PROXY STATEMENT

INTRODUCTION

This Proxy Statement and the accompanying proxy card are furnished to the stockholders of Schweitzer-Mauduit International, Inc., a Delaware corporation (the "Corporation"), in connection with the solicitation of proxies by the Board of Directors of the Corporation for use at the Annual Meeting of Stockholders to be held on April 24, 2003 ("Annual Meeting ") and at any adjournment thereof. Proxies in the accompanying form, properly signed and received in time for the meeting, will be voted as instructed. If no instructions are given, proxies will be voted for the election of the three (3) directors nominated for election. Any proxy may be revoked by the stockholder granting it at any time before it is voted by delivering to the Secretary of the Corporation another signed proxy card, or a signed document revoking the earlier proxy or by attending the meeting and voting in person. The Corporation intends to mail this Proxy Statement and proxy card, together with the 2002 Annual Report to Stockholders, on or about March 13, 2003.

Each stockholder of record at the close of business on February 27, 2003 will be entitled to one vote for each share registered in such stockholder's name. As of that date, there were outstanding 14,922,357 shares of the Corporation's common stock, par value \$0.10 per share (the "Common Stock").

The entire cost of the proxy solicitation will be borne by the Corporation. The Corporation has retained American Stock Transfer & Trust Company to aid in the solicitation of proxies. Solicitation services on routine proxy matters are included in the fees paid to American Stock Transfer & Trust Company to act as the Corporation's stock transfer agent and registrar and such service is not separately compensated beyond reimbursement of reasonable out-of-pocket expenses. The Corporation does not otherwise expect to pay any compensation for the solicitation of proxies, but will reimburse brokers, fiduciaries and other nominees for their reasonable expenses in forwarding proxy materials to beneficial owners. In addition to solicitation by mail, directors, officers and employees of the Corporation may solicit proxies in person, by telephone or by other means of communication.

If a stockholder is a participant in the Schweitzer-Mauduit International, Inc. Retirement Savings Plan ("Plan "), the proxy card represents the number of full shares of Common Stock held for the benefit of the participant in the Plan as well as any shares of Common Stock registered in the participant's name. Thus, a proxy card for such a participant grants a proxy for shares registered in the participant's name and serves as a voting instruction for the trustee of the Plan for the account in the participant's name. Information as to the voting instructions given by individuals who are participants in the Plan will not be disclosed to the Corporation.

Under Section 216 of the Delaware General Corporation Law and pursuant to the Corporation's By-Laws, a majority of the issued and outstanding shares of the Corporation's Common Stock, present in person or represented by proxy, shall constitute a quorum for purposes of the Annual Meeting. Directors shall be elected by a plurality of the votes present in person or represented by proxy at the Annual Meeting and entitled to vote on the election of directors. Votes may be cast in favor of or withheld from each nominee; votes that are withheld will be excluded entirely from the vote and will have no effect. Under applicable Delaware law, a broker non-vote will have no effect on the outcome of the election of directors. In all matters other than the election of directors, the affirmative vote of a majority of shares present in person or represented by proxy at the Annual Meeting and entitled to vote on the subject matter shall be the act of the stockholders.

PROPOSAL ONE: ELECTION OF DIRECTORS

The Certificate of Incorporation of the Corporation provides that the number of directors constituting the entire Board of Directors shall be as authorized from time to time exclusively by the affirmative vote of a majority of the entire Board of Directors. The By-Laws of the Corporation provide that the number of directors of the Corporation shall not be less than six (6) nor more than nine (9) and further provide that the Board of Directors shall be divided into three (3) classes of directors, who are elected for staggered terms. Directors of one class are elected each year for a term of three (3) years. Director Independence

At its September 2002 meeting, the Board of Directors established a special purpose ad-hoc committee composed of K.C. Caldabaugh, Claire L. Arnold, Alan R. Batkin and Leonard J. Kujawa, all independent directors, to develop and recommend to the full Board of Directors a standard for determining a director's independence. This ad-hoc committee completed its work and proposed the following standard for determining a director's independence, which was adopted unanimously by the full Board of Directors at its December 2002 meeting:

An independent director is a person who is free from any relationship that would interfere with the exercise of independent judgment in carrying out the responsibilities of a director. Annually, the Board of Directors will assess the independence of each non-management director based on the existence or absence of a material relationship with the Company (either directly or as a partner, shareholder or officer of an organization that has a relationship with the Company). The following persons shall not be considered independent:

- a) A director who is employed by the Company or any of its affiliates for the current year or any of the past five (5) years.
- b) A director who is, or in the past five (5) years has been, affiliated with or employed by a (present or former) auditor of the Company (or of an affiliate).
- c) A director who is, or in the past five (5) years has been, part of an interlocking directorate in which an executive officer of the Company serves on the compensation committee of another company that concurrently employs the director.
- d) A director who is, or in the past five (5) years has been, a Family Member of an individual who was employed by the Company or any of its affiliates as an executive officer. The term "Family Member" shall mean a person's spouse, parents, children, siblings, mothers and fathers-in-law, sons and daughters-in-law, brothers and sisters-in-law, and anyone (other than household employees) who shares such person's home.
- e) A director who, during the current fiscal year or any of the past five (5) fiscal years, personally provided services to the Company or its affiliates that had an annual value in excess of \$60,000; or who was paid or accepted, or who has a non-employee Family Member who was paid or accepted, any payments from the Company or any of its affiliates in excess of \$60,000 other than compensation for board service, benefits under a tax-qualified retirement plan, or non-discretionary compensation.
- f) A director who is a partner in, or a controlling shareholder or an executive officer of, any organization (profit or non-profit) to which the Company made, or from which the Company received, payments (other than those arising solely from investments in the Company's securities) that exceed one percent (1%) of the recipient's annual consolidated gross revenues in the current year or any of the past five (5) fiscal years; unless, for provisions (e) and (f), the Board of Directors expressly determines in its business judgment that the relationship does not interfere with the director's exercise of independent judgment.

There are currently nine (9) directors. Two (2) directors, Wayne H. Deitrich and Jean-Pierre Le Hétet, are also members of management and are therefore not considered independent under the above definition. Of the remaining seven (7) directors, six (6) are considered to be independent under the above definition and one (1), Laurent G. Chambaz, is not considered independent due to sums paid within the last five (5) years by a subsidiary of the Corporation to law firms in which Mr. Chambaz was a partner.

Director Attendance at Meetings

During the year ended December 31, 2002, each director attended one hundred percent (100%) of the Board of Directors meetings with the exception of Laurent G. Chambaz who was unable to attend one (1) Board of Directors meeting due to an unexpected and irreconcilable scheduling conflict. Each director attended one hundred percent (100%) of the meetings of Board committees on which he or she served as a member.

Compensation of Directors

As of April 1, 2002, each director who is not an officer or employee of the Corporation or any of its subsidiaries or affiliates (a non-employee director) receives an annual retainer fee of \$22,000, payable *pro rata* quarterly in advance, which retainer fee is payable in Common Stock of the Corporation pursuant to the Outside Directors Stock Plan (the Directors Plan). In 2002, each non-employee director received 910 shares of Common Stock under the Directors Plan or a similar amount in stock unit equivalents pursuant to the Schweitzer-Mauduit International, Inc. Deferred Compensation Plan for Non-Employee Directors for those directors who elected to participate in that plan. Each non-employee director also receives a meeting fee of \$3,000 for each Board of Directors meeting attended and a committee fee of \$1,000 for each committee meeting attended. As of April 1, 2002 each chairperson of a committee receives an additional \$750 for each committee meeting attended. The Chairman of the Audit Committee is paid an additional fee of \$1,000 for each quarterly conference call attended by the Chairman with the Company's management and outside auditors to review the Company's quarterly disclosure of its financial results. The members of the Audit Committee receive no direct or indirect compensation from the Corporation other than the compensation paid for service as a Director. In 2002, the Corporation paid Leonard J. Kujawa \$5,000 for his time spent traveling overseas with senior members of management as a representative of the Board of Directors with regard to a potential joint venture opportunity located in a country where Mr. Kujawa had particular expertise. This payment is not related to the implementation of the joint venture or its financial results if implemented. In addition, the Corporation reimburses the non-employee directors for expenses incurred as a result of attending such meetings. A director who is an officer or an employee of the Corporation or any of its subsidiaries or affiliates does not receive any fees for service as a member of the Board of Directors or any committee thereof, but is reimbursed for expenses incurred as a result of such service.

Directors who so elect annually, can defer all or part of their compensation received from the Corporation pursuant to the Corporation's Non-Employee Directors Deferred Compensation Plan. Participation in this plan allows a director to defer receipt of compensation and to thereby also defer certain state and federal income taxes until the deferred compensation is paid upon the director's retirement from the Board of Directors or earlier death or disability.

Audit Committee Report

The following report summarizes the Audit Committee's actions during 2002. This report shall not be deemed to be incorporated by reference by any general statement incorporating this Proxy Statement by reference into any filing under the Securities Act of 1933 or the Securities Exchange Act of 1934, except to the extent that the Corporation specifically incorporates this information by reference, and shall not otherwise be deemed filed under such acts.

In accordance with its written charter, the Audit Committee of the Board of Directors (Audit Committee) assists the Board of Directors in fulfilling its responsibility for oversight of the quality and integrity of the accounting, internal control and financial reporting and disclosure practices of the Corporation. The members of the Audit Committee meet the applicable independence and experience requirements of the

New York Stock Exchange and the standards for determining a director's independence adopted by the Board of Directors. During 2002, the Audit Committee met three (3) times, and the Audit Committee chairman, as representative of the Audit Committee, discussed the interim financial information and earnings guidance contained in each quarterly earnings announcement with the Chief Financial Officer, Controller and outside auditor prior to public release.

The following table discloses the aggregate audit and non-audit fees relating to amounts paid by the Corporation to its outside auditor, Deloitte & Touche LLP, the member firms of Deloitte Touche Tohmatsu and their respective affiliates, (collectively, Deloitte) for the fiscal year ended December 31, 2002:

Audit Fees
\$411,600
Financial Information Systems Design and Implementation Fees
\$0
All Other Fees
\$164,527

All Other Fees paid by the Corporation to Deloitte for the fiscal year ended December 31, 2002 can be categorized as follows:

Tax Services Fees The aggregate fees for tax planning and compliance were \$128,874.

Attestation and Other Fees The aggregate fees for attestation services for matters such as audits of employee benefit plans, comfort letters and consents related to SEC and other registration statements and fees for consultation on regulatory matters, accounting standards, procedures or transactions were \$35,653.

It is the Corporation's policy to restrict its outside auditor to the non-audit work detailed under All Other Fees and not to utilize its outside auditor for Financial Information Systems Design and Implementation, merger and acquisition due diligence, internal audit outsourcing services, record keeping or strategic consulting. The Corporation may depart from this policy if the non-audit services may be provided by the auditor under applicable laws, the related fees are immaterial or if there is an exceptional business consideration, the work and associated fees are not deemed to present a conflict of interest with the independent audit function and the Audit Committee approves such exception.

In discharging its oversight responsibility as to the audit process, the Audit Committee obtained from the outside auditor a formal written statement describing all relationships between the outside auditor and the Corporation that might bear on the outside auditor's independence consistent with Independence Standards Board Standard No. 1, Independence Discussions with Audit Committees, discussed with the outside auditor any relationships that may impact their objectivity and independence, including the services and amounts reflected in the above table, and satisfied itself as to the outside auditor's independence.

The Audit Committee reviewed with the outside auditor their audit plans, audit scope and identification of audit risks. The Audit Committee also discussed with management and the outside auditor the quality and adequacy of the Corporation's internal controls.

The Audit Committee discussed and reviewed with the outside auditor all communications required by generally accepted auditing standards, including those described in Statement on Auditing Standards No. 61, as amended, Communication with Audit Committees and, with and without management present, discussed and reviewed the results of the outside auditor's examination of the financial statements.

The Audit Committee reviewed and discussed the audited financial statements of the Corporation as of and for the fiscal year ended December 31, 2002, with management and the outside auditor. Management has the responsibility for the preparation of the Corporation's financial statements and the outside auditor has the responsibility for conducting an audit of those statements.

Based on the above-mentioned review and discussions with management and the outside auditor, the Audit Committee recommended to the Board of Directors that the Corporation's audited financial statements be included in its Annual Report on Form 10-K for the fiscal year ended December 31, 2002, for filing with the SEC. The Audit Committee also recommended the reappointment of the outside auditor and the Board of Directors concurred in such recommendation.

Compensation Committee Report

The following report summarizes the Compensation Committee's actions during 2002. This report shall not be deemed to be incorporated by reference by any general statement incorporating this Proxy Statement by reference into any filing under the Securities Act of 1933 or the Securities Exchange Act of 1934, except to the extent that the Corporation specifically incorporates this information by reference, and shall not otherwise be deemed filed under such acts.

The Compensation Committee was established by the Board of Directors on December 1, 1995, and is composed entirely of independent directors. The Board of Directors elects the members and the chairperson of such committee. The Compensation Committee's duties include establishing and administering the Corporation's compensation and benefit policies and practices for executive officers and key managerial employees. The Compensation Committee also administers the Annual Incentive Plan, the Equity Participation Plan, pursuant to which stock options are granted, the Restricted Stock Plan and the Long-Term Incentive Compensation Plan, as well as approving any contributions by the Corporation to the account of any participant in the Deferred Compensation Plan.

The executive compensation information reported in the Summary Compensation Table of this Proxy Statement is for services rendered to the Corporation and its subsidiaries commencing on January 1, 2000 and ending on December 31, 2002, the last day of the Corporation's 2002 fiscal year.

Executive Compensation Policies

The Corporation's executive compensation policies are designed to attract and retain qualified executives, to appropriately reward individual achievement, and to enhance the financial performance of the Corporation, and thus stockholder value, by significantly aligning the financial interests of the Corporation's executives with those of its stockholders. To accomplish these objectives, the executive compensation program as administered by the Compensation Committee consists primarily of (i) annual cash compensation, the components of which are base salary and an annual variable cash incentive payable pursuant to the Corporation's Annual Incentive Plan and (ii) long-term incentive compensation plans consisting of stock options and restricted stock awards pursuant to the Corporation's Equity Participation Plan and Restricted Stock Plan, respectively, and a long-term performance incentive plan payable in cash pursuant to the Corporation's Long-Term Incentive Plan. Base salary and annual bonuses are designed to recognize individual performance and achievement of business objectives each year. The value of long-term incentives is directly linked to the financial performance

of the Corporation including, in the case of stock options and restricted stock, the performance of the Corporation's Common Stock, and, therefore, total stockholder return. Executive officers also participate in other benefit plans available to employees generally, including the Corporation's Retirement Savings Plan and a medical plan.

In developing the Corporation's executive compensation programs and to assist in determining appropriate compensation levels for executives, the Compensation Committee retained a national compensation consulting firm to provide information and advice regarding plan design and industry pay practices for executives holding specified positions. Comparative compensation information was drawn from a broader range of companies than those included in the industry index used in the performance graph on page 25 of this Proxy Statement, and not all of the companies included in the performance graph were included in the surveys utilized. The Compensation Committee's objective is to provide opportunities to an executive officer for compensation, both on an overall basis and on the basis of each respective component, which is targeted in each case at the 50th percentile of the market groups studied.

Annual Salary and Incentive Bonuses

In determining the base salaries of executive officers effective as of January 1, 2002, the Compensation Committee reviewed salaries paid to similarly situated executives in the companies reflected in the above-described compensation study. In establishing base salary levels, the Compensation Committee considers such factors as job complexity, performance, level of responsibility, the relationship of the position to the Corporation's long-term strategic goals, and the particular individual's skills, experience and background. While no pre-established weightings are given to these factors, particular emphasis is placed on attracting and retaining quality individuals in order to develop and retain an effective executive team for the Corporation.

The purpose of the Corporation's Annual Incentive Plan is to further unite the interests of the stockholders of the Corporation and its key employees through:

- (i) the annual establishment of Corporate objectives and
- (ii) the annual payment of cash incentive awards to key employees based on individual performance and the attainment of the Corporation's objectives.

Target incentive cash opportunities under the Annual Incentive Plan for executive officers, including the Chief Executive Officer, can range from thirty percent (30%) to seventy-five percent (75%) of a participant's base salary with a maximum payout of up to one hundred ninety-five percent (195%) of the participant's target incentive award percentage. Actual annual cash bonuses are determined by measuring performance against specific goals established at the beginning of each year. The goals take into account, depending on the responsibility of the individual, two (2) or more of the following:

the individual's performance;

the performance of the functional group or unit with which the individual is associated (primarily based upon the operating profit of such unit); and

the overall performance of the Corporation (primarily based upon diluted earnings per share).

Such goals may or may not be equally weighted and may vary from one executive officer to another. Individual performance goals do not constitute more than thirty percent (30%) of any executive officer's total Annual Incentive Plan award opportunity. Annual Incentive Plan awards for the functional unit's and the Corporation's performance comprise the majority of any award opportunity.

Long-Term Incentive Compensation

The Corporation's long-term incentive compensation for its key executives consists of:

- (i) grants of stock options pursuant to the Corporation's Equity Participation Plan;
- (ii) grants of restricted stock pursuant to the Restricted Stock Plan; and
- (iii) a cash opportunity that is payable based on achievement of objectives over a three-year performance period pursuant to the Corporation's Long-Term Incentive Plan.

The Equity Participation Plan is intended to provide a means of encouraging an ownership interest in the Corporation by those employees who have contributed or are determined to be in a position to contribute materially to the success of the Corporation, thereby increasing their motivation for and interest in the achievement of the Corporation's long-term success. Because the value of a stock option bears a direct relationship to the price of shares of the Corporation's Common Stock, stock options are viewed as a means of encouraging executives and other key management employees to increase long-term stockholder value. The Compensation Committee grants stock option awards based on such factors as the competitive target long-term incentive opportunity for executives with comparable responsibilities in similarly sized corporations, individual contributions to corporate performance and management recommendations. The Equity Participation Plan mandates that the strike price of any options awarded be set at no less than the fair market value of the Common Stock at the time of grant.

The Restricted Stock Plan is intended to promote the long-term financial success of the Corporation by attracting to and retaining for the Corporation and its Affiliates outstanding executive personnel and to motivate such personnel by means of restricted stock grants to contribute to the Corporation's success. The Compensation Committee designates the participants in the Restricted Stock Plan and establishes the terms on which grants of restricted stock are made. Awards of restricted stock will be made from the Corporation's treasury stock and constitute an immediate transfer of ownership to the participant of shares of the Corporation's Common Stock, including the right to vote the shares and to receive dividends thereon, at a share price established by the Compensation Committee in its discretion. The participant's continued ownership of and right to freely transfer the restricted stock is subject to such conditions on transferability and to such risks of forfeiture as are established by the Compensation Committee at the time of the grant, which may include continued employment with the Corporation for a defined period, achievement of specified management performance objectives or other conditions. As with stock options, a portion of the value of restricted stock bears a direct relationship to the value of the Corporation's Common Stock and, therefore, total stockholder return.

The Long-Term Incentive Plan is designed to enable the Corporation to attract and retain key executives by providing a competitive and diversified total compensation package and to help focus executives' attention on the long-term performance of the Corporation. The Compensation Committee designates participants in the Long-Term Incentive Plan, determines cash award opportunities on the basis of a three-year performance period and is otherwise responsible for administration of the Long-Term Incentive Plan. Performance is measured on a cumulative basis and a portion of the overall cash award opportunity for any performance cycle may be earned annually. A part of the award opportunity may also still be earned in each year even if the cumulative performance objectives are not met provided that pre-established stand-alone annual objectives are achieved. Payment of any earned awards is made at the end of the performance period and is subject to the participant's continued employment at the time of payment. New award opportunities are not established until the current performance period is concluded thereby maintaining a clearer focus on the long-term performance objectives established by the Compensation Committee for each performance cycle. The Long-Term Incentive Plan award opportunities are based on a competitive market analysis of long-term incentive

opportunities for executive management positions in comparable companies. Under the Long-Term Incentive Plan, a target cash award is established for each participant, which, taken together with a participant's stock option and restricted stock grants, is structured to provide the participant with a total long-term incentive award commensurate with the participant's responsibilities. The award opportunity is allocated fifty percent (50%) in cash and fifty percent (50%) in equity opportunity in the form of stock options granted under the Equity Participation Plan or restricted stock granted under the Restricted Stock Plan. A participant in the Long-Term Incentive Plan can earn awards that range from zero percent (0%) up to two hundred and thirty percent (230%) of the performance award opportunity allocated by the Compensation Committee. The Compensation Committee may, in its discretion, adjust the award opportunity ranges up or down through the use of special conditions established when the performance objectives are determined for a performance cycle under the Long-Term Incentive Plan. An award opportunity was established by the Compensation Committee and approved by the Board of Directors for the 2001-2003 performance period.

Deferred Compensation

As an adjunct to the annual salary and to the annual bonus and long-term incentive bonus that may be earned under the Annual Incentive Plan and Long-Term Incentive Plan, respectively, by the Named Executive Officers and other key employees, the Corporation has adopted a Deferred Compensation Plan. The Deferred Compensation Plan permits eligible employees who elect to participate to defer receipt and taxation of a portion of their annual salary and incentive bonuses. The amount of annual salary and incentive bonus awards that may be deferred is limited to twenty five percent (25%) and fifty percent (50%), respectively. Eligibility to participate in the Deferred Compensation Plan is limited to management and highly compensated employees as defined in the Employee Retirement Income Security Act of 1974, as amended. The Corporation may, with Compensation Committee approval, make cash contributions to a participant's account in the Deferred Compensation Plan.

Compensation of Chief Executive Officer

The Compensation Committee used the same compensation policy described above for all executive officers to determine the compensation for Wayne H. Deitrich, the Chief Executive Officer of the Corporation. Mr. Deitrich is a participant in or is entitled to participate in each of the executive compensation plans described above on the same terms as the other executive officers. In setting both the cash-based and equity-based elements of Mr. Deitrich's compensation, the Committee attempted to target the 50th percentile of such compensation as paid to chief executive officers of the companies analyzed in the outside consultant's study.

Corporate Tax Deduction for Executive Compensation

Pursuant to the Omnibus Budget Reconciliation Act of 1993 (OBRA), annual compensation payable to the chief executive officer and each of the four (4) highest paid executive officers of a public corporation will not be deductible by the corporation for Federal Income Tax purposes to the extent any such officer's overall compensation exceeds \$1,000,000. Certain types of compensation, including qualifying performance-based incentive compensation, are both deductible and excluded for purposes of calculating the \$1,000,000 base under Code Section 162(m). OBRA recognizes stock option plans as performance-based if such plans meet certain requirements. The Compensation Committee will take advantage of qualifying compensation paid to the Named Executive Officers under OBRA to maintain the Corporation's deduction for such expenses where it deems appropriate and advisable. However, all executive compensation plans and compensation paid to the Named Executive Officers may not be so qualified.

The following table provides information respecting the award opportunity provided to the Corporation's Named Executive Officers for the Performance Cycle commencing January 1, 2001 and ending December 31, 2003 (2003 Performance Cycle) pursuant to the Corporation's Long-Term Incentive Plan. Long-Term Incentive Plan awards for the 2003 Performance Cycle are contingent on achieving predetermined financial performance objectives for the Corporation established by the Compensation Committee for such period and are based on a range of percentages of the Participant's 2001 base salary for achieving the Threshold, Target, Maximum and Outstanding Performance Objectives, respectively. Performance at less than Threshold results in no award. Additional information about the purpose of and method for determining Long-Term Incentive Plan awards is set forth herein on page 14 under the caption Compensation Committee Report on Executive Compensation.

- (1) The Estimated Future Payouts reflect potential amounts that may be earned in the third and final year of the 2003 Performance Cycle. The award amounts can be increased by up to an additional fifteen percent (15%) based on increases in the Corporation's operating profit year over year.
- (2) The percentage stated for each Named Executive Officer is the potential opportunity as a percent of the Participant's 2001 base salary to be earned over the entire 2003 Performance Cycle. The dollar amount of the awards actually earned in 2001 and 2002 under the Long-Term Incentive Plan are included as 2001 and 2002 Annual Bonus, respectively, in the Summary Compensation Table found on page 16 herein for each of the Named Executive Officers. The 2001 and 2002 awards were earned, but are not payable until 2004 and are subject to forfeiture if the individual is not employed by the Corporation as of the date of payment.
- (3) Mr. Le Hétet's awards will be paid in Euros. The rate used to convert the Euro to US\$ was the December 31, 2002 closing rate of 1.0493.

Defined Benefit Retirement Plan

The Corporation provides certain benefits to its U.S. employees through the Schweitzer-Mauduit International, Inc. Retirement Plan (the Retirement Plan), a U.S. pension plan covering hourly and salaried employees. In July 2000, the Retirement Plan was amended to add a cash balance formula benefit that would apply to newly hired employees, certain employees previously covered under the final average pay formula benefit and employees who had the right to elect coverage under either the new cash balance formula benefit or the final average pay formula benefit. The final average pay formula benefit and the cash balance formula benefit provisions of the Retirement Plan are discussed separately below.

Final Average Pay Formula Benefit

The final average pay formula benefit entitles each vested salaried U.S. employee participating in that benefit formula to an annual pension benefit at normal retirement equal to 1.50 percent of final average earnings times the employee's years of service, subject to a deduction for social security benefits or, if greater, 1.125 percent of final average earnings times years of service plus a specific amount for certain employees. Final average earnings is defined as the highest average of any five (5) years of Earnings (as defined in the Retirement Plan) out of the last fifteen (15) calendar years of employment, or over the last sixty (60) months of credited service, if greater. The minimum monthly benefit payable in a single-life annuity to salaried employees is the lesser of \$125 or \$25 times years of service.

Retirement benefits for salaried participants who have at least five (5) years of vesting service may begin on a reduced basis at age 55, or on an unreduced basis at normal retirement age. Unreduced benefits also are available for salaried participants with ten (10) years of vesting service at age 62 or as early as age 60 with thirty (30) years of vesting service. The normal form of benefit for unmarried salaried participants is a single-life annuity payable monthly. Benefits will be actuarially adjusted if the employee receives one of the available forms of joint and survivor or other optional forms of benefit.

Table A illustrates the estimated annual benefits payable upon retirement at age 65 without regard to IRS limitations under the Retirement Plan for specified highest five-year average remuneration and years-of-service classifications for U.S. salaried employees, computed on a single-life annuity basis, without deduction for Social Security or other offset amounts. Benefits will be adjusted if the employee receives one of the optional forms of benefit. Benefits under the Retirement Plan will be limited to the extent required by U.S. tax provisions. Any excess over such limitation for certain salaried employees will be paid pursuant to supplemental arrangements.

The estimated years of benefit service, which includes years of benefit service while at Kimberly-Clark Corporation (from which the Corporation was spun-off in November 1995) as of normal retirement at age 65, for Messrs. Deitrich and Roberts, are 38.5 and 36.6, respectively. Messrs. Rumely and Thompson have their retirement benefits determined under the cash balance formula benefit.

Mr. Le Hétet's retirement benefits are provided under a foreign subsidiary's pension plan that bases benefits on years of service and compensation. His projected annual benefit at normal retirement at age 65 is 315,000 Euros or \$330,530 with twenty nine (29) years of credited service.

Cash Balance Benefit Formula

The cash balance formula benefit covers all salaried employees hired on or after July 1, 2000 and salaried employees as of July 1, 2000 who are not grandfathered under the terms of the Retirement Plan, or were grandfathered employees who chose the cash balance formula benefit. Salaried employees who, as of July 1, 2000, had either attained the sum of their age plus years of vesting service equal to sixty-five (65) or more, or attained the sum of their age plus years of vesting service equal to sixty (60) or more and had at least fifteen (15) years of vesting service were grandfathered under the final average pay formula benefit. The grandfathered employees had until October 1, 2000 to elect to remain under the final average pay formula benefit or to take the cash balance formula benefit. The terms of participation of hourly employees in the cash balance benefit formula are negotiated for each bargaining unit as part of the collective bargaining process.

For salaried employees who as of July 1, 2000 were not grandfathered or who were grandfathered, but elected the cash balance formula benefit, an initial account balance was established based on the employee's accrued benefit payable at normal retirement age under the final average pay formula benefit converted to a lump sum based on a mortality table and an interest rate that was consistent with industry norms.

A Retirement Contribution Credit is added to the participant's account balance each year in which the participant accrues a year of vesting service. The Retirement Contribution Credit is determined in accordance with the schedule noted in Table B. The account balance is also credited with an interest credit based on the average yield for 30-year Treasury securities for the November immediately preceding the current Retirement Plan year.

Table B**Retirement Contribution Credit**

Participant's Attained Age Plus Years of Vesting Service	Percentage of All Earnings	Plus Additional Percentage of Earnings Over Social Security Wage Base

45 to 54		
4.0 4.0

Participants have the option to receive their vested account balance as either a lump-sum payment or an immediate single life annuity or a fifty percent (50%) joint and survivor annuity if married when they terminate employment with the Corporation or become disabled.

Messrs. Rumely and Thompson are the only Named Executive Officers who participate in the cash balance formula benefit. Messrs. Deitrich and Roberts are grandfathered employees who elected to remain covered by the final average pay formula benefit.

Table C shows the estimated annual retirement benefit payable under the cash balance formula benefit for the participating Named Executive Officers computed as a single life annuity based on 2001 earnings, without taking Code limitations into account. These estimates assume an average annual interest credit of 5.12% percent, actual 2002 earnings and earnings increases of four percent (4%) per year thereafter. The Social Security wage base was also assumed to increase four percent (4%) per year.

Supplemental Retirement Arrangements.

The Corporation's supplemental retirement arrangements provide a benefit equal to the difference between (i) the benefit payable to a participant under the Retirement Plan and (ii) the benefit that would be payable to such participant under such plan, calculated without regard to the compensation limit under Code Section 401(a)(17) and the limitations on benefits under Code Section 415 (excess benefits). Participants who accrue a final average pay formula benefit obtain their excess benefits through the Supplemental Benefit Plan to the Retirement Plan. The excess benefit

amount for cash balance plan participants is annually credited to the participant's account in the Deferred Compensation Plan. These supplemental arrangements are unfunded and participation is limited to salaried employees with earnings in excess of Code Section 401(a)(17) limits and who are members of a select group of management or highly-compensated employees.

Executive Severance Plan

The Corporation's Executive Severance Plan (the "Severance Plan") provides that in the event of termination of a participant's employment with the Corporation or one of its French affiliates for any reason other than Death, Disability or Retirement (as defined in the Severance Plan) within two (2) years after a change of control of the Corporation, as defined in the Severance Plan, a participant employed in the United States will be entitled to:

- (i) receive a cash payment in an amount equal to three (3) times the highest annual compensation (base salary and any incentive awards) paid or payable within the three-year (3) period ending on the date of termination;
- (ii) receive health, dental and life insurance benefits from the Corporation for a period of three (3) years; and
- (iii) receive a cash payment in an amount equal to the actuarial equivalent of the accrued benefits the participant would have earned under the Retirement Plan and the Supplemental Plan if the participant had continued participation in those plans for three (3) years following termination.

A participant employed by one of the Corporation's French affiliates is entitled to essentially the same payments and benefits as a United States participant, subject to certain adjustments which take into account the differences between the respective compensation, benefit and pension plans and programs in the United States and France. Severance payments under the Severance Plan for participants subject to United States Federal Income Tax will be limited to the extent necessary to avoid an excise tax on the participant under Code Section 4999 if the "parachute payments" under Code Section 280G with respect to such participant are less than 3.5 times the "base amount" for purposes of Code Section 280G. If such parachute payments equal or exceed 3.5 times such base amount with respect to a participant, the Corporation shall pay the participant an additional gross-up payment to compensate such participant for the excise tax liability under Code Section 4999. The Compensation Committee of the Board of Directors of the Corporation has established the eligibility criteria for participation and, from time to time, designates key employees as participants in the Severance Plan. Subject to certain conditions, the Severance Plan may be amended or terminated by resolution of the Board of Directors, but no such amendment or termination shall be effective during the two-year period following a change of control of the Corporation without the consent of all of the participants. The Corporation has agreements under the Severance Plan with the Named Executive Officers and certain other key employees. The maximum amount payable upon termination (with respect to base salary and annual incentive compensation) pursuant to the agreements under the Severance Plan with the Named Executive Officers, assuming that a change of control of the Corporation and the termination of their employment had occurred on December 31, 2002, would have been as follows:

Mr. Deitrich, \$3,105,000.

Mr. Le Hétet, \$1,791,936.

Mr. Roberts, \$1,337,349.

Mr. Rumely, \$1,012,650.

Mr. Thompson \$987,000.

If a participant's employment is otherwise terminated for any reason other than Death, Retirement, Voluntary Resignation or Cause (as defined in the Severance Plan), the participant will receive a cash payment in an amount of up to twenty four (24) months base salary.

Performance Graph

The following graph compares the total cumulative stockholder return on the Corporation's Common Stock during the period from December 31, 1997 through December 31, 2002, with the comparable cumulative total returns of the Wilshire 500 Index and a self-constructed peer group that reflects, but is not exactly comparable to the Dow Jones Paper Products Index (Peer Group). The graph assumes that the value of the investment in the Common Stock and each index was \$100 on December 31, 1997 and that all dividends were reinvested. The Peer Group has been comprised of the following companies:

Boise Cascade Corporation

Bowater Incorporated

Champion International Corporation

P. H. Glatfelter Company

Mead Corporation and

MeadWestvaco Corporation

The peer group index has been changed as of December 31, 2002, as Champion International Corporation and Mead Corporation are no longer independent corporations. Instead, FiberMark, Inc. and Wausau-Mosinee Paper Corporation have been added to the peer group to provide a representative peer group. The Peer Group will now be comprised of the following companies:

Boise Cascade Corporation

Bowater Incorporated

FiberMark, Inc.

International Paper Company

P.H. Glatfelter Company

MeadWestvaco Corporation and

Wausau-Mosinee Paper Corporation

CERTAIN TRANSACTIONS AND BUSINESS RELATIONSHIPS

In 2002, the Corporation and certain of its subsidiaries retained the legal services of the law firm UGGC & Associés. Laurent G. Chambaz, a director of the Corporation, is a partner in UGGC Associés. The cost of such services during 2002 was \$70,965, representing less than one percent (1%) of the law firm's gross revenues.

In 2002, the Corporation acquired various materials and manufacturing supplies used at its Lee Mills from the West Haven, Connecticut location of xpedx totaling \$70,408. Larry B. Stillman, a director of the Corporation, has been the Vice President, Northwest Group, xpedx since 1988. However, the Northwest Group of xpedx has no management or profit and loss responsibility for the West Haven, Connecticut location of xpedx.

Management believes that the cost of services rendered by Mr. Chambaz and the materials and supplies acquired from xpedx during 2002 were reasonable compared with the cost of obtaining similar services, materials and supplies from unaffiliated third parties. Although disclosed, these transactions are not considered by the Corporation to be material to either UGGC & Associés or xpedx and neither Mr. Chambaz nor Mr. Stillman has a ten percent (10%) or greater equity interest in their respective firms.

OTHER MATTERS

The management of the Corporation knows of no other matters to be presented at the 2003 Annual Meeting of Stockholders. Should any other matter requiring a vote of the stockholders arise at the meeting, the persons named in the proxy will vote the proxies in accordance with their best judgment.

Outside Auditors

Upon the recommendation of the Audit Committee, the Board of Directors of the Corporation has selected Deloitte & Touche LLP as the principal outside auditors for the Corporation for the current year. Deloitte & Touche LLP has been the outside auditor for the Corporation since its incorporation. Representatives of Deloitte & Touche LLP are expected to be present at the Annual Meeting with the opportunity to make a statement if they desire to do so, and will be available to respond to appropriate questions from stockholders.

Stockholder Proposals

Under SEC rules, if a stockholder wished to have a proposal considered for inclusion in the Corporation's proxy statement and form of proxy for the 2004 Annual Meeting of Stockholders, a proposal must be received by the Secretary of the Corporation at the Corporation's principal executive offices no later than November 17, 2003. The Corporation reserves the right to decline to include in the Corporation's proxy statement any stockholder's proposal that does not comply with the rules of the SEC for inclusion therein.

The By-Laws of the Corporation include requirements applicable to stockholder proposals other than those included in the proxy materials pursuant to the regulations of the SEC. Pursuant to the By-Laws, a stockholder proposing to nominate persons for election to the Board of Directors or to introduce other business at the Annual Meeting of Stockholders must give timely written notice to the Corporation's Secretary. To be timely, a stockholder's notice must be delivered and received at the Corporation's principal executive offices not less than fifty (50) days nor more than seventy five (75) days prior to the Annual Meeting of Stockholders; provided that if less than sixty (60) days notice or prior public disclosure of the date of the Annual Meeting of Stockholders is given or made to stockholders, notice by the stockholder to be timely must

be so received not later than the close of business on the 10th day following the day on which such notice of the Annual Meeting of Stockholders date was mailed or such public disclosure of the date was made, whichever first occurs.

The Corporation's By-Laws further provide that a stockholder's notice proposing to nominate persons for election to the Board of Directors must contain certain information about both the nominee and the stockholder making the nomination. A stockholder's notice proposing to bring other business before the Annual Meeting of Stockholders must contain the following:

- (1) a brief description of the business desired to be brought before the Annual Meeting of Stockholders and the reasons for conducting such business at the Annual Meeting of Stockholders;
- (2) the stockholder's name and address;
- (3) the class and number of shares of the Corporation's capital stock beneficially owned by the stockholder;
- (4) any material interest of the stockholder in such business; and
- (5) a representation that such stockholder intends to appear in person or by proxy at the annual meeting to bring such business before the Annual Meeting of Stockholders.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934 requires the Corporation's directors and executive officers and persons who own more than ten percent (10%) of a registered class of the Corporation's equity securities to file reports with the SEC regarding beneficial ownership of Common Stock and other equity securities of the Corporation. Officers, directors and greater than 10 percent stockholders are required by SEC regulations to furnish the Corporation with copies of all forms they file pursuant to Section 16(a).

To the Corporation's knowledge, based solely on a review of copies of such reports furnished to the Corporation and written representations that no other reports were required, during the fiscal year ended December 31, 2002, all officers, directors and greater than ten percent (10%) beneficial owners complied with the Section 16(a) filing requirements of the Act.

Form 10-K

The Corporation's Annual Report to the SEC on Form 10-K for the fiscal year ended December 31, 2002 (including the consolidated financial statements and schedules thereto, but excluding exhibits) has been included with the mailing of this Proxy Statement to stockholders of record and beneficial holders as of February 27, 2003. Additional copies of the Corporation's Annual Report to the SEC on Form 10-K for the fiscal year ended December 31, 2002 (excluding exhibits) will be provided without charge to each stockholder so requesting in writing. Each request must set forth a good faith representation that, as of February 27, 2003, the record date for the Annual Meeting, the person making the request beneficially owned shares of the Corporation's Common Stock. The written request should be directed to: Paul C. Roberts, Chief Financial Officer and Treasurer.

The Audit Committee's responsibilities are:

- a. Recommending to the Board of Directors the annual selection of the outside auditor that audits the financial statements of the Corporation. The outside auditor for the Corporation is ultimately accountable to the Board of Directors and reports directly to the Audit Committee of the Corporation. The Audit Committee has the authority and responsibility to select, compensate, evaluate, and, where appropriate, replace the outside auditor.
 - b. Ensuring that the outside auditor submits on an annual basis to the Audit Committee a formal written statement, in accordance with the Independence Standards Board, delineating relationships between the auditor and the Corporation. The Audit Committee is responsible for engaging in a dialogue with the outside auditor with respect to any disclosed relationships or services that may impact the objectivity and independence of the outside auditor or that may potentially constitute prohibited services. The Audit Committee will recommend appropriate action to ensure the independence of the outside auditor.
-

- c. Providing oversight to the financial reporting and disclosure processes and internal control activities of the Corporation, including review of the organization, plans and results of such activity, discussions with management and the outside auditors of the quality and adequacy of the Corporation's internal control processes and review of the outside auditors' annual report on the Corporation's internal controls.
- d. Meeting with the outside auditors and financial management of the Corporation to review the scope and fees of the proposed audit for the current year and the audit procedures to be utilized, and at the conclusion thereof, reviewing any comments or recommendations of the outside auditors. Additionally, review and pre-approve permitted non-audit services to be provided by the outside auditors. Such pre-approval of non-audit services may be performed by the Audit Committee chairman and then reported to the Audit Committee at its next meeting.
- e. Reviewing as a whole, or through the Audit Committee chairman, and discussing with the outside auditors and management, the Corporation's interim financial results and other information to be included in the Corporation's quarterly earnings press release and quarterly reports to be filed with the SEC prior to the issuance of the earnings press release and the Corporation's filing of the Form 10-Q. This review will include the Corporation's disclosure under Management's Discussion and Analysis of Financial Condition and Results of Operations, management's report on internal control and the financial reporting and disclosure processes, management certifications, use of pro-forma or adjusted non-GAAP information, earnings guidance provided to analysts and rating agencies, off-balance sheet structures and the effects of regulatory and accounting initiatives.
- f. Reviewing and discussing the financial statements contained in the annual report to shareholders with management and the outside auditor and determining that the outside auditor is satisfied with the disclosure and content of such financial statements. Any proposed or implemented changes in accounting principles should be reviewed. These discussions will include review of significant reserves and unusual accruals, consideration of the suitability of accounting principles, review of contingencies and highly judgmental areas, discussion of audit adjustments, whether or not recorded, and such other inquiries as may be appropriate. If deemed appropriate after such review and discussion, recommend to the Board of Directors that the financial statements be included in the Corporation's annual report on Form 10-K.
- g. Reviewing with the outside auditor any problems or difficulties incurred during the audit and management's response and holding timely discussions with the outside auditor regarding all critical accounting policies and practices; such reviews and discussions to include all alternative treatments of financial information within generally accepted accounting principles that have been discussed with management, ramifications of the use of such alternative disclosures and treatments, and the treatment preferred by the outside auditor and other material written communications between the outside auditor and management including, but not limited to, the management letter and schedule of unadjusted differences.
- h. Setting clear hiring policies for the Corporation for employees or former employees of the outside auditor.
- i. Obtaining advice and assistance from outside legal, accounting or other advisors as deemed appropriate to fully execute the Committee's duties and responsibilities.
- j. Reviewing and approving the Audit Committee Report required under SEC rules to be included in the Corporation's annual proxy statement.
- k. Reviewing and reassessing the adequacy of the Audit Committee Charter on an annual basis, with the charter approved by the Board of Directors.

- l. Reporting regularly to the Board of Directors regarding the execution of its duties and responsibilities.
- m. Performing an annual self-assessment relative to the Audit Committee's purpose, duties and responsibilities outlined herein.
- n. Performing such other duties as the Board of Directors may from time-to-time prescribe.

While the Audit Committee has the responsibilities and powers set forth in this Charter, it is not the duty of the Audit Committee to plan or conduct audits or to determine that the Corporation's financial statements are complete, accurate and in accordance with generally accepted accounting principles. This is the responsibility of management and the outside auditor. Nor is it the duty of the Audit Committee to conduct investigations or to assure compliance with laws and regulations and the Corporation's policies.

5. Meetings

The Audit Committee shall meet at least four (4) times annually, or more frequently as circumstances dictate. Each regularly scheduled meeting shall conclude with an executive session of the Committee, excluding members of management and the outside auditors, and on such terms and conditions as the Committee may elect. The Audit Committee shall meet periodically, but at least annually, with management, the outside auditors and those responsible for the Corporation's internal control function in separate executive sessions to discuss any matters that the Committee, the outside auditors, management or those responsible for internal control believe should be discussed privately. In addition, the Committee shall review the quarterly financial statements with the outside auditor and management as prescribed in 4.e. above.
