Item 3.02 Unregistered Sales of Equity Securities.

On June 19, 2007 and June 20, 2007, AtheroGenics, Inc. (the "Company") agreed with certain existing holders (the "Holders") of its Convertible Notes due 2008 (the "Outstanding Notes") to exchange \$38,000,000 in aggregate principal amount of Outstanding Notes beneficially owned by the Holders for \$60,410,000 of 4½% Convertible Notes due 2011 (the "New Notes"). The Company currently expects to issue the New Notes not more than two business days following the later of (i) the date on which the Form T-3 relating to the indenture under which the New Notes will be issued (the "Indenture") is declared effective by the Securities and Exchange Commission and (ii) the date on which the Holders have delivered their Outstanding Notes for exchange.

As the New Notes are to be exchanged by the Company with certain existing noteholders exclusively and solely for Outstanding Notes, the transaction will be exempt from registration under the Securities Act of 1933, as amended, pursuant to the provisions of Section 3(a)(9) thereof. No sales of securities of the same class as the New Notes have been or are to be made by the Company by or through an underwriter at or about the same time as the exchange for which the exemption is claimed. No consideration has been, or is to be, given, directly or indirectly, to any person in connection with the transaction, except for payments by the Company of the fees and expenses of its legal advisors and the trustee under the Indenture under which the New Notes will be issued. No Holder has made or will be requested to make any cash payment to the Company in connection with the exchange, and the Company will not receive any proceeds from the issuance of the New Notes.

The terms of the New Notes are substantially similar to the Outstanding Notes, except that the New Notes will mature in March 2011 as opposed to September 2008. Like the Outstanding Notes, the New Notes are convertible into shares of the Company's common stock ("Shares") at any time prior to the close of business on the final maturity date, subject to the Company's right to redeem the New Notes prior to their maturity. The initial conversion rate for the New Notes is 65.1890 Shares per \$1,000 principal amount of New Notes. The conversion rate is subject to adjustment in the event of certain transactions, including the payment of stock dividends, subdivision or combination of the Shares, extraordinary distributions to holders of the Shares and certain tender offers for the Company's Shares. The conversion rate may also be increased at the discretion of the Company's board of directors.
