PART I

Item 1.Business:

Weis Markets, Inc. is a Pennsylvania business founded by Harry and Sigmund Weis in 1912 and incorporated in 1924. The Company is engaged principally in the retail sale of food in Pennsylvania and surrounding states. There was no material change in the nature of the Company's business during fiscal 2015. The Company's stock has been traded on the New York Stock Exchange since 1965 under the symbol "WMK." The Weis family currently owns approximately 65% of the outstanding shares. Jonathan H. Weis serves as Chairman of the Board of Directors, President and Chief Executive Officer.

The Company's retail food stores sell groceries, dairy products, frozen foods, meats, seafood, fresh produce, floral, pharmacy services, deli products, prepared foods, bakery products, beer and wine, fuel and general merchandise items, such as health and beauty care and household products. The Company advertises its products and promotes its brand through weekly newspaper circulars; radio ads; e-mail blasts; and on-line via its web site, social media and mobile applications. Printed circulars are used extensively on a weekly basis to advertise featured items. The Company utilizes a loyalty marketing program, "Weis Club Preferred Shopper," which enables customers to receive discounts, promotions and fuel rewards. The Company currently owns and operates 163 retail food stores. The Company's operations are reported as a single reportable segment.

The following table provides additional detail on the percentage of consolidated net sales contributed by product category for fiscal years 2015, 2014 and 2013, respectively:

	2015	2014	2013
Center Store (1)	57.5 %	57.9 %	59.0 %
Fresh (2)	29.7	29.0	28.7
Pharmacy Services	9.4	9.0	8.6
Fuel	3.2	3.9	3.5
Other	0.2	0.2	0.2
Consolidated net sales	100.0 %	100.0 %	100.0 %

(1) Consists primarily of groceries, dairy products, frozen foods, beer and wine, and general merchandise items, such as health and beauty care and household products.

(2) Consists primarily of meats, seafood, fresh produce, floral, deli products, prepared foods and bakery products.

At the end of 2015, Weis Markets, Inc. operated 25 stores in Maryland, 5 stores in New Jersey, 9 stores in New York,
122 stores in Pennsylvania and 2 stores in West Virginia, for a total of 163 retail food stores operating under the Weis
Markets trade name.

Item 1.Business: (continued)

All retail food store locations operate as conventional supermarkets. The retail food stores range in size from 8,000 to 70,000 square feet, with an average size of approximately 50,000 square feet. The following summarizes the number of stores by size categories as of year-end:

	2015	2015	2014	2014
	Numbe	r	Numbe	r
	of	% of	of	% of
Square feet	stores	Total	stores	Total
55,000 to 70,000	57	35%	56	34%
45,000 to 54,999	69	42%	70	43%
35,000 to 44,999	22	13%	22	13%
25,000 to 34,999	9	6%	9	6%
Under 25,000	6	4%	6	4%
Total	163	100%	163	100%

The following schedule shows the changes in the number of retail food stores, total square footage and store additions/remodels as of year-end:

2015 2014 2013 2012 20	11
Beginning store count 163 165 163 161 16	4
New stores (1) 1 4 4 1	
Opened relocated stores 1 1 1 1 1	
Closed stores (3) (2) (4))
Closed relocated stores (1) (1) (1))
Ending store count 163 163 165 163 16	1
Total square feet (000's), at year-end 8,215 8,202 8,211 8,054 7,8	377
Additions/major remodels 16 8 12 13 9	

(1) On June 11, 2012, Weis Markets, Inc. acquired three former Genuardi's stores located in Conshohocken, Doylestown and Norristown, Pennsylvania from Safeway Inc.

The Company supports its retail operations through a centrally located distribution facility, its own transportation fleet, three manufacturing facilities and its store support center. The Company is required to use a significant amount of working capital to provide for the necessary amount of inventory to meet demand for its products through efficient use of buying power and effective utilization of space in its distribution facilities. The manufacturing facilities consist of a meat processing plant, an ice cream plant and a milk processing plant.

The Company operates in a highly competitive market place. The number and the variety of competitors vary by market. The Company's principal competition consists of international, national, regional and local food chains, as well as independent food stores. The Company also faces substantial competition from convenience stores, membership warehouse clubs, specialty retailers, supercenters and large-scale drug and pharmaceutical chains. The Company continues to effectively compete by offering a strong combination of value, quality and service.

The Company currently employs approximately 19,000 full-time and part-time associates.

Item 1. Business: (continued)
Trade Names and Trademarks. The Company has invested significantly in the development and protection of "Weis Markets" both as a trade name and a trademark and considers it to be an important asset. The Company is the exclusive licensee of more than 50 other trademarks registered and/or pending in the United States Patent and Trademark Office from WMK Holdings, Inc., including trademarks for its product lines and promotions such as Weis, Weis 2 Go, Weis Wonder Chicken, Price Freeze, Weis Gas-n-Go and Weis Nutri-Facts. Each trademark registration is for an initial period of 10 years and may be renewed so long as it is in continued use in commerce.
The Company considers its trademarks to be of material importance to its business and actively defends and enforces its rights.
The Company maintains a corporate web site at www.weismarkets.com. The Company makes available, free of charge, on the "Financial" page of the "Corporate Information" section of its web site, its Annual Reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K and amendments to those reports filed or furnished pursuant to Section 13(a) or 15(d) of the Exchange Act, as soon as reasonably practicable after the Company electronically files such material or furnishes it to the U.S. Securities and Exchange Commission (SEC) by clicking on the "SEC Information" link.
The Company's Corporate Governance materials can be found on the "Governance" page of the "Corporate Information" section of its web site. These materials include the Corporate Governance Guidelines; the Charters of the Audit, Compensation and Disclosure Committees; and both the Code of Business Conduct and Ethics and the Code of Ethics for the CEO and CFO. A copy of the foregoing corporate governance materials is available upon written request to the Company's principal executive offices.
Item 1a. Risk Factors:
In addition to risks and uncertainties in the ordinary course of business common to all businesses, important factors are listed below specific to the Company and its industry, which could materially impact its future performance.

The Company's industry is highly competitive. If the Company is unable to compete effectively, the Company's financial condition and results of operations could be materially affected.

The retail food industry is intensely price competitive, and the competition the Company encounters may have a negative impact on product retail prices. The financial results may be adversely impacted by a competitive environment that could cause the Company to reduce retail prices without a reduction in its product cost to maintain market share; thus reducing sales and gross profit margins.

The trade area of the Company is located within a region and is subject to the economic, social and climate variables of that region.

The majority of the Company's stores are concentrated in central and northeast Pennsylvania, central Maryland, suburban Baltimore regions and New York's Southern Tier. Changes in economic and social conditions in the Company's operating regions, including fluctuations in the inflation rate along with changes in population and employment and job growth rates, affect customer shopping habits. These changes may negatively impact sales and earnings. Business disruptions due to weather and catastrophic events historically have been few. The Company's geographic regions could receive an extreme variance in the amount of annual snowfall that may materially affect sales and expense results.

The Company may be unable to retain key management personnel.

The Company's success depends to a significant degree upon the continued contributions of senior management. The loss of any key member of management may prevent the Company from implementing its business plans in a timely manner. In addition, employment conditions specifically may affect the Company's ability to hire and train qualified associates.

WEIS MARKETS, INC.		
Table of Contents		

Item 1a. Risk Factors: (continued)

Food safety issues could result in the loss of consumer confidence in the Company.

Customers count on the Company to provide them with safe and wholesome food products. Concerns regarding the safety of food products sold in its stores could cause shoppers to avoid purchasing certain products from the Company, or to seek alternative sources of supply for all of their food needs, even if the basis for the concern is outside of the Company's control. A loss in confidence on the part of its customers would be difficult and costly to reestablish. As such, any issue regarding the safety of any food items sold by the Company, regardless of the cause, could have a substantial and adverse effect on operations.

The failure to execute expansion plans could have a material adverse effect on the Company's business and results of its operations.

Circumstances outside the Company's control could negatively impact anticipated capital investments in store, distribution and manufacturing projects, information technology and equipment. The Company cannot determine with certainty whether its new stores will be successful. The failure to expand by successfully opening new stores as planned, or the failure of a significant number of these stores to perform as planned, could have a material adverse effect on the Company's business and results of its operations.

Disruptions or security breaches in the Company's information technology systems could adversely affect results.

The Company's business is highly dependent on complex information technology systems that are vital to its continuing operations. If the Company was to experience difficulties maintaining existing systems or implementing new systems, significant losses could be incurred due to disruptions in its operations. Additionally, these systems contain valuable proprietary data as well as receipt and storage of personal information about its associates and customers, in particular electronic payment data and personal health information that, if breached, would have an adverse effect on the Company. Such an occurrence could adversely affect the Company's reputation with its customers, associates, and vendors, as well as the Company's operations, results of operations, financial condition and liquidity, and could result in litigation against the Company or the imposition of penalties.

The Company is affected by certain operating costs which could increase or fluctuate considerably.

Associate expenses contribute to the majority of the Company's operating costs. The Company's financial performance is potentially affected by increasing wage and benefit costs, a competitive labor market, regulatory wage increases and the risk of unionized labor disruptions of its non-union workforce. The Company's profit is particularly sensitive to the cost of oil. Oil prices directly affect the Company's product transportation costs, as well as its utility and petroleum-based supply costs. It also affects the costs of its suppliers, which impacts its cost of goods.

Various aspects of the Company's business are subject to federal, state and local laws and regulations.

The Company is subject to various federal, state and local laws, regulations and administrative practices that affect the Company's business. The Company must comply with numerous provisions regulating health and sanitation standards, food labeling, equal employment opportunity, minimum wages and licensing for the sale of food, drugs and alcoholic beverages. The Company's compliance with these regulations may require additional capital expenditures and could adversely affect the Company's ability to conduct the Company's business as planned. Management cannot predict either the nature of future laws, regulations, interpretations or applications, or the effect either additional government regulations or administrative orders, when and if promulgated, or disparate federal, state, and local regulatory schemes would have on the Company's future business. They could, however, require the reformulation of certain products to meet new standards, the recall or discontinuance of certain products not able to be reformulated, additional record keeping, expanded documentation of the properties of certain products, expanded or different labeling and/or scientific substantiation. Any or all of such requirements could have an adverse effect on the Company's results of operations and financial condition.

WEIS	MARKET	rs inc

Table of Contents

Item 1a. Risk Factors: (continued)

Unexpected factors affecting self-insurance claims and reserve estimates could adversely affect the Company.

The Company uses a combination of insurance and self-insurance to provide for potential liabilities for workers' compensation, general liability, vehicle accident, property and associate medical benefit claims. Management estimates the liabilities associated with the risks retained by the Company, in part, by considering historical claims experience, demographic and severity factors and other actuarial assumptions which, by their nature, are subject to a high degree of variability. Any projection of losses concerning workers' compensation and general liability is subject to a high degree of variability. Among the causes of this variability are unpredictable external factors affecting future inflation rates, discount rates, litigation trends, legal interpretations, benefit level changes and claim settlement patterns.

The Company was liable for associate health claims up to an annual maximum of \$1,250,000 per member prior to March 1, 2013, \$2,000,000 per member prior to March 1, 2014 and an unlimited amount per member as of March 1, 2014. As of March 1, 2014, the Company purchased stop loss insurance which carries a \$500,000 specific deductible with a \$250,000 aggregating deductible. The Company is liable for workers' compensation claims up to \$2,000,000 per claim. Property and casualty insurance coverage is maintained with outside carriers at deductible or retention levels ranging from \$100,000 to \$1,000,000. The Company, for the benefit of cost savings, has accepted the risk of an unusual amount of independent multiple material claims arising, which could have a significant impact on earnings.

Changes in tax laws may result in higher income tax.

The Company's future effective tax rate may increase from current rates due to changes in laws and the status of pending items with various taxing authorities. Currently, the Company benefits from a combination of its corporate structure and certain state tax laws.

The Company's investment portfolio may suffer losses from changes in market interest rates and changes in market conditions which could adversely affect results of operations or liquidity.

As of December 26, 2015, the Company had \$17.6 million in cash and cash equivalents, \$91.6 million in marketable securities and \$9.1 million in SERP (Supplemental Executive Retirement Plan) investments (level 1 mutual funds). The Company's marketable securities consist of municipal bonds and equity securities. The municipal bond investments are subject to general credit, liquidity, market and interest rate risks. Substantially all of these securities are subject to interest rate and credit risk and will decline in value if interest rates increase or one of the issuers' credit ratings is reduced. As a result, the Company may experience a reduction in value or loss of liquidity from investments, which may have a negative impact on the Company's results of operations, liquidity and financial condition. The Federal Deposit Insurance Corporation (FDIC) insures amounts up to \$250,000 per depositor, per insured bank, for each account ownership category. The Company has balances in bank accounts that may exceed the insured amount leaving the Company exposed for any amounts over the \$250,000 limit.

The Company is a controlled Company due to the common stock holdings of the Weis family.

The Weis family's share ownership represents approximately 65% of the combined voting power of the Company's common stock as of December 26, 2015. As a result, the Weis family has the power to elect a majority of the Company's directors and approve any action requiring the approval of the shareholders of the Company, including adopting certain amendments to the Company's charter and approving mergers or sales of substantially all of the Company's assets. Currently, one of the Company's five directors is a member of the Weis family.

Changes in vendor promotions or allowances, including the way vendors target their promotional spending, and the Company's ability to effectively manage these programs could significantly impact margins and profitability.

The Company cooperatively engages in a variety of promotional programs with its vendors. As the parties assess the results of specific promotions and plan for future promotions, the nature of these programs and the allocation of dollars among them changes over time. The Company manages these programs to maintain or improve margins while at the same time increasing sales. A reduction in overall promotional spending or a shift by vendors in promotional spending away from certain types of promotions that the Company and its customers have historically utilized could have a significant impact on profitability.

WEIS MARKETS, INC.
Table of Contents
Item 1b. Unresolved Staff Comments:
There are no unresolved staff comments.
Item 2. Properties:
As of December 26, 2015, the Company owned and operated 83 of its retail food stores and leased and operated 80 stores under operating leases that expire at various dates through 2029. The Company owns all trade fixtures and equipment in its stores and several parcels of vacant land, which are available as locations for possible future stores other expansion.
The Company owns and operates one distribution center in Milton, Pennsylvania of approximately 1.1 million square feet, and one in Northumberland, Pennsylvania totaling approximately 76,000 square feet. The Company also owns one warehouse complex in Sunbury, Pennsylvania totaling approximately 550,000 square feet. The Company utilize 259,000 square feet of its Sunbury location to operate its ice cream plant, meat processing plant and milk processing plant.
Item 3. Legal Proceedings:
Neither the Company nor any subsidiary is presently a party to, nor is any of their property subject to, any pending legal proceedings, other than routine litigation incidental to the business that would not have a material adverse effect on the financial results. The Company estimates any exposure to these legal proceedings and establishes accruals for the estimated liabilities, where it is reasonably possible to estimate and where an adverse outcome is probable.

Executive Officers of the Registrant

The following sets forth the names and ages of the Company's executive officers as of March 18, 2016, indicating all positions held during the past five years:

Name	Age	Title
Jonathan H. Weis (a)	48	Chairman of the Board, President and Chief Executive Officer
Kurt A. Schertle (b)	44	Chief Operating Officer
Scott F. Frost (c)	53	Senior Vice President, Chief Financial Officer and Treasurer
David W. Gose II (d)	49	Senior Vice President of Operations
Harold G. Graber (e)	60	Senior Vice President of Real Estate and Development, Secretary
Richard A. Gunn (f)	51	Senior Vice President of Merchandising and Marketing
James E. Marcil (g)	57	Senior Vice President of Human Resources

- (a) Jonathan H. Weis. The Company has employed Mr. Weis since 1989. Mr. Weis served the Company as Vice President of Property Management and Development from 1996 until April 2002, at which time he was appointed as Vice President and Secretary. In January of 2004, the Board appointed Mr. Weis as Vice Chairman and Secretary. Mr. Weis became the Company's interim President and Chief Executive Officer in September 2013 and was appointed as President and Chief Executive Officer in February 2014. The Board elected Mr. Weis as Chairman of the Board in April 2015.
- (b) Kurt A. Schertle. The Company hired Mr. Schertle on March 1, 2009 as its Vice President of Sales and Merchandising, which included the responsibility of overseeing the Marketing Department. In February 2010, Mr. Schertle was promoted to Senior Vice President of Sales and Merchandising. In July 2012, Mr. Schertle was promoted to Executive Vice President of Sales and Merchandising at which time, he assumed the additional responsibility of overseeing the Company's Supply Chain. In September 2013, Mr. Schertle assumed the additional responsibility of overseeing Store Operations and Mr. Schertle was promoted to Chief Operating Officer in March 2014.
- (c) Scott F. Frost. Mr. Frost joined the Company full-time in 1984 and he has held various positions since then, including but not limited to, Controller, Assistant Secretary, Assistant Treasurer and Acting Chief Financial Officer. The Company appointed Mr. Frost as Vice President, Chief Financial Officer and Treasurer in October 2009. In January 2011, Mr. Frost was promoted to Senior Vice President, Chief Financial Officer and Treasurer.

- (d) David W. Gose II. Mr. Gose joined the Company in May 2014 as Senior Vice President of Operations. Prior to joining the Company, Mr. Gose was Senior Director and Regional General Manager of Walmart Ohio, a retail store SuperCenter, from February 2010 until May 2014. Walmart Ohio consisted of 92 stores that geographically included all stores South of Toledo, Cleveland, Akron and Youngstown.
- (e) Harold G. Graber. Mr. Graber joined the Company in October 1989 as the Director of Real Estate. Mr. Graber, who served the Company as Vice President for Real Estate since 1996, was promoted to Senior Vice President of Real Estate and Development in February 2010. Mr. Graber was appointed as Secretary of the Company in February 2014.
- (f) Richard A. Gunn. Mr. Gunn joined the Company in May 2015 as the Senior Vice President of Merchandising and Marketing. Prior to joining the Company, Mr. Gunn was employed by K-VA-T Food Stores, Inc. from May 1999 through April 2015 and most recently served as Executive Vice President of Merchandising and Marketing. K-VA-T Food Stores, Inc. is a regional supermarket chain and distribution center operating in Virginia, Kentucky and Tennessee.
- (g) James E. Marcil. Mr. Marcil joined the Company in September 2002 as Vice President of Human Resources. In February 2010, Mr. Marcil was promoted to Senior Vice President of Human Resources.

PART II

Item 5. Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities:

The Company's stock is traded on the New York Stock Exchange (ticker symbol WMK). The approximate number of shareholders, including individual participants in security position listings on December 26, 2015 as provided by the Company's transfer agent was 6,002. High and low stock prices and dividends paid per share for the last two fiscal years were:

4	2015			2014		
,	Stock Pri	ce	Dividend	Stock Pri	ce	Dividend
Quarter	High	Low	Per Share	High	Low	Per Share
First S	\$ 51.91	\$ 45.38	\$ 0.30	\$ 52.82	\$ 46.12	\$ 0.30
Second	50.59	41.64	0.30	50.56	42.54	0.30
Third	43.99	39.26	0.30	46.97	39.09	0.30
Fourth	46.39	38.56	0.30	48.00	38.23	0.30

The following line graph compares the yearly percentage change in the cumulative total shareholder return on the Company's common stock against the cumulative total return of the S&P Composite-500 Stock Index and the cumulative total return of a published group index for the Retail Grocery Stores Industry ("Peer Group"), provided by Value Line, Inc., for the period of five years. The graph depicts \$100 invested at the close of trading on the last trading day preceding the first day of the fifth preceding year in Weis Markets, Inc. common stock, S&P 500, and the Peer Group. The cumulative total return assumes reinvestment of dividends.

Comparative Five-Year Total Returns

Weis Markets, Inc.	100.00	104.58	105.44	144.40	134.91	128.43

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations:
Overview
The following Management's Discussion and Analysis of Financial Condition and Results of Operations (MD&A) is intended to help the reader understand Weis Markets, Inc., its operations and its present business environment. The MD&A is provided as a supplement to and should be read in conjunction with the Consolidated Financial Statements and the accompanying notes thereto contained in "Item 8. Financial Statements and Supplementary Data" of this report. The following analysis should also be read in conjunction with the Financial Statements included in the Quarterly Reports on Form 10-Q and the Annual Report on Form 10-K filed with the U.S. Securities and Exchange Commission, as well as the cautionary statement captioned "Forward-Looking Statements" immediately following this analysis. This overview summarizes the MD&A, which includes the following sections:
• Company Overview - a general description of the Company's business and strategic imperatives.
• Results of Operations - an analysis of the Company's consolidated results of operations for the three years presented in the Company's Consolidated Financial Statements.
• Liquidity and Capital Resources - an analysis of cash flows, aggregate contractual obligations, and off-balance sheet arrangements.
• Critical Accounting Policies and Estimates - a discussion of accounting policies that require critical judgments and estimates.
Company Overview
General

Weis Markets, Inc. was founded in 1912 by Harry and Sigmund Weis in Sunbury, Pennsylvania. Today, the Company ranks among the top 50 food and drug retailers in the United States in revenues generated. As of December 26, 2015, the Company operated 163 retail food stores in Pennsylvania and four surrounding states: Maryland, New Jersey, New York and West Virginia.

Company revenues are generated in its retail food stores from the sale of a wide variety of consumer products including groceries, dairy products, frozen foods, meats, seafood, fresh produce, floral, pharmacy services, deli products, prepared foods, bakery products, beer and wine, fuel, and general merchandise items, such as health and beauty care and household products. The Company supports its retail operations through a centrally located distribution facility, its own transportation fleet, three manufacturing facilities and its administrative offices. The Company's operations are reported as a single reportable segment.

plan. Research can be done by studying the wants and needs of core consumers and casual consumers. Measuring customer satisfaction and sharing insights across the organization will help communication between management and its consumers. The Company strives to build customer loyalty by purchasing produce from local growers and supporting organizations within the communities it serves. It will continue to invest in new stores, remodels and additions and strategic acquisitions, to help retain and attract new consumers.

· Become More Relevant to Consumers – Understanding the consumer is crucial to the Company's strategic

· Create Meaningful Differentiation – The Company has identified product pricing, locally focused store assortments, shopping experience, overall convenience and customer service as critical components of future success. The strategy includes developing improved customer service training and setting customer service measurements and goals. As part of this strategy, management is committed to offering its customers a strong combination of quality, service and value. It will continue to offer competitive prices on name brand and private brand products to exceed

customers' expectations.

- · Significantly Improve Decision Support and Measurement The Company will continue to make investments in its information technology systems and distribution network. This will help improve associate productivity, store conditions and the overall customer experience with user-friendly, support driven systems. These systems will also continue to play a key role in the measurement of the Company's strategic decisions and provide valuable insight into customer behavior, shopping trends, and financial returns. Management will continue to streamline its supply chain by focusing on improving inventory turns, cost per case, in-stock position and overall service levels, which will help to improve in-store conditions and result in increased sales and profits.
- · Focus on Sustainability Strategies The Company strives to be good stewards of the environment and makes this an important part of its overall mission. Its sustainability strategy operates under four key pillars: green design, natural resource conservation, food and agricultural impact and social responsibility. The goal of the sustainability strategy is to reduce the Company's overall carbon footprint by reducing greenhouse gas emissions and reducing the impact on climate change. The Company is seeking to reduce its carbon footprint by 20% by the year 2020. To accomplish this, the Company will institute new sustainability programs and improve existing sustainability programs, like reducing energy usage by 2% each year, educating school children through its Mystery Tours Program, replacing 50% of the truck fleet within three years and increasing recycling 5% each year. In 2015 alone, the Company recycled 31,000 tons of materials, representing a 2.5% increase in the corporate recycling rate over the previous year and a corporate wide recycling rate of 49%.

Income is earned by selling merchandise at price levels that produce revenues in excess of cost of merchandise sold and operating and administrative expenses. Although the Company may experience short term fluctuations in its earnings due to unforeseen short-term operating cost increases, it historically has been able to increase revenues and maintain stable earnings from year to year.

Net Sales

The Company's revenues are earned and cash is generated as merchandise is sold to customers at the point of sale. Discounts provided to customers by the Company at the point of sale are recognized as a reduction in sales as products are sold or over the life of a promotional program if redeemable in the future. Discounts provided by vendors, usually in the form of paper coupons, are not recognized as a reduction in sales provided the coupons are redeemable at any retailer that accepts coupons.

Total store sales increased 3.6% in 2015 compared to 2014. Excluding fuel sales, total store sales increased 4.3% in 2015 compared to 2014. Total store sales increased 3.1% in 2014 compared to 2013. Excluding fuel sales, total store sales increased 2.8% in 2014 compared to 2013.

When calculating the percentage change in comparable store sales, the Company defines a new store to be comparable when it has been in operation for five full quarters. Relocated stores and stores with expanded square footage are included in comparable store sales since these units are located in existing markets and are open during construction. Planned store dispositions are excluded from the calculation. The Company only includes retail food stores in the calculation.

Comparable center store sales increased by 2.4% in 2015 compared to 2014. Comparable center store sales decreased 0.2% in 2014 compared to 2013. Comparable fresh sales increased 6.0% in 2015 compared to 2014 and increased 3.0% in 2014 compared to 2013. Both comparable center store and fresh sales increased for the reasons described above.

Comparable health and beauty care sales increased 5.0% in 2015 compared to 2014. The increase for these items was primarily driven by improved in-stock positions at store level due to the introduction of a computer generated ordering system. New products coupled with electronic marketing programs and the successful execution of category business plans also aided sales.

Comparable meat sales increased 4.3% in 2015 compared to 2014, and increased 3.8% in 2014 compared to 2013. In addition to increased costs of commodities for the first half of the year which led to retail inflation in 2015, the Company continued to build the meat department's base business through aggressive ads, the introduction of new programs, expanded variety and display space for All Natural and Organic products. The Company also maintained a continued focus on superior customer service and fresh cut meat at store level through its "Great Meals Start Here" program, which was introduced in January 2014. Comparable meat sales increased 3.8% in 2014 compared to 2013. The "Great Meals Start Here" program coupled with price inflation; more aggressive advertising; and a focus on improving store condition and resetting the stores to better serve our customers' needs contributed to the meat sales increase in 2014.

Comparable produce sales increased 5.9% in 2015 compared to 2014. The 2015 sales increase has been driven by an aggressive advertising and merchandising campaign; larger crops being harvested as compared to estimates, resulting in lower average retail prices but increased unit sales; and an increased variety in key categories of produce. In addition, sales growth in the produce department can be attributed to store remodeling projects, associate training classes and improved execution at the store level.

WEIS MARKETS, INC. Table of Contents Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations: (continued) Results of Operations (continued) Net Sales (continued) Comparable pharmacy sales increased 7.4% in 2015 compared to 2014. The pharmacy sales increase was driven by an increased number of filled prescriptions, partially due to an increased acceptance of preferred third-party insurance plans as well as expanded pharmacy hours. Comparable pharmacy sales increased 8.5% in 2014 compared to 2013. Pharmacy sales experienced significant price inflation in 2014 but were negatively affected in 2013 due to the conversion of brand to generic drugs. In additon to the price inflation, the sales increase was also attributed to an increased number of prescriptions being filled, partially due to the Company's in-store pet medication and medication synchronization programs. Also contributing to the increase, were expanded pharmacy hours at some stores and more individuals being eligible for healthcare benefits under the Affordable Care Act. Comparable fuel sales decreased 25.4% in 2015 compared to 2014. Fuel sales decreased as a result of the decline in retail fuel prices from 2014 to 2015. According to the U.S. Department of Energy, the 52-week average price of gasoline in the Central Atlantic States decreased 27.1%, or \$0.98 per gallon, in 2015 compared to 2014. Comparable fuel sales increased 0.4% in 2014 compared to 2013. Management remains confident in its ability to generate sales growth in a highly competitive environment, but also understands some competitors have greater financial resources and could use these resources to take measures which could adversely affect the Company's competitive position. Cost of Sales and Gross Profit Cost of sales consists of direct product costs (net of discounts and allowances), distribution center and transportation

costs, as well as manufacturing facility operations. Almost all of the increase in cost of sales in 2015 as compares to 2014 is due to the increased sales volume in 2015. Both direct product cost and distribution cost increase when sales

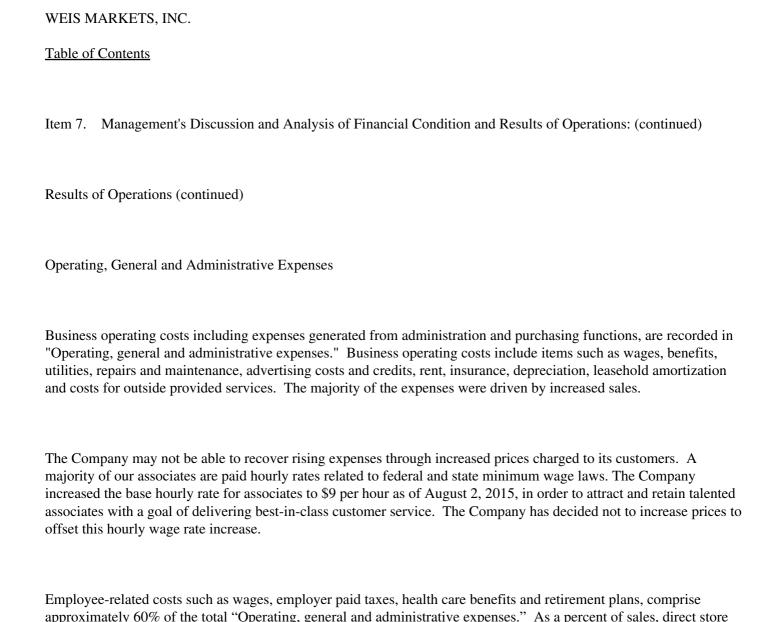

volume increases.

According to the latest U.S. Bureau of Labor Statistics' report, the annual Seasonally Adjusted Food-at-Home Consumer Price Index increased 1.1% in 2015, 2.4% in 2014 and 0.9% in 2013. Even though the U.S. Bureau of Labor Statistics' index rates may be reflective of a trend, it will not necessarily be indicative of the Company's actual results. Despite the fluctuation of retail and wholesale prices, the Company has achieved a gross profit rate of 27.3% in 2015, 27.1% in 2014 and 27.7% in 2013. The increase in gross profit rate was driven by a shift in sales mix from fuel to grocery sales which carry a higher profit margin. The gross profit rate declined in 2014 as a result of the implementation of the Company's Three Ways to Save sales initiative, which consisted of the EDLP and Lowest Price Guarantee programs throughout the year, the "Price Freeze" program in the first quarter and the "Get Grillin" program in the second quarter.

The Company experienced a LIFO charge of \$1.4 million for 2015, compared to a charge of \$911,000 for 2014 and a charge of \$692,000 for 2013. With the exception of pharmacy, the Company expects wholesale price inflation to increase slightly in 2016.

The Company's profitability is impacted by the cost of oil. Fluctuating fuel prices affect the delivered cost of product and the cost of other petroleum-based supplies. As a percentage of sales, the cost of diesel fuel used by the Company to deliver goods from its distribution center to its stores decreased by 0.07% in 2015 compared to 2014 and decreased by 0.02% in 2014 compared to 2013. Although the Company experienced a decrease in these costs, the decline in expense was minimized due to higher fuel usage resulting from more store deliveries to meet the higher sales demand. According to the U.S. Department of Energy, the 52-week average diesel fuel price for the Central Atlantic States decreased \$1.06 per gallon to \$2.94 per gallon as of December 21, 2015, compared to \$4.00 per gallon as of December 22, 2014. Diesel fuel prices for the Central Atlantic States peaked in February 2014 at \$4.36 and steadily fell to \$2.44 as of December 21, 2015. Based upon the U.S. Energy Information Administration's current projections, the Company is expecting diesel fuel prices to remain below \$2.50 during 2016.

Although the Company experienced product cost inflation and deflation in various commodities in 2015, 2014 and 2013, management cannot accurately measure the full impact of inflation or deflation on retail pricing due to changes in the types of merchandise sold between periods, shifts in customer buying patterns and the fluctuation of competitive factors.

While the Company's self-insured health care benefit expenses only increased by 0.4% in 2015 compared to 2014 and decreased by 0.5% in 2014 compared to 2013, the Company remains concerned about the impact that The Patient Protection and Affordable Care Act (ACA) will have on its future operating expenses. Based on the ACA definition

of full time employment, there will be approximately an 18% increase in full time employees, which is currently

of sales.

estimated to be a \$928,000 increase in costs.

labor decreased 0.1% in 2015 compared to 2014 and decreased 0.2% in 2014 compared to 2013. The increase in the base hourly rate for associates to \$9 per hour and related wage compression had an estimated cost of \$3.2 million in the second half of 2015. Increases in employee related expenses were offset by savings realized from a store labor efficiency project. In addition, employee related expenses increased \$7.3 million in 2015 compared to 2014 due to anticipated and actual achievement of incentives for various levels of management, which increased 0.2% as a percent

On September 21, 2013, the Company entered into a separation agreement with the former President and Chief Executive Officer. The Company's "Operating, general and administrative expenses" were negatively impacted by the charge of \$6.1 million worth of estimated expenses related to the separation agreement. See Exhibit 10, filed with the quarterly report on Form 10-Q filed on November 7, 2013, for more information pertaining to the separation agreement.

Depreciation and amortization expense was \$70.1 million, or 2.4% of net sales, for 2015 compared to \$66.9 million, or 2.4% of net sales, for 2014 and \$58.3 million, or 2.2% of net sales, for 2013. The increase in depreciation and amortization expense in 2015 compared to 2014 and in 2014 compared to 2013 was the result of additional capital expenditures as the Company implements its capital expansion program. See the Liquidity and Capital Resources section for further information regarding the Company's capital expansion program.

The Company recognized pre-tax gains of \$751,000, \$2.6 million and \$2.9 million in 2015, 2014 and 2013, respectively, from the sale of two properties in each year. In 2013, the Company determined that the asset value of four properties was impaired. As a result, the Company recognized a pre-tax impairment loss of \$2.1 million. See Note 1(1) to the Consolidated Financial Statements included in this Annual Report on Form 10-K for more information on the Company's impairment charges. Earnings were further impacted in 2013 by a \$680,000 adjustment to liabilities for future expenses on closed stores.

Retail store profitability is sensitive to volatility in utility costs due to the amount of electricity and gas required to operate the Company's stores and facilities. The Company is responding to this volatility in operating costs by employing conservation technologies, procurement strategies and associate energy awareness programs to manage and reduce consumption. The Company continues to be a member of the EPA GreenChill program for advancing environmentally beneficial refrigerant management systems and has ten stores registered under this program. In addition, all Company stores have an assigned Green Leader to promote in-store energy conservation.

WEIS MARKETS, INC.

Table of Contents

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations: (continued)

Results of Operations (continued)

Operating, General and Administrative Expense (continued)

A breakdown of the material increases (decreases) as a percent of sales in "Operating, general and administrative expenses" is as follows:

		2015 vs. 2014				2014 vs. 2013				
		Increase					Increase			
			(Decrease)					(Decrease)		
		Increase as a % Increase					as a %			
(dollars in thousands)	sands) (Decrease) of sales					(Decrease) of sales				
Employee related expenses	\$	19,421	0.2	%	\$	10,517	(0.1)	%		
Store advertising expense	\$	(1,277)	(0.1)	%	\$	3,082	0.1	%		
Depreciation and amortization	\$	4,473	0.1	%	\$	6,195	0.2	%		
Utility expense	\$	(1,222)	(0.1)	%	\$	1,790	0.0	%		
Rent expense	\$	(1,220)	(0.1)	%	\$	(71)	(0.0)	%		
Repairs/maintenance contracts	\$	312	0.0	%	\$	4,502	0.2	%		
Landlord common area maintenance	\$	(196)	(0.0)	%	\$	2,876	0.1	%		

Employee-related expenses increased in 2015 and 2014 for the reasons noted above, primarily related to increases in the basic hourly rate, management incentives and increases in sales volume. Hourly employees, particularly part time employees, are required to work increased hours when there is growth in sales volume. Increases in employee related expenses were offset by savings realized from a store labor efficiency project in both 2015 and 2014.

Store advertising expense decreased in 2015 due to reduced spending on direct mail and weekly ads. In 2014, store advertising expenses increased due to the promotion of the Company's new pricing strategy.

Depreciation and amortization increased in 2015 and 2014 as a result of the Company's store capital expenditure program and technology investments.

Utility expense decreased in 2015 for the reasons noted above related to energy conservation efforts and procurement strategies, along with reduced electricity costs and usage and a reduction in the use of natural gas. The Company's utility expense increased in 2014 despite the aforementioned initiatives primarily due to higher generation charges and below average temperatures in the Mid-Atlantic States, the Company's operating region, in the first quarter of 2014.
Rent expense decreased in 2015 primarily due to adjustments to accrued closed store liability estimates and purchasing a previously leased location.
Repairs/maintenance contracts increased in 2014 primarily due to new maintenance contracts for software and hardware including store front end systems.
Landlord common area maintenance expense increased in 2014 due to higher than average snowfall in the Company's operating region.

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations: (continued)

Results of Operations (continued)

Investment Income

The Company's investment portfolio consists of marketable securities, which currently includes municipal bonds and equity securities, as well as the Company's SERP investment, which is comprised of mutual funds that are maintained within the Company's non-qualified supplemental executive retirement plan and the non-qualified pharmacist deferred compensation plan. The Company classifies all of its municipal bonds and equity securities as available-for-sale. The SERP investments are classified as trading securities.

				Dollar	Dollar
Analysis of Investment Income	2015	2014	2013	Changes	Changes
	(52	(52	(52	2015 vs.	2014 vs.
(dollars in thousands)	weeks)	weeks)	weeks)	2014	2013
Bond income	\$ 1,420	\$ 1,187	\$ 1,598	\$ 233	\$ (411)
Equity income	412	706	1,895	(294)	(1,189)
SERP investment	(280)	394	1,191	(674)	(797)
Investment income	\$ 1,552	\$ 2,287	\$ 4,684	\$ (735)	\$ (2,397)

Equity income decreased in 2015 as a result of the Company receiving a stock dividend in 2014 which was not repeated in 2015. Equity income decreased in 2014 compared to 2013 due to recognizing gains on the sale of equity securities in 2013.

SERP investment was impacted by market adjustments in both 2015 and 2014 and experienced a loss in 2015.

Provision for Income Taxes

The effective income tax rate was 35.7%, 35.0% and 38.2% in 2015, 2014 and 2013, respectively. The effective income tax rate rose in 2015 due to an increase in state tax expense. The effect of this increase was partially offset by an increase in tax benefits related to tax exempt interest, food donations, and the Work Opportunity Tax Credit, resulting in a net increase of 0.7%. In 2014, pre-tax book income decreased significantly. Tax exempt interest and dividends eligible for a dividends received deduction increased, causing an increase to the net favorable permanent differences. The combination of the decrease to net income before taxes and increase to the net favorable permanent differences resulted in a drop in the effective rate for 2014. The effective income tax rate differs from the federal statutory rate of 35% primarily due to the effect of state taxes, net of permanent differences.

Liquidity and Capital Resources

Net cash provided by operating activities was \$136.7 million in 2015, compared to \$123.1 million in 2014 and \$142.6 million in 2013. Working capital increased 1.4% in 2015, increased 6.4% in 2014 and decreased 8.5% in 2013, in each case compared to the prior year. The 2014 working capital increase is primarily attributed to the lower investment in the Company's capital expansion program during 2014 compared to the previous years. Whereas, the 2013 decrease in working capital is primarily due to the utilization of marketable securities to fund the Company's capital expansion program.

Net cash used in investing activities was \$109.8 million in 2015 compared to \$85.8 million in 2014 and \$106.8 million in 2013. These funds were used primarily to purchase property and equipment in the three fiscal years presented. Property and equipment purchases totaled \$90.2 million in 2015, compared to \$79.2 million in 2014 and \$128.1 million in 2013. The Company paid \$7.9 million for the property and equipment related to the purchase of a store in Hanover, Pennsylvania in the third quarter of 2015. As a percentage of sales, capital expenditures were 3.1%, 2.9% and 4.8% in 2015, 2014 and 2013, respectively.

The Company's capital expansion program includes the construction of new superstores, the expansion and remodeling of existing units, the acquisition of sites for future expansion, new technology purchases and the continued upgrade of the Company's distribution facilities and transportation fleet. Management currently plans to invest approximately \$100 million in its capital expansion program in 2016.

WEIS MARKETS, INC.

Table of Contents

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations: (continued)

Liquidity and Capital Resources (continued)

Net cash used in financing activities was \$32.3 million in 2015, 2014 and 2013, which solely consisted of dividend payments to shareholders. At December 26, 2015, the Company had a \$30 million line of credit, of which \$16.9 million was committed to outstanding letters of credit. The letters of credit are maintained primarily to support performance, payment, deposit or surety obligations of the Company. The Company does not anticipate drawing on any of them. The Company has a \$50 million short-term credit facility agreement to fund future financing activities.

Total cash dividend payments on common stock, on a per share basis, amounted to \$1.20 in 2015, 2014 and 2013. No treasury stock was purchased in 2015, 2014 or 2013. The Board of Directors' 2004 resolution authorizing the repurchase of up to one million shares of the Company's common stock has a remaining balance of 752,468 shares.

The Company has no other commitment of capital resources as of December 26, 2015, other than the lease commitments on its store facilities and transportation equipment under operating leases that expire at various dates through 2029. The Company anticipates funding its working capital requirements and its \$100 million 2016 capital expansion program through cash and investment reserves and future internally generated cash flows from operations.

The Company's earnings and cash flows are subject to fluctuations due to changes in interest rates as they relate to available-for-sale securities and any future long-term debt borrowings. The Company's marketable securities portfolio currently consists of municipal bonds and equity securities. Other short-term investments are classified as cash equivalents on the Consolidated Balance Sheets.

Under its current policies, the Company invests in high-grade marketable debt securities and does not use interest rate derivative instruments to manage exposure to interest rate fluctuations. Currently, the Company's investment strategy of obtaining marketable debt securities with maturity dates between one and ten years helps to minimize market risk and to maintain a balance between risk and return. The equity securities owned by the Company consist primarily of stock held in large capitalized companies trading on public security exchange markets. The Company's management continually monitors the risk associated with its marketable securities. A quantitative tabular presentation of risk exposure is located in "Item 7a. Quantitative and Qualitative Disclosures about Market Risk" of this report.

By their nature, these financial instruments inherently expose the holders to market risk. The extent of the Company's interest rate and other market risk is not quantifiable or predictable with precision due to the variability of future interest rates and other changes in market conditions. However, the Company believes that its exposure in this area is not material.

The Company experienced an unrealized holding loss net of deferred taxes of \$52,000 in 2015, an unrealized holding gain net of deferred taxes of \$927,000 in 2014 and an unrealized holding loss net of deferred taxes of \$36,000 in 2013 (see Consolidated Statements of Comprehensive Income). As of December 26, 2015, the Company had \$8.2 million in gross unrealized holding gains and \$66,000 in gross unrealized holding losses related to marketable securities. See Note 2 Investments, of Notes to the Consolidated Financial Statements included in this Annual Report on Form 10-K for more information on the Company's marketable securities.

Contractual Obligations

The following table represents scheduled maturities of the Company's long-term contractual obligations as of December 26, 2015.

	Payments of	lue by period	d		
		Less than	L		More than
(dollars in thousands)	Total	1 year	1-3 years	3-5 years	5 years
Operating leases	\$ 193,862	\$ 32,237	\$ 58,905	\$ 40,310	\$ 62,410
Total	\$ 193,862	\$ 32,237	\$ 58,905	\$ 40,310	\$ 62,410

Off-Balance Sheet Arrangements

The Company is not a party to any off-balance sheet arrangements that have, or are reasonably likely to have, a current or future effect on the Company's financial condition, results of operations or cash flows, except for the Company's lease commitments to be recognized on the balance sheet related to operating leases for its store facilities and transportation equipment, which will be required for annual periods beginning after December 15, 2018 per the Financial Accounting Standards Board ("FASB") Accounting Standards Update ("ASU") 2016-02, Leases (Topic 842). See Note 1(x) Summary of Significant Accounting Policies, to the Consolidated Financial Statements included in this Annual Report on Form 10-K for more information on ASU 2016-02.

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations: (continued)

Critical Accounting Policies and Estimates

The Company has chosen accounting policies that it believes are appropriate to accurately and fairly report its operating results and financial position, and the Company applies those accounting policies in a consistent manner. The Significant Accounting Policies are summarized in Note 1 to the Consolidated Financial Statements. As a result of implementing Accounting Standards Update ("ASU") 2015-17, Income Taxes (Topic 740): Balance Sheet Classification of Deferred Taxes, the Company reclassified its current deferred income tax liabilities as noncurrent deferred income tax liabilities retrospectively for all periods presented as of the year ended December 26, 2015. See Note 1(x) to the Consolidated Financial Statements included in this Annual Report on Form 10-K for more information on the Company's accounting policy changes.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires that the Company makes estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses. These estimates and assumptions are based on historical and other factors believed to be reasonable under the circumstances. The Company evaluates these estimates and assumptions on an ongoing basis and may retain outside consultants, lawyers and actuaries to assist in its evaluation. The Company believes the following accounting policies are the most critical because they involve the most significant judgments and estimates used in preparation of its Consolidated Financial Statements.

Inventories

Inventories are valued at the lower of cost or market, using both the last-in, first-out (LIFO) and average cost methods. The Company's center store and pharmacy inventories are valued using LIFO and the Company's fresh inventories are valued using average cost. The Company evaluates inventory shortages throughout the year based on actual physical counts in its facilities. Allowances for inventory shortages are recorded based on the results of these counts and to provide for estimated shortages from the last physical count to the financial statement date.

Property and Equipment

Property and equipment are recorded at cost. Depreciation is provided on the cost of buildings and improvements and equipment using the straight-line method.

Leasehold improvements are amortized using the straight-line method over the terms of the leases or the useful lives of the assets, whichever is shorter.

Maintenance and repairs are expensed and renewals and betterments are capitalized. When assets are retired or otherwise disposed of, the assets and accumulated depreciation are removed from the respective accounts and any profit or loss on the disposition is credited or charged to "Operating, general and administrative expenses."

Goodwill and Intangible Assets

Intangible assets with an indefinite useful life are not amortized until their useful life is determined to be no longer indefinite and are tested for impairment annually or more frequently if events or changes in circumstances indicate that the asset might be impaired. Goodwill is not amortized but tested for impairment for each reporting unit on an annual basis and between annual tests in certain circumstances.

To derive the fair value of the Company's sole reporting unit, the Company uses an income approach along with an analysis of its stock value. Under the income approach, fair value of a reporting unit is determined based on estimated future cash flows discounted by an estimated weighted-average cost of capital, which reflects the overall level of inherent risk of the Company. Estimated future cash flows are based on the Company's internal projection model. The stock value evaluation consists of measuring the average market capitalization of the Company against its total asset value of its sole reporting unit. The Company completes an impairment test annually. See Note 1(l) to the Consolidated Financial Statements included in this Annual Report on Form 10-K for more information on the Company's impairment of long-lived assets.

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations: (continued)

Critical Accounting Policies and Estimates (continued)

Revenue Recognition

Revenue from the sale of products to the Company's customers is recognized at the point of sale. Discounts provided to customers at the point of sale through the Weis Club Preferred Shopper loyalty program are recognized as a reduction in sales as products are sold. Periodically, the Company will run a point based sales incentive program that rewards customers with future sales discounts. The Company makes reasonable and reliable estimates of the amount of future discounts based upon historical experience and its customer data tracking software. Sales are reduced by these estimates over the life of the program. Discounts to customers at the point of sale provided by vendors, usually in the form of paper coupons, are not recognized as a reduction in sales provided the discounts are redeemable at any retailer that accepts those discounts. The Company records "Deferred revenue" for the sale of gift cards and revenue is recognized in "Net sales" at the time of customer redemption for products. Gift card breakage income is recognized in "Operating, general and administrative expenses" based upon historical redemption patterns and represents the balance of gift cards for which the Company believes the likelihood of redemption by the customer is remote. Sales tax is excluded from "Net sales." The Company charges sales tax on all taxable customer purchases and remits these taxes monthly to the appropriate taxing jurisdiction. Merchandise return activity is immaterial to revenues due to products being returned quickly and the unit cost is relatively low.

Vendor Allowances

Vendor allowances related to the Company's buying and merchandising activities are recorded as a reduction of cost of sales as they are earned, in accordance with the underlying agreement. Off-invoice and bill-back allowances are used to reduce direct product costs upon the receipt of goods. Promotional rebates and credits are accounted for as a reduction in the cost of inventory and recognized when the related inventory is sold. Volume incentive discounts are realized as a reduction of cost of sales at the time it is deemed probable and reasonably estimable that the incentive target will be reached. Long-term contract incentives, which require an exclusive vendor relationship, are allocated over the life of the contract. Promotional allowance funds for specific vendor-sponsored programs are recognized as a reduction of cost of sales as the program occurs and the funds are earned per the agreement. Cash discounts for prompt payment of invoices are realized in cost of sales as invoices are paid. Warehouse and back-haul allowances provided by suppliers for distributing their product through the Company's distribution system are recorded in cost of sales as the required performance is completed. Warehouse rack and slotting allowances are recorded in cost of sales when new items are initially set up in the Company's distribution system, which is when the related expenses are incurred and performance under the agreement is complete. Swell allowances for damaged goods are realized in cost of sales as provided by the supplier, helping to offset product shrink losses also recorded in cost of sales.

Store Closing Costs

The Company provides for closed store liabilities relating to the estimated post-closing lease liabilities and related other exit costs associated with the store closing commitments. Currently, closed stores have remaining lease terms ranging from one to three years, and the liabilities associated with these closed store leases are paid over the terms of the leases. Closed store lease liabilities totaled \$212,000 and \$955,000 as of December 26, 2015 and December 27, 2014, respectively. The Company estimates the lease liabilities, net of estimated sublease income, using the undiscounted rent payments of closed stores. Other exit costs include estimated real estate taxes, common area maintenance, insurance and utility costs to be incurred after the store closes over the remaining lease term. Store closings are generally completed within one year after the decision to close. Adjustments to closed store liabilities and other exit costs primarily relate to changes in sublease income and actual exit costs differing from original estimates. Adjustments are made for changes in estimates in the period in which the changes become known. Any excess store closing liability remaining upon settlement of the obligation is reversed to income in the period that such settlement is determined. Store closing liabilities are reviewed quarterly to ensure that any accrued amount that is not a sufficient estimate of future costs, or that is no longer needed for its originally intended purpose, is adjusted to income in the proper period. Inventory write-downs, if any, in connection with store closings, are classified in cost of sales. Costs to transfer inventory and equipment from closed stores are expensed as incurred.

Self-Insurance

The Company is self-insured for a majority of its workers' compensation, general liability, vehicle accident and associate medical benefit claims. The self-insurance liability for most of the medical benefit claims is determined based on historical data and an estimate of claims incurred but not reported. The other self-insurance liabilities including workers' compensation are determined actuarially, based on claims filed and an estimate of claims incurred but not yet reported. The Company was liable for associate health claims up to an annual maximum of \$1,250,000 per member prior to March 1, 2013, \$2,000,000 per member prior to March 1, 2014 and an unlimited amount per member as of March 1, 2014. As of March 1, 2014, the Company purchased stop loss insurance which carries a \$500,000 specific deductible with a \$250,000 aggregating deductible. The Company is liable for workers' compensation claims up to \$2,000,000 per claim. Property and casualty insurance coverage is maintained with outside carriers at deductible or retention levels ranging from \$100,000 to \$1,000,000. Significant assumptions used in the development of the actuarial estimates include reliance on the Company's historical claims data including average monthly claims and average lag time between incurrence and reporting of the claim.

Forward-Looking Statements

In addition to historical information, this Annual Report may contain forward-looking statements, which are included pursuant to the "safe harbor" provisions of the Private Securities Litigation Reform Act of 1995. Any forward-looking statements contained herein are subject to certain risks and uncertainties that could cause actual results to differ materially from those projected. For example, risks and uncertainties can arise with changes in: general economic conditions, including their impact on capital expenditures; business conditions in the retail industry; the regulatory environment; rapidly changing technology and competitive factors, including increased competition with regional and national retailers; and price pressures. Readers are cautioned not to place undue reliance on forward-looking statements, which reflect management's analysis only as of the date hereof. The Company undertakes no obligation to publicly revise or update these forward-looking statements to reflect events or circumstances that arise after the date hereof. Readers should carefully review the risk factors described in other documents the Company files periodically with the Securities and Exchange Commission.

Other Relevant Market Risks

The Company's equity securities at December 26, 2015 had a cost basis of \$1,198,000 and a fair value of \$7,880,000. The dividend yield realized on these equity investments was 5.23% in 2015. Market risk, as it relates to equities owned by the Company, is discussed within the "Liquidity and Capital Resources" section of "Management's

Discussion and Analysis of Financial Condition and Results of Operations" contained within this report.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

Note 1 Summary of Significant Accounting Policies

The following is a summary of the significant accounting policies utilized in preparing the Company's Consolidated Financial Statements:

(a) Description of Business

Weis Markets, Inc. is a Pennsylvania business corporation formed in 1924. The Company is engaged principally in the retail sale of food in Pennsylvania and surrounding states. The Company's operations are reported as a single reportable segment. There was no material change in the nature of the Company's business during fiscal 2015.

(b) Definition of Fiscal Year

The Company's fiscal year ends on the last Saturday in December. Fiscal 2015 was comprised of 52 weeks, ending on December 26, 2015. Fiscal 2014 was comprised of 52 weeks, ending on December 27, 2014. Fiscal 2013 was comprised of 52 weeks, ending on December 28, 2013. References to years in this Annual Report relate to fiscal years.

(c) Principles of Consolidation

The Consolidated Financial Statements include the accounts of the Company and its subsidiaries. All significant intercompany accounts and transactions have been eliminated in consolidation.

(d) Use of Estimates

Management of the Company has made a number of estimates and assumptions relating to the reporting of assets and liabilities and the disclosure of contingent assets and liabilities to prepare these Consolidated Financial Statements in conformity with accounting principles generally accepted in the United States of America. Actual results could differ from those estimates.

(e) Correction for Immaterial Prior Period Misstatements

The Company corrected the "Loss (gain) on disposition/impairment of fixed assets" originally reported as a net loss of \$55,000 in the 2013 Consolidated Statement of Cash Flows into the "Gain on disposition of fixed assets" of \$2.0 million and the "Impairment of fixed assets" of \$2.1 million. There is no cash impact on the 2013 Consolidated Statement of Cash Flows related to this change, since both line items still net to the originally reported \$55,000.

(f) Cash and Cash Equivalents

The Company maintains its cash balances in the form of core checking accounts and money market accounts. The Company maintains cash deposits with banks that at times exceed applicable insurance limits. The Company reduces its exposure to credit risk by maintaining such deposits with high quality financial institutions that management believes are creditworthy.

The Company considers investments with an original maturity of three months or less to be cash equivalents. Investment amounts classified as cash equivalents as of December 26, 2015 and December 27, 2014 totaled \$7.7 million and \$14.4 million, respectively.

(g) Investments

Marketable securities consist of municipal bonds and equity securities. The Company invests primarily in high-grade marketable debt securities. The Company classifies all of its marketable securities as available-for-sale.

Available-for-sale securities are recorded at fair value as determined by quoted market price based on national markets. Unrealized holding gains and losses, net of the related tax effect, are excluded from earnings and are reported as a separate component of shareholders' equity until realized. A decline in the fair value below cost that is deemed other than temporary results in a charge to earnings and the establishment of a new cost basis for the security. Dividend and interest income is recognized when earned. Realized gains and losses are included in earnings and are derived using the specific identification method for determining the cost of securities.

(h) Accounts Receivable

Accounts receivable are stated net of an allowance for uncollectible accounts of \$1,967,000 and \$1,578,000 as of December 26, 2015 and December 27, 2014, respectively. The reserve balance relates to amounts due from pharmacy third party providers, retail customer returned checks, manufacturing customers, vendors and tenants. The Company maintains an allowance for the amount of receivables deemed to be uncollectible and calculates this amount based upon historical collection activity adjusted for current conditions. Customer electronic payments accepted at the point of sale are classified as accounts receivable until collected.

WEIS MARKETS, INC.

Table of Contents

Note 1 Summary of Significant Accounting Policies (continued)

(i) Inventories

Inventories are valued at the lower of cost or market, using both the last-in, first-out (LIFO) and average cost methods. The Company's center store and pharmacy inventories are valued using LIFO and the Company's fresh inventories are valued using average cost. The Company evaluates inventory shortages throughout the year based on actual physical counts in its facilities. Allowances for inventory shortages are recorded based on the results of these counts and to provide for estimated shortages from the last physical count to the financial statement date.

(j) Property and Equipment

Property and equipment are recorded at cost. Depreciation is provided on the cost of buildings and improvements and equipment using the straight-line method.

Leasehold improvements are amortized using the straight-line method over the terms of the leases or the useful lives of the assets, whichever is shorter.

Maintenance and repairs are expensed and renewals and betterments are capitalized. When assets are retired or otherwise disposed of, the assets and accumulated depreciation are removed from the respective accounts and any profit or loss on the disposition is credited or charged to "Operating, general and administrative expenses."

(k) Goodwill and Intangible Assets

Intangible assets with an indefinite useful life are not amortized until their useful life is determined to be no longer indefinite and are tested for impairment annually or more frequently if events or changes in circumstances indicate that the asset might be impaired. Goodwill is not amortized but tested for impairment for each reporting unit on an annual basis and between annual tests when indicators of impairment are identified.

To derive the fair value of the Company's sole reporting unit, the Company uses an income approach along with an analysis of its stock value. Under the income approach, fair value of a reporting unit is determined based on estimated future cash flows discounted by an estimated weighted-average cost of capital, which reflects the overall level of inherent risk of the Company. Estimated future cash flows are based on the Company's internal projection model. The stock value evaluation consists of measuring the average market capitalization of the Company against its total asset value of its sole reporting unit.

The Company's intangible assets and related accumulated amortization at December 26, 2015 and December 27, 2014 consisted of the following:

		December 26,		December 27,				
		2015		2014				
		Accumulated			Accumulated			
(dollars in thousands)	Gross	Amortization	Net	Gross	Amortization	Net		
Lease Acquisitions	3,654	2,604	1,050	3,654	2,418	1,236		
Liquor Licenses	5,965	-	5,965	3,358	-	3,358		
Customer Lists	162	15	147	120	10	110		
Total	\$ 9,781	\$ 2.619	\$ 7,162 \$	7.132	\$ 2,428	\$ 4,704		

Intangible assets with a definite useful life are generally amortized on a straight-line basis over periods up to 30 years. Estimated amortization expense for the next five fiscal years is approximately \$191,000 in 2016, \$191,000 in 2017, \$191,000 in 2018, \$191,000 in 2019 and \$188,000 in 2020. As of December 26, 2015, the Company's intangible assets with indefinite lives consisted of goodwill and Pennsylvania liquor licenses.

WEIS MARKETS, INC.

Table of Contents

Note 1 Summary of Significant Accounting Policies (continued)

(1) Impairment of Long-Lived Assets

The Company periodically evaluates the period of depreciation or amortization for long-lived assets to determine whether current circumstances warrant revised estimates of useful lives. The Company completes an impairment test annually. The Company also reviews its property and equipment for impairment whenever events or changes in circumstances indicate the carrying value of an asset may not be recoverable. Recoverability is measured by a comparison of the carrying amount to the net undiscounted cash flows expected to be generated by the asset. An impairment loss would be recorded for the excess of net book value over the fair value of the asset impaired. The fair value is estimated based on expected discounted future cash flows.

With respect to owned property and equipment associated with closed stores, the value of the property and equipment is adjusted to reflect recoverable values based on the Company's prior history of disposing of similar assets and current economic conditions.

In accordance with Accounting Standards Codification No. 360, Property, Plant and Equipment, the Company recorded a pre-tax charge of \$2.1 million in the third quarter of 2013 for the impairment of long-lived assets, including equipment and leasehold improvements. The charge was a result of management determining that the net book value of four properties was impaired. This charge was included as a component of "Operating, general and administrative expenses."

The results of impairment tests are subject to management's estimates and assumptions of projected cash flows and operating results. The Company believes that, based on current conditions, materially different reported results are not likely to result from long-lived asset impairments. However, a change in assumptions or market conditions could result in a change in estimated future cash flows and the likelihood of materially different reported results.

(m) Store Closing Costs

The Company provides for closed store liabilities relating to the estimated post-closing lease liabilities and related other exit costs associated with the store closing commitments. Currently, closed stores have remaining lease terms ranging from one to three years, and the liabilities associated with these closed store leases are paid over the terms of the lease. Closed store lease liabilities totaled \$212,000 and \$955,000 as of December 26, 2015 and December 27, 2014, respectively. The Company estimates the lease liabilities, net of estimated sublease income, using the undiscounted rent payments of closed stores. Other exit costs include estimated real estate taxes, common area maintenance, insurance and utility costs to be incurred after the store closes over the remaining lease term. Store closings are generally completed within one year after the decision to close. Adjustments to closed store liabilities

and other exit costs primarily relate to changes in sublease income and actual exit costs differing from original estimates. Adjustments are made for changes in estimates in the period in which the changes become known. Any excess store closing liability remaining upon settlement of the obligation is reversed to income in the period that such settlement is determined. Store closing liabilities are reviewed quarterly to ensure that any accrued amount that is not a sufficient estimate of future costs, or that no longer is needed for its originally intended purpose, is adjusted to income in the proper period. Inventory write-downs, if any, in connection with store closings are classified in cost of sales. Costs to transfer inventory and equipment from closed stores are expensed as incurred.

The following table summarizes accrual activity for future lease obligations of stores that were closed in the normal course of business:

WEIS MARKETS, INC.

Table of Contents

Note 1 Summary of Significant Accounting Policies (continued)

(n) Self-Insurance

The Company is self-insured for a majority of its workers' compensation, general liability, vehicle accident and associate medical benefit claims. The self-insurance liability for most of the medical benefit claims is determined based on historical data and an estimate of claims incurred but not reported. The other self-insurance liabilities including workers' compensation are determined actuarially, based on claims filed and an estimate of claims incurred but not yet reported. The Company was liable for associate health claims up to an annual maximum of \$1,250,000 per member prior to March 1, 2013, \$2,000,000 per member prior to March 1, 2014 and an unlimited amount per member as of and after March 1, 2014. As of March 1, 2014, the Company purchased stop loss insurance which carries a \$500,000 specific deductible with a \$250,000 aggregating deductible. The Company is liable for workers' compensation claims up to \$2,000,000 per claim. Property and casualty insurance coverage is maintained with outside carriers at deductible or retention levels ranging from \$100,000 to \$1,000,000. Significant assumptions used in the development of the actuarial estimates include reliance on the Company's historical claims data including average monthly claims and average lag time between incurrence and reporting of the claim.

(o) Income Taxes

The Company recognizes deferred tax assets and liabilities for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The Company reviews the tax positions taken or expected to be taken on tax returns to determine whether and to what extent a benefit can be recognized in our Consolidated Financial Statements. Refer to Note 8 to the Consolidated Financial Statements for the amount of unrecognized tax benefits and other disclosures related to uncertain tax positions. To the extent interest and penalties would be assessed by taxing authorities on any underpayment of income tax, such amounts are accrued and classified as a component of income tax expense.

(p) Earnings Per Share

Earnings per share are based on the weighted-average number of common shares outstanding.

(q) Revenue Recognition

Revenue from the sale of products to the Company's customers is recognized at the point of sale. Discounts provided to customers at the point of sale through the Weis Club Preferred Shopper loyalty program are recognized as a reduction in sales as products are sold. Periodically, the Company will run a point based sales incentive program that rewards customers with future sales discounts. The Company makes reasonable and reliable estimates of the amount

of future discounts based upon historical experience and its customer data tracking software. Sales are reduced by these estimates over the life of the program. Discounts to customers at the point of sale provided by vendors, usually in the form of paper coupons, are not recognized as a reduction in sales provided the discounts are redeemable at any retailer that accepts those discounts. The Company records "Deferred revenue" for the sale of gift cards and revenue is recognized in "Net sales" at the time of customer redemption for products. Gift card breakage income is recognized in "Operating, general and administrative expenses" based upon historical redemption patterns and represents the balance of gift cards for which the Company believes the likelihood of redemption by the customer is remote. Sales tax is excluded from "Net sales." The Company charges sales tax on all taxable customer purchases and remits these taxes monthly to the appropriate taxing jurisdiction. Merchandise return activity is immaterial to revenues due to products being returned quickly and the unit cost is relatively low.

(r) Cost of Sales, Including Warehousing and Distribution Expenses

"Cost of sales, including warehousing and distribution expenses" consists of direct product costs (net of discounts and allowances), distribution center and transportation costs, as well as manufacturing facility operations.

(s) Vendor Allowances

Vendor allowances related to the Company's buying and merchandising activities are recorded as a reduction of cost of sales as they are earned, in accordance with the underlying agreement. Off-invoice and bill-back allowances are used to reduce direct product costs upon the receipt of goods. Promotional rebates and credits are accounted for as a reduction in the cost of inventory and recognized when the related inventory is sold. Volume incentive discounts are realized as a reduction of cost of sales at the time it is deemed probable and reasonably estimable that the incentive target will be reached. Long-term contract incentives, which require an exclusive vendor relationship, are allocated over the life of the contract. Promotional allowance funds for specific vendor-sponsored programs are recognized as a reduction of cost of sales as the program occurs and the funds are earned per the agreement. Cash discounts for prompt payment of invoices are realized in cost of sales as invoices are paid. Warehouse and back-haul allowances provided by suppliers for distributing their product through the Company's distribution system are recorded in cost of sales as the required performance is completed. Warehouse rack and slotting allowances are recorded in cost of sales when new items are initially set up in the Company's distribution system, which is when the related expenses are incurred and performance under the agreement is complete. Swell allowances for damaged goods are realized in cost of sales as provided by the supplier, helping to offset product shrink losses also recorded in cost of sales.

WEIS MARKETS, INC.

Table of Contents

Note 1 Summary of Significant Accounting Policies (continued)

(s) Vendor Allowances (continued)

Vendor allowances recorded as credits in cost of sales totaled \$97.0 million in 2015, \$89.5 million in 2014 and \$76.4 million in 2013. Vendor paid cooperative advertising credits totaled \$17.1 million in 2015, \$16.0 million in 2014 and \$16.0 million in 2013. These credits were netted against advertising costs within "Operating, general and administrative expenses." The Company had accounts receivable due from vendors of \$842,000 and \$395,000 for earned advertising credits and \$8.1 million and \$5.7 million for earned promotional discounts as of December 26, 2015 and December 27, 2014, respectively. The Company had \$823,000 and \$734,000 in unearned income included in accrued liabilities for unearned vendor programs under long-term contracts for display and shelf space allocation as of December 26, 2015 and December 27, 2014, respectively.

(t) Operating, General and Administrative Expenses

Business operating costs including expenses generated from administration and purchasing functions, are recorded in "Operating, general and administrative expenses" in the Consolidated Statements of Income. Business operating costs include items such as wages, benefits, utilities, repairs and maintenance, advertising costs and credits, rent, insurance, depreciation, leasehold amortization and costs for outside provided services.

(u) Advertising Costs

The Company expenses advertising costs as incurred. The Company recorded advertising expense, before vendor paid cooperative advertising credits, of \$23.1 million in 2015, \$24.6 million in 2014 and \$23.5 million in 2013 in "Operating, general and administrative expenses."

(v) Rental Income

The Company leases or subleases space to tenants in owned, vacated and open store facilities. Rental income is recorded when earned as a component of "Operating, general and administrative expenses." All leases are operating leases, as disclosed in Note 5.

(w) Basis of Presentation

In conjunction with the September 26, 2015 quarterly financial statement close process, and while researching alternative methods to calculate retained claim liability for the Company's self-insured workers compensation and general liability insurance programs, the Company discovered errors in the application of the actuarial methods used

to estimate the obligation of future payments resulting from claims due to past events. These errors primarily related to the Company's selection of loss development factors and the application of such factors to the population of claims. The impact of these prior period misstatements to the Company's Consolidated Financial Statements resulted in the understatement of workers compensation and general liability expense with a corresponding understatement of self-insurance liabilities over multiple fiscal periods through June 27, 2015. Consequently, the Company has restated certain prior period amounts to correct these errors.

Based on an analysis of quantitative and qualitative factors in accordance with SEC Staff Accounting Bulletins 99 and 108, the Company concluded that these errors were not material to the consolidated financial position, results of operations or cash flows as presented in the Company's quarterly and annual financial statements that have been previously filed in the Company's Quarterly Reports on Form 10-Q and Annual Reports on Form 10-K. As a result, amendment of such reports was not required. In preparing the Company's Consolidated Financial Statements for the thirteen and thirty-nine weeks ended September 26, 2015 and for each of the three years in the period ended December 26, 2015, the Company made appropriate revisions to its financial statements for historical periods. Such changes were reflected in the financial results for the thirteen and thirty-nine weeks ended September 26, 2015 and are also reflected in the historical financial results included in these Consolidated Financial Statements.

The effect of these errors decreased net income by \$786,000, or \$0.03 per share, for the year ended December 27, 2014 and increased net income by \$1.5 million, or \$0.05 per share, for the year ended December 28, 2013. These errors also increased total liabilities by \$13.1 million at December 27, 2014 and reduced retained earnings by \$13.7 million at December 29, 2012. Additional information about these corrections, including a reconciliation of each financial statement line item affected, has been included in Note 7 to the Company's Consolidated Financial Statements contained in its Quarterly Report on Form 10-Q for the period ended September 26, 2015.

WEIS MARKETS, INC.

Table of Contents

Note 1 Summary of Significant Accounting Policies (continued)

(x) Current Relevant Accounting Standards

In April 2014, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2014-08, Presentation of Financial Statements (Topic 205) and Property, Plant and Equipment (Topic 360): Reporting Discontinued Operations and Disclosures of Disposals of Components of an Entity. ASU 2014-08 amends guidance on reporting discontinued operations only if the disposal of a component of an entity or group of components of an entity represents a strategic shift that has (or will have) a major effect on an entity's operations and financial results. It also allows companies to have significant continuing involvement and continuing cash flows with the discontinued operations. Additional disclosures are also required for discontinued operations and individually material disposal transactions that do not meet the definition of a discontinued operation. The standard should be applied prospectively for all disposals of components of an entity and for all businesses that, on acquisition, are classified as held for sale that occurred within annual periods beginning on or after December 15, 2014, including interim periods within that reporting period. Adoption of the ASU did not have an impact on the Company's 2015 Consolidated Financial Statements.

In May 2014, the FASB issued ASU 2014-09, Revenue from Contracts with Customers (Topic 606), which amended the existing accounting standards for revenue recognition. ASU 2014-09 establishes principles for recognizing revenue upon the transfer of promised goods or services to customers, in an amount that reflects the expected consideration received in exchange for those goods or services. The standard was initially effective for annual reporting periods beginning after December 15, 2016, including interim periods within that reporting period. In August 2015, the FASB issued a one-year deferral of the effective date of this new guidance resulting in it now being effective for the Company beginning in fiscal year 2018. Early adoption is not permitted. The amendments may be applied retrospectively to each prior period presented or retrospectively with the cumulative effect recognized as of the date of initial application. The Company is currently in the process of evaluating the impact of adoption of the ASU on its Consolidated Financial Statements.

In August 2014, the FASB issued ASU 2014-15, Presentation of Financial Statements – Going Concern (Subtopic 205-40)(Topic 718): Disclosure of Uncertainties about an Entity's Ability to Continue as a Going Concern. ASU 2014-15 provides guidance related to management's responsibility to evaluate whether there is substantial doubt about the entity's ability to continue as a going concern and to provide related footnote disclosures. The new requirements are effective for the annual periods ending after December 15, 2016, and for interim periods and annual periods thereafter. Early adoption is permitted. Adoption of the new ASU will not have an impact on the Company's Consolidated Financial Statements.

In July 2015, the FASB issued ASU 2015-11, Inventory (Topic 330): Simplifying the Measurement of Inventory. ASU 2015-11 amends guidance on the measurement of inventory from lower of cost or market to net realizable value. The amendment applies to all inventory other than those measured by Last-In-First-Out (LIFO) and

the Retail Inventory Method (RIM). The amendment is effective for fiscal years beginning after December 15, 2016, including interim periods within that reporting period. Early adoption is permitted. Adoption of the new ASU will not have a material impact on the Company's Consolidated Financial Statements.

In September 2015, the FASB issued ASU 2015-16, Business Combinations (Topic 805): Simplifying the Accounting for Measurement-Period Adjustments. ASU 2015-16 requires that any effect on earnings due to depreciation, amortization or other income effects, due to a change to the provisional amounts be recorded in the current period's financial statements as if the accounting had been completed at the acquisition date. The portion of the amount recorded in the current-period earnings, which would have been recorded in the previous reporting periods if the adjustment to the provisional amounts had been recognized as of the acquisition date, must be presented separately on the face of the income statement or disclosed in the notes to the financial statements by line item. The amendment is effective for the fiscal year beginning after December 15, 2015. The amendments are to be applied prospectively to any adjustments occurring after the effective date. Adoption of this ASU is not expected to have a material impact on the Company's Consolidated Financial Statements.

In November 2015, the FASB issued ASU 2015-17, Income Taxes (Topic 740): Balance Sheet Classification of Deferred Taxes. ASU 2015-17 simplifies the presentation of deferred income taxes and requires that deferred tax liabilities and assets be classified as noncurrent in a classified statement of financial position. The Company adopted ASU 2015-17 for the fiscal year ended December 26, 2015 and applied it retrospectively. The Company reclassified \$5.8 million out of "Total current liabilities" related to "Deferred income taxes" in the December 27, 2014 Consolidated Balance Sheet and into noncurrent "Deferred income taxes."

WEIS MARKETS, INC.

Table of Contents

Note 1 Summary of Significant Accounting Policies (continued)

(x) Current Relevant Accounting Standards (continued)

In February 2016, the FASB issued ASU 2016-02 Leases (Topic 842). ASU 2016-02 requires lessees to recognize assets and liabilities for the rights and obligations created by their leases with lease terms more than 12 months. Current guidance only requires capital leases to be recognized on the balance sheet. However, the ASU 2016-02 now requires that both capital and operating leases be recognized on the balance sheet. The effect on cash flows will strictly depend on whether the lease is classified as an operating lease or capital lease. The ASU 2016-02 will require disclosures to aid investors and other financial statement users to better understand the amount, timing and uncertainty of the cash flows arising from leases. These disclosures are to include qualitative and quantitative information about the amounts recorded in the financial statements. This update remains unchanged for lessors. However, new guidance contains targeted improvements to align, where necessary, the lessor's accounting with the lessee's accounting standards. ASU 2016-02 will become effective for annual periods beginning after December 15, 2018 and for interim periods within those fiscal years. The Company is currently in the process of evaluating the impact of adoption of the ASU on its Consolidated Financial Statements.

Note 2 Investments

The Company's marketable securities are all classified as available-for-sale within "Current Assets" in the Company's Consolidated Balance Sheets. FASB has established three levels of inputs that may be used to measure fair value:

Level 1 Observable inputs such as quoted prices in active markets for identical assets or liabilities;

Level 2 Observable inputs, other than Level 1 inputs in active markets, that are observable either directly or indirectly; and

Level 3 Unobservable inputs for which there is little or no market data, which require the reporting entity to develop its own assumptions.

The Company's marketable securities valued using Level 1 inputs include highly liquid equity securities, for which quoted market prices are available. The Company's bond portfolio is valued using Level 2 inputs. The Company's bonds are valued using a combination of pricing for similar securities, recently executed transactions, cash flow models with yield curves and other pricing models utilizing observable inputs, which are considered Level 2 inputs.

For Level 2 investment valuation, the Company utilizes standard pricing procedures of its investment advisory firm(s), which include various third party pricing services. These procedures also require specific price monitoring practices as well as pricing review reports, valuation oversight and pricing challenge procedures to maintain the most accurate representation of investment fair market value. In addition, the Company engages an independent firm to value a

sample of the Company's municipal bond holdings annually in order to validate the investment's assigned fair value.

The Company accrues interest on its bond portfolio throughout the life of each bond held. Dividends from the equity securities are recognized as received. Both interest and dividends are recognized in "Investment income" on the Company's Consolidated Statements of Income.

Marketable securities, as of December 26, 2015 and December 27, 2014, consisted of:

			Gı	oss	Gro	OSS

WEIS MARKETS, INC.

Table of Contents

Note 2 Investments (continued)

Maturities of marketable securities classified as available-for-sale at December 26, 2015, were as follows:

	Amortized	Fair
(dollars in thousands)	Cost	Value
Available-for-sale:		
Due within one year	\$ 9,775	\$ 9,839
Due after one year through five years	52,426	53,285
Due after five years through ten years	20,146	20,625
Equity securities	1,198	7,880
	\$ 83,545	\$ 91,629

The Company also maintains a non-qualified supplemental executive retirement plan and a non-qualified pharmacist deferred compensation plan for certain of its associates which allows them to defer income to future periods. Participants in the plans earn a return on their deferrals based on mutual fund investments. The Company chooses to invest in the underlying mutual fund investments to offset the liability associated with the non-qualified deferred compensation plans. Such investments are reported on the balance sheet as SERP investments, are classified as trading securities and are measured at fair value using Level 1 inputs with gains and losses included in investment income. The changes in the underlying liability to the employee are recorded in operating expenses.

Note 3 Inventories

Merchandise inventories, as of December 26, 2015 and December 27, 2014, were valued as follows:

(dollars in thousands)	2015	2014
LIFO	\$ 181,321 \$	193,621
Average cost	48,078	46,020
	\$ 229,399 \$	239,641

Management believes the use of the LIFO method for valuing certain inventories represents the most appropriate matching of costs and revenues in the Company's circumstances. If all inventories were valued on the average cost method, which approximates current cost, total inventories would have been \$81,347,000 and \$79,933,000 higher than

as reported on the above methods as of December 26, 2015 and December 27, 2014, respectively. During 2015, the Company had certain decrements in its LIFO pools, which had an insignificant impact on the cost of sales.

Note 4 Property and Equipment

Property and equipment, as of December 26, 2015 and December 27, 2014, consisted of:

	Useful Life		
(dollars in thousands)	(in years)	2015	2014
Land		\$ 106,125	\$ 103,240
Buildings and improvements	10-60	586,903	544,309
Equipment	3-12	949,975	911,169
Leasehold improvements	5-20	190,249	193,842
Total, at cost		1,833,252	1,752,560
Less accumulated depreciation and amortization		1,094,267	1,035,700
_		\$ 738,985	\$ 716,860

WEIS MARKETS, INC.

Table of Contents

Note 5 Lease Commitments

At December 26, 2015, the Company leased approximately 50% of its open store facilities under operating leases that expire at various dates through 2029. These leases generally provide for fixed annual rentals; however, several provide for minimum annual rentals plus contingent rentals as a percentage of annual sales and a number of leases require the Company to pay for all or a portion of insurance, real estate taxes, water and sewer rentals, and repairs, the cost of which is charged to the related expense category rather than being accounted for as rent expense. Most of the leases contain multiple renewal options, under which the Company may extend the lease terms from 5 to 20 years. Rents on operating leases, including agreements with step rents, are charged to expense on a straight-line basis over the minimum lease term. Additionally, the Company has operating leases for certain transportation and other equipment.

Rent expense and income on all leases consisted of:

(dollars in thousands)	2015	2014	2013
Minimum annual rentals	\$ 34,794 \$	35,183 \$	32,817
Contingent rentals	452	409	386
Lease or sublease income	(7,069)	(6,881)	(6,452)
	\$ 28,177 \$	28,711 \$	26,751

The following is a schedule by years of future minimum rental payments required under operating leases and total minimum sublease and lease rental income to be received that have initial or remaining non-cancelable lease terms in excess of one year as of December 26, 2015.

(dollars in thousands)	Leases	Subleases
2016	\$ 32,237	\$ (3,151)
2017	30,492	(3,148)
2018	28,413	(2,486)
2019	23,214	(1,604)
2020	17,096	(1,355)

Thereafter 62,410 (6,500) \$ 193,862 \$ (18,244)

The Company has \$32,000 accrued as of December 26, 2015 and had \$455,000 accrued as of December 27, 2014, for future minimum rental payments due on previously closed stores, reduced by the estimated sublease income to be received. The future minimum rental payments required under operating leases and estimated sublease income for these locations are included in the above schedule.

WEIS MARKETS, INC.

Table of Contents

Note 6 Retirement Plans

The Company has a retirement savings plan, the Weis Markets, Inc. Retirement Savings Plan, covering substantially all full-time associates. The plan has a contributory component as well as a noncontributory profit-sharing component for certain associates. The noncontributory component covers eligible associates which included certain salaried associates, store management and administrative support personnel. The Company also has three non-qualified supplemental retirement plans covering highly compensated employees of the Company. The Company's policy is to fund retirement plan costs as accrued, with the exception of the deferred compensation plan. Employer contributions to the qualified retirement plans are made at the sole discretion of the Company.

Retirement plan costs:

(dollars in thousands)	2015	2014	2013
Retirement savings plan	3,161	3,010	3,465
Deferred compensation plan	(318)	1,328	126
Supplemental executive retirement plan	484	1,061	2,025
Deferred compensation plan for pharmacists	(165)	(228)	178
	\$ 3,162 \$	5,171 \$	5,794

The Company maintains a non-qualified deferred compensation plan for the payment of specific amounts of annual retirement benefits to certain officers or their beneficiaries over an actuarially computed normal life expectancy. Currently, there are no active officers in the plan. The expected payments under the plan provisions were determined through actuarial calculations dependent on the age of the recipient, using an assumed discount rate. The plan is unfunded and accounted for on an accrual basis. The recorded liability at December 26, 2015 is \$7,264,000, which is based on expected payments to be made over the remaining lives of the beneficiaries. This amount is included in "Accrued expenses" and "Postretirement benefit obligations" in the Consolidated Balance Sheets. The expected payment amounts are approximately \$1,975,000 for each of 2016 and 2017, and approximately \$1,013,000 for the years thereafter dependent on the lives of the beneficiaries.

The Company also maintains a non-qualified supplemental executive retirement plan and a non-qualified pharmacist deferred compensation plan for certain of its associates. These plans are designed to provide retirement benefits and salary deferral opportunities because of limitations imposed by the Internal Revenue Code and the Regulations implemented by the Internal Revenue Service. These plans are unfunded and accounted for on an accrual basis. Participants in these plans are excluded from participation in the profit sharing portion of the Weis Markets,

Inc. Retirement Savings Plan once their yearly earnings exceed the IRS highly compensated threshold. The Board of Directors annually determines the amount of the allocation to the plans at its sole discretion. The allocation among the various plan participants is made in both flat dollar amounts and in relationship to their compensation. Plan participants are 100% vested in their accounts after six years of service with the Company. Benefits are distributed among participants upon reaching the applicable retirement age. Substantial risk of benefit forfeiture does exist for participants in these plans. The present value of accumulated benefits amounted to \$9,079,000 and \$9,646,000 at December 26, 2015 and December 27, 2014, respectively, and is included in "Postretirement benefit obligations" in the Consolidated Balance Sheets.

The Company has no other postretirement benefit plans.

Note 8 Income Taxes

The provision (benefit) for income taxes consists of:

(dollars in thousands)	2015	2014	2013
Current:			
Federal	\$ 29,888 \$	24,809 \$	26,994
State	3,325	1,237	6,774
Deferred:			
Federal	(188)	2,559	8,973
State	(24)	676	2,429
	\$ 33,001 \$	29,281 \$	45,170

The reconciliation of income taxes computed at the federal statutory rate (35% in 2015, 2014 and 2013) to the provision for income taxes is:

(dollars in thousands)	2015	2014	2013
Income taxes at federal statutory rate	\$ 32,316 \$	\$ 29,282 \$	41,425
State income taxes, net of federal income tax benefit	1,112	1,436	5,981
Other	(427)	(1,437)	(2,236)
Provision for income taxes (effective tax rate 35.7%, 35.0% and 38.2%, respectively)	\$ 33,001 \$	\$ 29,281 \$	45,170

Cash paid for federal income taxes was \$28.0 million, \$25.0 million and \$26.4 million in 2015, 2014 and 2013 respectively. Cash paid for state income taxes was \$2.2 million, \$1.8 million and \$3.5 million in 2015, 2014 and 2013 respectively.

The tax effects of temporary differences that give rise to deferred tax assets and deferred tax liabilities at December 26, 2015 and December 27, 2014, are:

(dollars in thousands)	2015	2014
Deferred tax assets:		
Accounts receivable	\$ 813	\$ 615
Compensated absences	983	362
Long term employment incentives	3,143	1,161
Employee benefit plans	10,485	10,734
General liability insurance	4,048	3,655
Postretirement benefit obligations	5,906	7,676

Net operating loss carryforwards	5,926	6,218
Other	2,173	1,359
Total deferred tax assets	33,477	31,780
Deferred tax liabilities:		
Inventories	(6,808)	(7,459)
Unrealized gains on marketable securities	(3,323)	(3,371)
Nondeductible accruals and other	(9,240)	(6,522)
Depreciation	(111,126)	(111,708)
Total deferred tax liabilities	(130,497)	(129,060)
Net deferred tax liability	\$ (97,020) \$	(97,280)

The Company adopted ASU 2015-17 for the fiscal year ended December 26, 2015 and applied it retrospectively. The Company reclassified \$5.8 million out of "Total current liabilities" related to "Deferred income taxes" in the December 27, 2014 Consolidated Balance Sheet and into noncurrent "Deferred income taxes."

WEIS MARKETS, INC.

Table of Contents

Note 8 Income Taxes (continued)

The following table summarizes the activity related to the Company's unrecognized tax benefits:

(dollars in thousands)	2015	2014
Unrecognized tax benefits at beginning of year	\$ -	\$ -
Increases based on tax positions related to the current year	1,264	-
Additions for tax positions of prior year	-	-
Reductions for tax positions of prior years	-	-
Settlements	-	-
Expiration of the statute of limitations for assessment of taxes	-	-
Unrecognized tax benefits at end of year	\$ 1,264	\$ -

The total amount of unrecognized tax benefits that, if recognized, would affect the effective tax rate was \$1,264,000 in 2015 and \$0 in 2014.

The Company's U.S. Federal income tax filings have been examined by the Internal Revenue Service through 2008. The Company or one of its subsidiaries files tax returns in various states. The tax years subject to examination in Pennsylvania, where the majority of the Company's revenues are generated, are 2011 to 2015.

The Company has net operating loss carryforwards of \$88.5 million available for state income tax purposes. The net operating losses will begin to expire starting in 2027. The Company expects to fully utilize these net operating loss carryforwards.

Note 9 Acquisition of Business

Fiscal 2015 Acquisitions

The Company paid \$7.9 million for the property and equipment related to the purchase of a store in Hanover, Pennsylvania on August 31, 2015 from C&S Wholesale Grocers to expand current market share. The purchase price was allocated between land, building and equipment of \$1.9 million, \$5.9 million and \$112,000, respectively, in accordance with our accounting policies for business combinations. No Goodwill was recognized.

Fiscal 2014 Acquisitions

There were no acquisitions for fiscal 2014.

Fiscal 2013 Acquisitions

There were no acquisitions for fiscal 2013.

Net income	14,570	12,602	13,511	13,698
Basic and diluted earnings per share	.54	.47	.50	.51

Note 11 Fair Value Information

The carrying amounts for cash, accounts receivable and accounts payable approximate fair value because of the short maturities of these instruments. The fair values of the Company's marketable securities, as disclosed in Note 2, are based on quoted market prices and institutional pricing guidelines for those securities not classified as Level 1 securities. The Company's SERP investments are classified as trading securities and are carried at fair value using Level 1 inputs.

Note 12 Commitments and Contingencies

The Company is involved in various legal actions arising out of the normal course of business. The Company also accrues for tax contingencies when it is probable that a liability to a taxing authority has been incurred and the amount of the contingency can be reasonably estimated, based on experience. In the opinion of management, the ultimate disposition of these matters will not have a material adverse effect on the Company's consolidated financial position, results of operations or liquidity.

At December 26, 2015, the Company had a \$30 million line of credit, of which \$16.9 million was committed to outstanding letters of credit. The letters of credit are maintained primarily to support performance, payment, deposit or surety obligations of the Company. The Company does not anticipate drawing on any of them. The Company has a \$50 million short-term credit facility agreement to fund future financing activities.

Report of Independent Registered Public Accounting Firm
The Board of Directors and Shareholders
Weis Markets, Inc.
We have audited the accompanying consolidated balance sheets of Weis Markets, Inc. as of December 26, 2015 and December 27, 2014, and the related consolidated statements of income, comprehensive income, shareholders' equity and cash flows for each of the 52 week periods ended December 26, 2015 and December 27, 2014. Our audits also included the financial statement schedule for each of the 52 week periods ended December 26, 2015 and December 27, 2014 at Item 15(c)(3). These financial statements and schedule are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements and schedule based on our audits.
We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.
In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of Weis Markets, Inc. at December 26, 2015 and December 27, 2014, and the consolidated results of its operations and its cash flows for each of the 52 week periods ended December 26, 2015 and December 27, 2014, in conformity with U.S. generally accepted accounting principles. Also in our opinion, the related financial statement schedule for each of the 52 week periods ended December 26, 2015 and December 27, 2014, when considered in relation to the basic Consolidated Financial Statements taken as a whole, presents fairly in all material respects the information set forth therein.
We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), Weis Markets, Inc.'s internal control over financial reporting as of December 26, 2015, based on criteria established in Internal Control-Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (1992 framework), and our report dated March 18, 2016, expressed an unqualified opinion thereon.

Board of Directors and Shareholders of
Weis Markets, Inc.
We have audited Weis Markets Inc.'s internal control over financial reporting as of December 26, 2015, based on criteria established in Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (1992 framework) (the COSO criteria). Weis Markets, Inc.'s management is responsible for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting included in the accompanying Management's Report On Internal Control Over Financial Reporting. Our responsibility is to express an opinion on the company's internal control over financial reporting based on our audit.
We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.
A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become

the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly

reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have

a material effect on the financial statements.

inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, Weis Markets, Inc. maintained, in all material respects, effective internal control over financial reporting as of December 26, 2015, based on the COSO criteria.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheets of Weis Markets, Inc. as of December 26, 2015 and December 27, 2014, and the related consolidated statements of income, comprehensive income, shareholders' equity and cash flows for each of the 52 week periods ended December 26, 2015 and December 27, 2014 of Weis Markets, Inc. and our report dated March 18, 2016 expressed an unqualified opinion thereon.

Board of Directors and Shareholders

Weis Markets, Inc.

We have audited the accompanying consolidated statements of income, comprehensive income, shareholders' equity, and cash flows for the year ended December 28, 2013. Our audit of the basic Consolidated Financial Statements included the financial statement schedule listed in the index appearing under Item 15(c)(3). These financial statements and financial statement schedule are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements and financial statement schedule based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the Consolidated Financial Statements referred to above present fairly, in all material respects, the results of operations and cash flows of Weis Markets, Inc. for the period ended December 28, 2013 in conformity with accounting principles generally accepted in the United States of America. In addition, in our opinion, the related financial statement schedule, when considered in relation to the basic Consolidated Financial Statements taken as a whole, presents fairly, in all material respects, the information set forth therein.

Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure:
None.
Item 9a. Controls and Procedures:
Management's Report on Disclosure Controls and Procedures
The Chief Executive Officer and the Chief Financial Officer of the Company (its principal executive officer and principal financial officer, respectively) have concluded, based on their evaluation as of the close of the period covered by this Report, that the Company's disclosure controls and procedures are effective to ensure that information required to be disclosed by the Company in the reports filed or submitted by it under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and include controls and procedures designed to ensure that information required to be disclosed by the Company in such reports is accumulated and communicated to the Company's management, including the Chief
Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

Management's Report on Internal Control Over Financial Reporting

The management of the Company is responsible for establishing and maintaining adequate internal control over financial reporting (as defined in Rules 13a-15(f) under the Exchange Act). Under the supervision and with the participation of management, including the Company's Chief Executive Officer and Chief Financial Officer, the Company conducted an evaluation of the effectiveness of internal control over financial reporting based on the framework issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in Internal Control – Integrated Framework (1992 framework). The Company's internal control system was designed to provide reasonable assurance to the Company's management and board of directors regarding the preparation and fair presentation of published financial statements. All internal control systems, no matter how well designed, have inherent limitations. Therefore, even those systems determined to be effective can provide only reasonable assurance with respect to financial statement preparation and presentation. Based on the Company's evaluation, management concluded that the Company's internal control over financial reporting was effective as of December 26, 2015.

A s previously disclosed in Item 4 of our Quarterly Report on Form 10-Q for the fiscal quarter ended September 26, 2015, management concluded that there was a material weakness in internal controls over the preparation and review of our self-insurance reserve calculations and that our internal controls over financial reporting were not designed to prevent or detect a material error as of September 26, 2015. A material weakness is a deficiency, or a combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of the Company's annual or interim financial statements will not be prevented or detected on a timely basis. The material weakness resulted in an understatement of those reserves in our previously issued financial statements. The impact of those errors was corrected and presented in our Quarterly Report on Form 10-Q for the fiscal quarter ended September 26, 2015. Subsequent to the quarter ended September 26, 2015, the Company engaged a casualty actuarial services company to perform an actuarial analysis to assist in the determination of the appropriate reserve balances. The Company also implemented management review controls over the completeness, accuracy and reasonableness of the actuary's estimate of the reserve balance. Based upon the remedial actions taken and our testing and evaluation of the design and operating effectiveness of these internal controls, we have concluded the material weakness in internal control over financial reporting related to the preparation and review of our self-insurance reserves calculations was remediated as of December 26, 2015.
