitment fee, currently 0.5% of the Senior Credit Facility, which varies with our financial leverage and is paid on the unused portion of the Senior Credit Facility. Obligations under the Senior Credit Facility are guaranteed by Towers Watson and all of its domestic subsidiaries (other than PCIC) and are secured by a pledge of 65% of the voting stock and 100% of the non-voting stock of Towers Perrin Luxembourg Holdings S.A.R.L. The Senior Credit Facility contains customary representations and warranties and affirmative and negative covenants. The Senior Credit Facility requires Towers Watson to maintain certain financial covenants that include a minimum Consolidated Interest Coverage Ratio and a maximum Consolidated Leverage Ratio (which terms in each case are defined in the Senior Credit Facility). In addition, the Senior Credit Facility contains restrictions on the ability of Towers Watson to, among other things, incur additional indebtedness; pay dividends; make distributions; create liens on assets; make investments, loans or advances; make acquisitions; dispose of property; engage in sale-leaseback transactions; engage in mergers or consolidations, liquidations and dissolutions; engage in certain transactions with affiliates; and make changes in lines of businesses. As of March 31, 2011, we were in compliance with our covenants. As of March 31, 2011 and June 30, 2010, Towers Watson had no borrowings outstanding under the Senior Credit Facility.

Letters of Credit under the Senior Credit Facility

As of March 31, 2011, Towers Watson had standby letters of credit totaling \$24.9 million associated with our captive insurance companies in the event that we fail to meet our financial obligations. Additionally, Towers Watson had \$0.3 million of standby letters of credit covering various other existing or potential business obligations. The aforementioned letters of credit are issued under the Senior Credit Facility, and therefore reduce the amount that can be borrowed under the Senior Credit Facility by the outstanding amount of these standby letters of credit.

Additional Borrowings, Letters of Credit and Guarantees not part of the Senior Credit Facility

Towers Watson Consultoria Ltda. (Brazil) has a bilateral credit facility with a major bank totaling Brazilian Real (BRL) 6.5 million (U.S. \$4.0 million). As of March 31, 2011, a total of BRL \$4.2 million (U.S. \$2.6 million) was outstanding under this facility.

Towers Watson has also provided a \$5.0 million Australian dollar-denominated letter of credit (U.S. \$5.2 million) to an Australian governmental agency as required by the local regulations. The estimated fair market value of these letters of credit is immaterial because they have never been used, and we believe that the likelihood of future usage is remote.

20

Table of Contents

Towers Watson also has \$6.2 million of letters of guarantee from major banks in support of office leases and performance under existing or prospective contracts.

Indemnification Agreements

Towers Watson has various agreements that provide that it may be obligated to indemnify the other party with respect to certain matters. Generally, these indemnification clauses are included in contracts arising in the normal course of business and in connection with the purchase and sale of certain businesses. Although it is not possible to predict the maximum potential amount of future payments under these indemnification agreements due to the conditional nature of Towers Watson s obligations and the unique facts of each particular agreement, Towers Watson does not believe that any potential liability that might arise from such indemnity provisions is probable or material. There are no provisions for recourse to third parties, nor are any assets held by any third parties that any guarantor can liquidate to recover amounts paid under such indemnities.

Legal Proceedings

From time to time, Towers Watson and its subsidiaries, including Watson Wyatt and Towers Perrin, are parties to various lawsuits, arbitrations or mediations that arise in the ordinary course of business. The matters reported on below are the most significant pending or potential claims against Towers Watson and its subsidiaries. We also receive subpoenas in the ordinary course and, from time-to-time, receive requests for information in connection with government investigations.

Before the Merger, Watson Wyatt and Towers Perrin each carried substantial professional liability insurance with a self-insured retention of \$1 million per claim, which provided coverage for professional liability claims including the cost of defending such claims. These policies remained in force subsequent to the Merger. We reserve for contingent liabilities based on ASC 450, Contingencies, when it is determined that a liability, inclusive of defense costs, is probable and reasonably estimable. The contingent liabilities recorded are primarily developed actuarially. Litigation is subject to many factors which are difficult to predict so there can be no assurance that in the event of a material unfavorable result in one or more claims, we will not incur material costs. Our professional liability insurance coverage beyond our self-insured retention was written by PCIC, an affiliated captive insurance company, with reinsurance and excess insurance attaching at \$26 million provided by various unaffiliated commercial insurance carriers. Post-Merger, Towers Watson has a 72.86% ownership interest in PCIC and as a result, PCIC s results are consolidated in Towers Watson s operating results. Although the PCIC insurance policies will continue to cover professional liability claims above a \$1 million per claim self-insured retention for claims reported during the periods these policies were in effect, the consolidation of PCIC will effectively result in self-insurance for the first \$25 million of aggregate loss for each of Watson Wyatt and Towers Perrin above the \$1 million per claim self-insured retention. As a result of consolidating PCIC s results of operations in our consolidated financial statements, the impact of PCIC s reserve development also may result in fluctuations in Towers Watson s earnings.

PCIC ceased issuing insurance policies effective July 1, 2010 and at that time entered into run-off mode of operation. We have established a new wholly-owned captive insurance company, Stone Mountain Insurance Company (SMIC), from which we are obtaining similarly structured insurance effective July 1, 2010. SMIC provides us with \$50 million of coverage per claim and in the aggregate on a claims-made basis. SMIC has secured reinsurance coverage providing \$25 million excess of the \$25 million retained layer for the current policy period. This structure effectively results in self-insurance for the first \$25 million of loss per occurrence or in the aggregate for Towers Watson above the \$1 million per claim self-insured retention. As a wholly-owned captive insurance company, SMIC is consolidated into our financial statements.

ExxonMobil Superannuation Plan (Australia)

In March 2007, the Trustees of the ExxonMobil (Australia) Superannuation Plan commenced a legal proceeding in the Supreme Court of Victoria against Towers Perrin and the plan sponsors, Esso (Australia) and ExxonMobil (Australia), commenced a similar legal proceeding against Towers Perrin in April 2007 (collectively the 2007 actions). On May 15, 2009, as the time was expiring to add any additional contributing parties, Towers Perrin filed third-party claims against Watson Wyatt, the successor actuary and Plan administrator. The professional advisors other than Towers Perrin who are named as defendants in the 2007 actions have commenced a separate legal proceeding against Watson Wyatt seeking indemnification and contribution (the contribution action).

The complaints in the 2007 actions allege that while performing administrative and actuarial services for the Superannuation Plan during the period from mid-1990 to 1995, Towers Perrin failed to detect drafting errors made by previous plan advisors including attorneys, when these advisors prepared certain amendments to the Superannuation Plan Deed. These amendments were adopted before Towers Perrin commenced its engagement. Watson Wyatt succeeded Towers Perrin as the plan administrator and plan actuary in 1996 and continues to serve in those capacities. The previous plan advisors are also named as defendants in the 2007 actions.

Plaintiffs allege that the faulty drafting resulted in the grant of additional, but unintended and unauthorized benefits, to certain Superannuation Plan participants. Plaintiffs further allege that because Towers Perrin failed to detect the drafting error, benefits were not properly administered and the plan was not properly funded. Towers Perrin administered and valued the plan benefits consistent

21

Table of Contents

with what the plan sponsors contend was intended. Watson Wyatt continued to administer and value the benefits in the same manner when it succeeded Towers Perrin in 1996. The most recent estimate of the value of the allegedly unintended benefits is AU\$510 million.

The Trustee and plan sponsors have been engaged since 2001 in a separate legal proceeding (the rectification action) which seeks an interpretation of the relevant portions of the plan Deed and, if necessary, modification to conform those portions to reflect the manner in which the benefits were intended to be, and were, administered during both the Towers Perrin and Watson Wyatt engagements. The parties to the rectification action (which did not include Towers Perrin and Watson Wyatt) have reached an agreement to settle that matter by agreeing to provide a compromise benefit to plan participants, the net present value of which was approximately AU\$143.3 million as of October 2009. This settlement has been approved by the Court. Subsequently, Towers Perrin and Watson Wyatt concluded a settlement of all claims between and among all parties in all proceedings and on May 2, 2011, the Court entered orders dismissing all claims against all parties in the 2007 actions, thereby concluding fully and finally all legal proceedings. There is no exposure of loss in excess of amounts previously accrued, including the accrual for legal fees.

Former Towers Perrin shareholder litigation

On December 9, 2009, Watson Wyatt was informed by Towers Perrin of a settlement demand from the plaintiffs in a putative class action lawsuit filed by certain former shareholders of Towers Perrin (the *Dugan Action*). Although the complaint in the *Dugan Action* does not contain a quantification of the damages sought, plaintiffs settlement demand, which was orally communicated to Towers Perrin on December 8, 2009 and in writing on December 9, 2009, sought a payment of \$800 million to settle the action on behalf of the proposed class. Plaintiffs requested that Towers Perrin communicate the settlement demand to Watson Wyatt.

The *Dugan Action* previously was reported in Amendment No. 3 to the Registration Statement on Form S-4/A (File No. 333-161705) filed on November 9, 2009 by the Jupiter Saturn Holding Company (the Registration Statement). As reported in the Registration Statement, the complaint was filed on November 5, 2009 against Towers Perrin, members of its board of directors, and certain members of senior management in the United States District Court for the Eastern District of Pennsylvania.

Plaintiffs in this action are former members of Towers Perrin s senior management, who left Towers Perrin at various times between 1995 and 2000. The *Dugan* plaintiffs seek to represent a class of former Towers Perrin shareholders who separated from service on or after January 1, 1971, and who also meet certain other specified criteria. On December 17, 2009, four other former Towers Perrin shareholders, all of whom voluntarily left Towers Perrin in May or June 2005 and all of whom are excluded from the proposed class in the *Dugan Action*, commenced a separate legal proceeding (the *Allen Action*) in the United States District Court for the Eastern District of Pennsylvania alleging the same claims in substantially the same form as those alleged in the *Dugan Action*. These plaintiffs are proceeding in their individual capacities and do not seek to represent a proposed class.

On January 15, 2010, another former Towers Perrin shareholder who separated from service with Towers Perrin in March 2005 when Towers Perrin and EDS launched a joint venture that led to the creation of a corporate entity known as ExcellerateHRO (eHRO), commenced a separate legal proceeding (the *Pao Action*) in the United States District Court of the Eastern District of Pennsylvania also alleging the same claims in substantially the same form as those alleged in the *Dugan Action*. Towers Perrin contributed its Towers Perrin Administrative Solutions (TPAS) business to eHRO and formerly was a minority shareholder (15%) of eHRO. *Pao* seeks to represent a class of former Towers Perrin shareholders who separated from service in connection with Towers Perrin s contribution to eHRO of its TPAS business and who are excluded from the proposed class in the *Dugan Action*. Towers Watson is also named as a defendant in the *Pao Action*.

Pursuant to the Towers Perrin Bylaws in effect at the time of their separations, the Towers Perrin shares held by each of these plaintiffs were redeemed by Towers Perrin at book value at the time these individuals separated from employment. The complaints allege variously that there either was a promise that Towers Perrin would remain privately owned in perpetuity (*Dugan Action*) or that in the event of a change to public ownership plaintiffs would receive compensation (*Allen* and *Pao Actions*). Plaintiffs allege that by agreeing to sell their shares back to Towers Perrin at book value upon retirement, they and other members of the putative classes relied upon these alleged

promises, which they claim were breached as a result of the consummation of the Merger between Watson Wyatt and Towers Perrin. The complaints assert claims for breach of contract, breach of express trust, breach of fiduciary duty, promissory estoppel, quasi-contract/unjust enrichment, and constructive trust, and seek equitable relief including an accounting, disgorgement, rescission and/or restitution, and the imposition of a constructive trust. On January 20, 2010, the court consolidated the three actions for all purposes.

On February 22, 2010, defendants filed a motion to dismiss the complaints in their entireties. By order dated September 30, 2010, the court granted the motion to dismiss plaintiffs—claim for a constructive trust and denied the motion with respect to all other claims alleged. Pursuant to the court—s September 30 order, defendants also filed answers to plaintiffs—complaints on October 22, 2010. The parties are currently engaged in fact discovery. At this stage of the proceedings, the Company has concluded that, largely because the

22

Table of Contents

parties are in the relatively early stages of discovery, a loss is neither probable nor estimable, and that the Company is unable to estimate a reasonably possible loss or range of loss.

Towers Watson continues to believe the claims in these lawsuits are without merit and intends to defend against them vigorously. However, the cost of defending against the claims could be substantial and the outcome of these legal proceedings is inherently uncertain and could be unfavorable to Towers Watson.

Acument Global Technologies, Inc.

In a letter to the Company dated January 26, 2011, Acument Global Technologies, Inc. (Acument) and the Acument Global Technologies, Inc. Pension Plan (the Plan) claim that Towers Watson breached its fiduciary duties under the Employee Retirement Income Security Act of 1974 (ERISA) in connection with advice provided to Acument relating to investment of certain assets of the Plan in the Westridge Capital Management Enhancements Funds (the Westridge Funds). Acument and the Plan demand that the Company make the Plan whole for losses and damages allegedly sustained as a result of Acument s decision to invest in the Westridge Funds. Watson Wyatt Investment Consulting, Inc. (WWIC), now known as Towers Watson Investment Services, Inc. (TWIS), provided investment consulting services to Acument between December 1, 2007 and April 30, 2010. In connection with those services, WWIC recommended an investment in the Westridge Funds. In July 2008, Acument made a \$47.0 million investment in the Westridge Funds. During the period December 1, 2008 through January 22, 2009, Acument made additional investments of \$9.5 million, bringing the aggregate investment of the Plan s assets in the Westridge Funds to \$56.5 million.

As the result of information obtained during an investigation of Westridge Capital Management, its affiliates WG Trading Investors, L.P. and WG Trading Company, L.P. (collectively referred to as Westridge) and their principals, commenced by the National Futures Association on February 5, 2009, the Commodities Future Trading Commission (CFTC) filed suit against Westridge and its principals alleging violations of the Commodity Exchange Act. This resulted in a court-supervised receivership of the assets of Westridge. The Securities Exchange Commission filed a separate suit on February 25, 2009 against Westridge and its principals alleging violations of the federal securities laws. In its complaint, the SEC alleges that Westridge had become a fraudulent investment scheme by which its principals purportedly misappropriated approximately \$553 million from a number of highly sophisticated institutional investors, including public pension and retirement plans and educational institutions, some of which were investing in Westridge as late as February 6, 2009. To date, Acument has recovered approximately \$9.5 million of its investment in the Westridge Funds from the receivership. Distributions from the receivership have not yet been completed and Acument could recover additional sums. The Company has declined Acument is demand for compensation and plans to defend vigorously against any legal proceedings that may ensue. Accordingly, a loss is neither probable nor estimable, and we are unable to estimate a reasonably possible loss or range of loss.

Note 9 Comprehensive (Loss)/Income.

Comprehensive (loss)/income includes net income, additional minimum pension liability, unrealized loss on available-for-sale securities, hedge effectiveness and changes in the cumulative translation adjustment gain or loss. For the three months ended March 31, 2011, comprehensive income totaled \$123.6 million compared with comprehensive loss of \$36.8 million for the three months ended March 31, 2010. For the nine months ended March 31, 2011, comprehensive income totaled \$380.0 million compared with comprehensive income of \$12.3 million for the nine months ended March 31, 2010.

Note 10 Restricted Stock.

In conjunction with the Merger, shares of Towers Watson common stock issued to Towers Perrin shareholders have been divided among four series of non-transferable Towers Watson common stock, Classes B-1, B-2, B-3 and B-4, each with a par value of \$0.01 per share. The shares listed in the table below reflect a reduction of shares for our tender offer and our secondary public offering and by the acceleration of vesting due to involuntary associate terminations detailed below. In addition, on January 31, 2011, we completed the acquisition of EMB and issued 113,858 Class B-3 and 113,858 Class B-4 common stock to the sellers as consideration. The Class B-3 and B-4 common stock, par value \$0.01 per share, will generally convert into freely tradable Class A common stock on January 31, 2013 and January 31, 2014, respectively.

On January 1, 2011, 5,642,302 shares of Class B-1 common stock converted to freely tradable Class A common stock. The remaining outstanding shares of Towers Watson Class B common stock generally will automatically convert on a one-for-one basis into shares of freely transferable shares of Towers Watson Class A common stock on the following timetable:

Stock Class	Number of Shares	Conversion Date
B-2	5,561,630	January 1, 2012
B-3	5,675,488	January 1, 2013
B-4	5,441,885	January 1, 2014
	23	•

On September 22, 2010, we completed a secondary public offering of our Class A common stock. This offering allowed certain existing holders of the Company's outstanding Class B-1 common stock to convert and sell 4,279,233 shares of Class A common stock at \$46.00 and granted the underwriters an option to purchase up to 641,768 additional shares to cover any overallotments. On October 1, 2010, we completed the exercise in full by the underwriters of such overallotment option. Towers Watson did not receive any of the proceeds from the sale of shares, and there was no dilution of shares currently outstanding.

At a special meeting of stockholders held on September 9, 2010, Towers Watson s stockholders approved a proposal to eliminate a restriction in the Company s certificate of incorporation on the number of shares of Class B common stock that the Board of Directors can convert into shares of Class A common stock. This amendment was required to conduct the offering and provides the Company with the flexibility to release converted shares of Class B common stock into the public market if the Board of Directors determines that such action is advisable.

On June 29, 2010, we completed a tender offer to exchange shares of our Class B-1 common stock, par value \$.01 per share, for unsecured subordinated notes in the aggregate principal amount of \$97.3 million due March 15, 2012. Each note had a principal amount equal to the product of the number of shares of Class B-1 common stock tendered and \$43.43, the exchange ratio.

The purpose of the tender offer was to enable us to acquire shares of Class B-1 common stock in an orderly fashion to reduce the impact of any sales or potential sales that may occur in the future on the market price of Class A common stock. As a result of the tender offer, we repurchased 2,267,265 shares of Class B-1 common stock in exchange for notes payable to Class B-1 shareholders in the aggregate principal amount of \$97.3 million.

The Towers Perrin restricted stock unit (RSU) holders received 10% of the total consideration issued to Towers Perrin shareholders in conjunction with the Merger. The RSUs were converted into 4,248,984 Towers Watson Restricted Class A shares, of which an estimated 10%, or 424,898 shares, are expected to be forfeited by current associate Restricted Class A shareholders who are subject to a service condition. The service condition is fulfilled from grant date through each of the three annual periods from January 1, 2010 until December 31, 2012. The restriction lapses annually on January 1 and the Restricted Class A shares become freely tradable shares of Class A common stock on such dates. Forfeited shares will be distributed after January 1, 2013 to Towers Perrin shareholders as of December 31, 2009 in proportion to their ownership in Towers Perrin on the date of the Merger. Shareholders of Restricted Class A shares have voting rights and receive dividends upon annual vesting of the shares. Dividends on forfeited shares are distributed with the associated shares after January 1, 2013. The shares listed in the table below reflect a reduction of shares for forfeitures and acceleration of vesting due to voluntary and involuntary associate terminations and reflect the outstanding Restricted Class A shares as of March 31, 2011.

Stock Class	Number of Shares	Vesting Date
A	1,237,663	January 1, 2012
A	1,237,663	January 1, 2013

For the three and nine months ended March 31, 2011, we recorded \$12.1 million and \$60.0 million, respectively, of non-cash share-based compensation expense in connection with the issuance of Towers Watson Restricted Class A common stock to Towers Perrin RSU holders in the Merger. The graded method of expense methodology assumes that the restricted shares are issued to Towers Perrin RSU holders in equal amounts of shares which vest as separate awards over one, two and three years.

Note 11 Share-Based Compensation.

In connection with the Merger, Towers Watson assumed the amended and restated Watson Wyatt 2001 Employee Stock Purchase Plan and the Watson Wyatt 2000 Long-Term Incentive Plan, and created the Towers Watson & Co. 2009 Long-Term Incentive Plan. Towers Watson did not assume the Watson Wyatt 2001 Deferred Stock Unit Plan for Selected Employees or the Watson Wyatt Amended Compensation Plan for Outside Directors.

Towers Watson & Co. Employee Stock Purchase Plan

Towers Watson assumed the amended and restated Watson Wyatt 2001 Employee Stock Purchase Plan (the Stock Purchase Plan) which enables associates to purchase shares of Towers Watson Class A common stock at a 5% discount. The Stock Purchase Plan is a non-compensatory plan under generally accepted accounting principles of

stock-based compensation. As a result, no compensation expense is recognized in conjunction with this plan. Watson Wyatt originally registered 750,000 shares of its Class A common stock on December 19, 2001 and an additional 1,500,000 shares of its Class A common stock on December 16, 2003, of which 196,424 shares remained available for issuance immediately prior to the Merger, at which time 4,500,000 additional shares were added. Towers Watson filed a Form S-8 Registration Statement in the third quarter of fiscal 2010 registering the 4,696,424 shares available for issuance under the Stock Purchase Plan.

24

Towers Watson & Co. 2009 Long-Term Incentive Plan

In January 2010, Towers Watson filed a Form S-8 Registration Statement to register 12,500,000 shares of Towers Watson Class A common stock that may be issued pursuant to the Towers Watson & Co. 2009 Long-Term Incentive Plan (the 2009 Plan) and 125,648 shares of Class A common stock that may be issued upon exercise of the unvested stock options previously granted under the Watson Wyatt 2000 Long-Term Incentive Plan. The Watson Wyatt 2000 Long-term Incentive Plan was assumed by Towers Watson and the registered shares for the Watson Wyatt 2000 Long-term Incentive Plan are limited to exercise of awards that were outstanding at the time of the Merger. The assumed options were exercisable for shares of Towers Watson Class A common stock based on the exchange ratio of one share of Watson Wyatt Class A common stock underlying the options for one share of Towers Watson Class A common stock. The 2009 Plan was approved by Watson Wyatt shareholders on December 18, 2009. *Restricted Stock Units*

Executives and Employees

In September 2010, the Compensation Committee of our Board of Directors approved the form of performance-vested restricted stock unit award agreement, pursuant to the 2009 Plan. RSUs are designed to provide us an opportunity to offer long-term incentives and to provide key executives with a long-term stake in our success. RSUs are notional, non-voting units of measurement based on our common stock. Under the RSU agreement, participants become vested in a number of RSUs based on the achievement of specified levels of financial performance during the performance period set forth in the agreement, provided that the participant remains in continuous service with us through the end of the performance period. The targets reflect an emphasis on continued profitability growth through successful integration, despite the difficult economic environment. Any RSUs that become vested are payable in shares of our Class A Common Stock. Dividend equivalents will accrue on RSUs and vest to the same extent as the underlying shares.

During the three months ended September 30, 2010, 125,192 RSUs were granted to certain of our executive officers for the 2010 to 2013 performance period. Awards are based on the value of the executive officer s annual base salary and a multiplier, which is then converted into a target number of RSUs based on our closing stock price as of the date of grant of \$45.25. Between 0% and 204% of the target number of RSUs will vest based on the extent to which specified performance metrics are achieved over the three year performance period from July 1, 2010 to June 30, 2013, subject to their continued employment with us through the end of the performance period. The Compensation Committee approved the grants and established adjusted EBITDA margin for the six-month period ending June 30, 2013 and revenue growth during the performance period (based on fiscal year 2013 revenue versus fiscal year 2010 revenue) as the performance metrics for the awards. For the three and nine months ended March 31, 2011, we recorded \$1.6 million and \$2.1 million, respectively, of stock-based compensation related to this grant.

During the three and nine months ended March 31, 2011, 7,200 and 46,116 RSUs were granted respectively to certain employees. The award of 7,200 RSUs vested immediately in the third quarter of fiscal 2011 and the award of 38,916 RSUs vest in equal annual installments over a three year period ending January 1, 2013 based on continued employment through each vesting period. For the three and nine months ended March 31, 2011, we recorded \$0.6 million and \$1.7 million, respectively, of stock-based compensation related to these grants.

Outside Directors

In May 2010, the board of directors approved the Towers Watson & Co. Compensation Plan for Non-Employee Directors which provides for cash and stock compensation for outside directors. During the nine months ended March 31, 2011, 24,710 restricted stock units were granted for the annual award for outside directors for service on the board of directors in equal quarterly installments over the fiscal year 2011. In fiscal year 2010, 22,149 restricted stock units were granted for the initial award for outside directors for service on the board of directors which vest in equal annual installments over a three year period ending January 1, 2013. A board member did not stand for re-election in fiscal year 2011 and we recorded the forfeiture during the three months ended March 31, 2011 resulting in \$0 million and \$1.1 million, respectively, of non-cash stock based compensation for the three and nine months ended March 31, 2011 related to these awards for outside directors.

Stock Options

There were no grants of stock options during the three and nine months ended March 31, 2011 under the 2009 Plan.

During the three and nine months ended March 31, 2010, 108,933 fully-vested stock options were granted under the 2009 Plan with an exercise price equal to the grant date fair value of Towers Watson Class A common stock of \$45.88. As a result the Company recorded \$1.3 million of stock-based compensation in the third quarter of fiscal 2010.

During the three and nine months ended March 31, 2010, 0 and 125,648 stock options, respectively, were granted under the Watson Wyatt 2000 Long-term Incentive Plan with an exercise price equal to the grant date market price of Watson Wyatt stock of \$42.47 with a three-year vesting term. All outstanding Watson Wyatt stock options became fully vested at the time of the Merger with

25

the exercise price as of the original grant date and the unamortized grant date fair value of the options was recorded as expense. As a result, we recorded stock-based compensation of \$1.3 million during fiscal year 2010.

The weighted-average fair value of the stock option grants under both plans was calculated using the Black-Scholes formula and are included in the valuation assumptions table below. In addition, a post-vesting discount was calculated using 1.4%, the risk-free interest rate of a three-year bond, compounded over three years. The post-vesting discount was used to estimate fair value as there is a transfer restriction for three years of the stock option s underlying shares once vested. Compensation expense is recorded over a three-year graded vesting term as if one-third of the options granted to a participant are vested over one year, one-third are vested over two years and the remaining one-third are vested over three years.

	Nine Months Ended March 31, 2010
Stock option grants:	
Risk-free interest rate	1.4%
Expected lives in years	3
Expected volatility	37.2%
Dividend yield	0.7%
Weighted-average grant date fair value of options granted	\$ 11.02
Number of shares granted	234,581

Former Watson Wyatt Plans and Change of Control Provisions

The following former Watson Wyatt Plans were not assumed by Towers Watson and all obligations under the plans have been met. The following reflects the activity in these plans for the three and nine months ended March 31, 2010. *Restricted Stock Units*

The Watson Wyatt 2001 Deferred Stock Unit Plan for Selected Employees was intended to provide selected associates with additional incentives by permitting Watson Wyatt to grant them an equity interest in the form of restricted stock units, in lieu of a portion of their annual fiscal year end bonus. Shares under this plan are awarded during the first quarter of each fiscal year. During the nine months ended March 31, 2010, 219,751 shares of common stock were awarded at an average market price of \$44.08 for a total fair value of \$9.7 million.

Deferred Stock Units

Under the Watson Wyatt 2001 Deferred Stock Unit Plan for Selected Employees, there were Performance Share Bonus Incentive Programs (SBI), which consisted of grants of deferred stock units based on either salary or on the value of the cash portion of the eligible participant s fiscal year-end bonus target and a multiplier, which was then converted into a target number of deferred stock units based upon Watson Wyatt s stock price as of the quarter end prior to grant. Participants vested between zero and 170% of the target number of deferred stock units or between zero and 100% based on the extent to which financial and strategic performance metrics were achieved over three fiscal year periods. The financial and strategic performance metrics were established at the beginning of each performance period. For the performance periods covering fiscal years 2007 through 2009, 2008 through 2010, and 2009 through 2011, the vesting criteria were based upon growth specific metrics such as earnings per share, net operating income and revenue.

During the nine months ended March 31, 2010, 94,906 shares vested, of which 66,065 were deferred and 28,841 were awarded at a market price of \$44.07 to certain senior executive officers under the SBI 2007 plan, which represented vesting at 135% of the target number of deferred stock units.

Expenses for this plan were recognized when awards met the criteria of both probable and reasonably estimable. Stock-based compensation related to these performance awards is recorded as a component of salaries and employee benefits. Historically, Watson Wyatt s management periodically reviewed conditions that would affect the vesting of performance-based awards and adjusted compensation expense, if necessary, based on achievement of financial performance metrics set by the Compensation Committee of Watson Wyatt. The SBI 2008 and 2009 plan documents stated that the Watson Wyatt Compensation Committee had the discretion to accelerate the vesting of awards under

the SBI Program in connection with a change in control. Based on available plan performance information, the Watson Wyatt Compensation Committee concluded that (i) no payout would be made under the SBI 2008 plan upon the date of the Merger, and (ii) it would settle the SBI 2009 plan at 100% of target to take into account that the performance period would only be halfway completed as of the closing date of the Merger.

Approximately \$1.5 million of compensation expense was recorded relative to the SBI plans during the third quarter of fiscal year 2010 as a result of change of control provisions. During the nine months ended March 31, 2010, approximately \$1.2 million of

26

compensation expense was recorded in conjunction with these plans which included the reversal related to the SBI plans described above. In addition, 142,081 fully vested deferred restricted stock units from the fiscal year 2005 through 2007 plans were distributed subsequent to the Merger as the 2001 Deferred Stock Unit Plan for Selected Employees was not assumed by Towers Watson.

Amended Compensation Plan for Outside Directors

Historically, Watson Wyatt provided for cash and stock compensation for outside directors under the Amended Compensation Plan for Outside Directors, which was approved by the board of directors of Watson Wyatt in November 2001. The total number of shares reserved for issuance under the Amended Compensation Plan for Outside Directors was 150,000. The Amended Compensation Plan for Outside Directors was not assumed by Towers Watson. Under this plan, outside Watson Wyatt directors were initially paid in shares of Watson Wyatt s common stock, or in a combination of cash and shares, quarterly, at the completed quarter-end share price (which approximates fair value), for services provided during the preceding quarter. During the nine months ended March 31, 2010, approximately \$0.2 million of compensation expense was recorded in conjunction with this plan.

Note 12 Income Taxes.

As of March 31, 2011, our liability for income taxes associated with uncertain tax positions was \$34.0 million. This liability can be reduced by \$7.7 million of offsetting deferred tax benefits associated with foreign tax credits and the federal tax benefit of state income taxes. The net difference of \$26.3 million, if recognized, would have a favorable impact on our effective tax rate.

Interest and penalties related to income tax liabilities are included in income tax expense. As of March 31, 2011, we had accrued interest of \$3.7 million and penalties of \$0.4 million, totaling \$4.1 million.

We believe it is reasonably possible that there will be a \$3.9 million decrease in the tax liability for uncertain tax positions within the next 12 months based upon potential settlements and the expiration of statutes of limitations in various tax jurisdictions.

Provision for income taxes for the three and nine months ended March 31, 2011 was \$38.2 million and \$86.2 million, respectively, compared to \$40.3 million and \$77.8 million, respectively, for the three and nine months ended March 31, 2010. The effective tax rate was 36.1% for the nine months ended March 31, 2011 and 55.2% for the nine months ended March 31, 2010. The prior year effective tax rate was higher primarily due to a 7.5% increase in the effective tax rate associated with the reduction of deferred tax assets due to the enactment of the Patient Protection and Affordable Care Act and U.S. Health Care and Education Reconciliation Act of 2010 and a 7.2% increase associated with an increase in valuation allowances on certain German deferred tax assets and U.S. foreign tax credits in relation to the Merger. Towers Watson records a tax benefit on net operating loss carryovers and net deferred tax assets only if it is more likely than not that a benefit will be realized.

The Company and its subsidiaries file income tax returns in the U.S. federal jurisdiction and various state and foreign jurisdictions. The income tax examinations in the U.S. for the tax years 2002-2008 in connection with amended returns that were filed to claim foreign tax credits is substantially complete and the refund claim is being reviewed by the Joint Committee on Taxation. We are also under income tax examinations in certain states for tax years ranging from 2003 to 2008. The statute of limitations in certain states extends back to tax year 1998 as a result of changes to taxable income resulting from prior year federal tax examinations. A summary of the tax years that remain open to tax examination in our major tax jurisdictions are as follows:

United States federal
United States various states
Canada federal
Germany
The Netherlands
United Kingdom

(fiscal year ending in) 2002 and forward 1998 and forward 2003 and forward 2004 and forward 2008 and forward

2009 and forward

Open Tax Years

Note 13 Segment Information.

Towers Watson has three reportable operating segments or practice areas:

- (1) Benefits
- (2) Risk and Financial Services

(3) Talent and Rewards

Towers Watson s chief operating decision maker is the chief executive officer. It was determined that Towers Watson operational data used by the chief operating decision maker is that of the new segments. Management bases strategic goals and decisions on these segments and the data presented below is used to assess the adequacy of strategic decisions, the method of achieving these strategies and related financial results. Historically Watson Wyatt had five reportable segments which have been retrospectively adjusted to the new post-Merger segments. The Benefits and Technology and Administrative Solutions segments were combined and reclassified into the Benefits segment. The Investment Consulting and Insurance & Financial Services segments were combined and reclassified into the Risk and Financial Services segment while the Human Capital Group became the Talent and Rewards segment.

Management evaluates the performance of its segments and allocates resources to them based on net operating income on a pre-bonus, pre-tax basis. Revenue includes amounts that were directly incurred on behalf of our clients and reimbursed by them (reimbursable expenses).

As a result of the Merger integration, certain associates and related revenues have moved between segments. Prior period amounts have been reclassified to conform to the current classification.

The table below presents specified information about reported segments as of and for the three months ended March 31, 2011:

		Risk and	Talent and	
		Financial		
	Benefits	Services	Rewards	Total
Revenue (net of reimbursable expenses)	\$508,831	\$ 208,038	\$123,942	\$840,811
Net operating income	190,452	66,586	13,640	270,678
Receivables	481,488	161,572	118,144	761,204

The table below presents specified information about reported segments as of and for the three months ended March 31, 2010:

		Risk and	Talent and	
		Financial		
	Benefits	Services	Rewards	Total
Revenue (net of reimbursable expenses)	\$466,036	\$ 192,740	\$122,954	\$781,730
Net operating income	150,675	54,439	3,604	208,718
Receivables	421,198	143,457	109,439	674,094

The table below presents specified information about reported segments as of and for the nine months ended March 31, 2011:

		Risk and Financial	Talent and	
	Benefits	Services	Rewards	Total
Revenue (net of reimbursable expenses)	\$1,373,963	\$ 547,205	\$407,287	\$2,328,455
Net operating income	450,654	142,475	79,058	672,187
Receivables	481,488	161,572	118,144	761,204
	28			

The table below presents specified information about reported segments as of and for the nine months ended March 31, 2010:

		Risk and Financial	Talent and	
	Benefits	Services	Rewards	Total
Revenue (net of reimbursable expenses)	\$1,025,945	\$ 332,990	\$230,355	\$1,589,290
Net operating income	317,595	85,195	18,340	421,130
Receivables	421,198	143,457	109,439	674,094

A reconciliation of the information reported by segment to the consolidated amounts follows for the three and nine months ended March 31, (in thousands):

		Three Months Ended March 31,			Nine Months Ended March 31,

⁽¹⁾ Depreciation, general and administrative, pension, and medical costs are allocated to our segments based on budgeted expenses determined at the beginning of the fiscal year as management believes that these costs are

largely uncontrollable to the segment. To the extent that the actual expense base upon which allocations are made differs from the forecast/budget amount, a reconciling item will be created between internally allocated expenses and the actual expense that we report for GAAP purposes.

(2) Total segment receivables, which reflect the receivable balances used by management to make business decisions, are included for management reporting purposes net of deferred revenue.

29

Note 14 Earnings Per Share.

We adopted guidance under ASC 260, *Earnings per Share*, relating to the two-class method of presenting EPS. This guidance addresses whether awards granted in share-based transactions are participating securities prior to vesting and therefore need to be included in the earning allocation in computing earnings per share using the two-class method. ASC 260-10-45-60 requires non-vested share-based payment awards that have non-forfeitable rights to dividends or dividend equivalents to be treated as a separate class of securities in calculating earnings per share. Our participating securities include non-vested restricted stock. The components of basic and diluted earnings per share are as follows:

		Three Months Ended March 31,						
		2011	J	Per		2010	I	Per

Note 15 Recent Accounting Pronouncements.

Adopted

ASC 810, Amendments to FASB Interpretation No. 46 (R), amends the evaluation criteria to identify the primary beneficiary of a variable interest entity provided by FASB Interpretation 46(R), Consolidation of Variable Interest Entities An Interpretation of ARB No. 51. Additionally, the provisions require ongoing assessment of whether an enterprise is the primary beneficiary of the variable interest entity. We adopted these provisions on July 1, 2010 and the provisions did not have a material impact on our financial position or results of operations.

ASC 810, *Noncontrolling Interests in Consolidated Financial Statements* an amendment of ARB No. 51, requires the recognition of a noncontrolling interest (minority interest) as equity in the consolidated financial statements and separate from the parent sequity. The amount of net income attributable to the noncontrolling interest will be included in consolidated net income. It also amends certain consolidation procedures for consistency with the requirements of ASC 805, *Business Combinations*. The provisions also include expanded disclosure requirements regarding the interests of the parent and its noncontrolling interest. We adopted these provisions on July 1, 2009. As a result, our non-controlling interest of \$1.0 million as of June 30, 2009, which was previously included in other non-current liabilities, was reclassified to non-controlling interest in total equity. In addition, our non-controlling interest of \$1.6 million as of March 31, 2010, which was previously included in (loss)/income from affiliates, was reclassified to net (loss)/income attributable to non-controlling interests in our results of operations.

Not yet adopted

On December 17, 2010, the FASB issued ASU 2010-28, which (1) does not prescribe a specific method of calculating the carrying value of a reporting unit in the performance of step 1 of the goodwill impairment test and (2) requires entities with a zero or negative

30

Table of Contents

carrying value to assess, considering qualitative factors such as but not limited to those listed in ASC 350-20-35-30 whether it is more likely than not that a goodwill impairment exists. If an entity concludes that it is more likely than not that an impairment of goodwill exists, the entity must perform step 2 of the goodwill impairment test. These provisions are effective for impairment tests performed in our fiscal year 2012, beginning July 1, 2011. Upon adoption, if any of our reporting units have a zero or negative carrying value, we must assess, on the basis of current facts and circumstances, whether it is more likely than not that an impairment of our goodwill exists. If so, we would perform step 2 of the goodwill impairment test on the day of adoption and record the impairment charge, if any, as a cumulative-effect adjustment through beginning retained earnings. We are currently evaluating the impact, if any, on our financial position or results of operations of adopting this provision.

31

ITEM 2: MANAGEMENT S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

Executive Overview

The Merger

On January 1, 2010, pursuant to the Agreement and Plan of Merger, as amended by Amendment No. 1 (the Merger Agreement), Watson Wyatt Worldwide, Inc. (Watson Wyatt) and Towers, Perrin, Forster & Crosby, Inc. (Towers Perrin) combined their businesses through two simultaneous mergers (the Merger) and became wholly-owned subsidiaries of Jupiter Saturn Holding Company, which subsequently changed its name to Towers Watson & Co. (Towers Watson , the Company or we). Since the consummation of the Merger, Towers Perrin changed its name to Towers Watson Delaware Holdings Inc. However, for ease of reference, we continue to use the legacy Towers Perrin and Watson Wyatt names throughout this Report.

Although the business combination of Watson Wyatt and Towers Perrin was a merger of equals , generally accepted accounting principles require that one of the combining entities be identified as the acquirer by reviewing facts and circumstances as of the acquisition date. Watson Wyatt was determined to be the accounting acquirer. This conclusion is primarily supported by the facts that Watson Wyatt shareholders owned approximately 56 percent of all Towers Watson common stock after the redemption of Towers Watson Class R common stock and that Watson Wyatt s chief executive officer became the chief executive officer of Towers Watson. Watson Wyatt is the accounting predecessor in the Merger and as such, the historical results of Watson Wyatt through December 31, 2009 have become those of the new registrant, Towers Watson and are presented in this filing. Towers Watson s condensed consolidated financial statements as of and for the three and nine months ended March 31, 2011 include the results of Towers Perrin s operations. The condensed consolidated financial statements of Towers Watson as of and for the three and nine months ended March 31, 2010, include the results of Towers Perrin s operations beginning January 1, 2010.

General

Towers Watson s history, which is primarily that of our predecessor companies since the Merger occurred on January 1, 2010, is summarized below.

Watson Wyatt traces its roots back to the actuarial firm R. Watson & Sons, founded in 1878 in the U.K. In 1946, The Wyatt Company was established as an actuarial consulting firm in the U.S. Over the next few decades, the U.S.-based firm branched out into such other services as health care and compensation consulting and broadened its global reach, establishing offices throughout Canada, Europe, Latin America and Asia. In 1995, the two firms formed a global alliance and began operating as Watson Wyatt Worldwide. In 2000, the U.S.-based arm of the alliance completed a successful initial public offering and began trading on the New York Stock Exchange under the symbol WW. In August 2005, the two firms formally combined into one.

Towers Perrin s predecessor firm, Henry W. Brown & Co., was founded in 1871. Towers, Perrin, Forster & Crosby, Inc., was incorporated in Philadelphia, Pennsylvania, on February 13, 1934. The firm opened for business with 26 employees and initially operated a Reinsurance Division and Life Division. The firm eventually began to specialize in pensions and other employee benefit plans. Over the decades, the firm grew, diversified, globalized and was renamed Towers Perrin in 1987.

At Towers Watson, we bring together professionals from around the world experts in their areas of specialty to deliver the perspectives that give organizations a clear path forward. We do this by working with clients to develop solutions in the areas of employee benefits, risk and capital management, and talent and rewards.

We help our clients enhance business performance by improving their ability to attract, retain and motivate qualified employees. We focus on delivering consulting services that help organizations anticipate, identify and capitalize on emerging opportunities in human capital management. We also provide independent financial advice regarding all aspects of life insurance and general insurance, as well as investment advice to help our clients develop disciplined and efficient strategies to meet their investment goals.

As leading economies worldwide become more service-oriented, human resources and financial management have become increasingly important to companies and other organizations. The heightened competition for skilled employees, unprecedented changes in workforce demographics, regulatory changes related to compensation and

retiree benefits, and rising employee-related costs have increased the importance of effective human capital management. Insurance and investment decisions have become increasingly complex and important in the face of changing economies and dynamic financial markets. Towers Watson helps its clients address these issues by combining expertise in human capital and financial management with consulting and technology solutions, to improve the design and implementation of various human resources and financial programs, including compensation, retirement, health care, and insurance and investment plans.

32

The human resources consulting industry, although highly fragmented, is highly competitive. It is composed of major human capital consulting firms, specialty firms, consulting arms of accounting firms and information technology consulting firms.

In the short term, Towers Watson s revenue is driven by many factors, including the general state of the global economy and the resulting level of discretionary spending, the continuing regulatory compliance requirements of its clients, changes in investment markets, the ability of our consultants to attract new clients or provide additional services to existing clients, the impact of new regulations in the legal and accounting fields and the impact of our ongoing cost saving initiatives. In the long term, we expect that our financial results will depend in large part upon how well we succeed in deepening our existing client relationships through thought leadership and a focus on developing cross-practice solutions, actively pursuing new clients in our target markets, cross selling and making strategic acquisitions. We believe that the highly fragmented industry in which we operate offers us growth opportunities, because we provide a unique business combination of benefits and human capital consulting, as well as risk and capital management and strategic technology solutions.

Overview of Towers Watson

Towers Watson is a global consulting firm focusing on providing human capital and financial consulting services. Towers Watson provides services in three principal practice areas: Benefits, Risk and Financial Services, and Talent and Rewards operating from 151 offices in 36 countries throughout North America, Europe, Asia-Pacific and Latin America. Towers Watson employed approximately 12,900 and 12,800 full-time associates as of March 31, 2011 and June 30, 2010, respectively, in the following practice areas:

	March 31,	June 30,
	2011	2010
Benefits	6,300	6,200
Risk and Financial Services	2,300	2,000
Talent and Rewards	2,000	2,000
Other	300	200
Business Services (incl. Corporate and field support)	2,000	2,400
Total associates	12,900	12,800

Segments

We provide services in three business segments: Benefits; Risk and Financial Services; and Talent and Rewards. Benefits Segment. The Benefits segment is our largest and most established segment. This segment has grown through business combinations as well as strong organic growth. It helps clients create and manage cost-effective benefits programs that help them attract, retain and motivate a talented workforce.

The Benefits segment provides benefits consulting and administration services through four primary lines of business: Retirement;

Health and Group Benefits;

Technology and Administration Solutions; and

International Consulting.

Retirement supports organizations worldwide in designing, managing, administering and communicating all types of retirement plans. Health and Group Benefits provides advice on the strategy, design, financing, delivery, ongoing plan management and communication of health and group benefit programs. Through our Technology and Administration Solutions line of business, we deliver cost-effective benefit outsourcing solutions. The International Consulting Group provides expertise in dealing with international human capital management and related benefits and compensation advice for corporate headquarters and their subsidiaries. A significant portion of the revenue in this segment is from

recurring work, driven in large part by the heavily regulated nature of employee benefits plans and our clients annual needs for these services. For the nine months ended March 31, 2011, the Benefits segment contributed 59% of our segment revenue. For the same period, approximately 45% of the Benefits segment s revenue originates from outside the United States and is thus subject to translation exposure resulting from foreign exchange rate fluctuations.

33

<u>Risk and Financial Services Segment.</u> Within the Risk and Financial Services segment, our second largest segment, we have three primary lines of business:

Risk Consulting and Software (RCS);

Investment Consulting and Solutions (Investment); and

Reinsurance and Insurance Brokerage (Brokerage).

The Risk and Financial Services segment accounted for 24% of our segment revenue for the nine months ended March 31, 2011. Approximately 65% of the segment s revenue originates from outside the United States and is thus subject to translation exposure resulting from foreign exchange rate fluctuations. The segment has a strong base of recurring revenue, driven by long-term client relationships in reinsurance brokerage services, retainer investment consulting relationships, consulting services on financial reporting, and actuarial opinions on property/casualty loss reserves. Some of these relationships have been in place for more than 20 years. A portion of the revenue is related to project work, which is more heavily dependent on the overall level of discretionary spending by clients. This work is favorably influenced by strong client relationships, particularly related to mergers and acquisitions consulting. Major revenue growth drivers include changes in regulations, the level of mergers and acquisitions activity in the insurance industry, growth in pension and other asset pools, and reinsurance retention and pricing trends.

<u>Talent and Rewards Segment.</u> Our third largest segment, Talent and Rewards, is focused on three primary lines of business:

Executive Compensation;

Rewards, Talent and Communication; and

Data, Surveys and Technology.

The Talent and Rewards segment accounted for approximately 17% of our segment revenue for the nine months ended March 31, 2011. Few of the segment s projects have a recurring element. As a result, this segment is most sensitive to changes in discretionary spending due to cyclical economic fluctuations. Approximately 50% of the segment s revenue originates from outside the United States and is thus subject to translation exposure resulting from foreign exchange rate fluctuations. Revenue for Talent and Rewards consulting has minimal seasonality, with a small degree of heightened activity in the second half of the fiscal year during the annual compensation, benefits and survey cycles. Major revenue growth drivers in this group include demand for workforce productivity improvements and labor cost reductions, focus on high performance culture, globalization of the workforce, changes in regulations and benefits programs, mergers and acquisitions activity, and the demand for universal metrics related to workforce engagement.

Financial Statement Overview

Towers Watson s fiscal year ends June 30.

The financial statements contained in this quarterly report reflect Condensed Consolidated Balance Sheets as of the end of the third quarter of fiscal year 2011 (March 31, 2011) and as of the end of fiscal year 2010 (June 30, 2010), Condensed Consolidated Statements of Operations for the three and nine month periods ended March 31, 2011 and 2010, Condensed Consolidated Statements of Cash Flows for the nine months ended March 31, 2011 and 2010 and a Condensed Consolidated Statement of Changes in Stockholders Equity for the nine months ended March 31, 2011. Shown below are Towers Watson s top five markets based on percentage of consolidated revenue. The nine months ended March 31, 2011 and the fiscal year ended June 30, 2010 include data of Towers Watson s geographic regions. The fiscal year ended June 30, 2009 includes only data of historical Watson Wyatt s geographic regions.

	Nine		
	Months	Fiscal Year	
	2011	2010	2009
United States	48%	52%	43%

Edgar Filing: Towers Watson & Co. - Form 10-Q

United Kingdom	22	22	32
Canada	6	6	4
Germany	5	4	4
Netherlands	3	3	3

We derive the majority of our revenue from fees for consulting services, which generally are billed at standard hourly rates and expense reimbursement, which we refer to as time and expense, or on a fixed-fee basis. Management believes the approximate percentages for time and expense and fixed-fee engagements are 60% and 40%, respectively. Clients are typically invoiced on a

34

monthly basis with revenue generally recognized as services are performed. No single client accounted for more than 1% of our consolidated revenues for any of our three most recent fiscal years.

Our most significant expense is compensation to associates, which typically comprises approximately 70% of total costs of providing services. We compensate our directors and select executives with incentive stock-based compensation plans from time to time. When granted, awards are governed by the Towers Watson & Co. 2009 Long Term Incentive Plan, which provides for the awards to be valued at their grant date fair value which is amortized over the expected term of the awards, generally three years. In connection with the issuance of Towers Watson Restricted Class A common stock to Towers Perrin RSU holders in the Merger, we expect the total non-cash compensation expense relating to Towers Watson Restricted Class A common stock for the three year period will be \$159.3 million. This estimate was determined assuming a 10% annual forfeiture rate based on actual and expected attrition and the graded method of expense methodology. This expense methodology assumes that the restricted shares were issued to Towers Perrin RSU holders in equal amounts of shares that vest over one year, two years and three years giving the effect of more expense in the first year than the second and third. In the event that an associate is involuntarily terminated other than for cause, vesting is accelerated and expense is recorded immediately.

Salaries and employee benefits are comprised of wages paid to associates, related taxes, severance, benefit expenses such as pension, medical and insurance costs, and fiscal year-end incentive bonuses.

Professional and subcontracted services represent fees paid to external service providers for employment, marketing and other services. For the three most recent fiscal years, approximately 40 to 60% of the professional and subcontracted services for Watson Wyatt were directly incurred on behalf of clients and were reimbursed by them, with such reimbursements being included in revenue. For the nine months ended March 31, 2011 for Towers Watson, approximately 40% of professional and subcontracted services represent these reimbursable services. Occupancy includes expenses for rent and utilities.

General and administrative expenses include legal, marketing, human resources, finance, research, technology support, supplies, telephone and other costs to operate office locations as well as professional fees and insurance, including premiums on excess insurance and losses on professional liability claims, non-client-reimbursed travel by associates, publications and professional development. This line item also includes miscellaneous expenses, including gains and losses on foreign currency transactions.

Depreciation and amortization includes the depreciation of fixed assets and amortization of intangible assets and internally-developed software.

Transaction and integration expenses include fees and charges associated with the Merger and with our other acquisitions. Transaction and integration expenses principally consist of investment banker fees, contract termination fees, regulatory filing expenses, integration consultants, as well as legal, accounting, marketing, and information technology integration expenses.

Critical Accounting Policies and Estimates

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Our estimates, judgments and assumptions are continually evaluated based on available information and experience. Because of the use of estimates inherent in the financial reporting process, actual results could differ from those estimates. The areas that we believe are critical accounting policies include revenue recognition, valuation of billed and unbilled receivables from clients, discretionary compensation, income taxes, pension assumptions, incurred but not reported claims, and goodwill and intangible assets. The critical accounting policies discussed in our annual report on Form 10-K involve making difficult, subjective or complex accounting estimates that could have a material effect on our financial condition and results of operations. These critical accounting policies require us to make assumptions about matters that are highly uncertain at the time of the estimate or assumption. Different estimates that we could have used, or changes in estimates that are reasonably likely to occur, may have a material effect on our financial condition and results of operations.

Incurred But Not Reported (IBNR) Claims

Incurred But Not Reported (IBNR) Claims We accrue for IBNR professional liability claims that are probable and estimable, and for which we have not yet contracted for insurance coverage. We use actuarial assumptions to estimate and record a liability for IBNR professional liability claims. Our estimated IBNR liability is based on long-term trends and averages, and considers a number of factors, including changes in claim reporting patterns, claim settlement patterns, judicial decisions, and legislation and economic decisions. Our estimated IBNR liability does not include actuarial projections for the effect of claims data for large cases due to the insufficiency of actuarial experience with such cases. Our estimated IBNR liability will fluctuate if claims experience changes over time. Our IBNR liability was \$233.0 million and \$222.3 million as of March 31, 2011 and June 30, 2010, respectively.

35

Pension Assumptions

We sponsor both qualified and non-qualified defined benefit pension plans and other post-retirement benefit plan or OPEB plans in North America and Europe. These plans represented 98% of our total pension obligations as of June 30, 2010. We also sponsor funded and unfunded defined benefit pension plans in certain other countries representing the remaining 2% of the liability.

Under the legacy Watson Wyatt plans in North America, benefits are based on the number of years of service and the associate s compensation during the five highest paid consecutive years of service. The non-qualified plan, included only in North America, provides for pension benefits that would be covered under the qualified plan but are limited by the Internal Revenue Code. The non-qualified plan has no assets and therefore is an unfunded arrangement. Beginning January 2008, Watson Wyatt made changes to the plan in the United Kingdom related to years of service used in calculating benefits for associates. Benefits earned prior to January 2008 are based on the number of years of service and the associate s compensation during the three years before leaving the plan and benefits earned after January 2008 are based on the number of years of service and the associate s average compensation during the associate s term of service since that date. The plan liabilities in Germany were a result of Watson Wyatt s acquisition of Heissmann GmbH in 2007. A significant percentage of the liabilities represent the grandfathered pension benefit for associates hired prior to a July 1991 plan amendment. The pension plan for those hired after July 1991 is a defined contribution type arrangement. In the Netherlands, the pension benefit is a percentage of service and average salary over the working life of the associate, where salary includes allowances and bonuses up to a set maximum salary and is offset by the current social security benefit. The benefit liability is reflected on the balance sheet. The measurement date for each of the plans is June 30.

The legacy Towers Perrin pension plans in the United States accrue benefits under a cash-balance formula for associates hired or rehired after 2002 and for all associates for service after 2007. For associates hired prior to 2003 and active as of January 2003, benefits prior to 2008 are based on a combination of a cash balance formula, for the period after 2002, and a final average pay formula based on years of plan service and the highest five consecutive years of plan compensation prior to 2008. Under the cash balance formula benefits are based on a percentage of each year of the associate s plan compensation. The Canadian Retirement Plan provides a choice of a defined benefit approach or a defined contribution approach. The non-qualified plans in North America provide for pension benefits that would be covered under the qualified plan in the respective country but are limited by statutory maximums. The non-qualified plans have no assets and therefore are unfunded arrangements. The U.K. Plan provides predominantly lump sum benefits. Benefit accruals under the U.K. Plan ceased on March 31, 2008. The plans in Germany mostly provide benefits under a cash balance benefit formula. Benefits under the Netherlands plan accrue on a final pay basis on earnings up to a maximum amount each year. The benefit assets and liabilities are reflected on the balance sheet. The measurement date for each of the plans has historically been December 31, but has been changed to June 30 as a result of the Merger. The determination of our pension benefit obligations and related benefit expense under the plans is based on a number of assumptions that, given the longevity of the plans, are long-term in focus. A change in one or a combination of these assumptions could have a material impact on our pension benefit obligation and related expense. For this reason, management employs a long-term view so that assumptions do not change frequently in response to short-term volatility in the economy. Any difference between actual and assumed results is amortized into our pension expense over the average remaining service period of participating associates. We consider several factors prior to the start of each fiscal year when determining the appropriate annual assumptions, including economic forecasts, relevant benchmarks, historical trends, portfolio composition and peer comparisons.

The compensation committee of our board of directors approved an amendment to the terms of the existing U.S. qualified and non-qualified defined benefit pension plans, postretirement benefit plans and defined contribution plans which was communicated in September 2010. Effective December 31, 2010, the existing U.S. qualified and non-qualified pension plans have been frozen to new participants, and benefit accruals will be frozen under the current benefit formulas effective December 31, 2011. New pension benefits will accrue beginning on January 1, 2012 under a new stable value pension design for qualified and non-qualified pension plans maintained for U.S. associates, including U.S. named executive officers. Retiree medical benefits provided under our U.S. postretirement benefit plans will be frozen to new hires effective January 1, 2011. Life insurance benefits under the same plans will be frozen

with respect to service, eligibility and amounts as of January 1, 2012 for active associates. As a result of these changes to the U.S. pension and post-retirement benefit plans, there were remeasurements of the legacy Watson Wyatt U.S. plans and the legacy Towers Perrin post-retirement benefit plan as of September 30, 2010. The legacy Towers Perrin pension plan was not required to be remeasured due to the plan design.

Assumptions Used in the Valuations of the Defined Benefit Pension Plans

The following assumptions were used in the valuations of Towers Watson's defined benefit pension plans. The assumptions presented for the North American plans represent the weighted-average of rates for all U.S. and Canadian plans. The assumptions presented for Towers Watson's European plans represent the weighted-average of rates for the U.K., Germany and Netherlands plans. In relation to the acquisition of Towers Perrin on January 1, 2010, the legacy plans of Towers Perrin have been included in the assumptions as of and for the year ended June 30, 2010. The assumptions as of and for the years ended June 30, 2009 and 2008 represent only the legacy Watson Wyatt plans.

36

Table of Contents

The assumptions used to determine net periodic benefit cost for the fiscal years ended June 30, 2010, 2009 and 2008 were as follows:

	Year Ended June 30,					
	2010		2009		2008	
	North		North		North	
	America	Europe	America	Europe	America	Europe
Discount rate	6.43%	6.03%	6.91%	6.47%	6.25%	5.72%
Expected long-term rate of						
return on assets	8.11%	6.48%	8.61%	6.53%	8.61%	6.74%
Rate of increase in						
compensation levels	3.93%	5.09%	4.08%	5.36%	3.84%	4.73%

The following table presents the assumptions used in the valuation to determine the projected benefit obligation for the fiscal years ended June 30, 2010 and 2009:

	June 30, 2010		June 30, 2009	
	North		North	
	America	Europe	America	Europe
Discount rate	5.86%	5.25%	7.21%	6.29%
Rate of increase in compensation levels	3.88%	3.88%	3.29%	5.15%

For the 2011 fiscal year, the discount rate used to determine net periodic benefit cost was initially based on the rates in the table shown above for the determination of the projected benefit obligation as of June 30, 2010, which included a 5.86% rate for North America. As a result of plan changes adopted during the first quarter of fiscal year 2011, the legacy Watson Wyatt U.S. Pension Plans were remeasured as of September 30, 2010. Upon remeasurement the discount rate assumption was changed for these plans and the net periodic benefit cost for the 2011 fiscal year is now calculated using a weighted average discount rate of 5.79% for North America.
