These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatements. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. Notes to the Financial Statements

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of the Business

Compagnie Logistique De Transports Automobile ("CLTA") commenced July 1, 2003. CLTA is a French corporation located in France. The Company warehouses automobiles for Peugeot and Citroen, and completes the final dealer preparation work before the automobiles are delivered. CLTA also performs brake installations and testing of new cars for Peugeot.

Cash and Equivalents

For the purposes of the statement of cash flows, cash equivalents include time deposits, certificate of deposits and highly liquid debt instruments with maturities of three months or less.

Property, Plant and Equipment

Property, plant and equipment are carried at cost, less allowances for depreciation and amortization. Depreciation and amortization are computed by the straight-line method over the estimated useful lives of the assets. Depreciation and amortization was \$13,060 for the year ended June 30, 2004. Repairs and maintenance expenditures which do not extend the useful lives of the related assets are expensed as incurred.

Revenue Recognition

Revenue for product sales are recognized at the time of delivery; products are not sold on a conditional basis. Therefore, when delivery has occurred the sale is complete as long as the collection of the resulting receivables is probable.

Shipping and Handling Costs

Shipping and handling costs are expensed as incurred into cost of goods sold.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at

Edgar Filing: GLOBAL CONCEPTS, LTD. - Form 8-K/A

the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

FAIR VALUE OF FINANCIAL INSTRUMENTS

The carrying amount of cash, inventory, prepaid expenses, accounts payable and deferred income and credits approximates fair value because of the short maturity of these instruments. The fair value of the Company's capital lease obligations approximates its carrying value and is based on the current rates offered to the Company for debt of the same remaining maturities with similar collateral requirements.

De Transports Automobile
(CLTA)
Notes to the Financial Statements

LIMITATIONS

Fair value estimates are made at a specific point in time, based on relevant market information and information about the financial statement. These estimates are subjective in nature and involve uncertainties and matters of significant judgment and therefore cannot be determined with precision. Changes in assumptions could significantly affect the estimates.

ECONOMIC DEPENDENCY

The Company derives 100% of its income from one customer.

CAPITAL LEASES

The Company leases transportation equipment under capital leases expiring in various years through 2008. The assets and liabilities under capital leases are recorded at the lower of the present value of the minimum lease payments or the fair value of the asset at the inception of the lease. The assets are amortized over the lower of their related lease terms or their estimated productive lives. Amortization of assets under capital leases is included in depreciation expense for the year ended June 30, 2004.

Properties under capital leases as of June 30, 2004 are as follows:

Transportation	\$ 953,735
Less accumulated amortization	235,988

Total	\$ 717,747
	=====

The following is a schedule of minimum lease payments due under capital leases as of June 30, 2004.

Year Ending June 30,	
2005	\$ 303,280
2006	251,755
2007	145,542
2008	95,309
Total net minimum capital lease	-----
payments	795,886

Edgar Filing: GLOBAL CONCEPTS, LTD. - Form 8-K/A

Less amounts representing interest	104,680

Present value of net minimum capital lease payments	691,206
Less current maturities of capital lease obligations	282,873

Obligations under capital leases, excluding current maturities	\$ 408,333
	=====

Interest rates on capitalized leases vary from 6% to 10% and are imputed based on the lower of the Company's incremental borrowing rate at the inception of each lease or the lessor's implicit rate of return.
