Management believes these actions will enable the Company to continue as a going concern through June 30, 2006. There can be no assurance, however, that the Company will raise funds from the sale of its securities beyond those disclosed in these financial statements.

Item 2. Management's Discussion and Analysis or Plan of Operation

PLAN OF OPERATION

Currently the Company plans to acquire a profitable business. Company management is currently performing due diligence regarding potential business acquisitions. The Company entered into a letter of intent to acquire Professional Technical Systems, Inc (PTS). PTS is an operating company engaged in the business of developing, manufacturing and selling electrical surge protection devices. The Company has also discussed the merger of World Energy Solutions, Inc. (WESI) into the Company. WESI is not an operating company at this time however it has been formed to engage in the business of consulting regarding energy conservation technologies and installing such technologies at commercial and industrial facilities.

Previously, the Company's plans included developing a profitable business in 3-D fetal photography. In response to the Company's decision to pursue this business venture, the Company changed its name to Advanced 3-D Ultrasound Services, Inc. at its shareholders meeting on May 2, 2003. Subsequently, as a result of recent concerns of the FDA related to non-diagnostic ultrasounds, the Company has decided not to enter this market. In furtherance of pursuing a business in 3-D fetal photography, the Company entered into leases for office space and a photograph center, which have subsequently expired or were cancelled and not renewed. The Company's officers were working out of home offices through June 30, 2005.

In August 2004 the Company entered into consulting agreements with six individuals. These individuals will provide consulting services in the areas of marketing, business planning and legal services for a period of one year. The consultants each received 5,850 shares of common stock in exchange for their

Edgar Filing: YSEEK INC - Form 10QSB

services.

In June, 2005, in light of the plans to acquire PTS and merge with WESI, the officers of the Company resigned and were replaced by new officers and directors with experience in the industries of PTS and WESI. The new officers and directors of the Company are officers and/or stockholders of PTS and/or WESI.

The Company's plans to acquire a profitable business and to expand operations will require additional funds. The Company plans to fund acquisitions through the sale of common stock.

In January 2004, the Company issued a private placement memorandum to issue up to 1,000,000 common shares at \$5.00 per share to raise up to \$5,000,000 to develop and operate imaging centers to provide ultrasound pictures of fetuses. The funds raised were to have been used for development costs, equipment, salaries, marketing and future public offering costs. The plans to develop and operate imaging centers has been abandoned.

In 2004, the Company received \$230,000 from sales of common stock. This funding was spent on development costs, salaries and other administrative costs.

Administrative costs in 2005 have been funded from loans from Company stockholders and an unrelated individual.

The Company's management intends to perform the evaluation required by Section 404 of the Sarbanes-Oxley Act at such time as a framework is adopted by the Company.
