PROXY STATEMENT

PIPELINE TECHNOLOGIES, INC.
Annual Meeting of Shareholders
December 10, 2001

GENERAL INFORMATION

This proxy statement is furnished in connection with the solicitation of

Edgar Filing: PIPELINE TECHNOLOGIES INC - Form DEF 14A

proxies by the Board of Directors of Pipeline Technologies, Inc., a Colorado corporation, for the annual meeting of shareholders to be held at our principal executive offices located at 1001 Kings Ave., Suite 200, Jacksonville, Florida 32207 on December 10, 2001, at 11:30 a.m., eastern time, and at any adjournments of the meeting. This proxy statement and the enclosed form of proxy are being sent to shareholders on or about November 7, 2001.

If the enclosed proxy is properly executed and returned in time to be voted at the meeting, the shares represented will be voted in accordance with the instructions contained therein. Executed proxies that contain no instructions will be voted for the election of all nominees named herein as directors, for the ratification and affirmation of an increase in the number of authorized shares of common stock to 40,000,000, and for the ratification of the appointment of Stark Winter Schenkein & Co., LLP as our independent auditors.

Shareholders who execute proxies for the annual meeting may revoke their proxies at any time prior to the exercise of the proxies by delivering written notice of revocation to us at our above address, or by delivering a duly executed proxy bearing a later date, or by attending the meeting and voting in person.

The cost of the meeting, including the cost of preparing and mailing this proxy statement and proxy, will be borne by us. We will use the services of our directors, officers, employees and contractors to solicit the proxies, personally or by telephone, at no additional salary or compensation. We will also request banks, brokers and others who hold common stock in nominee names, to distribute proxy soliciting materials to beneficial owners and we will reimburse such banks and brokers for reasonable out-of-pocket expenses which they may incur in so doing.

Only holders of record of our common stock, par value \$.001 per share, on the record date, October 29, 2001, are entitled to receive notice and to vote at the annual meeting. On the record date, there were a total of 10,179,375 shares of common stock outstanding. Each share is entitled to one vote.

The holders of a majority of the outstanding shares will constitute a quorum for the transaction of business at the annual meeting. Since our officers and directors are holders of a majority of the outstanding shares, the officers and directors will ensure that a quorum is present.

Brokers who hold common stock in street name and do not receive instructions from their clients on how to vote on a particular proposal are permitted to vote on routine proposals but not on nonroutine proposals. The

absence of votes on nonroutine proposals are "broker nonvotes." Abstentions and broker nonvotes will be counted as present for purposes of establishing a quorum, but will have no effect on the election of directors or any other matter voted on at the meeting because they will not be counted as votes for or against any matter.

YOUR VOTE IS IMPORTANT. PLEASE RETURN YOUR MARKED PROXY CARD PROMPTLY SO YOUR SHARES CAN BE REPRESENTED, EVEN IF YOU PLAN TO ATTEND THE MEETING IN PERSON.

Edgar Filing: PIPELINE TECHNOLOGIES INC - Form DEF 14A

If a quorum is present, directors are elected by a plurality of votes (i.e. the five candidates receiving the highest number of votes will be elected to the Board of Directors). The Board of Directors unanimously recommends a vote for the nominees listed above.

Board of Directors Meetings and Committees -----

During the annual period ended June 30, 2001, our Board of Directors held nine meetings, and took action six times by unanimous written consent. Mr. Murtaugh, Mr. Maige and Mr. McKey were directors during the entire last fiscal year and participated in each decision made by the Board. Pieter Both and Jeffrey R. Leach were Directors from December 7, 2000 through June 30, 2001 and participated in each decision made by the Board during that period.

4

In August 2001, the Board of Directors of the Company appointed a standing Compensation Committee. The Compensation Committee is responsible for reviewing and evaluating the duties and performance of our officers and key employees and making recommendations concerning their compensation. The Compensation Committee also oversees our stock option plan. The Compensation Committee's is presently comprised of Meesrs. McKey, Both and Leach.

As an Audit Committee had not been formally appointed, an ad hoc committee of the entire Board of Directors reviewed and discussed our audited financial statements for the last fiscal year with our management. Further, a representative of that committee discussed with our independent accountants the matters required to be discussed by Statement on Auditing Standards No. 61 and received the written disclosures and the letter from the independent accountants required by Independence Standards Board Statement No.1 and have discussed with the accountants their independence. On the basis of those reviews and discussions, the committee recommended to the Board of Directors that the audited financial statements be included for filing with the Securities and Exchange Commission in our Annual Report on Form 10-KSB for the last fiscal year.

The Board does not include any other committees; rather, the entire Board considers all other matters presented for consideration. However, the Board may appoint an audit, or such other committees as it deems appropriate in the future.

Audit Fees -----

The aggregate fees billed by our independent public accountants for professional services rendered for the audit of our annual financial statements for the most recent fiscal year were \$12,500. The accountants also billed us \$12,370 for review of the financial statements included in our quarterly reports on Form 10-QSB during the most recent fiscal year. No other fees were billed by our accountants during that year.

The directors which reviewed and discussed the audited financial statements with the accountants have considered the services provided by such accountants during the year, and concluded that the services are compatible with maintaining the independence of the accountants.

Certain Relationships and Related Transactions

(A) Acquisition of Pipeline - Florida. In connection with the acquisition of Pipeline - Florida in June 2000, we issued an aggregate of 8,453,425 shares of our common stock to the former shareholders of that entity in exchange for all of the outstanding stock of Pipeline. The shareholders of Pipeline at that time were Timothy Murtaugh, Robert Maige and LM Investments Group, Inc. As a result of that transaction, Mr. Murtaugh received 4,564,849 shares of our common stock, Mr. Maige received 2,282,425 shares and LM Investments Group, Inc. received 1,606,151 shares. The amount of shares which we

8

issued to the former Pipeline shareholders was determined by negotiations between our officers and those of Pipeline, and took into consideration such factors as the trading price of our common stock at the time, the proposed business and operations of Pipeline, the industry within which Pipeline operated, the combined assets and liabilities of the entities and the estimated revenue for Pipeline. We did not assign any relative weight to any of these factors but considered all of them material in our estimation of the consideration issued in connection with the merger.

(B) Loan Arrangements. On May 3, 2000, Candace McKey, wife of John D. McKey, Jr., loaned our company \$125,000 pursuant to a convertible promissory note. Mrs. McKey elected to convert the entire balance plus interest in the amount of \$1,479.45 into 250,000 shares of common shares on June 8, 2000.

On June 21, 2000, Mr. McKey loaned our company an additional \$150,000 pursuant to a convertible promissory note. The note has an interest rate of 12% per annum and requires quarterly payments of interests only. In addition to principal and interest, Mr. McKey received a common stock purchase warrant to acquire up to 75,000 shares of our common stock at the exercise price of \$2.00 per share, effective June 21, 2000 with an exercise period of three years thereafter. We repaid \$75,000 of this Note during the fiscal year and the

Edgar Filing: PIPELINE TECHNOLOGIES INC - Form DEF 14A

balance is due on demand.

On November 8, 2000, Mr. McKey loaned our company an additional \$150,000 under a bridge loan agreement. Pursuant to the agreement, we issued 100,000 shares of our common stock to Mr. McKey. The balance of \$150,000 plus 12% per annum interest is due on demand.

Mr. McKey loaned our company \$37,382.74 on December 12, 2000 and \$50,000 on February 7, 2001 to meet our immediate cash needs. Both loans are outstanding and payable on demand plus 12% per annum interest.

(C) Other. During the year ended June 30, 2001, we subleased a portion of our executive and administrative offices to a company affiliated with one of our executive officers and directors. Maige, Matthews and Company is an accounting firm in which Robert Maige was an officer, director and shareholder. We were paid \$6390 pursuant to this arrangement though September 2000 when the arrangement was terminated.

In connection with certain financing conducted during fiscal 2000, we entered into a financial advisory agreement with LM Investment Group, Inc., of which Jeff Leach, a director of our company, is a principal. Pursuant to that agreement, we agreed to compensate LM for assistance in obtaining financing with a combination of cash and securities for services rendered on our behalf. We also agreed to retain LM as a financial advisor for a period of one year for an additional cash payment of \$5,000 per month. This agreement was terminated effective May 14, 2001, and 80,000 shares of our common stock previously issued pursuant to this agreement have been returned to us. Through June 30, 2001, we have accrued \$67,500 to LM pursuant to this arrangement.

9

At various times, Mr. Maige lends money to us to meet short-term working capital needs. These advances bear interest at the rate of 0% per annum and are due and payable on demand. At June 30, 2001, the balance outstanding to him was \$17,201, including accrued interest. The balance due Mr. Maige increased during the year by \$8,925 accrued for the purchase of equipment discussed below. Payments of \$5,051 were made during the year.

In August, 2000, Mr. Murtaugh loaned us \$24,000 to meet our short term-term working capital needs. These advances bear interest at the rate of 0% per annum and are due and payable on demand. Of the balance due, \$22,727 was repaid during the year. At June 30, 2001, the balance outstanding to him was \$1,273, including accrued interest.

Until our merger with Pipeline, we shared office facilities with MCM Capital Management, Inc., a company affiliated with Messrs. Raymond E. McElhaney and Bill M. Conrad, former officers, directors and principal shareholders of our company. Pursuant to an oral agreement effective September 1, 1995, we were provided with office space, conference facilities and other support for a monthly payment of \$500. During the two years ended June 30, 2000, we paid or accrued \$37,625 pursuant to this arrangement.

From November through February 2001, Mr. Both, a director, provided consulting services on an as needed basis. Mr. Both provided technical and organizational services to our information technology department. Mr. Both accrued \$12,540 in expenses for these services.

In March, 2001, we purchased certain office equipment and furniture from one of our directors, Mr. Maige. The equipment consisted of desks, tables, chairs, filing cabinets, computers and other office furniture. Our cost for the equipment was \$8,925 which was estimated to be the fair market value.

Edgar Filing: PIPELINE TECHNOLOGIES INC - Form DEF 14A

All these transactions were approved by a majority of the disinterested directors at that time. The Board of Directors was of the opinion that each of these transactions were no less favorable than could be obtained from an unaffiliated third party.

Compliance with Section 16(a) of the Securities Exchange Act of 1934

PROPOSAL NO. 2

RATIFICATION AND AFFIRMATION OF THE

ARTICLES OF AMENDMENT

TO THE ARTICLES OF INCORPORATION

The Board of Directors has adopted, subject to ratification of the shareholders, an amendment to the Articles of Incorporation to increase the authorized amount of our common stock. This would be accomplished by adopting the Articles of Amendment to the Articles of Incorporation attached as Exhibit "A" to this proxy statement.

This proposal was presented to the shareholders at the annual meeting of the shareholders held on October 19, 2000 and was approved by a majority of shareholders. This matter is being presented to the shareholders for ratification and approval at this annual meeting in order to insure that all notice requirements to approve this action have been fulfilled. Colorado law requires that 30 day notice be given to all shareholders prior to a shareholder meeting where an increase in the number of authorized shares is to be voted upon. Notice was not sent to the shareholders 30 days prior to the annual meeting, and we are required to ensure that all statutory requirements are fulfilled before effectuating the increase in authorized shares. Upon ratification by the shareholders at this meeting, the Articles of Amendment to the Articles of Incorporation will be filed with the Secretary of State of Colorado.

Edgar Filing: PIPELINE TECHNOLOGIES INC - Form DEF 14A

The Board of Directors has determined that it is in our best interest to amend our Articles of Incorporation to increase the number of authorized shares of our common stock from 15,000,000 to 40,000,000 shares. As of this date, more than 10,000,000 shares of our common stock are issued and another 1,000,000 are reserved for issuance upon exercise of outstanding warrants or options. We have also agreed to issue up to 3,000,000 additional shares in connection with an acquisition. Although we have a sufficient number of authorized shares to meet our present commitments, we are seeking to increase the number of authorized shares to provide flexibility to enter into future financing opportunities. Notwithstanding the aforementioned commitment to issue 3,000,000 additional common shares in connection with an acquisition, we have no present intent to use the increased authorized common shares for any business acquisition or merger.

11

We may be required to raise additional capital to further finance our operations, if and when a feasible business opportunity is presented. Therefore, the purpose of the proposed amendment includes providing us with greater flexibility for entering into any such opportunity to raise additional working capital. This additional working capital may be needed for possible mergers with other companies and/or the acquisition of additional assets in the future. Currently, we are restricted in our financing options due to the lack of authorized but unissued shares of common stock provided for in the Articles of Incorporation.

The shareholders will have no appraisal rights or dissenting shareholders' rights under Colorado law with respect to the Amendment or any equity financing that we may undertake after its adoption. In addition, shareholders do not have any preemptive rights to participate in any future issuance of common stock, and therefore will suffer dilution of ownership upon such issuance. The issuance of additional shares could also have the effect of diluting the earnings per share and book value of existing shares.
