

ARBITRON INC  
Form 10-Q  
August 03, 2007

**UNITED STATES  
SECURITIES AND EXCHANGE COMMISSION  
Washington, DC 20549**

**FORM 10-Q**

**Quarterly Report Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934  
For the quarterly period ended June 30, 2007**  
**Or**

**Transition Report Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934  
For the transition period from \_\_\_\_\_ to \_\_\_\_\_**

**Commission file number: 1-1969**

**ARBITRON INC.**

(Exact name of registrant as specified in its charter)

**Delaware**

(State or other jurisdiction of  
incorporation or organization)

**52-0278528**

(I.R.S. Employer Identification No.)

**142 West 57<sup>th</sup> Street**

**New York, New York 10019-3000**

(Address of principal executive offices) (Zip Code)

**(212) 887-1300**

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes  No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer. See definition of "accelerated filer and large accelerated filer" in Rule 12b-2 of the Exchange Act.

Large Accelerated Filer  Accelerated Filer  Non-Accelerated Filer

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).  
Yes  No

The registrant had 29,835,206 shares of common stock, par value \$0.50 per share, outstanding as of July 30, 2007.

**ARBITRON INC.**

Notes to Consolidated Financial Statements

June 30, 2007

(unaudited)

**1. Basis of Presentation and Consolidation**

***Presentation***

The accompanying unaudited consolidated financial statements of Arbitron Inc. (the Company or Arbitron) have been prepared in accordance with U.S. generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by U.S. generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments considered necessary for fair presentation have been included and are of a normal recurring nature. Certain amounts in the financial statements for prior periods have been reclassified to conform to the current period's presentation. The consolidated balance sheet as of December 31, 2006 was audited at that date, but all of the information and footnotes as of December 31, 2006 required by U.S. generally accepted accounting principles have not been included in this Form 10-Q. For further information, refer to the consolidated financial statements and footnotes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2006.

***Consolidation***

The consolidated financial statements of Arbitron reflect the consolidated financial position, results of operations and cash flows of Arbitron Inc. and its subsidiaries: Arbitron Holdings Inc., Audience Research Bureau S.A. de C.V., Ceridian Infotech (India) Private Limited, CSW Research Limited, Euro Fieldwork Limited, and Arbitron International, LLC. All significant intercompany balances have been eliminated in consolidation.

**2. New Accounting Pronouncements**

In July 2006, the Financial Accounting Standards Board (FASB) issued FASB Interpretation (FIN) 48, *Accounting for Uncertainty in Income Taxes* (FIN 48), an interpretation of FASB Statement No. 109, *Accounting for Income Taxes*. FIN 48 clarifies the accounting for uncertainty in income taxes by prescribing the recognition threshold a tax position is required to meet before being recognized in the financial statements. The Company adopted FIN 48, effective January 1, 2007. The impact of applying FIN 48 to the Company's consolidated financial statements was immaterial. For further disclosure, see Note 12-Taxes.

Effective December 31, 2006, the Company adopted Statement of Financial Accounting Standards (SFAS) No. 158, *Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans* (SFAS No. 158). Arbitron currently measures plan assets and benefit obligations as of September 30 each year. In accordance with the provisions of SFAS No. 158, the measurement date will be required to be as of the date of the Company's fiscal year-end statement of financial position effective for fiscal years ending after December 15, 2008.

In September 2006, the FASB issued SFAS No. 157, *Fair Value Measurements* (SFAS No. 157), which defines fair value, establishes guidelines for measuring fair value and expands disclosures regarding fair value measurements. SFAS No. 157 does not require any new fair value measurements but rather eliminates inconsistencies in guidance found in various prior accounting pronouncements. SFAS No. 157 is effective for fiscal years beginning after November 15, 2007. The management of the Company is evaluating the impact of SFAS No. 157, but does not currently expect the adoption of SFAS No. 157, effective January 1, 2008, to have a material impact on the Company's consolidated financial statements.

In February 2007, the FASB issued SFAS No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities* ( SFAS No. 159 ), which permits companies to choose to measure many financial instruments and certain other items at fair value that are not currently required to be measured at fair value. SFAS No. 159 is effective for fiscal years beginning after November 15, 2007. The management of the Company is evaluating the potential impact of SFAS No. 159 on the Company's consolidated financial statements.

### **3. Long-term Debt**

On October 18, 2006, the Company prepaid its outstanding senior-secured notes obligation using \$50.0 million of its available cash and short-term investments. Under the original terms of the note agreement, the notes carried a fixed interest rate of 9.96% and a maturity date of January 31, 2008.

On December 20, 2006, the Company entered into an agreement with a consortium of lenders to provide up to \$150.0 million of financing to the Company through a five-year, unsecured revolving credit facility (the 2006 Credit Facility ). The agreement contains an expansion feature for the Company to increase the financing available under the 2006 Credit Facility up to \$200.0 million. As of June 30, 2007, no borrowings had been made under the 2006 Credit Facility. As of June 30, 2007, and December 31, 2006, the Company was in compliance with the terms of its 2006 Credit Facility.

Although the Company had no borrowings under the 2006 Credit Facility as of June 30, 2007, if a default occurs on future borrowings, either because Arbitron is unable to generate sufficient cash flow to service the debt or because Arbitron fails to comply with one or more of the restrictive covenants, the lenders could elect to declare all of the then outstanding borrowings, as well as accrued interest and fees, to be immediately due and payable. In addition, a default could result in the application of higher rates of interest on any amounts due.

Interest paid during each of the six-month periods ended June 30, 2007, and 2006 was approximately \$0.1 million and \$1.2 million, respectively. Noncash amortization of deferred financing costs classified as interest expense during the three month periods ended June 30, 2007, and 2006, were each less than \$0.1 million. Noncash amortization of deferred financing costs classified as interest expense during the six-month periods ended June 30, 2007 and 2006, was less than \$0.1 million and \$0.1 million, respectively.

**4. Stockholders Equity**

Changes in stockholders equity for the six months ended June 30, 2007, were as follows (in thousands):

	Shares	Common	Treasury	Additional	Net Distributions to Ceridian in Excess of	Retained	Accumulated	Total
	Outstanding	Stock	Stock	Paid-In Capital	Accumulated Earnings	Earnings Subsequent to Spin-off	Other Compre- hensive Loss	Stock- holders Equity
Balance as of December 31, 2006	29,692	\$16,169	\$(1,323)	\$53,598	\$(239,042)	\$266,905	\$(7,051)	\$ 89,256
Net income						19,283		19,283
Common stock issued	427		213	10,901				11,114
Stock repurchased	(107)		(53)	(5,122)				(5,175)
Excess tax benefit from stock option exercises				1,483				1,483
Non-cash compensation				3,473				3,473
Dividends declared						(6,035)		(6,035)
Other comprehensive income							348	348
Balance as of June 30, 2007	30,012	\$16,169	\$(1,163)	\$64,333	\$(239,042)	\$280,153	\$(6,703)	\$113,747

A quarterly cash dividend of \$0.10 per common share was paid to stockholders on July 2, 2007.

**5. Short-term Investments**

Short-term investments as of June 30, 2007, and December 31, 2006, consisted of \$38.9 million and \$27.6 million, respectively, in municipal and other government-issued variable-rate demand notes and auction-rate securities recorded by the Company at fair value. All of the Company's short-term investment assets are classified as available-for-sale securities in accordance with SFAS No. 115, *Accounting for Certain Investments in Debt and Equity*

*Securities.*

For the three months ended June 30, 2007 and 2006, gross purchases of available-for-sale securities were \$47.0 million and \$54.1 million, respectively, and gross proceeds from sales of available-for-sale securities were \$47.5 million and \$92.6 million for the three months ended June 30, 2007 and 2006, respectively.

For the six months ended June 30, 2007 and 2006, gross purchases of available-for-sale securities were \$140.2 million and \$276.6 million, respectively, and gross proceeds from sales of available-for-sale securities were \$129.0 million and \$309.2 million for the six months ended June 30, 2007 and 2006, respectively.

## 6. Inventory

Inventory as of June 30, 2007, and December 31, 2006, consisted of \$2.3 million and \$3.8 million, respectively, of Portable People Meter™ equipment held for resale to international licensees of the PPM™ service. The inventory is accounted for on a first-in, first-out (FIFO) basis.

## 7. Net Income Per Weighted-Average Common Share

The computations of basic and diluted net income per weighted-average common share for the three and six months ended June 30, 2007 and 2006, are based on Arbitron's weighted-average shares of common stock and potentially dilutive securities outstanding.

Potentially dilutive securities are calculated in accordance with the treasury stock method, which assumes that the proceeds from the exercise of all stock options are used to repurchase the Company's common stock at the average market price for the period. As of June 30, 2007, and 2006, there were options to purchase 1,929,584 and 2,514,252 shares of the Company's common stock outstanding, of which options to purchase 13,291 and 1,427,187 shares of the Company's common stock, respectively, were excluded from the computation of diluted net income per weighted-average common share, either because the options' exercise prices were greater than the average market price of the Company's common shares or assumed repurchases from proceeds from the options' exercise were potentially antidilutive. The Company elected to use the short-cut method of determining its initial hypothetical tax benefit windfall pool and, in accordance with provisions under SFAS No. 123R, *Share Based Payment*, ( SFAS No. 123R ) the assumed proceeds associated with the entire amount of tax benefits for share-based awards granted prior to SFAS No. 123R adoption were used in the diluted shares computation. For share-based awards granted subsequent to the January 1, 2006 SFAS No. 123R adoption date, the assumed proceeds for the related excess tax benefits were used in the diluted shares computation.

On November 16, 2006, Arbitron announced that its Board of Directors had authorized a program to repurchase up to \$100.0 million of its outstanding common stock through either periodic open-market or private transactions at then-prevailing market prices over a period of two years through December 31, 2008. As of June 30, 2007, 106,600 shares of the Company's common stock were repurchased under this program for \$5.2 million.

## 8. Contingencies

The Company is involved, from time to time, in litigation and proceedings arising in the ordinary course of business. Legal costs for services rendered in the course of these proceedings are charged to expense as they are incurred.

During 2005, the Pennsylvania Department of Revenue concluded a sales tax audit of the Company and notified the Company of an assessment of \$3.6 million, including outstanding sales tax and accumulated interest since 2001. Since 2005, the assessment has increased due to additional interest to \$3.9 million as of June 30, 2007.

Currently, the Company continues to contest the assessment in its entirety. Consistent with the findings of a previous Pennsylvania sales tax audit of the Company, the Company contends that it continues to provide nontaxable services to its Pennsylvania customers and intends to vigorously defend this position during the appeals process. The Commonwealth of Pennsylvania has denied the Company's administrative appeals, and the dispute was submitted to the Commonwealth Court of Pennsylvania for consideration. Currently, the Company is discussing settlement options with the Office of Attorney General in an effort to avoid protracted litigation and the related costs and has offered to settle the disputed matter. As of June 30, 2007, the Office of Attorney General has not yet responded to the Company's offer.

Given the nature of this uncertainty, and the pending settlement offer, \$0.5 million was recognized during the quarter ended June 30, 2007, in accordance with FAS No. 5 Accounting for Contingencies.

## 9. Comprehensive Income and Accumulated Other Comprehensive Loss

The Company's comprehensive income is comprised of net income, changes in foreign currency translation adjustments, and changes in defined benefit plan liabilities, net of tax (expense) benefits. The components of comprehensive income were as follows (in thousands) :

	Three Months Ended June 30,		Six Months Ended June 30,	
	2007	2006	2007	2006
Net income	\$ 3,788	\$ 7,360	\$ 19,283	\$ 25,546
Other comprehensive income:				
Change in foreign currency translation adjustment, net of tax expense of \$35 and \$76 for the three months ended June 30, 2007 and 2006, respectively; and \$43 and \$89 for the six months ended June 30, 2007 and 2006, respectively	56	123	68	145
Change in defined benefit plan liabilities, net of tax expense of \$175 and \$171 for the three and six months ended June 30, 2007, respectively	276		280	
Other comprehensive income	332	123	348	145
Comprehensive income	\$ 4,120	\$ 7,483	\$ 19,631	\$ 25,691

The components of accumulated other comprehensive loss were as follows (in thousands):

	June 30, 2007	December 31, 2006
Foreign currency translation adjustment	\$ 408	\$ 340
Defined benefit plan liabilities	(7,111)	(7,391)
Accumulated other comprehensive loss	\$ (6,703)	\$ (7,051)

Effective December 31, 2006, the Company adopted Statement of Financial Accounting Standards No. 158, *Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans*, an amendment of FASB Statements No. 87, 88, 106, and 132 (R) ( SFAS No. 158 ). The provisions of SFAS No. 158 require that the funded status of the Company's pension plans and the benefit obligations of the Company's post-retirement benefit plans be recognized in the Company's balance sheet. Appropriate adjustments were made to various assets and liabilities as of December 31, 2006, with an offsetting after-tax effect of \$7.1 million recorded as a component of other comprehensive income rather than as an adjustment to the ending balance of accumulated other comprehensive income.

Excluding the impact of the adoption of SFAS No. 158, total other comprehensive income for the year ended December 31, 2006 was \$54.1 million after-tax, compared with the reported other comprehensive income of \$47.0 million after-tax. The presentation of other comprehensive income for the year ended December 31, 2006 will be revised to exclude the impact of the adoption of SFAS No. 158 in the Company's Annual Report on Form 10-K for the year ending December 31, 2007.

**10. Investment in Affiliates**

Investment in affiliates consists of the Company's 49.5% interest in Scarborough Research ( Scarborough ), a syndicated, qualitative local market research partnership, and the Company's 50.0% interest in Project Apollo LLC ( Project Apollo ), a national marketing panel service pilot jointly owned by the Company and Nielsen Media Research. On February 1, 2007, the Company announced the formation of Project Apollo. Project Apollo's objective is to test a proposed service that would provide multimedia exposure data combined with sales data from a single source to produce a measure of advertising effectiveness. The following table shows the investment activity for each of the Company's affiliates and in total for 2007: (Note: Scarborough was the only affiliate owned by the Company during 2006.)

**Summary of Investment Activity in Affiliates (in thousands)**

	<b>Three Months Ended June 30, 2007</b>			<b>Six Months Ended June 30, 2007</b>		
	Scarborough	Project Apollo	Total	Scarborough	Project Apollo	Total

## 11. Retirement Plans

Certain of Arbitron's United States employees participate in a defined-benefit pension plan that closed to new participants effective January 1, 1995. Arbitron subsidizes healthcare benefits for eligible retired employees who participate in the pension plan and were hired before January 1, 1992. Arbitron also sponsors two nonqualified, unfunded supplemental retirement plans.

In September 2006, the FASB issued SFAS No. 158, *Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans*, (SFAS No. 158) which required the Company to recognize the underfunded status of its defined-benefit plans as a liability on the balance sheet as of December 31, 2006, and to recognize any changes in that funded status through comprehensive income. Arbitron currently measures plan assets and benefit obligations as of September 30 each year. Effective for fiscal years ending after December 15, 2008, the measurement date, in accordance with the provisions of SFAS No. 158, will be required to be as of the date of the Company's fiscal year-end statement of financial position.

The components of periodic benefit costs for the defined-benefit pension plan and postretirement plan were as follows (in thousands):

	<b>Defined-Benefit Pension Plan Three Months Ended June 30,</b>		<b>Postretirement Plan Three Months Ended June 30,</b>		<b>Supplemental Retirement Plans Three Months Ended June 30,</b>	
	<b>2007</b>	<b>2006</b>	<b>2007</b>	<b>2006</b>	<b>2007</b>	<b>2006</b>
	Service cost	\$ 218	\$ 242	\$ 9	\$ 8	\$ 32
Interest cost	445	413	21	17	52	40
Expected return on plan assets	(552)	(494)				
Amortization of prior service cost	5	5			(5)	(5)
Amortization of net loss	166	180	11	5	48	30
Net periodic benefit cost	\$ 282	\$ 346	\$ 41	\$ 30	\$ 127	\$ 72

	<b>Defined-Benefit Pension Plan Six Months Ended June 30,</b>		<b>Postretirement Plan Six Months Ended June 30,</b>		<b>Supplemental Retirement Plans Six Months Ended June 30,</b>	
	<b>2007</b>	<b>2006</b>	<b>2007</b>	<b>2006</b>	<b>2007</b>	<b>2006</b>
	Service cost	\$ 435	\$ 483	\$ 18	\$ 17	\$ 65
Interest cost	890	826	42	33	105	81
Expected return on plan assets	(1,103)	(988)				
Amortization of prior service cost	11	11			(11)	(11)
Amortization of net loss	331	359	23	10	96	64
Net periodic benefit cost	\$ 564	\$ 691	\$ 83	\$ 60	\$ 255	\$ 177

Arbitron estimates that it will contribute \$2.4 million in 2007 to these defined-benefit plans.

## 12. Taxes

On January 1, 2007, Arbitron adopted the provisions of FASB Interpretation No. 48 ( FIN 48 ), *Accounting for Uncertainty in Income Taxes*. In applying FIN 48, the Company assessed all material positions taken on income tax returns for years through December 31, 2006, that are still subject to examination by relevant taxing authorities. As of the date of adoption, the Company's unrecognized tax benefits totaled \$0.7 million. If recognized, the \$0.7 million would reduce the Company's effective tax rate in future periods.

The Company files numerous income tax returns, primarily in the United States, including federal, state, and local jurisdictions, and certain foreign jurisdictions. Tax years ended December 31, 2003 through December 31, 2006, remain open for assessment by the Internal Revenue Service. Generally, the Company is not subject to state, local, or foreign examination for years prior to 2002. However, tax years 1989 through 2001 remain open for assessment for certain state taxing jurisdictions where net operating loss ( NOL ) carryforwards were utilized on the income tax returns since 2002. The Company accrues potential interest and penalties and recognizes income tax expense where, under relevant tax law, interest and penalties would be assessed if the uncertain tax position ultimately were not sustained.

Management determined it is reasonably possible that certain unrecognized tax benefits as of the date of adoption will decrease during the subsequent 12 months due to the expiration of statutes limitations and due to the settlement of certain state audit examinations. The estimated decrease in these unrecognized federal tax benefits and the estimated decrease in unrecognized tax benefits from various states are both immaterial.

Income taxes paid for the six months ended June 30, 2007 and 2006, were \$12.7 million and \$15.0 million, respectively.

### 13. Share-Based Compensation

The following table sets forth information with regard to the income statement recognition of share-based compensation:

	<b>Three Months Ended June 30, 2007</b>	<b>Three Months Ended June 30, 2006</b>	<b>Six Months Ended June 30, 2007</b>	<b>Six Months Ended June 30, 2006</b>
Cost of revenue	\$ 182	\$ 182	\$ 316	\$ 313
Selling, general and administrative	1,852	2,047	2,941	3,238
Research and development	139	126	216	224
Share-based compensation	\$ 2,173	\$ 2,355	\$ 3,473	\$ 3,775

There was no capitalized share-based compensation cost incurred during the three and six-month periods ended June 30, 2007, and 2006.

In some cases, the vesting of share-based awards is accelerated due to an employee's retirement. Prior to the adoption of SFAS No. 123R, the amount disclosed for the Company's pro forma compensation expense did not include an acceleration of expense recognition for retirement eligible employees. For share-based arrangements granted subsequent to the adoption of SFAS No. 123R, the Company accelerates expense recognition if retirement eligibility affects the vesting of the award. If the accelerated pro forma expense recognition had occurred prior to January 1, 2006, the share-based compensation expense for the three and six-month periods ended June 30, 2007, would have been lower by \$0.1 million and \$0.3 million, respectively, and for the same periods of 2006, would have been lower by \$0.3 million and \$0.6 million, respectively.

#### **Stock Options**

Stock options awarded to employees under the 1999 and 2001 Stock Incentive Plans (each individual plan referred to herein as a "SIP," and collectively as the "SIPs") generally vest annually over a three-year period, have five-year or 10-year terms and have an exercise price not less than the fair market value of the underlying stock at the date of grant. Stock options granted to directors under the 1999 SIP generally vest upon the date of grant, are generally exercisable in six months after the date of grant, have 10-year terms and have an exercise price not less than the fair market value of the underlying stock at the date of grant. Certain option and share awards provide for accelerated vesting if there is a change in control of the Company (as defined in the SIPs).

The Company uses historical data to estimate option exercises and employee terminations in order to determine the expected term of the option; identified groups of optionholders that have similar historical exercise behavior are considered separately for valuation purposes. The expected term of options granted represents the period of time that such options are expected to be outstanding. The expected term can vary for certain groups of optionholders exhibiting different behavior. The risk-free rate for periods within the contractual life of the option is based on the U.S. Treasury strip bond yield curve in effect at the time of grant. Expected volatilities are based on the historical volatility of the Company's common stock.

The fair value of each option granted to employees and nonemployee directors during the six months ended June 30, 2007, was estimated on the date of grant using a Black-Scholes option valuation model. Those assumptions along with other data regarding the Company's stock options for the three and six months ended June 30, 2007, and 2006, are noted in the following table:

<b>Assumptions for options granted to employees and nonemployee directors</b>	<b>Three Months Ended June 30, 2007</b>	<b>Three Months Ended June 30, 2006</b>	<b>Six Months Ended June 30, 2007</b>	<b>Six Months Ended June 30, 2006</b>
Expected volatility	24.95 - 26.24%	27.22 - 27.35%	24.95 - 26.52%	27.22 - 27.35%
Expected dividends	1.00%	1.00%	1.00%	1.00%
Expected term (in years)	5.75 - 6.25	5.25 - 6.00	5.75 - 6.25	5.25 - 6.00
Risk-free rate	4.62 - 4.91%	4.96 - 5.07%	4.56 - 4.91%	4.37 - 5.07%
Weighted-average volatility	25.39%	27.34%	25.45%	27.33%
Weighted-average term (in years)	5.92	5.52	5.91	5.74
Weighted-average risk-free rate	4.62%	4.99%	4.62%	4.70%
Weighted-average grant date fair value	\$14.82	\$12.73	\$14.79	\$12.56

<b>Other data</b>	<b>Three Months Ended June 30, 2007</b>	<b>Three Months Ended June 30, 2006</b>	<b>Six Months Ended June 30, 2007</b>	<b>Six Months Ended June 30, 2006</b>
Options granted	151,291	158,522	158,610	299,113
Weighted average exercise price for options granted	\$ 48.26	\$ 40.09	\$ 48.15	\$ 39.51

As of June 30, 2007, there was \$2.5 million of total unrecognized compensation cost related to options granted under the SIPs. This aggregate unrecognized cost is expected to be recognized over a weighted-average period of 1.9 years. The weighted-average exercise price and weighted-average remaining contractual term for outstanding stock options as of June 30, 2007, was \$38.04 and 6.57 years, respectively. The total intrinsic value of options exercised during the three months ended June 30, 2007, and 2006, was \$2.7 million and \$0.7 million, respectively. The total intrinsic value of options exercised during the six months ended June 30, 2007, and 2006, was \$4.1 million and \$1.9 million, respectively.

#### ***Nonvested Share Awards***

The Company's nonvested share awards generally vest over four or five years on either a monthly or annual basis. Compensation expense is recognized on a straight-line basis using the market price on the date of grant as the awards vest. For the six months ended June 30, 2007, and 2006, the number of nonvested share awards granted was 113,233 and 79,482 shares, respectively, and the weighted-average grant date fair value was \$46.33 and \$38.88, respectively. The total fair value of share awards vested during the six months ended June 30, 2007, and 2006, was \$0.6 million and \$0.1 million, respectively. For the three months ended June 30, 2007, the number of nonvested share awards granted was 10,933 shares and the weighted average grant date fair value was \$48.25. There were no nonvested share awards granted during the three months ended June 30, 2006. The total fair value of share awards vested during the three months ended June 30, 2007, and 2006, was \$0.1 million and less than \$0.1 million, respectively. As of June 30, 2007, there was \$7.3 million of total unrecognized compensation cost related to nonvested share awards granted under the SIPs. This aggregate unrecognized cost for nonvested share awards is expected to be recognized over a weighted-average period of 3.1 years.

***Deferred Stock Units***

Deferred stock units granted to employees vest annually over a three-year period and are convertible to shares of common stock, subsequent to their termination of employment. Deferred stock units granted to nonemployee directors vest immediately upon grant and are convertible into shares of common stock subsequent to the directors' termination of service. For the six months ended June 30, 2007, the number of deferred stock units granted to employee and nonemployee directors was 21,667 and 2,384 shares, respectively. For the six months ended June 30, 2006, the number of deferred stock units granted to employee and nonemployee directors was 18,186 and 3,915 shares, respectively. The total fair value of deferred stock units that vested during the six months ended June 30, 2007, and 2006, was \$0.1 million and \$0.1 million, respectively. As of June 30, 2007, the total unrecognized compensation cost related to deferred stock units granted under the SIPs was \$1.5 million. The aggregate unrecognized cost as of June 30, 2007, is expected to be recognized over a weighted-average period of 2.5 years.

***Employee Stock Purchase Plan***

The Company's compensatory Employee Stock Purchase Plan ( ESPP ) provides for the issuance of up to 600,000 shares of newly issued or treasury common stock of Arbitron. The purchase price of the stock to ESPP participants is 85% of the lesser of the fair market value on either the first day or the last day of the applicable three-month offering period. The total amount of compensation expense recognized for ESPP share-based arrangements was \$0.1 million for each of the three-month periods ended June 30, 2007, and 2006, respectively. The number of ESPP shares issued during the three months ended June 30, 2007, and 2006, was 9,095 and 10,268 shares, respectively. The total amount of compensation expense recognized for ESPP share-based arrangements was \$0.2 million and \$0.1 million for the six-month periods ended June 30, 2007, and 2006, respectively. The number of ESPP shares issued during the six months ended June 30, 2007, and 2006, was 17,377 and 19,746 shares, respectively.

**14. Concentration of Credit Risk**

Arbitron's quantitative radio audience measurement service and related software sales, which are primarily provided to radio broadcasters, accounted for approximately 76% and 78% of the Company's revenue for the three months ended June 30, 2007, and 2006, and 86% and 87% for the six months ended June 30, 2007 and 2006, respectively. Arbitron had one customer that individually represented 19% of its revenue for the year ended December 31, 2006. Arbitron routinely assesses the financial strength of its customers and has experienced only nominal losses on its trade accounts receivable.

## ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion should be read in conjunction with Arbitron's consolidated financial statements and the notes thereto in this Quarterly Report on Form 10-Q.

### Forward-Looking Statements

This Quarterly Report on Form 10-Q contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. The statements regarding Arbitron Inc. and its subsidiaries ( we, our, Arbitron or the Company ) in this document that are not historical in nature, particularly those that utilize terminology such as may, will, should, likely, expects, anticipates, estimates, believes, or plans or comparable terms, are forward-looking statements based on current expectations about future events, which Arbitron has derived from information currently available to it. These forward-looking statements involve known and unknown risks and uncertainties that may cause our results to be materially different from results implied in such forward-looking statements. These risks and uncertainties include, in no particular order, whether we will be able to:

successfully implement the rollout of our Portable People Meter™ service;

renew contracts with large customers as they expire;

successfully execute our business strategies, including entering into potential acquisition, joint-venture or other material third-party agreements;

effectively manage the impact of any further ownership shifts in the radio and advertising agency industries;

respond to rapidly changing technological needs of our customer base, including creating new proprietary software systems and new customer products and services that meet these needs in a timely manner;

successfully manage the impact on our business of any economic downturn generally and in the advertising market in particular;

successfully manage the impact on costs of data collection due to lower respondent cooperation in surveys, privacy concerns, consumer trends, technology changes and/or government regulations;

successfully develop and implement technology solutions to measure multi-media and advertising in an increasingly competitive environment; and

successfully obtain and/or maintain Media Rating Council® accreditation for our audience measurement services.

Additional important factors known to Arbitron that could cause actual results to differ materially from our forward-looking statements are identified and discussed from time to time in Arbitron's filings with the Securities and Exchange Commission, including in particular the risk factors discussed under the caption ITEM 1A. RISK FACTORS in Arbitron's Annual Report on Form 10-K for the year ended December 31, 2006.

The forward-looking statements contained in this document speak only as of the date hereof, and Arbitron undertakes no obligation to correct or update any forward-looking statements, whether as a result of new information, future events or otherwise.

### Overview

Arbitron is an international media and marketing information services firm primarily serving radio, cable television, advertising agencies, advertisers, out-of-home media, online media and, through its Scarborough Research joint venture with The Nielsen Company, broadcast television and print media.

Arbitron currently provides four main services:

measuring radio audiences in local markets in the United States;

measuring national radio audiences and the audience size and composition of network radio programs and commercials;

providing application software used for accessing and analyzing media audience and marketing information data; and

providing consumer, shopping and media usage information services to radio, cable television, advertising agencies, advertisers, retailers, out-of-home media, online industries and, through its Scarborough Research joint venture with The Nielsen Company, broadcast television and print media.

### **Known Trends That Management Considers Material**

**Significant Concentrations.** Historically, the Company's quantitative radio measurement services and related software have accounted for a substantial majority of its total revenues. Consolidation in the radio broadcasting industry has led to a concentration of ownership of radio stations and, consequently, Arbitron's dependence on a limited number of key customers for such services and related software has increased. For the year ended December 31, 2006, Clear Channel Communications, Inc. ( Clear Channel ) and CBS Radio Inc. ( CBS Radio ) represented approximately 19 percent and nine percent, respectively, of Arbitron's total revenue. The Company's agreements with these customers are not exclusive and do not contain automatic renewal obligations.

On June 26, 2007 Arbitron entered into a new multi-year agreement with Clear Channel to provide PPM radio ratings and other related services to Clear Channel's 268 radio stations located in the 46 markets in which Clear Channel operates out of the 50 markets identified in the Company's previously announced PPM roll-out plan (we refer to the 46 markets in which Clear Channel operates that are included in the PPM roll-out plan, collectively, as the Clear Channel PPM Markets ). Pursuant to the terms of the agreement, Arbitron will provide Clear Channel with PPM ratings services, as and when the new audience ratings technology is deployed in the Clear Channel PPM Markets. Until such time as the PPM ratings technology is deployed in a particular market, the Company will continue to provide Clear Channel with its diary-based ratings services in that market. As the PPM ratings technology is deployed in a particular market, the diary-based ratings agreement will lapse and the new agreement will become applicable to such market. The new agreement also extends the diary-based ratings agreement in the Clear Channel PPM Markets that do not enter into PPM pre-currency prior to December 31, 2008 until such time as the PPM service is commercialized in those markets, but not later than December 31, 2011. The existing agreement between the Company and Clear Channel for diary-based ratings in markets outside of the Clear Channel PPM Markets is not amended by the new agreement and is currently scheduled to expire December 31, 2008.

On February 9, 2007, The Media Audit/Ipsos announced that they will receive funding from a number of broadcasters, including Clear Channel, to test their competing electronic ratings system in the Houston market.

In May 2006, Arbitron announced that it had entered into a license agreement with CBS Radio to provide diary-based services and PPM radio ratings to all of its stations, as the new ratings technology is deployed, through the first quarter of 2014.

Arbitron's quantitative radio audience measurement business and related software sales accounted for approximately 76% and 86% of its revenue for the three and six months ended June 30, 2007, respectively. The Company expects that for the year ended December 31, 2007, Arbitron's quantitative radio audience measurement business and related software sales will account for approximately 85% of its revenue, which is consistent with historic annual trends. Quarterly fluctuations in this percentage are reflective of the seasonal delivery schedule of the Company's radio audience measurement business.

**Electronic Measurement Initiatives.** Arbitron has begun execution of its plan to progressively roll out its PPM ratings service to the top 50 radio markets by the end of 2010. Measurement by the PPM service began in pilot mode in Houston in June 2005. In January 2007, the Houston methodology was accredited by the Media Rating Council ( MRC ). In July 2007, the PPM service replaced the diary-based service in Houston.

Edgar Filing: ARBITRON INC - Form 10-Q

A PPM panel was installed in Philadelphia beginning in August 2006. The Philadelphia PPM radio measurement data have been audited by the MRC. On the basis of the completion of this audit, the sharing of the audit results with the MRC's audit committee, and the completion of a two-month precurrency period for training and electronic measurement transition, the PPM service in Philadelphia replaced the diary service in April 2007. The Philadelphia PPM data are not yet accredited the process of obtaining accreditation continues. Commercialization of the remaining top 50 radio markets by the end of 2010 is currently on schedule with Arbitron's previously announced rollout plan.

Currently, approximately 26,000 panelists have been installed worldwide for PPM-supported services, including the PPM radio ratings service, and through the Project Apollo LLC ( Project Apollo ), a jointly owned limited liability company with Nielsen Media Research, Inc. to explore the feasibility of the commercialization of a national marketing service panel.

Commercialization of the PPM radio rating service and exploration of other strategic applications of the PPM technology, including the national marketing panel service, will require a substantial financial investment. Arbitron believes that during the PPM rollout period its costs and expenses will increase and substantial capital expenditures will be required. In addition, the management of Arbitron expects that, if the decision to commercialize the national market panel service is made, Arbitron's expenses will increase as a result of continued deployment costs associated with the national marketing panel service and the strategic development of its electronic ratings business.

Arbitron believes that, while commercialization of the PPM ratings service and other strategic applications of the PPM technology will have a near-term negative impact on its results of operations, which impact likely will be material, its operating margins can be restored through the completion of the PPM transition process in the top 50 radio markets, although there can be no assurance that this will be the case.

Arbitron announced in April 2007 that broadcasters in Iceland have selected the PPM system as the audience measurement currency system for both radio and television, making Iceland the first country to use the PPM system's multimedia measurement capabilities. The six-year contract was awarded to the Reykjavik-based research and consulting firm Capacent, supported by TNS Norway, through a competitive request for proposals for electronic audience measurement. Arbitron announced in June 2007 that the radio industry in Denmark selected the PPM system as its electronic audience measurement system. The five-year contract was awarded to TNS Gallup, an international licensee of the PPM technology. Beginning January 2008, a national panel of 750 Danish consumers will be equipped with the PPM device to collect overnight radio-listening data. Danish broadcasters will use the PPM data for commercial sales and program planning.

One of Arbitron's key corporate strategy objectives is to expand its information services to a broader range of media types, including broadcast television, cable, out-of-home media, satellite radio and television, Internet broadcasts and mobile media. On July 23, 2007, the MRC accredited the average-quarter-hour, time-period television ratings data produced by the PPM ratings service in Houston. The PPM service in Houston is the first accredited portable meter service, collecting data on radio, local television and cable use from one sample of consumers, at home and away from home.

#### **Response Rates and Sample Proportionality**

Arbitron must achieve response rates sufficient to maintain confidence in its ratings, the support of the industry and accreditation by the Media Rating Council. Consistent with general industry trends, overall response rates have declined over the past several years, and it has become increasingly difficult and more costly for the Company to obtain consent from persons to participate in its surveys.

Another measure often used by clients to assess quality in Arbitron's surveys is proportionality, which refers to how well the distribution of the sample for any individual survey matches the distribution of the population in the market. In recent years, Arbitron's ability to deliver survey samples of young adults that match the percentage of this demographic group in the total population has deteriorated, caused in part by the trend among some households to disconnect their landline phones, effectively removing these households from the Arbitron sample frame. As consumers adopt modes of telecommunication other than telephone landlines, such as mobile phones and cable or Internet calling, it is becoming increasingly difficult for Arbitron to reach and recruit participants. Recruiting mobile phone-only households will lead to increased costs.

Arbitron has committed extensive efforts and resources to address the decline of response rates and to maintain sample proportionality, including a comprehensive set of initiatives to bolster response rates and improve sample proportionality among African-American, Hispanic, and young male respondents in Arbitron's diary-based markets. These initiatives include providing for substantial increases in cash incentives and other survey treatments. The most significant response rate initiatives in 2007 include the completion of the rollout of the 2006 response rate and proportionality action plan and the opening of a third Arbitron owned and operated participant interviewing center during the first quarter of 2007. Arbitron's experience is that the internal interviewing centers outperform the outsourced calling center vendors that they replace. Management believes that significant additional expenditures will be required in the future with respect to response rates and sample proportionality.

As the PPM service is rolled out, Arbitron's management expects to incur similar challenges in the operation of an electronic measurement service, as are faced in the Company's diary-based service; including those challenges related to response rate and sample proportionality. Arbitron also expects that additional measures to address these challenges will be implemented and require expenditures incremental to those required for its diary-based service.

#### **Pennsylvania Sales Tax Assessment**

During 2005, the Pennsylvania Department of Revenue concluded a sales tax audit of the Company and notified the Company of an assessment of \$3.6 million, including outstanding sales tax and accumulated interest since 2001. Since 2005, the assessment has increased due to additional interest to \$3.9 million as of June 30, 2007.

Currently, the Company continues to contest the assessment in its entirety. Consistent with the findings of a previous Pennsylvania sales tax audit of the Company, the Company contends that it continues to provide nontaxable services to its Pennsylvania customers and intends to vigorously defend this position during the appeals process. The Commonwealth of Pennsylvania has denied the Company's administrative appeals, and the dispute was submitted to the Commonwealth Court of Pennsylvania for consideration. Currently, the Company is discussing settlement options with the Office of Attorney General in an effort to avoid protracted litigation and the related costs and has offered to settle the disputed matter. The Office of Attorney General has not yet responded to the Company's offer.

Given the nature of this uncertainty, and the pending settlement offer, \$0.5 million was recognized during the quarter ended June 30, 2007, in accordance with FAS No. 5 Accounting for Contingencies.

#### **New Accounting Pronouncements**

In July 2006, the FASB issued FASB Interpretation (FIN) 48, *Accounting for Uncertainty in Income Taxes* (FIN 48), an interpretation of FASB Statement No. 109, *Accounting for Income Taxes*. FIN 48 clarifies the accounting for uncertainty in income taxes by prescribing the recognition threshold that a tax position is required to meet before being recognized in the financial statements. The Company adopted FIN 48, effective January 1, 2007. The impact of applying FIN 48 to the Company's consolidated financial statements was immaterial.

Effective December 31, 2006, the Company adopted SFAS No. 158, *Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans* (SFAS No. 158). Arbitron currently measures plan assets and benefit obligations as of September 30 each year. In accordance with the provisions of SFAS No. 158, the measurement date will be required to be as of the date of the Company's fiscal year-end statement of financial position effective for fiscal years ending after December 15, 2008.

In September 2006, the FASB issued SFAS No. 157, *Fair Value Measurements* (SFAS No. 157), which defines fair value, establishes guidelines for measuring fair value and expands disclosures regarding fair value measurements. SFAS No. 157 does not require any new fair value measurements but rather eliminates inconsistencies in guidance found in various prior accounting pronouncements. SFAS No. 157 is effective for fiscal years beginning after November 15, 2007. The management of the Company is evaluating the impact of SFAS No. 157, but does not currently expect the adoption of SFAS No. 157, effective January 1, 2008, to have a material impact on the Company's consolidated financial statements.

In February 2007, the FASB issued SFAS No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities* ( SFAS No. 159 ), which permits companies to choose to measure many financial instruments and certain other items at fair value that are not currently required to be measured at fair value. SFAS No. 159 is effective for fiscal years beginning after November 15, 2007. The management of the Company is evaluating the potential impact of SFAS No. 159 on the consolidated financial statements.

#### **Critical Accounting Policies and Estimates**

Critical accounting policies and estimates are those that are both important to the presentation of Arbitron's financial position and results of operations, and require management's most difficult, complex or subjective judgments.

Arbitron capitalizes software development costs with respect to significant internal-use software initiatives or enhancements in accordance with Statement of Position 98-1, *Accounting for the Costs of Computer Software Developed or Obtained for Internal Use*. The costs are capitalized from the time that the preliminary project stage is completed and management considers it probable that the software will be used to perform the function intended, until the time the software is placed in service for its intended use. Once the software is placed in service, the capitalized costs are amortized over periods of three to five years. Management performs an assessment quarterly to determine if it is probable that all capitalized software will be used to perform its intended function. If an impairment exists, the software cost is written down to estimated fair value. As of June 30, 2007, and December 31, 2006, Arbitron's capitalized software developed for internal use had carrying amounts of \$19.9 million and \$19.3 million, respectively, including \$9.3 million and \$9.0 million, respectively, of software related to the PPM system.

Arbitron uses the asset and liability method of accounting for income taxes. Under this method, income tax expense is recognized for the amount of taxes payable or refundable for the current year and for deferred tax liabilities and assets for the future tax consequences of events that have been recognized in an entity's financial statements or tax returns. Management must make assumptions, judgments and estimates to determine the current provision for income taxes and also deferred tax assets and liabilities and any valuation allowance to be recorded against a deferred tax asset. Assumptions, judgments, and estimates relative to the current provision for income taxes take into account current tax laws, interpretations of current tax laws and possible outcomes of current and future audits conducted by domestic and foreign tax authorities. Changes in tax law or interpretation of tax laws and the resolution of current and future tax audits could significantly impact the amounts provided for income taxes in the consolidated financial statements. Assumptions, judgments and estimates relative to the value of a deferred tax asset take into account forecasts of the amount and nature of future taxable income. Actual operating results and the underlying amount and nature of income in future years could render current assumptions, judgments and estimates of recoverable net deferred taxes inaccurate. Any of the assumptions, judgments and estimates mentioned above could cause actual income tax obligations to differ from estimates, thus impacting Arbitron's financial position and results of operations.

**Results of Operations****Comparison of the Three Months Ended June 30, 2007 to the Three Months Ended June 30, 2006**

The following table sets forth information with respect to the consolidated statements of income of Arbitron:

(1) EBIT (earnings before interest and income taxes) and EBITDA (earnings before interest, income taxes, depreciation and amortization) are non-GAAP financial measures that the management of Arbitron believes are useful to investors in evaluating Arbitron's results. For further discussion of these non-GAAP financial measures, see paragraph below entitled EBIT and EBITDA of this quarterly report.

**Revenue.** Revenue increased 6.6% for the three months ended June 30, 2007, as compared to the same period in 2006, due primarily to \$5.2 million of increases related to the ratings subscriber base, contract renewals, and price escalations in multiyear customer contracts for Arbitron's quantitative data license revenue, partially offset by a \$0.4 million decrease in PPM International revenues.

**Cost of Revenue.** Cost of revenue increased by 26.7% for the three months ended June 30, 2007, as compared to the same period in 2006. The increase in cost of revenue was primarily attributable to an \$11.6 million increase in Arbitron's quantitative, qualitative and software application services, which was comprised substantially of a \$4.1 million increase in PPM rollout costs largely associated with the management and recruitment of the PPM panels for the Philadelphia, New York, Los Angeles, and Chicago markets; a \$2.0 million increase in expenses associated with PPM ratings costs that were classified as research and development in 2006 and as cost of revenue in 2007; a \$1.8 million increase in diary data collection and processing costs; a \$1.2 million increase associated with response rate initiatives; a \$1.4 million increase in royalties, substantially associated with our Scarborough affiliate; and a \$0.7 million increase due to operating costs associated with the opening of a third participant interviewing center during the first quarter of 2007. These increases were partially offset by a \$1.6 million decrease in Project Apollo costs, which, due to the formation of Project Apollo in February 2007, are now being expensed directly by the affiliate. Arbitron records its share of the net operating results of the affiliate through the equity in net income of affiliates line of the Company's consolidated income statement. The management of Arbitron expects that Arbitron's cost of revenue will continue to increase in the future as a result of its efforts to commercialize the PPM ratings service and support the rollout of this service over the next two to three years.

**Selling, General and Administrative.** Selling, general and administrative expenses decreased slightly by 0.5% for the three months ended June 30, 2007, as compared to the same period in 2006. The decrease in selling, general and administrative expenses was due primarily to a \$1.0 million decrease associated with lower incentive plan expenses and a \$0.8 million decrease in sales and marketing costs resulting from cost saving initiatives related to the Company's sales force, which were substantially offset by a \$0.6 million increase in expenses for merger and acquisition advisory services incurred during the three months ended June 30, 2007, a \$0.5 million increase related to the accrual of estimated settlement costs associated with a Pennsylvania sales tax assessment, and a \$0.3 million increase in expenses and amortization related to the Company's accounts receivable and contract management system that was implemented during June 2006.

**Research and Development.** Research and development expenses increased 17.9% during the three months ended June 30, 2007, as compared to the same period in 2006. The increase in research and development expenses resulted primarily from a \$1.5 million increase in expenses associated with Arbitron's continued development of the next generation of its client software, a \$1.1 million increase related to applications and infrastructure to support the PPM service, and a \$0.7 million increase in expenses in support of the Company's diary ratings service, substantially offset by a \$2.0 million decrease in expenses associated with PPM ratings costs that were classified as research and development in 2006 and as cost of revenue in 2007.

**Equity in net income of affiliates.** Equity in net income of affiliates (relating collectively to Arbitron's Scarborough joint venture and jointly-owned Project Apollo) remained flat for the three months ended June 30, 2007, as compared to the same period in 2006. The formalization of Project Apollo occurred during February 2007. The purpose of Project Apollo is to complete the development and testing of the Project Apollo marketing research service and the expansion of the pilot panel to a full national service if the test results meet expectations and generate marketplace support. Arbitron's increase in its share of Scarborough's net income of \$0.7 million was offset by a \$0.7 million share of the Project Apollo loss for the three months ended June 30, 2007, as compared to the same period of 2006. Arbitron expects that its equity in net income of affiliates will continue to be adversely impacted due to the costs incurred during the testing of the national marketing research service. If the decision is made to commercialize the national marketing panel service, there will be significant costs incurred to increase the size of the panel to a commercial level. These cost increases will be incurred in advance of receiving expected revenue from the service.

**Interest Income.** Interest income decreased 19.2% during the three months ended June 30, 2007, as compared to the same period in 2006 due to lower average cash and short-term investment balances.

**Interest Expense.** Interest expense decreased 89.8% for the three months ended June 30, 2007, as compared to the same period in 2006, due to Arbitron's prepayment of its \$50.0 million senior-secured notes obligation on October 18, 2006.

**Income Tax Expense.** The income tax rate for the three months ended June 30, 2007 was 36.3% as compared to 37.8% for the same period of 2006. The effective tax rate, excluding certain immaterial discrete items, was increased from 37.2% for the six months ended June 30, 2006 to 37.7% for the six months ended June 30, 2007, to reflect the increase in certain nondeductible expenses.

**Net Income.** Net income decreased 48.5% for the three months ended June 30, 2007, as compared to the same period in 2006, due primarily to planned expenses required to build Arbitron's PPM panels for the Philadelphia and New York markets, and to support the strategic development of Arbitron's PPM ratings business.

**EBIT and EBITDA.** Arbitron's management believes that presenting EBIT and EBITDA, both non-GAAP financial measures, as supplemental information helps investors, analysts, and others, if they so choose, in understanding and evaluating Arbitron's operating performance in some of the same manners that management does because EBIT and EBITDA exclude certain items that are not directly related to Arbitron's core operating performance. Arbitron's management references these non-GAAP financial measures in assessing current performance and making decisions about internal budgets, resource allocation and financial goals. EBIT is calculated by deducting net interest income from net income and adding back income tax expense to net income. EBITDA is calculated by deducting net interest income from net income and adding back income tax expense, and depreciation and amortization to net income. EBIT and EBITDA should not be considered substitutes either for net income, as indicators of Arbitron's operating performance, or for cash flow, as measures of Arbitron's liquidity. In addition, because EBIT and EBITDA may not be calculated identically by all companies, the presentation here may not be comparable to other similarly titled measures of other companies. EBIT decreased 55.0% and EBITDA decreased 43.1% for the three months ended June 30, 2007, as compared to the same period in 2006, due primarily to planned expenses required to build Arbitron's PPM panels for the Philadelphia and New York markets, and to support the strategic development of Arbitron's PPM ratings business.

**Comparison of the Six Months Ended June 30, 2007 to the Six Months Ended June 30, 2006**

The following table sets forth information with respect to the consolidated statements of income of Arbitron:

**Consolidated Statements of Income**

EBITDA (1)	\$ 35,447	\$ 45,324	\$ (9,877)

(1) EBIT (earnings before interest and income taxes) and EBITDA (earnings before interest, income taxes, depreciation and amortization) are non-GAAP financial measures that the management of Arbitron believes are useful to investors in evaluating Arbitron's results. For further discussion of these non-GAAP financial measures, see paragraph below entitled "EBIT and EBITDA" of this quarterly report.

**Revenue.** Revenue increased 7.3% for the six months ended June 30, 2007, as compared to the same period in 2006, due primarily to \$10.4 million of increases related to the ratings subscriber base, contract renewals, and price escalations in multiyear customer contracts for Arbitron's quantitative data license revenue, a \$0.9 million increase in Continental Research revenue, and a \$0.4 million increase in PPM International revenue.

**Cost of Revenue.** Cost of revenue increased by 29.2% for the six months ended June 30, 2007, as compared to the same period in 2006. The increase in cost of revenue was primarily attributable to an \$19.3 million increase in Arbitron's quantitative, qualitative and software application services, which was comprised substantially of a \$6.8 million increase in PPM rollout costs largely associated with the management and recruitment of the PPM panels for the Philadelphia, New York, Los Angeles, and Chicago markets; a \$3.7 million increase in expenses associated with PPM ratings costs that were classified as research and development in 2006 and as cost of revenue in 2007; a \$2.4 million increase in diary data collection and processing costs; a \$2.2 million increase associated with response rate initiatives; a \$1.5 million increase due to operating costs associated with the opening of a third participant interviewing center during the first quarter of 2007; a \$0.9 million increase associated with computer center costs and a \$1.3 million increase in royalties, substantially associated with our Scarborough affiliate. These increases were partially offset by a \$2.6 million decrease in Project Apollo costs, which, due to the formation of Project Apollo in February 2007, are now being expensed directly by the affiliate. Arbitron records its share of the net operating results of the affiliate through the equity in net income of affiliates line of the Company's consolidated income statement. The management of Arbitron expects that Arbitron's cost of revenue will continue to increase in the future as a result of its efforts to commercialize the PPM ratings service and support the rollout of this service over the next two to three years.

**Selling, General and Administrative.** Selling, general and administrative expenses increased by 2.0% for the six months ended June 30, 2007, as compared to the same period in 2006. The increase in selling, general and administrative expenses was due primarily to a \$1.2 million increase in expenses for merger and acquisition advisory services incurred during the six months ended June 30, 2007; a \$0.9 million increase in expenses and amortization related to the Company's accounts receivable and contract management system that was implemented during June 2006, and a \$0.5 million increase related to the accrual of estimated settlement costs associated with a Pennsylvania sales tax assessment; substantially offset by a \$1.0 million decrease associated with lower incentive plan expenses and a \$0.9 million decrease in sales and marketing costs resulting from cost saving initiatives related to the Company's sales force.

**Research and Development.** Research and development expenses increased 12.8% during the six months ended June 30, 2007, as compared to the same period in 2006. The increase in research and development expenses resulted primarily from a \$2.6 million increase in expenses associated with Arbitron's continued development of the next generation of its client software, a \$2.1 million increase related to applications and infrastructure to support the PPM service, and a \$1.5 million increase associated with various U.S. Media Service development costs. These increases were substantially offset by a \$3.7 million decrease in expenses associated with PPM ratings costs that were classified as research and development in 2006 and as cost of revenue in 2007.

**Equity in net income of affiliates.** Equity in net income of affiliates (relating collectively to Arbitron's Scarborough joint venture and jointly-owned Project Apollo) decreased 50.2% for the six months ended June 30, 2007, as compared to the same period in 2006. The formalization of Project Apollo occurred during February 2007. The purpose of Project Apollo is to complete the development and testing of the Project Apollo marketing research service and the expansion of the pilot panel to a full national service if the test results meet expectations and generate marketplace support. Arbitron's \$1.8 million share of the Project Apollo loss for the six months ended June 30, 2007, is the primary cause of the \$1.3 million decrease in the equity in net income of affiliates for the six months ended June 30, 2007, as compared to the same period of 2006. Arbitron expects that its equity in net income of affiliates will continue to be adversely impacted due to the costs incurred during the testing of the national marketing research service. If the decision is made to commercialize the national marketing panel service, there will be significant costs incurred to increase the size of the panel to a commercial level. These cost increases will be incurred in advance of receiving expected revenue from the service.

**Interest Income.** Interest income decreased 31.1% during the six months ended June 30, 2007, as compared to the same period in 2006 due to lower average cash and short-term investment balances, which were partially offset by higher interest rates.

**Interest Expense.** Interest expense decreased 89.8% for the six months ended June 30, 2007, as compared to the same period in 2006, due to Arbitron's prepayment of its \$50.0 million senior-secured notes obligation on October 18, 2006.

**Income Tax Expense.** The income tax rate for the six months ended June 30, 2007 was 38.0% as compared to 37.5% for the same period of 2006. The effective tax rate, excluding certain immaterial discrete items, was increased from 37.2% for the six months ended June 30, 2006 to 37.7% for the six months ended June 30, 2007 to reflect the increase in certain nondeductible expenses.

**Net Income.** Net income decreased 24.5% for the six months ended June 30, 2007, as compared to the same period in 2006, due primarily to planned expenses required to build Arbitron's PPM panels for the Philadelphia and New York markets, and to support the strategic development of Arbitron's PPM ratings business. Incremental expenses incurred in support of Arbitron's diary ratings service also contributed to the decrease in net income, partially offset by a decrease in interest expense due to Arbitron's prepayment of its senior-secured notes obligation on October 18, 2006.

**EBIT and EBITDA.** Arbitron's management believes that presenting EBIT and EBITDA, both non-GAAP financial measures, as supplemental information helps investors, analysts, and others, if they so choose, in understanding and evaluating Arbitron's operating performance in some of the same manners that management does because EBIT and EBITDA exclude certain items that are not directly related to Arbitron's core operating performance. Arbitron's management references these non-GAAP financial measures in assessing current performance and making decisions about internal budgets, resource allocation and financial goals. EBIT is calculated by deducting net interest income from net income and adding back income tax expense to net income. EBITDA is calculated by deducting net interest income from net income and adding back income tax expense, and depreciation and amortization to net income. EBIT and EBITDA should not be considered substitutes either for net income, as indicators of Arbitron's operating performance, or for cash flow, as measures of Arbitron's liquidity. In addition, because EBIT and EBITDA may not be calculated identically by all companies, the presentation here may not be comparable to other similarly titled measures of other companies. EBIT decreased 26.6% and EBITDA decreased 21.8% for the six months ended June 30, 2007, as compared to the same period in 2006 due primarily to planned expenses required to build Arbitron's PPM panels for the Philadelphia and New York markets, and to support Arbitron's diary and PPM ratings services.

## Liquidity and Capital Resources

Working capital was \$20.2 million and (\$4.6) million as of June 30, 2007, and December 31, 2006, respectively. Excluding the deferred revenue liability, which does not require a significant additional cash outlay by Arbitron, working capital was \$86.7 million and \$62.3 million as of June 30, 2007, and December 31, 2006, respectively. Cash and cash equivalents were \$32.4 million and \$33.6 million as of June 30, 2007, and December 31, 2006, respectively. In addition, short-term investments were \$38.9 million and \$27.6 million as of June 30, 2007, and December 31, 2006, respectively. Management expects that Arbitron's cash position, along with these readily convertible assets, as of June 30, 2007, and cash flow generated from operations and its available revolving credit facility, will be sufficient to support Arbitron's operations for the foreseeable future.

Net cash provided by operating activities was \$19.7 million and \$26.1 million for the six months ended June 30, 2007, and 2006, respectively. The \$6.4 million decrease in net cash provided by operating activities was mainly attributable to a \$8.0 million decrease in the change in accrued expenses and other current liabilities, and a \$6.3 million decrease in net income resulting primarily from planned costs required to build Arbitron's PPM panels for the commercialization rollout of the PPM service. These decreases in cash were partially offset by a \$5.6 million increase due to the prior year increase in purchases of PPM international inventory, a \$1.3 million decrease due to the timing of vendor payments and a \$1.0 million net increase in depreciation and amortization due to increased capitalization of PPM equipment and related software, as well as software related to the accounts receivable and contract management system implemented during the second quarter of 2006. The decrease in the change in accrued expenses and other current liabilities resulted primarily from the timing of \$4.7 million in expenditures for accrued payroll and benefit costs for the six months ended June 30, 2007, as compared to the same period of 2006; a \$1.9 million fluctuation associated with the formation of the Project Apollo LLC in the six months ended June 30, 2007; and \$1.1 million in lower taxes due to reduced earnings for the six months ended June 30, 2007, as compared to the same period of 2006.

Net cash used by investing activities was \$22.5 million for the six months ended June 30, 2007, and net cash provided by investing activities was \$22.8 million for the six months ended June 30, 2006. The \$45.3 million fluctuation in investing activities was driven primarily by \$43.8 million in increased net purchases of variable-rate demand notes issued by municipal government agencies and auction-rate securities for the six months ended June 30, 2007, as compared to the same period of 2006. More short-term investments were purchased for the six months ended June 30, 2007 due to the excess cash available and on hand. During the same period of 2006, short-term investments were sold on a net basis to support the completion of the stock repurchase program authorized under the Company's then outstanding \$70.0 million stock repurchase program.

Net cash provided by financing activities was \$1.4 million for the six months ended June 30, 2007, and net cash used in financing activities was \$68.6 million for the six months ended June 30, 2006. The \$70.1 million fluctuation in financing activities was primarily attributable to \$63.4 million in decreased repurchases of Arbitron's outstanding common stock during the six months ended June 30, 2007, as compared to the same period of 2006. A \$5.7 million increase in proceeds from stock option exercises was the result of higher average stock prices, as well as higher average exercise prices for the six months ended June 30, 2007, as compared to the same period of 2006.

On December 20, 2006, Arbitron entered into an agreement with a consortium of lenders to provide up to \$150.0 million of financing to Arbitron through a five-year, unsecured revolving credit facility (2006 Credit Facility). The agreement contains an expansion feature for Arbitron to increase the financing available under the 2006 Credit Facility up to \$200.0 million. Interest on borrowings under the 2006 Credit Facility will be calculated based on a floating rate for a duration of up to six months as selected by Arbitron.

Arbitron's 2006 Credit Facility contains financial terms, covenants and operating restrictions that potentially restrict financial flexibility. Under the terms of the 2006 Credit Facility, Arbitron is required to maintain certain leverage and coverage ratios and meet other financial conditions. The agreement contains certain financial covenants and limits, among other things, Arbitron's ability to sell assets, incur additional indebtedness, and grant or incur liens on its assets. Under the terms of the 2006 Credit Facility, all of Arbitron's material domestic subsidiaries, if any, guarantee the commitment. Currently, Arbitron does not have any material domestic subsidiaries as defined under the terms of the 2006 Credit Facility. Although the management of Arbitron does not believe that the terms of its 2006 Credit Facility

limit the operation of its business in any material respect, the terms of the 2006 Credit Facility may restrict or prohibit Arbitron's ability to raise additional debt capital when needed or could prevent Arbitron from investing in other growth initiatives. Arbitron has been in compliance with the terms of the 2006 Credit Facility since its inception.

On November 16, 2006, Arbitron announced that its Board of Directors authorized a program to repurchase up to \$100.0 million of its outstanding common stock through either periodic open-market or private transactions at then-prevailing market prices through December 31, 2008. As of July 30, 2007, the number of shares of Arbitron's outstanding common stock repurchased under this program was 293,400 shares for \$14.4 million.

Commercialization of the PPM radio ratings service and exploration of other strategic applications of the PPM technology, including the national marketing panel service, will require a substantial financial investment. Arbitron believes that during the PPM rollout period its costs and expenses will increase and substantial capital expenditures will be required. In addition, the management of Arbitron expects that, if the decision is made to commercialize the national marketing panel service, Arbitron's expenses will increase as a result of continued deployment costs associated with the strategic development of its electronic ratings business and the national marketing panel service being developed through Project Apollo, which was jointly formed between Arbitron and Nielsen Media Research Inc. in February 2007.

Arbitron believes that, while commercialization of the PPM ratings service and other strategic applications of the PPM technology, including the possible commercialization of the Project Apollo national marketing panel service, will have a near-term negative impact on its results of operations during the first three to four years of commercialization, which impact likely will be material, its operating margins can be restored through the completion of the PPM transition process in the top 50 radio markets, although there can be no assurance that this will be the case. If a decision is made to commercialize these services, substantial additional expenditures would be incurred during the next few years.

Arbitron expects to fund the expected commercialization of the PPM radio ratings service, and the Project Apollo pilot program for the national marketing panel service with its existing cash position and short-term investments, future cash from operations or through the most advantageous source of capital at the time, which may include borrowings under its current credit facility, sales of common and preferred stock and/or joint-venture transactions. Arbitron believes that one or more of these sources of capital will be available to fund its PPM-related cash needs, but there can be no assurance that the external sources of capital will be available on favorable terms, if at all.

#### **Seasonality**

Arbitron recognizes revenue for services over the terms of license agreements as services are delivered, and expenses are recognized as incurred. Arbitron gathers radio-listening data in 299 United States local markets. All markets are measured at least twice per year (April-May-June for the Spring Survey and October-November-December for the Fall Survey). In addition, all major markets are measured two additional times per year (January-February-March for the Winter Survey and July-August-September for the Summer Survey). Arbitron's revenue is generally higher in the first and third quarters as a result of the delivery of the Fall Survey and Spring Survey, respectively, to all markets, compared to revenue in the second and fourth quarters, when delivery of the Winter Survey and Summer Survey, respectively, is only provided to major markets. Arbitron's expenses are generally higher in the second and fourth quarters as the Spring Survey and Fall Survey are being conducted. The transition from the diary service to the PPM service in the top 50 markets will have an impact on the seasonality of revenue and costs and expenses. Although revenue in the top 50 markets is recognized ratably over the year in both the diary and PPM services, there will be fluctuations in the depth of the seasonality pattern during the periods of transition between the services in each market. The larger impact on the seasonality pattern is related to the costs and expenses to produce the services. PPM costs and expenses will accelerate six to nine months in advance of the commercialization of each market as the panel is built. These increased costs will be recognized as incurred rather than upon the delivery of a particular quarterly survey, and will vary from the cost pattern associated with the delivery of the diary service.

### **ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

#### **Interest Rate Risk**

The Company holds its cash and cash equivalents in highly liquid securities. The Company also holds short-term investments, which consist of investment grade, highly liquid securities classified as available-for-sale. A hypothetical interest rate change of 1% would have an impact of approximately \$0.3 million on interest income over a six-month period.

#### **Foreign Currency Exchange Rate Risk**

Arbitron's foreign operations are not significant at this time, and, therefore, Arbitron's exposure to foreign currency risk is minimal.

### **ITEM 4. CONTROLS AND PROCEDURES**

#### **Evaluation of Disclosure Controls and Procedures**

The Company carried out an evaluation, under the supervision and with the participation of the Company's management, including the Company's President and Chief Executive Officer and the Company's Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the Exchange Act)) as of the end of the most recently completed fiscal quarter. Based upon that evaluation, the Company's President and Chief Executive Officer and the Company's Chief Financial Officer concluded that the Company's disclosure controls and procedures were effective as of the end of the period covered by this Report.

#### **Changes in Internal Control Over Financial Reporting**

There were no changes in the Company's internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) that occurred during the quarterly period ended June 30, 2007, that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

**PART II OTHER INFORMATION****ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS**

On November 16, 2006, Arbitron announced that its Board of Directors authorized a program to repurchase up to \$100.0 million of its outstanding common stock through either periodic open-market or private transactions at then-prevailing market prices over a period of two years through December 31, 2008. The following table outlines the stock repurchase activity during the three months ended June 30, 2007.

<b>Period</b>	<b>Total Number of Shares Purchased</b>	<b>Average Price Paid Per Share</b>	<b>Total Number of Shares Purchased as Part of Publicly Announced Program</b>	<b>Maximum Dollar Value of Shares That May Yet Be Purchased Under the Program</b>
April 1-30	62,000	\$ 48.15	62,000	\$ 97,014,395
May 1-31	37,100	48.96	37,100	95,198,046
June 1-30	7,500	49.80	7,500	94,824,516
<b>Total</b>	<b>106,600</b>	<b>\$ 48.55</b>	<b>106,600</b>	<b>\$ 94,824,516</b>

**ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS**

Arbitron's annual meeting of stockholders was held on May 15, 2007. There were 29,926,654 shares of Arbitron common stock outstanding and entitled to vote at the annual meeting. Of the 29,926,654 shares of Arbitron common stock entitled to vote at the annual meeting, a total of 26,855,891 shares were present in person or by proxy at the annual meeting. The following people designated by Arbitron's Board of Directors as nominees for director were elected at the annual meeting, with the voting as follows:

<b>Nominee</b>	<b>Votes For</b>	<b>Votes Withheld</b>
Shellye L. Archambeau	26,328,529	527,362
Philip Guarascio	26,725,710	130,181
William T. Kerr	26,687,498	168,393
Larry E. Kittelberger	26,328,979	526,912
Stephen B. Morris	26,816,750	39,141
Luis G. Nogales	26,684,894	170,999
Richard A. Post	22,900,618	3,955,273

The Amendment to the Arbitron Inc. 1999 Stock Incentive Plan was approved at the annual meeting, with the voting as follows:

<b>Total Votes For</b>	<b>Total Votes Against</b>	<b>Total Votes Abstain</b>
23,746,704	588,886	21,206

No additional items were on the agenda of the annual meeting of stockholders and no other items were brought to a vote during the meeting .

**ITEM 5. OTHER INFORMATION**

On May 15, 2007, the stockholders of Arbitron approved an amendment to the Company's 1999 Stock Incentive Plan (the "Plan"), that increased the number of shares of common stock with respect to which awards may be granted under the Plan by 400,000 shares to a total of 4,604,009 shares.

The foregoing description of the amendment to the Plan is qualified in its entirety by reference to the full text of the amended Plan, which is attached hereto as Exhibit 10.2 and incorporated herein by reference.

**ITEM 6. EXHIBITS**
