projects and similar expressions. These forward-looking statements are based on information available to the Company as of the date of this Current Report. Current expectations, forecasts and assumptions involve a number of risks, uncertainties, and other factors that could cause actual results to differ materially from those anticipated by these forward-looking statements. In particular, the uncertainty in global economic conditions continues to pose a risk to the Company's operating and financial performance as consumers and businesses may defer purchases in response to tighter credit and negative financial news. Such risks and uncertainties also include, but are not limited to, the impact of the variable demand and the adverse pricing environment for disk drives, particularly in view of current business and economic conditions; dependence on the Company's ability to successfully qualify, manufacture and sell its disk drive products in increasing volumes on a cost-effective basis and with acceptable quality, particularly the new disk drive products with lower cost structures; the impact of competitive product announcements and possible excess industry supply with respect to particular disk drive products; the Company's ability to achieve projected cost savings in connection with restructuring plans; the risk that the previously announced transaction with Samsung Electronics Co., Ltd. (Samsung) will not be consummated and the risk that the Company will incur significant costs in connection with the transaction with Samsung; and significant disruption to the industry supply chain due to the severe flooding throughout parts of Thailand. Information concerning risks, uncertainties and other factors that could cause results to differ materially from those projected in the forward-looking statements is contained in the Company's Annual Report on Form 10-K as filed with the U.S. Securities and Exchange Commission on August 17, 2011, which statements are incorporated into this Current Report by reference.
