- Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))

Item 7.01 Regulation FD Disclosure.

From December 7 through 13, 2011, Company officials expect to participate in meetings and discussions with investors and analysts, including the Oppenheimer 2011 22nd Annual Healthcare Conference. During these meetings, Company officials expect to reaffirm consolidated adjusted income from operations estimates for full year 2011, which remain in the range of \$1.385 billion to \$1.445 billion. The Company's full year 2011 financial outlook excludes the impact from the pending acquisition of HealthSpring, Inc. The full year 2011 outlook also assumes break-even results for the Company's Guaranteed Minimum Death Benefits (also known as "VADBe") for the fourth quarter of 2011. In addition, this assumes that actual experience, including capital market performance, will be consistent with long term reserve assumptions. Company officials also expect to reaffirm the outlook for medical membership for full year 2011, as discussed on the Company's third quarter 2011 earnings conference call. A transcript of that earnings call is available at [http://www.Cigna.com/about\\_us/investor\\_relations/recent\\_disclosures.html](http://www.Cigna.com/about_us/investor_relations/recent_disclosures.html).

Cigna will make a formal presentation at the Oppenheimer 2011 22nd Annual Healthcare Conference that is expected to begin at approximately 11:25 a.m. Eastern Time on December 13, 2011. Investors, analysts and the general public are invited to listen to the presentation over the Internet via webcast by visiting [http://www.cigna.com/about\\_us/investor\\_relations/events.html](http://www.cigna.com/about_us/investor_relations/events.html) and clicking on the Event Calendar link on the Investor Relations page. To listen to this presentation live on the Internet, visit <http://www.cigna.com> at least 15 minutes prior to the presentation (to download and install any necessary audio software.)

Consolidated adjusted income from operations is consolidated income from continuing operations excluding realized investment results, special items and results of the Company's Guaranteed Minimum Income Benefits business, otherwise known as GMIB, which is reported in the Run-off Reinsurance segment.

Investors are strongly encouraged to review the factors cited in the Cautionary Statement included in this report and the sensitivities discussed in the "Critical Accounting Estimates" section of the Company's Annual Report on Form 10-K for the year ended December 31, 2010 and the Quarterly Reports on Form 10-Q for the quarters ended March 31, 2011, June 30, 2011 and September 30, 2011, for further details and information.

Information is not available for management (1) to reasonably estimate future realized investment gains (losses) or (2) to reasonably estimate future GMIB business results due in part to interest rate and stock market volatility and other internal and external factors; therefore it is not possible to provide a forward-looking reconciliation of adjusted income from operations to shareholders' income from continuing operations. Potential losses or gains related to the GMIB business, as well as investment impairments (both of which are sensitive to equity market and interest rate movements), could either adversely or favorably impact the Company's consolidated results of operations and financial condition, and could impact the capital of the Company's insurance subsidiaries as well as their dividend paying capabilities.

We expect that special items for 2011 will include certain costs associated with the pending acquisition of HealthSpring, Inc., such as advisor fees related to the acquisition and financing transactions. Special items for 2011 may also include potential adjustments associated with litigation, tax and assessment-related items. Information is not available for management to identify other items, or reasonably estimate additional 2011 special items.

The foregoing statements represent management's current estimate of Cigna's consolidated adjusted income from operations (excluding VADBe) and medical membership for full year 2011 as of the date of this report. Actual results may differ materially depending on a number of factors, and investors are urged to read the Cautionary Statement included in this report for a description of those factors. Management does not assume any obligation to update these

estimates, whether as a result of new information, future events or otherwise, except as required by law.

---

CAUTIONARY STATEMENT FOR PURPOSES OF THE “SAFE HARBOR” PROVISIONS OF THE PRIVATE SECURITIES LITIGATION REFORM ACT OF 1995

Cigna Corporation and its subsidiaries (the “Company”) and its representatives may from time to time make written and oral forward-looking statements, including statements contained in press releases, in the Company’s filings with the Securities and Exchange Commission, in its reports to shareholders and in meetings with analysts and investors. Forward-looking statements may contain information about financial prospects, economic conditions, trends and other uncertainties. These forward-looking statements are based on management’s beliefs and assumptions and on information available to management at the time the statements are or were made. Forward-looking statements include, but are not limited to, the information concerning possible or assumed future business strategies, financing plans, competitive position, potential growth opportunities, potential operating performance improvements, trends and, in particular, the Company’s strategic initiatives, litigation and other legal matters, operational improvement initiatives in the Health Care operations, and the outlook for the Company’s full year 2011 and beyond results. Forward-looking statements include all statements that are not historical facts and can be identified by the use of forward-looking terminology such as the words “believe”, “expect”, “plan”, “intend”, “anticipate”, “estimate”, “predict”, “may”, “should” or similar expressions.

By their nature, forward-looking statements: (i) speak only as of the date they are made, (ii) are not guarantees of future performance or results and (iii) are subject to risks, uncertainties and assumptions that are difficult to predict or quantify. Therefore, actual results could differ materially and adversely from those forward-looking statements as a result of a variety of factors. Some factors that could cause actual results to differ materially from the forward-looking statements include:

1. increased medical costs that are higher than anticipated in establishing premium rates in the Company’s Health Care operations, including increased use and costs of medical services;
2. increased medical, administrative, technology or other costs resulting from new legislative and regulatory requirements imposed on the Company’s businesses;
3. challenges and risks associated with implementing operational improvement initiatives and strategic actions in the ongoing operations of the businesses, including those related to: (i) growth in targeted geographies, product lines, buying segments and distribution channels, (ii) offering products that meet emerging market needs, (iii) strengthening underwriting and pricing effectiveness, (iv) strengthening medical cost and medical membership results, (v) delivering quality service to members and health care professionals using effective technology solutions, (vi) lowering administrative costs and (vii) transitioning to an integrated operating company model, including operating efficiencies related to the transition;
4. risks associated with pending and potential state and federal class action lawsuits, disputes regarding reinsurance arrangements, other litigation and regulatory actions challenging the Company’s businesses, including disputes related to payments to health care professionals, government investigations and proceedings, and tax audits and related litigation;
5. heightened competition, particularly price competition, which could reduce product margins and constrain growth in the Company’s businesses, primarily the Health Care business;
6. risks associated with the Company’s mail order pharmacy business which, among other things, includes any potential operational deficiencies or service issues as well as loss

- or suspension of state pharmacy licenses;
7. significant changes in interest rates or sustained deterioration in the commercial real estate markets;
  8. downgrades in the financial strength ratings of the Company's insurance subsidiaries, which could, among other things, adversely affect new sales and retention of current business; downgrades in financial strength ratings of reinsurers, which could result in increased statutory reserve or capital requirements of the Company's insurance subsidiaries;
-

9. limitations on the ability of the Company's insurance subsidiaries to dividend capital to the parent company as a result of downgrades in the subsidiaries' financial strength ratings, changes in statutory reserve or capital requirements or other financial constraints;
10. inability of the hedge programs adopted by the Company to substantially reduce equity market and interest rate risks in the run-off reinsurance operations;
11. adjustments to the reserve assumptions (including lapse, partial surrender, mortality, interest rates and volatility) used in estimating the Company's liabilities for reinsurance contracts covering guaranteed minimum death benefits under certain variable annuities;
12. adjustments to the assumptions (including annuity election rates and amounts collectible from reinsurers) used in estimating the Company's assets and liabilities for reinsurance contracts covering guaranteed minimum income benefits under certain variable annuities;
13. significant stock market declines, which could, among other things, result in increased expenses for guaranteed minimum income benefit contracts, guaranteed minimum death benefit contracts and the Company's pension plans in future periods as well as the recognition of additional pension obligations;
14. significant deterioration in economic conditions and significant market volatility, which could have an adverse effect on the Company's operations, investments, liquidity and access to capital markets;
15. significant deterioration in economic conditions and significant market volatility, which could have an adverse effect on the businesses of our customers (including the amount and type of health care services provided to their workforce, loss in workforce and our customers' ability to pay receivables) and our vendors (including their ability to provide services);
16. adverse changes in state, federal and international laws and regulations, including health care reform legislation and regulation which could, among other items, affect the way the Company does business, increase cost, limit the ability to effectively estimate, price for and manage medical costs, and affect the Company's products, services, market segments, technology and processes;
17. amendments to income tax laws, which could affect the taxation of employer provided benefits, the taxation of certain insurance products such as corporate-owned life insurance, or the financial decisions of individuals whose variable annuities are covered under reinsurance contracts issued by the Company;
18. potential public health epidemics, pandemics and bio-terrorist activity, which could, among other things, cause the Company's covered medical and disability expenses, pharmacy costs and mortality experience to rise significantly, and cause operational disruption, depending on the severity of the event and number of individuals affected;
19. risks associated with security or interruption of information systems, which could, among other things, cause operational disruption;
20. challenges and risks associated with the successful management of the Company's outsourcing projects or vendors, including the agreement with IBM for provision of technology infrastructure and related services;
21. the political, legal, operational, regulatory and other challenges associated with expanding our business globally;
22. the ability of the parties to satisfy conditions to the closing of the transaction with HealthSpring, Inc. ("HealthSpring") including obtaining required regulatory approvals

- and the approval of HealthSpring stockholders;
23. the possibility that HealthSpring may be adversely affected by economic, business and/or competitive factors before or after closing of the transaction;
  24. the ability to successfully complete the integration of acquired businesses, including the businesses being acquired from HealthSpring by, among other things, operating Medicare Advantage coordinated care plans and HealthSpring's prescription drug plan, retaining and growing membership, realizing revenue, expense and other synergies, renewing contracts on competitive terms, successfully leveraging the information technology platform of the acquired businesses, and retaining key personnel;
-

25. the ability of the Company to execute its growth plans by successfully leveraging its capabilities and those of the businesses being acquired in serving the Seniors segment;
26. any adverse effect to the Company's business or the business being acquired from HealthSpring due to uncertainty relating to the transaction; and
27. the Company's plans to permanently finance the acquisition of HealthSpring.

This list of important factors is not intended to be exhaustive. Other sections of the Company's most recent Annual Report on Form 10-K, including the "Risk Factors" section, the Quarterly Reports on Form 10-Q for the quarters ended March 31, 2011, June 30, 2011, September 30, 2011, and other documents filed with the Securities and Exchange Commission include both expanded discussion of these factors and additional risk factors and uncertainties that could preclude the Company from realizing the forward-looking statements. The Company does not assume any obligation to update any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by law.
