NORWALK, CONNECTICUT, October 23, 2008 - EMCOR Group, Inc., (NYSE: EME) today reported results for the third quarter and nine months ended September 30, 2008.

For the third quarter of 2008, the Company reported net income of \$48.6 million, or \$0.72 per diluted share, an increase of 26.9% over net income of \$38.3 million, or \$0.57 per diluted share, for the third quarter of 2007. In the 2008 third quarter, revenues were \$1.72 billion compared to \$1.50 billion in the third quarter of 2007, an increase of 14.6%, of which 8.0% was organic growth which excludes the contribution from businesses acquired during the past year.

Operating income in the third quarter of 2008 was \$78.6 million, an increase of 43.2% from operating income of \$54.9 million in the same quarter a year ago. As a percentage of revenues, operating income rose to 4.6% from 3.7% in the third quarter of 2007 and was the highest achieved for a third quarter in the Company's history. Selling, general and administrative (SG&A) expenses were \$145.7 million in the third quarter of 2008 compared to \$114.0 million in the prior year period. The increase in SG&A expenses compared to the comparable year-ago period primarily reflects expenses associated with companies acquired during the past twelve months, as well as with incentive compensation accruals. The Company's income tax rate for the 2008 third quarter was 37.3%, compared with 34.0% in the third quarter of 2007.

Contract backlog as of September 30, 2008 was \$4.42 billion, compared to backlog of \$4.48 billion as of September 30, 2007 and \$4.67 billion at the end of the 2008 second quarter. The decline in backlog was principally attributable to a decrease in work in the commercial and hospitality/gaming sectors, but was largely offset by increases in healthcare, water/wastewater, transportation and industrial contract awards.

For the 2008 nine-month period, the Company reported net income of \$121.9 million, or \$1.82 per diluted share, an increase of 59.4%, compared to net income of \$76.5 million, or \$1.15 per diluted share, for the first nine months of 2007. Revenues in the 2008 nine-month period rose 22.7% to \$5.1 billion from \$4.2 billion for the nine months ended September 30, 2007. Organic revenue growth, excluding revenues from companies acquired during the past twelve months, was 12.0% in the first nine months of 2008.

Operating income was \$201.6 million, or 4.0% of revenues, in the first nine months of 2008, an increase of 77.3% from operating income of \$113.7 million, or 2.7% of revenues, in the same period last year. SG&A expenses were \$437.8 million, or 8.6% of revenues, in the 2008 nine-month period, versus \$348.7 million, or 8.4% of revenues, in the nine months ended September 30, 2007.

The Company's results for the 2008 nine-month period include a one-time charge, substantially all of which is non-cash, of \$7.9 million, or \$0.07 per diluted share after-tax, resulting from an adverse jury verdict in a construction contract case in the 2008 second quarter, as previously announced.

Frank T. MacInnis, Chairman and CEO of EMCOR Group, commented, "The 2008 third quarter reflects another quarter of outstanding performance by our Company during which we continued to benefit from the steps we have taken over the last decade to diversify our business across markets, services and geographies. The quarter saw continued margin expansion across most of our business segments, as both our organic and acquired businesses continued to perform strongly, supported by end markets with demand drivers not tied to the current economic cycle and rising demand for higher margin facilities services. Our focus on working capital management enabled EMCOR to continue to generate excellent cash flows with year to date cash flows from operations of \$199.7 million, a clear testament to the quality of our earnings and our client relationships."

Mr. MacInnis continued, "The keystone of our long-term strategic growth plan has been the diversification of our business to hedge against construction cyclicality and to provide a solid underlying level of earnings power for the Company through targeted growth of our facilities services businesses. At the same time, we have undertaken strategic acquisitions, such as Ohmstede, S.A. Comunale and a number of mechanical services companies, which have shifted the mix of our business to stable end markets such as refining, fire protection and mechanical services which are less capital intensive and not as vulnerable to economic downturns than construction. As a result, we are a market leader with a broad range of services, substantial reach and financial strength to support our customers through economic cycles."

Mr. MacInnis concluded, "While we are closely watching developments in the financial markets, we are confident that EMCOR is well positioned as we enter the fourth quarter. Although continued uncertainty in the credit markets may ultimately affect the capital budgets of some of our customers, there continues to be a need to maintain and upgrade facilities, and EMCOR is a leading provider of these services. Furthermore, our market diversification provides us with the flexibility to follow demand across sectors as the economic cycle evolves. The strength and liquidity of our balance sheet is a competitive differentiator during these credit-constrained times, and allows us to meet the performance requirements of our clients and will enable us to pursue opportunities in an environment that is favorable for strategic investors."
