SOLICITATION AND REVOCABILITY OF PROXIES

The Board of Directors requests your proxy for use at the Annual Meeting of Stockholders to be held on Thursday, May 11, 2006, and at any adjournment or postponement thereof. By signing and returning the enclosed proxy card or granting your proxy by the Internet or by telephone, you authorize the persons named on the proxy card, or in your telephonically or electronically-submitted proxy (collectively, the Proxy), to represent you and to vote your shares at the Annual Meeting. This Proxy Statement and the proxy card were first mailed to stockholders of the Company on or about April 10, 2006.

This solicitation of proxies is made by the Board of Directors and will be conducted primarily by mail. Officers, directors and employees of the Company may solicit proxies personally or by telephone, electronic mail, telegram or other forms of wire or facsimile communication. The Company may also request banking institutions, brokerage firms, custodians, nominees and fiduciaries to forward solicitation material to the beneficial owners of the Company's common stock (the Common Stock) that those companies hold of record. The costs of the solicitation, including reimbursement of such forwarding expenses, will be paid by the Company.

If you attend the Annual Meeting, you may vote in person. If you are not present at the Annual Meeting, your shares can be voted only if you have returned a properly signed proxy card, are represented by another proxy, or have granted your proxy by the Internet or by telephone. You may revoke your proxy, whether granted by the Internet or by telephone or by returning the enclosed proxy card, at any time before it is exercised at the Annual Meeting by (a) signing and submitting a later-dated proxy to the Secretary of the Company, (b) delivering written notice of revocation of the proxy to the Secretary of the Company, or (c) voting in person at the Annual Meeting. In addition, if you granted your proxy by the Internet or by telephone, you may revoke such grant by resubmitting your proxy by the Internet or by telephone at any time prior to 11:59 p.m., Eastern Daylight Time, on May 10, 2006. In the absence of any such revocation, shares represented by the persons named in the Proxies will be voted at the Annual Meeting.

VOTING AND QUORUM

The only outstanding voting securities of the Company are shares of Common Stock. As of the close of business on the Record Date, there were 29,007,555 shares of Common Stock outstanding and entitled to be voted at the Annual Meeting.

Each outstanding share of Common Stock is entitled to one vote. The presence, in person or by proxy, of a majority of the shares of Common Stock issued and outstanding and entitled to vote as of the Record Date shall constitute a quorum at the Annual Meeting. The holders of a majority of the Common Stock entitled to vote who are present or represented by proxy at the Annual Meeting have the power to adjourn the Annual Meeting from time to time without notice, other than an announcement at the Annual Meeting of the time and place of the holding of the adjourned meeting, until a quorum is present. At any such adjourned meeting at which a quorum is present, any business may be transacted that could have been transacted at the Annual Meeting had a quorum originally been present. Proxies solicited by this Proxy Statement may be used to vote in favor of any motion to adjourn the Annual Meeting. The persons named in the Proxy intend to vote in favor of any motion to adjourn the Annual Meeting to a subsequent day if, prior to the Annual Meeting, such persons have not received sufficient proxies to approve the proposals described in this Proxy Statement. If such a motion is approved but sufficient proxies are not received by the time set for the resumption of the Annual Meeting, this process will be repeated until sufficient proxies to vote in favor of the proposals

Table of Contents

described in this Proxy Statement have been received or it appears that sufficient proxies will not be received. Abstentions and broker non-votes will count in determining if a quorum is present at the Annual Meeting. A broker non-vote occurs if a broker or other nominee attending the meeting in person or submitting a proxy card does not have discretionary authority to vote on a particular item and has not received voting instructions with respect to that item.

PROPOSAL ONE ELECTION OF DIRECTORS

The Board of Directors has designated Buford P. Berry, Matthew P. Clifton, W. John Glancy, William J. Gray, Marcus R. Hickerson, Thomas K. Matthews, II, Robert G. McKenzie, Lamar Norsworthy, Jack P. Reid and Paul T. Stoffel as nominees for election as directors of the Company at the Annual Meeting (each, a Nominee). All of the Nominees currently serve as directors of the Company. If elected, each Nominee will serve until the expiration of his term at the Annual Meeting of Stockholders in 2007 and until his successor is elected and qualified or until his earlier death, resignation or removal from office. For information about each Nominee, see Directors.

The Board of Directors has no reason to believe that any of the Nominees will be unable or unwilling to serve if elected. If a Nominee becomes unable or unwilling to serve prior to the election, your proxy will be voted for the election of a substitute nominee recommended by the current Board of Directors, or the number of the Company's directors will be reduced.

Required Vote and Recommendation

The election of directors requires the affirmative vote of a plurality of the shares of Common Stock present or represented by proxy and entitled to vote at the Annual Meeting. Accordingly, under Delaware law and the Company's Restated Certificate of Incorporation and Bylaws, abstentions and broker non-votes will not have any effect on the election of a particular director. Unless otherwise instructed in the Proxy or unless authority to vote is withheld, the Proxy will be voted for the election of each of the Nominees.

The Board of Directors recommends a vote FOR the election of each of the nominees.

PROPOSAL TWO AMENDMENT TO RESTATED CERTIFICATE OF INCORPORATION TO INCREASE AUTHORIZED SHARES

The Board of Directors is seeking stockholder approval to amend the Company's Restated Certificate of Incorporation to increase the Company's authorized shares of Common Stock to 100,000,000 shares.

Current Capital Structure

As of March 22, 2006, the Company had 29,007,555 outstanding shares of Common Stock, 6,810,305 shares of Common Stock held in treasury, and no outstanding shares of Preferred Stock, plus outstanding options that would allow the holders of these options to purchase 1,017,750 additional shares of Common Stock. The Company is currently authorized to issue 50,000,000 shares of Common Stock and 1,000,000 shares of Preferred Stock.

The Board of Directors has determined that it is in the best interest of the Company and its stockholders to approve an amendment to the Company's Restated Certificate of Incorporation to increase the number of authorized shares of the Company's Common Stock from 50,000,000 shares to 100,000,000 shares. The proposed amendment to the Company's Restated Certificate of Incorporation is attached to this Proxy Statement as Appendix A.

Purpose of the Proposal

The Board of Directors has proposed this amendment to ensure that the Company has sufficient authorized shares available to provide the Company with flexibility in the future to issue shares for general

Table of Contents

corporate purposes in connection with, by way of example and without limitation, possible stock splits effected in the form of stock dividends, payments of stock dividends, future equity financings, future acquisitions or mergers, provision of equity incentives to employees, and recapitalizations. In determining to propose the amendment, the Board of Directors considered that without an increase in authorized shares, it would not be possible for the Company to effect a normal stock split by means of a stock dividend. If the proposed amendment is approved, the additional authorized shares (the Additional Shares) may be issued at such times, for such purposes, and for such consideration as the Board of Directors may determine to be in the best interests of the Company and its stockholders and, except as otherwise required by applicable law, without further authority from the stockholders of the Company. The Company has no current plans or agreements for any use of any of the Additional Shares.

As of March 22, 2006, the maximum number of unreserved shares of Common Stock that may be issued by the Company was 11,636,208. If stockholders do not approve the increase in the Company s authorized Common Stock, the Company may not be able to effect any of the general corporate purposes described above, or any combination thereof.

Effect of Issuance of Additional Shares

Except in the case of a stock dividend or stock split effected in the form of a stock dividend, issuance of any of the Additional Shares may, among other things, have a dilutive effect on earnings per share, and on stockholders equity and voting rights. Issuance of Additional Shares, or the perception that Additional Shares may be issued, may also adversely affect the market price of the Company s Common Stock. Holders of Common Stock do not have preemptive rights to subscribe for any Additional Shares, if issued by the Company. There are no conversion, redemption, sinking fund or similar provisions regarding the Common Stock.

In addition, if the Company were to sell or otherwise issue authorized but unissued Common Stock at a time when a takeover is pending or threatened, the issuance of the Additional Shares of Common Stock could discourage the takeover by making a takeover more expensive and subject to additional risks. The proposal is not being recommended in response to any specific effort of which the Company is aware to obtain control of the Company, nor is the Board of Directors currently proposing to stockholders any anti-takeover measures.

Required Vote and Recommendation

Adoption of Proposal Two requires the affirmative vote of the holders of a majority of the shares of the Company s Common Stock outstanding and entitled to vote at the Annual Meeting. Accordingly, under Delaware law and the Company s Restated Certificate of Incorporation and Bylaws, abstentions and broker non-votes will have the same effect as a vote against Proposal Two. Unless otherwise instructed in the Proxy or unless authority to vote is withheld, the Proxy will be voted for Proposal Two.

The Board of Directors recommends a vote FOR amending the Company s Restated Certificate of Incorporation to increase the number of authorized shares of Common Stock to 100,000,000 shares.

Table of Contents**OWNERSHIP OF SECURITIES**

The following table and the notes thereto set forth certain information regarding the beneficial ownership of Common Stock as of the Record Date by (i) each current director of the Company, (ii) the named executive officers of the Company, (iii) all executive officers and directors of the Company as a group and (iv) each other person known to the Company to own beneficially more than five percent of Common Stock outstanding on the Record Date. These shares are not deemed outstanding, however, for the purpose of computing the percentage ownership of any other person. Unless otherwise indicated, to the Company's knowledge, each stockholder has sole voting and dispositive power with respect to the securities beneficially owned by that stockholder. On the Record Date, there were 29,007,555 shares of Common Stock outstanding.

With respect to the restricted share units, the units will have their restrictions lapse in 25% increments every three months and will fully vest one year following the date of grant (adjusted from a three-year restricted period in 2005). be expected to retain fifty percent of the restricted share units until a specified ownership level is achieved. In addition to the foregoing, the director who serves as the chairperson of the Audit Committee of the Board of Directors will receive a \$10,000 special annual retainer for his service as committee chair (adjusted from \$5,000 in 2005). Each director who serves as the chairperson of the Compensation, Nominating/ Corporate Governance and Public Policy committees of the Board of Directors will receive a \$5,000 special annual retainer for his service as committee chair. Officers of the Company who also serve on the Board of Directors do not receive supplemental compensation for their service as directors.

MEETINGS AND COMMITTEES OF DIRECTORS

The Company's Board of Directors is comprised of a majority of independent directors as defined in Section 303A.02 of the New York Stock Exchange listing standards. The directors determined by the Board to be independent under this standard are Buford P. Berry, William J. Gray, Thomas K. Matthews, II, Robert G. McKenzie, Paul T. Stoffel, Jack P. Reid and Marcus R. Hickerson. In determining that Mr. Hickerson is an independent director, the Board considered the fact that Mr. Hickerson's 52-year-old son, M. Neale Hickerson, is employed as a Vice President of the Company and certain subsidiaries, including Holly Logistic Services, L.L.C. From January 2004 to February 2005, M. Neale Hickerson's title as an officer of the Company was Vice President, Treasury and Investor Relations, and his current title is Vice President, Investor Relations. The Board's determination that the employment of M. Neale Hickerson would not interfere with Marcus R. Hickerson's ability to act independently from the management of the Company was based particularly on the fact that Marcus R. Hickerson satisfies all of the independence requirements of Section 303A.02(b) of the New York Stock Exchange rules and of Rule 10A-3 under the Exchange Act. Additionally, the Board based its determination on the role played in the Company by M. Neale Hickerson and the fact that he is not an Executive Officer of the Company.

The Company's Board of Directors held six meetings during 2005. The Board of Directors has six principal standing committees: the Executive Committee, the Audit Committee, the Compensation Committee, the Long-Term Compensation Committee, the Nominating/ Corporate Governance Committee, and the Public Policy Committee. Each of the Committees is appointed by the Board of Directors. During 2005, each director attended at least 75% of the aggregate of the total number of meetings of the Board of Directors and of all committees of the Board of Directors on which that director served. The Company does not have a policy requiring the Chairman of the Board or other directors to attend the Company's Annual Meeting. All of the Company's directors attended the 2005 Annual Meeting of Stockholders.

The current members of the Executive Committee are Messrs. Norsworthy (Chairman), Clifton, Glancy and Reid. The Executive Committee of the Board of Directors has the authority of the Board, to the extent permitted by law and subject to any limitations that may be specified from time to time by the Board, for the management of the business and affairs of the Company between meetings of the Board. During 2005, the committee met four times.

The current members of the Audit Committee are Messrs. McKenzie (Chairman), Berry, Matthews, and Stoffel. The Audit Committee of the Board of Directors is responsible for monitoring the Company's internal accounting controls, selecting and engaging independent auditors, reviewing quarterly and annual reports filed with the SEC, and reviewing certain activities of the independent auditors and their reports and conclusions. (1) Performance Share Awards: On February 17, 2005, the Company granted performance share units to the Company's officers and other key employees, including the named executive officers. The units represent an award for a designated performance period. At the end of the performance period, all recipients except Messrs. The number of shares of Company stock payable to the recipient at the end of the period is determined by multiplying the number of Units by a performance percentage, which may be from 0% to 200% depending upon the Company's TSR ranking as compared to the Peer Group. The amount payable to the recipient at the end of the period is determined by multiplying the number of Units by a performance percentage, which may be from 0% to 200% depending upon the Company's TSR ranking as compared to the Peer Group, further multiplied by the Share Price.

At December 31, 2005, the covered compensation for Messrs. Norsworthy, Clifton, Glancy, McDonnell and Lamp were \$575,019, \$476,160, \$250,667, \$230,819 and \$221,568, respectively. limits set by the Internal Revenue Code are funded by Company contributions to the Retirement Plan, with the amounts determined on an actuarial basis. The Internal Revenue Code of 1986, as amended (the Code), currently limits benefits that may be covered by the Retirement Plan's assets to \$175,000 per year (subject to increases for future years based on price level changes) and limits the compensation that may be taken into account in computing such benefits to \$220,000 per year (subject to certain upward adjustments for future years). Effective from the 1995 fiscal year, the Company has a Retirement Restoration Plan that provides for additional payments from the Company so that total Retirement Plan benefits for specified executives will be maintained at the levels provided in the Retirement Plan before the application of the limitations of the Code.

Thrift Plan

The Company has a Thrift Plan, which is qualified under the Code, for eligible employees of the Company and its subsidiaries.

Employees may elect to participate in the Thrift Plan by making contributions to the Plan of 1% to 50% of their compensation. For employees with at least one year of service, the Company matches employee contributions up to 4% of their compensation, except for employees of Company subsidiaries in Lovington and Artesia, New Mexico, Woods Cross, Utah, and Spokane, Washington who are represented by, in New Mexico, the International Union of Operating Engineers and, in Utah, United Steel Workers PACE, for whom the Company matches employee contributions up to 6% of their compensation. In 2006, employee contributions that are made on a tax-deferred basis are generally limited to \$15,000 per year with employees over 50 years of age able to make additional tax deferred contributions of \$5,000. Employees may direct Company contributions to be invested in Common Stock. Company contributions vest upon the earlier of three years of credited service or termination of employment due to retirement, disability or death. Matching Company contributions for executive officers under the Thrift Plan have been included in the Summary Compensation Table under the column captioned All Other Compensation.

Many employees of the Company and eligible affiliates with at least one year of service, other than employees covered by collective bargaining agreements, participated in an Employee Stock Ownership Plan (ESOP) established in 1985. For the 1987 through the 1996 fiscal years, shares of Common Stock held by the ESOP were allocated to the accounts of participants for each fiscal year on the basis of payments of principal on the ESOP's ten-year installment note issued to the Company in connection with the ESOP's purchase of Common Stock from the Company. Shares were allocated to participants based on their compensation. Participants' shares vest upon the earlier of five years credited service or termination of employment due to retirement, disability or death. For the year ending December 31, 2005, no shares of Common Stock held by the ESOP were allocated to participants related to forfeitures for the year ending December 31, 2005. Effective August 1, 1999, the ESOP was merged into the Thrift Plan and each participant's ESOP account became a Company Stock ESOP Account in the Thrift Plan. Over the twelve months ending October 2002, shares in the Company Stock ESOP Account for each participant were gradually shifted to each participant's regular Thrift Plan account and consequently became subject to the participant's directions as to holding or selling such shares.

ESOP Restoration Plan

The Company adopted an ESOP restoration plan to provide additional benefits to executives whose allocations of shares of Common Stock from the ESOP for the 1995 and 1996 fiscal years were reduced because of the application of limitations of the Code. The plan provides for the grant to participants after the end of the 1995 and 1996 fiscal years of phantom shares equal in number to the number of shares not allocated to participants because of the limitations of the Code. The phantom shares under the plan are unsecured rights to cash payments based on dividends paid on shares of Common Stock and on the market value of such shares at future dates. Payments based on market value of Common Stock will generally be made at the time of a participant's termination of employment. A total of 61,880 phantom shares were granted to participants for the 1995 and 1996 fiscal year. Phantom shares held at December 31, 2005 by executive

officers are as follows: 11,320 shares by Mr. Norsworthy, 5,360 by Mr. Clifton, none by Mr. Glancy, none by Mr. McDonnell, and none by Mr. Lamp.

COMPENSATION COMMITTEE REPORT ON EXECUTIVE COMPENSATION

Compensation Philosophy

The basic objective of the Company's compensation program for executives is to provide levels of compensation that allow the Company to attract and retain productive executives who are motivated to protect and enhance the long-term value of the Company for its stockholders. The Company seeks to establish and maintain levels of compensation that are competitive with levels for comparable companies within its industry sector. Competitive compensation levels are determined on the basis of available information on compensation paid by companies in the Company's industry that are most similar to the Company, taking into account the Company's size and place in the refining industry. In addition, the Company participates in and regularly reviews compensation surveys of the petroleum and refining industry conducted by a major independent executive compensation consulting firm. Executive compensation programs are intended to reward each executive based on Company performance and individual performance and to balance appropriately short-term and long-term considerations. The Company targets the median (50th percentile) of competitive pay data for establishing executive base salary levels and incentive opportunities.

Elements of Compensation

The Company's executive compensation programs and plans are comprised of the following elements:

Base salaries

Annual incentive (bonus) opportunities

Long-term incentive opportunities under the Company's Long-Term Incentive Compensation Plan (which are granted by the Compensation Committee)

Employee benefit plans available to all full-time, salaried employees of the Company

Supplemental benefits including benefits earned under the retirement restoration plan.

Base salaries for executives are set at levels intended to be competitive at the 50th percentile of comparably-sized organizations in the petroleum and refining industry sector. Salaries are reviewed and adjusted annually; individual salary adjustments are made in consideration of the executive's performance and contributions to the Company as well as the executive's salary in relationship to competitive market data. Base salary adjustments were made during 2005 for the named executive officers.

Annual incentive (bonus) awards are based on an evaluation of two or more of the following measures over a 12-month performance period: the Company's performance against internal pre-tax net income goals; the Company's performance against select peer companies' performance relative to basic earnings per share growth, net profit margin, return on assets and return on investment; divisional performance goals; and performance against individual goals. With respect to the Chairman of the Board and the Chief Executive Officer, any annual incentive awards are weighted equally upon the Company's performance against internal pre-tax net income goals and the Company's performance against select peer companies' performance relative to basic earnings per share growth, net profit margin, return on assets and return on investment. They have a bonus target of 90% of base salary, which may be reduced to 0% or increased to 300% of target depending upon performance relative to the two measures. In 2005, the Committee determined that the Chairman of the Board and Chief Executive Officer had earned the maximum award based upon the Company's performance against the internal pre-tax net income goal and 176% of target based upon the Company's performance versus the select peer companies.

Until 2004, the Company used stock options as its principal form of long-term incentive compensation. Beginning in the latter part of 2003, the Committee (and the then active Long-Term Compensation

Table of Contents

Committee) worked with advisors from an independent executive compensation consulting firm in revising the Company's approach to long-term incentives. In February 2005, the Company granted both restricted stock and performance share units to the Company's executive officers, including the named executive officers. The amount and term of the February 2005 grants were based on consideration of the success of the Company versus its peer group. All February 2005 restricted stock grants are time-lapse restricted shares with the restrictions lapsing ratably over the last three years of a five-year period with the exception of those granted to Messrs. Norsworthy, Clifton and Glancy, which are subject to Company performance standards. During the restricted period, executives receive dividends on the restricted shares and have the voting rights associated with such shares. The February 2005 performance share unit grants provide that they will be earned over a three-year performance period. The number of performance share units earned will be based upon the Company's total stockholder return as compared to a select group of refining industry sector peer companies. The number of performance share units earned will be in the range of zero to 200 percent of the number of units granted, depending upon the Company's relative total stockholder return. All performance share units are paid in the form of Company stock with the exception of the awards to Messrs. Norsworthy and Clifton, which will be paid in cash with the value of the award at the conclusion of the performance period being based upon both the number of performance share units earned and the price of the Company's common shares at the end of the period. Under new stock ownership guidelines approved by the Committee in 2006, executives will be expected to retain fifty percent of net profit shares received from long-term incentive awards until a specified ownership level is achieved.

Compensation of the Chairman of the Board and the Chief Executive Officer

The compensation of the Company's Chairman of the Board and the Company's Chief Executive Officer is determined by the Committee based on consideration of the compensation programs and principles described above. Lamar Norsworthy served as Chairman of the Board and Chief Executive Officer from 1977 until January 1, 2006. Since January 1, 2006, Matthew P. Clifton has served as the Company's Chief Executive Officer, and Mr. Norsworthy has continued to serve as the Chairman of the Board.

Effective January 1, 2006, Mr. Norsworthy received a salary adjustment from \$621,509 per year to \$647,000 per year. In addition, Mr. Norsworthy received annual incentive awards totaling \$1,332,000 for the reporting period covered. Such awards were made based on consideration of the Company's performance during this period as set forth above. Based on recommendations of advisors from an independent executive compensation consulting firm, Mr. Norsworthy received awards of long-term incentive compensation in the form of 22,275 restricted shares and 22,275 performance share units in February 2005 and 10,465 restricted shares and 10,465 performance share units in February 2006. 28,000 of Mr. Norsworthy's restricted shares, granted in February 2004, vested in February 2006. In addition, Mr. Norsworthy received a payment in January 2005 totaling \$2,317,560 related to the vesting of the February 2004 performance share unit grants. All compensation awarded to Mr. Norsworthy during the reporting period is reflected in and fully described in the Summary Compensation Table set forth in the Proxy Statement.

Effective January 1, 2006, Mr. Clifton received a salary adjustment from \$467,457 per year to \$647,000 per year. In addition, Mr. Clifton received annual incentive awards totaling \$1,103,000 for the reporting period covered. Such awards were made based on consideration of the Company's performance during this period as set forth above. Based on recommendations of advisors from an independent executive compensation consulting firm, Mr. Clifton received awards of long-term incentive compensation in the form of 9,225 restricted shares and 18,450 performance share units in February 2005 and 7,849 restricted shares and 7,849 performance share units in February 2006. 28,000 of Mr. Clifton's restricted shares, granted in February 2004, vested in February 2006. In addition, Mr. Clifton received a payment in January 2005 totaling \$2,317,560 related to the vesting of the February 2004 performance share unit grants. All compensation awarded to Mr. Clifton during the reporting period is reflected in and fully described in the Summary Compensation Table set forth in the Proxy Statement.

Deductibility of Executive Compensation

With respect to Section 162(m) of the Code and underlying regulations pertaining to the deductibility of compensation to named executive officers in excess of \$1 million, the Company has adopted a policy to comply with such limitations to the extent practicable. The Company's Long-Term Incentive Compensation Plan has been approved by stockholders; certain elements of the plan are designed to provide performance-based incentive compensation which would be fully deductible under Section 162(m). Restricted Stock and Performance Share grants made to executive officers who are also directors of the Company are intended to be fully deductible under Section 162(m). However, the Compensation Committee has also determined that some flexibility is required, notwithstanding the statutory and regulatory provisions, in negotiating and implementing the Company's incentive compensation programs. It has, therefore, retained the discretion to award some bonus payments based on non-quantitative performance measurements and other criteria that it may determine, in its discretion, from time to time.

CERTAIN RELATIONSHIPS AND RELATED PARTY TRANSACTIONS

During 2005 and the first part of 2006, Lamar Norsworthy, who was Chairman of the Board and Chief Executive Officer of the Company through the end of 2005 and is currently Chairman of the Board, has jointly owned with the Company a jet aircraft which Mr. Norsworthy operates for personal use and for Company business travel. The aircraft was purchased for \$3,550,000. For the period from the acquisition of the aircraft

Table of Contents

in July 2004 through November 2005, the aircraft was owned 25% by Mr. Norsworthy and 75% by the Company (based on original contributions to the purchase price of the aircraft). In November 2005, Mr. Norsworthy purchased an additional 25% interest in the aircraft from the Company for 25% of the original purchase price, which was estimated by Mr. Norsworthy and the Audit Committee of the Company's Board of Directors to be the approximate fair market value of the aircraft at the date Mr. Norsworthy purchased the additional 25% interest. Since the acquisition of the aircraft, Mr. Norsworthy and the Company have shared all fixed costs and capital expenses associated with the aircraft according to the ownership percentage of Mr. Norsworthy and the Company from time to time. All variable costs incurred have been paid directly by the respective user, depending upon whether the aircraft was operated for Mr. Norsworthy's personal use or for Company business. During 2005, the aircraft was operated by Mr. Norsworthy for a total of 321 hours of which 33% were for personal use and 67% were for Company business travel. In February 2006, Mr. Norsworthy and the Company entered into an agreement to purchase an aircraft to replace the aircraft that had been jointly owned. The purchase price of the new aircraft is \$7,887,500 and will be shared 60% by Mr. Norsworthy and 40% by the Company. The new aircraft will be operated by Mr. Norsworthy for personal use and for Company business travel under the same arrangement as used with the prior jointly owned aircraft. It is expected that Mr. Norsworthy's personal use of the aircraft as a percentage of the total hours of the aircraft's operation will be less than Mr. Norsworthy's percentage ownership in the aircraft and share of fixed expenses. Mr. Norsworthy and the Company plan to sell the aircraft that has been jointly owned by Mr. Norsworthy and the Company since July 2004 and to divide the net proceeds of that sale in accordance with their 50% ownership percentages in that aircraft. This arrangement has been reviewed and approved by the Audit Committee.

M. Neale Hickerson, who is employed by the Company as Vice President, Investor Relations, is the son of Marcus R. Hickerson, a director of the Company. Neale Hickerson was paid compensation in the amount of \$279,990 for services rendered during 2005.

Michael P. Clifton, who is employed by the Company as a manager of supply and business development for the Company's asphalt operations, is the son of Matthew P. Clifton, the Chief Executive Officer and a director of the Company. Michael Clifton was paid compensation in the amount of \$109,938 for services rendered during 2005.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Exchange Act requires the Company's directors, executive officers and holders of more than 10% of its shares of Common Stock to file with the Commission and the New York Stock Exchange initial reports of ownership of shares of Common Stock and reports of changes in such ownership. The Commission's rules require such persons to furnish the Company with copies of all Section 16(a) reports that they file. Based on a review of these reports and on written representations from the reporting persons that no other reports were required, all such reports concerning beneficial ownership were filed in a timely manner by reporting persons except for the December 27, 2004 Form 4 report on a sale by Jack P. Reid on December 23, 2004, in the amount of 4,100 shares, which should have been reported as a sale of 6,400 shares. This was corrected on a Form 5 filing on February 14, 2006.
