PROXY STATEMENT

INTRODUCTION

This Proxy Statement and the accompanying proxy card are furnished to the

Edgar Filing: SCHWEITZER MAUDUIT INTERNATIONAL INC - Form DEF 14A

stockholders of Schweitzer-Mauduit International, Inc., a Delaware corporation (the "Corporation"), in connection with the solicitation of proxies by the Board of Directors of the Corporation for use at the Annual Meeting of Stockholders to be held on April 25, 2002 ("Annual Meeting") and at any adjournment thereof. Proxies in the accompanying form, properly signed and received in time for the meeting, will be voted as instructed. If no instructions are given, proxies will be voted for the election of the three directors nominated for election. Any proxy may be revoked by the stockholder granting it at any time before it is voted by delivering to the Secretary of the Corporation another signed proxy card, or a signed document revoking the earlier proxy or by attending the meeting and voting in person. The Corporation intends to mail this Proxy Statement and proxy card, together with the 2001 Annual Report to Stockholders, on or about March 14, 2002.

Each stockholder of record at the close of business on February 28, 2002 will be entitled to one vote for each share registered in such stockholder's name. As of that date, there were outstanding 14,851,935 shares of the Corporation's common stock, par value \$0.10 per share (the "Common Stock").

The entire cost of the proxy solicitation will be borne by the Corporation. The Corporation has retained American Stock Transfer & Trust Company to aid in the solicitation of proxies. Solicitation services on routine proxy matters are included in the fees paid to American Stock Transfer & Trust Company to act as the Corporation's stock transfer agent and registrar and such service is not separately compensated beyond reimbursement of reasonable out-of-pocket expenses. The Corporation does not otherwise expect to pay any compensation for the solicitation of proxies, but will reimburse brokers, fiduciaries and other nominees for their reasonable expenses in forwarding proxy materials to beneficial owners. In addition to solicitation by mail, directors, officers and employees of the Corporation may solicit proxies in person, by telephone or by other means of communication.

If a stockholder is a participant in the Schweitzer-Mauduit International, Inc. Retirement Savings Plan, the proxy card represents the number of full shares of Common Stock held for the benefit of the participant in the plan as well as any shares of Common Stock registered in the participant's name. Thus, a proxy card for such a participant grants a proxy for shares registered in the participant's name and serves as a voting instruction for the trustee of the plan for the account in the participant's name. Information as to the voting instructions given by individuals who are participants in the plan will not be disclosed to the Corporation.

Under Section 216 of the Delaware General Corporation Law and the Corporation's By-Laws, a majority of the issued and outstanding shares of the Corporation's Common Stock, present in person or represented by proxy, shall constitute a quorum for purposes of the Annual Meeting. Directors shall be elected by a plurality of the votes present in person or represented by proxy at the Annual Meeting and entitled to vote on the election of directors. Votes may be cast in favor of or withheld from each nominee; votes that are withheld will be excluded entirely from the vote and will have no effect. Under applicable Delaware law, a broker non-vote will have no effect on the outcome of the election of directors. In all matters other than the election of directors, the affirmative vote of a majority of shares present in person or represented by proxy at the Annual Meeting and entitled to vote on the subject matter shall be the act of the stockholders.

CERTAIN TRANSACTIONS AND BUSINESS RELATIONSHIPS

In 2001, the Corporation and certain of its subsidiaries retained the legal services of Laurent G. Chambaz, a director of the Corporation. The cost of such services during 2001 was \$62,100.

In 2001, the Corporation acquired various materials and manufacturing supplies used at its Lee Mills from xpedx totaling \$74,378. Larry B. Stillman, a director of the Corporation, has been the Vice President, Northwest Group, xpedx since 1988.

Management believes that the cost of services rendered by Mr. Chambaz and the materials and supplies acquired from xpedx during 2001 were reasonable compared with the cost of obtaining similar services, materials and supplies from unaffiliated third parties.

BOARD OF DIRECTORS AND COMMITTEES

The Board of Directors currently consists of nine members, eight of whom have served on the Board of Directors since November 30, 1995, with the ninth director commencing his service on the Board of Directors on May 1, 1999. From January 1, 2001 through December 31, 2001, the Board of Directors met on five occasions.

The standing committees of the Board of Directors include the Audit Committee, the Compensation Committee and the Nominating Committee.

The Audit Committee, currently composed of Leonard J. Kujawa, Chairman, Claire L. Arnold, Alan R. Batkin and K.C. Caldabaugh, met on three occasions in 2001. The Audit Committee recommends to the Board of Directors appointment of the outside auditors to audit the books, records and accounts of the Corporation, reviews the scope of such audits, provides oversight in connection with internal control programs of the Corporation and performs such other duties as the Board of Directors may from time to time prescribe. The nature and scope

Edgar Filing: SCHWEITZER MAUDUIT INTERNATIONAL INC - Form DEF 14A

of the Audit Committee's responsibilities are set forth in the "Audit Committee Charter," a copy of which is on file with the SEC, and its duties are described more fully herein under the caption "Audit Committee Report."

The Compensation Committee, currently composed of Richard D. Jackson, Chairman, Claire L. Arnold and Larry B. Stillman, met on one occasion and acted by unanimous written consent on one occasion in 2001. The Nominating Committee, currently composed of Larry B. Stillman, Chairman, K.C. Caldabaugh and Laurent G. Chambaz, acted by unanimous written consent on one occasion in 2001. The Nominating Committee proposes and considers suggestions for candidates for membership on the Board of Directors and recommends candidates to fill vacancies on the Board of Directors. The Nominating Committee will consider nominees recommended by stockholders as candidates for election to the Board of Directors at the Annual Meeting of Stockholders. A stockholder wishing to nominate a candidate for election to the Board of Directors at the Annual Meeting of Stockholders is required to follow the procedures set forth in the Corporation's By-Laws, which procedures are hereinafter discussed under the caption "Other Matters - Stockholder Proposals."

DIRECTOR ATTENDANCE AT MEETINGS

During the year ended December 31, 2001, each director attended 100 percent of the Board of Directors meetings.

COMPENSATION OF DIRECTORS

Each director who is not an officer or employee of the Corporation or any of its subsidiaries or affiliates (a "non-employee director") receives an annual retainer fee of \$20,000, payable pro rata quarterly in advance, which retainer fee is payable in Common Stock of the Corporation pursuant to the Outside Directors' Stock Plan (the "Directors' Plan"). In 2001, each non-employee director received 974 shares of Common Stock under the Directors' Plan or the same amount in stock unit equivalents pursuant to the Schweitzer-Mauduit International, Inc. Deferred Compensation Plan for Non-Employee Directors for those directors who elected to participate in that plan. Each non-employee director also receives a meeting fee of \$3,000 for each Board of Directors meeting attended and a committee fee of \$1,000 for each committee meeting attended. Each chairperson of a committee receives an additional \$500 for each committee meeting attended. In addition, the Corporation reimburses the non-employee directors for expenses incurred as a result of attending such meetings. A director who is an officer or an employee of the Corporation or any of its subsidiaries or affiliates does not receive any fees for services as a member of the Board of Directors or any committee thereof, but is reimbursed for expenses incurred as a result of such service.

Directors who so elect annually, can defer all or part of their compensation received from the Corporation pursuant to the Corporation's Non-Employee Directors Deferred Compensation Plan. Participation in this plan allows a director to defer receipt of compensation and to thereby also defer certain state and federal income taxes until the deferred compensation is paid upon the director's retirement from the Board of Directors or earlier death or

disability.

Performance at less than Threshold results in no award. Additional information about the purpose of and method for determining LTIP awards is set forth herein on pages 18-19 under the caption "Compensation Committee Report" on Executive Compensation.

DEFINED BENEFIT RETIREMENT PLAN

The Corporation provides certain benefits to its U.S. employees through the Schweitzer-Mauduit International, Inc. Retirement Plan (the "Retirement Plan"), a U.S. pension plan covering hourly and salaried employees. In July 2000, the Retirement Plan was amended to add a cash balance formula benefit ("CBB") that would apply to newly hired employees, certain employees previously covered under the final average pay formula benefit ("FAPB") and employees who had the right to elect coverage under either the new CBB or the FAPB. The FAPB and the CBB provisions of the Retirement Plan are discussed separately below.

Final Average Pay Formula Benefit

The FAPB entitles each vested salaried U.S. employee participating in that benefit formula to an annual pension benefit at normal retirement equal to 1.50 percent of final average earnings times the employee's years of service, subject to a deduction for social security benefits or, if greater, 1.125 percent of final average earnings times years of service plus a specific amount for certain employees. Final average earnings is defined as the highest average of any five years of Earnings (as defined in the Retirement Plan) out of the last 15 calendar years of employment, or over the last 60 months of credited service, if greater. The minimum monthly benefit payable in a single-life annuity to salaried employees is the lesser of \$125 or \$25 times years of service.

Retirement benefits for salaried participants who have at least five years of vesting service may begin on a reduced basis at age 55, or on an unreduced basis at normal retirement age. Unreduced benefits also are available for salaried participants with ten years of vesting service at age 62 or as early as age 60 with 30 years of vesting service. The normal form of benefit for unmarried salaried participants is a single-life annuity payable monthly. Benefits will be actuarially adjusted if the employee receives one of the available forms of joint and survivor or other optional forms of benefit.

Table A illustrates the estimated annual benefits payable upon retirement at age 65 without regard to IRS limitations under the Retirement Plan for

specified highest five-year average remuneration and years-of-service classifications for U.S. salaried employees, computed on a single-life annuity basis, without deduction for Social Security or other offset amounts. Benefits will be adjusted if the employee receives one of the optional forms of benefit. Benefits under the Retirement Plan will be limited to the extent required by U.S. tax provisions. Any excess over such limitation for certain salaried employees will be paid pursuant to supplemental arrangements.

The estimated years of benefit service, which includes years of benefit service while at Kimberly-Clark Corporation (from which the Corporation was spun-off in November, 1995) as of normal retirement at age 65, for Messrs. Deitrich and Roberts, are 38.5 and 36.6, respectively. Messrs. Rumely and Thompson have their retirement benefits determined under the CBB.

Mr. Le Hetet's retirement benefits are provided under a foreign subsidiary's pension plan that bases benefits on years of service and compensation. His projected annual benefit at normal retirement at age 65 is 298,341Euros or \$265,643 with 29 years of credited service.

Cash Balance Benefit Formula

The CBB covers all salaried employees hired on or after July 1, 2000 and salaried employees as of July 1, 2000 who are not "grandfathered" under the terms of the Retirement Plan, or are grandfathered employees who chose the CBB. Salaried employees who, as of July 1, 2000, had either attained the sum of their age plus years of vesting service equal to 65 or more, or attained the sum of their age plus years of vesting service equal to 60 or more and had at least 15 years of vesting service were grandfathered under the FAPB. The grandfathered employees had until October 1, 2000 to elect to remain under the FAPB or to take the CBB.

For salaried employees who as of July 1, 2000 were not grandfathered or who were grandfathered, but elected the CBB, an initial account balance was established based on the employee's accrued benefit payable at normal retirement age under the FAPB converted to a lump sum based on a mortality table and an interest rate that was consistent with industry norms.

Edgar Filing: SCHWEITZER MAUDUIT INTERNATIONAL INC - Form DEF 14A

A "Retirement Contribution Credit" is added to the participant's account balance each year in which the participant accrues a year of vesting service. The Retirement Contribution Credit is determined in accordance with the schedule noted in Table B. The account balance is also credited with an interest credit based on the average yield for 30-year Treasury securities for the November immediately preceding the current Retirement Plan year

Participants have the option to receive their vested account balance as either a lump-sum payment or an immediate single life annuity or a 50 percent joint and survivor annuity if married when they terminate employment with the Corporation or become disabled.

Messrs. Rumely and Thompson are the only Named Executive Officers who participate in the CBB. Messrs. Deitrich and Roberts are grandfathered employees who elected to remain covered by the FAPB.

Table C shows the estimated annual retirement benefit payable under the CBB for the participating Named Executive Officers computed as a single life annuity based on 2000 earnings, without regard to Code limitations. These estimates assume an average annual interest credit of 5.78% percent, 2001 earnings the

Supplemental Retirement Plan

Edgar Filing: SCHWEITZER MAUDUIT INTERNATIONAL INC - Form DEF 14A

The Corporation's supplemental retirement plan provides a benefit equal to the difference between (i) the benefit payable to a participant under the Retirement Plan and (ii) the benefit that would be payable to such participant under such plan, calculated without regard to the compensation limit under Code Section 401(a)(17) and the limitations on benefits under Code Section 415. The Supplemental Plan is unfunded and participation is limited to salaried employees with earnings in excess of Code Section 401(a)(17) limits and who are members of a select group of management or highly-compensated employees.

EXECUTIVE SEVERANCE PLAN

The Corporation's Executive Severance Plan (the "Severance Plan") provides that in the event of termination of a participant's employment with the Corporation or one of its French affiliates for any reason other than Death, Disability or Retirement (as defined in the Severance Plan) within two years after a change of control of the Corporation, as defined in the Severance Plan, a participant employed in the United States will be entitled to: (i) receive a cash payment in an amount equal to three times the highest annual compensation (base salary and any incentive awards) paid or payable within the three-year period ending on the date of termination; (ii) receive health, dental and life insurance benefits from the Corporation for a period of three years; and (iii) receive a cash payment in an amount equal to the actuarial equivalent of the accrued benefits the participant would have earned under the Retirement Plan and the Supplemental Plan if the participant had continued participation in those plans for three years following termination. A participant employed by one of the Corporation's French affiliates is entitled to essentially the same payments and benefits as a United States participant, subject to certain adjustments which take into account the differences between the respective compensation, benefit and pension plans and programs in the United States and France. Severance payments under the Severance Plan for participants subject to United States Federal Income Tax will be limited to the extent necessary to avoid an excise tax on the participant under Code Section 4999 if the "parachute payments" under Code Section 280G with respect to such participant are less than 3.5 times the "base amount" for purposes of Code Section 280G. If such parachute payments equal or exceed 3.5 times such base amount with respect to a participant, the Corporation shall pay the participant an additional gross-up payment to compensate such participant for the excise tax liability under Code Section 4999. The Compensation Committee of the Board of Directors of the Corporation has established the eligibility criteria for participation and, from time to time, designates key employees as participants in the Severance Plan. Subject to certain conditions, the Severance Plan may be amended or terminated by resolution of the Board of Directors, but no such amendment or termination shall be effective during the two-year period following a change of control of the Corporation without the consent of all of the participants. The Corporation has agreements under the Severance Plan with the Named Executive Officers and certain other key employees. The maximum amount payable upon termination (with respect to base salary and annual

16

incentive compensation) pursuant to the agreements under the Severance Plan with the Named Executive Officers, assuming that a change of control of the Corporation and the termination of their employment had occurred on December 31, 2001, would have been as follows: Mr. Deitrich, \$2,224,551, Mr. Le Hetet, \$1,270,464, Mr. Roberts, \$1,077,732, Mr. Rumely, \$791,721 and Mr. Thompson \$818,640.

If a participant's employment is otherwise terminated for any reason other than Death, Retirement, Voluntary Resignation or Cause (as defined in the Severance Plan), the participant will receive a cash payment in an amount of up to 24 months base salary.

COMPENSATION COMMITTEE REPORT

The following report summarizes the Compensation Committee's actions during 2001. This report shall not be deemed to be incorporated by reference by any general statement incorporating this Proxy Statement by reference into any filing under the Securities Act of 1933 or the Securities Exchange Act of 1934, except to the extent that the Corporation specifically incorporates this information by reference, and shall not otherwise be deemed filed under such acts.

The Compensation Committee was established by the Board of Directors on December 1, 1995, and is composed entirely of directors who are not, and have never been, officers or employees of the Corporation. The Board of Directors designates the members and the chairperson of such committee. The Compensation Committee's duties include establishing and administering the Corporation's compensation and benefit policies and practices for executive officers and key managerial employees. The Compensation Committee also administers the Annual Incentive Plan ("AIP"), the Equity Participation Plan ("EPP"), pursuant to which stock options are granted, the Restricted Stock Plan ("RSP") and the LTIP (see "Long-Term Incentive Compensation"), as well as approving any contributions by the Corporation to the account of any participant in the Deferred Compensation Plan ("DCP").

The executive compensation information reported in the Summary Compensation Table of this Proxy Statement is for services rendered to the Corporation and its subsidiaries commencing on January 1, 1999 and ending on December 31, 2001, the last day of the Corporation's 2001 fiscal year.

Executive Compensation Policies

The Corporation's executive compensation policies are designed to attract and retain qualified executives, to appropriately reward individual achievement, and to enhance the financial performance of the Corporation, and thus stockholder value, by significantly aligning the financial interests of the Corporation's executives with those of its stockholders. To accomplish these objectives, the executive compensation program as administered by the Compensation Committee consists primarily of (i) annual cash compensation, the components of which are base salary and an annual variable cash incentive payable pursuant to the Corporation's AIP and (ii) long-term incentive compensation, consisting of stock options and restricted stock awards pursuant to the Corporation's EPP and RSP, respectively, and a long-term incentive opportunity payable in cash pursuant to the Corporation's LTIP. Base salary and annual bonuses are designed to recognize individual performance and achievement of business objectives each year. The value of long-term incentives is directly linked to the financial performance of the Corporation including, in the case of stock options and restricted stock, the performance of the Corporation's Common Stock, and, therefore, total stockholder return. Executive officers also participate in other benefit plans available to employees generally, including the Corporation's Retirement Savings Plan and a medical plan.

In developing the Corporation's executive compensation programs and to assist in determining appropriate compensation levels for executives, the Compensation Committee retained a national compensation

consulting firm to provide information and advice regarding plan design and industry pay practices for executives holding specified positions. Comparative compensation information was drawn from a broader range of companies than those included in the industry index used in the performance graph on page 23 of this

Edgar Filing: SCHWEITZER MAUDUIT INTERNATIONAL INC - Form DEF 14A

Proxy Statement, and not all of the companies included in the performance graph were included in the surveys utilized. The Compensation Committee's objective is to provide opportunities to an executive officer for compensation, both on an overall basis and on the basis of each respective component, which is targeted in each case at the 50th percentile of the market groups studied within the country of their employment.

Annual Salary and Incentive Bonuses

In determining the base salaries of executive officers effective as of January 1, 2001, the Compensation Committee reviewed salaries paid to similarly situated executives in the companies reflected in the above-described compensation study. In establishing base salary levels, the Compensation Committee considers such factors as job complexity, level of responsibility, the relationship of the position to the Corporation's long-term strategic goals, and the particular individual's skills, experience and background. While no pre-established weightings are given to these factors, particular emphasis is placed on attracting and retaining quality individuals in order to develop and retain an effective executive team for the Corporation.

The purpose of the Corporation's AIP is to further unite the interests of the stockholders of the Corporation and its key employees through (i) the annual establishment of Corporate objectives and (ii) the annual payment of cash incentive awards to key employees based on individual performance and the attainment of the Corporation's objectives. Target incentive cash opportunities under the AIP for executive officers including the Chief Executive Officer can range from 25 to 60 percent of a participant's base salary with a maximum payout of up to 195 percent of the participant's target incentive award percentage. Actual annual cash bonuses are determined by measuring performance against specific goals established at the beginning of each year. The goals take into account, depending on the responsibility of the individual, two or more of the following: the individual's performance; the performance of the functional group or unit with which the individual is associated (primarily based upon the operating profit of such unit); and the overall performance of the Corporation (primarily based upon diluted earnings per share). Such goals may or may not be equally weighted and may vary from one executive officer to another.

Long-Term Incentive Compensation

The Corporation's long-term incentive compensation for its key executives consists of: (i) grants of stock options pursuant to the Corporation's EPP; (ii) grants of restricted stock pursuant to the RSP; and (iii) a cash opportunity payable based on achievement of objectives over a three-year performance period pursuant to the Corporation's LTIP.

The EPP is intended to provide a means of encouraging an ownership interest in the Corporation by those employees who have contributed or are determined to be in a position to contribute materially to the success of the Corporation, thereby increasing their motivation for and interest in the achievement of the Corporation's long-term success. Because the value of a stock option bears a direct relationship to the price of shares of the Corporation's Common Stock, stock options are viewed as a means of encouraging executives and other key management employees to increase long-term stockholder value. In determining awards of stock options under the EPP, the Compensation Committee makes grants based on such factors as the competitive target long-term incentive opportunity for executives with comparable responsibilities in similarly sized corporations, individual contributions to corporate performance and management recommendations.

The RSP is intended to promote the long-term financial success of the Corporation by attracting to and retaining for the Corporation and its Affiliates outstanding executive personnel and to motivate such personnel

by means of restricted stock grants to contribute to the Corporation's success. The Compensation Committee selects participants and establishes the terms on which grants of restricted stock are made. Awards of restricted stock will be made from the Corporation's treasury stock and constitute an immediate transfer of ownership to the participant of shares of the Corporation's Common Stock, including the right to vote the shares and to receive dividends thereon, at a share price established by the Compensation Committee in its discretion. The Participant's continued ownership of and right to freely transfer the restricted stock is subject to such conditions on transferability and to such risks of forfeiture as are established by the Compensation Committee at the time of the grant, which may include continued employment with the Corporation for a defined period, achievement of specified management performance objectives or other conditions established by the Compensation Committee. As with stock options, a portion of the value of restricted stock bears a direct relationship to the value of the Corporation's Common Stock and, therefore, total stockholder return.

The LTIP is designed to enable the Corporation to attract and retain key executives by providing a competitive and diversified total compensation package and to help focus executives' attention on the long-term performance of the Corporation. The Compensation Committee selects participants and determines awards under the LTIP on the basis of a three-year performance period and is otherwise responsible for administration of the LTIP. Performance is measured on a cumulative basis and awards are earned annually. However, a part of the award opportunity may be earned in each year of the performance period if the cumulative performance objectives are not met, but pre-established stand-alone annual objectives are met. Payment of any earned awards is made at the end of the performance period and is subject to the participant's continued employment as defined by the LTIP. New award opportunities are not established until the current performance period is concluded thereby maintaining a clearer focus on the long-term performance objectives established by the Compensation Committee. The LTIP award opportunities are based on a competitive market analysis of long-term incentive opportunities for executive management positions in comparable companies. Under the LTIP, a target cash award is established for each participant, which, taken together with a participant's stock option grants, is structured to provide the participant with a total long-term incentive award commensurate with the participant's responsibilities. The award opportunity is allocated 50 percent in cash and 50 percent in stock options. A participant in the LTIP can earn awards that range from 25 percent up to 230 percent of the performance award opportunity allocated by the Compensation Committee. The Compensation Committee may, in its discretion, adjust the award opportunity ranges up or down through the use of special conditions established when the performance objectives are determined for a performance period under the LTIP. An award opportunity was established by the Compensation Committee and approved by the Board of Directors for the 2001 to 2003 performance period.

The Board of Directors approved the repurchase in July 2000 of certain vested options granted in 1997 and 1998 that had strike prices of \$28.00 per share or higher. The targeted strike prices were substantially above the then prevailing market price for the Common Stock. These options were granted prior to the time that the long-term impact on sales volumes of cigarettes in the United States resulting from the multi-state settlement by the major cigarette manufacturers was known. This and related market events, which occurred subsequent to the grant dates of the options being repurchased, fundamentally changed the business environment in which the U.S. operations are conducted and were due to factors that were outside of management's control. The Board of Directors therefore determined it was in the best interest of the Corporation to offer to repurchase selected options for 50 percent of their present value

Edgar Filing: SCHWEITZER MAUDUIT INTERNATIONAL INC - Form DEF 14A

determined using the Black-Scholes option valuation model. On July 10, 2001, the second and final phase of the previously authorized option repurchase program was concluded with the repurchase of 107,500 options at a total cost of \$292,401.

Deferred Compensation

As an adjunct to the annual salary and to the annual bonus and long-term incentive bonus that may be earned under the AIP and LTIP, respectively, by the Named Executive Officers and other key employees, the Corporation adopted the DCP. The DCP permits eligible employees who elect to participate to defer receipt and taxation of a portion of their annual salary and incentive bonuses. The amount of annual salary and incentive bonus awards that may be deferred is limited to 25 percent and 50 percent, respectively. Eligibility to participate in the DCP is limited to "management" and "highly compensated employees" as defined in the Employee Retirement Income Security Act of 1974, as amended. The Corporation may, with Compensation Committee approval, make cash contributions to a participant's account in the DCP.

COMPENSATION OF CHIEF EXECUTIVE OFFICER

The Compensation Committee used the same compensation policy described above for all executive officers to determine the compensation for Wayne H. Deitrich, the Chief Executive Officer of the Corporation. Mr. Deitrich is a participant in or is entitled to participate in each of the executive compensation plans described above on the same terms as the other executive officers. In setting both the cash-based and equity-based elements of Mr. Deitrich's compensation, the Committee attempted to target the 50th percentile of such compensation as paid to chief executive officers of the companies analyzed in the outside consultant's study.

CORPORATE TAX DEDUCTION FOR EXECUTIVE COMPENSATION

Pursuant to the Omnibus Budget Reconciliation Act of 1993 ("OBRA"), annual compensation payable to the chief executive officer and each of the four highest paid executive officers of a public corporation will not be deductible by the corporation for Federal Income Tax purposes to the extent any such officer's overall compensation exceeds \$1,000,000. Certain types of compensation, however, including qualifying performance-based incentive compensation, are both deductible and excluded for purposes of calculating the \$1,000,000 base under Code Section 162(m). OBRA recognizes stock option plans as performance-based if such plans meet certain requirements. The Compensation Committee will take advantage of qualifying compensation paid to the Named Executive Officers under OBRA to maintain the Corporation's deduction for such expenses where it deems appropriate and advisable. However, all executive compensation plans and compensation paid to the Named Executive Officers may not be so qualified.

AUDIT COMMITTEE REPORT

Edgar Filing: SCHWEITZER MAUDUIT INTERNATIONAL INC - Form DEF 14A

The following report summarizes the Audit Committee's actions during 2001. This report shall not be deemed to be incorporated by reference by any general statement incorporating this Proxy Statement by reference into any filing under the Securities Act of 1933 or the Securities Exchange Act of 1934, except to the extent that the Corporation specifically incorporates this information by reference, and shall not otherwise be deemed filed under such acts.

In accordance with its written charter, the Audit Committee of the Board of Directors ("Audit Committee") assists the Board in fulfilling its responsibility for oversight of the quality and integrity of the accounting, internal control and financial reporting practices of the Corporation. The members of the Audit Committee meet the applicable independence and experience requirements of the New York Stock Exchange. During 2001, the Audit Committee met three times, and the Audit Committee chairman, as representative of the Audit Committee, discussed the interim financial information contained in each quarterly earnings announcement with the Chief Financial Officer, Controller and outside auditor prior to public release.

The following table discloses the aggregate audit and non-audit fees relating to amounts paid by the Corporation to its outside auditor, Deloitte & Touche LLP, the member firms of Deloitte Touche Tohmatsu and their respective affiliates, (collectively, "Deloitte") for the fiscal year ended December 31, 2001:

Audit Fees.....	\$357,400
Financial Information Systems Design and Implementation Fees.....	\$ 0
All Other Fees.....	\$ 90,291

"All Other Fees" paid by the Corporation to Deloitte for the fiscal year ended December 31, 2001 can be categorized as follows:

Tax Services Fees -- The aggregate fees for tax planning and compliance were \$54,037.

Attestation and Other Fees -- The aggregate fees for attestation services for matters such as audits of employee benefit plans, comfort letters and consents related to SEC and other registration statements and fees for consultation on regulatory matters, accounting standards, procedures or transactions were \$36,254.

It is the Corporation's policy to restrict its outside auditor to the non-audit work detailed under "All Other Fees" and not to utilize its outside auditor for "Financial Information Systems Design and Implementation," merger and acquisition due diligence, internal audit services, record keeping or strategic consulting. The Corporation may depart from this policy if the related fees are immaterial or if there is an exceptional business consideration, the work and associated fees are not deemed to present a conflict of interest with the independent audit function and the Audit Committee approves such exception.

In discharging its oversight responsibility as to the audit process, the Audit Committee obtained from the outside auditor a formal written statement describing all relationships between the outside auditor and the Corporation that might bear on the outside auditor's independence consistent with Independence Standards Board Standard No. 1, "Independence Discussions with Audit Committees," discussed with the outside auditor any relationships that may impact their objectivity and independence, including the services and amounts reflected in the above table, and satisfied itself as to the outside auditor's independence.

Edgar Filing: SCHWEITZER MAUDUIT INTERNATIONAL INC - Form DEF 14A

The Committee reviewed with the outside auditor their audit plans, audit scope and identification of audit risks. The Audit Committee also discussed with management and the outside auditor the quality and adequacy of the Corporation's internal controls.

21

The Audit Committee discussed and reviewed with the outside auditor all communications required by generally accepted auditing standards, including those described in Statement on Auditing Standards No. 61, as amended, "Communication with Audit Committees" and, with and without management present, discussed and reviewed the results of the outside auditor's examination of the financial statements.

The Audit Committee reviewed and discussed the audited financial statements of the Corporation as of and for the fiscal year ended December 31, 2001, with management and the outside auditor. Management has the responsibility for the preparation of the Corporation's financial statements and the outside auditor has the responsibility for the examination of those statements.

Based on the above-mentioned review and discussions with management and the outside auditor, the Committee recommended to the Board of Directors that the Corporation's audited financial statements be included in its Annual Report on Form 10-K for the fiscal year ended December 31, 2001, for filing with the SEC. The Audit Committee also recommended the reappointment of the outside auditor and the Board of Directors concurred in such recommendation.

PERFORMANCE GRAPH

The following graph compares the total cumulative stockholder return on the Corporation's Common Stock during the period from December 31, 1996 through December 31, 2001, with the comparable cumulative total returns of the Wilshire 500 Index and a self-constructed peer group that reflects, but is not exactly comparable to the Dow Jones Paper Products Index ("Peer Group"). The graph assumes that the value of the investment in the Common Stock and each index was \$100 on December 31, 1996 and that all dividends were reinvested. The Peer Group is comprised of the following companies: Boise Cascade Corporation, Bowater Incorporated, Champion International Corporation, P. H. Glatfelter Company, Mead Corporation and MeadWestvaco Corporation.
