Letter from the Chairman

To Our Valued Investors:

On behalf of the Summit Materials Board of Directors and executive officers, it is my pleasure to invite you to our 2019 Annual Meeting of Stockholders.

While 2018 was a challenging year for Summit, we continued to make progress toward our strategic objective to become a premier vertically-integrated heavy-side materials company. Our independent and diverse Board is committed to effective oversight, sound corporate governance, and stockholder engagement as we work with management to improve the Company's performance in 2019 and drive growth in revenue and earnings. Most importantly, we are fully aligned with you, our stockholders, and are deeply committed to delivering the financial performance that you expect from the Company.

The Board is actively engaged to support the Company's efforts to improve performance. We meet monthly with the management team to discuss operations, capital structure and expenditures, and strategic focus including acquisitions, talent planning and incentive programs. Consistent with our focus on aligning management's compensation with shareholder value creation, the Board determined not to pay bonuses to named executive officers under the Company's short-term incentive program in light of our 2018 financial performance.

The Board is committed to ongoing refreshment of our membership to ensure we benefit from new perspectives and diverse experience and expertise. To that end, we added two new directors in 2018, Anne Cooney and Sue Ellerbusch. Through her leadership roles with the General Electric Company, Aladdin Industries and Siemens, Anne brings a breadth and depth of experience in operations management, sourcing, and marketing. Sue's management of Air Liquide's U.S. business, including its Large Industrials and Electronics divisions, has afforded her operational expertise that is an invaluable asset to the Company. All of the directors on our Board are independent, except for our CEO, and 33 percent are female, with five new independent directors added during the past three years.

We also firmly believe that our long-term success includes being stewards of the environment and active participants in the communities in which we do business. We continued to make progress in 2018 on this commitment to environmental and social responsibility. We recycled 890,000 tons of asphalt pavement and shingles and returned 15.2 million pounds of household recyclables to the market. We continued our partnership with the Wildlife Habitat Council to support biodiversity and educational programs on our properties, including 1,700 acres that are certified under the Council's standards at the end of 2018. We are also proud to share that our Hannibal Cement Plant earned the U.S. EPA's Energy Star certification in November 2018, signifying the facility performs in the top 25 percent of similar facilities for energy efficiency. Our two cement plants offset 43 percent of their total energy use in 2018 by using waste products as fuel.

Additionally, we pride ourselves on offering a safe work environment while striving to be a good corporate citizen in our local communities. Our world-class safety program continued to create a culture where safety is everyone's job and delivered an injury rate of only .013 lost time injuries per 200,000 man-hours worked in 2018, the lowest in our Company's history.

We want our stockholders to know that we believe in active dialogue with them. Earlier this year, our Board leadership conducted a governance roadshow that included conversations with investors representing approximately 30 percent of our stockholders base. We appreciated the opportunity to talk to many of you, in order to better understand how you make your investment decisions and hear your ideas for value creation and enhanced governance at Summit.

I encourage you to read the CEO Letter, Annual Report and Proxy Statement, and to please follow through on the instructions for voting to ensure that your voice is heard at our Annual Meeting. On behalf of the Board of Directors, I thank you for your continued support as we work to deliver improved performance in 2019 and continue to build a leading heavy-side materials business. We look forward to great things to come.

Sincerely,

Howard L. Lance
Chairman of the Board of Directors, Summit Materials, Inc.

2018 PERFORMANCE

Significant external drivers influence our performance. A number of these combined in 2018 to make it a challenging year:

Cost increases exceeded pricing gains

Competitive pressures intensified in the cement market

Extreme weather negatively affected the production and sales volumes of our products and the delivery of our services

A number of non-recurring expenses occurred in one calendar year

However, in 2018 we also increased net revenue by 9.0% as compared to 2017, completed 13 acquisitions and had earnings per basic share of \$0.30. We manage for sustainable results and are optimistic about 2019.

Board Organization

Good corporate governance at Summit Materials starts at the top with how we, as a Board, are governed. We believe our board governance incorporates each of the best-practice standards for independence:

We have an independent board chairman

All members of all of our committees are independent

All our non-employee directors are independent

All directors may request that items be added to the Board's agenda or the agenda of any committee on which they serve

Director Independence Determination

Under our Corporate Governance Guidelines and the NYSE corporate governance rules for listed companies, a director is not independent unless the Board affirmatively determines that he or she does not have a direct or indirect material relationship with us or any of our subsidiaries. In addition, the director must meet the bright-line test for independence set forth by the NYSE rules. Our Corporate Governance Guidelines define independence in accordance with the independence definition in the current NYSE rules. Our Corporate Governance Guidelines require the Board to review the independence of all directors at least annually. In the event a director has a relationship with the Company that is relevant to his or her independence and is not addressed by the objective tests set forth in the NYSE independence definition, the Board will determine, considering all relevant facts and circumstances, whether such relationship is material.

Our Board has affirmatively determined that each of Messrs. Cantie, Gardner, Lance, Murphy, and Wunning and each of Mss. Cooney, Ellerbusch and Wade is independent, and Mr. Simpkins, who served as a director during 2018, was independent, under the guidelines for director independence set forth in the Corporate Governance Guidelines and under all applicable NYSE rules, including with respect to applicable committee membership. Our Board also has determined that each of the members of the Audit Committee, Messrs. Cantie and Murphy and Mss. Ellerbusch and Wade, is "independent" for purposes of Section 10A(m)(3) of the Securities Exchange Act of 1934, as amended (the "Exchange Act").

In making its independence determinations, the Board considered and reviewed all information known to it, including information identified through annual directors' questionnaires.

Board Leadership

The Board directs and oversees the management of the business and affairs of the Company in a manner consistent with the best interests of the Company. The Board's responsibility is one of oversight, and in performing its oversight role, the Board serves as the ultimate decision-making body of the Company, except for those matters reserved to or shared with our stockholders.

In accordance with our Corporate Governance Guidelines, the Board selects the Company's Chairman and the Company's CEO in any way it considers in the best interests of the Company and, accordingly, does not have a policy on whether the roles of Chairman and CEO should be separate or combined and, if separate, whether the Chairman should be selected from the independent directors. We believe that the separation of the Chairman of the Board and CEO positions is appropriate corporate governance for us at this time. Accordingly, Mr. Lance serves as the Chairman of the Board while Mr. Hill serves as our CEO. Our Board believes that this structure best encourages the free and open dialogue of differing views and provides for strong checks and balances.

Corporate Governance Documents

Our investor relations website at investors.summit-materials.com/govdocs, "Governance Documents," has additional information on our board governance and corporate governance, including our Corporate Governance Guidelines, our Code of Business Conduct and Ethics; and the charters approved by the Board for the Audit Committee, the Compensation Committee and the Nominating and Corporate Governance Committee.

Board Meetings and Committees

Edgar Filing: Summit Materials, Inc. - Form DEF 14A

The Board meets regularly during the year and holds special meetings and acts by unanimous written consent whenever circumstances require. During 2018, there were seven meetings of the Board. Each director attended at least 75% of the aggregate of the total number of meetings of the Board (held during the period for which he or she was a director) and the total

number of meetings held by all committees on which he or she served (during the periods that he or she served) during 2018. In addition, directors are expected to make every effort to attend any meetings of stockholders. All of our directors attended the 2018 Annual Meeting of Stockholders.

The Board has established an Audit Committee, a Compensation Committee, and a Nominating and Corporate Governance Committee (collectively, the "Committees"). The Committees keep the Board informed of their actions and assist the Board in fulfilling its oversight responsibility to stockholders. Director Nominations

The Nominating and Corporate Governance Committee identifies individuals believed to be qualified as candidates to serve on the Board and selects, or recommends that the Board select, the nominees for all directorships to be filled by the Board or by our stockholders at an annual or special meeting.

Table of Contents

In identifying candidates for membership on the Board, the Committee takes into account all factors it considers appropriate, which may include:

individual qualifications, including strength of character, mature judgment, familiarity with the Company's business and industry, independence of thought and an ability to work collegially; and

all other factors the Committee considers appropriate, which may include age, diversity of background, existing commitments to other businesses, potential conflicts of interest with other pursuits, legal considerations such as antitrust issues, corporate governance background, various and relevant career experience, relevant technical skills, relevant business or government acumen, financial and accounting background, executive compensation background and the size, composition and combined expertise of the existing Board.

Although the Nominating and Corporate Governance Committee considers diversity of viewpoints, background and experiences, the Company does not have a formal diversity policy. The Committee also may consider the extent to which the candidate would fill a present need on the Board. When evaluating whether to re-nominate existing directors, the Committee considers matters relating to the retirement of current directors, as well as the performance of such directors.

Any recommendation submitted to the Secretary should be in writing and should include any supporting material the stockholder considers appropriate in support of that recommendation, but must include information that would be required under the rules of the SEC to be included in a proxy statement soliciting proxies for the election of such candidate and the written consent of the candidate to serve as one of our directors, if elected. Stockholders wishing to propose a candidate for consideration may do so by submitting the above information to the attention of the Secretary, Summit Materials, Inc., 1550 Wynkoop Street, 3rd Floor, Denver, Colorado 80202. All recommendations for nomination received by the Secretary that satisfy the requirements of our Amended and Restated Bylaws (the "Bylaws") relating to such director nominations will be presented to the Nominating and Corporate Governance Committee for its consideration. Please see the section entitled "Future Shareholder Proposals and Nominations" for information regarding the advance notice provisions applicable to stockholder director nominations set forth in our Bylaws.

Compensation Discussion and Analysis What We Paid

2018 Highlights

While 2017 was a strong year of financial growth for the Company, 2018 was a challenging year for the Company due to a number of factors, including cost increases exceeding pricing gains, increased competitive pressures in our cement market, impact of extreme weather, and the occurrence of certain non-recurring expenses during the year. However, in 2018 we did increase net revenue by 9.0% as compared to 2017, completed 13 acquisitions and had earnings per basic share of \$0.30.

Our financial performance in 2017 and 2018 affected how we paid our named executive officers ("NEOs") in 2018. Highlights of our compensation decisions include the following:

Mr. Hill's total target 2018 pay was increased in February 2018 in light of his role in Summit's 2017 success and in order to better align our pay practices with our direct competitors. **However, as a result of the Company's performance in 2018, Mr. Hill did not receive a base salary increase for 2019 and did not receive an annual bonus for 2018.**

Although our NEOs achieved many of their personal objectives and safety goals under the annual incentive plan, in light of the Company's below-threshold performance relative to our financial goals, **the Compensation Committee elected not to pay any annual cash incentives to NEOs for 2018 (payable in 2019).**

Due to the Company's stock price performance during 2018, **2016 Performance Units were not earned for the three-year performance period ending December 31, 2018, resulting in much lower realized pay for our NEOs for 2018.**

In 2018, our executive compensation structure consisted of four primary components: base salary; annual cash incentives; long-term equity incentives and traditional health/welfare plans. **We previously eliminated substantially all perquisites in 2017.**

Named Executive Officers

The following Compensation Discussion and Analysis ("CD&A") describes our 2018 executive compensation structure, earned by or paid to the following named executive officers ("NEOs"), followed by a discussion of the executive pay determination process. Our NEOs for 2018 were the following individuals:

Thomas W. Hill	President and Chief Executive Officer
Brian J. Harris	Executive Vice President and Chief Financial Officer
Karl H. Watson, Jr.	Executive Vice President and Chief Operating Officer
Michael J. Brady	Executive Vice President and Chief Business Development Officer
M. Shane Evans	Executive Vice President and West Division President
Damian J. Murphy(1)	Former Executive Vice President and East Division President

(1)

In January 2018, the Company announced that Damian J. Murphy would leave his role as the Company's Executive Vice President and East Division President, effective March 31, 2018. Mr. Murphy, Summit Materials Holdings L.P. ("Summit Holdings") and, solely for certain purposes specified therein, the Company, entered into an Agreement and Release (the "Agreement and Release") dated January 17, 2018 in connection with Mr. Murphy's departure from the Company. The terms of the Agreement and Release are described

below under "Potential Payments Upon Termination or Change in Control Departure of Damian J. Murphy."

Pay Mix and Magnitude

The Compensation Committee believes that a significant majority of both the CEO's and other NEOs' pay should be at risk and tied to challenging performance objectives and this is illustrated in our pay mix. A large percentage of total target compensation is at risk through long-term equity awards and annual cash incentive awards. These awards are linked to performance measures that correlate with long-term stockholder value creation. The amounts actually realized by our NEOs with respect to these awards depend on a variety of factors, including the level of attainment of the relevant performance goals and the extent of vesting of performance units and RSUs and the value of our stock when performance units and RSUs vest. The mix of total direct compensation at target for 2018 for our CEO and the average of our other NEOs is shown in the charts below.

- (1) Average of Other NEOs does not include the values associated with Messrs. Murphy and Watson because of Mr. Murphy's planned departure from the Company on March 31, 2018 and Mr. Watson's employment with the Company beginning on January 8, 2018.

Table of Contents

The Compensation Committee approved the following compensation targets for 2018:

	Base Salary	Annual Bonus Target as % of Base Salary	Long-Term Incentive Target as % of Base Salary
Thomas W. Hill	\$ 900,000	150%	360%
Brian J. Harris	\$ 566,500	75%	155%

M. Shane Evans	\$ 433,411	60%	125%
Damian J. Murphy(2)	\$ 397,605	N/A	N/A

(1)

In connection with the commencement of Mr. Watson's employment on January 8, 2018, he was granted an initial equity award valued at \$2 million in restricted stock units, which subject to his continued employment, vest in equal annual installments over a three-year period.

(2)

The Compensation Committee did not approve a long-term incentive bonus target for Mr. Murphy because of his planned departure from the Company on March 31, 2018.

Elements of Pay: Base Salary

The Compensation Committee determines base salaries for the NEOs and other executives based on a number of factors, including but not limited to, the Compensation Committee's understanding of executive pay practices, individual performance, Company performance and management recommendations (except with respect to the CEO).

For 2018, based on a thorough review of competitive market data and internal alignment of total compensation opportunity, the Compensation Committee set the base salaries shown in the table below. These changes maintained our desired internal equity positioning and are consistent with competitive market data provided by our independent compensation consultant. Two executives received somewhat larger increases as follows while our other NEOs received ordinary course cost of living increases:

Mr. Hill's base salary was increased by 8.8% to recognize his strong leadership performance in 2017 and align with the target total compensation opportunities of our peers and direct competitors.

Mr. Brady's base salary was increased by 17.6% to reflect his strong individual performance in 2017 and his continued significant value and unique contributions to creating long-term shareholder value in the area of acquisition growth.

	2018 Base Salary	2017 to 2018 Increase
Thomas W. Hill	\$ 900,000	8.8%

Brian J. Harris	\$ 566,500	3.0%
Karl H. Watson, Jr.(1)	\$ 550,000	N/A
Michael J. Brady	\$ 500,000	17.6%
M. Shane Evans	\$ 433,411	3.0%
Damian J. Murphy(2)	\$ 397,605	N/A

(1)

Mr. Watson joined the Company in January 2018.

(2)

The Compensation Committee did not approve an increase to Mr. Murphy's base salary because of his planned departure from the Company on March 31, 2018.

Elements of Pay: Annual Cash Incentives

2018 TARGET ANNUAL INCENTIVE AWARD OPPORTUNITIES

At the start of each fiscal year, the Board approves annual incentive compensation targets, as a percentage of base salary, based on competitive market data provided by our independent compensation consultant for our direct competitors and overall

Table of Contents

peer group, management's recommendations and other relevant factors. The 2018 annual incentive targets, as a percentage of base salary, for our NEOs were unchanged from 2017 except for Mr. Hill, as follows:

	Target Bonus
Thomas W. Hill(1)	150%
Brian J. Harris	75%
Karl H. Watson, Jr.	75%
Michael J. Brady	60%
M. Shane Evans	60%
Damian J. Murphy(2)	N/A

(1) Mr. Hill's target bonus was increased from 140% of base salary in 2017 to 150% of base salary in 2018 in order to align his compensation with pay practices at our direct competitors and overall peer group. The increase in his target annual incentive was accompanied by challenging performance goals underlying the award, requiring year-over-year performance improvement.

(2) The Board did not approve a target bonus for Mr. Murphy because of his planned departure from the Company on March 31, 2018. However, in the Agreement and Release, the Company agreed to provide Mr. Murphy with a pro-rata fiscal year 2018 bonus of \$58,824 as discussed in "Potential Payments Upon Termination or Change in Control Departure of Damian J. Murphy."

2018 ANNUAL INCENTIVE METRICS

The metrics underlying our annual incentive were selected as the strongest indicators of our success. EBITDA and operating cash flow are among our most important financial measures, while safety goals ensure that we focus on sustainable performance. Personal objectives measure progress against key milestones that are important to long-term value creation. The Board has discretion to adjust the financial metrics to reflect merger, acquisition or divestiture activity during the fiscal year.

For corporate NEOs (Messrs. Hill, Brady, Harris and Watson), the performance metrics approved for fiscal 2018 were:

Metric	Definition/Notes
EBITDA	Corporate earnings before interest, taxes, depreciation, depletion and amortization. Results are adjusted to exclude accretion, loss on debt financings, tax receivable agreement expense, income from discontinued operations and certain non-cash and non-operating items plus the EBITDA contribution of certain recent acquisitions and dispositions.
Operating Cash Flow	Annual cash flow in excess of capital transactions and acquisitions.
Safety	
Record Incident Rate (RIR)	Any employee work-related injury that requires medical treatment and results in a positive diagnosis of an injury, a prescription or work restrictions (per OSHA), divided by hours worked.

Edgar Filing: Summit Materials, Inc. - Form DEF 14A

Lost Time Incident Rate (LTIR)	Same as RIR but only includes injuries that result in at least one full day away from work.
Preventable Incident Rate (PVIR)	The number of preventable auto safety incidents, divided by miles driven.
Cost Per Man Hour (CPMH)	Based on the total incurred insurance-company-posted claim reserves on 12/31 of a given year for all workers comp, general liability and auto liability claims divided by the hours worked in that same calendar year.
Personal objectives	Varies by individual. See page 25.

Edgar Filing: Summit Materials, Inc. - Form DEF 14A

Table of Contents

For Mr. Evans, the approved performance metrics included (i) corporate EBITDA, (ii) West segment EBITDA, (iii) West segment cash flow, (iv) West segment safety and (v) personal objectives.

For 2018, performance metrics and weightings were as follows for our NEOs (other than Mr. Murphy):

	EBITDA	Operating Cash Flow	Safety(2)	Personal Objectives
Thomas W. Hill	50%	20%	10%	20%
Brian J. Harris	50%	20%	10%	20%
Karl H. Watson, Jr.	50%	20%	10%	20%
Michael J. Brady	50%	20%	10%	20%
M. Shane Evans(1)	60%	20%	10%	10%

(1) Mr. Evans's EBITDA metric is based 20% on Corporate EBITDA and 40% on West Segment EBITDA. Mr. Evans's Operating Cash Flow metric is based on West Segment Operating Cash Flow.

(2) Safety metrics included various metrics related to the frequency and severity of reported incidents. For 2018, the safety metrics (and the weightings assigned to each safety metric for each NEO) included RIR (4% total award payout), LTIR (2%), PVIR (2%), and CPMH (2%). For Mr. Evans, the safety metrics related to the West segment.

PERFORMANCE TARGETS AND PAYOUT RANGES

The achievement factor for each of the performance metrics was determined by multiplying the weight attributed to each performance metric by the applicable payout percentage for each metric. For corporate EBITDA, West Segment EBITDA and operating cash flow, payout percentages were determined by calculating actual achievement against the target amount based on a pre-established scale.

Financial Performance Targets

For corporate EBITDA, payout percentages for actual performance between the specified threshold level and 138% of target and between 138% of target and the maximum level, were adjusted on a linear basis. For corporate Operating Cash Flow, payout percentages for actual performance between the specified threshold level and 125% of target and between 125% of target and the maximum level, were adjusted on a linear basis. The following table shows the payout percentages associated with various levels of achievement of corporate EBITDA and corporate Operating Cash Flow:

	2018 Payout Percentage			
	25% (Threshold)	100% (Target)	138%	200% (Maximum)
2018 Corporate EBITDA (Percentage of Target)	90%	100%	105%	110%

Edgar Filing: Summit Materials, Inc. - Form DEF 14A

	0% (Threshold)	100% (Target)	125%	150% (Maximum)
2018 Corporate Operating Cash Flow (Percentage of Target)	90%	100%	105%	110%

Both financial performance targets for 2018 required meaningful year-over-year financial growth compared to 2017 as shown in the table below.

	2017 Adjusted Target	2018 Initial Target
Corporate EBITDA (\$ Millions)	\$ 457.1	\$ 483.3
Corporate Operating Cash Flow (\$ Millions)	\$ 217.2	\$ 243.6

Safety Performance Targets

The overall safety metric achievement factor equals the sum of each metric's payout percentage multiplied by its weighting. The maximum payout opportunities for the safety metrics is 150% of target. For the safety metrics, payout percentages for actual achievement between the specified threshold, target and maximum levels were adjusted on a linear basis. For the safety metrics below, the lower the result, the stronger the performance. Most safety targets required year-over-year improvement in

Table of Contents

performance, with the exception of CPMH, which was set higher than the previous year's result, as CPMH achieved in 2017 was exceptionally low. The 2018 CPMH target represented continued strong focus on this metric.

	2018 Payout Percentage		
	0% (Threshold)	100% (Target)	150% (Maximum)
RIR 40% Safety	1.38	1.20	0.74
LTIR 20% Safety	0.14	0.12	0.06
PVIR 20% Safety	0.86	0.75	0.47
CPMH 20% Safety	0.163	0.150	0.119

Personal Performance Goals

Personal performance goals may be focused on any combination of corporate, business-unit, or role-specific accomplishments or behaviors that focus executives on accomplishing our long-term business plan. The maximum payout under the Personal Performance Goal portion of the annual incentive is 150% of target.

Segment Goals

Edgar Filing: Summit Materials, Inc. - Form DEF 14A

For Mr. Evans, West Segment EBITDA and West Segment Cash Flow payout percentages were determined by calculating actual achievement against the target amount based on a pre-established scale. Payout percentages for actual performance between the specified threshold, target and maximum levels were adjusted on a linear basis. The following table shows the payout percentages associated with threshold, target and maximum achievement of West Segment EBITDA and West Segment Cash Flow:

Payout Percentage

	25% (Threshold)	100% (Target)	200% (Maximum)
West Segment EBITDA (Percentage of Target)	85%	100%	120%
West Segment Cash Flow (Percentage of Target)	85%	100%	120%

Table of Contents

For Mr. Evans, the West Segment safety metric achievement factor equals the sum of each West Segment metric's payout percentage multiplied by its weighting. The maximum payout opportunities for the West Segment safety metrics is 150% of target. For the West Segment safety metrics, payout percentages for actual achievement between the specified threshold, target and maximum levels were adjusted on a linear basis. For the safety metrics below, the lower the result, the stronger the performance.

2018 ACTUAL PERFORMANCE AND PAYOUTS

No bonuses were approved for 2018 performance.

Actual annual cash incentive awards are calculated by multiplying each NEO's actual base salary by his target award potential, which was then adjusted by an overall achievement factor based on the combined weighted achievement of the components described above, including an evaluation of each NEO's personal objectives. Actual results for the 2018 annual incentive plan were certified by the Compensation Committee, as follows, based on the performance goals and funding scales approved in the first quarter of 2018:

	Initial Target	Adjusted Target(1)	Actual Results(2)	Weighted Payout Percentage	Achievement Factor
Corporate EBITDA (\$ Millions)	\$ 483.3	\$511.3	\$408.9	0%	0%
Corporate Operating Cash Flow (\$ Millions)	\$ 243.6	\$248.8	\$113.8	0%	0%
West Segment EBITDA (\$ Millions)	\$ 230.6	\$243.8	\$188.2	0%	0%
West Segment Cash Flow (\$ Millions)	\$ 106.1	\$98.3	\$51.7	0%	0%

(1) Initial targets were adjusted in 2018 to account for acquisitions and dispositions completed during the year.

(2) See "Reconciliation of Non-GAAP Measure to GAAP" on Annex A.

The payout percentages for the safety metrics were as follows: corporate safety was 44% of target, resulting in an achievement factor of 4.4% for each NEO other than Mr. Evans; and West Segment safety for Mr. Evans was 22% of target, resulting in an achievement factor of 2.2%.

Edgar Filing: Summit Materials, Inc. - Form DEF 14A

Although NEOs achieved many of their personal goals and a number of their safety goals, in light of the below-threshold performance under our EBITDA and cash flow goals, **the Compensation Committee elected not to pay any annual incentives to NEOs for 2018 performance, as illustrated in the table below.**

			Overall Achievement Factor as a Percentage of Base Salary	Annual Cash Incentive Achieved	Annual Cash Incentive Approved

Table of Contents**Long-Term Equity Incentives****ON-GOING POST-IPO LONG-TERM INCENTIVES**

Our equity incentives for NEOs in 2018 consisted of a balance of performance units (50%) and RSUs (50%). The Compensation Committee elected to discontinue granting stock options as a part of regular equity grants in order to better align our long-term equity incentives with market practice in our industry. The Compensation Committee uses competitive market data from our annual total compensation study to assist with targeted long-term incentive value. In addition, the Compensation Committee considers individual performance, potential future contributions to our business, internal equity and management's recommendations except in the case of the CEO.

Performance Units Granted in 2018

The 2018 performance units focus our executives on the long-term performance of the Company relative to industry peers. The 2018 performance units vest at the end of a three-year performance period, based on our TSR ranking relative to a TSR peer group ("Relative TSR") defined as the Materials and Capital Goods companies (consisting of companies in GICS industry groups 2010 and 1510), from the S&P 400 Midcap Index. This peer group is separate and distinct from the peer group used to evaluate and set NEO compensation levels discussed under " Compensation Decision Process Role of Peer Companies and Competitive Market Data." The Relative TSR peer group represents a broader array (approximately 125 companies for TSR performance grants in 2016 and 2017 and 65 companies for TSR performance grants in 2018) of industry peers competing for stockholders and investors.

The performance period for the performance units granted in February 2018 began on January 1, 2018 and ends on December 31, 2020 and are earned based on performance against the target below. Earned amounts will be interpolated on a straight-line basis for performance between the stated percentiles.

Level of Achievement

	Below Threshold	Threshold	Target	Maximum	Cap (if applicable)
Relative TSR Position	< 30 th percentile	30 th percentile	50 th percentile	75 th percentile	Capped at 100% if Company TSR is negative over performance period, regardless of ranking
Achievement Percentage	0%	50% of target	100% target	200% of target	

See " Treatment of Long-Term Incentive Awards Upon Termination or Change in Control" for a description of the potential vesting of the NEOs' equity awards that may occur in connection with certain termination events and a change in control.

Table of Contents

For 2018, the Compensation Committee set the target pay levels and made the grants set forth in the table below.

	2018 Target Long-Term Incentive as % of Base Salary	2018 Target Long-Term Incentive	Performance Stock Units Granted (#)	Restricted Stock Units Granted (#)
Thomas W. Hill(1)	360%	\$ 3,240,000	51,757	51,757

M. Shane Evans	125%	\$ 541,763	8,654	8,654
Damian J. Murphy(3)	N/A	N/A	N/A	N/A

(1) Mr. Hill's target 2018 LTI grant value was increased at the beginning of 2018 to reflect his strong 2017 performance.

(2) In connection with the commencement of Mr. Watson's employment in January 2018, he was granted an initial equity award of 64,164 RSUs with a grant date fair value of \$2 million, which vest in equal annual installments over a three-year period.

(3) The Board did not set a target pay level or make any grants to Mr. Murphy because of his planned departure from the Company on March 31, 2018.

Performance Units Earned for the Performance Period 2016-2018

No performance shares were earned for the 2016-2018 performance cycle ended on December 31, 2018.

In 2016, we granted performance units to our NEOs (except for Mr. Watson) that were subject to similar performance conditions as the performance units granted in 2018. Specifically, the performance units were scheduled to vest after a three-year performance period beginning January 1, 2016 and ending December 31, 2018 based on our Relative TSR to companies in the S&P Building & Construction Select Industry Index, using beginning and ending stock prices based on the trailing 20-day average closing price. Because our TSR over the performance period fell below the threshold for payout of the 30th percentile of index comparators, no units underlying the 2016 award vested.

Pre-IPO Long-Term Incentive Value (2016 and 2018 Grant Modifications Addressing Misalignment)

Certain of the amounts reported in the Summary Compensation Table and the 2018 Grants of Plan-Based Awards Table reflect the modification of our pre-initial public offering ("IPO") long-term incentive awards that are not related to our ongoing long-term incentive program and are not part of our ongoing compensation structure. The performance-vesting long-term incentive awards issued prior to our IPO contained vesting conditions tied to the investment return of certain of our pre-IPO investors and were designed to align management's incentives with the liquidity objectives of such pre-IPO investors. During 2016, our Board determined that maintaining the investment return conditions following our IPO created a potential misalignment whereby management's incentives were not in sync with long-term value creation for all public stockholders. Accordingly, our Board, after thorough review and consultation with the Independent Compensation Consultant, determined that it was in the best interests of the Company and its stockholders to remove the investment return condition associated with these remaining awards. Similarly, during 2018, to continue its effort to mitigate misalignment of pre-IPO compensation plan design and shareholder value for our post-IPO

stockholders, and to reduce the significant corporate resource expenditures associated with maintaining the pre-IPO compensation plan, our Board approved the accelerated vesting of all remaining pre-IPO time-vested LP Units held by Company employees, including NEOs (except Mr. Murphy whose time-vesting LP Units were accelerated pursuant to the Agreement and Release in connection with his departure from the Company on March 31). See "Narrative Disclosure to Summary Compensation Table and Grants of Plan-Based Awards Table Pre-IPO Long-Term Incentive Awards (Value From Modifications to Eliminate Misalignment Post-IPO)" below.

Retirement, Perquisites, and Other Benefits

We have a tax-qualified contributory retirement plan established to qualify as a deferred salary arrangement under Section 401(k) of the Internal Revenue Code of 1986, as amended (the "Code"). The plan covers all U.S. employees, including our NEOs, who are limited to their annual tax deferred contribution limit as allowed by the Internal Revenue Service (the "IRS"). We provide for matching contributions to the plan, including 100% of pre-tax employee contributions, up to 4% of eligible compensation. Employer contributions vest immediately.

The Company also offers the members of a select group of management or highly compensated employees, including the NEOs, the opportunity to supplement their retirement savings through the Summit Materials Deferred Compensation Plan (the "DCP"). An eligible participant in the DCP may elect to defer up to 50% of such participant's base salary compensation and up to 100% of such participant's designated discretionary bonus award compensation and annual incentive award compensation. The DCP also permits Company-provided credits to participants' accounts, but no such credits are currently being made. Additional information about the DCP is reflected in " 2018 Non-Qualified Deferred Compensation" below.

Compensation Discussion and Analysis How We Paid

Our Compensation Philosophy

Our executive compensation program is intended to attract, motivate and retain executive officers and to align the interests of our executive officers with stockholders' interests.

The Board's objectives for our program include, but are not limited to, the following:

Say-on-Pay Votes

In 2018, the Compensation Committee considered the outcome of the stockholder advisory vote on 2017 executive compensation when making decisions relating to the compensation of our NEOs and our executive compensation program and policies. Our stockholders voted at our 2018 annual meeting, in a nonbinding advisory vote, on the 2017 compensation paid to our NEOs. Our stockholders overwhelmingly (98%) approved the compensation of our NEOs. Based on the level of support, the Compensation Committee determined that stockholders generally support our compensation practices. The Compensation Committee intends to continue to consider the views of our stockholders when designing, reviewing and administering the Company's compensation programs and policies.

Compensation Decision Process

Role of the Compensation Committee

The Compensation Committee is responsible to our Board for oversight of our executive compensation program. The Compensation Committee is responsible for the review and approval of all aspects of our program.

Among its duties, the Compensation Committee is responsible for:

Assessing competitive market data from Aon, our independent compensation consultant (the "Independent Compensation Consultant")

Reviewing each NEO's performance in conjunction with competitive market data and, accordingly, approving compensation recommendations including, but not limited to, base salary, annual bonus, long-term incentives, and benefits/perquisites

Considering, recommending and approving incentive plan goals and achievement levels

Incorporating meaningful input from our stockholders, if applicable

Edgar Filing: Summit Materials, Inc. - Form DEF 14A

Role of Management

For each NEO excluding himself, our CEO recommends to the Compensation Committee compensation levels for NEOs based on a review of market data and individual performance. The Compensation Committee reviews and discusses all recommendations prior to approval, then submits all recommendations to the Board for approval.

For the CEO, during executive session without the CEO present, the Compensation Committee is solely responsible for assessing performance and making compensation recommendations to the Board for approval. Management does not make compensation-related recommendations for the CEO.

Table of Contents

Role of the Independent Compensation Consultant

In 2018, the Compensation Committee retained the Independent Compensation Consultant in accordance with the Compensation Committee's charter. The Independent Compensation Consultant reports directly to the Compensation Committee. The Compensation Committee retains sole authority to hire or terminate the Independent Compensation Consultant, approve its fees, determine the nature and scope of services and evaluate the Independent Compensation Consultant's performance.

A representative of the Independent Compensation Consultant attends Compensation Committee meetings, as requested, and communicates with the Compensation Committee chair between meetings. The Compensation Committee makes all final decisions and recommendations.

The Independent Compensation Consultant's roles include, but are not limited to, the following:

Advising the Compensation Committee on executive compensation trends and regulatory developments;

Developing a peer group of companies for determining competitive compensation amounts and practices;

Providing a total compensation study for executives against peer companies;

Providing advice to the Compensation Committee on governance best practices, as well as any other areas of concern or risk; and

Reviewing and commenting on proxy disclosure items, including the CD&A.

The Compensation Committee has assessed the independence of the Independent Compensation Consultant, considering all relevant factors, including those set forth in Rule 10C-1(b)(4)(i) through (vi) under the Securities Exchange Act of 1934, as amended. Based on this review, the Compensation Committee concluded that there are no conflicts of interest raised by the work performed by the Independent Compensation Consultant and that the Independent Compensation Consultant is independent.

Role of Peer Companies and Competitive Market Data

In the Fall of 2017, to assist with 2018 compensation decisions, the Independent Compensation Consultant performed a competitive pay study. To develop competitive market values for the NEOs, the Independent Compensation Consultant developed, and the Compensation Committee approved, a peer group of 17 companies.

The peer group development criteria included:

Industry: Companies in the building products or construction materials industries

Company size: Approximately 0.5x to 2x times our annual revenues

Edgar Filing: Summit Materials, Inc. - Form DEF 14A

ISS: Companies considered by Institutional Shareholder Services ("ISS") to be the Company's compensation peers and used in ISS' annual report regarding the Company

Peers of Peers: Companies used in the peer groups of potential peer companies

Competitors: Companies that compete with us for business and management talent

Consistency: Companies contained in the peer group in the prior year

The approved peer group had annual revenues which ranged from approximately \$860 million to \$3.9 billion, with median annual revenue of approximately \$2.0 billion. Our 2017 annual revenue was approximately \$1.9 billion. The Independent Compensation Consultant developed size-adjusted market values (regression analysis) for each position using our annual revenue.

The 50th percentile for total compensation is a key reference point for the Compensation Committee; however, the Compensation Committee also considers other factors, including, experience, performance and expected future contributions. For positions where peer company proxy data was not available, the Independent Compensation Consultant utilized published and private compensation survey sources.

TIMING OF COMPENSATION DECISIONS

Pay recommendations for our executives, including the NEOs, are typically made by the Compensation Committee at its first scheduled meeting of the fiscal year, typically held in February around the same time we report our fourth quarter and year-end financial results for the preceding fiscal year and provide our financial guidance for the upcoming year (the "first meeting"). This timing allows the Compensation Committee to have a complete financial performance picture prior to making compensation decisions.

Decisions with respect to prior year performance, as well as annual equity awards, base salary increases and target performance levels for the current year are typically made at the first meeting. Any equity awards recommended by the Compensation Committee at this meeting are reviewed by the Board and, if approved, are dated on or within a few days of the date of the Board meeting held later that day or the following day. As such, the Compensation Committee does not time the grants of equity incentives to the release of material non-public information.

The exceptions are: grants to executives who are promoted or hired from outside the Company during the year, and discretionary grants made throughout the year for retention and extraordinary purposes. These executives may receive compensation changes or equity grants effective or dated, as applicable, as of the date of their promotion, hiring date, or other Board approval date.

DETERMINATION OF CEO COMPENSATION

At the first meeting, in executive session without the CEO present, the Compensation Committee also reviews and evaluates CEO performance, and determines performance achievement levels, for the prior fiscal year. The Compensation Committee also reviews competitive compensation data from the peer group companies. The Compensation Committee typically approves, or presents pay recommendations for the CEO to the Board, excluding the CEO, for approval. If applicable, during executive session, the Board conducts its own review and evaluation of the CEO's performance taking into consideration the recommendations of the Compensation Committee.

EQUITY PLAN

The Company maintains the Omnibus Incentive Plan which allows for grants of equity-based awards in the form of stock options, stock appreciation rights, restricted stock and restricted stock units ("RSUs"), performance units, undivided fractional limited partnership interests in Summit Holdings and other stock-based awards.

Other Compensation Policies

STOCK OWNERSHIP GUIDELINES

We have established stock ownership guidelines for our CEO, officers reporting to the CEO, and directors. The approved guidelines are as follows:

CEO: 6x base salary

Officers reporting to the CEO: 2.5x base salary

Directors: 3x annual cash retainer

Participants are expected to comply with the ownership requirements within five years of the later of (a) December 12, 2015 and (b) an appointment to a qualified position. Once the ownership requirements have been satisfied, future declines in share price will not affect compliance so long as the participant holds the number of equity interests he or she had at the time he or she achieved the expected ownership level. As of February 28, 2019, all of our executive officers have met or exceeded the ownership expectations under the guidelines.

The following components satisfy the ownership guidelines: Equity interests owned directly or indirectly (e.g., by or with a spouse or held in trust for the individual or one or more family members of the individual), equity interests, including limited partnership interests (the "LP Units") and unvested RSUs, held in qualified or nonqualified savings, profit sharing, or deferred compensation accounts, value of in-the-money spread of shares underlying vested but unexercised stock options and value of in-the-money spread of shares underlying vested but unexercised warrants. At least annually, the Compensation Committee monitors participants' compliance with these guidelines.

INCENTIVE COMPENSATION RECOUPMENT ("CLAWBACK") POLICY

Each of the RSU, stock option and performance unit award agreements under the Omnibus Incentive Plan generally provides that if a restrictive covenant violation occurs or the Company discovers after a termination of employment or services that grounds existed for "cause" (as defined in the Omnibus Incentive Plan) at the time thereof, then the participant shall be required, in addition to any other remedy available (on a non-exclusive basis), to pay to the Company, within ten business days of the Company's request to the participant therefor, an amount equal to the aggregate after-tax proceeds (taking into account all amounts of tax that would be recoverable upon a claim of loss for payment of such proceeds in the year of repayment) the participant received upon the sale or other disposition of, or distributions in respect of, the equity award thereunder and any shares issued in respect thereof (minus, in the case of options, the aggregate cost (if any) of the shares). Without limiting the foregoing, all awards are subject to reduction, cancellation, forfeiture or recoupment to the extent necessary to comply with applicable law. Our policy will be updated to comply with the SEC's final regulations as part of the Dodd-Frank Act.

Compensation Risk Assessment

Our governance policies and compensation structure are not reasonably likely to have a material adverse effect on the Company. The Independent Compensation Consultant and management delivered a compensation risk assessment report to the Compensation Committee in 2018. The following features of our program mitigate risk:

The Compensation Committee consults with the Independent Compensation Consultant to assist with annual compensation decisions

The Compensation Committee approves the annual incentive plan's financial goals at the start of the fiscal year, and approves the performance achievement level and final payments earned at the end of the fiscal year

The Compensation Committee benchmarks total compensation opportunity for executive positions using multiple survey sources and has discretion over payout calculations and oversight of compensation plans for our executives

We utilize a mix of cash and equity variable incentive programs, with a balanced mix of RSUs and performance units, which are subject to multi-year vesting

Our performance units payout opportunities are capped at 200% of the target total opportunity

We utilize competitive change-in-control severance programs to help ensure executives continue to work towards our stockholders' best interests in light of potential employment uncertainty

Executive officers are subject to minimum stock ownership guidelines

An incentive clawback policy permits the Company to recoup equity-based compensation paid on the basis of financial results that are subsequently restated

The amounts reported in the Stock Awards column for 2018 reflect the aggregate grant date fair value of stock awards granted in fiscal 2018, calculated in accordance with ASC 718, utilizing the assumptions discussed in

Note 13, *Stock-Based Compensation*, to our audited consolidated financial statements included in the 2018 Annual Report. The fiscal 2018 awards consist of time-vesting RSUs and performance units. As the performance units vest according to Relative TSR, they are subject to market conditions, and not performance conditions, as defined under ASC 718, and therefore have no maximum grant date fair values that differ from the grant date fair values presented in the table.

- (2) As described in "Narrative Disclosure to Summary Compensation Table and Grants of Plan-Based Awards Table Pre-IPO Long-Term Incentive Awards (Value From Modifications to Eliminate Misalignment Post-IPO)," the amounts reported in the Stock Awards column for 2016 include the incremental fair value computed as of the modification date in accordance with ASC 718 with respect to Messrs. Hill, Harris, and Brady associated with the 2018 Modification.
- (3) As described in "Potential Payments Upon Termination or Change in Control Departure of Damian J. Murphy," on January 17, 2018, our Board amended the terms of Mr. Murphy's outstanding equity awards. Accordingly, the amount reported in this column for fiscal 2018 for Mr. Murphy includes the incremental fair value computed as of the modification date in accordance with ASC 718 with respect to his modified Leverage Restoration Options and option awards, in the amounts of \$1,931,736 and \$175,706, respectively.
- (4) Reflects non-equity incentive plan compensation awards for services rendered during the fiscal year presented. For more information, see "Compensation Discussion and Analysis Compensation Elements Annual Cash Incentives."
- (5) All Other Compensation includes the following items for 2018: (a) amounts contributed by Summit LLC under the Summit Materials, LLC Retirement Plan, (b) payments for term life and/or disability insurance, and (c) with respect to Mr. Murphy, cash severance payments totaling \$298,204 and pro-rata fiscal year 2018 bonus of \$58,824 pursuant to the terms of the Agreement and Release as discussed in "Potential Payments Upon Termination or Change in Control Departure of Damian J. Murphy. Amounts contributed to the Summit Materials, LLC Retirement Plan are matching contributions up to 4% of eligible compensation subject to IRS limits and totaled \$10,400 for each of the NEOs in 2018, except for Mr. Murphy whose amount contributed was \$4,095. Matching contributions are immediately vested. For more information, see "Compensation Discussion and Analysis Compensation Elements Retirement, Perquisites, and Other Benefits." Payments for term life and/or disability insurance in 2018 were as follows: Mr. Hill, \$13,293; Mr. Harris, \$3,564; Mr. Watson, \$932; Mr. Brady, \$2,892; Mr. Evans, \$5,459; and Mr. Murphy, \$151."

Reflects the possible payouts of cash incentive compensation under the Non-Equity Incentive Plan. Amounts reported in the "Threshold" column assume that there is no payout under the EBITDA, cash flow or personal

objectives components of the annual cash incentive program and that each NEO only earns the minimum payout for the one safety metric that has been assigned the lowest weighting. The actual amounts paid are described in the "Non-Equity Incentive Plan Compensation" column of the "Summary Compensation Table."

- (2) Reflects the performance units granted in 2018, which have a three-year performance period ending December 31, 2020, and vest based on Relative TSR. Threshold assumes that 50% of the total performance units awarded vest and maximum assumes that 200% of the total performance units awarded vest. The amounts reported under "Modified Awards" for Mr. Murphy reflect his performance units that were modified on January 17, 2018 and remain outstanding as described in "Potential Payments Upon Termination or Change in Control Departure of Damian J. Murphy."
- (3) January 17, 2018 is the date on which Mr. Murphy's LP Units, Leverage Restoration Options, performance units, RSUs and Stock Options were modified as described in "Potential Payments Upon Termination or Change in Control Departure of Damian J. Murphy."

- (6) Represents the grant date fair value of the performance units and RSUs granted in 2018 with respect to the NEOs (except for Mr. Murphy) and the incremental fair value computed as of the modification date in connection with ASC 718 with respect to Mr. Murphy's LP Units, Leverage Restoration Operations, performance units, RSUs and Stock Options that were modified on January 17, 2018. The assumptions applied in determining the fair value of the awards are discussed in Note 13, *Stock-Based Compensation*, to our audited consolidated financial statements included in the 2018 Annual Report.

Employment Arrangements

Messrs. Hill and Harris each have employment agreements and Messrs. Brady, Evans and Watson have signed offers of employment. Their employment agreements and offers of employment provide for base salary subject to annual adjustment by the Board, an annual incentive award, participation in Company-sponsored broad-based and executive benefit plans and such other compensation as may be approved by the Board. In connection with implementing the Executive Severance Plan (the "Severance Plan"), Messrs. Hill and Harris waived the provisions in their employment agreements that would have applied under the conditions set forth in the Severance Plan, other than any provisions in their employment agreements which were intended to survive the termination of such employment agreements.

In connection with Mr. Murphy's departure from the Company, he entered into the Agreement and Release dated January 17, 2018. The terms of the Agreement and Release are described below under "Potential Payments Upon Termination or Change in Control Departure of Damian J. Murphy."

Pre-IPO Long-Term Incentive Awards (Value From Modifications to Eliminate Misalignment Post-IPO)

Prior to the Company's IPO in March 2015, the equity-based long-term incentive program consisted of Class D interests. In connection with the Company's IPO in March 2015, the limited partnership agreement of Summit Holdings was amended and restated to, among other things, modify its capital structure by creating LP Units (the "Reclassification"). Immediately following the Reclassification, 69,007,297 LP Units were outstanding, which were reclassified from previously issued Class A-1, Class B-1, Class C, Class D-1 and Class D-2 interests. The Class A-1, Class B-1 and Class C interests, which were issued in respect of pre-IPO investments and not related to employee compensation, were fully vested as of the Reclassification. A portion, but not all, of the Class D-1 interests were vested, and none of the Class D-2 interests were vested. Accordingly, vested and unvested Class D interests were converted into vested and unvested LP Units, respectively. The vesting terms were substantially similar to those applicable to the unvested Class D interests immediately prior to the Reclassification. As of their respective grant date, approximately half of the Class D-1 interests were time-vesting interests and approximately half of the D-1 interests and all of the D-2 interests were performance-vesting interests.

In addition, in substitution for part of the economic benefit of the Class C and Class D interests that was not reflected in the conversion of such interests to LP Units, warrants were issued to holders of Class C interests to purchase an aggregate of 160,333 shares of Class A Common Stock, and options were issued to holders of Class D interests to purchase an aggregate of 4,358,842 shares of Class A Common Stock ("Leverage Restoration Options"). The exercise price of the warrants and Leverage Restoration Options was the IPO price of \$18.00 per share. The Leverage Restoration Options were granted under the Omnibus Incentive Plan. All Leverage Restoration Options vest over four years at a rate of 25% of the award on each of the first four anniversaries of the Reclassification, subject to the employee's continued employment through the applicable vesting date. The Leverage Restoration Options that correlated to performance-vesting interests vested only if both the relevant return multiple was achieved and the four year time-vesting condition was satisfied.

On August 9, 2016, our Board upon the recommendation of the Compensation Committee, determined that it was in the best interest of the Company and its stockholders to remove the 3.00 times investment return condition on the approximately 23% remaining pre-IPO performance-vesting LP Units and Leverage Restoration Options. As a result, all pre-IPO performance-vesting LP Units are now fully vested and the performance-vesting Leverage Restoration Options continue to be subject to the same four-year time vesting condition as the time-vesting Leverage Restoration Options.

In 2018, the Board continued its effort to mitigate misalignment of pre-IPO compensation plan design and the interests of post-IPO public stockholders. A sub-committee of the Compensation Committee consisting of members that do not hold LP Units (the "Sub-Committee") determined that vesting would be accelerated for all remaining pre-IPO time-vested LP Units held by Company employees, including NEOs (except Mr. Murphy whose time-vesting LP Units were accelerated pursuant to the Agreement and Release in connection with his departure from the Company on March 31), on February 28, 2018 (the "2018 Modification"). It should be noted that a majority of the remaining time-vesting LP Units were scheduled to vest during 2018 with the remainder vesting during the first quarter of 2019, and that the 2018 Modification had the effect of reducing the significant

corporate resource expenditures associated with maintaining the pre-IPO plan. The incremental fair value computed in accordance with FASB ASC Topic 718 with respect to 2018 Modification for each of the NEOs is shown in the table below.

Pursuant to the DCP, an eligible participant may elect to defer up to 50% of such participant's base salary compensation (in 5% increments) and up to 100% of such participant's designated discretionary bonus award compensation and annual incentive award compensation (in 5% increments). Deferral elections are generally made by participants prior to the close of the taxable year preceding the taxable year for which the applicable compensation is earned. The DCP also permits Company-provided credits to participants' accounts, but no such credits are currently being made. Participants are permitted to make individual investment elections that will determine the rate of return on their deferral amounts

under the DCP and may change their investment elections at any time. Deferrals are only deemed to be invested in the investment options selected. Participants have no ownership interest in any of the funds as investment elections are used solely to measure the amounts of investment earnings or losses that will be credited or debited to the participants' accounts on the Company's books and records. Investment funds are valued each day that the NYSE is open for trading. Participant deferrals under the DCP and the earnings thereon are always 100% vested.

A DCP participant may elect, at the time of such participant's deferral elections, to receive benefit distributions upon (i) separation from service with the Company or (ii) following the earlier of (a) a specified date that occurs no earlier than at least three years from the end of the calendar year in which the deferred compensation is credited or (b) separation from service with the Company. Additionally, a DCP participant may elect,

at the time of such participant's deferral elections, to receive benefit distributions in the form of (i) a single lump sum payment or (ii) for distributions following retirement, annual installments with an installment term of between two and 15 years. A participant may elect to change the benefit distribution date and/or form under certain circumstances specified in the DCP. In addition, in the event of certain unforeseeable emergencies, a participant may apply for immediate distribution in an amount necessary to satisfy such financial hardship and the tax liability attributable to such distribution. In the event of a participant's death or disability, the entire value of such participant's account will be distributed in a single lump sum.

Potential Payments Upon Termination or Change in Control

EXECUTIVE SEVERANCE PLAN

The Board, upon the recommendation of the Compensation Committee, adopted the Severance Plan in December 2017, which provides severance benefits to certain executive officers of the Company and its affiliates in the event that an eligible employee experiences a termination of employment by the Company without "cause" (and other than due to death or disability) or by the employee as a result of a "constructive termination" (as such terms are defined in the Severance Plan) (each, a "Qualifying Termination"). In the event that a Qualifying Termination occurs during the two-year period beginning on the date of a change in control (each such termination, a "Qualifying Change in Control Termination"), the Severance Plan provides enhanced severance benefits. In connection with implementing the Severance Plan, all participants in the Severance Plan waived the provisions of any applicable employment agreement that would have applied under the conditions set forth under the Severance Plan, other than any provisions in such employment agreements which were intended to survive the termination of such employment agreement.

Table of Contents

Each participant in the Severance Plan (a "Participant") is designated as a Tier 1 Participant or Tier 2 Participant. Tier 1 Participants are limited to the Chief Executive Officer. Tier 2 Participants are limited to Executive Vice Presidents. Accordingly, Mr. Hill is a Tier 1 Participant and Messrs. Brady, Evans, Harris, and Watson are each Tier 2 Participants. In addition, Mr. Murphy was a Tier 2 Participant.

In the event of a Qualifying Termination, Participants are provided with the following payments and benefits:

a pro-rata payment representing the amount otherwise payable under the annual bonus program for the fiscal year in which termination of the Participant's employment occurs, based on actual performance and payable concurrently with cash bonus payments to other employees (but in all events on or about March 15 of the immediately following fiscal year) (a "Pro-Rata Bonus"), and to the extent not previously paid, the amount otherwise payable under the annual bonus program for the immediately preceding fiscal year, payable concurrently with cash bonus payments to other employees (a "Prior Year Bonus");

a cash payment of (i) for a Tier 1 Participant, 2.5 times the Participant's annual base salary, payable over a period of 30 months, and (ii) for a Tier 2 Participant, 2 times the Participant's annual base salary, payable over a period of 24 months; and

a cash payment in an amount equal to the total amount of the monthly COBRA insurance premiums for participation in the life, health, dental and disability benefit programs of the Company in which the Participant participated as of the date of termination, payable monthly in accordance with the Company's payroll practices, (i) for a Tier 1 Participant, for up to 30 months, and (ii) for a Tier 2 Participant, for up to 24 months (the "COBRA Benefits").

In the event of a Qualifying Change in Control Termination, Participants are provided with the following payments and benefits:

a Pro-Rata Bonus, and, if applicable, a Prior Year Bonus;

a cash payment of (i) for a Tier 1 Participant, 2.5 times the sum of the Participant's annual base salary and target annual bonus, and (ii) for a Tier 2 Participant, 2 times the sum of the Participant's annual base salary and target annual bonus, in each case of (i) and (ii), payable in a lump sum no later than the 60th day following the date of termination; and

the COBRA Benefits.

The payments and benefits provided under the Severance Plan are subject to each Participant's execution and delivery of a release of claims and each Participant's compliance with non-competition, non-disparagement, non-solicitation and confidentiality covenants applicable pursuant to each Participant's Participation Notice and Agreement under the Severance Plan. The non-disparagement and confidentiality covenants each have an indefinite term and the non-competition and non-solicitation covenants each have a term of 12 months following the Participant's date of termination (18 months for Mr. Hill). Additionally, the Severance Plan provides that if a Participant is subject to an excise tax under Section 4999 of the Code, then the payments and benefits the Participant receives may be reduced so that the excise tax does not apply; however, such reduction will only occur if it results in the receipt of a greater after-tax severance than would otherwise be provided.

DEPARTURE OF DAMIAN J. MURPHY

In January 2018, the Company announced that Damian J. Murphy would leave his role as the Company's Executive Vice President and East Division President, effective March 31, 2018. In connection with his departure from the Company, Mr. Murphy and Summit Holdings and, solely for certain purposes specified therein, the Company, entered into the Agreement and Release dated January 17, 2018. Pursuant to the Agreement and Release, the Company agreed to provide Mr. Murphy with his pro-rata fiscal year 2018 bonus of \$58,824 based on target performance for such fiscal year instead of based on actual performance as provided in the Severance Plan. Mr. Murphy's base salary as of the date of his separation was \$397,605 per year. For purposes of the Company's Executive Severance Plan (the "Severance Plan"), Mr. Murphy's departure from the Company constitutes a "Qualifying Termination" and entitles him to the payments and benefits thereunder; provided, however, the Company has agreed to provide Mr. Murphy with his pro-rata fiscal year 2018 bonus based on target performance for such fiscal year instead of based on actual performance as provided in the Severance Plan.

Edgar Filing: Summit Materials, Inc. - Form DEF 14A

In addition, all of Mr. Murphy's outstanding unvested equity awards, other than (i) the final one-third tranche of each of his stock options and RSUs, in each case, granted in 2017 and (ii) his performance units, received accelerated vesting as of his departure date. Accelerated options granted in 2016 and 2017 are not exercisable prior to the respective dates on which such options otherwise would have vested in accordance with the terms of the original award agreements. Accelerated Leverage Restoration Options will not be exercisable until the end of the extended non-competition period described below. A pro-rated portion of Mr. Murphy's outstanding performance units will remain eligible to vest at the end of the performance period in accordance with their terms, based on actual performance.

In consideration of the aforementioned payments and benefits, including the accelerated treatment of his equity awards, Mr. Murphy agreed to extend compliance with the non-competition and non-solicitation covenants under the Severance Plan by an additional six months, for a total term of 18 months following Mr. Murphy's March 31, 2018 departure from the Company.

Treatment of Long-Term Incentive Awards Upon Termination or Change in Control

Each of the RSUs, stock options and performance units granted in 2018 is subject to restrictive covenants related to post-employment (i) employee, client and consultant non-solicitation and (ii) non-competition, in each case for 12 months following any termination of employment and indefinite covenants covering confidentiality and non-disparagement (participant only). Further, the equity awards and all proceeds therefrom are generally subject to the Company's clawback policy, as in effect from time to time, to the extent the participant is a director or "officer" as defined under Rule 16a-1(f) of the Exchange Act. Additional provisions regarding the treatment of the equity awards upon a termination of employment are outlined in the table below.

Award Type	Termination or Change in Control Provisions
-------------------	--

Death or Disability: Unvested portion will immediately vest; vested stock options remain exercisable for one year thereafter.(1)

Retirement(2): Unvested portion will continue to vest according to the original vesting schedule; vested stock options remain exercisable for five years after the later of (i) the termination date and (ii) the date the option becomes vested and exercisable.

Stock Options

Constructive Termination(3) / By the Company Without Cause: Prorated portion of the number of options that would otherwise vest on the next applicable vesting date will immediately vest(4); vested stock options remain exercisable for three months thereafter.

Table of Contents**TERMINATION BENEFITS TABLE**

The following table describes the potential payments and benefits under the Company's Severance Plan and equity award agreements to which the NEOs would have been entitled assuming an eligible termination of employment or change in control occurred on December 28, 2018, the last business day of fiscal 2018. A description of the provisions governing such payments under our agreements and any material conditions or obligations applicable to the receipt of payments are described above under "Executive Severance Plan" and "Treatment of Long-Term Incentive Awards Upon Termination or Change in Control."

The amounts shown in the table do not include payments and benefits to the extent they are provided generally to all salaried employees upon termination of employment and do not discriminate in scope, terms or operation in favor of the NEOs. These include accrued but unpaid salary and distributions of vested plan balances under our 401(k) savings plans.

In the event of a "constructive termination" or termination by the Company without "cause" (each term as defined in the Severance Plan), the cash severance payment includes the following:

Mr. Hill a cash payment of 2.5 times his annual base salary, payable over a period of 30 months.

Messrs. Harris, Watson, Brady and Evans a cash payment of 2 times each NEO's annual base salary, payable over a period of 24 months.

In the event of a constructive termination or termination by the Company without cause during the two-year period beginning on the date of a change in control of the Company, the cash severance payment includes the following:

Mr. Hill a cash payment payable in a lump sum no later than the 60th day following the date of termination equal to 2.5 times the sum of his annual base salary and target annual bonus for 2018.

Messrs. Harris, Watson, Brady and Evans a cash payment payable in a lump sum no later than the 60th day following the date of termination equal to 2 times the sum of each NEOs annual base salary and target annual bonus for 2018.

- (2) Pro-rata bonus represents the amount otherwise payable under the annual bonus program for the fiscal year in which termination of the Participant's employment occurs, based on actual performance and payable concurrently with cash bonus payments to other employees (but in all events prior to March 15 of the immediately following fiscal year).
- (3) COBRA benefit represents a cash payment in an amount equal to the total amount of the monthly COBRA insurance premiums for participation in the life, health, dental and disability benefit programs of the Company in which the NEO participated as of the date of termination, payable monthly in accordance with the Company's payroll practices. The terms of these payments are the following:
- Mr. Hill for up to 30 months.
- Messrs. Harris, Watson, Brady and Evans for up to 24 months.
- (4) In the event of a Qualifying Change in Control Termination or a Change in Control, the amount reported assumes performance units are not continued, converted, assumed, or replaced by the Company or successor entity and therefore reflects full vesting at target.
- (5) In the event of the death of Messrs. Hill and Evans, in addition to amounts reported in the table above, Messrs. Hill and Evans will receive benefits from third-party payors under our employer-paid premium life insurance plans. If such benefits were triggered for Messrs. Hill and Evans on December 28, 2018 under our life insurance plans the legally designated beneficiary(ies) of Messrs. Hill and Evans would have received \$1,500,000 and \$952,000, respectively.
- (6) As indicated under note (4) above, the amount reported includes the target value of the 2016 Performance Units, which were subsequently not earned as of December 31, 2018, the end of the performance period. The value of 2016 Performance Units for each NEO was \$516,384 (Mr. Hill), \$203,826 (Mr. Harris), \$96,895 (Mr. Brady), and \$101,588 (Mr. Evans) at December 28, 2018.

CEO Pay Ratio

The CEO pay ratio figures below are a reasonable estimate calculated in a manner consistent with Item 402(u) of Regulation S-K under the Exchange Act.

In 2017, we identified our median employee using our global employee population as of December 5, 2017. There was no significant change in our employee population or compensation arrangement in 2018, and there have been no changes in the median employee's circumstances during 2018, that we reasonably believe would result in a significant change in our pay ratio disclosure. Accordingly, we have used the same median employee we identified in 2017 for purposes of calculating our CEO pay ratio for 2018. We identified our median employee for the 2017 pay ratio analysis using the methodology and the material assumptions, adjustments, and estimates described below.

To determine our median employee pay in 2017, we chose taxable wages as our consistently applied compensation measure. We then calculated an annual taxable wage for each employee, annualizing pay for those full-time or part-time permanent employees who commenced work during 2017 or who were on leave for a portion of 2017. We used a valid statistical sampling method to identify the group of employees within a 5%

range of the estimated median level of taxable wages for our employee population. The historical compensation of this group was then analyzed to identify a median employee whose annual total compensation was reasonably representative of the median annual total compensation in respect of 2017 and was also reasonably likely to remain representative of the median in future years.

We calculated the median employee's annual total compensation for 2018 in accordance with the requirements of the Summary Compensation Table. For 2018, the median employee's annual total compensation was \$61,599 and the annual total compensation of our CEO was \$4,689,562, which amount varies from his total compensation amount as reflected in the Summary Compensation Table because each of these amounts includes the value of non-discriminatory employer paid health benefits. Accordingly, for 2018, the ratio of CEO pay to median employee pay was 76:1.

This pay ratio is a reasonable estimate calculated in a manner consistent with SEC rules and the methodology described above. The SEC rules for identifying the median compensated employee and calculating the pay ratio based on such employee's annual total compensation allow companies to adopt a variety of methodologies, to apply certain exclusions, and to make reasonable estimates and assumptions that reflect their compensation practices. As such, the pay ratio reported by other companies may not be comparable to the pay ratio reported above, as other companies may have different employment and compensation practices and may utilize different methodologies, exclusions, estimates and assumptions in calculating their own pay ratios.

OUR AUDITORS

ITEM 3 RATIFICATION OF APPOINTMENT OF KPMG LLP

Table of Contents

INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Representatives of KPMG are expected to attend the Annual Meeting and will have an opportunity to make a statement and to respond to appropriate questions from stockholders.

Consistent with SEC and PCAOB requirements regarding auditor independence, the Audit Committee has responsibility for appointing, setting compensation for and overseeing the work of, the independent registered public accounting firm. In recognition of this responsibility, the Audit Committee has established a policy to pre-approve all audit and permissible non-audit services provided by the independent registered public accounting firm.

Prior to engagement of the independent registered public accounting firm for the next year's audit, management will submit to the Audit Committee for approval a list of services and related fees expected to be rendered during that year within each of the following four categories of services:

Audit services include audit work performed on the financial statements and internal control over financial reporting, as well as work that generally only the independent registered public accounting firm can reasonably be expected to provide, including comfort letters, statutory audits and discussions surrounding the proper application of financial accounting and/or reporting standards.

Audit-Related services are for assurance and related services that are traditionally performed by the independent registered public accounting firm, including due diligence related to mergers and acquisitions, employee benefit plan audits and special procedures required to meet certain regulatory requirements.

Tax services include all services, except those services specifically related to the financial statements, performed by the independent registered public accounting firm's tax personnel, including tax analysis; assisting with coordination of execution of tax-related activities, primarily in the area of corporate development; supporting other tax-related regulatory requirements; tax planning; and tax compliance and reporting.

All Other services are those services not captured in the Audit, Audit-Related or Tax categories.

Prior to engagement, the Audit Committee pre-approves independent registered public accounting firm services within each category and the fees of each category are budgeted. The Audit Committee requires the independent registered public accounting firm and management to report actual fees versus the budget periodically throughout the year by category of service. During the year, circumstances may arise when it may become necessary to engage the independent registered public accounting firm for additional services not contemplated in the original pre-approval categories. In those instances, the Audit Committee requires specific pre-approval before engaging the independent registered public accounting firm.

The Audit Committee may delegate pre-approval authority to one or more of its members. The member to whom such authority is delegated must report, for informational purposes only, any pre-approval decisions to the Audit Committee at its next scheduled meeting. All of the services in the table below were pre-approved by the Audit Committee.

CERTAIN RELATIONSHIPS AND RELATED PERSON TRANSACTIONS

Exchange Agreement

In connection with the IPO, we entered into an Exchange Agreement with the holders of LP Units pursuant to which each holder of LP Units (and certain permitted transferees thereof) may, subject to the terms of the Exchange Agreement, exchange their LP Units for shares of Class A Common Stock on a one-for-one basis, subject to customary conversion rate adjustments for stock splits, stock dividends and reclassifications. The Exchange Agreement also provides that a holder of LP Units will not have the right to exchange LP Units if the Company determines that such exchange would be prohibited by law or regulation or would violate other agreements with the Company or its subsidiaries to which such holder may be subject. The Company may impose additional restrictions on exchange that it determines to be necessary or advisable so that Summit Holdings is not treated as a "publicly traded partnership" for U.S. federal income tax purposes. As a holder exchanges LP Units for shares of Class A Common Stock, the number of LP Units held by the Company is correspondingly increased as it acquires the exchanged LP Units. In accordance with the Exchange Agreement, any holder who surrenders all of its LP Units for exchange must concurrently surrender all shares of Class B Common Stock held by it (including fractions thereof) to the Company.

Registration Rights Agreement

In connection with the IPO, we entered into a registration rights agreement with our pre-IPO owners and the former holders of Class B Units of Continental Cement Company, L.L.C. (the "Former CCC Minority Holders") pursuant to which we granted them, their affiliates and certain of their transferees the right, under certain circumstances and subject to certain restrictions, to require us to register under the Securities Act of 1933, as amended (the "Securities Act"), the offering of shares of Class A Common Stock delivered in exchange for LP Units.

Tax Receivable Agreement

In connection with the IPO, we entered into a tax receivable agreement with the holders of LP Units that provides for the payment to exchanging holders of LP Units of 85% of the benefits, if any, that the Company is deemed to realize as a result of the increases in tax basis resulting from exchanges of LP Units and certain other tax benefits related to entering into the tax receivable agreement, including tax benefits attributable to payments under the tax receivable agreement. Certain current and former holders of LP Units, who include certain of our executive officers and directors, are expected to receive payments under the tax receivable agreement in the future. The increases in tax basis as a result of an exchange of LP Units for shares of Class A Common Stock, as well as the amount and timing of any payments under the tax receivable agreement, are difficult to accurately estimate as they will vary depending upon a number of factors, including:

the timing of exchanges for instance, the increase in any tax deductions will vary depending on the fair market value, which may fluctuate over time, of the depreciable or amortizable assets of Summit Holdings at the time of each exchange;

the price of shares of our Class A Common Stock at the time of the exchange the increase in any tax deductions, as well as the tax basis increase in other assets, of Summit Holdings, is directly proportional to the price of shares of our Class A Common Stock at the time of the exchange;

the extent to which such exchanges are taxable if an exchange is not taxable for any reason, increased deductions will not be available;

the amount and timing of our income the Company is required to pay 85% of the cash tax savings as and when realized, if any. If the Company does not have taxable income, the Company is not required (absent a change of control or circumstances requiring an early termination payment) to make payments under the tax receivable agreement for that taxable year because no cash tax savings will have been realized. However, any tax attributes that do not result in realized benefits in a given tax year will likely generate tax attributes that may be utilized to generate benefits in previous or future tax years. The utilization of such tax attributes will result in cash tax savings that will result in payments under the tax receivable agreement; and

the effective tax rate the benefit that the Company realizes is dependent on the tax rate in effect at the time taxable income is generated.

Table of Contents

We anticipate funding payments under the tax receivable agreement from cash flows from operations, available cash and available borrowings under our senior secured revolving credit facilities. As of December 29, 2018, we had accrued \$310.4 million as tax receivable agreement liability. Other than \$695,000 which was paid in February 2019, the tax receivable agreement liability is a long-term liability as no additional payments are expected in the next twelve months.

In addition, the tax receivable agreement provides that upon certain changes of control, the Company's (or its successor's) obligations would be based on certain assumptions, including that the Company would have sufficient taxable income to fully utilize the deductions arising from the tax deductions, tax basis and other tax attributes subject to the tax receivable agreement. With respect to our obligations under the tax receivable agreement relating to previously exchanged or acquired LP Units and certain net operating losses, we would be required to make a payment equal to the present value (at a discount rate equal to one year LIBOR plus 100 basis points) of the anticipated future tax benefits determined using assumptions (ii) through (v) of the following paragraph.

Furthermore, the Company may elect to terminate the tax receivable agreement early by making an immediate payment equal to the present value of the anticipated future cash tax savings. In determining such anticipated future cash tax savings, the tax receivable agreement includes several assumptions, including that (i) any LP Units that have not been exchanged are deemed exchanged for the market value of the shares of Class A Common Stock at the time of termination, (ii) the Company will have sufficient taxable income in each future taxable year to fully realize all potential tax savings, (iii) the Company will have sufficient taxable income to fully utilize any remaining net operating losses subject to the tax receivable agreement on a straight line basis over the shorter of the statutory expiration period for such net operating losses or the five-year period after the early termination or change of control, (iv) the tax rates for future years will be those specified in the law as in effect at the time of termination and (v) certain non-amortizable assets are deemed disposed of within specified time periods. In addition, the present value of such anticipated future cash tax savings are discounted at a rate equal to LIBOR plus 100 basis points.

Under the terms of the tax receivable agreement, the Company can terminate the tax receivable agreement at any time, which would trigger a cash payment to the pre-IPO owners. Based upon a \$12.30 per share price of our Class A common stock, the closing price of our stock on December 28, 2018 (the last business day of our fiscal year) and a contractually defined discount rate of 3.11%, the Company estimates that if it were to exercise its right to terminate the tax receivable agreement, the aggregate amount required to settle the tax receivable agreement would be approximately \$259 million.

Summit Materials Holdings L.P. Amended and Restated Limited Partnership Agreement

The Company holds LP Units in Summit Holdings and is the sole general partner of Summit Holdings. Accordingly, the Company operates and controls all of the business and affairs of Summit Holdings and, through Summit Holdings and its operating entity subsidiaries, conducts our business.

Pursuant to the limited partnership agreement of Summit Holdings, the Company has the right to determine when distributions will be made to holders of LP Units and the amount of any such distributions. If a distribution is authorized, such distribution will be made to the holders of LP Units pro rata in accordance with the percentages of their respective limited partnership interests. The holders of LP Units, including the Company, incur U.S. federal, state and local income taxes on their share of any taxable income of Summit Holdings. The limited partnership agreement of Summit Holdings provides for tax distributions to the holders of the LP Units in an amount generally calculated to provide each holder of LP Units with sufficient cash to cover its tax liability in respect of the LP Units. These tax distributions are generally only paid to the extent that other distributions made by Summit Holdings were otherwise insufficient to cover the estimated tax liabilities of all holders of LP Units. In general, these tax distributions are computed based on our estimate of the net taxable income allocated to the Company multiplied by an assumed tax rate equal to the highest effective marginal combined U.S. federal, state and local income tax rate applicable to a corporate resident in New York, New York. In the year ended December 29, 2018, Summit LLC paid distributions to Summit Holdings totaling \$69,000, all of which was distributed to Summit Holdings' partners, other than the Company.

The limited partnership agreement of Summit Holdings also provides that substantially all expenses incurred by or attributable to the Company, but excluding obligations incurred under the tax receivable agreement by the Company, income tax expenses of the Company and payments on indebtedness incurred by the Company, will be borne by Summit Holdings.

The Company as the general partner may (i) at any time, require all holders of LP Units, other than holders who are current employees or service providers, to exchange their units for shares of our common stock or (ii) with the consent of partners in Summit Holdings whose vested interests exceed 66²/₃% of the aggregate vested interests in Summit Holdings, require all holders of interests in Summit Holdings to transfer their interests, provided that the prior written consent of each holder that is an affiliate of Blackstone affected by any such proposed transfer will be required. These provisions are designed to ensure that the general partner can, in the context of a sale of the Company, sell Summit Holdings as a wholly-owned entity subject to the approval of the holders thereof.

Indemnification Agreements

We have entered into indemnification agreements with our directors and executive officers. These agreements require us to indemnify these individuals to the fullest extent permitted by Delaware law against liabilities that may arise by reason of their service to us, and to advance expenses incurred as a result of any proceeding against them as to which they could be indemnified. Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors or executive officers, we have been informed that in the opinion of the SEC such indemnification is against public policy and is therefore unenforceable.

There is currently no pending material litigation or proceeding involving any of our directors, officers or employees for which indemnification is sought.

Warrant Issuances

In connection with the modification of the capital structure of Summit Holdings at the time of our IPO, we issued warrants to purchase an aggregate of 160,333 shares of Class A Common Stock to limited partners of Summit Holdings who held Class C limited partnership interests of Summit Holdings. Holders of the Class C limited partnership interests include Thomas W. Hill, a limited liability company controlled by Ted A. Gardner, and Michael J. Brady, who received warrants to purchase 29,463, 27,408, and 6,852 shares of Class A Common Stock, respectively. The warrants were issued in substitution for part of the economic benefit of the Class C interests that was not reflected in the conversion of the Class C interests to LP Units. The exercise price of the warrants is equal to the IPO price of \$18.00 per share. The warrants became exercisable from and after March 17, 2016 and will expire on March 11, 2025.

Thomas A. Beck, our Executive Vice President and President of our Cement Division, through the Thomas A. In connection with the Contribution and Purchase Agreement, on March 17, 2015, Summit Holdings issued to the Former CCC Minority Holders \$15.0 million in aggregate principal amount of non-interest bearing notes payable over six years. The pro rata share of the \$15.0 million in notes that is due to the Beck LLC is \$208,344, payable in six equal annual installments of \$34,724 on each anniversary of March 17, 2015. During 2018, the third installment on the notes was paid to the Beck LLC.

Statement of Policy Regarding Transactions with Related Persons

We have adopted a written statement of policy regarding transactions with related persons, which we refer to as our "related person policy." Our related person policy requires that a "related person" (as defined in paragraph (a) of Item 404 of Regulation S-K) must promptly disclose to our Chief Legal Officer any "related person transaction" (defined as any transaction that is anticipated would be reportable by us under Item 404(a) of Regulation S-K in which we were or are to be a participant and the amount involved exceeds \$120,000 and in which any related person had or will have a direct or indirect material interest) and all material facts with respect thereto. The Chief Legal Officer will then promptly communicate that information to our Board. No related person transaction will be executed without the approval or ratification of our Board or a duly authorized committee of our Board. It is our policy that directors interested in a related person transaction will recuse themselves from any vote on a related person transaction in which they have an interest.

Business Taking Place at the Annual Meeting

WHICH PROPOSALS ARE BEING VOTED ON AT THE ANNUAL MEETING?

The election of each of the three nominees to the Board named herein;

The ratification of the appointment of our independent registered public accounting firm; and

Table of Contents

The approval, on a nonbinding advisory basis, of the compensation of our NEOs as disclosed in this Proxy Statement.

WHICH PROPOSALS ARE "ROUTINE" AND WHICH ARE "NON-ROUTINE"?

The ratification of KPMG LLP as our independent registered public accounting firm for our fiscal year ending December 28, 2019 is the only routine matter to be presented at the Annual Meeting. The other two matters the election of three Board of Director nominees and the approval of the compensation of our named executive officers are non-routine and brokers will not be allowed to vote on these proposals without specific voting instructions from beneficial owners. We do not expect any additional matters will be brought before the Annual Meeting. However, if other matters are properly presented, the persons named as proxies in the proxy card or their substitutes will vote in their discretion.

HOW MANY VOTES ARE NEEDED TO APPROVE EACH PROPOSAL?

With respect to the election of directors, a nominee for director shall be elected to the Board by a plurality of the votes cast in respect of the shares of common stock present in person or represented by proxy at the Annual Meeting and entitled to vote on the election of directors. A plurality vote requirement means that the director nominees with the greatest number of votes cast "FOR", even if it is less than a majority, will be elected. You may vote "FOR" or "WITHHOLD" with respect to each nominee. A withhold vote in the election of directors will have the same effect as an abstention. Neither a withhold vote nor a broker non-vote will affect the outcome of the election of directors.

The affirmative vote of a majority of the voting power of common stock present in person or represented by proxy and entitled to vote on the matter is required to ratify the appointment of KPMG as our independent registered public accounting firm and to approve, on a nonbinding advisory basis, the compensation of our NEOs, as disclosed in this Proxy Statement. You may vote "FOR," "AGAINST," or "ABSTAIN" with respect to these matters. For these matters, abstentions are not counted as affirmative votes but are counted as present at the Annual Meeting and entitled to vote and will have the effect of a vote "against" the matter. Broker non-votes, if any, will have no effect on the outcome of these matters.

Proxies

WHO IS SOLICITING MY PROXY?

The Board of Summit Materials is soliciting your proxy to vote at the 2019 Annual Meeting of Stockholders.

WHY DID MY HOUSEHOLD RECEIVE A SINGLE SET OF PROXY MATERIALS?

SEC rules permit us to deliver a single copy of our 2018 Annual Report and Proxy Statement to any household at which two or more stockholders reside if we believe the stockholders are members of the same family. This benefits both you and Summit Materials, as it eliminates duplicate mailings and reduces our printing and mailing costs. Each stockholder will continue to receive a separate proxy card or voting instruction card.

Your household may have received a single set of proxy materials this year. If you prefer to receive your own copy now or in future years, please request a duplicate set by phone at 1-866-540-7095, online at www.proxyvote.com, or by writing to Summit Materials, c/o Broadridge, 51 Mercedes Way, Edgewood, NY 11717.

To be timely, a stockholder who intends to present nominations or a proposal at the 2020 Annual Meeting other than pursuant to Rule 14a-8 must provide the information set forth in the Bylaws no earlier than January 23, 2020 and no later than February 22, 2020. These advance notice provisions do not apply if the stockholder only seeks to include such matters in the proxy statement pursuant to Rule 14a-8.

If a shareholder fails to meet these deadlines and fails to satisfy the requirements of Rule 14a-4 under the Securities Exchange Act, we may exercise discretionary voting authority under proxies we solicit to vote on any such proposal as we determine appropriate.
