We have audited the accompanying statement of net assets available for benefits of Universal Forest Products, Inc. Employees' Profit Sharing and 401(k) Retirement Plan as of December 31, 2001, and the related statement of changes in net assets available for benefits for the year then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan at December 31, 2001, and the changes in its net assets available for benefits for the year then ended, in conformity with accounting principles generally accepted in the United States.

Edgar Filing: UNIVERSAL FOREST PRODUCTS INC - Form 11-K

Our audit was performed for the purpose of forming an opinion on the financial statements taken as a whole. The accompanying supplemental schedule of assets (held at end of year) as of December 31, 2001, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in our audit of the financial statements and, in our opinion, is fairly stated in all material respects in relation to the financial statements taken as a whole.

Universal Forest Products, Inc. Employees' Profit Sharing
and 401(k) Retirement Plan

Notes to Financial Statements

December 31, 2001 and 2000

1. SIGNIFICANT ACCOUNTING POLICIES

BASIS OF ACCOUNTING

The financial statements of the Universal Forest Products, Inc. Employees' Profit Sharing and 401(k) Retirement Plan (the Plan) are presented on the accrual method of accounting.

USE OF ESTIMATES

The preparation of financial statements in accordance with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect reported amounts. Although actual results could differ from these estimates, management believes estimated amounts recorded are reasonable and appropriate.

INVESTMENTS

The Plan's investments are generally stated at fair value, which are, where information is available, based on quoted market values. Investment transactions are recorded as of the settlement dates. Net appreciation or depreciation in the fair value of investments is determined using the beginning of the year value or purchase price if acquired during the year.

The Plan utilizes various investment instruments. Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amount reported in the statements of net assets available for benefits.

ADMINISTRATIVE EXPENSES

Edgar Filing: UNIVERSAL FOREST PRODUCTS INC - Form 11-K

Administrative expenses incurred in connection with the operations of the Plan are deducted from the amount of the total annual discretionary contribution approved by the Company's Board of Directors excluding loan fees which are paid out of participant's accounts.

1. SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

TRANSFERS TO ANOTHER QUALIFIED PLAN

Certain participants transferred their account balances from the Plan to the Shoffner Industries, LLC 401(k) Plan. Universal Forest Products Shoffner LLC is part of the Universal Forest Products, Inc. controlled group, therefore, the transaction was accounted for as a transfer rather than a distribution.

RECLASSIFICATION

Certain amounts reported in 2000 have been reclassified to conform with the presentation used in 2001.

2. DESCRIPTION OF THE PLAN

The following description of the Plan provides only general information. Participants should refer to the Plan agreement, as amended, for a more complete description of the Plan's provisions.

The Plan is a defined contribution, profit sharing and 401(k) plan providing tax deferred benefits for substantially all eligible employees of Universal Forest Products, Inc. (the Company), excluding the employees of separate subsidiaries that maintain a similar defined contribution plan and those covered under a collective bargaining agreement. Eligible employees are those who are 21 years or older and have completed 1,000 hours of employment (year of service) during the 12-month period following date of employment or, where additional periods are necessary, on succeeding anniversaries of his or her employment commencement date.

Participants may at their election contribute from 1% to 15% of their compensation as a 401(k) contribution subject to certain regulatory limitations. Participant contributions to the Plan are 100% vested.

2. DESCRIPTION OF THE PLAN

The Company may contribute a discretionary amount annually determined by management and approved by the Company's Board of Directors. The Company's annual profit sharing contributions are allocated to each participant's account in an amount equal to 5.7% of the sum of each participant's total compensation plus compensation that is in excess of the Social Security Integration Level for the plan year. If the employer does not contribute such amount for all participants, an amount shall be allocated to each participant's account equal to the same proportion that each participant's total compensation plus compensation in excess of the Social Security Integration Level for the plan year bears to the total compensation plus compensation in excess of the Social Security Integration Level of all participants in the Plan. Remaining contributions, if any, shall be allocated to each participant's account in the same proportion that the participant's compensation for the plan year bears to the total compensation of all participants for such year.

Additionally, the Company made quarterly matching contributions of \$.50 for each \$1.00 contributed by participants in the current and prior years. The basis for matching contributions may not exceed the lessor of 6% of the participant's annual compensation or the amount permitted by the Internal Revenue Code (IRC). This amount is not guaranteed, may vary from year to year and the Company is not obligated to make such contributions.

Each participant's account is credited with the participants' contribution, an allocation of the Company's net contribution, if any, plan earnings and losses and forfeitures. Earnings allocations are based on account balances, as defined.

Employer contributions are subject to a seven-year vesting schedule as follows:

Years of Service -----	Vesting Percentage -----
Less than 3	0%
3 but less than 4	20
4 but less than 5	40
5 but less than 6	60
6 but less than 7	80
7 or more	100

2. DESCRIPTION OF THE PLAN (CONTINUED)

Participants may borrow from their account a minimum of \$1,000 up to a maximum equal to the lessor of \$50,000 or 50% of their vested account balance. Loan transactions are a general investment of the Plan. Loan terms range from one to five years or up to twenty-five years for the purchase of a residence. The loans bear interest at a rate equal to the prime rate (4.75% at December 31, 2001)

Edgar Filing: UNIVERSAL FOREST PRODUCTS INC - Form 11-K

plus 2% calculated on a quarterly basis. A participant may only have five loans outstanding at any time and one new loan for every twelve-month period.

The vested portion of terminated and retired participants' accounts are normally distributed immediately following a separation from service. As of December 31, 2001 and 2000, net assets available for benefits includes liabilities for benefits to be distributed in the succeeding fiscal year to terminated and retired participants of approximately \$29,000 and \$38,000, respectively.

The plan sponsor intends to continue the Plan indefinitely, but reserves the right to terminate or amend the Plan at any time. In the event of termination of the Plan, all participants are automatically 100% vested in the value of their accounts and will be paid in full.

3. INVESTMENTS
