Broadband - currently offered under the brands "Speedy" and "Ajato", reached 2,555,376 clients in the 4Q08, a 4.1% increase over 3Q08. When compared to the 4Q07, the growth was of 487 thousand accesses or 23.6%, in line with the upward trend of last quarters. Investments in broadband are the Company's priority and reinforce Telesp's commitment to its clients in improving the offer and quality of products and services, allowing a service even better and becoming even more competitive. Following this strategy, in February 2008, the Company launched, as a pioneer offer at Jardins neighborhood, in Sao Paulo, internet access through fiber optic (Fiber to the Home - FTTH) with speed capacity of 8 and 30 Mbps.

Alternative Plans for Fixed Telephony – continuing with the transformation of its business, Telesp kept the minute plan sale’s pace of growth, that makes clients loyal and serves well and better the different market segments with more adequate choices for access to fixed telephony. On December 31, 2008, the penetration of local plans, controle, duos and trios was over 55% of lines in service.

(*) Refers to Telesp and its subsidiaries.

Results January – December 2008 **TELESP 1**

Duos and Trios Telefônica - are combined offers of PayTV, Broadband and Local calls services offered in all Company’s concession area. In October 2007, the Company celebrated a commercial and operational agreement with TVA, strengthening and extending even more the integrated offer of PayTV.

Pay TV – offered in bundles or stand-alone, it is available through DTH (Direct to the Home) and MMDS (Multichannel Multipoint Distribution Service). Since its launch, the Company has shown a fast pace of growth, reaching 472,222 clients in the 4Q08, an increase of 47,248 clients or 11.1% when compared to the 3Q08.

Posto de Trabalho Informático (PDTI) – launched in 2007, is offered to the corporate segment as a solution for infra-structure of Information Technology customized to the client. Through a monthly fee payment, Telesp offers a bundle composed by voice, data, internet access, network management and equipments for small, medium and big clients. The bundled offer of Information Technology and Communication Services is one of the Company’s strategic pillars in the corporate segment.

Number Portability – in September, 2008, the number portability process has been activated under commercial disposition between companies that offer the same service mode. As a result, fixed and mobile’s clients can keep their phone number when changing operator or address, if the process refers to the same local area. Following this, Telesp reinforced its efforts in clients’ loyalty and retention plans, although the volume of number portability processes isn’t relevant so far. The number portability’s process must be completed in the country until March, 2009.

The **Net Operating Revenues** in 2008 totaled R\$15,979.0 million and when compared to the R\$14,727.6 million reached in 2007, presented an increase of R\$1,251.4 million or 8.5% . When comparing the 4Q08 x 4Q07, an increase of R\$387.8 million or 10.4% is shown, with a significant acceleration in comparison to the previous quarters due to an improved performance in almost all services provided. These figures are mainly due to the growth of PayTV and Speedy services, the increase in long distance and fixed-to-mobile revenues, both due to the significant growth of mobile operators base, and in other revenues, among these PDTI and network digital services, and also due to the tariff readjustment of 3.01% as of July, 2008. These effects were partially offset by a decrease in local service, monthly subscription fee and public telephony revenues, the latter one mainly due to a higher mobile telephony competition.

The **EBITDA** in 2008 was R\$6,555.7 million, an increase of R\$290.9 million or 4.6% when compared to 2007. When comparing the 4Q08 x 4Q07, an increase of R\$174.1 million or 11.4% is observed.

The **EBITDA Margin** in 2008 was 41.0%, as a result of the successful gradual change in Telesp’s revenues mix. When comparing to the EBITDA Margin in 2007, a decrease of 1.5 p.p. is shown as a result of a decrease of local service, monthly subscription fee and public telephony revenues and the increase of customer services, TV content and interconnection expenses, the latter one due to the increase in SMP traffic with the 15 (selection code of the operator). When comparing the 4Q08 x 4Q07, the EBITDA Margin presents an increase of 0.4 p.p., mainly justified by an increase of Pay TV and Speedy revenues, the performance of long distance and fixed-to-mobile revenues and by the decrease of personnel and provision expenses.

The consolidated **Capex** in 2008 was R\$2,342.5 million, presenting an increase of 17.6% when compared to 2007. This figure is in line with Telefônica’s strategy of investing in network modernization and expansion to offer communication services of voice, data and video. It is important to highlight the significant changes on Capex’s mix, currently focused on high speed broadband and new services.

(*) The application of the new accounting criteria, introduced by the Law# 11,638/07, resulted in a Capex decrease in 2008 due to the change on PDTI accounting classification, from permanent asset to financial leasing.

REVENUES HIGHLIGHTS

The Gross Operating Revenue in 2008 reached R\$23,020.8 million, showing an increase of R\$1,837.0 million or 8.7% when compared to 2007. In the 4Q08 the gross operating revenues reached R\$5,956.3 million, representing an increase of R\$65.4 million or 1.1% when compared to the 3Q08 and an increase of R\$689.5 million or 13.1% when compared to the 4Q07.

The changes are explained as follows:

Monthly Subscription Fee: reached R\$5,486.8 million in 2008, presenting a decrease of R\$159.6 million or 2.8% when compared to 2007. This effect is mainly explained by the decrease in average lines in service, by the increase of alternative plans for fixed telephony which are offered with lower monthly fees and also by the accounting reclassification of DDR (Discagem Direta a Ramal) revenues to fulfill the new criteria established by Anatel. These effects were partially offset by the tariff readjustment of 3.01% as of July, 2008. When comparing the 4Q08 x 4Q07, a slight increase of R\$26.7 million or 2.0% is shown, mainly justified by the tariff readjustment of 3.01% as of July, 2008, been partially offset by the aforesaid DDR revenues' accounting reclassification.

Installation Fee: reached R\$114.3 million in 2008, representing a decrease of R\$5.3 million or 4.5% when compared to 2007. When comparing the 4Q08 x 4Q07 a decrease of R\$10.8 million or 34.8% is observed. These effects are mainly justified by the occasional installation fee exemption to non-residential clients that acquire two or more business lines of Telesp, as of July, 2008. This effect was partially offset by the tariff readjustment of 3.01% as of July, 2008.

Local Service: totaled R\$2,562.9 million in 2008, presenting a decrease of R\$245.4 million or 8.7% when compared to 2007. This effect is mainly explained by duos and trios sales which offer flat tariffs with local unlimited calls, decreasing the exceeding traffic. This effect is partially offset by a significant increase of traffic bundles sales and by the tariff readjustment of 3.01% as of July, 2008. When comparing the 4Q08 x 4Q07, a decrease of R\$9.4 million or 1.5% is shown, justified by the same aforesaid reasons.

DLD: totaled R\$3,808.8 million in 2008, presenting an increase of R\$588.0 million or 18.3% when comparing to 2007. When comparing the 4Q08 x 4Q07, a strong increase of R\$248.6 million or 32.9% is shown. These variations are mainly explained by a higher SMP traffic with the 15 (selection code of the operator), due to the mobile market growth and to a positive impact of the tariff readjustment of 3.01% as of July, 2008.

Fixed-to-mobile revenues: reached R\$4,372.0 million in 2008, an increase of R\$308.3 million or 7.6% when compared to 2007. This effect is mainly explained by the growth of mobile operators base that presented a positive impact on VC1, VC2 and VC3 traffic, besides the tariff readjustment as of July, 2008. When comparing the 4Q08 x 4Q07, an increase of R\$88.8 million or 8.7% is shown, justified by the same aforesaid reasons.

ILD: reached R\$140.4 million in 2008, presenting an increase of R\$6.5 million or 4.9% when compared to 2007. When comparing the 4Q08 X 4Q07, an increase of R\$0.4 million or 1.3% is shown. These effects are mainly explained by the tariff readjustment and promotional efforts during 2007, that affects the comparison base, been partially offset by a traffic decrease in the periods.

Interconnection Revenues: totaled R\$465.8 million in 2008 and, when comparing to 2007, an increase of R\$60.5 million or 14.9% is observed. When comparing the 4Q08 x 4Q07, an increase of R\$11.9 million or 11.4% is shown. These effects were chiefly caused by traffic increase from other companies as a consequence of the telecommunications market growth and also due to the tariff readjustment of 3.01% as of July, 2008.

Public Telephony: reached R\$444.9 million in 2008, presenting a decrease of R\$106.2 million or 19.3% when compared to 2007. When comparing the 4Q08 x 4Q07 a decrease of R\$44.3 million or 29.7% is observed. These effects were mainly motivated by a higher competition of the mobile market and were partially offset by the tariff readjustment of 3.01% as of July, 2008.

Data Transmission: reached R\$3,759.5 million in 2008, an increase of R\$763.7 million or 25.5% when compared to 2007. When comparing the 4Q08 x 4Q07, an increase of R\$200.6 million or 24.3% is shown. These effects are explained by the residential segment growth, through the broadband offer with the brands "Speedy" and "Ajato", as well as the growth of data transmission in the corporate segment.

Infrastructure rental: totaled R\$384.3 million in 2008, a rise of R\$65.8 million or 20.6% when compared to 2007. When comparing the 4Q08 x 4Q07, an increase of R\$11.1 million or 12.7% is shown. These effects were mainly explained by the increase of rented circuits' volume, due to the telecommunications market growth.

Pay TV: launched on August 12, 2007, this service reached R\$379.0 million in 2008, with a base of 472,222 clients. When comparing the 4Q08 x 3Q08, an increase of R\$30.2 million or 28.9% is shown, and a clients base increase of 11.1% . It includes TV services through DTH and MMDS, this latter as a result of Telefônica Sistema de Televisão acquisition in the 4Q07.

Others: reached R\$1,102.1 million in 2008, presenting an increase of R\$236.1 million or 27.3% when compared to 2007. When comparing the 4Q08 x 4Q07, an increase of R\$81.7 million or 37.1% is

Results January - December 2008 **TELESP 5**

registered. These effects are chiefly explained by the strong performance of PDTI and network digital services. Furthermore, are observed the impacts of the application of new accounting criteria, introduced by the Law# 11,638/07, that resulted in a slight increase of PDTI revenues, due its classification as financial leasing, besides the impact of accounting reclassification of DDR revenues, previously accounted as monthly subscription fee.

Results January - December 2008 **TELESP 6**

OPERATING EXPENSES HIGHLIGHTS

Operating expenses in 2008 reached R\$9,423.3 million and when compared to 2007, increased R\$960.5 million or 11.4% . In the 4Q08, the operating expenses reached R\$2,424.1 million, remaining almost stable when compared to the 3Q08 and presenting an increase of R\$213.7 million or 9.7% when compared to the 4Q07.

The variations are explained by the following items:

Personnel expenses: reached R\$748.8 million in 2008, a decrease of R\$138.4 million or 15.6% when compared to 2007. When comparing the 4Q08 x 4Q07, it was recorded a decrease of R\$86.0 million or 32.4% . These effects chiefly reflect the plan of expenses reduction related to the Program of Organizational Restructuring already implemented.

Administrative expenses: totaled R\$7,914.6 million in 2008, showing a raise of R\$948.8 million or 13.6% when compared to 2007. When comparing the 4Q08 x 4Q07, an increase of R\$282.1 million or 15.4% is shown.

The changes are mainly explained as follows:

Supplies: totaled R\$236.2 million in 2008, presenting an increase of R\$78.6 million or 49.8% when compared to 2007. When comparing the 4Q08 x 4Q07 an increase of R\$23.5 millions or 55.7% is shown. The application of new

Edgar Filing: TELESP HOLDING CO - Form 6-K

accounting criteria, introduced by the Law# 11,638/07, resulted in an increase of acquisition expenses of PDTI equipments, previously accounted as depreciation. This effect was partially offset by a decrease of card phone expenses and outsource of bills printing service. However, excluding the impact related to the adjustments of the Law# 11,638/07, in the amount of R\$98.0 million in 2008 and of R\$35.1 million in the 4Q08, it is observed a decrease in expenses of 12.3% and 27.6%, respectively, mainly justified by a decrease of card phone expenses and outsource of bills printing service.

Outsourcing expenses: totaled R\$3,330.9 million in 2008, presenting a raise of R\$533.6 million or 19.1% when compared to 2007. This effect is mainly due an increase of TV content, customer service and network maintenance expenses. When comparing the 4Q08 x 4Q07, an increase of R\$185.9 million or 25.5% is shown, due to the same aforesaid reasons.

Interconnection expenses: reached R\$3,855.3 million in 2008 and when compared to 2007, presented an increase of R\$238.2 million or 6.6% . When comparing the 4Q08 x 4Q07, an increase of R\$59.1 million or 6.2% is shown. These effects are mainly explained by an increase in SMP traffic with the 15 (selection code of the operator) use, a higher fixed-mobile traffic (VCs) and by the VUM readjustment of 2.06% in July, 2008.

Other Expenses: reached R\$492.2 million in 2008, presenting an increase of R\$98.5 million or 25.0% when compared to 2007, due to an increase of infrastructure rental expenses for last-mile traffic termination and post and ducts rental. When comparing the 4Q08 x 4Q07, an increase of R\$13.7 million or 11.9% is presented, due to the same aforesaid reasons.

Taxes: totaled R\$444.5 million in 2008, recording an increase of R\$38.4 million or 9.4% in comparison to 2007. This effect is mainly explained by an increase of FUST and FUNTTEL's contribution, directly connected to revenues performance, and the differential of ICMS rate in the purchase of supply material for use and consumption. When comparing the 4Q08 x 4Q07, a decrease of R\$3.5 million or 3.4% is shown. This effect is mainly justified by a decrease of FUST expenses due to changes on its calculation base, been partially offset by an increase of FUNTTEL's contribution.

Results January - December 2008 **TELESP 7**

Provisions: reached R\$538.6 million in 2008, a decrease of R\$114.1 million or 17.5% when compared to 2007. When comparing the 4Q08 x 4Q07, a decrease of R\$14.4 million or 8.7% is registered. These effects reflect the success of the commercial policy's review during 2007 issuing the improvement of the customer base profile. It is important to highlight the significant improvement of the ratio of provisions over net operating revenues, from 4.4% in 2007 to 3.4% in 2008.

Investment gains (losses): in 2008 recorded a positive result of R\$8.3 million, and in 2007 presented a negative result of R\$2.1 million. When comparing the 4Q08 x 4Q07 a positive variation of R\$0.6 million is registered. These variations are justified by equity accounting of minority interest on Cable TV operators.

Other operating revenues: in 2008 recorded a negative net variation of R\$236.3 million when compared to 2007. Such behavior is mainly justified by a decrease of recovered expenses and provisions reversion, mainly related to tributary and civil processes. When comparing the 4Q08 x 4Q07 a negative variation of R\$36.0 million is shown due to the same aforesaid reasons.

Depreciation: in 2008 reached R\$2,775.6 million, an increase of R\$76.5 million or 2.8% when compared to 2007. This effect is mainly explained by the increase of modem obsolescence provision and goodwill amortization of Telefônica Televisão's acquisition. These effects were partially offset by an increase of the balance of assets fully depreciated, that decreases the permanent assets, besides the application of the new accounting criteria, introduced by the Law# 11,638/07, that resulted in a decrease of PDTI's depreciation expenses, currently accounted as supplies expenses. When comparing the 4Q08 x 4Q07, the amount remains almost stable.

Results January - December 2008 **TELESP 8**

On December 31, 2008, the Company had R\$511.1 million in loans and financing denominated in foreign currency, from which R\$381.9 million were raised at fixed interest rates and R\$129.2 million were raised at variable interest rates (Libor). The position in loans and financing also includes the value of debentures paying interests based on the variation of the CDI rate + fixed spread, in the amount of R\$1,516.3 million and the value of R\$1,708.8 million in financing with Banco Nacional de Desenvolvimento Econômico e Social (BNDES).

All the Company's financial derivative contracts aim the protection of currency risk and fluctuations of foreign and domestic interest rates related to financial debt, in accordance to the corporate politic of risk management. Following this, variations on risk factors result in a inverse effect intended to protection. Therefore, the Company doesn't have financial derivative instruments to speculation propose and financial equities are hedged.

The derivative operations in 2008 resulted in a net positive consolidated result of R\$153.4 million. On December 31, 2008, 100% of the Company's financial debt denominated in foreign currency was covered by active positions in hedge transactions (Swap to "CDI") which reported a consolidated net positive result of R\$152.7 million. The Company also has swap operations "CDI + spread x %CDI", in the amount of R\$1.5 billion, to cover the fixed debentures spread, which generated a positive result of R\$28 thousand. The result of swap trades - "CDI x pré", with a contracted volume of R\$50.0 million, settled in 2008 reached a net positive consolidated result of R\$749 thousand in the year.

On December 31, 2008 were recognized a balance of R\$95.8 million as asset and a balance of R\$37.3 million as liability to reflect the derivatives position on the mentioned date.

To reduce the exposure of the local interest rate (CDI), the Company invests the balance of cash and cash equivalents of R\$1,709.0 million, mainly in financial investments (Certificados de Depósitos Bancários) in short-term based on the variation of the CDI, in accordance to the credit limits and diversification set on the Company's current credit risk politic.

Debentures - On September 03, 2004, Telesp announced a Public Offering of Securities and the activation, within the Program's parameters, of the first issuance of Telesp's debentures. The offer consisted of the issuance of 150 thousand not convertible debentures, of unsecured type, with face value of R\$10 thousand per unit, totaling the amount of R\$1.5 billion, in single tranche, maturing on September 01, 2010. The debentures conditions were renegotiated on September 01, 2007, end date of the first validity remuneration period, and the second period also began in that date with closing foreseen to September 01, 2010, the debentures' maturity date. The debenture bears interest on a quarterly basis payment, of the accumulated average rates of the interbank interest rate of one day (DI rate), capitalized by a spread of 0.35% per year, calculated and disclosed by the Custody and Settlement (CETIP) since the renegotiation date.

BNDES Loan - On October 10, 2007, the BNDES approved a loan of R\$2 billions for Telesp, from which R\$1,686.9 million have already been released and are being applied in the network modernization and expansion of voice, data and video services.

Financial Expenses - In 2008 reached R\$227.9 million, improving R\$79.0 million or 25.8% when compared to 2007, mainly justified by a lower net debt and a decrease in funding costs.

RELEVANT EVENTS

Corporate Events in 2007 and 2008

a) Acquisition of Telefônica Televisão Participações S.A. (previously named Navytreet Participações S.A.) - In accordance with the relevant fact published on October, 31, 2006, the Society celebrated with Grupo Abril several contractual relations of commercial and operational disposition. It was foreseen the acquisition of: (i) 100%

of the MMDS (Multichannel Multipoint Distribution Service) and broadband operations, and (ii) participation in the Company's capital stock, at the limit of the effective law and regulation, of TV and cable operators controlled by Grupo Abril inside and outside Sao Paulo's State.

On October 31, 2007, Anatel's Council concluded the process of regulatory analysis of the association between Grupo Abril and Telesp and approved the transaction. However, the process is currently under Anatel's competition analysis and after that will be sent to CADE (Conselho Administrativo da Defesa Econômica). The final amount of 100% acquisition of the Telefônica Televisão capital stock was R\$909.1 million.

b) Increase on Telefônica Televisão Participações S.A.'s Equity (previously named Navytree Participações S.A.) □ On February 29, 2008, the Company increased the Telefônica Televisão's capital with stocks of A.Telecom equity. As a result, A.Telecom became an integral subsidiary of Telefônica Televisão.

c) Change on Navytree Participações company's name □ On June 10, 2008, Navytree approved on its Extraordinary Shareholders' Meeting the change of the Company's name to Telefônica Televisão Participações S.A..

d) Increase on Telefônica Televisão Participações S.A.'s Equity (previously named Navytree Participações S.A.) □ On July 25, 2008, the Company increased the Telefônica Televisão's capital with stocks of Telefônica Data S.A.'s equity. As a result, T. Data became an integral subsidiary of Telefônica Televisão.

e) Corporate Reorganization involving Telefônica Data do Brasil Participações Ltda. □ DABR and Telefônica Televisão Participações S.A. □ TTP - In accordance to the relevant fact published on October 21, 2008, the Company's Board of Directors approved, on that date, the propose that aims the corporate reorganization involving DABR and TTP (wholly-owned subsidiary, which has stakes on Telefônica Sistema de Televisão S.A., A. Telecom S.A. and Telefônica Data S.A.'s capital).

Telesp's Board of Directors understands that the corporate reorganization reflects Company and shareholders' aim and will allow the improvement of synergies, the reduction of managing risks, the simplification of corporate and administrative organization, reducing costs, but also getting the opportunity of the tax benefit and the Company's cash flow improvement and, as a consequence, to its shareholders in the amount of R\$351 million.

On November 11, 2008, the propose of merger of DABR and TTP by Telesp was approved by the Company's shareholders on its Extraordinary Shareholders' meeting. As a result of the merger of TTP, Telefônica Sistema de Televisão S.A., A. Telecom and Telefônica Data companies became holly-owned subsidiaries of Telesp.

Results January □ December 2008 **TELESP 11**

ADDITIONAL NOTES

Migration Pulse/Minute - On March, 31, 2007, Telesp started the collection migration process from pulse to minute, according to the Concession Agreement's renewal which was completed on July, 31, 2007.

Tariffs readjustment occurred in 2007 and 2008

Fixed-to-Fixed Tariff □ **On July 17, 2007**, through Edicts #66028 and #66031, Agência Nacional de Telecomunicações - Anatel approved the tariff adjustment of the Switched Fixed Telephony Service (STFC), according to the criteria established in the concession contracts for Local and Domestic Long Distance Services, effective from July 20, 2007. The following readjustments were applied equally to the Local and DLD, in other words, 2.21% . However, worried about the total transparency over the process of local calls conversion from pulses to minutes, the Company postponed, in a promotional disposition, the implementation of the tariff adjustment over local pulses and minutes to October 01, 2007.

Fixed-to-Mobile Tariff □ **On July 17, 2007**, through Edict #66029, Anatel approved the 3.29% tariff adjustment for the fixed-to-mobile calls (VC1, VC2 and VC3) throughout the entire concession area of Telesp, sectors 31, 32 and 34 of Region III. On the same date, Anatel approved the readjustment of the fixed-to-mobile interconnection rate (VUM) related to the VC1, VC2 and VC3 in 2.25% . The readjustments were effective as of July 20, 2007.

Fixed-to-Fixed Tariff □ **On July 21, 2008**, through Edicts #4,288 and #4,289, Anatel approved the tariff adjustment of the (STFC), according to the criteria established in the concession contracts for Local and Domestic Long Distance Services, effective from July 24, 2008. The tariff readjustments were 3.01% .

Fixed-to-Mobile Tariff □ **On July 21, 2008**, through Edict #4,290, Anatel approved the 3.01% tariff adjustment for the fixed-to-mobile calls (VC1, VC2 and VC3) throughout the entire concession area of Telesp, sectors 31, 32 and 34 of Region III. On the same date, was also approved the readjustment of fixed-to-mobile interconnection rate (VUM) related to the VC1, VC2 and VC3 in 2.06% . The readjustments were effective as of July 24, 2008.

Technical Problems in 2008

On July 2 and 3, 2008, technical problems that affected the Company's data transmission network generated instability and breakdowns of Telesp's broadband service. The services were fully reestablished in the whole Sao Paulo State at the end of July 3.

The Company refunded all Speedy's subscribers in accordance to the "Termo de Ajustamento de Conduta" (TAC) signed between the Company and the Public Ministry, that sets (i) a discount related to the 36 hours of the service breakdown and (ii) a credit equivalent to 84 hours as compensation of damage and losses. The compensation occurred through a credit in the clients' bills in July and August, which represented a decrease of R\$34.5 million on Company's operating result, besides other expenses inherent to the event.

The Company has reported it properly to insurers, which contracts are set in accordance to the Concession Contract and in accordance to the market good practices.

Changes on the adopted accounting practices

The Company decided to adopt in 2008 the changes on accounting practices introduced by the Law# 11,638/07 and the Provisional Measure# 449/08, due to several accounting pronouncements issued by "Comitê de Pronunciamentos Contábeis" (CPC) and approved by CVM. As a result, changes on accounting practices adopted as of January 1, 2008 have occurred when compared to 2007, affecting the comparability, among which are highlighted:

a) Financial Leasing: PDTI contracts are accounted with financial leasing characteristics;

b) Financial Instruments: financial assets and liabilities initially evaluated by fair value;

c) Present Value Adjustment: certain long term assets and liabilities initially accounted by its discounted present value;

d) Accumulated Translation Adjustment: exchange variations over investments abroad registered as accumulated translation adjustment, on Company's equity.

HISTORICAL SUMMARY

Since November 30, 1999 and due to a corporate restructuring, Telecomunicações de São Paulo S.A. -TELESP is the new name of Telesp Participações S.A., a corporation organized under the laws of the Federal Republic of Brazil, formed upon the spin off of Telecomunicações Brasileiras S.A., on May 22, 1998. TELESP is the main provider of

Edgar Filing: TELESP HOLDING CO - Form 6-K

fixed line public telecommunications services in the Brazilian state of São Paulo. The Brazilian Government sold its stake in TELESP PARTICIPAÇÕES, thus privatizing the Company, on July 29, 1998.

In December 1999, Telecomunicações de São Paulo S.A. - TELESP acquired voting and non-voting shares of Centrais Telefônicas de Ribeirão Preto S.A. - CETERP. The CETERP cellular operating division was sold afterwards. The tender offer to exchange the shares of the Company by BDRs (Brazilian Depositary Receipts) representative of the shares of Telefônica, S.A. was concluded on June 30, 2000.

On August 03, 2000, the wholly owned subsidiary Telefônica Empresas S.A. was created, whose corporate goal is to render switched package network services. On November 24, 2000, the Company completed the capital increase on its fully owned subsidiary in local currency and through the valuation of the assets related to the switched package network services, including the transfer of the authorization to render that service. On January 30, 2001, Telefônica Data Brasil Holding S.A. was created, resulting of the partial spin-off of the Company's net equity. This equity was represented by the investment in the fully owned subsidiary Telefônica Empresas S.A. and accounts receivable. The purpose of the creation of Telefônica Data Brasil Holding S.A. was the segregation of the operating activities related to the switched package network services, due to the administrative and operating restructuring in the year 2000.

TELESP's business, services and tariffs have been regulated by Anatel (Agência Nacional de Telecomunicações) since June 16, 1997, according to various decrees, decisions, plans and regulatory measures. TELESP became the first operator to file the corresponding information of the accomplishment of Anatel's targets that granted the license to permit Telesp to offer domestic and international long distance services to its customers. The license also allowed Telesp to extend its business out of its concession area (São Paulo) to the whole country. The international long distance services started to be deployed on May 7, 2002 while the domestic long distance services were not being rendered in that period due to a legal injunction. For the same reasons, the domestic long distance services started to be deployed on July 29, 2002.

The Board of Directors of Anatel, on its 240th meeting held on January 29, 2003 granted Telecomunicações de São Paulo S.A. - Telesp the authorization to exploit the Multimedia Communications Service (SCM) nationwide. The Company may offer voice and data services through points of presence, composed of networks and telecommunication circuits.

On July 06, 2003, the mobile telephony operators started to implement the long distance carrier selection (CSP). It enables the client to determine the long distance carrier for each domestic long distance call (VP2 and VP3) or international call, according to the SMP - Mobile Personal Service rules. Consequently, the Company started to acknowledge the revenues from said services and, at the same time, started to pay to the mobile telephony operators for the use of their networks.

On September 04, 2004, the rules established in Resolution #373 of Anatel (National Telecommunications Agency), dated as of June 03, 2004, were implemented that deals with the reconfiguration of the local areas for the Switched Fixed Telephony Service - STFC.

On December 24, 2004, the Company acquired the control of Santo Genovese Participações Ltda., controller of Atrium Telecomunicações Ltda. (Atrium), company dedicated to the management of the

Results January - December 2008 **TELESP 16**

rendering of telecommunication services. The operation allowed the Company to increase its offer to the domestic market with services that have greater value added, through the management of the rendering of telecommunication services.

On December 31, 2005, the concession contract for the STFC expired. On December 22, 2005, this concession contract was extended for a period of 20 years, while it can be modified on December 31, 2010, December 31, 2015 and December 31, 2020. This condition allows Anatel to establish new conditions and new targets for universalization and quality, taking into consideration the conditions in place by that time.

Every two years for the 20-years period of the new concession contracts, the public regime companies will have to pay a renewal tax equivalent to 2% of the revenues of the STFC of the previous year of the payment, net of

Edgar Filing: TELESP HOLDING CO - Form 6-K

applicable taxes and social contributions. Since 2006, the Company has been provisioning the concession renewal rate by competence regime. Considering that this rate is connected to two periods, the Company will register as costs of the rendered services 1% of the annual net revenues of each period. The first payment of the bi-annual tax took place on April 30, 2007, based on the net incomes of STFC 2006. The next payment is foreseen for April 30, 2009 based on the net incomes of STFC 2008.

On July 28, 2006, the corporate restructuring involving the activities of the Multimedia Communication Services (SCM), through the merger of TDBH into Telesp and partial spin-off of Telefônica Empresas, was finalized that also includes the transfer to Telesp of the assets and activities of the SCM in the regions in which such service is already rendered by Telesp.

On March 14, 2007 Anatel conceded to A.Telecom S.A. the license to offer Pay TV through DTH (Direct to the Home). DTH is a special type of service of Pay TV that uses satellites for the direct distribution of television and audio signs for the subscribers. The launch of the commercial operation occurred on August 12, 2007.

On October 31, 2007, Anatel concluded the process of regulatory analysis between Grupo Abril and Telesp involving the acquisition of 100% of the MMDS (Multichannel Multipoint Distribution Service) and broadband operations, and participation in the company's capital stock, at the limit of the effective law and regulation, of TV and cable operators controlled by the Grupo Abril inside and outside São Paulo's State.

In February, 2008, the Company launched a pioneer offer of internet access through Fiber Optic (Fiber to the Home - FTTH) for residential segment on Sao Paulo neighborhood Jardins. Besides the internet connection with speed capacity of 8 e 30 Mb, bundles including Wi-Fi, Digital TV and 2,000 minutes of local and intra-state calls, safety bundle, call identifier, technical assistance and specific call center started to be offered.
