Announcement   Lisbon   23 June 2009
Portugal Telecom informs about recent news
Following the news recently published in the press, Portugal Telecom informs that, as previously mentioned, it constantly addresses strategic options for the development and expansion of its activity along its different business lines, with a view of maximising shareholder value.
Portugal Telecom s commitment to its television and audiovisual content strategy is well known, as well as the relevance of its marketing budge in Portugal. As a resut, Portugal Telecom should not ignore any eventual investment opportunities that may be presented to it and which may be consistent with its business strategy.

Within this framework, Portugal Telecom confirms contacts between the Prisa Group and Portugal Telecom. In the course of such contacts, several investment scenarios have been analysed, including a potential acquisition of a stake in Media Capital s share capital and different forms

of relationship between this company and Portugal Telecom. However, no agreement was executed between the parties.

#### FORWARD-LOOKING STATEMENTS

This document may contain forward-looking statements. These statements are statements that are not historical facts, and are based on management s current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words anticipates, believes, estimates, expects, plans and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.
