NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying condensed consolidated financial statements include the accounts of CSB Bancorp, Inc. and its wholly-owned subsidiaries, The Commercial and Savings Bank and CSB Investment Services, LLC (together referred to as the Company or CSB). All significant intercompany transactions and balances have been eliminated in consolidation.

The condensed consolidated financial statements have been prepared without audit. In the opinion of management, all adjustments (which include normal recurring adjustments) necessary to present fairly the Company's financial position at June 30, 2007, and the results of operations and changes in cash flows for the periods presented have been made. Certain information and footnote disclosures typically included in financial statements prepared in accordance with U.S. generally accepted accounting principles have been omitted. The Annual Report for CSB for the year ended December 31, 2006, contains consolidated financial statements and related footnote disclosures, which should be read in conjunction with the accompanying consolidated financial statements. The results of operations for the period ended June 30, 2007 are not necessarily indicative of the operating results for the full year or any future interim period.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS

ITEM 2 MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion focuses on the consolidated financial condition of CSB Bancorp, Inc. and its subsidiaries (the Company) at June 30, 2007 as compared to December 31, 2006, and the consolidated results of operations for the quarterly period ending June 30, 2007 compared to the same period in 2006. The purpose of this discussion is to provide the reader with a more thorough understanding of the consolidated financial statements. This discussion should be read in conjunction with the interim consolidated financial statements and related footnotes.

FORWARD-LOOKING STATEMENTS

Certain statements contained in this report are not historical facts but rather are forward-looking statements that are subject to certain risks and uncertainties. When used herein, the terms anticipates, plans, expects, believes, and similar expressions as they relate to the Company or its management are intended to identify such forward-looking statements. The Company's actual results, performance or achievements may materially differ from those expressed or implied in the forward-looking statements. Risks and uncertainties that could cause or contribute to such material differences include, but are not limited to, general economic conditions, interest rate environment, competitive conditions in the financial services industry, changes in law, governmental policies and regulations, and rapidly changing technology affecting financial services.

The Company does not undertake, and specifically disclaims any obligation, to publicly revise any forward-looking statements to reflect events or circumstances after the date of such statements or to reflect the occurrence of anticipated or unanticipated events.

FINANCIAL CONDITION

Total assets were \$327.5 million at June 30, 2007, compared to \$327.2 million at December 31, 2006, representing an increase of \$225,000 or 0.1%. Cash and cash equivalents decreased \$7.3 million, or 41.1%, during the six-month period ending June 30, 2007, due to a \$2.4 million decrease in cash and due from banks and a \$5.0 million decrease in Federal funds sold. Securities decreased \$3.4 million or 4.8% during the first six months of 2007 primarily due to maturities and principal repayments. Net loans increased \$10.2 million, or 4.5%, while deposits decreased \$9.8 million, or 3.8%, during the six-month period. Short-term borrowings of Federal funds purchased, securities sold under repurchase agreement and Federal Home Loan Bank borrowings increased \$5.2 million, while other borrowings increased \$4.7 million during the period as a liquidity source to cover loan demand and decreased deposit balances. Net loans increased \$10.2 million, or 4.5%, during the six-month period ended June 30, 2007. This increase was due to a combination of increased loan demand and production within the Company's market area. The increase in balances was concentrated in commercial loans of \$10.6 million and mortgage loans of \$5.7 million, with a decline in consumer credit balances of \$1.6 million. The allowance for loan losses amounted to \$2,426,000, or 1.00% of total loans at June 30, 2007 compared to \$2,607,000 or 1.12% of total loans at December 31, 2006.

Table of Contents

CSB BANCORP, INC.
MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The decrease in the allowance for loan losses as a percentage of total loans is attributed to both loan growth and the recognition of losses during the period. The components of the change in the allowance for loan losses during the six-month period ended June 30, 2007, included a provision of \$202,000 and net loan charge-offs of \$383,000. Loans past due more than 90 days and still accruing interest, and loans placed on nonaccrual status, aggregated \$1,586,000, or 0.65% of total loans at June 30, 2007, compared to \$1,509,000 or 0.65% of total loans at December 31, 2006.

The ratio of gross loans to deposits was 96.9%, compared to 89.3% at December 31, 2006. The increase in this ratio is due to loan growth coupled with deposit shrinkage experienced during the six months ended June 30, 2007.

The Company had net unrealized losses of \$1,177,000 within its securities portfolio at June 30, 2007, compared to net unrealized losses of \$884,000 at December 31, 2006. Management has considered industry analyst reports, sector credit reports and the volatility within the bond market in concluding that the gross unrealized losses of \$1,255,000 within the portfolio as of June 30, 2007, were primarily the result of customary and expected fluctuations in the bond market. As a result, all security impairments as of June 30, 2007, are considered temporary.

As of June 30, 2007, Management has evaluated the three (3) private label CMO's held within the investment portfolio for loans to borrowers with low *FICO* scores. Within this investment sector, the Company has \$5.0 million current value investments, original face of \$6.5 million, with gross unrealized losses of \$54 thousand. All bonds are rated AAA on June 30, 2007, collateralized primarily by 1-4 family mortgage loans and borrowers in a wide geographical dispersion. All Credit scores and loan to value ratios exceed sub prime status.

Short-term borrowings increased \$5.2 million from December 31, 2006 and other borrowings increased \$4.7 million as the Company borrowed a \$5 million longer-term advance from the Federal Home Loan Bank (FHLB).

Total shareholders' equity amounted to \$35.1 million, or 10.7%, of total assets, at June 30, 2007, compared to \$35.1 million, or 10.7% of total assets, at December 31, 2006. The increase in shareholders' equity during the six months ended June 30, 2007 was due net income of \$1,771,000 partially offset by purchases of \$656,000 of treasury shares, dividends declared of \$887,000 and an increase on unrealized losses on available-for-sale securities. The Company and its subsidiary bank met all regulatory capital requirements at June 30, 2007.

RESULTS OF OPERATIONS**Three months ended June 30, 2007 and 2006**

For the quarter ended June 30, 2007, the Company recorded net income of \$956,000, or \$0.39 per share, as compared to net income of \$677,000, or \$0.27 per share for the quarter ended June 30, 2006. The \$280,000 increase in net income for the quarter recognized the receipt of an insurance recovery, less \$50,000 deductible, in second quarter 2007 as compared to the loss recognition in second quarter 2006 due to the discovery of an irregularity in cash assets.

Net income for the three months ended June 30, 2007 was increased by \$123,000, or \$0.05 per share, due to the insurance recovery and net income was decreased for the three months ended June 30, 2006 by \$156,000, or \$0.06 per share, due to the recognition of the loss.

Interest income for the quarter ended June 30, 2007, was \$5,289,000, representing a \$282,000 increase, or 5.6%, compared to the same period in 2006. This increase was primarily due to an increase in loan volume and interest rates.

Interest expense for the quarter ended June 30, 2007 was \$2,013,000, an increase of \$280,000, or 16.1%, from the same period in 2006. The increase in interest expense occurred due to an increase in average rates paid on all borrowings as well as deposits. During second quarter 2007, lower rate maturing time deposits renewed at interest rates that are currently higher. Additionally, some customers shifted funds from lower yielding deposits to higher yielding time deposits and repurchase agreements.

CSB BANCORP, INC.
MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The provision for loan losses for the quarter ended June 30, 2007, was \$124,000, compared to a \$115,000 provision for the same quarter in 2006. The provision for loan losses is determined based on management's calculation of the adequacy of the allowance for loan losses, which includes provisions for classified loans as well as for the remainder of the portfolio based on historical data including past charge-offs and current economic trends.

Non-interest income for the quarter ended June 30, 2007, was \$902,000, an increase of \$170,000, or 23.2%, compared to the same quarter in 2006. This increase was primarily due to the receipt of an insurance claim of \$187,000 and an increase in Trust and brokerage fees of \$22,000 a result of increased asset values and fee increases. These gains were partially offset by a reduction of \$21,000 in service charges on deposit accounts as customers used the overdraft privilege product less frequently in 2007 as compared to the same quarter in 2006, following the product's introduction.

Non-interest expenses for the quarter ended June 30, 2007, decreased \$262,000, or 9.0%, compared to the second quarter of 2006. This decrease was due primarily to recording a \$237,000 loss in cash assets during the second quarter of 2006. Other factors include decreases totaling \$25,000 in various other expenses, partially offset by increases in both occupancy and equipment expense of \$18,000 due to the opening of a new branch office in the Orrville, Ohio market as well as a complete remodeling of the South Clay Street, Millersburg office to accommodate the consolidation and closing of 6 West Jackson Street.

Federal income tax expense increased \$144,000, or 47.2% for the quarter ended June 30, 2007 as compared to the first quarter of 2006. The provision for income taxes was \$450,000 (effective rate of 32.0%) for the three months ended June 30, 2007, compared to \$306,000 (effective rate of 31.1%) for the three months ended June 30, 2006. The increase in the effective tax rate resulted from a decrease in tax-exempt interest income as a portion of total income before income taxes.

Six months ended June 30, 2007 and 2006

Net income for the six months ending June 30, 2007, was \$1,771,000, or \$0.72 per share, as compared to \$1,451,000 or \$0.57 per share during the same period in 2006. Return on average assets and return on average equity were 1.10% and 10.11%, respectively, for the six-month period of 2007, compared to .92% and 8.37%, respectively for 2006.

Net interest income was \$6,531,000 for the six months ended June 30, 2007, a decrease of \$37,000 or 0.5% from the same period last year. Comparative net income increased primarily due to a decrease in non-interest expenses of \$350,000 and an increase in non-interest income of \$245,000 compared to the same period in 2006. The improvements in net income were partially offset by an increase to the provision to loan losses of \$56,000. Interest income for the six months ended June 30, 2007, was \$10,435,000 an increase of \$720,000 or 7.4% from the same period in 2006.

Interest income on loans increased \$830,000, or 10.4%, for the six months ended June 30, 2007, as compared to the same period in 2006. This increase was primarily due to an increase in average gross loan balances of \$15.5 million coupled with an interest rate increase of 23 basis points for the

comparable six-month periods. Interest income on securities decreased \$119,000, or 6.8%, as average investment balances decreased \$9.1 million.

Interest expense increased \$757,000 to \$3,904,000 for the six months ended June 30, 2007, compared to the six months ended June 30, 2006. Interest expense on deposits increased \$714,000, or 29.3%, from the same period as last year, while interest expense on other borrowings increased \$42,000 or 6.0%. The increase in interest expense has been caused by higher interest rates being paid across the board on interest-bearing deposit accounts and short-term borrowings. Lower rate time deposits continue to renew at higher interest rates, some depositors have moved monies from lower yielding saving instruments to higher rate short-term time deposits and the competition for deposits continues to increase. The net interest margin declined by 14 basis points for the six-month period ended June 30, 2007, to 4.35%, from 4.49% for the same period in 2006.

The provision for loan losses was \$202,000 during the first six months of 2007, compared to \$147,000 in the same six-month period of 2006. The provision or credit for loan losses is determined based on management's calculation of the adequacy of the allowance for loan losses, which includes provisions for classified loans as well as for the remainder of the portfolio based on historical data including past charge-offs and current economic trends.

Non-interest income increased \$245,000, or 18.8%, during the six months ended June 30, 2007, as compared to the same period in 2006. The increase in non-interest income was partially due to the recovery of an insurance claim resulting from a prior period cash irregularity discussed above. Trust and brokerage fees increased \$100,000, or 38.8%, from the same period in 2006 while service charges on deposits declined \$60,000 or 9.2% as discussed above. Non-interest expenses decreased \$350,000, or 6.2%, for the six months ended June 30, 2007, compared to the same period in 2006. The cash irregularity of \$237,000 occurred during the six-month period ended June 30, 2006. Salaries and employee benefits decreased \$85,000, or 2.9%, primarily the result of lower overall bonuses paid during the first quarter of 2007. Professional and directors fees decreased due to a lower number of outside directors as well as reduced fees payable to a third party vendor in connection with the overdraft privilege program. Occupancy and telephone expense have increased during the first six-months of 2007 as compared with 2006 due to the opening of the Orrville area branch and remodeling and consolidation of the Millersburg downtown offices.

The provision for income taxes was \$839,000 (effective rate of 32.1%) for the six months ended June 30, 2007, compared to \$657,000 (effective rate of 31.2%) for the six months ended June 30, 2006. The increase in the effective tax rate resulted from a decrease in tax-exempt interest income as a portion of total income before income taxes.

CAPITAL RESOURCES

The Federal Reserve Board (FRB) has established risk-based capital guidelines that must be observed by financial holding companies and banks. Failure to meet specified minimum capital requirements could result in regulatory actions by the Federal Reserve or Ohio Division of Financial Institutions that could have a material effect on the Company's financial condition or results of operations. Management believes there were no material changes to Capital Resources as presented in CSB Bancorp's annual report on Form 10-K for the year ended December 31, 2006, and as of June 30, 2007 the holding company and its bank meet all capital adequacy requirements to which they are subject.

LIQUIDITY

Liquidity refers to the Company's ability to generate sufficient cash to fund current loan demand, meet deposit withdrawals, pay operating expenses and meet other obligations. The Company's primary sources of liquidity are cash and cash equivalents, which totaled \$10.4 million at June 30, 2007, a decrease of \$7.3 million from \$17.7 million at December 31, 2006. Net income, securities available-for-sale, and loan repayments also serve as sources of liquidity. Cash and cash equivalents and estimated principal cash flow and maturities on investments maturing within one year represent 9.1% of total assets as of June 30, 2007 compared to 6.3% of total assets at year-end 2006. Other sources of liquidity include, but are not limited to, purchase of federal funds, advances from the FHLB, adjustments of interest rates to attract deposits, and borrowing at the Federal Reserve discount window. Management believes that its sources of liquidity are adequate to meet both short and long-term liquidity needs of the Company.

OFF-BALANCE SHEET ARRANGEMENTS

We do not have any off-balance sheet arrangements (as such term is defined in applicable Securities and Exchange Commission rules) that are reasonably likely to have a current or future material effect on our financial condition, results of operations, liquidity, capital expenditures or capital resources.

CONTRACTUAL OBLIGATIONS

During the first six months of 2007, the Company's contractual obligations have not changed materially from those discussed in the Company's Annual Report of Form 10-K for the year ended December 31, 2006.

RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

In February 2006, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (FAS) No. 155, *Accounting for Certain Hybrid Instruments, as an amendment of FASB Statements No. 133 and 140*. FAS No. 155 allows financial instruments that have embedded derivatives to be accounted for as a whole (eliminating the need to bifurcate the derivative from its host) if the holder elects to account for the whole instrument on a fair value basis. This statement is effective for all financial instruments acquired or issued after the beginning of an entity's first fiscal year that begins after September 15, 2006. The adoption of this standard is not expected to have a material effect on the Company's results of operations or financial position.

In March 2006, the FASB issued FAS No. 156, *Accounting for Servicing of Financial Assets*. This Statement, which is an amendment to FAS No. 140, will simplify the accounting for servicing assets and liabilities, such as those common with mortgage securitization activities. Specifically, FAS No. 156 addresses the recognition and measurement of separately recognized servicing assets and liabilities and provides an approach to simplify efforts to obtain hedge-like (offset) accounting. FAS No. 156 also clarifies when an obligation to service financial assets should be separately recognized as a servicing asset or a servicing liability, requires that a separately recognized servicing asset or servicing liability be initially measured at fair value, if practicable, and permits an entity with a separately recognized servicing asset or servicing liability to choose either of the amortization or fair value methods for subsequent measurement. The provisions of FAS No. 156 are effective as of the beginning of the first fiscal year that begins after September 15, 2006. The adoption of this standard is not expected to have a material effect on the Company's results of operations or financial position.

RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS-(continued)

In September 2006, the FASB issued FAS No. 157, Fair Value Measurements, which provides enhanced guidance for using fair value to measure assets and liabilities. The standard applies whenever other standards require or permit assets or liabilities to be measured at fair value. The Standard does not expand the use of fair value in any new circumstances. FAS No. 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007 and interim periods within those fiscal years. Early adoption is permitted. The Company is currently evaluating the impact the adoption of the standard will have on the Company's results of operations.

In February 2007, the FASB issued FAS No. 159, The Fair Value Option for Financial Assets and Financial Liabilities

Including an amendment of FASB Statement No. 115, which provides all entities with an option to report selected financial assets and liabilities at fair value. The objective of the FAS No. 159 is to improve financial reporting by providing entities with the opportunity to mitigate volatility in earnings caused by measuring related assets and liabilities differently without having to apply the complex provisions of hedge accounting. FAS No. 159 is effective as of the beginning of an entity's first fiscal year beginning after November 15, 2007. Early adoption is permitted as of the beginning of a fiscal year that begins on or before November 15, 2007 provided the entity also elects to apply the provisions of FAS No. 157, Fair Value Measurements. The adoption of this standard is not expected to have a material effect on the Company's results of operations or financial position.

ITEM 4 CONTROLS AND PROCEDURES

With the participation of our management, including our Chief Executive Officer and Chief Financial Officer, we have evaluated the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended (the Exchange Act)) as of the end of the period covered by this Quarterly Report on Form 10-Q. Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that:

- (a) information required to be disclosed by the Company in this Quarterly Report on Form 10-Q would be accumulated and communicated to the Company's management, including its Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure;
- (b) information required to be disclosed by the Company in this Quarterly Report on Form 10-Q would be recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms; and
- (c) the Company's disclosure controls and procedures are effective as of the end of the period covered by this Quarterly Report on Form 10-Q to ensure that material information relating to the Company and its consolidated subsidiary is made known to them, particularly during the period for which our periodic reports, including this Quarterly Report on Form 10-Q, are being prepared.

CHANGES IN INTERNAL CONTROL OVER FINANCIAL REPORTING

There were no changes during the period covered by this Quarterly Report on Form 10-Q in our internal control over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act) that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
