NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Dollars in thousands, except per share data)

(Unaudited)

1. Organization and Formation of Company

First Industrial Realty Trust, Inc. (the Company) was organized in the state of Maryland on August 10, 1993. The Company is a real estate investment trust as defined in the Internal Revenue Code. The Company's operations are conducted primarily through First Industrial, L.P. (the Operating Partnership) of which the Company is the sole general partner with an approximate 87.0% ownership interest at June 30, 2006 and June 30, 2005. Minority interest at June 30, 2006 and June 30, 2005 of approximately 13.0% represents the aggregate partnership interest in the Operating Partnership held by the limited partners thereof.

As of June 30, 2006, the Company owned 946 industrial properties (inclusive of developments in process) located in 28 states in the United States and one province in Canada, containing an aggregate of approximately 77.5 million square feet of gross leasable area (GLA). Of the 946 industrial properties owned by the Company, 759 are held by the Operating Partnership and limited liability companies of which the Operating Partnership is the sole member, 94 are held by limited partnerships in which the Operating Partnership is the limited partner and wholly-owned subsidiaries of the Company are the general partners and 93 are held directly or indirectly by an entity wholly-owned by the Operating Partnership.

In March, 2006, the Company, through separate wholly-owned limited liability companies of which the Operating Partnership is the sole member, entered into a co-investment arrangement with an institutional investor to invest in industrial properties (the March 2006 Co-Investment Program). The Company, through separate wholly-owned limited liability companies of which the Operating Partnership is the sole member, owns a 15 percent equity interest in and provides property management, leasing, disposition and portfolio management services to the March 2006 Co-Investment Program.

The Company, through separate wholly-owned limited liability companies of which the Operating Partnership or First Industrial Development Services, Inc. is the sole member, also owns minority equity interests in, and provides various services to, four other joint ventures which invest in industrial properties (the September 1998 Joint Venture, the May 2003 Joint Venture, the March 2005 Joint Venture and the September 2005 Joint Venture; together with the March 2006 Co-Investment Program, the Joint Ventures). The operating data of the Joint Ventures is not consolidated with that of the Company as presented herein.

2. Summary of Significant Accounting Policies

The accompanying unaudited interim financial statements have been prepared in accordance with the accounting policies described in the financial statements and related notes included in the Company's 2005 Form 10-K and should be read in conjunction with such financial statements and related notes. The following notes to these interim financial statements highlight significant changes to the notes included in the December 31, 2005 audited financial statements included in the Company's 2005 Form 10-K and present interim disclosures as required by the Securities and Exchange Commission.

In order to conform with generally accepted accounting principles, management, in preparation of the Company's financial statements, is required to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities as of June 30, 2006 and December 31, 2005, and the reported amounts of revenues and expenses for each of the three and six months ended June 30, 2006 and June 30, 2005. Actual results could differ from those estimates.

In the opinion of management, the accompanying unaudited interim financial statements reflect all adjustments necessary for a fair presentation of the financial position of the Company as of June 30, 2006 and December 31, 2005 and the results of its operations and comprehensive income for each of the three and six months ended June 30, 2006 and June 30, 2005, and its cash flows for each of the six months ended June 30, 2006 and June 30, 2005, and all adjustments are of a normal recurring nature.

Table of Contents**FIRST INDUSTRIAL REALTY TRUST, INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)*****Stock Incentive Plans:***

Effective January 1, 2006 the Company has adopted Statement of Financial Accounting Standards No. 123R, *Share Based Payment* (FAS 123R), using the modified prospective application method, which requires measurement of compensation cost for all stock-based awards at fair value on date of grant and recognition of compensation over the service period for awards expected to vest. For the years ended December 31, 2003, 2004 and 2005, the Company accounted for its stock incentive plans under the recognition and measurement principles of Statement of Financial Accounting Standards No. 123, *Accounting for Stock Based Compensation* for all new issuances of stock based compensation. At January 1, 2006 the Company did not have any unvested option awards and the Company had accounted for their previously issued restricted stock awards at fair value, accordingly, the adoption of FAS 123R did not require the Company to recognize a cumulative effect of a change in accounting principle. The Company did reclassify \$16,825 from the Unearned Value of Restricted Stock Grants line item within Stockholders' Equity to Additional Paid in Capital during the three months ended March 31, 2006.

For the six months ended June 30, 2006 and 2005, the Company awarded 305,455 and 191,979 restricted stock awards to its employees and directors of the Company having a fair value of \$11,614 and \$8,055, respectively. The awards generally vest over three years. For the six months ended June 30, 2006 and 2005, the Company recognized \$4,625 and \$4,820 in restricted stock amortization related to restricted stock awards, of which \$614 and \$646, respectively, was capitalized in connection with development activities. At June 30, 2006, the Company has \$23,078 in unearned compensation related to unvested restricted stock awards. The weighted average period that the unrecognized compensation is expected to be incurred is 1.89 years. The Company has not awarded options to employees or directors of the Company during the six months ended June 30, 2006 and June 30, 2005, and therefore no stock-based employee compensation expense related to options is included in net income available to common stockholders.

Prior to January 1, 2003, the Company accounted for its stock incentive plans under the recognition and measurement principles of Accounting Principles Board Opinion No. 25, *Accounting for Stock Issued to Employees* (APB 25). Under APB 25, compensation expense is not recognized for options issued in which the strike price is equal to the fair value of the Company's stock on the date of grant. The following table illustrates the pro forma effect on net income and earnings per share as if the fair value recognition provisions of FAS 123R had been applied to all outstanding and unvested option awards for the three and six months ended June 30, 2005:

In February 2006, the FASB issued Statement of Financial Standards (SFAS) No. 155, *Accounting for Certain Hybrid Financial Instruments* which amends SFAS No. 133, Accounting for Derivative Instruments and Hedging Activities, and SFAS No. 140, Accounting for Transfers and Servicing of Financial Assets and

Extinguishments of Liabilities. This Statement resolves issues addressed in Statement 133 Implementation Issue No. D1, Application of Statement 133 to Beneficial Interests in Securitized Financial Assets. This Statement:

- a. Permits fair value remeasurement for any hybrid financial instrument that contains an embedded derivative that otherwise would require bifurcation;
- b. Clarifies which interest-only strips and principal-only strips are not subject to the requirements of Statement 133;
- c. Establishes a requirement to evaluate interests in securitized financial assets to identify interests that are freestanding derivatives or that are hybrid financial instruments that contain an embedded derivative requiring bifurcation;
- d. Clarifies that concentrations of credit risk in the form of subordination are not embedded derivatives; and
- e. Amends Statement 140 to eliminate the prohibition on a qualifying special-purpose entity from holding a derivative financial instrument that pertains to a beneficial interest other than another derivative financial instrument.

This Statement is effective for all financial instruments acquired or issued after the beginning of an entity's first fiscal year that begins after September 15, 2006. The Company does not expect that the implementation of this Statement will have a material effect on the Company's consolidated financial position or results of operations.

In March 2006, the FASB issued SFAS No. 156, *Accounting for Servicing of Financial Assets* which amends FASB Statement No. 140, *Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities*, (FAS 140) with respect to the accounting for separately recognized servicing assets and servicing liabilities. This statement was issued to simplify the accounting for servicing rights and reduce the volatility that results from the use of different measurements attributes for servicing rights and the related financial instruments used to economically hedge risks associated with those servicing rights. The statement clarifies when to separately account for servicing rights, requires separately recognized servicing rights to be initially measured at fair value, and provides the option to subsequently account for those servicing rights at either fair value or under the amortization method previously required under FAS 140. An entity should adopt this Statement as of the beginning of its first fiscal year that begins after September 15, 2006. The Company does not expect that the implementation of this Statement will have a material effect on the Company's consolidated financial position or results of operations.

In June 2006, the FASB issued FIN 48, *Accounting for Uncertainty in Income Taxes* (FIN 48). FIN 48 clarifies the accounting for uncertainty in income taxes recognized in accordance with SFAS 109, *Accounting for Income Taxes*. The evaluation of a tax position in accordance with FIN 48 is a two-step process. First, the Company determines whether it is more likely than not that a tax position will be sustained upon examination based on the technical merits of the position. Second, a tax position that meets the more-likely-than-not threshold is measured to determine the amount of benefit to recognize in the financial statements. The tax position is measured at the largest amount of benefit that is greater than fifty percent likely of being realized upon ultimate settlement. Tax positions that previously failed to meet the more-likely-than-not recognition threshold should be recognized in the first subsequent reporting period in which the threshold is met. Previously recognized tax positions that no longer meet the more-likely-than-not recognition threshold should be derecognized in the first subsequent reporting period in which the threshold is no longer met. The Company is required to apply the guidance of FIN 48 beginning January 1, 2007. The Company is currently evaluating what impact the application of FIN 48 will have on the consolidated financial statements.

3. Investments in Joint Ventures

At June 30, 2006, the September 1998 Joint Venture owned 41 industrial properties comprising approximately 1.3 million square feet of GLA, the May 2003 Joint Venture owned 12 industrial properties comprising approximately 5.4 million square feet of GLA, the March 2005 Joint Venture owned 41 industrial properties comprising

4. Mortgage Loans Payable, Net, Senior Unsecured Debt, Net and Unsecured Line of Credit

On September 24, 1996, the Consolidated Operating Partnership assumed a mortgage loan in the amount of \$2,600 (the Acquisition Mortgage Loan IV). The Acquisition Mortgage Loan IV was collateralized by one property in Baltimore, MD. The loan had a maturity date of October 1, 2006, and a fixed interest rate of 8.95%. The Acquisition Mortgage Loan IV was paid off and retired on June 30, 2006.

On January 10, 2006, the Company, through the Operating Partnership, issued \$200,000 of senior unsecured debt which matures on January 15, 2016 and bears interest at a rate of 5.75% (the 2016 Notes). The issue price of the 2016 Notes was 99.653%. Interest is paid semi-annually in arrears on January 15 and July 15. In December 2005, the Company also entered into interest rate protection agreements which were used to fix the interest rate on the 2016 Notes prior to issuance. The Company settled the interest rate protection agreements on January 9, 2006 for a payment of approximately \$1,729, which is included in other comprehensive income. The debt issue discount and the settlement amount of the interest rate protection agreements will be amortized over the life of the 2016 Notes as an adjustment to interest expense. Including the impact of the offering discount and the settlement amount of the interest rate protection agreements, the Company's effective interest rate on the 2016 Notes is 5.91%. The 2016 Notes contain certain covenants, including limitations on incurrence of debt and debt service coverage.

On January 11, 2006, the Company assumed a mortgage loan in the amount of \$1,954 (the Acquisition Mortgage Loan XIX). The Acquisition Mortgage Loan XIX is collateralized by one property in Richmond, IN, bears interest at a fixed rate of 7.32% and provides for monthly principal and interest payments based on a 10 year amortization schedule. The Acquisition Mortgage Loan XIX matures on June 1, 2014. In conjunction with the assumption of the Acquisition Mortgage Loan XIX, the Company recorded a premium in the amount of \$116 which will be amortized as an adjustment to interest expense through June 1, 2014. Including the impact of the premium recorded, the Company's effective interest rate on the Acquisition Mortgage Loan XIX is 5.82%.

On March 7, 2006, the Consolidated Operating Partnership assumed a mortgage loan in the amount of \$4,925 (the Acquisition Mortgage Loan XX). The Acquisition Mortgage Loan XX was collateralized by a land parcel in

Derivatives:

In April 2006, the Company, through the Operating Partnership, entered into four interest rate protection agreements which fixed the interest rate on forecasted offerings of unsecured debt which it designated as cash flow hedges. Two of the interest rate protection agreements each have a notional value of \$72,900 and are effective from November 28, 2006 through November 28, 2016. The interest rate protection agreements fixed the LIBOR rate at 5.537%. The third and fourth interest rate protection agreements each have a notional value of \$74,750, are effective from May 10, 2007 through May 10, 2012, and fixed the LIBOR rate at 5.420%.

In October 2005, the Company, through First Industrial Development Services, Inc., entered into an interest rate protection agreement which hedged the change in value of a build to suit development project the Company was constructing. This interest rate protection agreement had a notional value of \$50,000, was based on the three Month LIBOR rate, had a strike rate of 4.8675%, had an effective date of December 30, 2005 and a termination date of December 30, 2010. Per Financial Accounting Standards No. 133, Accounting for Derivative Instruments and Hedging Activities fair value and cash flow hedge accounting for hedges of non-financial assets and liabilities is limited to hedges of the risk of changes in the market price of the entire hedged item because changes in the price of an ingredient or component of a non-financial item generally do not have a predictable, separately measurable effect

on the price of the item. Since the interest rate protection agreement is hedging a component of the change in value of the build to suit development, the interest rate protection agreement does not qualify for hedge accounting and the change in value of the interest rate protection agreement will be recognized immediately in net income as opposed to other comprehensive income. On January 5, 2006, the Company, through First Industrial Development Services, Inc., settled the interest rate protection agreement for a payment of \$186.

In December 2005, the Company, through the Operating Partnership, entered into three interest rate protection agreements which fixed the interest rate on a forecasted offering of unsecured debt which it designated as cash flow hedges. Two of the interest rate protection agreements each had a notional value of \$48,700 and were effective from December 30, 2005 through December 30, 2015. The interest rate protection agreements fixed the LIBOR rate at 5.066% and 5.067%. The third interest rate protection agreement had a notional value of \$48,700, was effective from January 19, 2006 through January 19, 2016, and fixed the LIBOR rate at 4.992%. The Company settled the three interest rate protection agreements on January 9, 2006 for a payment of approximately \$1,729, which is included in other comprehensive income. The settlement amount of the interest rate protection agreements will be amortized over the life of the 2016 Notes as an adjustment to interest expense.

In conjunction with certain issuances of senior unsecured debt, the Company entered into interest rate protection agreements to fix the interest rate on anticipated offerings of senior unsecured debt. In the next 12 months, the Company will amortize approximately \$1,053 into net income by decreasing interest expense.

5. Stockholders Equity

On January 13, 2006, the Company issued 6,000,000 Depositary Shares, each representing 1/10,000th of a share of the Company's 7.25%, \$.01 par value, Series J Flexible Cumulative Redeemable Preferred Stock (the Series J Preferred Stock), at an initial offering price of \$25.00 per Depositary Share. Dividends on the Series J Preferred Stock, represented by the Depositary Shares, are cumulative from the date of initial issuance and are payable quarterly in arrears. However, during any period that both (i) the depositary shares are not listed on the NYSE or AMEX, or quoted on NASDAQ, and (ii) the Company is not subject to the reporting requirements of the Exchange Act, but the preferred shares are outstanding, the Company will increase the dividend on the preferred shares to a rate of 8.25% of the liquidation preference per year. However, if at any time both (i) the depositary shares cease to be listed on the NYSE or the AMEX, or quoted on NASDAQ, and (ii) the Company ceases to be subject to the reporting requirements of the Exchange Act, but the preferred shares are outstanding, then the preferred shares will be redeemable, in whole but not in part at the Company's option, within 90 days of the date upon which the depositary shares cease to be listed and the Company ceases to be subject to such reporting requirements, at a redemption price equivalent to \$25.00 per Depositary Share, plus all accrued and unpaid dividends to the date of redemption. With respect to the payment of dividends and amounts upon liquidation, dissolution or winding up, the Series J Preferred Stock ranks senior to payments on the Company's Common Stock and pari passu with the Company's Series C Preferred Stock, Series F Preferred Stock, and Series G Preferred Stock. The Series J Preferred Stock is not redeemable prior to January 15, 2011. On or after January 15, 2011, the Series J Preferred Stock is redeemable for cash at the option of the Company, in whole or in part, at a redemption price equivalent to \$25.00 per Depositary Share, or \$150,000 in the aggregate, plus dividends accrued and unpaid to the redemption date. The Series J Preferred Stock has no stated maturity and is not convertible into any other securities of the Company.

On November 8, 2005 and November 18, 2005, the Company issued 600 and 150 Shares, respectively, of \$.01 par value, Series I Flexible Cumulative Redeemable Preferred Stock, (the Series I Preferred Stock), in a private placement at an initial offering price of \$250,000 per share for an aggregate initial offering price of \$187,500. The Company redeemed the Series I Preferred Stock on January 13, 2006 for \$242,875.00 per share, and paid a prorated first quarter dividend of \$470.667 per share, totaling approximately \$353. In accordance with EITF D-42, due to the redemption of the Series I Preferred Stock, the difference between the redemption cost and the carrying value of the Series I Preferred Stock of approximately \$672 is reflected as a deduction from net income

6. Acquisition of Real Estate

During the six months ended June 30, 2006, the Company acquired 52 industrial properties comprising approximately 4.5 million square feet of GLA and several land parcels. The purchase price of these acquisitions totaled

approximately \$251,276, excluding costs incurred in conjunction with the acquisition of the industrial properties and land parcels.

7. Sale of Real Estate, Real Estate Held for Sale and Discontinued Operations

During the six months ended June 30, 2006, the Company sold 66 industrial properties comprising approximately 8.4 million square feet of GLA and several land parcels. Gross proceeds from the sales of the 66 industrial properties and several land parcels were approximately \$498,754. The gain on sale of real estate, net of income taxes was approximately \$86,558. The 66 sold industrial properties meet the criteria established by FAS 144 to be included in discontinued operations. Therefore, in accordance with FAS 144, the results of operations and gain on sale of real estate, net of income taxes for the 66 sold industrial properties are included in discontinued operations.

Table of Contents**FIRST INDUSTRIAL REALTY TRUST, INC.****NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

The results of operations and gain on sale of real estate, net of income taxes for the several land parcels that do not meet the criteria established by FAS 144 are included in continuing operations.

At June 30, 2006, the Company had 16 industrial properties comprising approximately 2.1 million square feet of GLA held for sale. In accordance with FAS 144, the results of operations of the 16 industrial properties held for sale at June 30, 2006 are included in discontinued operations. There can be no assurance that such industrial properties held for sale will be sold.

Income from discontinued operations for the six months ended June 30, 2006 reflects the results of operations and gain on sale of real estate, net of income taxes of 66 industrial properties that were sold during the six months ended June 30, 2006 as well as the results of operations of 16 industrial properties held for sale at June 30, 2006.

Income from discontinued operations for the six months ended June 30, 2005 reflects the results of operations of 66 industrial properties that were sold during the six months ended June 30, 2006, 86 industrial properties that were sold during the year ended December 31, 2005 and 16 industrial properties identified as held for sale at June 30, 2006.

Weighted average shares diluted are the same as weighted average shares basic for the three and six months June 30, 2006 and June 30, 2005 as the dilutive effect of stock options and restricted stock was excluded because its inclusion would have been anti-dilutive to the loss from continuing operations available to common stockholders, net of minority interest. If the Company had income from continuing operations available to common stockholders, net of minority interest, the dilutive stock options and restricted stock that would be added to the denominator of weighted average shares-basic would have been 156,132 and 245,094, respectively for the three months ended June 30, 2006

and 2005 and 177,803 and 269,598, respectively for the six months ended June 30, 2006 and 2005. Additionally, unvested restricted stock shares aggregating 176,001 and 185,034, respectively for the three and six months ended June 30, 2006 and 2005 are excluded from the denominator because such shares are anti-dilutive for the periods presented.

10. Employee Benefit Plans

The Company maintains three stock incentive plans (the "Stock Incentive Plans") which are administered by the Compensation Committee of the Board of Directors. There are approximately 10.0 million shares reserved under the Stock Incentive Plans. Only officers, other employees of the Company, its Independent Directors and its affiliates generally are eligible to participate in the Stock Incentive Plans.

The Stock Incentive Plans authorize (i) the grant of stock options that qualify as incentive stock options under Section 422 of the Code, (ii) the grant of stock options that do not so qualify, (iii) restricted stock awards, (iv) performance share awards and (v) dividend equivalent rights. The exercise price of the stock options is determined by the Compensation Committee. Special provisions apply to awards granted under the Stock Incentive

11. Commitments and Contingencies

In the normal course of business, the Company is involved in legal actions arising from the ownership of its properties. In management's opinion, the liabilities, if any, that may ultimately result from such legal actions are not expected to have a materially adverse effect on the consolidated financial position, operations or liquidity of the Company.

The Company has committed to the construction of certain industrial properties totaling approximately 3.7 million square feet of GLA. The estimated total construction costs are approximately \$131.5 million. Of this amount, approximately \$32.7 million remains to be funded. There can be no assurance the actual completion cost will not exceed the estimated completion cost stated above.

At June 30, 2006, the Company had 15 letters of credit outstanding in the aggregate amount of \$5,057. These letters of credit expire between July, 2006 and June, 2007.

12. Subsequent Events

From July 1, 2006 to July 28, 2006, the Company acquired 15 industrial properties and a land parcel for a purchase price of approximately \$158,460, excluding costs incurred in conjunction with the acquisition of these industrial properties. The Company also sold four industrial properties for approximately \$19,350 of gross proceeds.

On July 17, 2006, the Company and the Operating Partnership paid a second quarter 2006 dividend/distribution of \$.70 per common share/Unit, totaling approximately \$36,038.

On July 25, 2006, the Company, through a wholly-owned limited liability company in which a wholly-owned company of the Operating Partnership is the sole member, entered into a joint venture arrangement with an institutional investor to invest in land and vertical development (the July 2006 Joint Venture). The Company, through a wholly-owned limited liability company in which a wholly-owned company of the Operating Partnership is the sole member, owns a ten percent equity interest in the July 2006 Joint Venture.

Item 2. *Management's Discussion and Analysis of Financial Condition and Results of Operations*

The following discussion and analysis of First Industrial Realty Trust, Inc.'s (the "Company") financial condition and results of operations should be read in conjunction with the financial statements and notes thereto appearing elsewhere in this Form 10-Q.

This report contains certain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). The Company intends such forward-looking statements to be covered by the safe harbor provisions for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995, and is including this statement for purposes of complying with those safe harbor provisions. Forward-looking statements, which are based on certain assumptions and describe future plans, strategies and expectations of the Company, are generally identifiable by use of the words "believe," "expect," "intend," "anticipate," "estimate," "project" or similar expressions. The Company's ability to predict results or the actual effect of future plans or strategies is inherently uncertain. Factors which could have a material adverse affect on the operations and future prospects of the Company on a consolidated basis include, but are not limited to, changes in: economic conditions generally and the real estate market specifically, legislative/regulatory changes (including changes to laws governing the taxation of real estate investment trusts), availability of financing, interest rates, competition, supply and demand for industrial properties in the Company's current and proposed market areas, potential environmental liabilities, slippage in development or lease-up schedules, tenant credit risks, higher-than-expected costs and changes in general accounting principles, policies and guidelines applicable to real estate investment trusts. These risks and uncertainties should be considered in evaluating forward-looking statements and undue reliance should not be placed on such statements. Further information concerning the Company and its business, including additional factors that could materially affect the Company's financial results, is included herein in Item 1A, "Risk Factors," and in the Company's other filings with the Securities and Exchange Commission.

GENERAL

The Company was organized in the state of Maryland on August 10, 1993. The Company is a real estate investment trust ("REIT") as defined in the Internal Revenue Code (the "Code"). The Company's operations are conducted primarily through First Industrial, L.P. (the "Operating Partnership") of which the Company is the sole general partner with an approximate 87.0% ownership interest at June 30, 2006. Minority interest in the Company at June 30, 2006 represents the approximate 13.0% aggregate partnership interest in the Operating Partnership held by the limited partners thereof.

As of June 30, 2006, the Company owned 946 industrial properties (inclusive of developments in process) located in 28 states and one province in Canada, containing an aggregate of approximately 77.5 million square feet of gross leasable area ("GLA"). Of the 946 industrial properties owned by the Company, 759 are held by the Operating Partnership and limited liability companies of which the Operating Partnership is the sole member, 94 are held by limited partnerships in which the Operating Partnership is the limited partner and wholly-owned subsidiaries of the Company are the general partners and 93 are held by an entity wholly-owned by the Operating Partnership.

In March, 2006, the Company, through separate wholly-owned limited liability companies of which the Operating Partnership is the sole member, entered into a co-investment arrangement with an institutional investor to invest in industrial properties (the "March 2006 Co-Investment Program"). The Company, through separate wholly-owned limited liability companies of which the Operating Partnership is the sole member, owns a 15 percent equity interest in and provides property management, leasing, disposition and portfolio management services to the March 2006 Co-Investment Program.

The Company, through separate, wholly-owned limited liability companies of which the Operating Partnership or First Industrial Development Services, Inc. is the sole member, also owns minority equity interests in, and provides various services to, four other joint ventures which invest in industrial properties (the September 1998 Joint Venture , the May 2003 Joint Venture , the March 2005 Joint Venture and the September 2005 Joint

Venture ; together with the March 2006 Co-Investment Program, the Joint Ventures). The operating data of the Joint Ventures is not consolidated with that of the Company as presented herein.

MANAGEMENT'S OVERVIEW

Management believes the Company's financial condition and results of operations are, primarily, a function of the Company's and its Joint Ventures' performance in four key areas: leasing of industrial properties, acquisition and development of additional industrial properties, redeployment of internal capital and access to external capital.

The Company generates revenue primarily from rental income and tenant recoveries from long-term (generally three to six years) operating leases of its and its joint ventures' industrial properties. Such revenue is offset by certain property specific operating expenses, such as real estate taxes, repairs and maintenance, property management, utilities and insurance expenses, along with certain other costs and expenses, such as depreciation and amortization costs and general and administrative and interest expenses. The Company's revenue growth is dependent, in part, on its ability to (i) increase rental income, through increasing either or both occupancy rates and rental rates at the Company's and its joint ventures' properties, (ii) maximize tenant recoveries and (iii) minimize operating and certain other expenses. Revenues generated from rental income and tenant recoveries are a significant source of funds, in addition to income generated from gains/losses on the sale of the Company's and its joint ventures' properties (as discussed below), for the Company's distributions. The leasing of property, in general, and occupancy rates, rental rates, operating expenses and certain non-operating expenses, in particular, are impacted, variously, by property specific, market specific, general economic and other conditions, many of which are beyond the control of the Company. The leasing of property also entails various risks, including the risk of tenant default. If the Company were unable to maintain or increase occupancy rates and rental rates at the Company's and its joint ventures' properties or to maintain tenant recoveries and operating and certain other expenses consistent with historical levels and proportions, the Company's revenue growth would be limited. Further, if a significant number of the Company's and its joint ventures' tenants were unable to pay rent (including tenant recoveries) or if the Company or its joint ventures were unable to rent their properties on favorable terms, the Company's financial condition, results of operations, cash flow and ability to pay dividends on, and the market price of, the Company's securities would be adversely affected.

The Company's revenue growth is also dependent, in part, on its and its joint ventures' ability to acquire existing, and acquire and develop new, additional industrial properties on favorable terms. The Company itself and through its various joint ventures, continually seeks to acquire existing industrial properties on favorable terms, and, when conditions permit, also seeks to acquire and develop new industrial properties on favorable terms. Existing properties, as they are acquired, and acquired and developed properties, as they lease-up, generate revenue from rental income, tenant recoveries and fees, income from which, as discussed above, is a source of funds for the Company's distributions. The acquisition and development of properties is impacted, variously, by property specific, market specific, general economic and other conditions, many of which are beyond the control of the Company. The acquisition and development of properties also entails various risks, including the risk that the Company's and its joint ventures' investments may not perform as expected. For example, acquired existing and acquired and developed new properties may not sustain and/or achieve anticipated occupancy and rental rate levels. With respect to acquired and developed new properties, the Company may not be able to complete construction on schedule or within budget, resulting in increased debt service expense and construction costs and delays in leasing the properties. Also, the Company and its joint ventures face significant competition for attractive acquisition and development opportunities from other well-capitalized real estate investors, including both publicly-traded real estate investment trusts and private investors. Further, as discussed below, the Company and its joint ventures may not be able to finance the acquisition and development opportunities they identify. If the Company and its joint ventures were unable to acquire and develop sufficient additional properties on favorable terms, or if such investments did not perform as expected, the Company's revenue growth would be limited and its financial condition, results of operations, cash flow and ability to pay dividends on, and the market price of, the Company's securities would be adversely affected.

The Company also generates income from the sale of its and its joint ventures' properties (including existing buildings, buildings which the Company or its joint ventures have developed or re-developed on a merchant basis,

Table of Contents

and land). The Company itself and through its various joint ventures is continually engaged in, and its income growth is dependent in part on, systematically redeploying capital from properties and other assets with lower yield potential into properties and other assets with higher yield potential. As part of that process, the Company and its joint ventures sell, on an ongoing basis, select stabilized properties or land or properties offering lower potential returns relative to their market value. The gain/loss on and fees from, the sale of such properties are included in the Company's income and are a significant source of funds, in addition to revenues generated from rental income and tenant recoveries, for the Company's distributions. Also, a significant portion of the Company's proceeds from such sales is used to fund the acquisition of existing, and the acquisition and development of new, industrial properties. The sale of properties is impacted, variously, by property specific, market specific, general economic and other conditions, many of which are beyond the control of the Company. The sale of properties also entails various risks, including competition from other sellers and the availability of attractive financing for potential buyers of the Company's and its joint ventures properties. Further, the Company's ability to sell properties is limited by safe harbor rules applying to REITs under the Code which relate to the number of properties that may be disposed of in a year, their tax bases and the cost of improvements made to the properties, along with other tests which enable a REIT to avoid punitive taxation on the sale of assets. If the Company and its joint ventures were unable to sell a sufficient number of properties on favorable terms, the Company's income growth would be limited and its financial condition, results of operations, cash flow and ability to pay dividends on, and the market price of, the Company's securities would be adversely affected.

Currently, the Company utilizes a portion of the net sales proceeds from property sales, borrowings under its unsecured line of credit and proceeds from the issuance, when and as warranted, of additional debt and equity securities to finance acquisitions and developments and to fund its equity commitments to its joint ventures. Access to external capital on favorable terms plays a key role in the Company's financial condition and results of operations, as it impacts the Company's cost of capital and its ability and cost to refinance existing indebtedness as it matures and to fund acquisitions, developments and contributions to its joint ventures or through the issuance, when and as warranted, of additional equity securities. The Company's ability to access external capital on favorable terms is dependent on various factors, including general market conditions, interest rates, credit ratings on the Company's capital stock and debt, the market's perception of the Company's growth potential, the Company's current and potential future earnings and cash distributions and the market price of the Company's capital stock. If the Company were unable to access external capital on favorable terms, the Company's financial condition, results of operations, cash flow and ability to pay dividends on, and the market price of, the Company's securities would be adversely affected.

RESULTS OF OPERATIONS

Comparison of Six Months Ended June 30, 2006 to Six Months Ended June 30, 2005

The Company's net income available to common stockholders was \$44.5 million and \$33.5 million for the six months ended June 30, 2006 and 2005, respectively. Basic and diluted net income available to common stockholders were \$1.01 per share for the six months ended June 30, 2006, and \$0.79 per share for the six months ended June 30, 2005.

The tables below summarize the Company's revenues, property expenses and depreciation and other amortization by various categories for the six months ended June 30, 2006 and June 30, 2005. Same store properties are in service properties owned prior to January 1, 2005. Acquired properties are properties that were acquired subsequent to December 31, 2004. Sold properties are properties that were sold subsequent to December 31, 2004. Properties that are not in service are properties that are under construction that have not reached stabilized occupancy or were placed in service after December 31, 2004 or acquisitions acquired prior to January 1, 2005 that were not placed in service as of December 31, 2004. These properties are placed in service as they reach stabilized occupancy (generally defined as 90% occupied). Other revenues are derived from the operations of the Company's maintenance company, fees earned from the Company's joint ventures, fees earned for developing properties for third parties and other miscellaneous revenues. Other expenses are derived from the operations of the Company's maintenance company and other

miscellaneous regional expenses.

At June 30, 2006 and June 30, 2005, the occupancy rates of the Company's same store properties were 90.5% and 91.1%, respectively. Revenues from same store properties decreased by \$2.1 million due to a decrease in same store property occupancy rates. Revenues from acquired properties increased \$35.4 million due to the 213 industrial properties acquired subsequent to December 31, 2004 totaling approximately 24.6 million square feet of GLA. Revenues from sold properties decreased \$16.2 million due to the 162 industrial properties sold subsequent to December 31, 2004 totaling approximately 21.1 million square feet of GLA partially offset by the revenues from the build to suit development for sale. Revenues from properties not in service increased by \$2.5 million due to an increase in properties placed in service during 2006 and 2005. Other revenues increased by approximately \$7.9 million due primarily to an increase in joint venture fees partially offset by a decrease in assignment fees.

Property expenses include real estate taxes, repairs and maintenance, property management, utilities, insurance, other property related expenses and expenses from build to suit development for sale. Property expenses from same store properties remained relatively unchanged. Property expenses from acquired properties increased by \$9.1 million due to properties acquired subsequent to December 31, 2004. Property expenses from sold properties decreased by \$6.0 million due to properties sold subsequent to December 31, 2004 partially offset by the expenses from the build to suit development for sale. Property expenses from properties not in service increased by \$0.3 million due to an increase in properties placed in service during 2006 and 2005. Other expense increased \$3.6 million due primarily to increases in employee compensation.

Table of Contents

General and administrative expense increased by approximately \$12.4 million, or 52.7%, due primarily to increases in employee compensation related to compensation for additional employees as well as an increase in incentive compensation.

Total Depreciation and Other Amortization	\$ 74,442	\$ 48,893	\$ 25,549	52.3%

Depreciation and other amortization for same store properties remained relatively unchanged. Depreciation and other amortization from acquired properties increased by \$20.8 million due to properties acquired subsequent to December 31, 2004. Depreciation and other amortization from sold properties decreased by \$5.7 million due to properties sold subsequent to December 31, 2004. Depreciation and other amortization for properties not in service and other increased by \$4.2 million due primarily to accelerated depreciation on one property in Columbus, OH which was razed during the six months ended June 30, 2006.

Interest income remained relatively unchanged.

Interest expense increased by approximately \$7.5 million primarily due to an increase in the weighted average debt balance outstanding for the six months ended June 30, 2006 (\$1,854.1 million), as compared to the six months ended June 30, 2005 (\$1,606.1 million), as well as an increase in the weighted average interest rate for the six months ended June 30, 2006 (6.79%), as compared to the six months ended June 30, 2005 (6.72%) partially offset by an increase in capitalized interest for the six months ended June 30, 2006 as compared to the six months ended June 30, 2005, due to an increase in development activities.

Amortization of deferred financing costs increased by \$0.2 million, or 20.0% due primarily to financing fees incurred associated with the amendment and restatement of the Company's 2005 Unsecured Line of Credit I in August 2005 and the issuance of \$200 million of senior unsecured debt (the 2016 Notes) in January 2006.

In October 2005, the Company, through First Industrial Development Services, Inc., entered into an interest rate protection agreement which hedged the change in value of a build to suit development project the Company was constructing. On January 5, 2006, the Company, through First Industrial Development Services, Inc., settled the interest rate protection agreement for a payment of \$0.2 million.

The Company recognized a \$0.5 million loss during the six months ended June 30, 2005 on its mark-to-market of an interest rate protection agreement that was entered into in January 2005 in order to hedge the change in value of a build to suit development project the Company through First Industrial Development Services, Inc., was constructing.

Equity in income of joint ventures increased by \$7.5 million primarily due to the Company's economic share of the gains and earn outs on property sales from the March 2005 Joint Venture and the September 2005 Joint Venture during the six months ended June 30, 2006.

Income tax benefit increased by \$1.8 million due primarily to an increase in general and administrative expense and depreciation expense incurred during the six months ended June 30, 2006 compared to the six months ended June 30, 2005 within the Company's taxable REIT subsidiary associated with additional investment activity. The increase in expense is partially offset by an increase in income related to the Company's economic share of the

gains and earn outs on property sales from the March 2005 Joint Venture and the September 2005 Joint Venture and fees earned from the Joint Ventures, recognized during the six months ended June 30, 2006 compared to the six months ended June 30, 2005 associated with additional activity in the Joint Ventures, in which the Company's taxable REIT subsidiary has equity interests in.

Income from Discontinued Operations	\$ 87,158	\$ 48,923

Income from discontinued operations (net of income taxes) for the six months ended June 30, 2006 reflects the results of operations and gain on sale of real estate, net of income taxes, relating to 66 industrial properties that were sold during the six months ended June 30, 2006 and the results of operations of 16 properties that were identified as held for sale at June 30, 2006.

Income from discontinued operations (net of income taxes) for the six months ended June 30, 2005 reflects the results of operations and gain on sale of real estate, net of income taxes, relating to 66 industrial properties that were sold during the six months ended June 30, 2006, 86 industrial properties that were sold during the year ended December 31, 2005 and 16 industrial properties identified as held for sale at June 30, 2006.

The \$3.0 million gain on sale of real estate, net of income taxes for the six months ended June 30, 2006 resulted from the sale of several land parcels that do not meet the criteria established by FAS 144 for inclusion in discontinued operations. The \$15.7 million gain on sale of real estate, net of income taxes for the six months ended June 30, 2005 resulted from the sale of nine industrial properties and several land parcels that do not meet the criteria established by FAS 144 for inclusion in discontinued operations.

Comparison of Three Months Ended June 30, 2006 to Three Months Ended June 30, 2005

The Company's net income available to common stockholders was \$27.3 million and \$19.4 million for the three months ended June 30, 2006 and 2005, respectively. Basic and diluted net income available to common stockholders were \$0.62 per share for the three months ended June 30, 2006, and \$0.46 per share for the three months ended

June 30, 2005.

The tables below summarize the Company's revenues, property expenses and depreciation and other amortization by various categories for the three months ended June 30, 2006 and June 30, 2005. Same store properties are in service properties owned prior to April 1, 2005. Acquired properties are properties that were acquired subsequent to March 31, 2005. Sold properties are properties that were sold subsequent to March 31, 2005. Properties that are not in service are properties that are under construction that have not reached stabilized occupancy or were placed in service after March 31, 2005 or acquisitions acquired prior to April 1, 2005 that were not placed in service as of March 31, 2005. These properties are placed in service as they reach stabilized occupancy (generally defined as 90% occupied). Other revenues are derived from the operations of the Company's maintenance company, fees earned from the Company's joint ventures, fees earned for developing properties for third parties and other miscellaneous revenues. Other expenses are derived from the operations of the Company's maintenance company and other miscellaneous regional expenses.

At June 30, 2006 and June 30, 2005, the occupancy rates of the Company's same store properties were 90.7% and 90.9%, respectively. Revenues from same store properties remained relatively unchanged. Revenues from acquired properties increased \$18.9 million due to the 192 industrial properties acquired subsequent to March 31, 2005 totaling approximately 21.6 million square feet of GLA. Revenues from sold properties decreased \$9.4 million due to the 142 industrial properties sold subsequent to March 31, 2005 totaling approximately 17.9 million square feet of GLA. Revenues from properties not in service increased by \$0.2 million due to an increase in properties placed in service during 2006 and 2005. Other revenues increased by approximately \$5.5 million due primarily to an increase in joint venture fees partially offset by a decrease in assignment fees.

Property expenses include real estate taxes, repairs and maintenance, property management, utilities, insurance, and other property related expenses. Property expenses from same store properties remained relatively unchanged. Property expenses from acquired properties increased by \$4.9 million due to properties acquired subsequent to March 31, 2005. Property expenses from sold properties decreased by \$3.4 million due to properties sold subsequent to March 31, 2005. Property expenses from properties not in service decreased by \$0.5 million due primarily to a decrease in bad debt expense. Other expense increased \$1.7 million due primarily to increases in employee compensation.

General and administrative expense increased by approximately \$6.7 million, or 57.6%, due primarily to increases in employee compensation related to compensation for additional employees as well as an increase in incentive compensation.

Total Depreciation and Other Amortization	\$ 39,093	\$ 25,134	\$ 13,959	55.5%

Depreciation and other amortization for same store properties remained relatively unchanged. Depreciation and other amortization from acquired properties increased by \$11.1 million due to properties acquired subsequent to March 31, 2005. Depreciation and other amortization from sold properties decreased by \$3.6 million due to properties sold subsequent to March 31, 2005. Depreciation and other amortization for properties not in service and other increased by \$2.7 million due primarily to accelerated depreciation on one property in Columbus, OH which was razed during the three months ended June 30, 2006.

Interest income decreased by approximately \$.2 million due primarily to a decrease in the average mortgage loans receivable outstanding during the three months ended June 30, 2006, as compared to the three months ended June 30, 2005.

Interest expense increased by approximately \$3.9 million primarily due to an increase in the weighted average debt balance outstanding for the three months ended June 30, 2006 (\$1,863.2 million), as compared to the three months ended June 30, 2005 (\$1,618.7 million), as well as an increase in the weighted average interest rate for the three months ended June 30, 2006 (6.79%), as compared to the three months ended June 30, 2005 (6.69%) partially offset by an increase in capitalized interest for the three months ended June 30, 2006 as compared to three months ended June 30, 2005, due to an increase in development activities.

Amortization of deferred financing costs increased by \$0.1 million due primarily to financing fees incurred associated with the amendment and restatement of the Company's 2005 Unsecured Line of Credit I in August 2005 and the issuance of the 2016 Notes in January 2006.

During the three months ended June 30, 2005 the Company recognized \$1.4 million loss on its mark-to-market of an interest rate protection agreement that the Company entered into in January 2005 in order to hedge the change in value of a build to suit development project.

Equity in income of joint ventures increased by \$7.4 million primarily due to the Company's economic share of the gains and earn outs on property sales from the March 2005 Joint Venture and the September 2005 Joint Venture

during the three months ended June 30, 2006.

Income tax benefit decreased by \$2.2 million due primarily to an increase in income related to the Company's economic share of the gains and earn outs on property sales from the March 2005 Joint Venture and the September 2005 Joint Venture and fees earned from the Joint Ventures recognized in the three months ended June 30, 2006 compared to the three months ended June 30, 2005 associated with additional activity in the Joint Ventures, in which the Company's taxable REIT subsidiary has equity interest in.

Income from discontinued operations (net of income taxes) for the three months ended June 30, 2006 reflects the results of operations and gain on sale of real estate, net of income taxes, relating to 42 industrial properties that were sold during the three months ended June 30, 2006 and the results of operations of 16 properties that were identified as held for sale at June 30, 2006.

Income from discontinued operations (net of income taxes) for the three months ended June 30, 2005 reflects the results of operations and gain on sale of real estate, net of income taxes, relating to 42 industrial properties that were sold during the three months ended June 30, 2006, 86 industrial properties that were sold during the year ended December 31, 2005 and 16 industrial properties identified as held for sale at June 30, 2006.

The \$1.5 million gain on sale of real estate, net of income taxes for the three months ended June 30, 2006 resulted from the sale of several land parcels that do not meet the criteria established by FAS 144 for inclusion in discontinued operations. The \$1.8 million gain on sale of real estate, net of income taxes for the three months ended June 30, 2005 resulted from the sale of one industrial properties and several land parcels that do not meet the criteria established by FAS 144 for inclusion in discontinued operations.

LIQUIDITY AND CAPITAL RESOURCES

At June 30, 2006, the Company's cash and restricted cash was approximately \$0.1 million and \$73.3 million, respectively. Restricted cash is primarily comprised of gross proceeds from the sales of certain industrial properties. These sales proceeds will be disbursed as the Company exchanges industrial properties under Section 1031 of the Internal Revenue Code.

The Company has considered its short-term (one year or less) liquidity needs and the adequacy of its estimated cash flow from operations and other expected liquidity sources to meet these needs. The Company's 7.0% Notes, in the aggregate principal amount of \$150 million, are due on December 1, 2006 (the 2006 Notes) and the Company's

7.6% Notes, in the aggregate of \$150 million, are due on May 15, 2007 (the 2007 Notes). The Company expects to satisfy the payment obligations on the 2006 Notes and the 2007 Notes with the issuance of additional debt. With the exception of the 2006 Notes and the 2007 Notes, the Company believes that its principal short-term liquidity needs are to fund normal recurring expenses, debt service requirements and the minimum distribution required to maintain the Company's REIT qualification under the Internal Revenue Code. The Company anticipates that these needs will be met with cash flows provided by operating and investment activities.

The Company expects to meet long-term (greater than one year) liquidity requirements such as property acquisitions, developments, scheduled debt maturities, major renovations, expansions and other nonrecurring capital improvements through the disposition of select assets, long-term unsecured indebtedness and the issuance of additional equity securities. As of June 30, 2006 and July 28, 2006, \$265.4 million of common stock, preferred stock and depositary shares and \$300.0 million of debt securities were registered and unissued under the Securities Act of 1933, as amended. The Company also may finance the development or acquisition of additional properties through borrowings under the

Table of Contents

2005 Unsecured Line of Credit I. At June 30, 2006, borrowings under the 2005 Unsecured Line of Credit I bore interest at a weighted average interest rate of 5.867%. The 2005 Unsecured Line of Credit I bears interest at a floating rate of LIBOR plus .625%, or the Prime Rate, at the Company's election. As of July 28, 2006 the Company had approximately \$52.9 million available for additional borrowings under the 2005 Unsecured Line of Credit I.

Six Months Ended June 30, 2006

Net cash provided by operating activities of approximately \$53.4 million for the six months ended June 30, 2006 was comprised primarily of net income before minority interest of approximately \$62.1 million, the net change in operating assets and liabilities of approximately \$22.5 million and net distributions from joint ventures of \$.6 million, offset by adjustments for non-cash items of approximately \$31.8 million. The adjustments for the non-cash items of approximately \$31.8 million are primarily comprised of the gain on sale of real estate of approximately \$109.5 million and the effect of the straight-lining of rental income of approximately \$5.0 million, offset by depreciation and amortization of approximately \$81.9 million and the provision for bad debt of \$0.8 million.

Net cash provided by investing activities of approximately \$66.9 million for the six months ended June 30, 2006 was comprised primarily by the net proceeds from the sale of real estate, the repayment of mortgage loans receivable, and distributions from the Company's industrial real estate joint ventures, partially offset by the acquisition of real estate, development of real estate, capital expenditures related to the expansion and improvement of existing real estate, contributions to, and investments in, the Company's industrial real estate joint ventures and an increase in restricted cash that is held by an intermediary for Section 1031 exchange purposes.

During the six months ended June 30, 2006, the Company acquired 52 industrial properties comprising approximately 4.5 million square feet of GLA and several land parcels. The purchase price for these acquisitions totaled approximately \$251.3 million, excluding costs incurred in conjunction with the acquisition of the industrial properties and land parcels.

The Company, through a wholly-owned limited liability company in which the Operating Partnership or First Industrial Development Services, Inc. is the sole member, invested approximately \$14.1 million and received distributions of approximately \$15.9 million from the Company's real estate joint ventures. As of June 30, 2006, the Company's industrial real estate joint ventures owned 279 industrial properties comprising approximately 25.6 million square feet of GLA.

During the six months ended June 30, 2006, the Company sold 66 industrial properties comprising approximately 8.4 million square feet of GLA and several land parcels. Net proceeds from the sales of the 66 industrial properties and several land parcels were approximately \$471.1 million.

Net cash used in financing activities of approximately \$128.4 million for the six months ended June 30, 2006 was derived primarily by the redemption of preferred stock, common and preferred stock dividends and unit distributions, net repayments under the Company's Unsecured Lines of Credit, the repurchase of restricted stock from employees of the Company to pay for withholding taxes on the vesting of restricted stock and repayments on mortgage loans payable, partially offset by the net proceeds from the issuance of senior unsecured debt and preferred stock and the net proceeds from the exercise of stock options.

On November 8, 2005 and November 18, 2005, the Company issued 600 and 150 Shares, respectively, of \$.01 par value, Series I Flexible Cumulative Redeemable Preferred Stock, (the "Series I Preferred Stock"), in a private placement at an initial offering price of \$250,000 per share for an aggregate initial offering price of \$187.5 million. Net of offering costs, the Company received net proceeds of \$181.5 million from the issuance of Series I Preferred Stock. The Company redeemed the Series I Preferred Stock on January 13, 2006 for \$242,875.00 per share, and paid a

prorated first quarter dividend of \$470.667 per share, totaling approximately \$.4 million. In accordance with EITF D-42, due to the redemption of the Series I Preferred Stock, the difference between the redemption cost and the carrying value of the Series I Preferred Stock of approximately \$.7 million is reflected as a deduction from net income to arrive at net income available to common stockholders in determining earnings per share for the three months ended March 31, 2006 and six months ended June 30, 2006.

During the six months ended June 30, 2006, the Company awarded 303,142 shares of restricted common stock to certain employees and 2,313 shares of restricted common stock to certain Directors. These shares of restricted

Table of Contents

common stock had a fair value of approximately \$11,614 million on the date of grant. The restricted common stock vests over periods from one to ten years. Compensation expense will be charged to earnings over the respective vesting periods for those shares that are expected to vest.

On January 10, 2006, the Company, through the Operating Partnership, issued the 2016 Notes. Net of offering costs, the Company received net proceeds of \$197.5 million from the issuance of 2016 Notes. In December 2005, the Company also entered into interest rate protection agreements which were used to fix the interest rate on the 2016 Notes prior to issuance. The Company settled the interest rate protection agreements on January 9, 2006 for a payment of approximately \$1.7 million which is included in other comprehensive income.

On January 13, 2006, the Company issued 6,000,000 Depositary Shares, each representing 1/10,000th of a share of the Company's 7.25%, \$.01 par value, Series J Flexible Cumulative Redeemable Preferred Stock (the Series J Preferred Stock), at an initial offering price of \$25.00 per Depositary Share. Net of offering costs, the Company received net proceeds of \$144.7 million from the issuance of Series J Preferred Stock.

During the six months ended June 30, 2006, certain employees of the Company exercised 52,667 non-qualified employee stock options. Net proceeds to the Company were approximately \$1.5 million.

Market Risk

The following discussion about the Company's risk-management activities includes forward-looking statements that involve risk and uncertainties. Actual results could differ materially from those projected in the forward-looking statements.

This analysis presents the hypothetical gain or loss in earnings, cash flows or fair value of the financial instruments and derivative instruments which are held by the Company at June 30, 2006 that are sensitive to changes in the interest rates. While this analysis may have some use as a benchmark, it should not be viewed as a forecast.

In the normal course of business, the Company also faces risks that are either non-financial or non-quantifiable. Such risks principally include credit risk and legal risk and are not represented in the following analysis.

At June 30, 2006, approximately \$1,551.4 million (approximately 85.3% of total debt at June 30, 2006) of the Company's debt was fixed rate debt and approximately \$268.0 million (approximately 14.7% of total debt at June 30, 2006) was variable rate debt.

In April 2006, the Company entered into \$295.3 million of cash flow hedges through forward-starting interest rate swaps to hedge interest rates on \$300.0 million of forecasted debt offerings in 2006 and 2007. At June 30, 2006, the estimated fair value of the \$295.3 million swaps was approximately \$3.4 million in an asset position as the effective rates of the swaps were lower than current interest rates at June 30, 2006. The Company does not utilize derivative financial instruments for trading or other speculative purposes.

For fixed rate debt, changes in interest rates generally affect the fair value of the debt, but not earnings or cash flows of the Company. Conversely, for variable rate debt, changes in the interest rate generally do not impact the fair value of the debt, but would affect the Company's future earnings and cash flows. The interest rate risk and changes in fair market value of fixed rate debt generally do not have a significant impact on the Company until the Company is required to refinance such debt. See Note 4 to the consolidated financial statements for a discussion of the maturity dates of the Company's various fixed rate debt.

Recent Accounting Pronouncements

In February 2006, the FASB issued Statement of Financial Standards (SFAS) No. 155, *Accounting for Certain Hybrid Financial Instruments* which amends SFAS No. 133, Accounting for Derivative Instruments and Hedging Activities, and SFAS No. 140, Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities. This Statement resolves issues addressed in Statement 133 Implementation Issue No. D1. Application of Statement 133 to Beneficial Interests in Securitized Financial Assets. This Statement:

a. Permits fair value remeasurement for any hybrid financial instrument that contains an embedded derivative that otherwise would require bifurcation;

Table of Contents

- b. Clarifies which interest-only strips and principal-only strips are not subject to the requirements of Statement 133;
- c. Establishes a requirement to evaluate interests in securitized financial assets to identify interests that are freestanding derivatives or that are hybrid financial instruments that contain an embedded derivative requiring bifurcation;
- d. Clarifies that concentrations of credit risk in the form of subordination are not embedded derivatives; and
- e. Amends Statement 140 to eliminate the prohibition on a qualifying special-purpose entity from holding a derivative financial instrument that pertains to a beneficial interest other than another derivative financial instrument.

This Statement is effective for all financial instruments acquired or issued after the beginning of an entity's first fiscal year that begins after September 15, 2006. The Company does not expect that the implementation of this Statement will have a material effect on the Company's consolidated financial position or results of operations.

In March 2006, the FASB issued SFAS No. 156, *Accounting for Servicing of Financial Asset* which amends FASB Statement No. 140, *Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities* (FAS 140), with respect to the accounting for separately recognized servicing assets and servicing liabilities. This statement was issued to simplify the accounting for servicing rights and reduce the volatility that results from the use of different measurements attributes for servicing rights and the related financial instruments used to economically hedge risks associated with those servicing rights. The statement clarifies when to separately account for servicing rights, requires separately recognized servicing rights to be initially measured at fair value, and provides the option to subsequently account for those servicing rights at either fair value or under the amortization method previously required under FAS 140. An entity should adopt this Statement as of the beginning of its first fiscal year that begins after September 15, 2006. The Company does not expect that the implementation of this Statement will have a material effect on the Company's consolidated financial position or results of operations.

In June 2006, the FASB issued FIN 48, *Accounting for Uncertainty in Income Taxes* (FIN 48). FIN 48 clarifies the accounting for uncertainty in income taxes recognized in accordance with SFAS 109, *Accounting for Income Taxes*. The evaluation of a tax position in accordance with FIN 48 is a two-step process. First, the Company determines whether it is more likely than not that a tax position will be sustained upon examination based on the technical merits of the position. Second, a tax position that meets the more-likely-than-not threshold is measured to determine the amount of benefit to recognize in the financial statements. The tax position is measured at the largest amount of benefit that is greater than fifty percent likely of being realized upon ultimate settlement. Tax positions that previously failed to meet the more-likely-than-not recognition threshold should be recognized in the first subsequent reporting period in which the threshold is met. Previously recognized tax positions that no longer meet the more-likely-than-not recognition threshold should be derecognized in the first subsequent reporting period in which the threshold is no longer met. The Company is required to apply the guidance of FIN 48 beginning January 1, 2007. The Company is currently evaluating what impact the application of FIN 48 will have on the consolidated financial statements.

Subsequent Events

From July 1, 2006 to July 28, 2006, the Company acquired 15 industrial properties and a land parcel for a purchase price of approximately \$158.5 million, excluding costs incurred in conjunction with the acquisition of these industrial properties. The Company also sold four industrial properties for approximately \$19.4 million of gross proceeds.

On July 17, 2006, the Company and the Operating Partnership paid a second quarter 2006 dividend/distribution of \$.70 per common share/Unit, totaling approximately \$36.0 million.

On July 25, 2006, the Company, through a wholly-owned limited liability company in which a wholly-owned company of the Operating Partnership is the sole member, entered into a joint venture arrangement with an institutional investor to invest in land and vertical development (the July 2006 Joint Venture). The Company, through a wholly-owned limited liability company in which a wholly-owned company of the Operating Partnership is the sole member, owns a ten percent equity interest in the July 2006 Joint Venture.

PART II. OTHER INFORMATION

Item 1. *Legal Proceedings*

None.

Item 1A. *Risk Factors*

The Company may be unable to sell sufficient properties on advantageous terms.

The Company and its joint ventures have sold properties to third parties and, as part of its business, the Company currently anticipates continuing to sell, for itself and its joint ventures, a growing number of properties to third parties, subject to operating considerations and market conditions. The Company's ability to sell a growing number of properties on advantageous terms depends on factors beyond the Company's control, including competition from other sellers, the availability of attractive financing for potential buyers of the Company's properties and the overall demand for industrial real estate. If the Company is unable to sell a growing number of properties on favorable terms or adequately redeploy the proceeds of property sales in accordance with the Company's business strategy, which calls for, among other things, a sufficient pipeline of saleable properties, then the Company's financial condition, results of operations, cash flow and ability to pay dividends on, and the market price of, the Company's securities could be adversely affected.

The Company has also sold properties to its joint ventures and, as part of its business, the Company currently anticipates continuing to sell properties to its joint ventures, subject to operating considerations and market conditions. If the Company does not have sufficient properties available that meet the investment criteria of current or future joint ventures, or if the joint ventures have reduced or no access to capital on favorable terms, then such sales could be delayed or prevented, adversely affecting the Company's financial condition, results of operations, cash flow and ability to pay dividends on, and the market price of, the Company's securities.

The Company may be unable to acquire sufficient properties on advantageous terms or acquisitions may not perform as the Company expects.

The Company and its joint ventures have acquired properties and, as part of its business, the Company currently anticipates continuing to acquire, for itself and its joint ventures, a growing number of properties, subject to operating considerations and market conditions. Properties that the Company acquires for itself generate income/loss during the holding period and gains/losses upon sale. Properties that the Company acquires on behalf of its joint ventures generate fee and other income, in addition to income/loss during the holding period and gains/losses upon sale. The acquisition of properties entails various risks, including the risks that the Company's investments may not perform as expected and that the Company's cost estimates for bringing an acquired property up to market standards may prove inaccurate. Further, the Company faces significant competition for attractive investment opportunities from other well-capitalized real estate investors, including both publicly-traded real estate investment trusts and private investors. This competition increases as investments in real estate become attractive relative to other forms

of investment. As a result of competition, the Company may be unable to acquire additional properties as it desires or the purchase price may be elevated. In addition, the Company expects to finance future acquisitions through a combination of borrowings under the 2005 Unsecured Line of Credit I, proceeds from equity or debt offerings by the Company, proceeds from property sales and equity and debt provided by its joint venture partners, which may not be available and which could adversely affect the Company's cash flow. If the Company were unable to acquire a growing number of properties on advantageous terms, or if such investments did not perform as expected, the Company's financial condition, results of operations, cash flow and ability to pay dividends on, and the market value of, the Company's securities could be adversely affected.

The Company may be unable to complete sufficient development and re-development projects on advantageous terms.

As part of its business, the Company, for itself and on behalf of its joint ventures, develops new and re-develops existing properties. In addition, the Company has sold development and re-development properties to third parties and currently anticipates continuing to sell, for itself and its joint ventures, a growing number of development and re-development properties to third parties, subject to operating considerations and market conditions. The real estate development and re-development business involves significant risks that could adversely affect the Company's financial condition, results of operations, cash flow and ability to pay dividends on, and the market price of the Company's securities, which include:

the Company may not be able to obtain financing for development projects on favorable terms and complete construction on schedule or within budget, resulting in increased debt service expense and construction costs and delays in leasing the properties and generating cash flow;

the Company may not be able to obtain, or may experience delays in obtaining, all necessary zoning, land-use, building, occupancy and other governmental permits and authorizations;

the properties may perform below anticipated levels, producing cash flow below budgeted amounts and limiting the Company's ability to sell such properties to third parties.
