Report of Independent Registered Public Accounting Firm

To the Participants and Administrator of

Protective Life Corporation 401(k) Retirement Plan

In our opinion, the accompanying statements of net assets available for benefits and the related statements of changes in net assets available for benefits present fairly, in all material respects, the net assets available for benefits of Protective Life Corporation 401(k) Retirement Plan (the Plan) at December 31, 2010 and 2009, and the changes in net assets available for benefits for the year ended December 31, 2010 in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental Schedule of Assets (Held at End of Year) is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

PROTECTIVE LIFE CORPORATION 401(k) AND STOCK OWNERSHIP PLAN

NOTES TO FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Protective Life Corporation 401(k) and Stock Ownership Plan (the Plan) are maintained on the accrual basis of accounting and have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP).

Investments and Income Recognition

The mutual funds and common stock investments are valued at fair value based on quoted market prices.

Quoted market prices are based on the last reported sales price on the last business day of the Plan year as reported by the principal securities exchange on which the security is traded.

Units in collective trust funds are valued at the unit value, as reported by the trustee of the collective trust fund on each valuation date.

Purchases and sales of investments are reflected as of the trade date. Interest income is recorded when earned.

Dividend income is recorded on the ex-dividend date.

The Plan presents, in the statement of changes in net assets available for benefits, the net change in the fair value of its investments which consists of the realized gains or losses and the unrealized appreciation or depreciation on those investments.

Employer Contributions Receivable

For the year ended December 31, 2009, the Employer contribution receivable was the accrued cash amount due from the Employer as of the reporting date. There was not an Employer contribution receivable for the year ended December 31, 2010, since all Employer contributions were made before year end.

Notes Receivable from Participants

Notes receivable from participants are measured at the unpaid principal balance plus any accrued but unpaid interest.

Payment of Benefits

Benefits paid to participants are recorded when paid. As of December 31, 2010, \$12,996 was allocated to accounts of participants who had elected to withdraw from the Plan but to whom disbursement of funds from the Plan had not yet been made. As of December 31, 2009, \$233 was allocated to accounts of participants who had elected to withdraw from the Plan but to whom disbursement of funds from the Plan had not yet been made.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and the changes therein. Actual results could differ from those estimates.

Accounting Pronouncements Recently Adopted

In January 2010, the Financial Accounting Standards Board (FASB) issued Update No. 2010-06, which amends the Fair Value Measurements and Disclosures topic of the Codification. The amendments in this Update require new disclosures about transfers in and out of Level 1 and Level 2 fair value measurements and the activity in Level 3 fair value measurements and, in addition, clarify existing disclosures required for levels of disaggregation and inputs and

Table of Contents

valuation techniques. These amendments were effective for interim and annual reporting periods beginning after December 15, 2009, except for the disclosures about activity in Level 3 fair value measurements, which is effective for fiscal years beginning after December 15, 2010, and for interim periods within those fiscal years. The Plan adopted this amendment for the period ended December 31, 2010, and we have provided the disclosures required for the period ended December 31, 2010.

In September 2010, the FASB issued Update No. 2010-25 *Plan Accounting - Defined Contribution Pension Plans*. The objective of the amendments in this Update is to clarify how loans to participants should be classified and measured by defined contribution pension benefit plans. Participant loans were previously classified as plan investments, and were subject to the fair value measurement and disclosure requirements of FASB Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*. In practice, most participant loans are carried at their unpaid principal balance plus any accrued but unpaid interest, which was considered a good faith approximation of fair value. This approximation does not conform to the definition of fair value. This Update amends the guidance to require participant loans to be classified as notes receivable from participants, which are segregated from plan investments and measured at their unpaid principal balance plus any accrued but unpaid interest. The Plan adopted this amendment for the period ended December 31, 2010, and has retrospectively applied throughout the Plan's financial statements.

Accounting Pronouncements Not Yet Adopted

In May 2011, the FASB issued Update No. 2011-04 *Fair Value Measurement (Topic 820) - Amendments to Achieve Common Fair Value Measurements and Disclosure Requirements in U.S. GAAP and IFRSs*. The FASB issued this Update as part of their convergence efforts with the International Accounting Standards Board (IASB) to achieve a global standard for fair value measurement and disclosures. The amendments in this Update change the wording used to describe many of the requirements in U.S. GAAP for fair value measurements and disclosures but were not intended to change the application of the requirements of Topic 820, *Fair Value Measurements and Disclosures*. The Plan will adopt the provisions of this Update as of January 1, 2012, but does not expect a material impact to the Plan's statement of net assets or statement of changes in net assets available for benefits. The Plan is evaluating the impact this standard will have on disclosures related to fair value measurements.

2. PLAN DESCRIPTION

Protective Life Corporation shareowners approved the Plan to provide retirement benefits for eligible employees of the Employer. The following description of the Plan provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan subject to the provisions of the Employee Retirement Income Security Act of 1974. Participation in the Plan is available to all eligible employees of the Employer, as defined in the Plan document.

Edgar Filing: PROTECTIVE LIFE CORP - Form 11-K

The assets of the Plan were held and invested by The Northern Trust Company (NT) through February of 2009. The assets were then transferred to Fidelity Management Trust Company (the Trustee) who now serves as the Trustee of the Plan. Accordingly, all investment transactions with the Trustee qualify as party-in-interest transactions. The Trustee or its affiliates also began providing recordkeeping services for the Plan, replacing Hewitt Associates.

In general, full-time and part-time employees of Protective Life Corporation and its participating subsidiaries who are listed in and paid through the Company s payroll system, may enroll in the Plan as soon as administratively practicable after their date of hire. Independent contractors, employees who work for the Company through a third-party agency (such as a contracting services firm or a temporary agency) and union members (unless the collective bargaining agreement provides for participation in the Plan) are not eligible to participate.

Protective Life Corporation matches employees pre-tax and/or Roth contributions dollar-for-dollar on the first 4% of eligible pay contributed to the Plan. Prior to 2009, Employer matching contributions were made in Employer common stock through an employee stock ownership plan (ESOP) feature. Participants could transfer the matching contributions to other investment choices available under the Plan. Beginning January 1, 2009, the Employer adopted cash matching for participant contributions to the Plan. These cash matching contributions are invested according to the participants investment elections for their pre-tax and/or Roth contributions.

Table of Contents

Participants Accounts/Benefits

An account is maintained for each participant in the Plan. The accounts are credited with the participants' pre-tax, Roth and rollover contributions, Employer cash matching contributions, and investment earnings. Distributions, withdrawals, and allocated expenses are subtracted from the account balances. Participants' vested account balances represent the benefits available to the participants upon retirement, disability, death, or termination of service.

A participant may elect to receive a lump-sum distribution equal to the vested balance of his/her account or may leave it in the Plan if the vested balance is \$1,000 or more. However, benefit payments must commence no later than April 1 following the year the participant reaches age 70½. Investment of a participant's account in Employer common stock shall be distributed in the form of a lump-sum distribution of either Employer common stock or cash as the participant (or beneficiary) elects.

Contributions

The Plan is funded by pre-tax and designated Roth participant contributions, not to exceed \$16,500 in 2010 (plus certain catch-up contributions for eligible participants), employee rollover contributions, and Employer matching contributions. Participant contributions cannot exceed 25% of total eligible employee compensation. Participant contributions made on a pre-tax basis qualify as a cash or deferred arrangement under Section 401(k) of the Internal Revenue Code (IRC).

The Employer matches 100% of participant contributions up to a maximum of 4% of eligible employee compensation deposited to the Plan during the year. Prior to 2009, the Employer matching contribution was made in Employer common stock through an ESOP feature. Effective January 1, 2009, the Employer adopted cash matching for employee contributions to the Plan. On the first pay period in May 2009, eligible employees received a true up matching contribution for pay periods from January 1, 2009 through April 30, 2009. Employer matching contributions beginning for the first pay period in May 2009 were made on or about the date of each pay period.

Participating employees elect to authorize the Employer to withhold amounts from their salary and deposit the amounts, in varying percentages, into various investment options offered by the Plan. As of December 31, 2010, the Plan offered thirteen mutual funds and one stable value fund, as well as Employer common stock, as investment options. Beginning in 2009, all Employer matching contributions are made in cash and are invested according to the participants' elections. Prior to 2009, all Employer matching contributions were invested in Employer stock through an ESOP. All participants are allowed to diversify 100% of their ESOP balances into other fund options at any time.

Participant pre-tax contributions and Employer matching contributions, and earnings thereon, are not subject to Federal income tax until the funds are disbursed from the Plan. Roth contributions are subject to Federal income tax when made to the Plan, but are not subject to taxation thereafter; earnings on Roth contributions are not subject to Federal income tax when distributed from the Plan if paid as part of a qualified distribution under the IRC.

All participant contributions, rollover contributions, and Employer matching contributions are fully vested at all times.

Notes Receivable from Participants

Provisions of the Plan allow participants to obtain loans based on their individual account balance. Personal loans are made for terms of twelve to sixty months at a rate of interest equal to the prime rate plus 1%. Loans to acquire a principal residence are made for terms up to 15 years. Interest earned on the loans is reinvested in the Plan. Interest rates on outstanding participant loans ranged from 4.25% to 10.50% as of December 31, 2010 and 2009.

Administrative Expenses

Administrative expenses for the Plan are paid by the Employer, except for brokerage commissions paid on Employer stock fund transactions, investment management fees, fees for certain specific types of transactions, and administrative participant fees through the Plan's fee sharing arrangement. Commissions paid on Employer stock fund transactions are reflected in the financial statements as either a reduction of participant contributions or reduction of

Edgar Filing: PROTECTIVE LIFE CORP - Form 11-K

Table of Contents

proceeds on sales. Investment management fees on collective trust funds for 2010 were \$29,389 and are reflected in the statement of changes in net assets available for benefits. Transaction fees paid by the Plan for 2010 were \$61,061, as reflected in the statement of changes in net assets available for benefits. These transaction fees are collected from the accounts of the individual participants for whom the specific transactions are executed. Beginning in 2010, the Plan implemented a fee sharing arrangement where plan participants share a portion of the administrative fees. Administrative participant fees paid by the Plan for 2010 were \$84,132, and are reflected in the statement of changes in net assets available for benefits. These fees are collected from participant accounts each quarter based on the participant's status.

4. INCOME TAX STATUS

The Plan received a favorable determination letter from the Internal Revenue Service (IRS) dated April 4, 2008, related to the Plan Document.

The Plan's administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and therefore, the Plan continues to qualify under Section 401(a) and continues to be tax-exempt as of December 31, 2010 and 2009. Therefore, no provision for income taxes is included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2010, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

5. TERMINATION PRIORITIES

In the event the Plan is terminated, the amount of each participant's account balance becomes fully vested and shall not thereafter be subject to forfeiture. Any asset not required to be distributed to participants will be returned to the Employer.

6. RISKS AND UNCERTAINTIES

Edgar Filing: PROTECTIVE LIFE CORP - Form 11-K

The Plan provides for various investment options in any combination of stocks, mutual funds, collective trust funds, and other investment securities. Generally, all investments are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investments and the level of uncertainty related to changes in the value of investments, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances, the amounts reported in the statements of net assets available for benefits, and the amounts reported in the statement of changes in net assets available for benefits.

7. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

8. FAIR VALUE MEASUREMENTS

The Fair Value Measurements and Disclosures Topic of the Codification provides a definition of fair value that focuses on an exit price rather than an entry price, establishes a framework for measuring fair value which emphasizes that fair value is a market-based measurement and not an entity-specific measurement, and requires expanded disclosures about fair value measurements. In accordance with the Fair Value Measurements and Disclosures Topic, the Plan may use valuation techniques consistent with the market, income, and cost approaches to measure fair value.

To increase consistency and comparability in fair value measurement and related disclosures, the Plan utilizes the fair value hierarchy required by the Fair Value Measurements and Disclosures Topic which prioritizes the inputs to valuation techniques used to measure fair value into three broad levels:

- Level 1 Quoted prices in active markets for identical debt and equity securities.

- Level 2 Prices determined using other significant observable inputs that other market participants would use in pricing a security, including quoted prices for similar securities.

- Level 3 Prices determined using significant unobservable inputs. Unobservable inputs reflect the Plan's own assumptions about the factors that other market participants would use in pricing an investment that would be based on the best information available in the circumstances.

There have been no changes in the valuation methodologies used at December 31, 2010 and 2009 to value the Plan's assets at fair value, a summary of which is as follows:

Mutual funds are valued at the Net Asset Value of shares held by the plan at year end.

The collective trust funds are valued at the unit value, which approximates fair value, as reported by the trustee of the collective trust fund on each valuation date. The fund does not, to the best of our knowledge, have any unfunded

Edgar Filing: PROTECTIVE LIFE CORP - Form 11-K

Table of Contents

commitments. It has daily liquidity with trades settling between one and three days and is fully benefit responsive to participant transactions at the measurement date.

The Protective Life Corporation common stock is valued based on the closing price of the common stock as quoted on the NASDAQ Global Select Market.

The valuation methodologies described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2010 and 2009:

2010	Level 1	Level 2	Level 3	Total

For the year ended December 31, 2010, there were no other transfers between Level 1 and Level 2.

9. RELATED PARTY TRANSACTIONS

The Plan allows for transactions with certain parties who may perform services or have fiduciary responsibilities to the Plan, including the Company. The Plan invests in shares of mutual funds or commingled trust funds managed by an affiliate of the trustee. The Plan invests in common stock of the Company and issues loans to participants, which are secured by the balances in the participants' accounts. During the year ended December 31, 2010, the Plan purchased 383,683 units of Protective Life Corporation Common Stock for \$11,173,905 and disposed of 527,288 units for \$11,744,129.
