PROXY STATEMENT

ANNUAL MEETING OF SHAREHOLDERS TO BE HELD ON FEBRUARY 10, 2007

GENERAL INFORMATION

This Proxy Statement is furnished in connection with the solicitation of proxies by and on behalf of the Board of Directors of Keithley Instruments, Inc. (the Company) for use at the Annual Meeting of Shareholders of the Company to be held on February 10, 2007, and any adjournment or postponement thereof. The time, place and purposes of the Annual Meeting are stated in the Notice of Annual Meeting of Shareholders which accompanies this Proxy Statement.

The solicitation of proxies is made by and on behalf of the Board of Directors. The expense of soliciting proxies, including the cost of preparing, assembling and mailing the proxy materials, will be borne by the Company. In addition to solicitation of proxies by mail, solicitation may be made personally and by telephone, and the Company may pay persons holding shares for others their expenses for sending proxy materials to their principals. No solicitation will be made other than by Directors, officers and employees of the Company.

The presence of a shareholder at the Annual Meeting will not operate to revoke the shareholder's proxy. Any shareholder giving a proxy pursuant to this solicitation may revoke it by giving notice to the Company in writing or in open meeting. All properly executed proxies received by the Board of Directors of the Company pursuant to this solicitation will be voted at the Annual Meeting, in accordance with the directions contained in such proxies. If no directions are given, properly executed proxies will be voted FOR the election of the nominees named in this Proxy Statement and FOR the proposals set forth in the Notice, with discretionary authority to vote on all other matters that may properly come before the Annual Meeting or any adjournment or postponement thereof.

The close of business on December 12, 2006 has been fixed as the record date for the determination of shareholders entitled to notice of and to vote at the meeting. This Proxy Statement and the accompanying President's letter, notice and proxy, together with the Company's annual report to shareholders for the fiscal year ended September 30, 2006, are first being sent to shareholders on or about January 4, 2007.

VOTING RIGHTS

As of the close of business on December 12, 2006, there were outstanding 14,004,745 Common Shares, without par value, of the Company (Common Shares) and 2,150,502 Class B Common Shares, without par value, of the Company (Class B Common Shares). The holders of outstanding Common Shares on that date will be entitled to one vote for each share held, and the holders of outstanding Class B Common Shares on that date will be entitled to ten votes for each share held. Proxies received by the Company but marked as abstentions or broker non-votes will not count in favor of, or against, election of a nominee for Director; however, abstentions and broker non-votes may have the effect of a vote against approval of any other matter.

The Ohio Revised Code, as it applies to the Company, provides that if notice in writing is given by any shareholder to the President, a Vice President or the Secretary of the Company not less than 48 hours before the time fixed for holding the meeting that such shareholder desires the voting to elect Directors to be cumulative, and if an announcement of the giving of such notice is made upon the convening of the meeting by the Chairman or the Secretary or by or on behalf of the shareholder giving such notice, then each shareholder shall have cumulative voting rights in the election of Directors, enabling such shareholder to give one nominee for Director as many votes as is equal to the number of Directors to be elected multiplied by the number of shares in respect of which such shareholder is voting, or to distribute votes on the same principle among two or more nominees, as such shareholder sees fit. If cumulative voting is in effect, the persons named in the proxy will vote shares represented thereby so as to elect as many of the ten nominees named herein as possible.

PROPOSAL ONE: ELECTION OF DIRECTORS

At the Annual Meeting, or any adjournment or postponement thereof, Common Shares and Class B Common Shares represented by proxies, unless otherwise specified, will be voted for the election as Directors of the ten persons named below who have been nominated by the Board of Directors following the recommendation of the Board's Nominating and Corporate Governance Committee.

Each of the Directors to be elected at the meeting is to serve until the next Annual Meeting and until his or her successor shall have been duly elected and qualified. Each of the nominees is presently a member of the Board of Directors and each has indicated his or her willingness to serve as a Director, if elected. If any nominee at the time of election is unable or unwilling to serve or is otherwise unavailable for election (which contingency is not now contemplated or foreseen), it is intended that the shares represented by proxies will be voted for the election of any substitute nominee that may be named by the Board of Directors.

The non-management directors meet in executive session without management during each board meeting. The non-management directors have appointed R. You may also send an email to the lead outside director through Keithley Instruments, Inc. Office of the President at rsarrone@keithley.com by indicating "Lead Director" in the subject line. The email will be forwarded to the lead outside director.

The Executive Committee is authorized to exercise all of the powers of the Board of Directors between meetings of the Board of Directors. All actions of the Executive Committee are reported to the Board of Directors at its first meeting following such action or actions.

The Audit Committee is responsible for assisting the Board in overseeing (i) the integrity of the financial statements of the Company, (ii) the Company's compliance with legal and regulatory requirements, (iii) the Company's

independent registered public accounting firm's qualifications and independence, and (iv) the performance of the Company's internal audit function and independent registered public accounting firm. The Compensation and Human Resources Committee responsibilities are to review and approve the goals and objectives relevant to the compensation of the Company's Chief Executive Officer, other executive officers and other employees who report to the Company's Chief Executive Officer, and to amend these goals and objectives if the Committee deems it appropriate. Toward that end, the committee oversees all compensation, equity and employee benefit plans and payments. The Strategy Committee is responsible for ensuring that management has in place strategies and action plans as well as useful planning and control systems to enable the Company to meet its objectives.

The Nominating and Corporate Governance Committee is responsible for assisting the Board of Directors in identifying individuals qualified to become Board members; to recommend board committee structure, membership and operations; to develop and recommend to the Board a set of effective corporate governance policies and procedures; and to lead the Board in its annual review of the Board's performance.

The charter of the Nominating and Corporate Governance Committee provides that the Committee shall make recommendations to the Board regarding director nominations, including director candidates recommended by shareholders. If a shareholder wishes to recommend a candidate, they should send their recommendation, with a description of the candidate's qualifications, to: Chairman, Nominating and Corporate Governance Committee, c/o Marcia Miller, Keithley Instruments, Inc., 28775 Aurora Road, Cleveland, Ohio 44139. The Committee has not established specific minimum qualifications a candidate must have in order to be recommended by the Committee. However, in determining qualifications for new directors, the Committee will periodically establish and review Board succession plans, establish the experience and attributes needed to fulfill its responsibilities and work with the Chief Executive Officer to identify management's needs for advice and counsel. A director candidate pool will be established from recommendations from shareholders and the Board of Directors. Additionally, the Nominating and Governance Committee may retain a board search consultant to identify and recruit potential directors.

In 2005, the Compensation Committee undertook a reassessment of the Board's director compensation practices in recognition of the increased expectations and responsibilities faced by directors of public companies following adoption of the Sarbanes-Oxley Act, new regulatory and stock exchange requirements and director compensation trends at comparable high-technology public companies. In determining director compensation, the Compensation Committee reviewed data for the 21 peer companies identified in the Compensation and Human Resources Committee Report below, as well as other broad-based industry survey data. Based on their research and advice of outside consultants retained by and reporting to the Compensation Committee, the Committee recommended, and the Board of Directors approved, a revised director compensation program, which began to take effect in fiscal year 2006.

For fiscal year 2006, Directors who are not employees of the Company received an annual fee of \$20,000 paid in four installments. Directors received an additional \$1,000 for each board meeting attended and each committee meeting attended, except for Audit Committee meetings for which each Director received \$1,500 for his or her attendance. The Audit Committee Chairman received an additional annual fee of \$10,000 paid in four installments, while the Compensation and Human Resources Committee Chairman, the Strategy Committee Chairman, and the Nominating and Corporate Governance Committee Chairmen each received an additional annual fee of \$5,000 paid in four installments. Directors may defer their fees under the Keithley Instruments, Inc. 1996 Outside Directors Deferred Stock Plan. Under the terms of that Plan, the fees are invested in Common Shares, the total number of which are included in Security Ownership of Management table found on page 3, and will be paid out in cash or Common Shares on a specified date or upon retirement from the Board of Directors per the election of the recipient.

Along with shifting employee compensation from a focus on stock options to full-value shares, the equity compensation of the Board has also been modified. Each non-employee Director will receive a restricted stock award worth \$75,000, rounded to whole shares, upon his or her initial appointment to the Board. The shares will vest over a 3-year period. Additionally, each non-employee Director receives an annual Common Share grant equal to approximately \$58,000 issued in four installments. The shares are issued pursuant to the Keithley Instruments Inc. 2002 Stock Incentive Plan. Effective October 1, 2005, the Board of Directors established a policy requiring Directors to own \$100,000 of Common Shares in the Company. It is expected that the Company's Directors will make substantial progress towards achieving this ownership level within four years of the establishment of the policy, or in the case of new Directors, within four years of their election.

EXECUTIVE COMPENSATION AND RELATED INFORMATION**Compensation and Human Resources Committee Report**

The Compensation and Human Resources Committee (the Committee) of the Board of Directors is responsible for reviewing and approving executive management compensation, including the Chief Executive Officer s performance evaluation, and overseeing the Company s compensation, employee benefit, and management organizational development plans. Each member qualifies as an independent director under the listing standards of the New York Stock Exchange (the NYSE). Members of the Committee also qualify as non-employee directors within the meaning of Rule 16b-3 promulgated under the Securities Exchange Act of 1934, as amended, and outside directors within the meaning of Section 162(m) of the Internal Revenue Code of 1986, as amended.

The goal of Keithley s compensation program is to attract highly qualified individuals, and to retain them as well as motivate them to achieve superior financial results in both the short-term and long-term thus aligning them with the interests of shareholders. The compensation program is designed to reward the achievement of return on invested capital (ROIC) in excess of the Company s cost of capital while achieving superior sales growth,

earnings growth and appreciation of the Company's share price. The Committee and the Board of Directors believe that the compensation program and specific compensation choices made on behalf of the Company's executive officers must meet two standards. First, they must be competitive with similar electronics companies and competitive measurement companies with whom we compete for employees in the marketplace. Second, the program and pay decisions need to be in the immediate and long-term interests of the shareholders through the creation of shareholder value and future share appreciation. The other factors that would be considered in a decision to increase or decrease compensation materially would include the performance of the individual, the performance of the Company, and significant changes in the competitive landscape for individuals possessing the skills the Company requires.

The Company's executive compensation program consists of a base salary, an annual cash bonus, and long-term incentive awards in the form of stock-based compensation. On an annual basis, the Committee determines each executive officer's compensation package for the upcoming year. The Committee has retained the services of an independent executive compensation consultant, AON Consulting/Radford Surveys, to perform marketplace studies and to advise the Committee on competitive pay practices. Data considered includes both broad-based electronics industry survey data, and specific data from 21 peer companies¹, which are comparable in scale, complexity and technology. The 21 peer companies were chosen because they compete for employees with similar skills as those the Company requires. Company management works with AON Consulting to understand the competitive norms and to make specific recommendations to the Committee with regard to compensation based upon its assessment of the performance of each individual executive officer. Compensation amounts realized from past years and prior year equity awards are generally not considered in the current year's determination of each individual's compensation package. The impacts of tax or accounting treatments for particular forms of compensation also are generally not considered, except to the extent they reflect industry norms.

The total mix of base salary, annual cash bonus, and long-term incentive awards is based upon the recommendation of AON Consulting, and are implemented after careful consideration of individual performance to job requirements, attainment of specific goals and contributions to the Company. The allocation between currently paid cash compensation and long-term compensation for Mr. Keithley and for Ms. Rae is targeted at approximately a 50/50 split. The allocation for other executive officers is targeted between 60/40 and 70/30. The allocation is based upon market place norms and the impact that each executive officer is believed to have on the Company's long-term strategy and implementation thereof.

Following is a summary of the each element of total compensation.

Base Salary

Executive officers' base salaries are benchmarked against the range of salaries paid to individuals who hold similar positions at the peer companies described above. In general for those managers with suitable experience and who are performing well, their salaries are targeted to the market median. All executive officers' salaries are within a range of plus or minus twenty percent of the market median based on individual experience and performance. All received salary increases during fiscal year 2006 based upon individual performance, and to remain competitive with market movements for individuals with similar skills and experience in similar industries.

Annual Bonus Program

The Committee determines a target bonus award for each executive officer based upon comparisons to individuals with similar positions in similar electronics and measurement companies as described above. The targeted bonus payout is set based upon a percentage of base salary. In the case of Mr. Keithley, the bonus is targeted at approximately 70 percent of his base salary. For the other executive officers, bonus targets range from 35 to 55 percent of their individual salary depending upon their position and experience. The calculated payout of each

annual bonus is based on objective financial measures. Bonuses are paid at market median for median company

¹ ADE, Aeroflex, Analogic, Brooks Automation, Cascade Microtech, Credence Systems, ESI, Electroglas, EXFO, Kulicke & Soffa, LeCroy, LTX, National Instruments, Newport, Photon Dynamics, Rudolph Technologies, Thermawave, Tollgrade, Varian Semiconductor, Veeco and X-rite. Other larger Test and Measurement companies like Agilent and Tektronics are surveyed for program design and compensation strategies.

Table of Contents

performance. Above median annual bonuses are paid when Company performance is significantly above the established target, and below median annual bonuses or no bonuses will be paid for poor financial performance. The 2006 Annual Bonus program's financial measures for the executive officers other than Mr. Peseć, consist of return on assets employed (ROA) as a proxy for ROIC, and sales growth (1/2 ROA and 1/2 sales growth weighting). In the case of Mr. Peseć, sales growth is replaced with order growth to determine the bonus payout. ROA is calculated as earnings before interest, taxes and stock-based compensation expense, divided by the average of the sum of inventory, customer accounts receivable and net fixed assets. The Chief Executive Officer can recommend to the Committee a plus or minus 25 percent modification to the calculated bonus to be delivered to an executive officer; however, he cannot modify his own calculated bonus. The Committee can then modify the bonus recommended by the Chief Executive Officer by an additional plus or minus 25 percent. The Committee may also modify the Chief Executive Officer's calculated bonus. The modifications are based on the individual's contribution to the effective management of the Company and the performance of the individual's functional area of responsibility.

For fiscal year 2006, the Committee determined Annual Bonuses for executive officers other than Mr. Keithley, Mr. Plush, Mr. Etsler and Mr. Peseć would be paid at 52% of target. Mr. Peseć's Annual Bonus was paid at 67% of target as his bonus is based upon order growth versus sales growth. While the sales or order growth met our targets, the earnings were below our expectations. For fiscal 2006, the Company determined that it was not appropriate to include the costs of the stock options investigation in the calculation of ROA for those executive officers who had no involvement in the matters under investigation. Messieurs Keithley, Plush and Etsler are discussed under Other Actions.

Long Term Compensation Program

Long-term compensation is awarded in the form of annual non-qualified stock option grants (NQSO), and beginning in fiscal year 2006, in the granting of performance award units (PAU). The Committee has chosen not to have long-term incentive programs that reward in cash, as it feels that stock settled programs offer better alignment between the interests of the executive officers and the Company's shareholders. Additionally, restricted stock award units are not awarded to executive officers or other key managers, as they are not directly tied to Company performance.

As described above, AON Consulting provides the Committee with marketplace and peer company data for competitive long-term pay granted for each executive officer position. That dollar value is used by the Committee to determine the appropriate mix of non-qualified stock options and performance share units described below. Performance share units are valued at the share price at the time of the grant, and stock options are valued by the compensation consultant using a risk adjusted present value model (RAPV). This value is often about half of the grant price, and is not the value the Company uses to expense the stock options under Statement of Financial Accounting Standards No. 123(R) Stock-based Compensation (SFAS 123(R)). The Company uses the Black-Scholes model to value NQSO's for SFAS 123(R) purposes.

The NQSOs and PAUs were granted on the first business day of the 2006 fiscal year. PAUs are to be earned based on a three-year performance period and entitle the recipient to receive one share of the Company's common shares for each unit. NQSOs and PAUs are used to align executive compensation directly with shareholder value by tying the performance of the business and the achievement of strategic goals to the Company's share price. For Mr. Keithley and Ms. Rae, a 50-50 split between NQSOs and PAUs is used. For the other executive officers, a 40-60 split of NQSOs and PAUs is used. Mr. Keithley and Ms. Rae's split is more heavily weighted toward NQSOs than the others as they have a greater ability to impact the strategy and plans of the Company, and NQSO's provide more leverage with regard to their compensation than PAU's. NQSO issued in fiscal year 2006 vest 50 percent after two years, 75 percent after three years and are fully vested after four years. They expire in ten years, and have an option price equal to the fair market value of the Company's common shares at the time of grant. PAUs are earned over a three-year period with the

payout metrics dependent upon the Company's sales growth in comparison to a pre-defined group of peer companies and the Company's ROA (defined for this purpose as earnings before taxes and interest divided by the average of the sum of accounts receivable, inventories and net property plant and equipment

² Aeroflex, Advantest, August Technology, Chroma ATE, Nanometrics, National Instruments, Yokogawa, Teradyne, Tektronix, Rudolph Technologies, Thermawave, Lecroy, LTX, Tollgrade Communications, Agilent, Anritsu, EXFO for the 2006-2008 performance period.

for the applicable fiscal year) or return on invested capital (ROIC) in the case of Mr. Keithley, Ms. Rae and Mr. Plush, over the three-year performance period. ROIC is defined as net earnings divided by shareholders equity less cash and short-term investments. ROIC is used for Mr. Keithley, Ms. Rae and Mr. Plush as they have more ability to impact the Company's after tax cash flow and capital structure than the other executive officers. The measure for sales performance uses a different set of peer companies than the compensation peer company group, although some individual companies are in both groups. The peer companies used to compute the sales growth measure comprise those companies that make product solutions for customers that are the same or very similar to those of Keithley, and include non-U.S. international companies, in order to provide a proxy for market share. The final amount earned pursuant to a PAU granted in fiscal year 2006 may range from a maximum of twice the initial award, as specified in the agreement, to a minimum of no units depending upon the level of attainment of performance thresholds. The awards can be adjusted in increments of 50 percent of the target. The awards granted in fiscal year 2006 to executive officers will vest on September 30, 2008. The current expected payout of these awards is at the target level.

Deferred Compensation Plan

The Deferred Compensation Plan provides Executive Officers and other key employees the opportunity to defer receipt of cash compensation. The Company does not contribute to this plan. Participants may elect to defer all or part of their cash compensation (base salary and annual bonus) for a specified period of years or until retirement. Participants can select from a variety of investment funds from which the earnings on their deferred cash compensation account will be determined. Participants in the Deferred Compensation Plan are considered unsecured creditors of the Company.

Other Compensation Plans and Perquisites

The Company's benefits and retirement programs are designed to be competitive with electronics industry norms. The Company has a defined benefit pension plan that covers all eligible U.S.-based employees and is described in greater detail on page 14. The Company also maintains a defined contribution retirement plan for all of its eligible employees in the United States under Section 401(k) of the Internal Revenue Code. The dollar value of the Company match is shown in the All Other Compensation column of the Summary Compensation Table on page 15, and follows the same formula for executive officers as for all eligible employees. The Company does not have a supplemental executive retirement plan (SERP) covering current executive officers.

The Company provides executive officers with a Company car, a cell phone (except for Mr. Plush), life insurance equal to two times their annual salary, access to financial planning services, and access to a health club membership. The dollar value of these perquisites was below the threshold necessary for disclosure in the Other Annual Compensation column of the Summary Compensation Table on page 15 for fiscal year 2006.

Change in Control and Other

Upon a change in control as defined in the Keithley Instruments, Inc. 2002 Stock Incentive Plan, all stock options and any outstanding stock appreciation rights granted under the Plan shall become immediately exercisable in full and all restricted stock grants, including PAUs, shall become immediately vested and any applicable restrictions shall lapse. PAUs shall immediately vest at target levels. The Company does not have a formal severance policy.

The Company does not have stock ownership guidelines or other requirements with regard to executive officer ownership of the Company's Common Shares.

Chief Executive Officer Compensation

Mr. Keithley's compensation for fiscal 2006 was earned pursuant to the arrangements described above. The Committee approved a 2006 base salary increase for Mr. Keithley of three percent effective January 1, 2006 after considering his performance relative to his annual individual performance objectives, which are mutually set at the beginning of each year. His current base salary is \$425,184, which places him five percent above the median of his peers.

Table of Contents

Mr. Keithley received a NQSO grant during fiscal 2006 equal to 55,000 common shares, and 28,500 PAUs for the three-year performance period that will end September 30, 2008. These awards were granted on October 3, 2006, and the terms were described under the Long Term Compensation Program of this report.

Other Actions

As a result of the costs and management time incurred by the Company in connection with the stock options investigation, the Company has determined that Joseph P. Keithley, the Company's Chairman of the Board, President and Chief Executive Officer and Mark J. Plush, the Company's Chief Financial Officer, will not receive a bonus for fiscal 2006, a salary increase for calendar year 2007, or any equity grants prior to the annual grants expected to be made in November 2007, and Philip R. Etsler, the Company's Vice President of Human Resources, will not receive a bonus for fiscal 2006, a salary increase for calendar year 2007 or any options prior to the time of the annual grants expected to be made in November 2007, although he is expected to receive performance shares in connection with the 2006 annual grants expected to be made to employees shortly following the filing of the Company's annual report on Form 10-K for the fiscal year ended September 30, 2006.

Employment Agreements with Named Executive Officers of the Company. Pursuant to an employment agreement which was entered into on April 7, 1994, Mr. Plush is required to be compensated at the rate of at least \$109,800 per year. Mr. Plush's agreement initially covered a three-year period and is automatically renewable for one-year periods thereafter.

Retirement Plan. The Company's United States pension plan provides retirement benefits to eligible participants who terminate employment at or after age 65, or who terminate employment before age 65 with at least five years of service. Benefits commence after termination of employment, but generally not before age 55. Retirement benefits are computed on the basis of pension credits for each year of the employee's service. Generally, an employee's pension credits will be equal to the sum of (i) 0.9% of the employee's high five-year average annual compensation, not in excess of the employee's Social Security covered compensation (as defined by Section 401(I)(5)(E) of the Internal Revenue Code) as of September 30, 1999, plus 1.5% of such average annual compensation in excess of covered compensation, with such sum multiplied by the employee's years of credited service (up to 30 years) through September 30, 1999; plus (ii) 1.2% of the employee's annual compensation for each plan year beginning on or after October 1, 1999. The employee's annual retirement benefit, when paid as a life annuity commencing at age 65, will equal the total of the pension credits he or she has earned. If the individuals listed in the summary compensation table were to continue to be employees until their attainment of age 65 at the rate of compensation they received during fiscal 2006, their annual retirement benefits would be as follows: Mr. Keithley, \$93,200; Ms. Rae, \$84,100; Mr. Plush, \$67,100; Mr. Pesec, \$80,900, and Mr. Hoersten, \$86,700.
