Plan Administrator

Century Bancorp, Inc. 401(k) Plan:

We have audited the accompanying statements of net assets available for plan benefits of Century Bancorp, Inc. 401(k) Plan (the Plan) as of December 31, 2006 and 2005, and the related statements of changes in net assets available for plan benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for plan benefits of the Plan as of December 31, 2006 and 2005, and the changes in net assets available for plan benefits for the years then ended in conformity with U.S. generally accepted accounting principles.

Our audits were performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets held at end of year is presented for purposes of additional analysis and is not required part of the basic financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Notes to Financial Statements
 December 31, 2006 and 2005

(1) Description of Plan

The following description of the Century Bancorp, Inc. 401(k) Plan (the Plan) is provided for general information purposes. Participants should refer to the Plan document for more detailed information.

(a) General

The Century Bancorp, Inc. 401(k) Plan was established on October 1, 1996 for the purpose of providing a medium for eligible employees to supplement their retirement income through salary reduction arrangements on a tax-deferred basis, and is established for the exclusive benefit of the employees and their beneficiaries. The Plan is a defined contribution savings plan for all employees of Century Bancorp, Inc. who have attained age twenty-one. Century Bancorp, Inc. pays all general administrative expenses of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

(b) Contributions

Each participant of the Plan may enter into an enrollment agreement under which participants agree to reduce their compensation by a specified percent. The percentage shall not be less than 2% nor more than 75% of the participant's annual compensation, subject to IRS limitations. The employer pays a matching contribution on behalf of each participant who has made a salary reduction contribution during such Plan year in an amount equal to \$0.33 on each dollar contributed up to 6% of compensation.

(c) Vesting

Participants are immediately vested in their contributions plus earnings thereon. Participants become vested and eligible to receive benefits in the employer matching contribution in accordance with the schedule below or attainment of normal retirement age. For employer discretionary contributions, participants become vested in accordance with the schedule below or attainment of normal retirement age, which ever comes first. In the event employment is terminated due to retirement, death or disability, the participant becomes 100% vested.

If employment is terminated prior to normal retirement age for reason other than death or disability, the participant becomes vested in accordance with the following schedule:

Participating Employer Matching and
 Participating Employer Discretionary Contributions

Years of service	Vesting percentage
Less than one year	%
1 year	20
2 years	40
3 years	60
4 years	80

(d) Payment of Benefits

Under the terms of the Plan, participants retiring at or after age 59^{1/2} are eligible to receive the entire balances in all of the accounts maintained for such participants in a lump-sum payment. Participants terminating employment prior to retirement receive their entire account balance as a lump sum payment, with applicable taxes withheld, or as a rollover into another qualified plan. In the event of death, the full value of the participant's account is payable to the designated beneficiary in a lump sum.

(e) Participants Loans

Participant loans may be granted by the plan administrator on a uniform and nondiscriminatory basis, upon written request by a participant. The minimum loan amount is \$1,000. The maximum loan amount cannot exceed the lesser of 50% of the participant's account balance or \$50,000. Loans are repaid through a payroll deduction and generally within five years.

(f) Investment Options

The Plan offers investment options among various funds. Participants may elect to have contributions to their account invested in one or a combination of the following investment options:

1. *MFS Emerging Growth Fund*: an aggressive growth fund which seeks to provide long-term growth of capital by investing in common stocks of small and medium-size companies showing earnings growth over time.

3. *Columbia Acorn Z*: a growth fund which seeks long term growth of capital by investing in common stocks of small and medium sized companies with market capitalization of generally less than five million.
4. *American Century Equity Income Advisor*: a growth and income fund whose primary objective is current income and appreciation as a second objective.

(2) Summary of Significant Accounting Policies

(a) Basis of Presentation

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting and present the net assets available for plan benefits and changes in those net assets.

(Continued)

401(k) PLAN

Notes to Financial Statements
December 31, 2006 and 2005

(b) *Change in Accounting Principle*

In December 2005, the Financial Accounting Standards Board (FASB) issued a Staff Position (FSP), *Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare Pension Plans*. This FSP amends the guidance in AICPA Statement of Position 94-4, *Reporting of Investment Contracts Held by Health and Welfare Benefit Plans and Defined-Contribution Pension Plans*, with respect to the definition of fully benefit-responsive investment contracts and the presentation and disclosure of fully benefit-responsive investment contracts in plan financial statements. The FSP requires that investments in common/collective trusts that include benefit-responsive investment contracts be presented at fair value in the statement of net assets available for benefits and that the amount representing the difference between fair value and contract value of these investments also be presented on the face of the statement of net assets available for benefits. The FSP is effective for financial statements for annual periods ending after December 15, 2006 and must be applied retroactively to all prior periods presented. Accordingly, the Plan has adopted the financial statement presentation and disclosure requirements effective December 31, 2006, and has retroactively applied the guidance to the 2005 Statement of Net Assets Available for Benefits to present all investments at fair value, with the adjustment to contract value separately disclosed. The effect of adopting the FSP had no impact on the Plan's net assets available for benefits or changes in net assets available for benefits, as such investments have historically been presented at contract value.

(c) *Investment Valuation and Income Recognition*

Marketable investments are stated at fair value. The fair value of marketable investments is based on quoted market prices. Money market fund investments are stated at cost, which approximates fair value. Participant loans are stated at cost which approximates fair value.

Securities transactions are recognized on the trade date (the date the order to buy or sell is executed). Dividend income is recorded on the ex-dividend date. Interest income is recorded on an accrual basis. Realized gains and losses are determined on the average cost method.

(d) *Management Estimates*

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosures of contingent assets and liabilities, at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

(e) *Benefits*

Benefits are recorded when paid.

In the event of termination of the Plan, the rights of all members to amounts credited to their accounts shall be fully vested and nonforfeitable.

(5) Income Taxes

The Internal Revenue Service (IRS) determined and informed the plan administrator, by letter dated November 7, 2001, that the Plan and related trust are designed in accordance with Section 401 of the Internal Revenue Code (IRC). The Plan is a standardized prototype plan and the plan administrator believes that the Plan continues to operate within the terms of the prototype plan.

(6) Related-Party Transactions

Bank of America is the custodian as defined by the Plan. This qualifies transactions with Bank of America funds as party-in-interest transactions. This includes Columbia Funds, as the Funds' investment advisor, Columbia Management, is an affiliate owned by Bank of America Corporation. In addition, Plan investments include shares of Century Bancorp, Inc. common stock. Century Bancorp, Inc. is the Plan Sponsor and, as such, these transactions qualify as party-in-interest transactions.
