**Item 2.05 Costs Associated with Exit or Disposal Activities**

Superior Industries International, Inc. issued a press release on February 1, 2006, announcing that it is restructuring its manufacturing facility in Van Nuys, California that will result in a lay off of approximately 375 of the total 635 manufacturing employees. The Company's corporate offices and 125 corporate staff, which are also located at this facility, will not be affected by this downsizing. Steven Borick, President and Chief Executive Officer, indicated that going forward, the Van Nuys facility would concentrate on specialty wheel operations. He also mentioned that this is the latest step in the Company's program to rationalize plant production capacity to more effectively balance plant utilization and location against customers' changing requirements. The Company expects to incur severance and other costs related to the layoffs of approximately \$1.5 million in 2006. Impairment charges, if any, associated with the downsizing of the Van Nuys facility will be recorded as a charge against earnings in the fourth quarter of 2005. At December 31, 2005, the net book value of the manufacturing assets of the Van Nuys facility was approximately \$35 million.
