(1)
Assumes conversion of all of the holder's notes at a conversion price of \$11.79 per share of common stock. However, this conversion price will be subject to adjustment as described under "Description of the Notes-Conversion Rights." As a result, the amount of common stock issuable upon conversion of the notes may increase or decrease in the future.

(2)
Calculated based on Rule 13d-3(d)(i) of the Exchange Act using 609,133,723 shares of common stock outstanding as of October 31, 2003. In calculating this amount, we treated as outstanding the number of shares of common stock issuable upon conversion of all of that particular holder's notes. However, we did not assume the conversion of any other holder's notes.
