SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

FORM 10-K

(Mark One)

ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the fiscal year ended September 30, 2012

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File Number: 0-6669

FORWARD INDUSTRIES, INC.

(Exact name of registrant as specified in its charter)

New York
(State or other jurisdiction of
incorporation or organization)

13-1950672
(I.R.S. Employer Identification No.)

477 Rosemary Ave., West Palm Beach, FL 33410

(Address of principal executive offices, including zip code)

(561) 456-0030

(Registrant's telephone number, including area code)

Securities registered pursuant to Section 12(b) of the Act:

None

Securities registered pursuant to Section 12(g) of the Act:

Common Stock, \$0.01 par value per share

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act.

Yes No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act.

Yes No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Website, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of Registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this form 10-K.

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of “large accelerated filer”, “accelerated filer”, and “smaller reporting company” in Rule 12b-2 of the Exchange Act).

Large accelerated filer

Accelerated filer

Non-accelerated filer (Do not check if a smaller reporting company)

Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

The aggregate market value of the voting and non-voting common equity held by non-affiliates computed by reference to the price at which the common equity was last sold, as of the last business day of the Registrant’s most recently completed second fiscal quarter was: \$12,294,881.

As of December 3, 2012, 8,105,185 shares of the Registrant’s common stock were outstanding.

Documents Incorporated by Reference

The registrant intends to file, not later than January 28, 2013, a definitive proxy statement pursuant to Regulation 14A, promulgated under the Securities Exchange Act of 1934, as amended, to be used in connection with the registrant’s annual meeting of stockholders. The information required in response to Part III (Items 10-14) of this Annual Report on Form 10-K is hereby incorporated by reference to such proxy statement.

Note Regarding Use of Certain Terms

In this Annual Report on Form 10-K, unless the context otherwise requires, the following terms have the meanings assigned to them as set forth below:

"we", "our", and the "Company" refer to Forward Industries, Inc., a New York corporation, together with its consolidated subsidiaries;

"Forward" or "Forward Industries" refers to Forward Industries, Inc.;

"common stock" refers to the common stock, \$.01 par value per share, of Forward Industries, Inc.;

"Forward US" refers to Forward Industries' wholly owned subsidiary Forward Industries (IN), Inc., an Indiana corporation;

"Forward HK" refers to Forward Industries' wholly owned subsidiary Forward Industries HK, Ltd., a Hong Kong corporation;

"Forward Switzerland" refers to Forward Industries' wholly owned subsidiary Forward Industries (Switzerland) GmbH, a Swiss corporation;

"Forward APAC" refers to Forward Industries' wholly owned subsidiary Forward Asia Pacific Limited, a Hong Kong corporation;

"Forward UK" refers to Forward Industries' wholly owned subsidiary Forward Ind. (UK) Limited, a limited company of England and Wales;

"Forward China" refers to Forward Industries Asia-Pacific Corporation (f/k/a Seaton Global Corporation), Forward's exclusive sourcing agent in the Asia-Pacific region;

"SGC" refers to Seaton Global Corporation, a British Virgin Islands registered corporation that is the exclusive buying agent for Forward in the APAC region;

"GAAP" refers to accounting principles generally accepted in the United States;

"Commission" refers to the United States Securities and Exchange Commission;

"Exchange Act" refers to the United States Securities Exchange Act of 1934, as amended;

"Fiscal 2012" refers to our fiscal year ended September 30, 2012;

"Fiscal 2011" refers to our fiscal year ended September 30, 2011;

"Europe" refers to the countries included in the European Union;

"EMEA Region" means the geographic area encompassing Europe, the Middle East and Africa;

"APAC Region" refers to the Asia Pacific Region, consisting of Australia, New Zealand, Hong Kong, Taiwan, China, South Korea, Japan, Singapore, Malaysia, Thailand, Indonesia, India, the Philippines and Vietnam;

"Americas" refers to the geographic area encompassing North, Central, and South America;

"OEM" refers to Original Equipment Manufacturer;

"Retail" refers to the retail distribution channel; and

"Corporate" refers to the corporate distribution channel.

PART I

ITEM 1. BUSINESS

General

Forward Industries, Inc. was incorporated under the laws of the State of New York and began operations in 1961 as a manufacturer and distributor of specialty and promotional products. We design, market, and distribute carry and protective solutions, primarily for hand held electronic devices. Our principal customer market is original equipment manufacturers, or “OEMs” (or the contract manufacturing firms of these OEM customers), that either package our products as accessories “in box” together with their branded product offerings, or sell them through their retail distribution channels. Our OEM products include carrying cases and other accessories for medical monitoring and diagnostic kits and a variety of other portable electronic and non-electronic products (such as sporting and recreational products, bar code scanners, smartphones, GPS and location devices, tablets and firearms). Our OEM customers are located in the Americas, the EMEA Region, and the APAC Region. We do not manufacture any of our OEM products and source substantially all of our OEM products from independent suppliers in China.

On June 21, 2012, we determined to exit our global retail business (“discontinued operations”) and focus solely on growing our OEM business. Our decision to eliminate the retail division was primarily driven by the longer than estimated path to bring it to profitability and the strong top line growth and cost rationalizations in the OEM business.

Corporate History

Forward Industries was incorporated in 1961 under the laws of the State of New York as a manufacturer and distributor of advertising specialty and promotional products. In 1989, we acquired Forward US (then known as Koszegi Industries, Inc.), a manufacturer of soft-sided carrying cases. The carrying case business became our predominant business, and in September 1997, we sold the assets relating to the production of advertising specialty and promotional products, ceasing to operate in that segment.

In May 2001, we formed Forward Switzerland to facilitate distribution of aftermarket products under our licenses for cell phone cases with a major North American multinational and to further develop our OEM European business presence. After the expiration of the last of these licenses in March 2009, staff at Forward Switzerland was significantly reduced and in recent years has primarily served our OEM European customers. As part of our strategy to develop a global retail distribution capability, we are reinvesting in both staff and infrastructure at Forward Switzerland and have established it as our EMEA headquarters from which we are coordinating our sales and marketing activities throughout the EMEA region.

Products

We design and market to our OEM customers’ order carry and protective solutions for hand held consumer electronics and other products, including soft-sided carrying cases, bags, clips, hand straps, protective plates, and other accessories made of leather, nylon, vinyl, plastic, PVC and other synthetic materials. Our OEM products are used by consumers for protecting and carrying or transporting portable electronic and other products such as blood glucose monitoring kits, bar code scanners, GPS and location devices, cellular telephones, firearms, sporting and recreational products, and other products. Our carrying cases are designed to enable these devices to be stowed in a pocket, handbag, briefcase, or backpack, clipped to a belt or shoulder strap, or strapped to an arm, while protecting the consumer electronic or other product from scratches, dust, and mishandling.

Diabetic Products

We sell carrying cases for blood glucose diagnostic kits directly to OEMs (or their contract manufacturers) of these electronic, monitoring kits made for use by diabetics. We typically sell these cases at prices ranging from approximately \$0.50 to \$3.00 per unit. Unit volumes are sold predominantly at the lower end of this price range. The OEM customer (or its contract manufacturer) packages our carry cases “in box” as a custom accessory for the OEM’s blood glucose testing and monitoring kits, or to a much lesser extent, sells them through their retail distribution channels. These kits typically include a small, electronic blood glucose monitor, testing strips, lancets for drawing a drop of blood and our carrying case, customized with the manufacturer’s logo and designed to fit and secure the glucose monitor, testing strips, and lancets in separate straps, pouches, and holders. As the kits and technology change, our carrying case designs change to accommodate the changes in size, shape and layout of the electronic monitoring device, strips and lancet.

Other Products

We also sell carrying and protective solutions to OEMs for a diverse array of other portable electronic and other products, including sporting and recreational products, bar code scanners, smartphones, GPS and location devices, tablets, and firearms, on a made-to-order basis that are customized to fit the products sold by our OEM customers. Our selling prices for these products also vary across a broad range, depending on the size and nature of the product for which we design and sell the carry solution.

Product Development

In our OEM business, the product life cycle in distributing and selling our technology solutions to our OEM customers is as described below. We typically receive requests to submit product designs in connection with a customer’s introduction and rollout to market of a new product that the customer has determined to accessorize and customize with a carry solution. Our OEM customers furnish the desired functionality, size and other basic specifications for the carrying solutions or other product, including the OEM’s identifying logo imprint on the product. Our design and production resources develop more detailed product specifications and design options for our customer’s evaluation. We then furnish the customer with product samples. Working with our suppliers and the customer, samples are modified and refined. Once approved for commercial introduction and order by our customer, we work with our suppliers to ensure conformity of commercial production to the definitive product samples and specifications. Manufacture and delivery of products in production quantities are coordinated with the customer’s manufacturing and shipment schedules so that our carry solution products are available with the customer’s product (and included “in box”, as the case may be) prior to shipment and sale, or to a lesser extent sold by our customer through its retail distribution channels.

Marketing, Distribution, and Sales

Geographic Sales Distribution

Through our wholly owned subsidiaries, Forward US and Forward Switzerland, we distribute and sell our products globally. The approximate percentages of net sales to OEM customers by their geographic location for Fiscal 2012 and 2011 are as follows:

Geographic Location:	Net Sales	
	Fiscal Years Ended September 30,	
	2012	2011
APAC.....	39%	46%
Americas.....	36%	28%
Europe.....	25%	26%
Totals.....	100%	100%

The importance of the APAC region is attributable to the fact that certain of our key customers outsource product manufacture to contract manufacturers located in China or elsewhere in Asia. In these instances, we ship product to, and product is packaged “in box” at, such contract manufacturer’s facility. If payment to us is due from the contract manufacturer, we identify the sale to its geographic location rather than that of the customer for whom the contract manufacturer is supplying product. The decrease in APAC contribution to net sales in Fiscal 2012 compared to Fiscal 2011 was due to the increase in revenue contribution from several existing customers in the Americas region. See Note 17 to the audited consolidated financial statements included in Item 8 of this Annual Report.

Channels of Distribution

We primarily ship our products directly to our OEM customers (or their contract manufacturers), who package our accessory products “in box” with their branded products. Some of our customers also purchase certain of our products and offer them for sale as stand-alone accessories to complement their product offerings.

Sales by Product Line

Sales of carry and protective solutions for “Diabetic Products” and for “Other Products” (all products other than diabetic carry cases for blood glucose monitor kits) accounted for approximately the following percentages of total net sales in Fiscal 2012 and 2011:

Sales:	Fiscal Year Ended	
	2012	2011
Diabetic Products.....	74%	73%
Other Products	26%	27%
Totals	100%	100%

Sales Concentration

We have approximately 74 active OEM customers. Of these, three customers (including their affiliates and contract manufacturers) accounted for approximately 62% and 69% of our net sales from continuing operations in Fiscal 2012 and 2011, respectively. All three of these “major” customers are OEMs of diabetic monitoring kits. These customers package our carry and protective solutions “in box” with their branded products, or to a lesser extent, sell them through their retail distribution channels. The approximate percentages of net sales contributed by each of these three customers to continuing operations for Fiscal 2012 and Fiscal 2011 are as follows:

Customer:	Fiscal Year Ended	
	2012	2011
Diabetic Customer A.....	33%	37%
Diabetic Customer B.....	13%	16%
Diabetic Customer C.....	16%	16%
Totals*	62%	69%

* Tables may not total due to rounding.

Sales Force

During Fiscal 2012 and 2011, all net sales of OEM products were made directly by our employees, which are assigned key accounts or defined geographic sales territories. See “Risk Factors” in Item 1A. of this Annual Report - “*Our business could suffer if the services of key sales personnel we rely on were lost to us.*”

OEM Distribution Hubs

We have distribution hub arrangements with three OEM customers. These arrangements obligate us to supply our products to our customer’s distribution hubs (may be multiple locations) where their products are manufactured, kitted, and/or warehoused pending sale, and where our products are packaged in-box with the OEM customer’s products or, to a much lesser extent, distributed for retail sale. The product quantities we are required to supply to each distribution hub are based on the OEM customer’s purchase orders and forecasts. We do not recognize revenue for product

shipped to a hub until we have been notified by our customer that our product has been withdrawn from the distribution hub and “consumed”. Hub arrangements have had the general effect of extending financing for our customers’ inventory build by extending the time between our placement of orders to our suppliers in order to ship and supply the hubs and the time that we are able to recognize revenue. The corollary effect is an increase in our inventory levels.

7

Credit Risk

We generally sell our OEM products on 45- to 90-day credit terms customary in the industry. Historically, we have not had significant credit problems with our customers. Our significant OEM customers are large, multi-national companies with good credit histories. None of these customers is or has been in default to us, and payments from all customers are generally received from them on a timely basis. Three OEM customers (including their affiliates or contract manufacturers) accounted for approximately 76% and 72% of our accounts receivable at September 30, 2012 and 2011, respectively.

When we ship products to our OEM customer's designated contract manufacturer and invoice such manufacturer (and not the OEM customer), even though our order flows originate with and depend on our relationship with the OEM, our accounts receivable credit risk lies with the contract manufacturer. Our OEM customer does not guarantee the credit of the contract manufacturer to whom the OEM requests us to ship our carrying case products, and such order volumes may be significant from time to time. In most cases, these contract manufacturers are themselves major multinational enterprises with good credit. See Item 1A of this Annual Report on Form 10-K: "Risk Factors".

Product Supply

Manufacturing

The manufacture of custom carrying cases and other carry and protective solutions generally consists of die cutting fabrics and heat sealing, gluing, sewing, and decorating (affixing logos to) the cut-outs by means of silk screening, hot-stamping, embroidering or embossing. The principal materials used in the manufacture of our products are vinyl, nylon, leather, metal and plastic parts (for clips, buckles, loops, hinges and other hardware), foam padding and cardboard, all of which are obtained according to our specifications from suppliers. We do not believe that any of the component materials or parts used by our suppliers in the manufacture of our products is supply constrained. We believe that there are adequate available alternative sources of supply for all of the materials used to manufacture, package, and ship our products.

Sourcing Agent

On March 12, 2012, we entered into a Buying Agency and Supply Agreement (the "Agreement") with Forward Industries Asia-Pacific Corporation ("Forward China" f/k/a Seaton Global Corporation), a British Virgin Islands corporation, dated as of March 7, 2012. The Agreement provides that, upon the terms and subject to the conditions set forth therein, Forward China shall act as our exclusive buying agent and supplier of Products (as defined in the Agreement) in the Asia Pacific region. We purchase products at Forward China's cost, and shall pay a service fee on the net purchase price. The Agreement shall terminate on March 11, 2014, subject to renewal. Terence Wise, a director of the Company, is a principal of Forward China.

Suppliers

We procure substantially all our supply of carrying solutions products from independent suppliers in China through Forward China. We purchased approximately 90% of our OEM products from four such suppliers in Fiscal 2012 and 2011. One such China supplier accounted for approximately 54% and 58% of our OEM product purchases in Fiscal 2012 and 2011, respectively. Depending on the product, we may require several different suppliers to furnish component parts or pieces.

We place orders with one or more suppliers at the time we receive firm purchase orders and/or forecasts from our OEM customers for a particular product. Accordingly, we do not have minimum supply requirement agreements with our suppliers to guarantee us supply of finished product, nor have we made purchase commitments to purchase minimum amounts from any of our suppliers. However, from time to time, we may order products from our suppliers in advance of receiving a customer purchase order, or in quantities in excess of those forecasted to us by our customer, to which they are contractually obligated to us for, in order to meet our customer's delivery demands.

Quality Assurance

To ensure that our products manufactured by our Chinese suppliers meet our quality assurance standards our products are inspected by independent contractors in China, which may be affiliated with one or more of our suppliers. These contractors were subject to the control and supervision of our quality assurance employees based in Hong Kong and/or by Forward China, our exclusive sourcing agent (refer to “Sourcing Agent” under the “Product Supply” section). In July 2012, Forward China received its ISO 9001:2008 quality certification, which covers all ISO activities previously covered under Forward’s ISO quality certification.

Logistics

Once our products are approved for shipment by our quality assurance procedures, our products are typically shipped to our customer’s destination port in the Americas and EMEA regions on ocean-going container vessels, or by ground transport to our APAC customer’s locations in China or Hong Kong. In certain cases, and primarily at our customer’s request, we will expedite the shipment of our products by using air transportation. Most ocean-going shipments bound for the United States are off-loaded at the port of Los Angeles or San Francisco, but certain customers arrange for shipments to East coast ports, such as Miami or Philadelphia. EMEA destined shipments generally are routed via Rotterdam. See “Item 1A. in this Annual Report “Risk Factors—*Our shipments of products via container freight to customers in the United States and Europe may become subject to delays or cancellation at port facilities due to work stoppages or slowdowns, damage caused by weather or terrorism and congestion due to inadequacy of equipment and other causes.*”

Insurance

We maintain commercial loss and liability, business interruption, and general claims and other insurance customary for our business. We do not maintain credit insurance for our trade accounts receivable.

Competition

The business in which we engage is highly competitive in terms of product pricing, design, delivery terms, and customer service. In the production of our OEM products, we compete with numerous United States and foreign producers and distributors. Some of our competitors are substantially larger than we are and have greater financial and other resources. We believe that we sustain our competitive position through maintenance of an effective product design capability, rapid response time to customer requests for proposals and product shipment, reliable product delivery and product quality, and competitive pricing. We believe that our ability to compete based on product quality assurance considerations is enhanced by the local presence of our Chinese based quality control and shipment capabilities. See Item 1A. in this Annual Report on Form 10-K: “Risk Factors - *The carrying solutions business is highly competitive and does not pose significant barriers to entry.*”

Employees

At September 30, 2012, we had 18 full-time employees, of whom two are employed in executive capacities, eight are employed in administrative and clerical capacities, seven are employed in sales and sales support capacities, and one is employed in a design capacity. We consider our employee relations to be satisfactory. None of our employees are covered by a collective bargaining agreement.

Since June 2003, we have employed our U.S. employees through a co-employment agreement with a Professional Employer Organization (“PEO”). The objective of this arrangement is for the PEO to assume many of the legal and administrative responsibilities of human resources management, health benefits, workers' compensation, payroll, payroll tax compliance, 401(K) plan administration and unemployment insurance and to perform these functions at lesser expense than if we were to perform them directly.

Regulation and Environmental Protection

Our business is subject to various regulations in various jurisdictions, including the United States and member states of the European Community, that restrict the use or importation of products manufactured with compounds deemed to be hazardous. We work with our suppliers to ensure compliance with such regulations. In addition, from time to time one or more customers may require testing of our products to ensure compliance with applicable consumer safety rules and regulations or the customer’s safety or packaging protocols. Because we do not manufacture the products that we sell and distribute, compliance with federal, state and local laws and regulations pertaining to the discharge of materials into the environment, or otherwise relating to the protection of the environment, has not had, and is not anticipated to have, any direct material effect upon our capital expenditures, earnings, or competitive position. However, compliance with such laws and regulations on the part of our suppliers may result in increased costs of supply to us, particularly if domestic environmental regulation in China becomes more prevalent.

We have not been engaged in any environmental litigation or incurred any material costs related to compliance with environmental or other regulations. From time to time we incur chemical and/or safety laboratory testing expense in order to address customer requests regarding our product materials or method of manufacture or regarding their packaging methods and standards.

ITEM 1A. RISK FACTORS

Please read the note regarding "Cautionary statement for purposes of the "Safe Harbor" provisions of the Private Securities Litigation Reform Act of 1995" that appears on page 16 of this Annual Report on Form 10-K.

We have a history of losses and negative cash flow from operations. We cannot assure you that we will achieve profitability in 2013.

We have incurred significant losses and negative cash flows from operations in recent years. We incurred net losses of approximately \$9.6 million and \$2.9 million for the fiscal years ended September 30, 2012 and 2011, respectively, and had net uses of cash in operating activities of approximately \$10.8 million and \$1.8 million for the fiscal years ended September 30, 2012 and 2011, respectively. Further, we may continue to incur net losses in future reporting periods as we incur expenses associated with the continuation of our business as well as its subsequent development, which development cannot be guaranteed. There is no assurance our future operations will be profitable. If we cannot generate sufficient revenues to operate profitably, we may be forced to cease or suspend operations, or we may be required to raise additional capital to maintain or grow our operations. There is no assurance that we will be able to raise such additional capital.

There can be no assurance that the restructuring we have begun to implement will be successful.

In June 2012 we announced our plans to exit the global retail business and focus solely on growing our OEM business, which we believe will enable us to use working capital more effectively and improve organizational effectiveness. In connection with exiting the global retail business we also commenced a restructuring of our business, including: reducing annualized operating expense by over 50% through headcount reductions; closing offices in Santa Monica, London, Dubai and Saarbrücken; and relocating the corporate headquarters to Florida, where costs of operation are anticipated to be lower. We also implemented a variable, lower cost sourcing and quality assurance solution through a third party Asia-based sourcing agent. While we believe these measures, along with other steps to be taken, will be sufficient to return the Company to profitability, there can be no assurance that this will be the case, or that additional steps will not be required. If additional steps are required, there can be no assurance that they will be properly implemented or will be successful.

The cash investment required to execute our OEM growth strategy is likely to be substantial relative to our cash resources.

We have recently invested and expect to continue to invest substantial incremental cash resources to execute our OEM growth strategy. While we believe that our existing cash resources are sufficient to support our growth strategy, there can be no assurances that our growth strategy will be successful or that we will earn a return on these investments.

Our business remains highly concentrated in our Diabetic Products line, posing risks to our financial condition and results of operations compared to periods when revenue from customers from two principal product lines were more balanced. If our Diabetic Products line were to suffer the loss of a principal customer or a material decline in or loss

of sales, our business would be materially and adversely affected.

10

Sales of diabetic cases to OEM customers accounted for approximately 74% of net revenues from continuing operations in Fiscal 2012. While net sales of "Other Products" increased 26%, our business remains characterized by high product line as well as customer concentration. In such circumstances, our financial condition and results of operations are subject to higher risk from the loss of a diabetic case customer or from changes in the business practices of OEMs of blood glucose monitors, for example, a decision to reduce or eliminate inclusion of cases in box with the electronic device or a decision to focus on insulin pumps instead of insulin by injection.

Our business is and has been characterized by a high degree of customer concentration. Our three largest customers accounted for approximately 62% and 69% of net sales from continuing operations in Fiscal 2012 and Fiscal 2011, respectively; the loss of, or material reduction in orders from, any of these customers would materially and adversely affect our results of operations and financial condition.

At present the predominant percentage of our sales revenues is concentrated in three large OEM customers for our diabetic blood glucose carry cases, including their affiliates and/or their contract manufacturers. The loss of any of these customers, whether as a result of its purchase of its carry solution requirements from another vendor, its decision to manufacture its own carrying cases, its decision to award its orders to one of our competitors, or otherwise, would have a material adverse effect on our financial condition, liquidity and results of operations.

If any one or more of our OEM customers elect to reduce or discontinue inclusion of cases "in-box", our results of operations and financial condition would be materially and adversely affected.

The predominant percentage of our revenues is derived from sales of case accessories to our OEM customers who package our cases "in-box" with their electronics. With the global recession and weak recovery, OEMs have sought continuously to reduce expenses. If one or more of our OEM customers generally begin to reduce or discontinue the practice of including carry case accessories in-box, we would incur a significant decline in revenues and our results of operations and financial condition would be materially and adversely affected.

At any time, a significant percentage of our accounts receivable risk may be concentrated in a small number of customers.

Three customers accounted for approximately 76%, and 72% of our accounts receivable at September 30, 2012 and 2011, respectively. The failure to receive or collect such amounts when and as due could have a material adverse effect on our financial condition, liquidity, and results of operations.

We continue to encounter pressures from our largest OEM customers to maintain or even roll back prices or to supply lower priced carry solutions, and expect such pressure to persist. The effects of such price constraints on our business may be exacerbated by inflationary pressures that affect our costs of supply.

During Fiscal 2012 and 2011, we experienced significant pricing pressure from our largest OEM customers to maintain or even reduce the prices we charge them. When we are unable to extract comparable concessions from our suppliers on prices they charge us, product sales margins erode. In addition to margin compression from customers, in general, we are encountering increased pricing from our Chinese suppliers who are reacting to inflationary increases in materials and labor costs incurred by them. We believe that Fiscal 2011, Fiscal 2012, and the present represent a period of such inflationary pressures. In addition, prices that our Chinese vendors charge to us may reflect appreciation of the Chinese currency against the U.S. dollar, which can be passed through to us in the form of higher U.S. dollar prices. This in turn will tend to reduce gross profit percentage if we are unable to raise prices. We anticipate that constraints on our ability to maintain or increase prices to our major customers will continue to exert

downward pressure on our gross margin in the fiscal year ending September 30, 2013.

Our results of operations are subject to the risks of fluctuations in the values of foreign currencies relative to the U.S. Dollar.

Our results of operations are expressed in U.S. Dollars. When the U.S. Dollar appreciates or depreciates in value against a currency in which all or a significant portion of revenues or other accounts receivable are denominated, such as the Euro, our results of operations can be adversely affected or benefited, respectively. The degree of impact is proportional to the amount of foreign currency expense or revenue, as the case may be, and the fluctuations in exchange rates over the period in which the effect is measured on our financial statements.

Future revenues are difficult to predict and are likely to show significant variability as a consequence of customer concentration.

Because our revenues are highly concentrated in a few large customers, and because the volumes of these customers' order flows to us can fluctuate markedly in a short period of time, our quarterly revenues, and consequently our results of operations, may be highly variable and subject to significant changes over a relatively short period of time. Our largest OEM customers may keep consumer products with which our carry solutions are packaged "in-box" in active promotion for many months, or for a very short period of time, depending on various factors, including sales trends for the product, product development cycles, new product introductions, and our customers' competitors' product offerings. As demand for the consumer product relating to the in-box program matures and decreases, we may be forced to accept significant price and/or volume reductions in customer orders for our carry solutions, which will adversely affect revenue. These factors tend to lead to a high degree of variability in our quarterly revenue levels. Significant, rapid shifts in our operating results may occur if and when one or more of these customers increase or decrease the size(s) of, or eliminate, their orders from us by amounts that are material to our business.

Our gross margins, and therefore our profitability, vary considerably by customer and by product, and if the revenue contribution from one or more OEM customers or products changes materially, relative to total revenues, our gross profit percentage may fluctuate.

Our gross profit margins on the products we sell can vary widely depending on the product type, customer, and order size. Because of the broad variability in price ranges and product types, we anticipate that gross margins, and accordingly their impact on operating income or loss, may fluctuate depending on the relative revenue contribution from each customer or product.

Product manufacture is often outsourced by our OEM customers to contract manufacturing firms in China and in these cases it is the contract manufacturer to which we must look for payment.

Such firms are performing manufacturing, assembly, and product packaging functions, including the bundling of our product accessories with the OEM customer's product. As a consequence of this business practice, we often sell our carry solution products to the contract manufacturing firm. This is particularly significant in the case of diabetic product sales to certain customers. In these cases, we invoice the contract manufacturing firm and not the OEM customer. Therefore, it is the contract manufacturing firm's credit to which we must look for payment in such cases and not that of our OEM customer. This may alter the credit profile of our customer base and may involve significant purchase order volumes. In some, but not all cases, the manufacturing firm is itself a large, multinational entity with significant financial resources.

Our dependence on foreign manufacturers creates quality control and other risks to our business. From time to time we may experience certain quality control, on-time delivery, cost, or other issues that may jeopardize customer relationships.

Our reliance on foreign suppliers, manufacturers, and other contractors involves significant risks, including risk of product quality issues and reduced control over quality assurance, manufacturing yields and costs, pricing, timely delivery schedules, the potential lack of adequate manufacturing capacity and availability of product, the lack of capital, and potential misappropriation of our designs.

Our shipments of products via container may become subject to delays or cancellation due to work stoppages or slowdowns, piracy, damage to port facilities caused by weather or terrorism, and congestion due to inadequacy of

port terminal equipment and other causes.

To the extent that there are disruptions or delays in loading container cargo in ports of origin or off-loading cargo at ports of destination as a result of labor disputes, work-rules related slowdowns, tariff or World Trade Organization-related disputes, piracy, physical damage to port terminal facilities or equipment caused by severe weather or terrorist incidents, congestion in port terminal facilities, inadequate equipment to load, dock and offload container vessels or energy-related tie-ups or otherwise, or for other reasons, product shipments to our customers will be delayed. In any such case, our customer may cancel or change the terms of its purchase order, resulting in a cancellation or delay of payments to us. A closure or partial closure of port facilities or other causes of delays in the loading, importation, offloading or movement of our products to the shipping destination agreed with our customer could result in increased expenses, as we try to avoid such delays, delayed shipments or cancelled orders, or all of the above. Depending on the severity of such consequences, this may have an adverse effect on our financial condition and results of operations.

12

The OEM carrying solutions business is highly competitive and does not pose significant barriers to entry.

There are many competitors in the sale of carry solutions products to OEMs, and competition is intense. Since little or no significant proprietary technology is involved in the design, production, or distribution of the types of products we sell, others may enter the business with relative ease and compete against us. Such competition may result in the diminution of our market share or the loss of one or more major OEM customers, thereby adversely affecting our net sales, results of operations, and financial condition. Many of our competitors are larger, better capitalized, and more diversified than we are and may be better able to withstand a downturn in the general economy or in the product areas in which we specialize. These competitors may also have less sales concentration than we do and be better able to withstand the loss of a key customer or diminution in its orders.

Our business could suffer if the services of key sales personnel we rely on were lost to us.

We are highly dependent on the efforts and services of certain key sales representatives who have account responsibility for, and have longstanding relationships with one or more of our largest customers. Our business could be materially and adversely affected if we lost the services of any such individual. If we lost the services of a key sales representative, we might experience a material reduction in orders from his customers, resulting in a loss of revenues, which would materially and adversely affect our results of operations and financial condition.

We do not pay dividends on our common stock.

We have not paid any cash dividends on our common stock since 1987. The payment in the future of cash dividends by us, if any, will depend upon our results of operations, short-term and long-term cash availability, working capital, working capital needs, and other factors, as determined by our Board of Directors. We do not anticipate that cash dividends will be paid in the foreseeable future. The absence of dividend payments on a common stock might make such stock susceptible to greater market price swings.

We have in place anti-takeover measures and charter provisions that may prevent a hostile or unwanted effort to acquire Forward.

Our Board of Directors is authorized to issue up to 4,000,000 shares of "blank check" preferred stock. Our Board of Directors has the authority, without shareholder approval, to issue such preferred stock in one or more series and to fix the relative rights and preferences thereof including their redemption, dividend and conversion rights. Our ability to issue the authorized but unissued shares of preferred stock could be used to impede takeovers of our company. Under certain circumstances, the issuance of the preferred stock could make it more difficult for a third party to gain control of Forward, discourage bids for the common stock at a premium, or otherwise adversely affect the market price of our common stock. In addition, our certificate of incorporation requires the affirmative vote of two-thirds of the shares outstanding to approve a business combination such as a merger or sale of all or substantially all assets. Such provision and blank check preferred stock may discourage attempts to acquire Forward. Applicable laws that impose restrictions on, or regulate the manner of, a takeover attempt may also have the effect of deterring any such transaction. We are not aware of any attempt to acquire Forward.

We maintain cash balances in our bank accounts that exceed the FDIC insurance limitation.

We maintain our cash assets at commercial banks in the U.S. in amounts in excess of the Federal Deposit Insurance Corporation insurance limit of \$250,000 and in Europe in amounts that may exceed any applicable deposit insurance limits. In the event of a failure at a commercial bank where we maintain our deposits or uninsured losses on money

market or other cash equivalents in which we maintain cash balances, we may incur a loss to the extent such loss exceeds the insurance limitation, which could have a material adverse effect upon our financial conditions and our results of operations.

ITEM 1B. UNRESOLVED STAFF COMMENTS

Not Applicable

ITEM 2. PROPERTIES

In September 2012, we relocated our executive offices from Santa Monica, California to West Palm Beach, Florida, which consists of approximately 2,815 square feet, which we rent for approximately \$6,200 per month under a lease agreement scheduled to expire in July 2020.

In April 2011, we relocated our executive offices from Pompano Beach, Florida to offices in Santa Monica, California, which consists of approximately 3,400 square feet for which we rent at \$13,500 per month under lease agreements, which expire in October 2016. In light of our return to Florida in September 2012, we anticipate sub-leasing this space for the remainder of our lease term at rates equal or above those that we are contractually obligated to.

We sub-lease approximately 1,300 square feet of office space in Cham, Switzerland on a month-to-month basis from a tenant at the same location. We use this office as our EMEA headquarters from which we coordinate our sales and sales support activities throughout the EMEA region.

In October 2011, we entered into a lease for approximately 1,000 square feet of office space in London, England at \$8,000 per month under a lease agreement that expired in September 2012. We used this office space to perform administrative and sales support (such as accounting, operational, and customer service functions) primarily to our EMEA-based Retail sales team. Consequently, this lease was not renewed as part of our exit from our Retail business (refer to “Discontinued Operations”). All OEM sales, sales support and administrative activities in the EMEA region are coordinated from our branch office in Cham, Switzerland.

In April 2012, we renewed our license through the Jebel Ali Free Zone Authority (JAFZA) to maintain a registered branch office in the Jebel Ali Free Zone (JAFZ) of the United Arab Emirates. Under this license, we rent approximately 638 square feet of office space at annual rate of \$35,000 through March 2013. We used this office space to facilitate sales of our Retail products in the Middle-East and India region through July 2012, at which time we shut down this office space as part of our exit from our Retail business (refer to “Discontinued Operations”).

In July 2011, we renewed our lease for approximately 4,400 square feet of office space in Kowloon, Hong Kong, which extends through October 2014 at a monthly rate of \$15,000. We used this office space as our APAC headquarters from which we coordinated and conducted our Asia-based sourcing, quality assurance, and logistics activities. In September 2012, we vacated this office space in connection with our use of an exclusive sourcing agent in the APAC region (refer to “Sourcing Agent” section under Item 1 – “Product Supply”).

We believe that each of the foregoing leased properties is adequate for the purposes for which it is used. All leases are with independent third parties. We believe that the loss of any lease would not have a material adverse effect on our operations, as we believe that we could identify and lease comparable facilities upon approximately equivalent terms.

ITEM 3. LEGAL PROCEEDINGS

Targus Group International, Inc., et al. v., Forward Industries, Johnson, et al.

On September 19, 2011, Forward, Mr. Brett Johnson (our former President and Chief Executive Officer), and one of our employees were named in a Complaint filed in Orange County Superior Court by Targus Group International, Inc.

and two of its affiliates. The Complaint alleged a claim for breach of contract against Mr. Johnson. The Complaint further alleged a “breach of fiduciary duty/duty of loyalty” against the employee, and it asserted claims against Mr. Johnson and Forward for allegedly aiding and abetting that alleged breach. The Complaint also asserted a cause of action against all Defendants for unfair competition. An Amended Complaint was filed on October 11, 2011. In addition to the claims asserted in the original Complaint, the Amended Complaint added an additional Targus affiliate as a plaintiff and named an additional employee of Forward as a defendant. The Amended Complaint asserted a claim against that employee for breach of contract and for “breach of fiduciary duty/duty of loyalty, ” and it added new claims against Forward and Mr. Johnson for allegedly interfering with that employee’s contract and for allegedly aiding and abetting his breach of duty. The claim for unfair competition in the Amended Complaint relies on these new allegations as well. Forward entered into a Settlement Agreement, effective as of October 17, 2012, which resolved claims between the Company and the other defendants, on the one hand, and Targus Group International, Inc. and the other plaintiffs, on the other hand, related to this action. In connection with the Settlement Agreement, a payment was made to the plaintiffs, substantially all of which was made by Forward’s insurer.

Other Litigation

From time to time, the Company may become a party to other legal actions or proceedings in the ordinary course of its business. As of September 30, 2012, there were no such actions or proceedings, either individually or in the aggregate, that, if decided adversely to the Company's interests, the Company believes would be material to its business.

ITEM 4. NOT APPLICABLE**PART II****ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED SHAREHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES***Market for Common Stock*

The principal market for our common stock is the NASDAQ SmallCap Market. Our common stock is traded under the symbol "FORD". The following table sets forth the high and low closing bid quotations for our common stock on the NASDAQ SmallCap Market for each quarter in the last two fiscal years.

	Bid Price Information for Common Stock*			
	Fiscal 2012		Fiscal 2011	
	<u>High Bid</u>	<u>Low Bid</u>	<u>High Bid</u>	<u>Low Bid</u>
First Quarter	\$2.24	\$1.55	\$4.06	\$2.89
Second Quarter	\$3.24	\$1.65	\$4.10	\$3.02
Third Quarter	\$2.83	\$1.68	\$4.59	\$2.52
Fourth Quarter	\$1.83	\$1.02	\$3.11	\$2.01

*High and low bid price information as furnished by The NASDAQ Stock Market Inc.

On December 3, 2012, the closing bid quotation for our common stock was \$1.20

Holders of common stock.

As of December 3, 2012, there were approximately 112 holders of record of our common stock, excluding approximately 7,827 beneficial holders of common stock whose shares are held in street name.

Dividends

We have not paid any cash dividends on our common stock since 1987 and do not plan to pay cash dividends in the foreseeable future. The payment of dividends in the future, if any, will depend upon our results of operations, as well as our short-term and long-term cash availability, working capital, working capital needs, and other factors, as determined by our Board of Directors. Currently, except as may be provided by applicable laws, there are no contractual or other restrictions on our ability to pay dividends if we were to decide to declare and pay them.

Recent sales of unregistered securities

During Fiscal 2012 and 2011, we did not sell any shares of common stock, or securities exercisable for or exchangeable into common stock, or any other securities that were not registered under the Securities Act of 1933.

Securities authorized for issuance under equity compensation plans.

For information relating to this topic, see Part III, Item 11 of this Annual Report. “Executive Compensation—Securities Authorized for Issuance under Equity Compensation Plans”, which is incorporated in this Annual Report on Form 10-K by reference to our 2012 Proxy Statement.

Purchase of Equity Securities

No repurchase of any shares of our common stock or other equity security was made by or on behalf of the Company during Fiscal 2012 or 2011.

ITEM 6. SELECTED FINANCIAL DATA

Not applicable.

ITEM 7. MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis should be read in conjunction with our audited Consolidated Financial Statements and the notes thereto and other financial information appearing in Item 8 of this Annual Report on Form 10-K. This discussion and analysis compares our consolidated results of operations for the Fiscal year ended September 30, 2012 (“Fiscal 2012”), with those for the Fiscal year ended September 30, 2011 (“Fiscal 2011”), and is based on or derived from the audited Consolidated Financial Statements included in Item 8 in this Annual Report. All figures in the following discussion are presented on a consolidated basis. All dollar amounts and percentages presented herein have been rounded to approximate values.

Cautionary statement for purposes of the “Safe Harbor” provisions of the Private Securities Litigation Reform Act of 1995

The following management’s discussion and analysis includes “forward-looking statements”, as such term is used within the meaning of the Private Securities Litigation Reform Act of 1995. These “forward-looking statements” are not based on historical fact and involve assessments of certain risks, developments, and uncertainties in our business looking to the future. Such forward looking statements can be identified by the use of forward-looking terminology such as “may”, “will”, “should”, “expect”, “anticipate”, “estimate”, “intend”, “continue”, or “believe”, or the negatives or other variations of these terms or comparable terminology. Forward-looking statements may include projections, forecasts, or estimates of future performance and developments. Forward-looking statements contained in this Annual Report are based upon assumptions and assessments that we believe to be reasonable as of the date of this Annual Report. Whether those assumptions and assessments will be realized will be determined by future factors, developments, and events, which are difficult to predict and may be beyond our control. Actual results, factors, developments, and events may differ materially from those we assumed and assessed. Risks, uncertainties, contingencies, and developments, including those discussed in this Management’s Discussion and Analysis of Financial Condition and Results of Operations and those identified in “Risk Factors” in Item 1A of this Annual Report on Form 10-K, could cause our future operating results to differ materially from those set forth in any forward looking statement. There can be no assurance that any such forward looking statement, projection, forecast or estimate contained can be realized or that actual returns, results, or business prospects will not differ materially from those set forth in any forward looking statement.

Given these uncertainties, readers are cautioned not to place undue reliance on such forward-looking statements. The Company disclaims any obligation to update any such factors or to publicly announce the results of any revisions to any of the forward-looking statements contained herein to reflect future results, events or developments.

Business Overview

Trends and Economic Environment

In June 2012, we determined to exit our global retail business and focus solely on growing our OEM business. Our decision to eliminate our retail division was based primarily on the longer than estimated path to bring it to profitability and the strong top-line growth and cost rationalizations achieved in the OEM business over the past two years.

In connection with the exit of our retail business, we entered into a second Memorandum of Understanding (the “New MOU”) with G-Form. In accordance with this New MOU we have assisted G-Form on a short-term basis with transitioning certain operational and sales functions previously performed by Forward for G-Form products. We continue to work with G-Form to distribute our remaining retail product inventory and are working with them to settle on the amount of funds owed to us as a result of the net effect of certain transactions between G-Form and us, as contemplated under the New MOU.

As part of our ongoing restructuring, we implemented several key measures beginning in mid-Fiscal 2012 to improve our operating performance and return our company to profitability. These actions included replacing our legacy sourcing and quality assurance infrastructure with a variable, lower cost, solution through our use of an exclusive, Asia-based, sourcing agent (refer to Note 14 in our Notes to Financial Statements). We believe that this agency relationship will yield meaningful, longer-term benefits, in terms of negotiating favorable material costs, improving the quality of our products, and diversifying our supplier base. With regard to lowering our fixed overhead, we have closed our offices in London, Dubai Saarbrücken, and Santa Monica, and relocated our corporate headquarters to West Palm Beach, where we expect costs of operation to be lower. In addition, we have significantly reduced headcount through elimination of personnel dedicated to our Retail business and reinvested a portion of these costs savings to expand and restructure our sales, design, customer service, finance and IT personnel focused on growing our OEM business. Lastly, we have begun to implement a rigorous cost rationalization plan with regard to other components of our operating expenses that we believe will result in a more streamlined and efficient use of our working capital.

With regard to our OEM business, it remains highly concentrated by customer and product type, especially with respect to our Diabetic Products line, where we continue to operate in a very challenging price sensitive environment. We continue to experience pricing pressure from our major Diabetic Products customers, but especially with respect to certain of our longer-lived programs for which price concessions are expected to be granted to them over an extended period of time. Moreover, we are encountering higher costs from our China-based suppliers due to materials and labor price increases that place continuing pressure on our profit margins. In certain cases, we are not able to pass these higher costs through to customers, particularly when replacement program products resemble their predecessors or historically similar products, for which customers have become accustomed to a narrow price range. Through our exclusive sourcing agent in the APAC region, we have intensified our search for alternative sources of supply to expand and diversify our manufacturing capabilities in order to mitigate this trend.

In late Fiscal 2011, we were awarded several large programs by Diabetic Products customers C and D that have contributed meaningfully to our net sales and overall product mix in Fiscal 2012. As we expected, these new programs increased our sales volume, but depressed our overall gross margin in the Fiscal 2012, as the gross margins on these programs are lower than those seen in Fiscal 2011. We expect that these new programs will continue to represent a significant portion of our overall product mix during Fiscal 2013 and anticipate that our overall gross margin for will continue to reflect this.

Our gross margin in Fiscal 2012 was also negatively impacted by a significant level of quality remediation charges, as well as transition and termination costs in respect of the restructure of our sourcing and quality operations. We believe these to be non-recurring.

Variability of Revenues and Results of Operation

Because a high percentage of our sales revenues is highly concentrated in a few large customers, and because the volumes of these customers’ order flows to us are highly variable, with short lead times, our quarterly revenues, and consequently our results of operations, are susceptible to significant variability over a relatively short period of time.

Critical Accounting Policies and Estimates

We have identified the accounting policies and significant estimation processes below as critical to our business operations and the understanding of our results of operations. The discussion below is not intended to be comprehensive. In many cases, the accounting treatment of a particular transaction is specifically dictated by accounting principles generally accepted in the United States, with no need for management’s judgment of a particular transaction. In other cases, management is required to exercise judgment in the application of accounting principles with respect to particular transactions. The impact and any associated risks related to these policies on our business operations are discussed throughout this “Management’s Discussion and Analysis of Financial Condition and Results of

Operations” where such policies affect reported and expected financial results. For a detailed discussion of the applications of these and other accounting policies, refer to Item 8. “Financial Statements and Supplementary Data” in this Annual Report. Our preparation of our consolidated financial statements requires us to make estimates and assumptions that are believed to be reasonable under the circumstances. There can be no assurance that actual results will not differ from those estimates and such differences could be significant.

Cash and Cash Equivalents

Cash and cash equivalents consist primarily of cash on deposit and highly liquid money market accounts, short-term bonds, and certificates of deposit with original contractual maturities of three months or less, predominately in U.S. dollar denominated instruments. We may purchase these short-term bonds with anticipated maturity of 90 days or less at a premium or discount. We record these investments as cash and cash equivalents net of amortization of premium or discount. We minimize our credit risk associated with cash and cash equivalents by investing in high quality instruments and by periodically evaluating the credit quality of the primary financial institution issuers of such instruments. We hold cash and cash equivalents at major financial institutions in the United States, at which cash amounts may significantly exceed FDIC insured limits. At September 30, 2012, this amount was approximately \$4.4 million. Historically, we have not experienced any losses due to such cash concentrations.

Marketable Securities

The Company has investments in marketable equity securities that are classified as available-for-sale and are recorded at fair value with the corresponding unrealized holding gains or losses, net of taxes, recorded as a separate component of "Accumulated Other Comprehensive Loss" within shareholders' equity. Unrealized losses that are determined to be other-than-temporary, based on current and expected market conditions, are recognized in earnings. The fair value of marketable securities is determined based on quoted market prices at the balance sheet dates. The cost of marketable securities sold is determined by the specific identification method.

Accounts Receivable

Accounts receivable consist of unsecured trade accounts with customers or their contract manufacturers. We perform periodic credit evaluations of its customers including an evaluation of days outstanding, payment history, recent payment trends, and perceived credit worthiness, and believes that adequate allowances for any uncollectible receivables are maintained. Credit terms to customers generally range from net thirty (30) days to net ninety (90) days. We have not historically experienced significant credit or collection problems with our OEM customers or their contract manufacturers. In addition, we maintain credit insurance that provides up to 90% coverage on trade accounts with customers in the EMEA region. At September 30, 2012, no allowance for doubtful accounts relating to our continuing operations was deemed necessary. At September 30, 2011, the allowance for doubtful accounts was approximately \$14,000.

Inventories

Inventories consist primarily of finished goods and are stated at the lower of cost (determined by the first-in, first-out method) or market. Based on management's estimates, an allowance is made to reduce excess, obsolete, or otherwise un-saleable inventories to net realizable value. The allowance is established through charges to cost of goods sold in the Company's consolidated statements of operations. As reserved inventory is disposed of, the Company charges off the associated allowance. In determining the adequacy of the allowance, management's estimates are based upon several factors, including analyses of inventory levels, historical loss trends, sales history, and projections of future sales demand. The Company's estimates of the allowance may change from time to time based on management's assessments, and such changes could be material. At September 30, 2012, the allowance for obsolete inventory of the Company's continuing operations was approximately \$99,000. At September 30, 2011, no allowance for obsolete inventory was deemed necessary.

Property and Equipment

Property and equipment consist of furniture, fixtures, and equipment and leasehold improvements and are recorded at cost. Expenditures for major additions and improvements are capitalized, and minor replacements, maintenance, and repairs are charged to expense as incurred. When property and equipment are retired or otherwise disposed of, the cost and accumulated depreciation are removed from the accounts and any resulting gain or loss is included in the results of operations for the respective period. Depreciation is provided over the estimated useful lives of the related assets using the straight-line method. The estimated useful life for furniture, fixtures and equipment ranges from three to ten years. Amortization of leasehold improvements is computed using the straight-line method over the shorter of the remaining lease term or the estimated useful lives of the improvements. For the fiscal years ended September 30, 2012 and 2011, we recorded approximately \$103,000 and \$54,000 of depreciation and amortization expense from continuing operations, respectively. Depreciation and amortization for selling and general and administrative related property and equipment is included as a component of operating expenses of continuing operations in the accompanying consolidated statements of operations.

Income Taxes

We account for income taxes in accordance with accounting principles generally accepted in the United States of America, which requires, among other things, recognition of future tax benefits and liabilities measured at enacted rates attributable to temporary differences between financial statement and income tax bases of assets and liabilities and to net tax operating loss carryforwards to the extent that realization of these benefits is more likely than not. We periodically evaluate the realizability of our net deferred tax assets. Our policy is to account for interest and penalties relating to income taxes, if any, in "income tax expense" in its consolidated statement of operations and include accrued interest and penalties within the "accrued liabilities" in its balance sheets, if applicable. For fiscal years ended September 30, 2012 and 2011, no income tax related interest or penalties were assessed or recorded.

Revenue Recognition

We generally recognize revenue from product sales to our customers when: (1) title and risk of loss are transferred (in general, these conditions occur at either point of shipment or point of destination, depending on the terms of sale); (2) persuasive evidence of an arrangement exists; (3) we have no continuing obligations to the customer; and (4) collection of the related accounts receivable is reasonably assured.

Shipping and Handling Costs

We classify shipping and handling costs (including inbound and outbound freight charges, purchasing and receiving costs, quality assurance costs, and internal transfer costs), as a component of cost of goods sold in the accompanying consolidated statements of operations.

Advertising and Promotion Costs

Advertising and promotion costs, consisting primarily of sampling related costs, are expensed as incurred. Advertising and promotion costs for continuing operations are included in selling expenses in the accompanying consolidated statements of operations and amounted to approximately \$43,000 and \$158,000 for the fiscal years ended September 30, 2012 and 2011, respectively.

Foreign Currency Transactions

The functional currency of the Company and its wholly owned foreign subsidiaries is the U.S. dollar. Foreign currency transactions may generate receivables or payables that are fixed in terms of the amount of foreign currency that will be received or paid. Fluctuations in exchange rates between such foreign currency and the functional currency increase or decrease the expected amount of functional currency cash flows upon settlement of the transaction. These increases or decreases in expected functional currency cash flows are foreign currency transaction gains or losses that are included in “other income (expense), net” in the accompanying consolidated statements of operations. The net loss from foreign currency transactions and translations for continuing operations was approximately \$55,000 and \$33,000 for the fiscal years ended September 30, 2012 and 2011, respectively.

Comprehensive Loss

We calculate comprehensive loss as the total of our net loss and all other changes in equity (other than transactions with owners), including foreign currency translation adjustments. Comprehensive loss was approximately \$(9,670,000) for the fiscal year ended September 30, 2012. We did not have any material components of comprehensive loss, other than net loss, for the fiscal year ended September 30, 2011.

Fair Value of Financial Instruments

For certain of our financial instruments, including cash and cash equivalents, accounts receivable, accounts payable, and other accrued liabilities, the carrying amount approximates fair value due to the short-term maturities of these instruments.

Share-Based Payment Expense

We recognize share-based equity compensation in our consolidated statements of operations at the grant-date fair value of stock options and other equity-based compensation. The determination of grant-date fair value is estimated using the Black-Scholes option-pricing model, which includes variables such as the expected volatility of our share price, the exercise behavior of its grantees, interest rates, and dividend yields. These variables are projected based on our historical data, experience, and other factors. Changes in any of these variables could result in material increases to the valuation of options granted in future periods and increases in the expense recognized for share-based payments. In the case of awards with multiple vesting periods, we have elected to use the graded vesting attribution method, which recognizes compensation cost on a straight-line basis over each separately vesting portion of the award as if the award was, in-substance, multiple awards. In addition, we recognize share-based compensation to non-employees based upon the fair value, using the Black-Scholes pricing model, determined at the deemed measurement dates over the related contract service period.

RESULTS OF OPERATIONS FOR FISCAL 2012 COMPARED TO FISCAL 2011**Loss from Continuing Operations**

Loss from continuing operations increased \$1.3 million to \$3.3 million in Fiscal 2012 from \$2.0 million in Fiscal 2011. The increase is primarily due to: i) decreased gross profit on a higher sales base, ii) higher sales and marketing expenses, iii) higher general and administrative expenses and, to a lesser extent, iv) changes in other (expense) income and income taxes, as reflected in the table below:

Main Components of Net Loss from Continuing Operations*(thousands of dollars)*

	Fiscal 2012	Fiscal 2011	Increase (Decrease)
Net sales.....	\$29,403	\$22,763	\$6,640
Gross profit.....	3,974	5,081	(1,107)
Sales and marketing expenses.....	(1,676)	(2,591)	(917)
General and administrative expenses	(5,562)	(4,630)	932
Other (expense) income.....	(34)	58	(92)
Income taxes expense (benefit).....	(15)	56	71
Loss from continuing operations*	\$(3,313)	\$(2,025)	1,288

* Table may not total due to rounding.

Loss from continuing operations per basic and diluted share was \$(0.41) and \$(0.25) for Fiscal 2012 and 2011, respectively.

Net Sales

Net sales increased \$6.6 million, or 29%, to \$29.4 million in the Fiscal 2012 from \$22.8 million in Fiscal 2011 due primarily to higher sales of Diabetic Products, which increased \$5.0 million, and to a lesser extent, higher sales of Other Products, which increased \$1.6 million. The tables below set forth sales by channel, product line, and geographic location of our customers for the periods indicated.

Net Sales for Fiscal 2012**(millions of dollars)**

	APAC	Americas	Europe	Total*
Diabetic products.....	\$10.6	\$5.0	\$6.1	\$21.7
Other products.....	1.0	5.6	1.1	7.7
Total net sales*	\$11.6	\$10.6	\$7.2	\$29.4

Net Sales for Fiscal 2011**(millions of dollars)**

	APAC	Americas	Europe	Total*
Diabetic products.....	\$9.1	\$2.6	\$5.0	\$16.7
Other products.....	1.4	3.8	0.9	6.1
Total net sales*	\$10.4	\$6.4	\$5.9	\$22.8

* Tables may not total due to rounding.

Diabetic Product Sales

We design to the order of, and sell carrying cases for blood glucose diagnostic kits directly to, OEMs (or their contract manufacturers). The OEM customer or its contract manufacturer packages our carry cases “in box” as a custom accessory for the OEM’s blood glucose testing and monitoring kits, or to a lesser extent, sell them through their retail distribution channels.

Sales of Diabetic products increased \$5.0 million, or 30%, to \$21.7 million in Fiscal 2012, from \$16.7 million in Fiscal 2011. This increase was primarily due to the addition of a new major Diabetic Products customer in Fiscal 2012, and to higher sales to our largest long-standing Diabetic Products customer.

The following table sets forth our sales by Diabetic Products customer for the periods indicated.

(millions of dollars)

	Fiscal 2012	Fiscal 2011	Increase (Decrease)
Diabetic Customer A.....	\$9.7	\$8.4	\$1.3
Diabetic Customer B.....	3.7	3.7	0.0

Edgar Filing: FORWARD INDUSTRIES INC - Form 10-K

Diabetic Customer C.....	4.6	3.7	0.9
Diabetic Customer D.....	2.4	--	2.4
All other Diabetic Product Customers.....	1.3	0.8	0.5
Totals*	\$21.7	\$16.7	\$5.0

* Table may not total due to rounding.

Sales of Diabetic Products represented 74% of our total net sales in Fiscal 2012 compared to 73% of our total net sales in Fiscal 2011.

Other Product Sales

We design and sell cases and protective solutions to OEMs for a diverse array of portable electronic devices (such as smartphones, tablets, GPS devices, and bar code scanners), as well as a variety of other products (such as firearms, sporting, and other recreational products) on a made-to-order basis that are customized to fit the products sold by our OEM customers.

Sales of Other products increased \$1.6 million, or 26%, to \$7.7 million in Fiscal 2012 from \$6.1 million in Fiscal 2011. This increase was primarily due to higher sales to two existing customers, as well as contributions from two new customers added in Fiscal 2012. With regard to the two existing customers, sales to a sporting and recreational products customer increased \$0.9 million to \$1.5 million in Fiscal 2012, whereas sales to a long-standing cellular customer increased \$0.6 million to \$1.2 million in Fiscal 2012. With regard to the two new customers added in Fiscal 2012, a tablet customer contributed \$0.6 million of sales, whereas a personal computer/laptop customer contributed \$0.4 million of sales, which we believe to be non-reoccurring. In addition, in Fiscal 2011, we sold \$0.4 million of products to Flash Ventures, Inc. (refer to Note 5 – Notes Receivable in the Notes to Financial Statements), under their brand, which we considered as non-recurring business. Smaller changes in a number of Other Products customers largely offset each other, none of which changes individually was material.

Sales of Other Products represented 26% of our net sales in Fiscal 2012 compared to 27% of our total net sales in Fiscal 2011.

Gross Profit

Gross profit decreased \$1.1 million, or 22%, to \$4.0 million in Fiscal 2012 from \$5.1 million in Fiscal 2011. As a percentage of sales, our gross profit declined to 14% in Fiscal 2012 from 22% in Fiscal 2011. This decline was driven primarily by our Diabetic Products business, and in particular, factors specific to three major Diabetic customers, as discussed more fully below:

- Net Sales to Diabetic Customer B were \$3.7 million in both Fiscal 2012 and 2011; however, price concessions granted on two larger, longer-lived programs, combined with increases in materials, labor, and other production costs passed on to us from our suppliers, compressed our gross margins on such programs and decreased our total gross margin for this Diabetic Customer by approximately 6%.
- Our total unit sales to Diabetic Customer C increased 28% in Fiscal 2012 from Fiscal 2011; however, our average sales price in respect of several new and replacement programs are significantly lower than the average sales price of their predecessor programs in Fiscal 2011. In addition, our average cost for such new and replacement programs have also increased, partly as a result of product mix, and partly as a result of a general increase in materials, labor, and other production costs that we our suppliers are passing on to us.
- Several large programs that were recently awarded to us by Diabetic Customer D, contributed \$2.4 million to our net sales in Fiscal 2012; however, as expected, gross margins on these new programs are significantly lower than the average gross margins we realized from our other major Diabetic Products customers in Fiscal 2011. Consequently, these new programs had the effect of depressing our total gross margin in Fiscal 2012.
- In the third quarter of Fiscal 2012, we experienced quality issues with Diabetic Customers B and C. As a result, during the second half of Fiscal 2012, we incurred significantly higher levels of inspection, warehousing, handling, and freight costs in remediating these quality issues, which negatively impacted our gross profit margin by approximately 3% in Fiscal 2012.

In March 2012, we initiated a restructuring plan with respect to our Asia-based sourcing and quality assurance operations (refer to Note 14 - “Buying Agency and Supply Agreement” to our consolidated financial statements). As a result of such restructuring, in the second half of Fiscal 2012, service fees incurred in respect of our Buying Agency and Supply Agreement were significantly lower than the costs of maintaining our legacy Asia-based sourcing and quality assurance operations in prior reporting periods. However, the benefit of this lower cost agency arrangement to our gross profit in Fiscal 2012 was offset by one-time costs incurred to implement such arrangement and exit our legacy operations (refer to Note 14 – Buying Agency and Supply Agreement to our consolidated financial statements).

Sales and Marketing Expenses

Sales and marketing expenses decreased \$0.9 million, or 35%, to \$1.7 million in Fiscal 2012 compared to \$2.6 million in Fiscal 2011 due primarily to the following:

- \$0.6 million decrease in personnel expense resulting from the restructure of our sales, marketing, and product development team, as well as the recovery of share-based compensation expense from stock option forfeitures.
- \$0.2 million decrease in travel and entertainment expenses resulting from reduced travel and entertainment activities by our restructured and scaled down sales and design team during Fiscal 2012, as well as our reinforcement of cost controls and policies relative to travel and entertainment.
- \$0.1 million decrease in advertising and promotion costs resulting primarily from narrowing our focus on supporting our core customer base.

Lesser fluctuations in other components of sales and marketing expenses were immaterial.

General and Administrative Expenses

General and administrative expenses increased \$0.9 million, or 20%, to \$5.6 million in Fiscal 2012 from \$4.6 million in Fiscal 2011 due primarily to the following:

- \$0.7 million increase in professional fees resulting primarily from: i) \$0.7 million in higher legal and litigation settlement costs; and ii) \$0.3 million in consulting fees, expense reimbursements, and equity compensation paid to our Chief Executive Officer prior to his appointment to such position while serving as a strategic consultant to the Company (refer to “Employment Agreements” under Note 12 – Commitments and Contingencies to our consolidated financial statements). These increases were offset, in part, by a \$0.2 million reduction in accounting fees and investment banking fees.
- \$0.4 million increase in personnel costs resulting primarily from: i) the restructuring and expansion of our finance and information technology departments; ii) the hire of an executive officer (refer “Employment Agreements” under Note 12 – Commitments and Contingencies to our consolidated financial statements); and iii) relocation bonuses awarded to certain personnel, including an executive officer (refer to Note 12 –Employment Agreements in Notes to Financial Statements).
- \$78 thousand increase in occupancy costs resulting from higher rent and related expense incurred in occupying the Company’s executive offices in Santa Monica, California throughout Fiscal 2012 compared to a portion of Fiscal 2011, prior to which we occupied lower cost executive offices in Pompano Beach, Florida.

These increases in general and administrative expenses were offset, in part, by a \$0.2 million decrease in office expenses resulting from lower computer and postage expenses; and a \$0.1 million decrease in public costs resulting from i) lower meeting fees; ii) lower share-based compensation to directors; and iii) lower filing and stock transfer agent fees. Lesser fluctuations in other components of general and administrative expenses were immaterial.

Other Income (Expense)

Other income (expense), consisting of interest income on cash and cash equivalent balances and short-term notes receivable (refer to Note 5 – Notes Receivable in Notes to Financial Statements), as well as foreign currency transaction gains and losses, declined \$92 thousand, to \$34 thousand of expense in Fiscal 2012 from \$58 thousand of income in the 2011. This resulted primarily from a \$48 thousand decline in interest income and increases in foreign currency losses and other expenses of \$44 thousand in the aggregate.

RESULTS OF DISCONTINUED OPERATIONS FOR FISCAL 2012 COMPARED TO FISCAL 2011

On June 21, 2012, we determined to exit our global Retail business and focus solely on growing our OEM business. The decision to eliminate the Retail division was primarily driven by the longer than estimated path to bring it to profitability and the strong top line growth and cost rationalizations in the OEM business. Accordingly, the results of operations for the Retail division have been recorded as discontinued operations in the accompanying consolidated financial statements for the fiscal years presented.

Loss from Discontinued Operations

Loss from discontinued operations increased \$5.4 million to \$6.3 million in Fiscal 2012 from \$0.9 million in Fiscal 2011. The increase is due to a \$1.9 million gross loss and a \$3.5 million increase in operating expenses. Loss from discontinued operations per basic and diluted share was \$(0.78) and \$(0.11) for Fiscal 2012 and 2011, respectively.

Net Sales

Net sales from discontinued operations of \$2.2 million in Fiscal 2012 resulted from first time sales of Retail Products to several new customers in the Americas and EMEA regions, which were net of sales returns, discounts, and price protection of \$2.8 million. Sales from discontinued operations in Fiscal 2011 were 14 thousand.

Gross Loss

We realized a gross loss on sales from discontinued operations of \$1.9 million in Fiscal 2012 primarily as a result of a provision charges of \$2.8 million in sales returns, discounts, and price protection (referred to above); \$0.7 million to write down inventory to net realizable value; and \$0.2 million to write-off forfeited advances made to suppliers. Gross loss from discontinued operations in Fiscal 2011 was 4 thousand.

Operating Expenses

Operating expenses of discontinued operations were \$4.4 million in Fiscal 2012 compared to \$0.9 million in Fiscal 2011. This increase was due primarily to higher personnel expenses, which increased \$2.6 million in Fiscal 2012; and to a lesser extent, increases in travel and entertainment expenses, royalties and commissions, and occupancy costs of \$0.2 million, \$0.2 million, and \$0.1 million, respectively. Lesser fluctuations in other components of operating expenses were immaterial.

Other Expense

Other expense of discontinued operations, consisting primarily of foreign currency losses, was \$68 thousand of expense in Fiscal 2012. There was no operating income (expense) from discontinued operations in Fiscal 2011.

LIQUIDITY AND CAPITAL RESOURCES

During Fiscal 2012, we used \$10.8 million of cash in operations, which consisted of a net loss of \$9.6 million, adjusted by \$1.3 million for non-cash items (primarily write-downs of retail inventory), and a net use in working capital items of \$2.4 million. As to working capital items, cash used in operating activities consisted of increases in accounts receivable and inventories of \$3.7 million and \$3.5 million, respectively. These changes were offset, in part, by increases in accounts payable and accrued expenses and other current liabilities of \$3.0 million and \$1.3 million, respectively; and a decrease in prepaid and other current assets of \$0.4 million. The increase in accounts receivable was primarily due to the timing and higher volume of sales recorded in the three-month period ended September 30, 2012 Quarter compared to the three-month period ended September 30, 2011. The increases in inventories and accounts payable are due to higher materials purchases made in the three-month period ended September 30, 2012 in support of sales orders received from our customers, compared to the three month-period ended September 30, 2011. The decrease in prepaid and other current assets is due primarily to utilization of advances made to a prospective joint venture partner (refer to “Binding Memorandum of Understanding” in Note 13 – in our Notes to Consolidated Financial Statements) and amortization of annual general casualty insurance premiums. The increase in accrued expenses and other current liabilities is primarily due to receipts of inventory from our suppliers; and incurrence of third party inspection services and professional fees, for which we had not yet received invoices as of September 30, 2012.

During Fiscal 2011, we used \$1.8 million of cash in operations consisting of a net loss of \$2.9 million, reduced by \$0.5 million for non-cash items, and increased by net changes in working capital items of \$0.6 million. As to working capital items, cash increased primarily as a result of a decrease in accounts receivable of \$0.7 million and an increase in accounts payable of \$0.5 million. These changes were offset, in part, by a decrease in accrued expenses and other current liabilities of \$0.3 million and an increase in prepaid expenses of \$0.3 million.

In Fiscal 2012, net investing activities generated \$0.5 million of cash, which consisted of \$1.0 million in payments received on a loan made to Flash Ventures, Inc. (refer to Note 5 – Notes Receivable in our Notes to Financial Statements), purchases of marketable equity securities of \$0.4 million, and purchases of property and equipment, primarily computer and telecommunications hardware and software, of \$72 thousand. In Fiscal 2011, net investing activities used \$1.8 million of cash, primarily in short-term loans of \$1.5 million made to prospective strategic partners (refer to Note 5 – Notes Receivable in our Notes to Financial Statements), and to a lesser extent, in purchases of \$0.3 million of property and equipment, primarily computer and telecommunications hardware and software.

There were no financing activities in Fiscal 2012 and 2011.

At September 30, 2012, our current ratio (current assets divided by current liabilities) was 2.15; our quick ratio (current assets less inventories divided by current liabilities) was 1.67; and our working capital (current assets less current liabilities) was \$9.1 million. As of such date, we had no short or long-term debt outstanding.

Our primary source of liquidity is our cash and cash equivalents on hand. The primary demands on our working capital currently are: i) operating losses, should they occur, and ii) accounts payable arising in the ordinary course of business, the most significant of which arise when we order products from our suppliers. Historically, our sources of liquidity have been adequate to satisfy working capital requirements arising in the ordinary course of business. We anticipate that our liquidity and financial resources for the next twelve months will be adequate to manage our operating and financial requirements. We expect to substantially complete our exit of our retail business by January 31, 2013 and do not expect to have any continuing involvement in the retail business after this date. We anticipate an additional loss from discontinued operations of approximately \$0.2 million to \$0.4 million, which we anticipate incurring between October 2012 and January 2013.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Not applicable

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

The consolidated financial statements and notes thereto included in this Annual Report may be found at pages 32 to 54 of this Annual Report on Form 10-K.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None

ITEM 9A. CONTROLS AND PROCEDURES

Our management is responsible for establishing and maintaining a system of disclosure controls and procedures (as defined in Rule 13a-15(e) under the Exchange Act) that is designed to ensure that information required to be disclosed by the Company in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the Commission's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by an issuer in the reports that it files or submits under the Exchange Act is accumulated and communicated to the issuer's management, including its principal executive officer or officers and principal financial officer or officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

In accordance with Exchange Act Rule 13a-15(b), our management, under the supervision and with the participation of our Principal Executive Officer and Principal Financial Officer, performed an evaluation of the effectiveness of the Company's disclosure controls and procedures as of the end of the period covered by this Report (the fourth quarter of the Fiscal year ended September 30, 2012, in the case of this Annual Report on Form 10-K). Based on that evaluation, the Company's Principal Executive Officer and Principal Financial Officer concluded that the Company's disclosure controls and procedures were effective, as of the end of the period covered by this Report (the fourth quarter of the Fiscal year ended September, 30, 2012, in the case of this Annual Report on Form 10-K), to provide reasonable assurance that information required to be disclosed in the Company's reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Commission's rules and forms.

Management's Report on Internal Control Over Financial Reporting

Our Principal Executive Officer and our Principal Financial Officer are responsible for establishing and maintaining adequate internal control over financial reporting. Internal control over financial reporting is defined in Rule 13a-15(f) and 15d-15(f) under the Exchange Act as a process designed by, or under the supervision of, our principal executive and principal financial officers and effected by our board of directors, management and other personnel, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external reporting purposes in accordance with generally accepted accounting principles and includes those policies and procedures that:

- ◆ pertain to the maintenance of records that in reasonable detail accurately and fairly reflect the transactions and dispositions of our assets;
- ◆ provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with U.S. generally accepted accounting principles, and that our receipts and expenditures are being made only in accordance with authorizations of management and our directors; and
- ◆ provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of our assets that could have a material effect on the financial statements.

Because of its inherent limitations, our internal control over financial reporting may not prevent or detect misstatements. Therefore, even those systems determined to be effective can provide only reasonable assurance with respect to financial statement preparation and presentation. Projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Our Principal Executive Officer and our Principal Financial Officer assessed the effectiveness of our internal control over financial reporting as of September 30, 2012. In making this assessment, management used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission ("COSO") in Internal Control — Integrated Framework.

Based on this assessment, our Principal Executive Officer and our Principal Financial Officer believe that, as of September 30, 2012, our internal control over financial reporting is effective based on those criteria.

This annual report does not include an attestation report of the Company's independent registered public accounting firm regarding internal control over financial reporting. Management's report was not subject to attestation by the Company's independent registered public accounting firm pursuant to rules of the Securities and Exchange Commission that permit the Company to provide only management's report in this Annual Report.

This report shall not be deemed to be filed for purposes of Section 18 of the Exchange Act or otherwise subject to the liabilities of that section, unless the registrant specifically states that the report is to be considered “filed” under the Exchange Act or incorporates it by reference into a filing under the Securities Act or the Exchange Act.

Changes in Internal Control

Our management, with the participation of our Principal Executive Officer and Principal Financial Officer, performed an evaluation required by Rule 13a-15(d) of the Exchange Act as to whether any change in our internal control over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act) occurred during the last Fiscal quarter of the Fiscal year ended September 30, 2012. Based on that evaluation, our Principal Executive Officer and our Principal Financial Officer concluded that no change occurred in the Company's internal control over financial reporting during the last Fiscal quarter of the Fiscal year ended September 30, 2012 that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

ITEM 9B. OTHER INFORMATION

None

PART III

ITEM 10. DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE

The information required by this item regarding directors and executive officers is incorporated to this Annual Report on Form 10-K by reference to our Definitive Proxy Statement to be filed with the Securities and Exchange Commission not later than January 28, 2013, in connection with our Annual Meeting of Stockholders (the “2012 Proxy Statement”) under the headings “Election of Directors”, “Structure and Practices of the Board of Directors”, and “Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters;—Section 16(a) Beneficial Ownership Reporting Compliance”. Information regarding executive officers is also incorporated to this Annual Report on Form 10-K by reference to the 2012 Proxy Statement under the caption “Executive Officers.” The information required by this item relating to Corporate Governance, including Code of Ethics, is incorporated to this Annual Report on Form 10-K by reference to the 2012 Proxy Statement under the heading “Structure and Practices of the Board of Directors.”

ITEM 11. EXECUTIVE COMPENSATION

The information required by this item is incorporated to this Annual Report on Form 10-K by reference to the 2012 Proxy Statement under the heading “Executive Compensation and Related Information.”

ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS

The information required by this item is incorporated to this Annual Report on Form 10-K by reference to the 2012 Proxy Statement under the headings “Executive Compensation and Related Information—Securities Authorized for Issuance Under Equity Compensation Plans” and “Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters.”

ITEM 13. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS, AND DIRECTOR INDEPENDENCE

The information required by this item is incorporated to this Annual Report on Form 10-K by reference to the 2012 Proxy Statement under the headings “Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters—Certain Relationships, Director Independence, and Related Transactions” and “Structure and Practices of the Board of Directors;—Board of Directors and Director Independence.”

ITEM 14. PRINCIPAL ACCOUNTANT FEES AND SERVICES

The information required by this item is incorporated to this Annual Report on Form 10-K by reference to the 2012 Proxy Statement under the heading “Matters Relating to Independent Registered Public Accountants;—Principal Accountant Fees and Services.”

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors and Shareholders of Forward Industries, Inc.

We have audited the accompanying consolidated balance sheets of Forward Industries, Inc. and Subsidiaries as of September 30, 2012 and 2011, and the related consolidated statements of operations, shareholders' equity and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Forward Industries, Inc. and Subsidiaries as of September 30, 2012 and 2011, and their results of operations and cash flows for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

FORWARD INDUSTRIES, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 OVERVIEW

Forward Industries, Inc. was incorporated under the laws of the State of New York and began operations in 1961 as a manufacturer and distributor of specialty and promotional products. The Company designs, markets, and distributes carry and protective solutions, primarily for hand held electronic devices. The Company's principal customer market is original equipment manufacturers, or "OEMs" (or the contract manufacturing firms of these OEM customers), that either package its products as accessories "in box" together with their branded product offerings, or sell them through their retail distribution channels. The Company's OEM products include carrying cases and other accessories for medical monitoring and diagnostic kits and a variety of other portable electronic and non-electronic products (such as sporting & recreational products, bar code scanners, smartphones, GPS & location devices, tablets, and firearms,). The Company's OEM customers are located in the Americas, the EMEA Region, and the APAC Region. The Company does not manufacture any of its OEM products and sources substantially all of its OEM products from independent suppliers in China (refer to Note 14 – Buying Agency and Supply Agreement).

On June 21, 2012, the Company determined to exit its global retail business and focus solely on growing its OEM business. The decision to eliminate the retail division was primarily driven by the longer than estimated path to bring it to profitability and the strong top line growth and cost rationalizations in the OEM business.

NOTE 2 ACCOUNTING POLICIES

Accounting Estimates

The preparation of the Company's consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates and assumptions.

Basis of Presentation

The accompanying consolidated financial statements include the accounts of Forward Industries, Inc. ("Forward") and its wholly owned subsidiaries (Forward US, Forward Switzerland, Forward HK, Forward APAC, and Forward UK). All significant intercompany transactions and balances have been eliminated in consolidation.

Reclassifications

Certain prior period amounts have been reclassified, in addition to discontinued operations as disclosed in Note 3, to conform to the current period presentation.

Cash and Cash Equivalents

Cash and cash equivalents consist primarily of cash on deposit and highly liquid money market accounts, short-term bonds, and certificates of deposit with original contractual maturities of three months or less, predominately in U.S. dollar denominated instruments. The Company may purchase these short-term bonds with anticipated maturity of 90 days or less at a premium or discount. The Company records these investments as cash and cash equivalents net of

amortization of premium or discount. The Company minimizes its credit risk associated with cash and cash equivalents by investing in high quality instruments and by periodically evaluating the credit quality of the primary financial institution issuers of such instruments. The Company holds cash and cash equivalents at major financial institutions in the United States, at which cash amounts may significantly exceed FDIC insured limits. At September 30, 2012, this amount was approximately \$4.4 million. Historically, the Company has not experienced any losses due to such cash concentrations.

NOTE 2 ACCOUNTING POLICIES (CONTINUED)

Marketable Securities

The Company has investments in marketable equity securities that are classified as available-for-sale and are recorded at fair value with the corresponding unrealized holding gains or losses, net of taxes, recorded as a separate component of "Accumulated Other Comprehensive Loss" within shareholders' equity. Unrealized losses that are determined to be other-than-temporary, based on current and expected market conditions, are recognized in earnings. The fair value of marketable securities is determined based on quoted market prices at the balance sheet dates. The cost of marketable securities sold is determined by the specific identification method.

Accounts Receivable

Accounts receivable consist of unsecured trade accounts with customers or their contract manufacturers. The Company performs periodic credit evaluations of its customers including an evaluation of days outstanding, payment history, recent payment trends, and perceived credit worthiness, and believes that adequate allowances for any uncollectible receivables are maintained. Credit terms to customers generally range from net thirty (30) days to net ninety (90) days. The Company has not historically experienced significant credit or collection problems with its OEM customers or their contract manufacturers. In addition, the Company maintains credit insurance that provides up to 90% coverage on trade accounts with customers in the EMEA region. At September 30, 2012, no allowance for doubtful accounts relating to the Company's continuing operations was deemed necessary. At September 30, 2011, the allowance for doubtful accounts was approximately \$14,000.

Inventories

Inventories consist primarily of finished goods and are stated at the lower of cost (determined by the first-in, first-out method) or market. Based on management's estimates, an allowance is made to reduce excess, obsolete, or otherwise un-saleable inventories to net realizable value. The allowance is established through charges to cost of goods sold in the Company's consolidated statements of operations. As reserved inventory is disposed of, the Company charges off the associated allowance. In determining the adequacy of the allowance, management's estimates are based upon several factors, including analyses of inventory levels, historical loss trends, sales history, and projections of future sales demand. The Company's estimates of the allowance may change from time to time based on management's assessments, and such changes could be material. At September 30, 2012, the allowance for obsolete inventory of the Company's continuing operations was approximately \$99,000. At September 30, 2011, no allowance for obsolete inventory was deemed necessary.

Property and Equipment

Property and equipment consist of furniture, fixtures, and equipment and leasehold improvements and are recorded at cost. Expenditures for major additions and improvements are capitalized, and minor replacements, maintenance, and repairs are charged to expense as incurred. When property and equipment are retired or otherwise disposed of, the cost and accumulated depreciation are removed from the accounts and any resulting gain or loss is included in the results of operations for the respective period. Depreciation is provided over the estimated useful lives of the related assets using the straight-line method. The estimated useful life for furniture, fixtures and equipment ranges from three to ten years. Amortization of leasehold improvements is computed using the straight-line method over the shorter of the remaining lease term or the estimated useful lives of the improvements. For the fiscal years ended September 30, 2012 and 2011, the Company recorded approximately \$103,000 and \$54,000 of depreciation and amortization expense from

continuing operations, respectively.

NOTE 2 ACCOUNTING POLICIES (CONTINUED)

Income Taxes

The Company accounts for its income taxes in accordance with accounting principles generally accepted in the United States of America, which requires, among other things, recognition of future tax benefits and liabilities measured at enacted rates attributable to temporary differences between financial statement and income tax bases of assets and liabilities and to net tax operating loss carryforwards to the extent that realization of these benefits is more likely than not. The Company periodically evaluates the realizability of its net deferred tax assets. See Note 10 to these Notes to Consolidated Financial Statements. The Company's policy is to account for interest and penalties relating to income taxes, if any, in "income tax expense" in its consolidated statements of operations and include accrued interest and penalties within the "accrued liabilities" in its balance sheets, if applicable. For fiscal years ended September 30, 2012 and 2011, no income tax related interest or penalties were assessed or recorded.

Revenue Recognition

The Company generally recognizes revenue from product sales to its customers when: (1) title and risk of loss are transferred (in general, these conditions occur at either point of shipment or point of destination, depending on the terms of sale); (2) persuasive evidence of an arrangement exists; (3) the Company has no continuing obligations to the customer; and (4) collection of the related accounts receivable is reasonably assured.

Shipping and Handling Costs

The Company classifies shipping and handling costs (including inbound and outbound freight charges, purchasing and receiving costs, inspection costs, warehousing costs, internal transfer costs, and other costs associated with the Company's Asia-based distribution capability, as a component of cost of goods sold in the accompanying consolidated statements of operations.

Advertising and Promotion Costs

Advertising and promotion costs, consisting primarily of samples and tradeshow costs, are expensed as incurred. Advertising and promotion costs for continuing operations are included in selling expenses in the accompanying consolidated statements of operations and amounted to approximately \$43,000 and \$158,000 for the fiscal years ended September 30, 2012 and 2011, respectively.

Foreign Currency Transactions

The functional currency of the Company and its wholly owned foreign subsidiaries is the U.S. dollar. Foreign currency transactions may generate receivables or payables that are fixed in terms of the amount of foreign currency that will be received or paid. Fluctuations in exchange rates between such foreign currency and the functional currency increase or decrease the expected amount of functional currency cash flows upon settlement of the transaction. These increases or decreases in expected functional currency cash flows are foreign currency transaction gains or losses that are included in "other income (expense), net" in the accompanying consolidated statements of operations. The net loss from foreign currency transactions and translations for continuing operations was approximately \$55,000 and \$37,000 for the fiscal years ended September 30, 2012 and 2011, respectively.

Accumulated Other Comprehensive Loss

Accumulated other comprehensive loss, which is included as a component of Shareholders' Equity, includes unrealized gains or losses on available-for-sale securities and currency translation adjustments related to the Company's foreign subsidiaries.

NOTE 2 ACCOUNTING POLICIES (CONTINUED)

Fair Value of Financial Instruments

The Company records its financial instruments that are accounted for under Accounting Standard Codification (“ASC”) 320, “Investments-Debt and Equity Securities” (“ASC 320”) at fair value. The determination of fair value is based upon the fair value framework established by ASC 820. ASC 820 provides that a fair value measurement assumes that the transaction to sell an asset or transfer a liability occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market for the asset or liability. The fair value hierarchy is broken down into three levels based on the source of inputs as follows: (a) Level 1 – valuations based on unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities; (b) Level 2 – valuations based on quoted prices in markets that are not active, or financial instruments for which all significant inputs are observable; either directly or indirectly; and (c) Level 3 – valuations based on prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable; thus, reflecting assumptions about the market participants.

Share-Based Payment Expense

The Company recognizes share-based equity compensation in its consolidated statements of operations at the grant-date fair value of stock options and other equity-based compensation. The determination of grant-date fair value is estimated using the Black-Scholes option-pricing model, which includes variables such as the expected volatility of the Company’s share price, the exercise behavior of its grantees, interest rates, and dividend yields. These variables are projected based on the Company’s historical data, experience, and other factors. Changes in any of these variables could result in material increases to the valuation of options granted in future periods and increases in the expense recognized for share-based payments. In the case of awards with multiple vesting periods, the Company has elected to use the graded vesting attribution method, which recognizes compensation cost on a straight-line basis over each separately vesting portion of the award as if the award was, in-substance, multiple awards. Refer to Note 9 Share-Based Compensation. In addition, the Company recognizes share-based compensation to non-employees based upon the fair value, using the Black-Scholes pricing model, determined at the deemed measurement dates over the related contract service period.

Recent Accounting Pronouncements

In June 2011, the Financial Accounting Standards Board (“FASB”) issued ASU No. 2011-05, Comprehensive Income (Topic 220) – Presentation of Comprehensive Income (“ASU 2011-05”). This update requires that the components of net income, the components of other comprehensive income and the total of comprehensive income be presented as a single continuous financial statement or in two separate but consecutive statements. The option of presenting other comprehensive income in the statement of stockholders’ equity is eliminated. This update also requires the presentation on the face of the financial statements of reclassification adjustments for items that are reclassified from other comprehensive income to net income in the statements where the components of net income and the components of other comprehensive income are presented. In December 2011, the FASB issued ASU 2011-12, which deferred the guidance on whether to require entities to present reclassification adjustments out of accumulated other comprehensive income by component in both the statement where net income is presented and the statement where other comprehensive income is presented for both interim and annual financial statements. ASU 2011-12 reinstated the requirements for the presentation of reclassifications that were in place prior to the issuance of ASU 2011-05 and

did not change the effective date for ASU 2011-05. For public entities, the amendments in ASU 2011-05 and ASU 2011-12 are effective for fiscal years, and interim periods within those years, beginning after December 15, 2011, and should be applied retrospectively. The adoption of this guidance for the fiscal year ended September 30, 2012 concerned disclosure only and did not have an impact on the Company's consolidated financial position or results of operations.

NOTE 3 DISCONTINUED OPERATIONS

On June 21, 2012, the Company determined to exit its global retail business and focus solely on growing its OEM business. The decision to eliminate the retail division was primarily driven by the longer than estimated path to bring it to profitability and the strong top line growth and cost rationalizations in the OEM business.

NOTE 3 DISCONTINUED OPERATIONS (CONTINUED)

Accordingly, the results of operations for the retail division have been recorded as discontinued operations in the accompanying consolidated financial statements for the fiscal years presented. During the fiscal year ended September 30, 2012, total discontinued operations include charges of \$2.8 million in sales returns, discounts, and price protection (referred to above); \$0.6 million to write down inventory to net realizable value; and \$0.2 million to write-off forfeited advances made to suppliers.

Summarized operating results of discontinued operations are presented in the following table:

	Fiscal Year Ended September 30,	
	2012	2011
Net sales.....	\$2,199,008	\$13,760
Gross loss.....	(1,896,864)	(4,350)
Operating expenses.....	(4,356,402)	(870,711)
Other expense.....	(67,702)	(7)
Loss from discontinued operations.....	\$(6,320,968)	\$(875,068)

Summarized assets and liabilities of discontinued operations are presented in the following table:

	September 30,	September 30,
	2012	2011
Accounts receivable, net.....	\$26,186	\$ --
Inventory, net.....	350,942	31,024
Prepaid assets and other current assets.....	244,751	640,219
Note receivable.....	--	1,000,000
Total assets of discontinued operations.....	\$621,879	\$1,671,243
Accounts payable.....	\$45,874	\$160,300
Accrued liabilities.....	215,932	164,035
Total liabilities of discontinued operations.....	\$261,806	\$324,335

The Company expects to substantially complete its exit of its retail business by January 31, 2013 and does not expect to have any continuing involvement in the retail business after this date. The Company anticipates an additional loss from discontinued operations of approximately \$0.2 million to \$0.4 million, which the Company anticipates incurring between October 2012 and January 2013.

NOTE 4 MARKETABLE SECURITIES

The Company accounts for its marketable securities in accordance with ASC 320. Accordingly, the Company classifies its marketable securities as either (i) held-to-maturity, (ii) trading, or (iii) available-for-sale. The Company's investments in marketable equity securities are classified as available-for-sale, which are recorded at fair value as determined by quoted market price, which is Level 1 input, as established by the fair value hierarchy under ASC 820. The corresponding unrealized holding gains or losses, net of taxes, recorded as a separate component of the Accumulated Other Comprehensive Loss within shareholders' equity. Unrealized losses that are determined to be other-than-temporary, based on current and expected market conditions, are recognized in earnings. The Company's marketable equity securities are summarized in the table below:

	September 30, 2012	September 30, 2011
Cost	\$444,349	\$--
Unrealized loss.....	(23,744)	--
Fair value.....	\$420,605	\$--

NOTE 5 NOTES RECEIVABLE

On January 5, 2011, the Company entered into a loan agreement with Flash Ventures, Inc. ("Flash"), an unrelated party, to provide a credit facility of up to \$1,000,000 that was originally due December 1, 2011. Pursuant to the agreement Flash, executed an unsecured, unsubordinated term note in favor of the Company, bearing interest at 11% per annum on any unpaid principal, payable quarterly commencing March 31, 2011. On January 6, 2011 and January 19, 2011, Flash drew \$600,000 and \$400,000, respectively, in funds under the note, leaving no further funding available. Effective December 1, 2011, the terms of the loan were amended to, among other things, extend the maturity date to April 1, 2012 and provide the Company with a security interest and lien on all of Flash's assets. In connection with such amendment, Flash made a principal payment of \$250,000 on December 1, 2011. Effective March 30, 2012, the terms of the loan were further amended to, among other things, extend the maturity date to June 1, 2012. In connection with such second amendment, Flash made a principal payment of \$150,000 on March 30, 2012. On May 14, 2012, Flash paid the remaining principal balance of \$600,000 and satisfied the loan in full. The Company recorded approximately \$449,000 in sales to Flash under its customary terms of sale during the fiscal year ended September 30, 2011.

NOTE 6 PROPERTY AND EQUIPMENT

Property and equipment and related accumulated depreciation and amortization of continuing operations are summarized in the table below:

	September 30, 2012	2011
Furniture, fixtures and equipment.....	\$397,049	\$940,819
Leasehold improvements.....	57,833	188,492
Property and equipment, cost.....	454,882	1,129,311
Less accumulated depreciation and amortization.....	(316,108)	(827,153)
Property and equipment, net.....	\$138,774	\$302,158

NOTE 7 ACCRUED EXPENSES AND OTHER CURRENT LIABILITIES

Accrued expenses and other current liabilities of continuing operations are summarized in the table below:

	September 30,	
	2012	2011
Personnel costs.....	\$507,269	\$394,425
Professional fees.....	297,060	4,355
Due to customers.....	581,343	--
Taxes.....	47,256	19,152
Other.....	292,257	48,063
Accrued expenses and other current liabilities.....	\$1,725,185	\$465,995

NOTE 8 SHAREHOLDERS' EQUITY**Anti-takeover Provisions**

The Company is authorized to issue up to 4,000,000 shares of "blank check" preferred stock. The Board of Directors has the authority and discretion, without shareholder approval, to issue preferred stock in one or more series for any consideration it deems appropriate, and to fix the relative rights and preferences thereof including their redemption, dividend and conversion rights.

NOTE 9 SHARE BASED COMPENSATION**2011 Long Term Incentive Plan**

In March 2011, shareholders of the Company approved the 2011 Long Term Incentive Plan (the "2011 Plan"), which authorizes 850,000 shares of common stock for grants of various types of equity awards to officers, directors, employees, consultants, and independent contractors. Under the 2011 Plan, as of September 30, 2012, the Compensation Committee of the Company's Board of Directors (the "Compensation Committee") has approved awards of stock options to purchase an aggregate of 965,000 shares of common stock to certain of the Company's executive officers and employees (730,000 shares), a consultant (160,000 shares), non-employee directors (70,000 shares), and to a non-employee executive officer (5,000 shares). Of these awards, as of September 30, 2012, 365,500 shares were forfeited and reverted to, and are eligible for re-grant under, the 2011 Plan. The total shares of common stock available for grants of equity awards under the 2011 Plan was 250,500 as of September 30, 2012. The prices at which equity awards may be granted and the exercise prices of stock options granted may not be less than the fair market value of the common stock as quoted at the close on the Nasdaq Stock Market on the grant date. The Compensation Committee administers the plan. Options generally expire ten years after the date of grant and vest one year from the date of grant for non-employee directors, and, in the case of initial grants to officers and employees, vest over five years with 50%, 25% and 25% vesting on the third, fourth, and fifth anniversary of the grant date, respectively. Options granted under a consulting agreement in November 2011 expire three years after the grant date and vested equally over the term of the consulting agreement, which concluded February 29, 2012.

NOTE 9 SHARE BASED COMPENSATION (CONTINUED)**2007 Equity Incentive Plan**

The 2007 Equity Incentive Plan (the “2007 Plan”), which was approved by shareholders of the Company in May 2007, and, as amended, in February 2010, authorizes an aggregate of 800,000 shares of common stock for grants of restricted common stock and stock options to officers, employees, and non-employee directors of the Company. Under the 2007 Plan, the Compensation Committee of the Company’s Board of Directors approved awards of restricted common stock and stock options of 836,000, in the aggregate, to certain officers, employees and non-employee directors. Of these awards, as of September 30, 2012, 78,366 shares were forfeited and reverted to, and are eligible for re-grant under, the 2007 Plan. The total shares of common stock available for grants of equity awards under the 2007 Plan was 42,366 as of September 30, 2012. The prices at which restricted common stock may be granted and the exercise price of stock options granted may not be less than the fair market value of the common stock as quoted at the close on the Nasdaq Stock Market on the grant date. The Compensation Committee administers the 2007 Plan. Options generally expire ten years after the date of grant, and in the case of non-employee directors, vest on the first anniversary of the date of grant. In the case of officers and employees, options either vest in equal amounts over three to five years or vest over five years with 50%, 25% and 25% vesting on the third, fourth, and fifth anniversary of the grant date, respectively. Restricted stock grants generally vest in equal proportions over three years.

1996 Stock Incentive Plan

The Company’s 1996 Stock Incentive Plan (the “1996 Plan”) expired in accordance with its terms in November 2006. The exercise price of incentive options granted under the 1996 Plan to officers, employees, and non-employee directors of the Company was required by 1996 Plan provisions to be equal at least to the fair market value of the common stock at the date of grant. In general, options under this plan expire ten years after the date of grant and generally vest in equal proportions over three years. Unexercised options granted prior to 1996 Plan expiration remain outstanding until the earlier of exercise or option expiration. Under the 1996 Plan 30,000 fully vested common stock options are the only awards that remain outstanding and unexercised, all at exercise prices higher than the fair market value of the common stock at September 30, 2012.

Stock Option Awards

Under the 2011 and 2007 Plans, the Compensation Committee has approved awards of stock options to purchase an aggregate of 1,617,500 shares of common stock to the Company’s current and certain former non-employee directors, to certain key employees, to current and certain former Company officers, and to a consultant, of which awards covering 55,000 shares from the 2007 Plan and 365,500 shares from the 2011 Plan of common stock were forfeited, with such shares reverting to the respective plans and eligible for grant. The exercise prices of the awards granted was, in each case equal, to the closing market value of the Company’s common stock on the Nasdaq Stock Market on the various grant dates.

The Company recognized approximately \$225,000 and \$332,000 of compensation expense in continuing operations for stock option awards in its consolidated statements of operations for the fiscal years ended September 30, 2012 and 2011, respectively. The Company recognized a recovery of \$(49,000) and an expense of \$50,000 of compensation in discontinued operations for stock option awards in its consolidated statements of operations for the fiscal years ended September 30, 2012 and 2011, respectively.

As of September 30, 2012, there was approximately \$299,000 of total unrecognized compensation cost related to 365,000 shares of unvested stock option awards granted under the 2007 and 2011 Plans, which is expected to be recognized over the remainder of the weighted average vesting period (extending to February 2017).

NOTE 9 SHARE BASED COMPENSATION (CONTINUED)**Stock Option Awards (Continued)**

The following table summarizes stock option activity under the 2011 Plan and 2007 Plan from September 30, 2011 through September 30, 2012 (there was no activity during such period in respect of 1996 Plan grants):

	Shares	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term (Years)	Aggregate Intrinsic Value
Outstanding at September 30, 2011	1,007,500	\$3.45	5.9	
Granted.....	420,000	2.92	4.5	
Exercised.....	--	--	--	
Forfeited.....	(285,500)	3.20	--	
Expired.....	--	--	--	
Outstanding at September 30, 2012	1,142,000	\$3.31	4.7	\$ --
Options expected to vest at September 30, 2012.....	365,500	\$3.49	8.9	\$ --
Options vested and exercisable at September 30, 2012.....	411,500	\$3.05	5.0	\$ --

The table below provides additional information regarding stock option awards that were outstanding and exercisable at September 30, 2012:

	Stock Options Outstanding and Exercisable Weighted		
Range of Exercise Prices	Outstanding at September 30, 2012	Average Remaining Contractual Term (Years)	Weighted Average Exercise Price
\$1.80 to \$2.43	270,000	4.0	\$2.13
\$2.73 to \$3.79	111,500	8.0	\$3.57
\$6.02	20,000	3.6	\$6.02

Edgar Filing: FORWARD INDUSTRIES INC - Form 10-K

\$15.91	10,000	2.6	\$15.91
	411,500	5.0	\$3.05

During the fiscal years ended September 30, 2012 and 2011, the Company granted 420,000 and 925,000 stock options at weighted average grant date fair values of \$0.96 and \$3.44, respectively.

NOTE 9 SHARE BASED COMPENSATION (CONTINUED)**Stock Option Awards (Continued)**

The fair value of each stock option on the date of grant was estimated using a Black-Scholes option-pricing formula applying the following assumptions for each respective period:

	For the Fiscal Years Ended September 30,	
	2012	2011
Expected term (in years).....	3.0 to 5.0	5.0
Risk-free interest rate	0.04% to 0.83%	0.1% to 2.2%
Expected volatility	63% to 69%	62% to 72%
Expected dividend yield	0%	0%
Estimated Annual Forfeiture rate	13%	--

The expected term represents the period over which the stock option awards are expected to be outstanding. The Company based the risk-free interest rate used in its assumptions on the implied yield currently available on U.S. Treasury zero-coupon issues with a remaining term equivalent to the award's expected term. The volatility factor used in the Company's assumptions is based on the historical price of its stock over the most recent period commensurate with the expected term of the award. The Company historically has not paid any dividends on its common stock and had no intention to do so on the date the share-based awards were granted. Accordingly, the Company used a dividend yield of zero in its assumptions. The Company estimates the expected term, volatility and forfeitures of share-based awards based upon historical data. The Company adjusted its estimated forfeiture rate effective October 1, 2011 and recognized a recovery of approximately \$46,000 during the three-month period ended December 31, 2011.

Restricted Stock Awards

Under the 2007 Plan, the Compensation Committee has approved and granted awards of 183,500 shares of restricted stock, in the aggregate, to certain key employees. Of these awards, 152,634 have vested and 23,366 shares of restricted stock were forfeited and reverted to, and are eligible for re-grant under, the 2007 Plan. No awards of restricted stock were made during the fiscal year ended September 30, 2012. Vesting of restricted stock awards is generally subject to a continued service condition with one-third of the awards vesting each year on the three successive anniversary dates of the grant date, typically commencing on the first such anniversary date. The fair value of the awards granted was equal to the closing market value of the Company's common stock as quoted on the Nasdaq Stock Market on the grant date. Compensation expense, net of forfeitures, was nominal for the fiscal year ended September 30, 2012. For the fiscal year ended September 30, 2011, the Company recognized approximately \$(5,000) of compensation from continuing operations in its consolidated statements of operations related to restricted stock awards.

The following table summarizes restricted stock activity under the 2007 Plan during the fiscal year ended September 30, 2012.

**Weighted
Average
Grant Date
Fair Value**

	Shares	
Non-vested balance at September 30, 2011.....	25,799	\$2.04
Changes during the period:.....		
Shares granted.....	--	--
Shares forfeited.....	1,000	2.02
Shares vested.....	17,299	2.05
Non-vested balance at September 30, 2012.....	7,500	\$2.02

NOTE 9 SHARE BASED COMPENSATION (CONTINUED)**Restricted Stock Awards (Continued)**

As of September 30, 2012, there was an insignificant amount of unrecognized compensation cost related to the 7,500 shares of unvested restricted stock awards (reflected in the table above) granted under the 2007 Plan, as the remaining requisite service (vesting) period is approximately 2 months. The total fair value of shares vested during the fiscal years ended September 30, 2012 and 2011 was approximately \$35,000 and \$68,000, respectively.

Warrants

As of September 30, 2012, warrants to purchase 75,000 shares of the Company's common stock at an exercise price of \$1.75 were outstanding. By their terms these warrants expire 90 days after a registration statement registering common stock (other than pursuant to employee benefit plans) is declared effective by the Securities and Exchange Commission. As of September 30, 2012, no such registration statement has been filed with the Securities and Exchange Commission.

NOTE 10 INCOME TAXES

The Company's provision (benefit) for income taxes from continuing operations consists of the following United States Federal and State, and foreign components:

	For the Fiscal Years Ended	
	September 30,	
	2012	2011
U.S. Federal and state		
Current	\$15,110	\$(56,050)
Deferred	(2,111,080)	(996,876)
Foreign:		
Current	--	--
Deferred	(326,047)	16,849
Change in valuation allowance	2,437,127	980,027
Provision (benefit) from income taxes	\$15,110	\$(56,050)

The provision for income taxes of approximately \$15,000 recorded in the fiscal year ended September 30, 2012 is attributable to U.S. state income taxes in respect of Fiscal 2011.

NOTE 10 INCOME TAXES (CONTINUED)

The deferred tax expense (benefit) is the change in the deferred tax assets and liabilities representing the tax consequences of changes in the amounts of temporary differences, net operating loss carry forwards and changes in tax rates during the fiscal year. The Company's deferred tax assets and liabilities are comprised of the following:

	As of September 30,	
	2012	2011
Deferred tax assets:		
Net operating losses.....	\$3,485,217	\$1,185,053
Share-based compensation.....	195,315	130,493
Excess tax over book basis in inventory.....	132,525	28,717
Alternative minimum tax credit.....	99,757	99,757
Reserve for obsolete inventory.....	73,798	--
Allowance for accounts receivable.....	20,237	5,086
Depreciation.....	--	9,116
	4,006,849	1,458,222
Valuation allowance.....	(3,817,896)	(1,380,769)
Net deferred tax assets.....	188,953	77,453
Deferred tax liabilities:		
Prepaid insurance.....	(142,756)	(77,453)
Depreciation.....	(46,197)	--
	(188,953)	(77,453)
Total	\$ --	\$ --

At September 30, 2012, the Company had available total net operating loss carryforwards for U.S. Federal and state income tax purposes of approximately \$8,682,000 and \$7,043,000, respectively, expiring through 2031, resulting in deferred tax assets in respect of U.S. Federal and state income taxes of approximately \$2,823,000 and \$234,000, respectively. In addition, at September 30, 2012, the Company had total available net operating loss carryforwards for foreign income tax purposes of approximately \$4,865,000 resulting in a deferred tax asset of approximately \$428,000, expiring through 2017. Total net deferred tax assets, before valuation allowances, was \$3,818,000 and \$1,381,000 at September 30, 2012 and 2011, respectively. Undistributed earnings of the Company's foreign subsidiaries are considered to be permanently invested; therefore, in accordance with U.S. generally accepted accounting principles, no provision for U.S. Federal and state income taxes would result. As of September 30, 2012, there were no accumulated earnings of any of the Company's foreign subsidiaries.

As of September 30, 2012, as part of its periodic evaluation of the necessity to maintain a valuation allowance against its deferred tax assets, and after consideration of all factors, both positive and negative (including, among others, projections of future taxable income, current year net operating loss carryforward utilization and the extent of the Company's cumulative losses in recent years), the Company determined that, on a more likely than not basis, it would not be able to use its remaining deferred tax assets (except in respect of United States income taxes in the event the

Company elects to effect the repatriation of certain foreign source income of its Swiss subsidiary, which income is currently considered to be permanently invested and for which no United States tax liability has been accrued). Accordingly, the Company has determined to maintain a full valuation allowance against its total deferred tax assets. As of September 30, 2012 and 2011, the valuation allowances were approximately \$3,818,000 and \$1,381,000, respectively. If the Company determines in a future reporting period that it will be able to use some or all of its deferred tax assets, the adjustment to reduce or eliminate the valuation allowance would reduce its tax expense and increase after-tax income. Changes in deferred tax assets and valuation allowance are reflected in the "Income tax expense (benefit)" line item of the Company's consolidated statements of operations.

NOTE 10 INCOME TAXES (CONTINUED)

The significant elements contributing to the difference between the United States Federal statutory tax rate and the Company's effective tax rate are as follows:

	For the Fiscal Years Ended September 30,	
	2012	2011
Statutory U.S. Federal income tax rate.....	34.0%	34.0%
State taxes, net of Federal benefit.....	2.0%	1.9%
Permanent differences.....	(0.1%)	(3.3%)
Foreign tax rate differential.....	(17.1%)	1.8%
Valuation allowance.....	(19.3%)	(34.4%)
Other.....	0.0%	2.0%
Effective tax rate.....	(0.5%)	2.0%

As of September 30, 2012 and 2011, the Company has not accrued any interest and penalties related to uncertain tax positions. It is the Company's policy to recognize interest and/or penalties, if any, related to income tax matters in income tax expense in the statement of operations. For the periods presented in the accompanying statements of operations, no income tax related interest or penalties were assessed or recorded. All fiscal years prior to the fiscal year ended September 30, 2009 are closed to Federal and State examination, except with respect to net operating losses generated in prior fiscal years.

NOTE 11 LOSS PER SHARE

Basic per share data for each period presented is computed using the weighted-average number of shares of common stock outstanding during each such period. Diluted per share data is computed using the weighted-average number of common and dilutive common-equivalent shares outstanding during each period. Dilutive common-equivalent shares consist of shares that would be issued upon the exercise of stock options and warrants, computed using the treasury stock method. Diluted loss per share data for the fiscal years ended September 30, 2012 and 2011 exclude 1,224,500 and 668,299 of outstanding common equivalent shares as inclusion of such shares would be anti-dilutive.

NOTE 12 COMMITMENTS AND CONTINGENCIES**Employment and Agreements**

Pursuant to their respective employment agreements, on April 2, 2012, the Company appointed Robert Garrett Jr. and Brett Johnson as Co-Chief Executive Officers of the Company. Mr. Garrett had previously served as a consultant to the Company pursuant to a consulting agreement since October 1, 2011. In connection with Mr. Garrett's appointment as the Company's Co-Chief Executive Officer, the consulting agreement was terminated effective as of February 29, 2012. As of August 1, 2012, Forward and Co-CEO, Mr. Johnson opted not to renew Mr. Johnson's employment contract and his employment terminated August 31, 2012.

Robert Garrett Employment Agreement

Under his employment agreement, which was effective as of March 1, 2012, Mr. Garrett is currently employed as the Company's Chief Executive Officer at an annual salary of \$250,000. In executing his employment agreement, Mr. Garrett received a signing bonus of \$9,167. During Mr. Garrett's first year of employment he shall receive a bonus not less than \$50,000. In addition, during each year of his employment, Mr. Garrett is eligible to receive an annual bonus at the discretion of the Compensation Committee in a combination of cash or equity based compensation. Mr. Garrett's employment agreement also entitles him to awards of stock options to purchase an aggregate of 200,000 shares of the Company's common stock pursuant to the 2011 Long Term Incentive Plan.

NOTE 12 COMMITMENTS AND CONTINGENCIES (CONTINUED)

Employment and Agreements (Continued)

Robert Garrett Employment Agreement (Continued)

Mr. Garrett's employment agreement provides for successive one-year renewal terms, unless either party provides written notice of its intention not to renew the agreement not later than 90 days prior to the end of the term (or renewal period). In the event of the termination of Mr. Garrett's employment, depending on the circumstances, Mr. Garrett could be entitled to receive a severance payment which could be up to (12) twelve months of his salary, and under certain circumstances, the immediate vesting of any unvested options pursuant to applicable equity compensation plans, as well as any accrued discretionary bonus.

Mr. Garrett's employment agreement binds him to customary non-competition and non-solicitation covenants of up to one year following the expiration of the employment term.

Brett Johnson Employment Agreement

Under his employment agreement, Mr. Johnson was employed as the Company's Co-Chief Executive Officer, effective March 1, 2012, at an annual salary of \$250,000. Prior to such date, Mr. Johnson was employed as the Company's Chief Executive Officer on an at-will basis. As of August 1, 2012, Forward and Co-CEO, Mr. Johnson, opted not to renew Mr. Johnson's employment contract, with his employment terminating August 31, 2012. In connection with such termination of employment, Mr. Johnson is entitled to receive a severance payment equal to (12) twelve months of his salary. In connection with such termination, the Company incurred \$250,000 of severance expense during the fiscal year ended September 30, 2012. In addition any unvested options pursuant to applicable equity compensation plans were immediately vested. Mr. Johnson's employment agreement binds him to customary non-competition and non-solicitation covenants of up to one year following the expiration of the employment term.

James McKenna Employment Agreement

James O. McKenna serves as the Company's Chief Financial Officer, Treasurer and Assistant Secretary pursuant to an Amended Employment Agreement, dated as of April 1, 2011 (the "Employment Agreement"), between the Company and Mr. McKenna. On November 8, 2012, Mr. McKenna's Employment Agreement was further amended (the "Amendment") in connection with his relocation from California to Florida at the Company's request pursuant to the move of the Company's executive offices to West Palm Beach, Florida from Santa Monica, California. Among other things, the Amendment reduced his base salary to \$210,000 per annum from \$225,000 per annum, eliminated his housing allowance of \$90,000 per annum (paid pursuant to the Employment Agreement), and provided for a bonus payment in the amount of \$172,456, less applicable withholdings and deductions, all subject to the provisions provided in the Amendment. Up to one half of such bonus payment may be applied to reduce future bonuses due to Mr. McKenna, if any, on or prior to September 2014, pursuant to the terms and provisions of the Amendment. The term of the Employment Agreement expires on December 31, 2013, with automatic renewal for successive terms of one year each. Pursuant to the Employment Agreement, Mr. McKenna is entitled to a payment equal to one year of his salary as severance in the event of his termination "without cause" and termination for "good reason" (as such terms are defined in the Employment Agreement).

Guarantee Obligation

In February 2010, Forward Switzerland and its European logistics provider (freight forwarding and customs agent) entered into a Representation Agreement whereby, among other things, the European logistics provider agreed to act as such subsidiary's Fiscal representative in The Netherlands for the purpose of providing services in connection with any value added tax matters. As part of this agreement, which succeeds a substantially similar agreement (except as to the amount and term of the undertaking) between the parties that expired June 30, 2009, the subsidiary agreed to provide an undertaking (in the form of a bank letter of guarantee) to the logistics provider with respect to any value added tax liability arising in The Netherlands that the logistics provider is required to pay to Dutch tax authorities on the subsidiary's behalf.

NOTE 12 COMMITMENTS AND CONTINGENCIES (CONTINUED)**Guarantee Obligation (Continued)**

As of February 1, 2010, such subsidiary entered into a guarantee agreement with a Swiss bank relating to the repayment of any amount up to €75,000 (equal to approximately \$96,000 as of September 30, 2012) paid by such bank to the logistics provider in order to satisfy such undertaking pursuant to the bank letter of guarantee. The subsidiary would be required to perform under the guarantee agreement only in the event that: (i) a value added tax liability is imposed on the Company's sales in The Netherlands, (ii) the logistics provider asserts that it has been called upon in its capacity as surety by the Dutch Receiver of Taxes to pay such taxes, (iii) the subsidiary or the Company on its behalf fails or refuses to remit the amount of value added tax due to the logistics provider upon its demand, and (iv) the logistics provider makes a drawing under the bank letter of guarantee. Under the Representation Agreement the subsidiary agreed that the letter of guarantee would remain available for drawing for three years following the date that its relationship terminates with the logistics provider to satisfy any value added tax liability arising prior to expiration of the Representation Agreement but asserted by The Netherlands after expiration.

The initial term of the bank letter of guarantee expired February 28, 2011, but renews automatically for one-year periods until February 28, 2014, unless the subsidiary provides the Swiss bank with written notice of termination at least 60 days prior to the renewal date. It is the intent of the subsidiary and the logistics provider that the bank letter of guarantee amount be adjusted annually. In consideration of the issuance of the letter of guarantee, the subsidiary has granted the Swiss bank a security interest on all of the subsidiary's assets on deposit with, held by, or credited to the subsidiary's accounts with, the Swiss bank (approximately \$751,000 at September 30, 2012). As of September 30, 2012, the Company had not incurred a liability in connection with this guarantee.

Lease Commitments

The Company rents certain of its facilities under leases expiring at various dates through September 2016. Total rent expense included in continuing operations for the years ended September 30, 2012 and 2011, amounted to approximately \$456,000 and \$336,000, respectively. The following table summarizes the future minimum lease payments required under these leases.

Fiscal Year Ended September 30, 2012	Amount
2013.....	\$162,000
2014.....	250,000
2015.....	258,000
2016.....	267,000
2017.....	84,000
Thereafter.....	251,000
Total lease commitments.....	\$1,272,000

NOTE 13 BINDING MEMORANDUM OF UNDERSTANDING

In August 2011, the Company entered into a binding Memorandum of Understanding (the “Prior MOU”) with G-Form LLC (“G-Form”), a manufacturer of consumer and athletic products incorporating proprietary extreme protective technology. Under the Prior MOU, the Company was granted the exclusive right to use G-Form’s protective technology in the Company’s designated territory, subject to meeting certain minimum annual sales levels (or at the Company’s option, the making of royalty payments at corresponding levels) commencing with the twelve-month period after shipment of the first Forward-branded licensed product that used this technology, with the minimum levels increasing in the subsequent second and third twelve-month periods. As of September 30, 2011, the Company had paid G-Form a \$490,000 non-refundable advance against the first year’s royalties to be offset by cancellation of the \$500,000 of loans made by the Company to G-Form in its capacity as a prospective joint venture partner. This amount increased to \$500,000 as of March 30, 2012.

On June 21, 2012, in connection with the Company’s determination to exit its global retail business, the Company entered into a second Memorandum of Understanding (the “New MOU”) with G-Form. Pursuant to the New MOU, among other things; (i) G-Form has repurchased from the Company certain G-Form inventory held by the Company, (ii) the Company has assisted G-Form with certain operational and sales functions previously performed by Forward for G-Form products, (iii) G-Form has offered employment and employed certain of Forward’s non-US based employees, (iv) the Company and G-Form are working together to distribute the Company’s remaining inventory of products and to transition the Company’s distribution channels relating to G-Form products to G-Form, and (v) the Company and G-Form have agreed on the settlement of advanced royalties paid under the Prior MOU. Pursuant to the New MOU, the Prior MOU was terminated. The remaining balance of the advanced royalties as of September 30, 2012 was approximately \$57,000 and included in “Current assets of discontinued operations” in the Company’s consolidated balance sheets.

NOTE 14 BUYING AGENCY AND SUPPLY AGREEMENT

On March 12, 2012, the Company, entered into a Buying Agency and Supply Agreement (the “Agreement”) with Forward Industries Asia-Pacific Corporation (f/k/a Seaton Global Corporation), a British Virgin Islands corporation (“Forward China”), dated as of March 7, 2012. The Agreement provides that, upon the terms and subject to the conditions set forth therein, Forward China shall act as the Company’s exclusive buying agent and supplier of Products (as defined in the Agreement) in the Asia Pacific region. The Company shall purchase products at Forward China’s cost, and shall pay a service fee on the net purchase price. The Agreement shall terminate on March 11, 2014, subject to renewal. Terence Wise, a director of the Company, is a principal of Forward China. During the fiscal year ended September 30, 2012, the Company recorded \$691,000 of Forward China service fees, which are included as a component of costs of goods sold in continuing operations in the accompanying consolidated statements of operations. As a result of this agreement, as of September 30, 2012, the Company had substantially completed the shut down of its legacy Hong Kong sourcing, logistics and quality assurance operations.

NOTE 15 LEGAL PROCEEDINGS

Targus Group International, Inc., et al. v., Forward Industries, Johnson, et al.

On September 19, 2011, the Company, Mr. Brett Johnson (our former President and Chief Executive Officer), and one of the Company's employees were named in a Complaint filed in Orange County Superior Court by Targus Group International, Inc. and two of its affiliates. The Complaint alleged a claim for breach of contract against Mr. Johnson. The Complaint further alleged a "breach of fiduciary duty/duty of loyalty" against the employee, and it asserted claims against Mr. Johnson and the Company for allegedly aiding and abetting that alleged breach. The Complaint also asserted a cause of action against all Defendants for unfair competition. An Amended Complaint was filed on October 11, 2011. In addition to the claims asserted in the original Complaint, the Amended Complaint added an additional Targus affiliate as a plaintiff and named an additional employee of the Company as a defendant. The Amended Complaint asserted a claim against that employee for breach of contract and for "breach of fiduciary duty/duty of loyalty," and it added new claims against the Company and Mr. Johnson for allegedly interfering with that employee's contract and for allegedly aiding and abetting his breach of duty. The claim for unfair competition in the Amended Complaint relies on these new allegations as well. The Company entered into a Settlement Agreement, effective as of October 17, 2012, which resolved claims between the Company and the other defendants, on the one hand, and Targus Group International, Inc. and the other plaintiffs, on the other hand, related to this action. In connection with the Settlement Agreement, a payment was made to the plaintiffs, substantially all of which was made by the Company's insurer. The cost of this settlement and all related expenses have been recognized in the accompanying financial statements.

Other Litigation

From time to time, the Company may become a party to other legal actions or proceedings in the ordinary course of its business. As of September 30, 2012, there were no such actions or proceedings, either individually or in the aggregate, that, if decided adversely to the Company's interests, the Company believes would be material to its business.

NOTE 16 401(K) PLAN

The Company maintains a 401(k) benefit plan allowing eligible United States-based employees to contribute a portion of their salary in an amount up to the annual maximum amounts as set periodically by the Internal Revenue Service. In accordance with applicable Safe Harbor provisions, the Company had elected to match 100% on the first 6% of eligible contributions by its employees through June 30, 2012, at which time the Company elected to discontinue the matching contribution. The Company's matching contributions relative to its continuing operations were approximately \$48,000 and \$69,000 for the years ended September 30, 2012 and 2011, respectively, and are reflected in the accompanying consolidated statements of operations. The Company's contributions vest immediately.

NOTE 17 OPERATING SEGMENT INFORMATION

As of September 30, 2012, and during its 2011 fiscal year, the Company reported and managed its continuing operations based on a single operating segment: the design and distribution of carry and protective solutions, primarily for hand held electronic devices. Products designed and distributed by this segment include carrying cases and other accessories for medical monitoring and diagnostic kits, portable consumer electronic devices (such as smartphones, tablets, personnel computers, notebooks, and GPS devices), and a variety of other portable electronic and non-electronic products (such as firearms, sporting, and other recreational products). This segment operates in

geographic regions that include primarily APAC, the Americas, and Europe. Geographic regions are defined by reference primarily to the location of the customer or its contract manufacturer.

On June 21, 2012, the Company determined to wind down its Retail segment, which commenced during the three-month period ended December 31, 2011, and focus solely on growing its OEM business. The decision to eliminate the retail division was primarily driven by the longer than estimated path to bring it to profitability and the strong top line growth and cost rationalizations in the OEM business. The Company expects to complete its exit of its retail business by December 31, 2012 and does not expect to have any continuing involvement in the retail business after this date.

NOTE 17 OPERATING SEGMENT INFORMATION (CONTINUED)**Revenues from External Customers**

The following table presents net sales by geographic region.

	<i>(dollars in thousands)</i>	
	Year Ended September 30,

Supplier Concentration

The Company procures substantially all of its supply of products from independent suppliers in China. Primary suppliers are Chinese business entities located in China. Depending on the product, the Company may require several different suppliers to furnish component parts or pieces. The Company purchased approximately 90% of its products from four such suppliers in the Fiscal year ended September 30, 2012 and 2011. One such supplier accounted for approximately 54% and 58% of the Company's product purchases in the Fiscal years ended September 30, 2012 and 2011, respectively.

NOTE 17 OPERATING SEGMENT INFORMATION (CONTINUED)**Major Customers**

The following customers or their affiliates or contract manufacturers accounted for more than ten percent of the Company's net sales, by geographic region.

	Fiscal Year Ended September 30, 2012			Total
	Americas	APAC	Europe	Company
Diabetic Customer A.....	2%	82%	--	33%
Diabetic Customer B.....	21%	2%	18%	13%
Diabetic Customer C.....	12%	--	46%	16%
Diabetic Customer D.....	9%	1%	19%	8%
Other Customer C.....	14%	--	--	5%
Other Customer D.....	11%	--	--	4%

	Fiscal Year Ended September 30, 2011			Total
	Americas	APAC	Europe	Company
Diabetic Customer A.....	--	80%	1%	37%
Diabetic Customer B.....	36%	2%	21%	16%
Diabetic Customer C.....	--	--	63%	16%
Other Customer A *.....	--	--	13%	3%
Other Customer B *.....	7%	--	12%	8%

* Other Customer A and B represented less than ten percent of the Company's net sales of any geographic region during the fiscal year ended September 30, 2012.

Three customers (including their affiliates or contract manufacturers) accounted for approximately 76% of the Company's accounts receivable at September 30, 2012. Three customers, including their affiliates or contract manufacturers, accounted for approximately 72% of the Company's accounts receivable at September 30, 2011.

NOTE 18 SUBSEQUENT EVENTS

On November 8, 2012, the Compensation Committee of the Company's Board of Directors (the "Compensation Committee") voted to adopt the Forward Industries Incentive Compensation Plan (the "Incentive Plan"), to provide incentives to employees of the Company in the form of equity grants and cash bonus payments for achieving certain performance goals, and pursuant to which the Company will, subject to the terms therein, (1) grant a one-time restricted stock unit bonus to certain employees, (2) pay bonuses as provided therein, and (3) provide that annual bonuses for employees be made in the form of cash and restricted stock units, as provided therein. Pursuant to the Incentive Plan and the Company's 2011 Long Term Incentive Plan (the "2011 Plan") and the 2007 Equity Incentive Plan, the Compensation Committee determined to award Robert Garrett, Jr., the Company's Chief Executive Officer, and James O. McKenna, the Company's Chief Financial Officer/Treasurer, 125,000 and 105,000 restricted stock units, respectively, and the other employees specified in the Incentive Plan.

In addition, on October 16, 2012, the Compensation Committee determined to award options to purchase 10,000 shares of the Company's common stock pursuant to the 2011 Plan to each of the Company's non-employee directors, in accordance with the Company's policy for compensation of its non-employee directors.
