Three Months Ended March 31, 2001 Compared to Three Months Ended March 25, 2000

Net Sales. Our net sales increased to \$64.0 million from \$47.3 million, an increase of \$16.7 million or 35.5% over the same period last year. This increase is attributable primarily to \$14.4 million of net sales for the seven new stores opened during the three months ended March 31, 2001, as well as other stores opened in prior fiscal periods that did not qualify as comparable stores. Our comparable store sales increased by 5.4% and contributed \$2.3 million to the net sales increase during the three months ended March 31, 2001. The quarterly comparison of our net sales to last year's results was negatively impacted by a shift in the fiscal calendar caused by having taken an additional week of business in fiscal 2000. The calendar shift moved the week following Christmas, a higher than average sales period, out of the second quarter of fiscal 2001 which unfavorably impacted the quarterly net sales comparison.

Gross Profit. Gross profit represents net sales less cost of goods sold, which includes buying, distribution and occupancy costs. Our gross profit increased to \$18.6 million from \$13.6 million, an increase of \$5.0 million or 36.8% over the same period last year. This increase is the result of higher net sales and increased gross profit margin. As a percentage of net sales, gross profit increased to 29.1% from 28.8%. The increase as a percentage of net sales was principally due to higher initial mark-ups and lower markdowns partially offset by higher occupancy and freight expenses.

Selling, General and Administrative Expenses. Our selling, general and administrative expenses increased to \$13.2 million from \$9.7 million, an increase of \$3.5 million or 35.9% over the same period last year. This increase is attributable to new store expansion and increased corporate expenses. As a percentage of net sales, selling, general and administrative expenses increased to 20.6% of sales from 20.5% primarily as a result of higher store operating expenses due, in part, to the calendar shift mentioned above, partially offset by lower marketing expenses.

Table of Contents

Amortization of Goodwill and Other Intangibles. Amortization of goodwill and other intangibles remained constant at \$0.2 million during these two periods.

Income Taxes. Our effective tax rate of 37.0% compares to an effective tax rate of 38.2% for the same period of the prior year. Our effective tax rate exceeds statutory tax rates due to non-deductible amortization of goodwill associated with the acquisition of the business in September 1996.

Net Income. Our net income for the three months ended March 31, 2001 increased to \$3.4 million from \$2.3 million, an increase of \$1.1 million or 47.2% over the same period last year. This increase was primarily due to an increase in

gross profit, an increase in interest income, and a \$0.3 million charge related to the early repayment of a secured bank credit facility in fiscal 2000, partially offset by an increase in selling, general and administrative expenses.

Six Months Ended March 31, 2001 Compared to Six Months Ended March 25, 2000

Net Sales. Our net sales increased to \$157.1 million from \$110.2 million, an increase of \$46.9 million or 42.5% over the same period last year. This increase is attributable primarily to \$42.4 million of net sales for the 22 new stores opened during the six months ended March 31, 2001, as well as other stores opened in prior fiscal periods that did not qualify as comparable stores. Our comparable store sales increased by 4.4% and contributed \$4.5 million to the net sales increase during the six months ended March 31, 2001.

Gross Profit. Gross profit represents net sales less cost of goods sold, which includes buying, distribution and occupancy costs. Our gross profit increased to \$50.0 million from \$34.9 million, an increase of \$15.1 million or 43.1% over the same period last year. This increase is the result of higher net sales and increased gross profit margin. As a percentage of net sales, gross profit increased to 31.8% from 31.7%. The increase as a percentage of net sales was principally due to higher initial mark-ups, and lower distribution and buying expenses, partially offset by higher freight, occupancy, and shrink expenses.

Selling, General and Administrative Expenses. Our selling, general and administrative expenses increased to \$30.7 million from \$21.6 million, an increase of \$9.1 million or 42.3% over the same period last year. This increase is attributable to new store expansion and increased corporate expenses. As a percentage of sales, selling, general and administrative expenses are 19.6% of sales, which is consistent with the same period of the prior year.

Amortization of Goodwill and Other Intangibles. Our amortization of goodwill and other intangibles remained constant at \$0.4 million during these two periods.

Income Taxes. Our effective tax rate of 39.5% compares to an effective tax rate of 40.5% for the same period of the prior year. Our effective tax rate exceeds statutory tax rates due to non-deductible amortization of goodwill associated with the acquisition of the business in September 1996.

Net Income. Our net income for the six months ended March 31, 2001 increased to \$11.4 million from \$7.2 million, an increase of \$4.2 million or 58.8% over the same period last year. This increase was primarily due to an increase in gross profit, an increase in interest income, and a \$0.3 million charge related to the early repayment of a secured bank credit facility in fiscal 2000, partially offset by an increase in selling, general and administrative expenses.

LIQUIDITY AND CAPITAL RESOURCES

Our capital requirements result primarily from capital expenditures related to new store openings. We have historically satisfied our cash requirements principally through cash flow from operations. At March 31, 2001, we had approximately \$13.5 million of cash and cash equivalents on hand. We had net working capital of approximately \$7.3 million.

Net cash provided by operations was \$17.2 million for the six months ended March 31, 2001 compared with \$10.7 million during the six months ended March 25, 2000. Cash flows from operating activities for the period were primarily generated by income from operations and changes in working capital account balances.

Net cash used in investing activities was \$9.9 million for the six months ended March 31, 2001 compared with \$9.6 million in the six months ended March 25, 2000. Cash used in investing activities primarily represents capital expenditures for store openings, store remodeling, and fixtures.

Table of Contents

In the six months ended March 31, 2001 and March 25, 2000, we opened 22 and 16 stores, respectively. During fiscal 2001, we plan to open at least 45 new Charlotte Russe and Rampage stores. We will also broaden the test of our Charlotte's Room concept, with three to eight locations planned for the current fiscal year. We anticipate that total capital expenditures during fiscal 2001 will approximate \$30.0 million. We plan to fund these expenditures with cash flows from operations and from borrowings under the \$15.0 million revolving credit facility, as may be required.

Net cash provided by financing activities was \$2.4 million for the six months ended March 31, 2001 compared with \$3.0 million of net cash used in financing activities for the six months ended March 25, 2000. Financing activities for the six months ended March 31, 2001 primarily represent net proceeds of \$1.8 million from the issuance of 100,000 shares of common stock in connection with our March 7, 2001 offering and the proceeds of stock option exercises.

We believe that cash generated from operations and funds available under our revolving credit facility will be sufficient to fund our store expansion program and working capital requirements for at least the next 12 months.

INFLATION

We do not believe that inflation has had a material adverse impact on our business or operating results during the periods presented. There can be no assurance, however, that our business will not be affected by inflation in the future.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Our market risks relate primarily to changes in interest rates. We borrow money, when necessary, on a revolving basis under our \$15.0 million revolving credit facility to fund capital expenditures and other working capital needs. Our revolving credit facility carries a variable interest rate pegged to market indices and, therefore, our statements of income and our cash flows may be impacted by changes in interest rates. As of March 31, 2001, there was no amount outstanding under the revolving credit facility.

Another component of interest rate risk involves the short-term investment of excess cash in short-term, investment-grade interest-bearing securities. These are considered to be cash equivalents and are shown that way on our balance sheets. Changes in interest rates affect the investment income we earn on our investments and, therefore, impact our cash flows and results of operations.
