**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS**  
(unaudited)

(1) Significant Accounting Policies

**Basis of Presentation:** The accompanying unaudited consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information and with the instructions for Form 10-Q and Article 10 of Regulation S-X. In the opinion of management, all adjustments (consisting of normal recurring deferrals and accruals) considered necessary for a fair presentation have been included. The operating results for the periods presented are not necessarily indicative of the results to be expected for the full year. For further information, refer to the consolidated financial statements and footnotes thereto included in the company's latest Annual Report on Form 10-K.

(2) Current Relevant Accounting Standards

In June 2006, the FASB issued FASB Interpretation No. 48, "Accounting for Uncertainty in Income Taxes: an Interpretation of FASB Statement No. 109" ("FIN 48"). FIN 48, which clarifies SFAS 109, establishes the criterion that an individual tax position has to meet for some or all of the benefits of that position to be recognized in the company's financial statements. The company adopted FIN 48 on December 31, 2006, the first day of the 2007 fiscal year, and, as a result, recognized a \$452,000 decrease to opening retained earnings from the cumulative effect of adoption. As of December 31, 2006, the total amount of gross unrecognized tax benefits is \$692,000. Of this amount, approximately \$240,000 would impact our effective tax rate over time, if recognized. The company continues to follow the practice of recognizing interest and penalties related to income tax matters as a part of the provision for income taxes. As of December 31, 2006, the company had \$189,000 of accrued interest and penalties.

The Internal Revenue Service ("IRS") recently completed its examination of the company's federal income tax returns for 2003 and 2004. The IRS has proposed one tax deficiency to which the company has agreed. The company or one of its subsidiaries files tax returns in various states. The tax years subject to examination in Pennsylvania, where the majority of the company's revenues are generated, are 2002 to 2006.

In September 2006, the FASB issued Statement of Financial Accounting Standards No. 157, "Fair Value Measurement" ("SFAS 157"). SFAS 157 defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles, and expands disclosures about fair value measurements. SFAS 157 does not require any new fair value measurements. SFAS 157 is effective for fiscal years beginning after November 15, 2007. The company is currently assessing the impact of SFAS 157 on its financial statements.

In February 2007, the FASB issued Statement of Financial Accounting Standards No. 159, "The Fair Value Option for Financial Assets and Financial Liabilities – Including an amendment of FASB Statement No. 115" ("SFAS 159"). SFAS 159 permits entities to choose to measure certain financial assets and liabilities at fair value at specified election dates. The fair value option may be applied instrument by instrument (with a few exceptions), is irrevocable and is applied only to entire instruments and not to portions of instruments. Unrealized gains and losses on items for which the fair value option has been elected are to be reported in earnings at each subsequent reporting date. SFAS 159 is effective for fiscal years beginning after November 15, 2007. The company is currently assessing the impact of SFAS 159 on its financial statements.

## (3) Comprehensive Income

The components of comprehensive income, net of related tax, for the periods ended March 31, 2007 and April 1, 2006 are as follows:

**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS**  
**OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

**OVERVIEW**

Weis Markets, Inc. was founded in 1912 by Sigmund and Harry Weis in Sunbury, Pennsylvania. Today, the company ranks among the top 50 food and drug retailers in the United States in revenues generated. As of March 31, 2007, the company operated 156 retail food stores in Pennsylvania and four surrounding states: Maryland, New Jersey, West Virginia and New York. In addition to its retail food stores, the company operates 31 SuperPetz pet supply stores in ten states: Alabama, Georgia, Indiana, Maryland, Michigan, North Carolina, Ohio, Pennsylvania, South Carolina and Tennessee.

Company revenues are generated in its retail food stores from the sale of a wide variety of consumer products including groceries, dairy products, frozen foods, meats, seafood, fresh produce, floral, prescriptions, deli/bakery products, prepared foods, fuel, general merchandise, health and beauty care and household products. The company supports its retail operations through a centrally located distribution facility, transportation fleet, four manufacturing facilities and its administrative offices. The company's operations are reported as a single reportable segment.

The following analysis should be read in conjunction with the Financial Statements included in Item 1 of this Quarterly Report on Form 10-Q, the 2006 Annual Report on Form 10-K, filed with the U. S. Securities and Exchange Commission, as well as the cautionary statement captioned "Forward-Looking Statements" immediately following this analysis.

**OPERATING RESULTS**

Total sales for the first quarter ended March 31, 2007 increased 4.4% to \$571.8 million compared to sales of \$547.8 million in the same quarter of 2006, while comparable store sales increased 4.4% compared to a .9% decrease in 2006 over 2005. The Company attributed its sales increase to successful sales building strategies and aggressive promotional pricing.

When calculating the percentage change in comparable store sales, the company defines a new store to be comparable the week following one full year of operation. Relocated stores and stores with expanded square footage are included in comparable sales since these units are located in existing markets and are open during construction. When a store is closed, sales generated from that unit in the prior year are subtracted from total company sales starting the same week of closure in the prior year and continuing from that point forward.

Although the company experienced some product inflation, management does not feel it can accurately measure the full impact of product inflation and deflation on retail pricing due to changes in the types of merchandise sold between periods, shifts in customer buying patterns and the fluctuation of competitive factors.

Cost of sales consists of direct product costs (net of discounts and allowances), warehouse costs, transportation costs and manufacturing facility costs. In recent years, many vendors have converted promotional incentives to reimbursements based upon sales movement data recorded at the point of sale rather than for cases purchased. Management expects this trend to have no discernible impact on the company's overall gross profit results.

Edgar Filing: WEIS MARKETS INC - Form 10-Q

Gross profit of \$151.5 million at 26.5% of sales, increased \$3.6 million or 2.5% versus the same quarter last year and the gross profit rate decreased 0.5%. The company's gross profit rate was adversely impacted due to higher inventory losses and its aggressive promotional activity in response to competitive openings.

The company is now in the second phase of its implementation of an exception reporting and performance management application and anticipates completion in 2007. This rules-based exception-monitoring tool provides store management with real-time information, which is expected to improve shrink control and gross profit margin results.

The first quarter operating, general and administrative expenses of \$131.8 million at 23.0% of sales, increased \$5.9 million or 4.7% compared to the same quarter in 2006. As a percentage of sales, operating expenses were the same as the first quarter last year. Labor costs increased 5.2% compared to the same period a year ago. To better manage its labor costs, the company has begun implementation of programs to improve operational efficiencies, productivity and execution. Snow removal costs increased \$473,000 compared to the same period last year.

(continued)

**OPERATING RESULTS (continued)**

Interchange fees for accepting credit/debit cards increased 10.1% compared to the same period in 2006. The company remains extremely concerned about the continuing rise in interchange fees for accepting credit/debit card transactions. The company continues to work with a wide variety of corporations and associations to reduce interchange rates, through legislative and regulatory initiatives.

In the first quarter, the company's investment income totaled \$691,000 at 0.1% of sales, a decrease of \$618,000 or 47.2% compared to the same period a year ago. The company realized a long-term gain of \$431,000 on the sale of equities from its investment portfolio during the first quarter of 2006. The remaining decrease is the result of less funds available for investing in 2007 as compared to 2006.

The effective tax rate for the first quarter of 2007 and 2006 was 34.4% and 36.0%, respectively. The effective income tax rate differs from the federal statutory rate of 35% primarily due to the effect of state taxes.

For the three-month period ending March 31, 2007, net income of \$13.4 million decreased 10.3% compared to the same period last year. Basic and diluted earnings per share of \$.50 for the quarter decreased \$.05 or 9.1% compared to 2006.

**LIQUIDITY AND CAPITAL RESOURCES**

During the first quarter of 2007, the company generated \$39.7 million in cash flows from operating activities compared to \$43.1 million for the same period in 2006. Working capital increased \$2.1 million or 1.4% since the beginning of the year. Net cash provided by operating activities decreased \$3.5 million compared to the same quarter last year. First quarter 2006 cash flows from operating activities benefited from a \$2.3 million reimbursement for prepaid associate medical benefits because of contract changes.

Net cash used in investing activities in the first quarter of 2007 amounted to \$15.7 million compared to the \$20.6 million used in 2006. Capital expenditures for the quarter totaled \$15.7 million compared to \$21.6 million in 2006. The company estimated its capital expenditure plans would require an investment of \$72.5 million in 2007. This plan includes construction of new superstores, the expansion and remodeling of existing units, the acquisition of sites for future expansion, new technology purchases and the continued upgrade of company processing and distribution facilities.

Net cash used in financing activities during the first quarter of 2007 was \$8.1 million compared to \$7.8 million in 2006. In 2007, the company's treasury stock purchases amounted to \$516,000 in the quarter compared to \$162,000 in the first quarter last year. The Board of Directors' 2004 resolution authorizing the purchase of one million shares of treasury stock has a remaining balance of 852,316 shares.

Cash dividends of \$7.8 million were paid to shareholders in the first quarter of 2007, the same amount paid in 2006. At its regular meeting held in April, the Board of Directors unanimously approved a quarterly dividend of \$.29 per share, payable on May 11, 2007 to shareholders of record on April 27, 2007.

The company has no other commitment of capital resources as of March 31, 2007, other than the lease commitments on its store facilities under operating leases that expire at various dates through 2027. The company anticipates

funding its working capital requirements and its \$72.5 million capital expansion program through internally generated cash flows from operations.

**Critical Accounting Policies**

The company has chosen accounting policies that it believes are appropriate to accurately and fairly report its operating results and financial position, and the company applies those accounting policies in a consistent manner. The Significant Accounting Policies are summarized in Note 1 to the Consolidated Financial Statements included in the 2006 Annual Report on Form 10-K. There have been no changes to the Critical Accounting Policies since the company filed its Annual Report on Form 10-K for the year ended December 30, 2006.

**FORWARD-LOOKING STATEMENTS**

In addition to historical information, this 10-Q Report may contain forward-looking statements. Any forward-looking statements contained herein are subject to certain risks and uncertainties that could cause actual results to differ materially from those projected. For example, risks and uncertainties can arise with changes in: general economic conditions, including their impact on capital expenditures; business conditions in the retail industry; the regulatory environment; rapidly changing technology and competitive factors, including increased competition with regional and national retailers; and price pressures. Readers are cautioned not to place undue reliance on forward-looking statements, which reflect management's analysis only as of the date hereof. The company undertakes no obligation to publicly revise or update these forward-looking statements to reflect events or circumstances that arise after the date hereof. Readers should carefully review the risk factors described in other documents the company files periodically with the Securities and Exchange Commission.
