EMCOR GROUP, INC. REPORTS THIRD QUARTER 2009 RESULTS
- Third Quarter Operating Margin of 4.9% -
- Third Quarter Diluted EPS of \$0.59 -
- 2009 Diluted EPS Guidance Increased to \$2.20 - \$2.35 -

NORWALK, CONNECTICUT, October 29, 2009 - EMCOR Group, Inc. (NYSE: EME) today

Edgar Filing: EMCOR GROUP INC - Form 8-K

reported results for the third quarter ended September 30, 2009.

For the 2009 third quarter, the Company reported net income (1) of \$40.0 million, or \$0.59 per diluted share, compared to net income (1) of \$48.6 million, or \$0.72 per diluted share, in the third quarter of 2008. In the 2009 third quarter, revenues were \$1.37 billion, compared to \$1.72 billion in the third quarter of 2008.

Operating income in the 2009 third quarter was \$67.3 million, compared to operating income of \$78.6 million in the same quarter a year ago. As a percentage of revenues, operating income in the third quarter of 2009 rose to 4.9% from 4.6% in the 2008 third quarter. Selling, general and administrative expenses (SG&A) decreased \$7.8 million to \$137.9 million, or 10.1% of revenues, in the third quarter of 2009, compared to \$145.7 million, or 8.5% of revenues, in the comparable prior year period.

Contract backlog as of September 30, 2009 was \$3.39 billion, compared to contract backlog of \$4.42 billion as of September 30, 2008 and \$3.40 billion as of June 30, 2009. The year-over-year decline in backlog was principally attributable to reduced contract awards in the hospitality/gaming sectors and in the commercial sector, partially offset by backlog growth in the healthcare and institutional sectors.

Net income (1) for the first nine months of 2009 was \$121.6 million, or \$1.81 per diluted share, compared to \$121.9 million, or \$1.82 per diluted share, a year ago. Revenues for the first nine months of 2009 totaled \$4.19 billion, compared to \$5.10 billion for the first nine months of 2008.

For the 2009 nine-month period, operating income was \$206.4 million, or 4.9% of revenues, compared to operating income of \$201.6 million, or 4.0% of revenues, in the year ago period. Operating income for the 2009 nine-month period included restructuring expenses of \$4.2 million. SG&A for the first nine months of 2009 was \$402.7 million, or 9.6% of revenues, compared to \$437.8 million, or 8.6% of revenues, for the first nine months of 2008.

Frank T. MacInnis, Chairman and CEO of EMCOR Group, commented, "We are pleased with our results in the 2009 third quarter, especially in light of the economic conditions in our markets. Our results for the period were driven by record gross and operating margins due to our focus on execution and project management. This same operational focus allowed us to convert our outstanding work into cash, which strengthened what was already a strong and highly liquid balance sheet. This strong financial position gives us flexibility in managing business opportunities and provides us with the liquidity to invest in strategic growth opportunities in the future. Our strong cash flow points to the strength of our relationships with high-quality clients and the value of the work we do for them."

Mr. MacInnis continued, "Despite challenging conditions in some of our markets, we see trends in the composition of our backlog that indicate a building base of business that has begun to provide stability and that should eventually generate growth opportunities going forward. The rate of decline in our backlog has steadily decreased over the course of 2009, and excluding the hard hit hospitality and commercial sectors, backlog growth was slightly positive in the third quarter, driven by strong bookings in the healthcare and institutional sectors. While market evidence has yet to indicate a definitive backlog bottom, our ability to be agile among market sectors allows us to adapt to declining demand in some of the markets we serve by redeploying resources to those markets where there is stronger demand. We have also begun to see some traction in work stemming from government stimulus spending, which we would expect to continue to

Edgar Filing: EMCOR GROUP INC - Form 8-K

grow."

Mr. MacInnis concluded, "As we enter the fourth quarter, we remain cautious given a continued lack of visibility into future demand and into credit markets that continue to impact customers' ability to finance projects. In addition, while we are operating at excellent levels of efficiency, the ongoing shift in backlog mix will likely result in margins lower than the record levels seen in the third quarter. Against this backdrop, we remain focused on bidding discipline, strong project execution and maintaining a strong balance sheet that provides us with the flexibility to perform well in today's marketplace and take advantage of the eventual recovery."

The Company noted that, based on its financial performance in the first nine months of 2009, current market conditions and the composition of its contract backlog, it has updated its full year 2009 guidance to include revenues of \$5.5 billion to \$5.6 billion and 2009 full year diluted EPS of \$2.20 to \$2.35. While a material deterioration in market conditions from current levels could cause the Company's performance to decline, early benefits from the economic stimulus plan, accretive acquisitions, and/or improved credit markets could provide opportunities to exceed these estimates.
