The information in this prospectus is not complete and may be changed. The selling shareholders may not sell these securities until the registration statement filed with the Securities and Exchange Commission is effective. This prospectus is not an offer to sell these securities and it is not soliciting an offer to buy these securities in any state where the offer or sale is not permitted.

Subject to completion, dated January 31, 2005

**PROSPECTUS
7,300,000 SHARES
ZIX CORPORATION
COMMON STOCK**

This prospectus relates to shares of our common stock that may be sold by the selling shareholders named in this prospectus. The selling shareholders acquired the securities convertible into or exercisable for such shares from us in a private placement completed on November 2, 2004. The common stock that may be sold by the selling shareholders may include shares (i) issued upon conversion of or in lieu of payment of cash interest on convertible notes acquired by two of the selling shareholders, (ii) issued upon exercise of warrants issued to the notes holders or upon exercise of a warrant that would be issued to the notes holders upon the redemption of the convertible notes, or (iii) shares issued in exchange for, or otherwise in respect of, the convertible notes or the warrants.

The common stock being registered is being offered for the account of the selling shareholders. We will not receive any proceeds from the sale of the shares of common stock offered under this prospectus.

The shares may be offered in transactions on The Nasdaq Stock Market, in negotiated transactions or through a combination of methods of distribution, at prices relating to the prevailing market prices, at negotiated prices or at fixed prices that may be changed. Please see below under the heading Plan of Distribution.

Our common stock is quoted on The Nasdaq Stock Market under the symbol ZIXI. On January 26, 2005, the last sale price of our common stock, as reported on The Nasdaq Stock Market, was \$3.85 per share.

**THIS INVESTMENT INVOLVES A HIGH DEGREE OF RISK. YOU
SHOULD PURCHASE SHARES ONLY IF YOU CAN AFFORD A LOSS OF ALL
OR A PORTION OF YOUR INVESTMENT.
PLEASE SEE RISK FACTORS BELOW.**

PROSPECTUS SUMMARY

Since January 1999, we have been developing and marketing products and services that bring privacy, security and convenience to Internet users: specifically, e-messaging, e-prescribing, and e-transaction applications and services. We offer a range of solutions to protect organizations from viruses, spam, and electronic attack, as well as enabling secure electronic communications, such as email encryption, e-prescribing, and electronic lab orders and results.

This prospectus relates to an aggregate of up to 7,300,000 shares of common stock, \$0.01 par value, potentially issuable by us to Amulet Limited and Omicron Master Trust (together, the Investors) and Rodman & Renshaw, LLC (the Placement Agent) in connection with a private placement of convertible notes and warrants that we consummated on November 2, 2004. A description of the convertible notes and warrants appears below under Description of Convertible Notes and Warrants. Total estimated net proceeds from the private placement approximated \$18.9 million. In connection with the private placement, we agreed to register with the Securities and Exchange Commission (the SEC) 150% of our common stock shares potentially issuable upon conversion of the notes and exercise of the warrants issued and sold in the private placement plus an estimated number of shares of our common stock potentially issuable in respect of interest payable on the notes. The common stock that may be sold by the selling shareholders may include shares (i) issued upon conversion of or in lieu of payment of cash interest on convertible notes acquired by the Investors, (ii) issued upon exercise of warrants issued to the Investors or upon exercise of a warrant that would be issued to the Investors upon the redemption of the convertible notes, or (iii) shares issued in exchange for, or otherwise in respect of, the convertible notes or the warrants.

The shares being registered in this registration statement represent approximately 23% of our common stock outstanding as of November 12, 2004.

The selling shareholders may sell any or all of the shares, subject to federal and state securities laws, but are under no obligation to do so. The price at which the selling shareholders may sell the shares of our common stock will be determined by the prevailing market for the shares or in negotiated transactions. See Selling Shareholders below.

We were incorporated in Texas in 1988. Our executive offices are located at 2711 North Haskell Avenue, Suite 2300, LB 36, Dallas, Texas 75204-2960, and our telephone number is (214) 370-2000. Our Web site address is www.zixcorp.com. Information contained on our Web site is not a part of this prospectus. In this prospectus, we, us, ZixCorp, our and Zix refer to Zix Corporation and its subsidiaries unless the context otherwise requires.

DESCRIPTION OF CONVERTIBLE NOTES AND WARRANTS

On November 2, 2004, we entered into purchase agreements (the Transaction) with the Investors, pursuant to which we issued and sold to the Investors \$20 million aggregate principal amount of secured, convertible notes and related warrants. The convertible notes may be converted by the holders into ZixCorp common stock, par value \$.01 per share, at an initial conversion price of \$6.00 per share (as adjusted in accordance with certain anti-dilution adjustments, the Conversion Price). At the initial Conversion Price, the convertible notes would convert into an aggregate of 3,333,333 shares of common stock. As of December 31, 2004, there were approximately 32.2 million shares of common stock outstanding.

Principal Payments under the Convertible Notes

The principal owing under the convertible notes is to be repaid in four equal installments of \$5 million on the one, two, three and four year anniversary dates of the sale and issuance of the convertible notes. The principal is payable in cash; provided, however, that at ZixCorp's option, the principal may be repaid on

Table of Contents

scheduled payment dates by converting the principal amount to be repaid into common stock at the Conversion Price if the common stock closes above \$6.00 per share for a specified number of trading days preceding the scheduled principal payment date provided that (i) no event of default or repurchase event under the notes has occurred (see below under *Events of Default and Repurchase Rights*); (ii) there is an effective registration statement on file with the SEC covering the shares of stock to be issued with respect to the payment of principal and the registration statement has been effective during the 20 consecutive trading days preceding the principal payment date and is reasonably expected to be effective for at least 30 days following the issuance of the shares; and (iii) 110% of the sum of the number of common stock shares to be issued to a particular holder on the scheduled principal payment date, plus the number of common stock shares previously issued to that holder, plus the number of common stock shares then issuable upon conversion of the note held by that holder or exercise of the warrants held by that holder is less than the portion of a maximum share amount allocated to such holder (initially 3,407,801 shares for each original note holder).

ZixCorp has the right to redeem the convertible notes at 105% of the par (principal) amount of the convertible notes, plus accrued interest, plus issue an immediately exercisable supplemental warrant exercisable for 70% of the common stock that would be issuable to the holders of the convertible notes upon conversion in respect of the principal amount thereof if the convertible notes were to remain outstanding. The exercise price of the warrant will be the Conversion Price of the convertible notes, subject to adjustment for events on a basis comparable to the convertible notes, and the term of the warrant will be identical to the remaining term of the convertible notes.

Interest Payments

The convertible notes bear interest at the six-month London Interbank Offered Rate (LIBOR) plus 3% (currently, approximately 5.3%). Interest on the convertible notes is payable quarterly in cash; provided, however, that at ZixCorp's option, such interest may also be paid in common stock valued at a 10% discount to the volume weighted average price (VWAP) for the common stock for a specified number of trading days preceding the interest payment date.

Conversion of the Convertible Notes

The holders of the convertible notes may convert the convertible notes into the common stock at any time or from time-to-time at the Conversion Price. ZixCorp has the right to force the conversion of the convertible notes at the Conversion Price if the common stock closes above \$11.00 per share for a specified number of trading days and if the specified conditions for paying the notes principal using shares of common stock (as specified above) are met.

The Conversion Price is subject to adjustment for stock splits, stock dividends, recapitalizations, certain repurchases by ZixCorp of its shares and certain dividends and distributions made by ZixCorp. The convertible notes also have both weighted average and full ratchet anti-dilution provisions that would cause an adjustment to the Conversion Price and the number of shares issuable under the convertible notes upon issuance of common stock or common stock equivalents below the Conversion Price, subject to exceptions specified in the convertible notes.

Events of Default and Repurchase Rights

The convertible notes become immediately payable in full upon the occurrence of certain specified events of default. In case of an event of default, the amount payable is 110% of the outstanding principal amount, plus accrued and unpaid interest. Significant events of default under the notes include the following:

ZixCorp fails to pay principal or interest under the convertible notes when due.

Table of Contents

ZixCorp fails to issue common stock shares to the holders of the notes or warrants within two trading days after when they are required to be issued.

ZixCorp fails to comply with the restrictive covenants under the notes (see below under Restrictive Covenants).

Any representation or warranty made by ZixCorp to the notes holders was false or misleading in any material respect when made.

ZixCorp or any subsidiary seeks bankruptcy or similar protection or a bankruptcy or similar action is commenced against ZixCorp or any subsidiary.

A final judgment is entered against ZixCorp or any subsidiary or any of their respective properties or other assets in an aggregate amount in excess of \$500,000 (which is not vacated, bonded, stayed, discharged, satisfied or waived).

ZixCorp or any subsidiary shall (i) default in any payment with respect to any indebtedness for borrowed money (other than the notes) which indebtedness has an outstanding principal amount in excess of \$250,000 individually or \$750,000 in the aggregate for all such indebtedness, or (ii) default in the observance or performance of any agreement, covenant or condition relating to any such indebtedness; or (iii) the payment of indebtedness of ZixCorp or any subsidiary which has an outstanding principal amount in excess of the \$250,000 individually or \$750,000 in the aggregate is declared to be due and payable prior to the stated maturity thereof.

ZixCorp defaults under the security agreement with respect to the notes.

Furthermore, the holders of the convertible notes have the right to require ZixCorp to repurchase the convertible notes in cash upon the occurrence of specified repurchase events. The amount payable upon a repurchase event is the greater of (1) the principal plus accrued interest and (2) the market value of the shares underlying the convertible notes. Significant repurchase events include the following:

there is no reported NASDAQ trading price for the ZixCorp common stock for a period of five consecutive trading days;

the ZixCorp common stock ceases to be listed for trading on NASDAQ for five consecutive trading days;

a business combination occurs involving ZixCorp, and the existing ZixCorp shareholders do not own at least 51% of the shares of the entity resulting from the business combination;

ZixCorp sells (i) all or substantially all of its assets in a single transaction or a series of transactions or (ii) a ZixCorp subsidiary is sold or the assets of one or more of its subsidiaries are sold, which assets or sale is material to ZixCorp and its subsidiaries taken as a whole;

a business combination involving ZixCorp occurs and the consideration received is not substantially all a publicly listed security;

more than 50% of the shares of the ZixCorp common stock is acquired by a single person or group of persons acting in concert;

the ZixCorp articles of incorporation are amended to materially and adversely affect the rights

Table of Contents

of the notes holders, or ZixCorp takes any other action that materially and adversely affects the rights of the notes holders in a different and more adverse manner than it affects the rights of holders of the ZixCorp common stock generally; or

the registration statement of which this prospectus forms a part is not effective for 30 trading days during any period of 365 consecutive days.

Restrictive Covenants

The convertible notes contain restrictive covenants, including the following:

ZixCorp and its subsidiaries are prohibited from incurring debt other than certain permitted indebtedness ;

ZixCorp and its subsidiaries are prohibited from disposing of all or substantially all of their assets;

ZixCorp and its subsidiaries are prohibited from selling one or more subsidiaries, or permitting any one or more subsidiaries to sell its assets, if such sale individually or in the aggregate is material to ZixCorp and its subsidiaries taken as a whole;

ZixCorp and its subsidiaries are prohibited from liquidating, dissolving or otherwise winding up the affairs of ZixCorp;

ZixCorp and its subsidiaries are prohibited from issuing any common stock or common stock equivalents that have a floating exercise or conversion price or pursuant to an equity line structure;

ZixCorp and its subsidiaries are prohibited from creating or allowing to exist any liens other than permitted liens ; or

ZixCorp is required to comply with the security arrangements relating to the notes and the cash balance requirements relating to the notes (see below under Security Arrangements for the Convertible Notes; Cash Balance Requirement).

Security Arrangements for the Convertible Notes; Cash Balance Requirement

The convertible notes are secured by a first, perfected security interest in certain cash collateral placed in a restricted, segregated collateral account. The amount of cash collateral required to be maintained in this account is 50% of the aggregate principal amount then owing under the convertible notes (currently \$10 million). The cash collateral is not accessible for use by ZixCorp until such time as it is released. The cash held in the cash collateral account will be released in its entirety following ZixCorp attaining two consecutive quarters of net income, assuming ZixCorp is otherwise in compliance with its obligations under the convertible notes and other transaction documents and no event of default or repurchase event has occurred.

Separately, ZixCorp is required to maintain cash (including the cash collateral held in the collateral account) and cash equivalents equal to \$10 million through November 2, 2007, and \$5 million thereafter for so long as the convertible notes are outstanding. Failure to maintain the required cash and cash equivalents is an event of default under the convertible notes.

Table of Contents

Right to Participate in Future Financings

The Investors have the right to participate in certain security offerings undertaken by ZixCorp within two years of the sale and issuance of the securities. This participation right entitles the Investors to collectively purchase up to one-third of the securities offered in such offerings.

Warrants

Immediately exercisable warrants initially covering an aggregate of 1,000,000 shares, at an initial exercise price of \$6.00 per share, were also issued to the Investors. The warrants have a five-year term and have both weighted average and full ratchet anti-dilution provisions that would cause an adjustment to the exercise price of, and number of shares issuable under, the warrants upon the issuance of common stock or common stock equivalents at a price below the exercise price, subject to exceptions specified in the warrants.

Share Limitations

The Transaction documents entered into in connection with the sale and issuance of the securities provide that the aggregate number of shares issued under the convertible notes and the warrants and otherwise in connection with the Transaction may not exceed 19.9% of the number of outstanding shares of the ZixCorp common stock (measured as of the date of the purchase agreement relating to the Transaction).

Copies of the definitive agreements relating to the sale and issuance of the securities are filed herewith as Exhibits 4.1 through 4.6 to a Form 8-K filed by ZixCorp with the SEC dated November 4, 2004, and are incorporated herein by reference. The summary of the matters set forth above is qualified in its entirety by reference to such exhibits.

RISK FACTORS

Before investing in our common stock offered by this prospectus, you should carefully consider the following risks and uncertainties, in addition to the other information contained or incorporated by reference in this prospectus. Also, you should be aware that the risks and uncertainties described below are not the only ones facing us. Additional risks and uncertainties that we do not yet know of or that we currently think are immaterial may also impair our business operations. If any of those risks or uncertainties or any of the risks and uncertainties described below actually occur, our business, financial condition, prospects or results of operations could be materially and adversely affected. In that case, the trading price of the common stock offered in this prospectus could decline, and you may lose all or part of your investment.

We continue to use significant amounts of cash.

Since 1999, we have been developing and marketing products and services that bring privacy, security and convenience to Internet users, specifically, e-messaging, e-prescribing and e-transaction applications and services, with a particular focus in the healthcare sector. Our businesses operate in emerging markets and developing these businesses is costly and the market is highly competitive. Emerging market businesses involve risks and uncertainties, and there are no assurances that we will be successful in our efforts. We have

Table of Contents

experienced significant operating losses in recent years and utilization of cash resources continues at a substantial level. ZixCorp anticipates further losses in 2004 and 2005.

Our acquisitions in 2003 and 2004 of three companies may require us to invest significant resources to make them successful.

In July 2003, we acquired substantially all of the assets of PocketScript, LLC (PocketScript), a provider of electronic prescription solutions for the healthcare industry; in September 2003, we acquired substantially all of the assets of Elron Software Inc. (Elron), a provider of anti-spam, email content filtering and Web filtering solutions; and in late January 2004, we acquired substantially all of the assets of MyDocOnline, Inc. (MyDocOnline), a provider of secure Web-based communications and laboratory information solutions. PocketScript and MyDocOnline are start-up ventures in emerging markets. While Elron has been in business for a number of years, its revenues have declined in recent years. PocketScript, Elron, and MyDocOnline have incurred operating losses in recent years. The ability to increase the companies' revenues in the near future is largely dependent upon, in Elron's case, whether our efforts to bring enhanced and new products to market are successful, and in the case of PocketScript and MyDocOnline, whether we are able to develop the market for their products and services. Our challenge is to make these new subsidiaries profitable. To do so may require us to invest significant resources, including significant amounts of cash, and there are no assurances that these subsidiaries will become profitable in the near term.

The market may not broadly accept our e-messaging and e-prescribing products and services and related applications and services, which would prevent us from operating profitably.

We must be able to achieve broad market acceptance for our e-messaging and e-prescribing products and services and related applications and services in order to operate profitably. We have not yet been able to do this. To our knowledge, there are currently no secure e-messaging protection businesses similar to our Zix branded business that currently operate at the scale that we would require, at our current expenditure levels and pricing, to become profitable. As previously noted, PocketScript and MyDocOnline are start-up ventures in emerging markets. There is no assurance that any of our products and services will become generally accepted or that they will be compatible with any standards that become generally accepted, nor is there any assurance that enough paying users will ultimately be obtained to enable us to operate these businesses profitably.

Failure to enter into new sponsorship agreements for or generate other revenue opportunities from our PocketScript e-prescribing services could harm our business.

In 2004, orders for our PocketScript e-prescribing services have come exclusively from sponsorship agreements with healthcare payors, such as health insurance companies, pharmacy benefit managers, or self-insured companies. Under our payor sponsorship business model, the healthcare payor typically pays for the cost of deploying the PocketScript services to the end-user physician and for the cost of a one-year subscription to use the services. All end-user physicians that are using the PocketScript services and for which we are currently recognizing revenue are doing so under a subscription arrangement that has been paid for by a healthcare payor. Although we believe that physicians will pay to use the PocketScript services following the one year of service paid for by the healthcare payors, there is no assurance that they will do so. Furthermore, the sponsorship agreement with one healthcare payor accounted for \$883,000 and \$1,287,000, or 23% and 13%, respectively, of our total revenues in the three months and nine months ending September 30, 2004. We expected to deploy the PocketScript services to the physicians covered by this sponsorship agreement by the end of 2004.

While we are optimistic that we will be successful in signing a follow-on order with the one healthcare payor noted above and signing new sponsorship agreements with other payors in the coming months or in identifying other revenue opportunities for our e-prescribing services, such as add-on applications, prescription

Table of Contents

transaction fees, or new uses for the transaction data itself, there is no assurance that we will be able to do so. Failure to do so may prevent us from achieving significant revenues from our e-prescribing services.

Competition in our businesses is expected to increase, which could cause our business to fail.

Our Zix branded solutions are targeted to the secure e-messaging protection and e-transaction services market. Elron's product solutions have enabled us to enhance our Zix branded protection management services by adding a new feature set to our anti-virus, anti-spam and email content filtering services while expanding our offering to include URL filtering. Our PocketScript® and MyDocOnline businesses are targeted toward the emerging markets for electronic prescriptions and online communication among the healthcare community. As the public's and governmental authorities' awareness about the need for privacy and security of electronic communications has increased over the past few years, an increasing number of competitors have entered the market.

Although there are many large, well-funded participants in the information technology security industry, few currently participate in the secure e-messaging protection and e-transaction services market in which our Zix branded solutions compete. Most other product-only solutions in this market require extensive increases in overhead to implement and deploy them. Our Zix branded solutions can be made operational in a very short period of time compared to the longer procurement and deployment cycles common with the solutions of many of our competitors. Our service and product offerings are focused on the secure communications market, including secure e-messaging and protection management. Companies that compete with our Zix branded secure e-messaging and protection business include content management and secure delivery companies, such as Authentica, Inc., Certified Mail, Sigaba Corporation and Tumbleweed Communications Corp., and other messaging/spam protection participants such as BrightMail Incorporated, CipherTrust, Inc., ClearSwift Limited, FrontBridge Technologies, Inc., MessageLabs, Postini, Inc., NetIQ Corp. and SurfControl Incorporated.

Our Zix branded products and Elron products also compete with several product companies that deliver anti-virus solutions that may also contain limited email messaging/spam protection capabilities, including McAfee, Inc., Sophos, Inc., Symantec Corporation and Trend Micro, Inc. We also compete with companies that offer Web filtering products, such as Secure Computing Corporation, SurfControl Incorporated, Websense, Inc. and NetIQ Corp.

In addition, we face competition from vendors of Internet server appliances, operating systems, networking hardware, network management solutions and security software, many of which now, or may in the future, develop or bundle secure e-messaging, messaging/spam protection and/or Web filtering capabilities into their products.

We may face increased competition as these competitors partner with others or develop new product and service offerings to expand the functionality that they can offer to their customers. We believe that the secure e-messaging, e-prescribing and e-transaction services market is growing, unlike many segments of the information technology security industry which are not growing. We have spent several years on infrastructure development and product development. Our competitors may, over time, develop new technologies that are perceived as being more secure, effective or cost efficient than our own. These competitors could successfully garner a significant share of the market, to the exclusion of our company. Furthermore, increased competition could result in pricing pressures, reduced margins or the failure of our business to achieve or maintain market acceptance, any of which could harm our business.

Our PocketScript e-prescribing services applies the benefits of e-messaging to the medical prescription process by enabling providers to write and transmit prescriptions electronically from anywhere directly to the pharmacy. Our PocketScript services, targeted to the e-prescription marketplace, are expected to grow as more physicians are leveraging technology in delivering healthcare services, coupled with the fact that the number of prescriptions written annually in the United States continues to increase. Participants in the e-prescribing space include AllScripts

Table of Contents

AdvancePCS). Competition from these companies and from vendors in related areas, such as electronic medical records vendors who are expected to include e-prescribing services as an element of their service offering is expected to increase.

Our MyDocOnline business offers an Internet-based healthcare service, Dr. Chart[®]. Dr. Chart is a Web-based communication tool that connects healthcare providers and laboratories by allowing doctors to initiate lab orders, check medical necessity compliance and view results rapidly and accurately using a secure Internet connection. Competitors include 4Medica, Inc., Cerner Corporation and Misys plc. All of the competitors offer the same basic services that Dr. Chart offers. We expect to face increasing competition in this arena and our competitors may develop products and services that are perceived to be better than ours.

Our inability to successfully and timely develop and introduce new e-messaging, e-prescribing and e-transaction products and related applications and services and to implement technological changes could harm our business.

The emerging nature of the secure e-messaging, e-prescribing and e-transaction services business and its rapid evolution require us continually to develop and introduce new products and related applications and services and to improve the performance, features and reliability of our existing products and related applications and services, particularly in response to competitive offerings. Our Elron business, while having a significant customer base and meaningful revenues, has not been profitable in recent years.

We also have under development new feature sets for our current Zix branded product line and service offerings and are considering new secure e-messaging products and services. By adding Elron's product line to our current service offerings, we were able to accelerate the development time we would have otherwise needed to build additional feature sets into our Zix branded product and service offerings. The success of new or enhanced products and services depends on several factors primarily, market acceptance. We may not succeed in developing and marketing new or enhanced products and services that respond to competitive and technological developments and changing customer needs. This could harm our business.

If the market for secure e-messaging, e-prescribing and e-transaction products and related applications and services does not continue to grow, demand for our products and services will be adversely affected.

The market for secure electronic communications is a developing market. Continued growth of the secure e-messaging, e-prescribing and e-transaction products and related applications and services market will depend to a large extent on the market recognizing the need for secure electronic communications, such as email encryption, e-prescribing and electronic lab results. Failure of this market to grow would harm our business.

If healthcare providers fail to adopt the PocketScript and MyDocOnline Care Delivery Solutions, we will fail to achieve the critical mass of physicians and patients to build a successful business.

Our PocketScript e-prescribing services and our MyDocOnline service are targeted to the emerging market for providing secure communications among healthcare providers to deliver information in an efficient, economical manner. These are emerging markets, and the success of our PocketScript and MyDocOnline services is dependent, in large measure, on physicians and other healthcare providers changing the manner in which they conduct their medical practices by beginning to use secure wireless and Internet communications channels to communicate with medical laboratories, payors, drug formularies and others. Our challenge is to make these new businesses profitable. To do so may require us to invest significant resources, including significant amounts of cash. There is no assurance that enough paying users will ultimately be obtained to enable us to operate these businesses profitably. In early November 2004, we announced a material charge for impairment to an intangible asset of approximately \$675,000, which was reflected in our third quarter 2004 financial results. The asset impairment resulted from a decision of our

management to suspend research and development and terminate sales and marketing efforts for our Connect service, which was one of the

Table of Contents

products offered by the MyDocOnline Care Delivery portion of our business, because continuing to operate the MyDocOnline Connect service was not consistent with our goal of achieving cash flow breakeven. It is possible that we may incur further charges for other asset impairments in the future as we evaluate the prospects of our various lines of business.

Capacity limits on our technology and network hardware and software may be difficult to project, and we may not be able to expand and upgrade our systems to meet increased use, which would result in reduced revenues.

While we have ample through-put capacity to handle our customers' requirements for the medium term, at some point we may be required to materially expand and upgrade our technology and network hardware and software. We may not be able to accurately project the rate of increase in usage on our network, particularly since we have significantly expanded our potential customer base by our acquisition of PocketScript and MyDocOnline, whose service offerings are supported by our ZixSecure Center™. In addition, we may not be able to expand and upgrade, in a timely manner, our systems and network hardware and software capabilities to accommodate increased traffic on our network. If we do not timely and appropriately expand and upgrade our systems and network hardware and software, we may lose customers and revenues.

Security interruptions to our data centers could disrupt our business, and any security breaches could expose us to liability and negatively impact customer demand for our products and services.

Our business depends on the uninterrupted operation of our data centers—currently, our ZixSecure Center located in Dallas, Texas; the Austin, Texas data center used for fail-over and business continuity services; and the Cincinnati data center used for quality assurance and staging of new customers of our PocketScript e-prescribing service. We must protect these centers from loss, damage or interruption caused by fire, power loss, telecommunications failure or other events beyond our control. Any damage or failure that causes interruptions in our data centers operations could materially harm our business, financial condition and results of operations.

In addition, our ability to issue digitally-signed certified time-stamps and public encryption codes in connection with our Zix branded products and services and to support PocketScript's e-prescribing services and MyDocOnline's service depends on the efficient operation of the Internet connections between customers and our data centers. We depend on Internet service providers efficiently operating these connections. These providers have experienced periodic operational problems or outages in the past. Any of these problems or outages could adversely affect customer satisfaction.

Furthermore, it is critical that our facilities and infrastructure remain secure and the market perceives them to be secure. Despite our implementation of network security measures, our infrastructure may be vulnerable to physical break-ins, computer viruses, attacks by hackers and similar disruptions from unauthorized tampering with our computer systems. In addition, we are vulnerable to coordinated attempts to overload our systems with data, resulting in denial or reduction of service to some or all of our users for a period of time. We do not carry insurance to compensate us for losses that may occur as a result of any of these events; therefore, it is possible that we may have to use additional resources to address these problems.

Secure messages sent through our ZixPort® and ZixMessage Center™ messaging portals in connection with the operation of our secure e-messaging protection and e-transaction services include personal health care information as well as personal financial information. This information will reside, for a user-specified period of time, in our secure data center network; individual prescription histories transmitted through our PocketScript system will reside in our secure data center network; and the personal healthcare information transmitted through our MyDocOnline Dr. Chart system will reside in our secure data center network. Federal and state laws impose significant financial penalties for unauthorized disclosure of personal health care information and personal financial information. Exposure of this

information, resulting from any physical or electronic break-ins

Table of Contents

or other security breaches or compromises of this information, could expose us to significant liability, and customers could be reluctant to use our Internet-related products and services.

Pending litigation could have a material impact on our operating results and financial condition.

Beginning in early September 2004, several purported shareholder class action lawsuits and one purported shareholder derivative lawsuit were filed in the U.S. District Court for the Northern District of Texas against us and certain of our current and former officers and directors. The purported class action lawsuits seek unspecified monetary damages on behalf of purchasers of ZixCorp's common stock between October 30, 2003 and May 4, 2004. The purported shareholder class action lawsuits allege that the defendants made materially false and misleading statements and/or omissions in violation of Sections 10(b) and 20(a) of the Securities Exchange Act of 1934 (the Exchange Act) during this time period.

The purported shareholder derivative lawsuit relates to the allegedly materially false and misleading statements and/or omissions that are the subject of the purported shareholder class action lawsuits. The derivative lawsuit names ZixCorp as a nominal defendant and as actual defendants the individuals named in the purported shareholder class action lawsuits mentioned above, as well as ZixCorp's outside directors. The suit seeks to require ZixCorp to initiate legal action for unspecified damages against the individual defendants named in the purported shareholder class action lawsuits. The suit also alleges breaches of fiduciary duty, abuse of control, insider selling and misappropriation of information and seeks contribution and indemnification against the individual defendants.

These lawsuits may require significant management time and attention and could result in significant legal expenses. While we believe these lawsuits are without merit and intend to defend them vigorously, since these legal proceedings are in the preliminary stages we are unable to predict the scope or outcome of these matters and quantify their eventual impact, if any, on our company. An unfavorable outcome could have a material adverse effect on our business, operating results, cash flow and financial condition. We maintain insurance that may limit our financial exposure for defense costs and liability for an unfavorable outcome, should we not prevail, for claims covered by the insurance coverage.

We may have to defend our rights in intellectual property that we use in our products and services, which could be disruptive and expensive to our business.

We may have to defend our intellectual property rights or defend against claims that we are infringing the rights of others. Intellectual property litigation and controversies are disruptive and expensive. Infringement claims could require us to develop non-infringing products or enter into royalty or licensing arrangements. Royalty or licensing arrangements, if required, may not be obtainable on terms acceptable to us. Our business could be significantly harmed if we are not able to develop or license the necessary technology. Furthermore, it is possible that others may independently develop substantially equivalent intellectual property, thus enabling them to effectively compete against us.

Defects or errors in our products and services could harm our business.

We subject our Zix branded products and services to quality assurance testing prior to product release. There is no assurance that the quality and assurance testing previously conducted by the businesses we acquired on their current products and services conform to our standards for quality assurance testing. Regardless of the level of quality assurance testing, any of our products and services could contain undetected defects or errors. In particular, our PocketScript system is used to dispense prescription drugs. Defects or errors in our PocketScript system could result in inaccurate prescriptions being generated, which could result in injury or death to patients. Thus, undetected defects or errors could result in loss of or delay in revenues, failure to achieve market acceptance, diversion of development

resources, injury to our reputation, litigation claims, increased insurance costs or increased service and warranty costs. Any of these could prevent us from implementing our business model and achieving the revenues we need to operate profitably.

Table of Contents

Public key cryptography technology is subject to risks.

Our Zix branded products and services, the PocketScript e-prescribing services and the MyDocOnline service employ, and future products and services may employ, public key cryptography technology. With public key cryptography technology, a public key and a private key are used to encrypt and decrypt messages. The security afforded by this technology depends, in large measure, on the integrity of the private key, which is dependent, in part, on the application of certain mathematical principles. The integrity of the private key is predicated on the assumption that it is difficult to mathematically derive the private key from the related public key. Should methods be developed that make it easier to derive the private key, the security of encryption products using public key cryptography technology would be reduced or eliminated and such products could become unmarketable. This could require us to make significant changes to our products, which could damage our reputation and otherwise hurt our business. Moreover, there have been public reports of the successful decryption of certain encrypted messages. This, or related, publicity could adversely affect public perception of the security afforded by public key cryptography technology, which could harm our business.

We depend on key personnel.

We depend on the performance of our senior management team including our chairman and chief executive officer, John A. Ryan, our president and chief operating officer, Richard D. Spurr, and their direct reports and other key employees, particularly highly skilled technical personnel. Our success depends on our ability to attract, retain and motivate these individuals. There are no binding agreements with any of our employees that prevent them from leaving our company at any time. There is competition for these personnel. In addition, we do not maintain key person life insurance on any of our personnel. The loss of the services of any of our key employees or our failure to attract, retain and motivate key employees could harm our business.

We could be affected by government regulation.

Exports of software products using encryption technology, such as our Zix branded products and services, are generally restricted by the U.S. government. Although we have obtained U.S. government approval to export our products to almost all countries in the world, the list of countries to which our products cannot be exported could be revised in the future. Furthermore, some foreign countries impose restrictions on the use of encryption products, such as our products. Failure to obtain the required governmental approvals would preclude the sale or use of our products in international markets.

Furthermore, boards of pharmacy in the various states in which our PocketScript and MyDocOnline businesses operate regulate the process by which physicians write prescriptions. While regulations in the states in which these businesses currently generally operate permit the electronic writing of prescriptions, such regulations could be revised in the future. Moreover, regulations in states in which these businesses do not currently operate may not be as favorable and may impede our ability to develop business in these states. Furthermore, future state or federal regulation could mandate standards for the electronic writing of prescriptions or for the secure electronic transmittal of personal health information through the Internet that our technology and systems do not comply with, which would require us to modify our technology and systems.

Our stock price may be volatile.

The market price of our common stock has fluctuated significantly in the past and is likely to fluctuate in the future. Our stock price may decrease as a result of the dilutive effect caused by the additional number of shares that may become available in the market due to the issuances of our common stock in connection with the capital funding and acquisition transactions we completed over the last year. As of January 14, 2005, there was a short position in our

common stock of 7,025,576.

Table of Contents

Our directors and executive officers own a substantial percentage of our securities. Their ownership could allow them to exercise significant control over corporate decisions and to implement corporate acts that are not in the best interests of our shareholders as a group.

Our directors and executive officers beneficially own shares of our securities that represent approximately 16.3% (measured as of the date of this prospectus without giving effect to the potential issuance of our common stock pursuant to the notes and the warrants held by the selling shareholders) of the combined voting power eligible to vote on matters brought before our shareholders, including securities and associated warrants beneficially owned by Antonio R. Sanchez, Jr., a former director and father of a current director (Antonio R. Sanchez III), and current beneficial owner of approximately 7.8% (measured as of the date of this prospectus without giving effect to the potential issuance of our common stock pursuant to the notes and the warrants held by the selling shareholders) of our outstanding common stock, and John A. Ryan, our chairman and chief executive officer. Therefore, our directors and executive officers, if they acted together, could exert substantial influence over matters requiring approval by our shareholders. These matters would include the election of directors. This concentration of ownership and voting power may discourage or prevent someone from acquiring our business.

One investor owns a large percentage of our outstanding stock and could significantly influence the outcome of actions.

George W. Haywood and an IRA for the benefit of Mr. Haywood beneficially own approximately 13.5% of our outstanding common stock (measured as of the date of this prospectus without giving effect to the potential issuance of our common stock pursuant to the notes and the warrants held by the selling shareholders). Therefore, Mr. Haywood could exert substantial influence over all matters requiring approval by our shareholders, including the election of directors. Mr. Haywood's interests may not be aligned with the interests of our other shareholders. This concentration of ownership and voting power may discourage or prevent someone from acquiring our business.

We have a substantial amount of debt and may be unable to service or refinance this debt or servicing this debt may restrict cash available for our business operations.

After giving effect to the notes offering and the use of proceeds therefrom, our total outstanding indebtedness will be approximately \$23 million. This high level of debt could have negative consequences. For example, it could:

result in our inability to comply with the financial and other restrictive covenants in the notes, which, among other things, require us to maintain specified cash levels and limit our ability to incur debt and sell assets, which could in turn result in an event of default that, if not cured or waived, could have a material adverse effect on our operations;

require us to dedicate a substantial portion of our cash flow from operations to make scheduled principal payments on our debt or to meet required cash reserves, thereby reducing the availability of our cash flow for working capital, capital investments and other business activities;

increase our vulnerability to adverse industry and general economic conditions;

limit our ability to obtain additional financing to fund future working capital, capital investments and other business activities;

limit our ability to refinance our indebtedness on terms that are commercially reasonable or at all; and

limit our flexibility to plan for, and react to, changes in our business and our industry.

Table of Contents

Further issuances of equity securities may be dilutive to current shareholders.

At the current conversion price of \$6.00 per share, the convertible notes would convert into an aggregate of 3,333,333 shares of ZixCorp common stock shares. Warrants covering 1,000,000 shares were also issued to the holders of the notes. Also, as noted elsewhere in this prospectus, ZixCorp has the option to pay accrued interest on the notes using its common stock shares, valued at a 10% discount to the volume weighted average price for the common stock for a specified number of trading days preceding the interest payment date. The issuances of these shares of common stock in respect of the notes and the warrants could be dilutive to current shareholders.

Furthermore, at some point in the future we may determine to seek additional capital funding or to acquire additional businesses. These events could involve the issuance of one or more types of equity securities, including convertible debt, common or convertible preferred stock and warrants to acquire common or preferred stock. Such equity securities could be issued at or below the then-prevailing market price for our common stock. In addition, we incentivize employees and attract new employees by issuing shares of our common stock and options to purchase shares of our common stock. Therefore, the interest of our existing shareholders could be diluted by future share issuances and stock option grants to employees and any equity securities issued in capital funding financings or business acquisitions.

We may have liability for indemnification claims arising from the sale of our previous businesses in 1998 and 1997.

We disposed of our previous operating businesses in 1998 and 1997. In selling those businesses, we agreed to provide customary indemnification to the purchasers of those businesses for breaches of representations and warranties, covenants and other specified matters. Although we believe that we have adequately provided for future costs associated with these indemnification obligations, indemnifiable claims could exceed our estimates.

We may encounter other unanticipated risks and uncertainties in the markets we serve or in developing new products and services, and we cannot assure you that we will be successful in responding to any unanticipated risks or uncertainties.

There are no assurances that we will be successful or that we will not encounter other, and even unanticipated, risks. We discuss other operating, financial or legal risks or uncertainties in our periodic filings with the Securities and Exchange Commission (the SEC). We are, of course, also subject to general economic risks.

NOTE ON FORWARD-LOOKING STATEMENTS AND RISK FACTORS

This document contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 (the Act) and Section 21E of the Exchange Act. All statements other than statements of historical fact are forward-looking statements for purposes of federal and state securities laws, including: any projections of future business, market share, earnings, revenues or other financial items; any statements of the plans, strategies and objectives of management for future operations; any statements concerning proposed new products, services or developments; any statements regarding future economic conditions or performance; any statements of belief; and any statements of assumptions underlying any of the foregoing. Forward-looking statements may include the words may, will, predict, plan, should, goal, estimate, intend, continue, believe, expect, anticipate and other forward-looking statements may be contained in the Risk Factors section above, among other places.

Although we believe that the expectations reflected in any of our forward-looking statements are reasonable, actual results could differ materially from those projected or assumed in any of our forward-looking statements. Our future

financial condition and results of operations, as well as any forward-looking statements,

Table of Contents

are subject to change and to inherent risks and uncertainties, such as those disclosed in this document. We do not intend, and undertake no obligation, to update any forward-looking statement.

DOCUMENTS INCORPORATED BY REFERENCE

We furnish our shareholders with annual reports containing audited financial statements and other appropriate reports. We also file annual, quarterly and special reports, proxy statements and other information with the SEC. Instead of repeating information that we have already filed with the SEC, we are allowed to incorporate by reference in this prospectus information contained in those documents we have filed with the SEC. These documents are considered to be part of this prospectus.

We incorporate by reference in this prospectus the documents listed below and any future filings we make with the SEC under Sections 13(a), 13(c), 14 or 15(d) of the Exchange Act until the selling shareholders sell all of the shares of common stock offered by this prospectus:

our Annual Report on Form 10-K, including audited financial statements, for our fiscal year ended December 31, 2003;

our Quarterly Report on Form 10-Q/A for the quarterly period ended March 31, 2004 and our Quarterly Reports on Form 10-Q for the quarterly periods ended June 30, 2004 and September 30, 2004;

our Current Reports on Form 8-K dated February 10, 2004, April 7, 2004, June 23, 2004, September 7, 2004, and November 4, 2004, and our Current Reports on Form 8-K/A dated April 14, 2004 and May 6, 2004;

our Definitive Proxy Statement on Schedule 14A for our Annual Meeting of Stockholders held on May 6, 2004; and

the description of our common stock contained in our Registration Statement on Form 8-A, dated September 25, 1989, including any amendment or report filed for the purpose of updating such description.

Any documents that we file with the SEC pursuant to Section 13(a), 13(c), 14 or 15(d) of the Exchange Act, prior to the selling shareholders selling all of the shares of common stock offered by this prospectus, will also be considered to be part of this prospectus and will automatically update and supersede the information contained in this prospectus.

At your request, we will provide you, without charge, a copy of any of the documents we have incorporated by reference into this prospectus but not delivered with the prospectus (other than exhibits to such documents, unless those exhibits are specifically incorporated by reference into the documents that this prospectus incorporates). If you want more information, write or call:

Bradley C. Almond
Vice President and Chief Financial Officer
Zix Corporation
2711 North Haskell Avenue, Suite 2300, LB 36
Dallas, Texas 75204-2960
Telephone: (214) 370-2000

WHERE YOU CAN FIND MORE INFORMATION

Edgar Filing: ZIX CORP - Form S-3/A

We are delivering this prospectus to you in accordance with the U.S. securities laws. We have filed a registration statement with the SEC to register the common stock that the selling shareholders are offering to you. This prospectus is part of that registration statement. As allowed by the SEC's rules, this prospectus does not contain all of the information that is included in the registration statement.

You may obtain a copy of the registration statement, or a copy of any other filing we have made with the SEC, directly from the SEC. You may either:

read and copy any materials we have filed with the SEC at the SEC's Public Reference Room maintained at 450 Fifth Street, N.W., Washington, D.C. 20549; or

14

Table of Contents

visit the SEC's Internet site at <http://www.sec.gov>, which contains reports, proxy and information statements, and other information regarding us and other issuers that file electronically with the SEC.

You may obtain more information on the operation of the Public Reference Room by calling the SEC at 1-800-SEC-0330.

SELLING SHAREHOLDERS

On November 2, 2004, we consummated a private placement transaction in which we received net proceeds of approximately \$18.9 million for the issuance and sale of \$20 million aggregate principal amount of convertible notes and related warrants. The purchasers of the notes were Amulet Limited and Omicron Master Trust. The placement agent for the convertible notes and related warrants was Rodman & Renshaw, LLC, who received warrants to purchase 166,667 shares of our common stock as a partial placement fee. The Investors and the Placement Agent are the selling shareholders hereunder.

The table below lists the selling shareholders and other information regarding their ownership of our common stock. The second and third columns list the number and percent of shares of common stock beneficially held by each selling shareholder as of November 2, 2004, taking into account its ownership of convertible notes and warrants, as applicable, but without giving effect to any limitations on conversion or exercise thereof. The fourth column shows the number of shares of common stock being offered by this prospectus by the selling shareholders. The fifth and sixth columns show the number and percent of shares of common stock to be beneficially held by each selling shareholder after the offering of shares under this prospectus (assuming the sale of all of the shares offered by the selling shareholders pursuant to this prospectus).

In accordance with the terms of the registration rights agreement with the Investors, this prospectus covers the resale of the number of shares of common stock equal to (i) 150% of the shares of common stock potentially issuable from time-to-time to the Investors upon conversion of the notes issued to the Investors, plus an estimated number of shares of common stock potentially issuable to the Investors in respect of accrued interest on the notes, plus (ii) 150% of the shares of common stock issuable upon exercise of the related warrants held by the Investors. The common stock that may be sold by the Investors may include shares (i) issued upon conversion of or in lieu of payment of cash interest on the convertible notes acquired by the Investors, (ii) issued upon exercise of the warrants issued to the Investors or upon exercise of a warrant that would be issued to the Investors upon the redemption of the convertible notes, or (iii) shares issued in exchange for, or otherwise in respect of, the convertible notes or the warrants. With respect to Rodman & Renshaw, LLC, this prospectus covers the resale of 150% of the number of shares of common stock issuable upon exercise of the warrants issued to it. Under the terms of the notes and warrants, an Investor may not convert a note, or exercise the associated warrants, to the extent such conversion or exercise would cause the Investor, together with its affiliates, to have acquired a number of shares of common stock which would exceed 4.99% of our then-outstanding common stock, other than by virtue of the ownership of securities or rights to acquire securities that have limitations on the holders' right to convert, exercise or purchase similar to the limitation set forth in the notes and warrants. Furthermore, the purchase agreement provides that the aggregate number of shares issued under the notes and warrants and otherwise in connection with the financing transaction may not exceed 19.9% of the number of outstanding shares of our common stock (measured as of the date of the purchase agreements relating to the financing transaction). The number and percentage of shares in the table below do not reflect these limitations. The selling shareholders may sell all, some or none of their shares in this offering. We do not know how long the selling shareholders will hold the shares before selling them or how many shares they will sell and we currently have no agreements, arrangements or understandings with the security holders regarding the sale of any of the shares held by them. See Plan of Distribution.

Table of Contents

NAME OF OWNER	OWNERSHIP PRIOR TO OFFERING			OWNERSHIP AFTER OFFERING

- (1) Each of Amaranth Securities L.L.C. and Amaranth Global Securities Inc. is a broker-dealer registered pursuant to Section 15(b) of the Securities Exchange Act of 1934 (Exchange Act) and is a member of the National Association of Securities Dealers, Inc. (the NASD). Each such broker-dealer may be deemed to be an affiliate of the selling shareholder. Neither of such broker-dealers, however, is authorized by the NASD to engage in securities offerings either as an underwriter or as a selling group participant and neither of such broker-dealers actually engages in any such activity. The selling shareholder has informed us that it acquired the securities in the ordinary course of business, and at the time of the acquisition of the securities had no agreements, understandings or arrangements with any other persons, either directly or indirectly, to distribute the securities. Amaranth Advisors L.L.C., the trading advisor for Amulet Limited, exercises voting and dispositive power over the convertible note and warrant held by the selling shareholder. Nicholas M. Maounis is the managing member of Amaranth Advisors L.L.C.
- (2) Omicron Capital, L.P., a Delaware limited partnership (Omicron Capital), serves as investment manager to Omicron Master Trust, a trust formed under the laws of Bermuda (Omicron), Omicron Capital, Inc., a Delaware corporation (OCI), serves as general partner of Omicron Capital, and Winchester Global Trust Company Limited (Winchester) serves as the trustee of Omicron. By reason of such relationships, Omicron Capital and OCI may be deemed to share dispositive power over the shares of our common stock owned by Omicron, and Winchester may be deemed to share voting and dispositive power over the shares of our common stock owned by Omicron. Omicron Capital, OCI and Winchester disclaim beneficial ownership of such shares of our common stock. As of November 2, 2004, Mr. Olivier H. Morali and Mr. Bruce T. Bernstein, officers of OCI, have delegated authority from the board of directors of OCI regarding the portfolio management decisions with respect to the shares of our common stock owned by Omicron. By reason of such delegated authority, Messrs. Morali and Bernstein may be deemed to share dispositive power over the shares of our common stock owned by Omicron. Messrs. Morali and Bernstein disclaim beneficial ownership of such shares of our common stock and neither of such persons has any legal right to maintain such delegated authority. No other person has sole or shared voting or dispositive power with respect to the shares of our common stock being offered by Omicron, as those terms are used for purposes under Regulation 13D-G of the Securities Exchange Act of 1934, as amended. Omicron and Winchester are not affiliates of one another, as that term is used for purposes of the Exchange Act or of any other person named in this prospectus as a selling stockholder. No person or group (as that term is used in Section 13(d) of the Exchange Act or the SEC's Regulation 13D-G) controls Omicron and Winchester.
- (3) Rodman & Renshaw, LLC is a broker-dealer registered pursuant to Section 15(b) of the Exchange Act and is a member of the NASD.

Table of Contents

- (4) Represents 1,666,667 shares potentially issuable to the Investor as of November 2, 2004, upon conversion of the notes held by the Investor, plus 500,000 shares of common stock issuable to the Investor as of November 2, 2004, upon exercise of the related warrants held by the Investor.
- (5) Represents the shares of common stock currently issuable to the Placement Agent upon exercise of the warrants held by the Placement Agent.
- (6) Under the terms of the notes and warrants, an Investor may not convert a note, or exercise the associated warrants, to the extent such conversion or exercise would cause the Investor, together with its affiliates, to have acquired a number of shares of common stock which would exceed 4.99% of our then-outstanding common stock, other than by virtue of the ownership of securities or rights to acquire securities that have limitations on the holders' right to convert, exercise or purchase similar to the limitation set forth in the notes and warrants.
- (7) Represents 150% of the shares of common stock potentially issuable to the Investor as of November 2, 2004, upon conversion of the notes issued to the Investor, plus (ii) 150% of the shares of common stock issuable to the Investor as of November 2, 2004, upon exercise of the related warrants held by the Investor, plus (iii) an estimated number of shares of common stock potentially issuable to the Investor in respect of accrued interest on the notes.
- (8) Represents 150% of the shares issuable upon exercise of the warrants held by Rodman & Renshaw, LLC.

PLAN OF DISTRIBUTION

We are registering the shares of common stock to permit the resale of the shares of common stock by the selling shareholders. We will not receive any of the proceeds from the sale by the selling shareholders of the shares of common stock. We will bear all fees and expenses incident to our obligation to register the shares of common stock.

The selling shareholders may sell all or a portion of the common stock beneficially owned by them and offered hereby from time-to-time directly or through one or more underwriters, broker-dealers or agents. If the common stock is sold through underwriters or broker-dealers, the selling shareholders will be responsible for underwriting discounts or commissions or agent's commissions. The common stock may be sold in one or more transactions at fixed prices, at prevailing market prices at the time of the sale, at varying prices determined at the time of sale, or at negotiated prices. These sales may be effected in by any one or more of the following methods:

ordinary brokerage transactions and transactions in which the broker-dealer solicits purchasers;

block trades in which the broker-dealer will attempt to sell the shares as agent but may position and resell a portion of the block as principal to facilitate the transaction;

purchases by a broker-dealer as principal and resale by the broker-dealer for its account;

an exchange distribution in accordance with the rules of the applicable exchange;

privately negotiated transactions;

settlement of short sales;

broker-dealers may agree with the selling shareholder to sell a specified number of shares at a stipulated price per share;

Table of Contents

through the writing or settlement of options or other hedging transactions, whether through an options exchange or otherwise;

one or more underwritten offerings on a firm commitment or best efforts basis;

any other method permitted pursuant to applicable law; or

a combination of any such methods of sale.

The selling shareholders may also sell shares under Rule 144 under the Act, if available, rather than under this prospectus.

Broker-dealers engaged by a selling shareholder may arrange for other broker-dealer to participate in sales. If the selling shareholders effect such transactions by selling shares of common stock to or through underwriters, broker-dealers or agents, such underwriters, brokers-dealers or agents may receive commissions to facilitate the transactions in the form of discounts, concessions or commissions from the selling shareholders or commissions from purchasers of the shares of common stock for whom they may act as agent or to whom they may sell as principal (which discounts, concessions or commissions as to particular underwriters, brokers-dealers or agents may be in excess of those customary in the types of transactions involved). In connection with sales of the common stock or otherwise, the selling shareholders may enter into hedging transactions with broker-dealers, which may in turn engage in short sales of the common stock in the course of hedging in positions they assume. Subject to compliance with applicable law, the selling shareholders may also sell shares of common stock short and deliver shares of common stock covered by this prospectus to close out short positions, provided that the short sale is made after the registration statement is declared effective and a copy of this prospectus is delivered in connection with the short sale.

The selling shareholders may pledge or grant a security interest in some or all of the shares of common stock owned by such selling shareholders, and, if such selling shareholders default in the performance of their secured obligations, the pledgees or secured parties may offer and sell the shares of common stock from time-to-time pursuant to this prospectus. The selling shareholders may also transfer and donate the shares of common stock in other circumstances in which case the transferees, donees, pledgees or other successors in interest will be the selling beneficial owners for purposes of this prospectus.

The selling shareholders and any broker-dealer participating in the distribution of the shares of common stock may be deemed to be underwriters within the meaning of the Act, and any commissions paid, or any discounts or concessions allowed to any such broker-dealer may be deemed to be underwriting commissions or discounts under the Act. At the time a particular offering of the shares of common stock is made, a prospectus supplement, if required, will be distributed which will set forth the aggregate amount of shares of common stock being offered and the terms of the offering, including the name or names of any broker-dealers or agents, any discounts, commissions and other terms constituting compensation from the selling shareholders and any discounts, commissions or concessions allowed or reallocated or paid to broker-dealers.

Under the securities laws of some states, the shares of common stock may be sold in such states only through registered or licensed brokers or dealers. In addition, in some states the shares of common stock may not be sold unless such shares have been registered or qualified for sale in such state or an exemption from registration or qualification is available and is complied with.

There can be no assurance that the selling shareholders will sell any or all of the shares of common stock registered pursuant to the shelf registration statement, of which this prospectus forms a part.

The selling shareholders and any other person participating in such distribution will be subject to applicable provisions of the Exchange Act and the rules and regulations thereunder, including, without limitation, Regulation M of the Exchange Act, which may limit the timing of purchases and sales of any of the

Table of Contents

shares of common stock by the selling shareholders and any other participating person. Regulation M may also restrict the ability of any person engaged in the distribution of the shares of common stock to engage in market-making activities with respect to the shares of common stock. All of the foregoing may affect the marketability of the shares of common stock and the ability of any person or entity to engage in market-making activities with respect to the shares of common stock.

We will pay all expenses of the registration of the shares of common stock pursuant to the registration rights agreement, including, without limitation, SEC filing fees and expenses of compliance with state securities or blue sky laws; provided, however, that the selling shareholders will pay all underwriting discounts and selling commissions, if any. In connection with sales made pursuant to this prospectus, we will indemnify the selling shareholders against liabilities, including some liabilities under the Act, in accordance with the registration rights agreement, or the selling shareholders will be entitled to contribution. We will be indemnified by the selling shareholders against civil liabilities, including liabilities under the Securities Act that may arise from any written information furnished to us by the selling shareholders for use in this prospectus, in accordance with the related registration rights agreement, or we will be entitled to contribution.

Once sold under the shelf registration statement, of which this prospectus forms a part, the shares of common stock will be freely tradable in the hands of persons other than our affiliates.

REGISTRATION REQUIREMENTS

We and the selling shareholders entered into a registration rights agreement, under which we agreed to prepare and file a registration statement covering the resale of the shares of common stock covered by the registration statement of which this prospectus forms a part.

USE OF PROCEEDS

We will not receive any of the proceeds from the sale of the common stock by the selling shareholders, rather, the selling shareholders will receive those proceeds directly.

LEGAL MATTERS

The validity of the stock offered hereby will be passed upon for us by Ronald A. Woessner, our Senior Vice President, General Counsel and Secretary.

EXPERTS

The consolidated financial statements appearing in the Annual Report on Form 10-K for our fiscal year ended December 31, 2003, referred to above under the heading Documents Incorporated by Reference have been audited by Ernst & Young LLP, an independent registered public accounting firm, as set forth in their report thereon, included therein, and incorporated herein by reference. Such consolidated financial statements are incorporated herein by reference in reliance upon such report given upon the authority of such firm as experts in accounting and auditing.

The financial statements of MyDocOnline, Inc. incorporated in this prospectus by reference to the Current Report on Form 8-K/A Amendment 1 dated April 14, 2004 have been so incorporated in reliance on the report of

PricewaterhouseCoopers LLP, independent accountants, given on the authority of said firm as experts in auditing and accounting.

Table of Contents

PART II

INFORMATION NOT REQUIRED IN PROSPECTUS

ITEM 14. OTHER EXPENSES OF ISSUANCE AND DISTRIBUTION.

The following table sets forth an estimate of the fees and expenses relating to the issuance and distribution of the securities being registered hereby, other than underwriting discounts and commissions, all of which shall be borne by the registrant. All of such fees and expenses, except for the SEC Registration Fee, are estimated:

SEC registration fee	\$ 4,004.86*
Accounting fees and expenses	\$ 30,000.00
Legal fees and expenses	\$ 2,000.00
Miscellaneous expenses	\$ 2,800.00
 Total	 \$ 38,804.86

* Previously paid on November 16, 2004 with the initial filing.

ITEM 15. INDEMNIFICATION OF DIRECTORS AND OFFICERS.

As permitted by the Texas Business Corporation Act, the registrant's Restated Articles of Incorporation provide that its directors shall not be personally liable to the registrant or its shareholders for monetary damages for breach of fiduciary duty as a director, except for liability for (i) any breach of the director's duty of loyalty to the registrant or its shareholders, (ii) any act or omission not in good faith or which involves intentional misconduct or a knowing violation of law, (iii) any transaction from which the director derived any improper personal benefit, (iv) any act or omission where the liability of the director is expressly provided for by statute, or (v) any act related to an unlawful stock repurchase or payment of a dividend. In addition, the registrant's Restated Articles of Incorporation and Restated Bylaws include certain provisions permitted by the Texas Business Corporation Act whereby its directors, officers, employees and agents generally are to be indemnified against certain liabilities to the fullest extent authorized by the Texas Business Corporation Act. Furthermore, the employment agreements between the registrant and John A. Ryan (the registrant's chairman and chief executive officer) and Richard D. Spurr (the registrant's president and chief operating officer), dated November 14, 2001 and January 20, 2004, respectively, provide Messrs. Ryan and Spurr with a contractual right to indemnification as an officer and/or director of the registrant as set forth in Article VII of the registrant's Restated Bylaws, dated August 1, 2002. The registrant maintains insurance on behalf of its directors and executive officers insuring them against any liability asserted against them in their capacities as directors or officers or arising out of such status.

ITEM 16. EXHIBITS.

The exhibits to this registration statement are listed in the Index to Exhibits on page II-4 of this registration statement, which Index is incorporated herein by reference.

ITEM 17. UNDERTAKINGS.

(a) The undersigned registrant hereby undertakes:

(i)

Edgar Filing: ZIX CORP - Form S-3/A

To file, during any period in which offers or sales are being made, a post-effective amendment to this registration statement:

- (1) To include any prospectus required by Section 10(a)(3) of the Securities Act of 1933;

II-1

Table of Contents

- (2) To reflect in the prospectus any facts or events arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the registration statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the Commission pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than 20 percent change in the maximum aggregate offering price set forth in the Calculation of Registration Fee table in the effective registration statement.
- (3) To include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in the registration statement;

provided, however, that paragraphs (a)(i)(1) and (a)(i)(2) do not apply if the registration statement is on Form S-3, Form S-8 or Form F-3, and the information required to be included in a post-effective amendment by those paragraphs is contained in periodic reports filed with or furnished to the Commission by the registrant pursuant to Section 13 or Section 15(d) of the Securities Exchange Act of 1934 that are incorporated by reference in the registration statement.

- (ii) That, for the purpose of determining any liability under the Securities Act of 1933, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.
- (iii) To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.

(b) The undersigned registrant hereby undertakes that, for purposes of determining any liability under the Securities Act of 1933, each filing of the registrant's annual report pursuant to Section 13(a) or Section 15(d) of the Securities Exchange Act of 1934 (and, where applicable, each filing of an employee benefit plan's annual report pursuant to Section 15(d) of the Securities Exchange Act of 1934) that is incorporated by reference in the registration statement shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(c) Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers and controlling persons of the registrant pursuant to the provisions described in Item 15 or otherwise, the registrant has been advised that in the opinion of the Securities and Exchange Commission, such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such
