TOOTSIE ROLL INDUSTRIES, INC. AND SUBSIDIARIES  
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS  
JULY 1, 2006  
(in thousands except per share amounts) (UNAUDITED)

Note 1 - Foregoing data has been prepared from the unaudited financial records of Tootsie Roll Industries, Inc. and Subsidiaries (the Company) and in the opinion

## Edgar Filing: TOOTSIE ROLL INDUSTRIES INC - Form 10-Q

of management all adjustments necessary for a fair statement of the results for the interim period have been reflected. All adjustments were of a normal and recurring nature. These consolidated financial statements should be read in conjunction with the consolidated financial statements and the related notes included in the Company's 2005 Annual Report on Form 10-K.

Note 2 - Average shares outstanding for the period ended July 1, 2006 reflects stock repurchases and subsequent retirements of 557 shares for \$15,898 and a 3% stock dividend distributed on April 13, 2006. Average shares outstanding for the period ended July 1, 2005 reflects stock repurchases and subsequent retirements of 252 shares for \$7,475 and a 3% stock dividend distributed on April 14, 2005.

Note 3 - Results of operations for the period ended July 1, 2006 are not necessarily indicative of results to be expected for the year to end December 31, 2006 because of the seasonal nature of the Company's operations. Historically, the third quarter has been the Company's largest sales quarter due to Halloween sales.

Note 4 - The bank loan, a demand note issued in December 2005, was fully repaid in May 2006.

Note 5 - In July 2006, the FASB issued FASB Interpretation (FIN) No. 48 Accounting for Uncertainty in Income Taxes - an interpretation of FASB Statement 109. FIN 48 prescribes a comprehensive model for recognizing, measuring, presenting and disclosing in the financial statements tax positions taken on a tax return. FIN 48 is effective for fiscal years beginning after December 15, 2006. The Company is currently assessing the impact of FIN 48 and has not yet made any determination as to the effects, if any, that it may have on the Company's financial position and results of operations.

### ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (dollars in thousands except per share amounts)

The following is management's discussion of the Company's operating results and analysis of factors that have affected the accompanying Condensed Consolidated Statement of Earnings.

NET SALES:

Net change in  
Second Quarter, 2006

## Edgar Filing: TOOTSIE ROLL INDUSTRIES INC - Form 10-Q

Second Quarter		vs.
2006	2005	Second Quarter, 2005
\$ 94,944	\$103,627	(8.4)%

		First Half, 2006
First Half		vs.
2006	2005	First Half, 2005
\$198,766	\$201,552	(1.4)%

Second quarter 2006 net sales were \$94,944 compared to \$103,627 in second quarter 2005, a decrease of \$8,683 or 8.4%. First half 2006 net sales of \$198,766 decreased \$2,786 or 1.4% from first half 2005 net sales of \$201,552. The decrease in second quarter and first half 2006 sales was caused by a number of factors. These include transitional changes in package size, weight and price changes, inventory adjustments made by certain national account customers, the timing of shipments in the comparative periods, and a late Easter which adversely impacted the Company's spring-summer promotion by shortening the sales promotion period in the comparative second quarter periods. In addition, the conclusion of a contract to manufacture product under a private label for a third party resulted in a sales decline of approximately \$2,900 in both the second quarter and first half 2006 periods. As previously disclosed in our Form 10-K for the year ended December 31, 2005, such contract manufacturing sales aggregated 2% of annual net sales in 2005.

### COST OF SALES:

		Cost of Sales as a	
Second Quarter		Percentage of Net Sales	
2006	2005	2nd Qtr. 2006	2nd Qtr. 2005
\$56,894	\$61,886	59.9%	59.7%

		Cost of Sales as a	
First Half		Percentage of Net Sales	
2006	2005	1st Half 2006	1st Half 2005
\$121,316	\$120,362	61.0%	59.7%

Cost of sales as a percentage of net sales increased from 59.7% in the second quarter 2005 to 59.9% in second quarter 2006, and from 59.7% in first half 2005 to 61.0% in first half 2006. These increases in cost of sales as a percentage of net sales are principally the result of higher input costs relating to major ingredients, energy, including natural gas, and higher plant repair and maintenance expenses. In addition, higher costs for labor and fringe benefits, as well as generally higher plant overhead costs, also contributed to the increase in cost of sales as a percentage of sales for the second quarter and first half 2006 periods.

-6-

### SELLING, MARKETING AND ADMINISTRATIVE EXPENSES:

		Percentage of Net Sales	
Second Quarter		Percentage of Net Sales	
2006	2005	2nd Qtr. 2006	2nd Qtr. 2005
\$22,378	\$22,820	23.6%	22.0%
First Half		Percentage of Net Sales	

## Edgar Filing: TOOTSIE ROLL INDUSTRIES INC - Form 10-Q

2006	2005	1st Half 2006	1st Half 2005
\$45,427	\$45,110	22.9%	22.4%

Second quarter 2006 selling, marketing and administrative expenses were \$22,378 compared to \$22,820 in second quarter 2005, a decrease of \$442 or 1.9%. However, these expenses rose from \$45,110 in first half 2005 to \$45,427 in first half 2006, an increase of \$317 or 0.7%. As a percentage of net sales, total selling, marketing and administrative expenses increased from 22.0% in second quarter 2005 to 23.6% in second quarter 2006, and from 22.4% in first half 2005 to 22.9% in first half 2006. The increase in selling, marketing and administrative expenses as a percentage of sales for second quarter and first half 2006 reflects higher freight and delivery expenses, including higher fuel surcharges from carriers, and additional marketing expenses, principally new artwork and plate expenses, relating to packaging changes associated with the transition to new pack sizes and government mandated labeling changes.

Second quarter 2006 earnings from operations were \$15,672 compared to \$18,921 in second quarter 2005, a decrease of \$3,249 or 17.2%. First half 2006 earnings from operations were \$32,023 compared to \$36,080, a decrease of \$4,057 or 11.2%. The decline in operating earnings in second quarter and first half 2006 principally resulted from lower reported consolidated sales combined with higher input costs and increased marketing expenses as discussed above. Although the Company took actions and implemented programs, including price increases, with the objective to recover these higher input costs, these actions, coupled with the effect of lower sales as discussed above, did not result in the restoration of margins and profits in the second quarter and first half of 2006.

### NET EARNINGS:

	Second Quarter		Second Quarter, 2006
	2006	2005	vs.
	\$12,858	\$13,731	Second Quarter, 2005
			(6.4)%
	First Half		First Half, 2006
	2006	2005	vs.
	\$25,220	\$26,237	First Half, 2005
			(3.9)%

Second quarter 2006 net earnings were \$12,858 compared to second quarter 2005 net earnings of \$13,731, an \$873 or 6.4% decrease. Second quarter 2006 earnings per share were \$0.24, compared to \$0.25 per share in the prior year comparative period, a decrease of \$0.01 or 4.0%.

First half 2006 net earnings were \$25,220 compared to first half 2005 net earnings of \$26,237 a \$1,017 or 3.9% decrease. First half net earnings per share were \$0.46 in 2006 compared to \$0.48 per share in 2005, a decrease of \$0.02 per share or 4.2%.

-6A-

Other income, net was \$2,542 in second quarter 2006 compared to \$1,184 in second quarter 2005, an increase of \$1,358. The aforementioned increase is primarily the result of \$483 of decreased interest expense and a \$739 capital

## Edgar Filing: TOOTSIE ROLL INDUSTRIES INC - Form 10-Q

gain on investments. Other income, net was \$4,389 in first half 2006 compared to \$2,391 in first half 2005, an increase of \$1,998. First half 2006 other income net reflects \$690 of decreased interest expense, \$316 of increased investment income and a \$739 capital gain on investment. The decreased interest expense in both second quarter and first half 2006 reflects the continuous reduction in bank loans during 2005 and first half 2006.

The consolidated effective income tax rate favorably decreased from 32.4% in both second quarter and first half 2005 to 30.0% in second quarter 2006 and 31.3% in first half 2006. This improvement principally reflects lower effective rates for foreign taxes.

In addition to the factors discussed above, earnings per share benefited from fewer shares outstanding as a result of the Company's share repurchases.

### LIQUIDITY AND CAPITAL RESOURCES:

The Company's current ratio (current assets divided by current liabilities) was 2.5 to 1 as of the end of second quarter 2006 as compared to 2.0 to 1 as of the end of second quarter 2005 and 2.2 to 1 as of the end of fourth quarter 2005. Net working capital was \$110,269 as of the end of second quarter 2006 as compared to \$132,940 and \$96,768 as of the end of fourth quarter 2005 and second quarter 2005, respectively. The aforementioned net working capital amounts include aggregate cash and cash equivalents and short-term investments less short-term bank loans which aggregated \$50,963 as of the end of second quarter 2006 compared to \$91,897 and \$44,395, as of the end of fourth quarter 2005 and second quarter 2005, respectively. In addition, long-term investments, principally debt securities comprising municipal bonds, were \$45,425 as of the end of second quarter 2006 as compared to \$44,851 and \$78,465 as of the end of fourth quarter 2005 and second quarter 2005, respectively. Investments in municipal bonds and other debt securities that matured during first quarters 2006 and 2005 were generally used to pay down bank loans or replaced with debt securities of similar maturities.

During first half 2006, the Company fully repaid \$32,001 of short-term bank loans. The balances of these bank loans, including the long-term portion, as of the end of fourth quarter 2005 and second quarter 2005, were \$32,001 and \$75,400, respectively. These bank loans were paid down through a combination of cash flows provided by operating activities and investment maturities.

Net cash used in operating activities was \$7,033 for first half 2006, compared to \$2,606 in first half 2005. The aforementioned change in net cash used in operating activities principally reflects lower net income combined with increased inventories and the timing of payments and cash flows related to income taxes payable and deferred, partially offset by cash flows provided by decreased accounts receivable and changes in accounts payable and accrued liabilities.

## Edgar Filing: TOOTSIE ROLL INDUSTRIES INC - Form 10-Q

Capital expenditures for first half 2006 and 2005 were \$30,983 and \$8,550, respectively. First half 2006 capital expenditures reflect \$25,241 of investments in rental income producing real estate which was funded from the Company's restricted cash. Excluding the reinvestment of restricted cash, capital expenditures for the 2006 year are anticipated to be generally in line with historical annualized spending, and are to be funded from the Company's cash flow from operations and internal sources.

All of the \$22,330 in proceeds from the sale of surplus real estate during 2005 and held as restricted cash as of December 31, 2005, was reinvested in "like kind" real estate during first half 2006 in compliance with U.S. Internal Revenue Code Section 1031. During first half 2006 the Company also reclassified approximately \$7,600 of current income taxes payable to deferred income taxes, all of which relates to the aforementioned Section 1031 reinvestment gain.

Cash dividends paid in first half 2006 and 2005 were \$8,628 and \$7,639, respectively. The Company also repurchased and retired \$15,898 and \$7,475 of its shares outstanding during first half 2006 and 2005, respectively.

This discussion and certain other sections of this Form 10-Q contain forward-looking statements that are based largely on the Company's current expectations and are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Forward-looking statements are subject to certain risks, trends and uncertainties that could cause actual results and achievements to differ materially from those expressed in the forward-looking statements. Such risks, trends and uncertainties, which in some instances are beyond the Company's control, include changes in demand and consumer preferences, including seasonal events such as Halloween; the effect of changes in commodity prices and ingredient costs; the effect of changes in foreign currencies on the Company's foreign subsidiaries and resulting effects on costs relating to foreign products principally marketed and sold in the USA ; the Company's reliance on third-party vendors, including foreign supplies for various goods and services; the Company's ability to successfully implement new production processes and automated production lines; the effect of acquisitions on the Company's results of operations and financial condition including the effect of changes in assumptions such as discount rates and profit margins, relating to the Company's impairment testing and analysis of its goodwill and trademarks; changes in the confectionary market place including actions taken by major retailers and customers; customer and consumer response to marketing programs, changes in pack size and weights, and price adjustments; changes in governmental laws and regulations including domestic and foreign taxes; the overall competitive environment in the Company's industry; and changes in assumptions and judgments discussed under the heading "Critical Accounting Policies of the Company's MD&A" included in the 2005 annual report and 10-K. The words "believe," "expect," "anticipate," "estimate," "intend" and similar expressions generally identify forward-looking statements. Readers are cautioned not to place undue reliance on such forward-looking statements, which are as of the date of this filing.

### ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK:

The Company is exposed to various market risks, including fluctuations in sugar, corn syrup, edible oils, cocoa, dextrose, gum base ingredients and packaging costs. The Company is also exposed to exchange rate fluctuations in the Canadian dollar which is the currency used for a portion of the raw material and packaging material costs and operating expenses at its Canadian plants. The Company also invests in securities with maturities of up to three years, the majority of which are held to maturity, which limits the Company's exposure to interest rate fluctuations. There has been no material change in

### Item 4. CONTROLS AND PROCEDURES

Under the supervision and with the participation of management, the chief executive officer and chief financial officer of the Company have evaluated the effectiveness of the design and operation of the Company's disclosure controls and procedures as of July 1, 2006 and, based on their evaluation, the chief executive officer and chief financial officer have concluded that these controls and procedures are effective. Disclosure controls and procedures are designed to ensure that information required to be disclosed by the Company in the reports that it files or submits under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported, within the time periods specified in the Securities and Exchange Commission's rules and forms. Disclosure controls and procedures are also designed to ensure that information is accumulated and communicated to management, including the chief executive officer and chief financial officer, as appropriate to allow timely decisions regarding required disclosure.

There has been no change in the Company's internal control over financial reporting that occurred during the Company's fiscal quarter ended July 1, 2006 that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.
