## Hawaii Electric Light Company, Inc. (HELCO) 2013 Test Year Rate Case

On August 16, 2012, HELCO filed a request with the Public Utilities Commission of the State of Hawaii (PUC) for a general rate increase of \$19.8 million, or 4.2% over the electric rates currently in effect, based on a 2013 test year. HELCO s electric rates currently in effect are rates as a result of HELCO s 2010 test year rate case. The proposed rate increase is required to cover expenses and additional investments to maintain and improve system reliability and to support the integration of more renewable energy generation.

The request is based on the following:

Return on average common equity (ROACE)	10.25%
Common equity capitalization (%)	57.05%
Return on average rate base (RORB)	8.30%
Average rate base amount	\$455 million

The PUC may grant an interim increase within 10 to 11 months following the filing of an application, but there is no guarantee of such an interim increase and interim amounts collected are subject to refund with interest.
