Table of Contents**PART I****ITEM 1. NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)****NOTE A BASIS OF PRESENTATION OF FINANCIAL STATEMENTS**

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and in accordance with the instructions to Form 10-Q and do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. The consolidated financial statements include the accounts of the Company and its wholly and majority owned subsidiaries. All significant intercompany accounts and transactions have been eliminated. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three and nine months ended September 30, 2007 are not necessarily indicative of results that may be expected for the year ending December 31, 2007. For further information, refer to the consolidated financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2006.

NEW ACCOUNTING PRONOUNCEMENTS

In July 2006, the FASB issued FASB Interpretation No. 48, "Accounting for Uncertainty in Income Taxes" an interpretation of FASB Statement No. 109 (FIN 48). FIN 48 prescribes a recognition threshold and measurement attribute for financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return, and also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition. The Company adopted FIN 48 effective January 1, 2007.

NOTE B INVENTORIES

Inventories are stated at the lower of cost or market. The costs for substantially all inventories are determined using the last-in, first-out (LIFO) method, with the remainder determined using the first-in, first-out (FIFO) method. An actual valuation of inventory under the LIFO method is made at the end of each year based on the inventory levels and costs at that time. Interim LIFO calculations are based on management's estimate of expected year-end inventory levels and costs.

The major components of inventories are as follows: (net of LIFO reserves)

<i>(Thousands of dollars)</i>	September 30, 2007	December 31, 2006

NOTE E INCOME TAXES

The Company adopted the provisions of FASB Interpretation 48, *Accounting for Uncertainty in Income Taxes*, on January 1, 2007. Previously, the Company had accounted for tax contingencies in accordance with Statement of Financial Accounting Standards 5, *Accounting for Contingencies*. As required by Interpretation 48, which clarifies Statement 109, *Accounting for Income Taxes*, the Company recognizes the financial statement benefit of a tax position only after determining that the relevant tax authority would more likely than not sustain the position following an audit. For tax positions meeting the more-likely-than-not threshold, the amount recognized in the financial statements is the largest benefit that has a greater than 50 percent likelihood of being realized upon ultimate settlement with the relevant tax authority. At the adoption date, the Company applied Interpretation 48 to all tax positions for which the statute of limitations remained open. As a result of the implementation of Interpretation 48, the Company recognized an increase of approximately \$260,000 in the liability for unrecognized tax benefits, which was accounted for as a reduction to the January 1, 2007 balance of retained earnings.

The amount of unrecognized tax benefits as of January 1, 2007 was \$1.2 million. That amount includes \$939,000 of unrecognized tax benefits which, if ultimately recognized, will reduce the Company's annual effective tax rate.

Table of Contents

PART I CONTINUED

**ITEM 1. NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)
CONTINUED**

At September 30, 2007 the balance of unrecognized tax benefits had increased to approximately \$1.64 million. The increase in the current quarter is related to a \$103,000 increase in prior period tax positions. The September 30, 2007 balance of unrecognized tax benefits includes \$1.3 million of unrecognized tax benefits which, if ultimately realized, will reduce the Company's annual effective tax rate.

The Company has entered into Voluntary Disclosure programs in two taxing jurisdictions. The Company has recorded unrecognized tax benefits of approximately \$64,000 related primarily to tax filing issues in those states. The Company anticipates that the resolution of these unrecognized tax benefits will occur within the next 12 months.

The Company is subject to income taxes in the U.S. federal jurisdiction, and various states and foreign jurisdictions. Tax regulations within each jurisdiction are subject to the interpretation of the related tax laws and regulations and require significant judgment to apply. With few exceptions, the Company is no longer subject to U.S. federal, state and local, or non-U.S. income tax examinations by tax authorities for the years before 2003.

The Company recognizes interest and penalties related to unrecognized tax benefits in income tax expense for all periods presented. The Company had accrued approximately \$172,000 for the payment of interest and penalties at January 1, 2007. An additional accrual of interest and penalties of approximately \$131,000 was recorded for the nine months ended September 30, 2007.

The increase in the effective tax rate of 10.5 percentage points during the third quarter of 2007 compared to the same period in 2006 was primarily due to reductions in estimated state tax liabilities in 2006 and non-recurring federal research and development tax credits realized in 2006.

NOTE F PENSION AND OTHER POSTRETIREMENT BENEFITS

The Company sponsors a defined benefit pension plan covering substantially all employees. The Company also sponsors a non-contributory defined benefit health care plan that provides health benefits to substantially all retirees and their spouses. (See Note F Pensions and Other Postretirement Benefits for the year ended December 31, 2006 included in the Form 10-K.)

During the quarter ended September 30, 2007, the Company authorized an amendment to the defined benefit pension plan in which employees hired after December 31, 2007 will no longer be eligible to participate in the plan. For employees hired after December 31, 2007, the Company authorized an amendment to enhance the 401(k) plan by adopting an age and years of service based contribution and an increased Company match. The existing pension plan and 401(k) plan will remain in place for those employed before January 1, 2008.

NOTE G ACQUISITIONS

In April, 2007 the Company's wholly owned subsidiary, The Gorman-Rupp International Company, purchased a 90% controlling equity interest in Wavo Pompen B.V. for consideration (net of cash acquired) of approximately \$4.1 million, of which \$3.7 million has been paid as of September 30, 2007. The acquisition was financed with cash from the Company's treasury. The allocation of the purchase price to the business acquired is preliminary and will be finalized pending completion of a fair value appraisal process. The acquisition of Wavo Pompen B.V. offers the Company an expanded European presence and is a continuation of the implementation of its international growth strategy.

NOTE H FLOOD INSURANCE RECOVERIES

In August 2007, the Company's Mansfield Division assembly facility was damaged by flooding as a result of a flash flood of an adjacent creek. As of September 30, 2007, the Company incurred costs and damages related to the flood of \$3.4 million. These costs included the write-off of inventory and long-lived assets, repair of property damage and other clean-up costs. The Company maintains insurance coverage, including flood insurance, which provides for reimbursement of losses resulting from property damage, loss of product and business interruption. Although the Company's insurance policy carries a \$500,000 deductible, the Company expects to be fully covered for losses as a result of the flood as accounted for in accordance with FASB Statement No. 5, *Accounting for Contingencies*, and FASB Interpretation No. 30, *Accounting for Involuntary Conversions of Nonmonetary Assets to Monetary Assets*. As of September 30, 2007, the Company received a partial payment of \$1.0 million and has recorded a receivable of \$2.4 million for insurance recoveries.

Third Quarter 2007 Compared to Third Quarter 2006**Net Sales**

<i>(Thousands of Dollars)</i>	Three Months Ended September 30,			% Change
	2007	2006	\$ Change	
Net sales	\$ 74,629	\$ 70,833	\$ 3,796	5.4%

The Company had record third quarter net sales of \$74,629,000, representing a 5.4% increase from the third quarter of 2006. The increase in net sales for the third quarter of 2007 was principally due to increased product sales in the fire protection, government and international markets, partially offset by decreased centrifugal pump sales. Gorman-Rupp Europe B.V., acquired in April 2007, had net sales of \$1,400,000 in the third quarter 2007.

Cost of Products Sold

<i>(Thousands of Dollars)</i>	Three Months Ended September 30,			% Change

<i>% of Net sales</i>	<i>78.2%</i>	<i>76.6%</i>		

The 7.6% increase in cost of products sold in the third quarter of 2007 compared to 2006 was primarily due to the product mix and higher sales volume, which resulted in increased cost of material of \$3,100,000. Manufacturing costs included increases in healthcare costs of \$357,000 due to increased claims and higher medical costs and warranty costs of \$260,000 due to estimates related to the higher sales volume and historical claim experience. In addition, depreciation expense increased \$249,000 as a result of machinery and equipment purchased in 2007. As a percent of net sales, gross margins were 21.8% in 2007 and 23.4% in 2006 resulting in a decline of 160 basis points.

<i>% of Net sales</i>	<i>11.2%</i>	<i>11.5%</i>		

The 2.0% increase in SG&A expenses is primarily due to increases in salaries and payroll taxes as a result of the filling of vacant positions and normal salary increases. The 30 basis points decrease in percentages of SG&A expenses in 2007 compared to 2006 was principally due to the additional sales volume.

Income taxes were \$2,957,000 compared to \$2,160,000 for the same period of 2006, an increase of \$797,000 or 36.9%. Net income for the third quarter 2007 was \$5,475,000 compared to \$6,612,000 for the same period in 2006, a decrease of \$1,137,000 or 17.2%. As a percent of net sales, net income was 7.3% for 2007 and 9.3% for 2006. The Company had earnings per share of \$0.41 for the quarter compared to \$0.50 for the same period in 2006, a decrease of \$0.09 per share.

	2007	2006	\$ Change	% Change
<i>(Thousands of Dollars)</i>				
Net sales	\$228,737	\$205,825	\$22,912	11.1%

The record sales for the nine months, representing an 11.1% increase over the nine months ended September 30, 2007, were principally due to sales of \$14,000,000 as a result of pumps supplied by Patterson Pump Company, a wholly-owned subsidiary, for a flood control project in New Orleans, and increased product sales in the construction, rental, government and fire protection markets totaling approximately \$10,000,000.

The record backlog at September 30, 2007 was \$123,700,000 compared to the backlog of \$84,400,000 at September 30, 2006, representing a 46.6% increase from a year ago and 13.0% higher than the backlog of \$109,500,000 at December 31, 2006. The increase in the backlog is primarily due to increased orders of fabricated components for the power generation market and increased orders in the fire protection, government, and municipal markets.

<i>% of Net sales</i>	78.0%	77.1%		

The 12.4% increase in cost of products sold in the nine months ended September 30, 2007 compared to 2006 was primarily due to the product mix and higher sales volume, which resulted in increased cost of material of \$15,900,000. Manufacturing costs included higher healthcare costs of \$1,400,000 due to increased claims and higher medical costs. In addition, warranty costs increased \$746,000 due to estimates related to sales volume and historical claim experience and depreciation expense increased \$414,000 as a result of machinery and equipment purchased in 2007. Expenses related to the Company's employee profit sharing plan increased \$339,000 as a result of higher operating income. As a percent of net sales, gross margins were 22.0% in 2007 and 22.9% in 2006.

The increase in cash provided by operating activities of \$8,275,000 is principally due to an income tax refund of \$1.0 million, the application of prepaid income tax to 2007 estimated taxes and increases of accounts receivable and accounts payable.
