### CHAMPION ENTERPRISES, INC. REPORTS THIRD QUARTER RESULTS

#### EARNINGS OF \$0.05 PER DILUTED SHARE

Auburn Hills, Mich., October 17, 2001--Champion Enterprises, Inc. (NYSE: CHB), the nation's leading housing manufacturer, today reported income of \$2.5 million, or \$0.05 per diluted share, for the third quarter ended September 29, 2001. In last year's comparable quarter, Champion had a net loss of \$4 million, or \$0.08 per diluted share. Revenues were \$428 million in this year's third quarter, off 8% from \$466 million a year ago.

For the year-to-date period, the company had revenues of \$1.2 billion and a net loss of \$23 million, or \$0.48 per diluted share, including costs related to closing four homebuilding facilities and 30 sales centers. These closing-related expenses totaled \$5.4 million after tax (\$0.11 per diluted share), including \$4.0 million for non-cash asset impairment charges. For the first nine months of 2000, consolidated revenues were \$1.5 billion and net income was \$150,000. Included in prior year-to-date results were \$2.8 million after tax (\$0.06 per diluted share) for asset impairment charges and lease termination and other costs.

Champion's Chairman, President, and Chief Executive Officer, Walter R. Young, commented, "We're pleased with the earnings and leverage of our manufacturing operations and excited about our Genesis platform. We are also encouraged by the progress in our retail operations, where company store traffic has steadily improved since dropping on September 11th. Retail traffic and contract closings in early October are approaching pre-attack levels."

#### Operations

For the quarter ended September 29, 2001, manufacturing margins as a percent of revenues improved to 7.2% from 3.9% in last year's third quarter on a 4% decrease in sales. The company had manufacturing revenues of \$362 million and segment income of \$25.9 million, compared

to revenues of \$378 million and segment income of \$14.7 million a year earlier. Prior year results include a \$2.5 million gain from a property insurance settlement and \$1.0 million of impairment charges for a closed homebuilding facility. For the year-to-date period in 2001, manufacturing revenues totaled \$974 million and segment income was \$34.8 million, including \$3.3 million of fixed asset impairment charges. Unfilled wholesale orders for housing at quarter end totaled approximately \$54 million, twice as high as the \$27 million level a year ago. The company now operates 49 plants, down from 55 at September 2000.

Retail operations had revenues of \$120 million for the third quarter of 2001 and a loss of \$6.1 million. Current quarter results include a \$3.7 million charge for potential losses on loans and transition costs for alternative financing sources. These charges resulted from a recent discovery of not applying internal procedures for originating loans. In the comparable quarter a year ago, revenues were \$149 million and the segment reported a loss of \$3.4 million. Prior year quarterly results include \$2.2 million for closing and consolidating sales centers. Year-to-date the segment reported revenues of \$357 million and a loss of \$22.7 million, including \$3.2 million for fixed asset impairment charges, \$2.2 million for lease termination and other costs and the \$3.7 million for potential losses on loans. At quarter end Champion's 229 company-owned stores

## Edgar Filing: CHAMPION ENTERPRISES INC - Form 8-K

had an average inventory of 13 new homes per location, down from 18 homes at the 270 locations operated last September.

### Liquidity and Capital Structure

Champion ended the quarter with \$66 million in cash, no bank borrowings and total debt of \$294 million. Cash flow from operations was \$37 million for the quarter and \$65 million for the nine-month period. Year-to-date, \$5 million was spent on capital expenditures, down from \$13 million in the comparable period a year ago. Capital expenditures in 2001 are expected to be less than \$7 million for the year, down from \$15 million in 2000. Since December 2000, \$47 million was used to reduce debt.

In July 2001, Champion improved its capital structure and short-term liquidity by issuing \$20 million of convertible preferred stock and restructuring its liability for deferred purchase price related to a 1998 retail acquisition. In addition, as a result of the company's ongoing efforts to reduce inventories and to diversify its floor plan payables, Champion currently has \$49 million outstanding with Conseco Finance and \$19 million with other finance sources. The company also reported that it has renegotiated its bank covenants to allow for performance flexibility.

### Outlook

Young continued, "The potential effect of economic uncertainty on industry demand and repossessions has caused us to revise our 2002 estimates. We now predict that industry new home retail sales and shipments for next year will be 200,000 homes. These amounts will represent a 7% decrease in new retail sales and a 3% increase in production. We estimate that next year's industry repossessions will be 90,000 homes, comparable to our estimate for this year.

"Our efforts to reduce expenses, capacity, inventories and debt contributed to this quarter's profitability and better position us for the months ahead. We remain concerned about the seasonally slower fourth and first quarters, particularly with the uncertainty surrounding the economy. As a result we estimate that in the fourth quarter we will probably have a loss in the range of \$0.07 to \$0.12 per diluted share, but expect to be profitable next year even at the lower industry levels now forecasted," Young concluded.

Champion Enterprises, Inc., headquartered in Auburn Hills, Michigan, is the industry's leading manufacturer and has produced more than 1.5 million homes since the company was founded. The company operates 49 homebuilding facilities and 229 retail locations. Champion's homes are also sold by more than 1,000 independent retail locations that have joined either the Champion Home Center or the Alliance of Champions retail distribution networks.
