GENERAL INFORMATION

Notice of Electronic Availability of Proxy Statement and Annual Report

As permitted by rules adopted by the United States Securities and Exchange Commission (sometimes referred to as the SEC), Applied Energetics is making this proxy statement and its annual report available to its stockholders electronically via the Internet. On August 3, 2009, we mailed to our stockholders a notice containing instructions on how to access this proxy statement and our annual report and vote online. If you received a notice by mail, you will not receive a printed copy of the proxy materials in the mail. The notice instructs you on how to access and review all of the important information contained in the proxy statement and annual report. The notice also instructs you on how you may submit your proxy over the Internet. If you received a Notice by mail and would like to receive a printed copy of our proxy materials, you should follow the instructions for requesting such materials included in the notice.

Questions and Answers About The Proposals to be Voted Upon and The Voting Procedures

Q. What am I voting on?

A. You are being asked to vote on the proposal to elect two Class II directors (James M. Feigley and George P. Farley) to serve as such commencing immediately following our 2009 annual meeting and until our annual meeting of stockholders in 2012.

In addition, you may be asked to consider and vote upon other matters that may properly come before the annual meeting, including approval of any adjournment or postponement of the meeting

Q. Who is entitled to vote at the annual meeting?

A. Common stockholders of record as of the close of business on July 21, 2009, the record date, are entitled to vote on each of the proposals at the annual meeting. Each share of common stock entitles the holder thereof to cast one vote per each share held by such stockholder on the record date with respect to each proposal.

Q. How do I vote?

A. Stockholders can vote in person at the annual meeting or by proxy. There are three ways to vote by proxy:

- By telephone — You can vote by telephone by calling 1-800-690-6903 and following the instructions on the proxy card;
- By Internet — You can vote over the Internet at www.proxyvote.com by following the instructions on the proxy card;
or
- By mail — If you received your proxy materials by mail, you can vote by mail by signing, dating and mailing the enclosed proxy card.

Telephone and Internet voting facilities for stockholders of record will be available 24 hours a day and will close at 11:59 p.m. (EDT) on September 16, 2009.

If your shares are held in the name of a bank, broker or other holder of record, you will receive instructions from the holder of record. You must follow the instructions of the holder of record in order for your shares to be voted. Telephone and Internet voting also will be offered to stockholders owning shares through certain banks and

brokers. If your shares are not registered in your own name and you plan to vote your shares in person at the annual meeting, you should contract your broker or agent to obtain a legal proxy or broker's proxy card and bring it to the annual meeting in order to vote.

Q. How many I revoke or change my vote?

A. You have the right to revoke your proxy any time before the meeting by (a) notifying Applied Energetics' corporate secretary of your revocation or (b) returning a later-dated proxy. The last vote received chronologically will supersede any prior vote. You may also revoke your proxy by voting in person at the annual meeting. Attendance at the meeting, without voting at the meeting, will not in and of itself serve as a revocation of your proxy.

Q. What does it mean if I receive more than one notice or set of proxy materials.

A. It may mean that you are the registered holder of shares in more than one account. You may call our transfer agent, Continental Stock Transfer & Trust Company, at 212-509-4000, if you have any questions regarding the share information or your address appearing on the notice or proxy materials.

Q. Who will count the votes?

A. It is expected that either an employee of the Company or its counsel will tabulate the votes and act as the inspector of election.

Q. What constitutes a quorum?

A. A majority of the outstanding shares, present or represented by proxy, of Applied Energetics' common stock will constitute a quorum for the annual meeting. As of the record date, there were 86,127,037 shares of Applied Energetics common stock, \$.001 par value per share, issued and outstanding.

Q. How many votes are needed for Proposal I — the election of the two Class II directors?

A. Assuming a quorum is present, the two Class II directors will be elected by a plurality of the votes cast at the annual meeting, meaning the two nominees receiving the highest number of votes will be elected as directors. Only votes cast for a nominee will be counted, except that a properly executed proxy that does not specify a vote with respect to the nominees will be voted for the two nominees whose names are printed on the proxy card (James M. Feigley and George P. Farley). Because the vote on this proposal is determined by a plurality of the votes cast, neither abstentions nor broker non-votes (as described below) will have any effect on the election of directors.

Q. What happens if I abstain from voting?

A. If an executed proxy card is returned and the stockholder has explicitly abstained from voting on any proposal, the shares represented by the proxy will be considered present at the annual meeting for the purpose of determining a quorum. In addition, while they will not count as votes cast in favor of the proposal, they will count as votes cast on the proposal. As a result, other than with respect to the proposal to elect directors, which will be determined by a plurality of the votes cast, an abstention on a proposal will have the same effect as a vote against the proposal.

Q. What is a "broker nonvote"?

A. A "broker non-vote" occurs when a broker submits a proxy that does not indicate a vote for one or more of the proposals because the broker has not received instructions from the beneficial owner on how to vote on such proposals and does not have discretionary authority to vote in the absence of instructions. While broker non-votes will be counted for the purposes of determining whether a quorum exists at the annual meeting, they will not be considered to have voted on any of the proposals on which such instructions have been withheld. In the case of any proposal requiring a majority vote in favor of the proposal, they will have the same effect as a vote against the proposal.

Q. Who bears the cost of soliciting of proxies?

A. The entire cost of soliciting proxies, including the costs of preparing, assembling, printing and mailing the notice and, as applicable, this proxy statement, the proxy and any additional soliciting material furnished to stockholders, will be borne by us. In addition, arrangements will be made with brokerage houses and other custodians, nominees

and fiduciaries to send proxies and proxy materials to the beneficial owners of stock, and we may reimburse such persons for their expenses.

PROPOSAL I: ELECTION OF DIRECTORS

The Company's By-Laws provide that the Board of Directors of the Company is divided into three classes (Class I, Class II and Class III). At each Annual Meeting of Stockholders, directors constituting one class are elected for a three-year term. At this year's Annual Meeting of Stockholders, two (2) Class II directors will be elected to hold office for a term expiring at the Annual Meeting of Stockholders to be held in 2012. It is the intention of the Board of Directors to nominate General James M. Feigley and Mr. George P. Farley as Class II directors. Each director will be elected to serve until a successor is elected and qualified or until the director's earlier resignation or removal.

At this year's Annual Meeting of Stockholders, the proxies granted by stockholders will be voted individually for the election, as directors of the Company, of the persons listed below, unless a proxy specifies that it is not to be voted in favor of a nominee for director. In the event either or both of the nominees listed below shall be unable to serve, it is intended that the proxy will be voted for such other nominees as are designated by the Board of Directors. Each of the persons named below has indicated to the Board of Directors that he will be available to serve.

THE BOARD OF DIRECTORS RECOMMENDS THAT STOCKHOLDERS VOTE FOR THE ELECTION OF THE NOMINEES SPECIFIED BELOW.

Litigation

In July 2006, two class action complaints were filed by George Wood and Raymond Deedon against Applied Energetics, Inc. (formerly Ionatron, Inc.) and its founders. Each of the class actions was filed in the United States District Court for the District of Arizona and alleges, among other things, violations of Section 10(b) of the Securities Exchange Act of 1934 and Rule 10b-5, claiming that we issued false and misleading statements concerning the development of our counter-IED product. The court consolidated these cases, and a consolidated amended complaint was served. The action has been dismissed against Joseph C. Hayden and Stephen W. McCahon with prejudice, and is proceeding against us and the remaining defendants. In July 2009, we reached an agreement with the lead plaintiffs to settle the consolidated class action lawsuits.

Under the terms of the proposed settlement of the class action lawsuits, those lawsuits will be dismissed with prejudice, and Applied Energetics and all other defendants will receive a full and complete release of all claims asserted against them in the litigation, in exchange for the payment of an aggregate of \$5.3 million in cash and the issuance of previously unissued shares of common stock by Applied Energetics valued at \$1.2 million, provided that the number of shares of common stock to be issued will not exceed 4 million shares. There is no admission of liability by any of the defendants.

In September 2006, a derivative action was filed by John T. Johnasen in Arizona State Court, Pima County, against certain of our current and former officers and directors, alleging, among other things, breach of fiduciary duty. On April 30, 2008, the state court continued a stay of the derivative action until 30 days notice from either party or until further court order terminating the stay. In July 2009, we reached an agreement to settle the derivative action.

Under the terms of the proposed settlement of the derivative action, the lawsuit will be dismissed with prejudice, and all defendants will receive a full and complete release of all claims asserted against them in the litigation, in exchange for Applied Energetics' maintenance of certain corporate governance measures and the payment of an aggregate of \$225,000 of attorneys' fees. There is no admission of liability by any of the defendants.

Insurance proceeds of \$6.2 million, less amounts reimbursed to Applied Energetics to pay expenses of the litigations (approximately \$700,000 to date), will be used to fund the settlement payments and related costs. Any remaining cash payments and the stock issuance will be made by Applied Energetics.

The settlements are subject to Court approval. Motions for preliminary approval of the settlements, directing notice of the settlements and setting a date for a settlement fairness hearing are currently being filed.

As stated in the settlement documents, Applied Energetics denies any liability in connection with the litigation and denies the claims asserted by the plaintiffs in the complaints.

On June 29, 2009, Applied Energetics received notice from the American Arbitration Association that an arbitration demand was filed against it and its subsidiary North Star Power Engineering, Inc. (“NSPE”) by eScrub Systems, Inc. The claim asserts a breach of an October 27, 2003 License Agreement between eScrub and North Star Research Corporation (whose assets were acquired by NSPE) relating to certain power technology and seeks \$1,000,000 in damages. eScrub asserts that the agreement was improperly assigned to Applied Energetics and, alternatively, that Applied Energetics breached the agreement by failing to exploit the license. The claim also alleges misappropriation of trade secrets relating to technology that eScrub asserts is not a subject of the License Agreement. We intend to vigorously defend the claim.

In addition, we may from time to time be involved in legal proceedings arising from the normal course of business. As of the date of this report, we have not received notice of any other legal proceedings.

EXECUTIVE AND DIRECTOR COMPENSATION

COMPENSATION DISCUSSION AND ANALYSIS

Executive Compensation Philosophy

Our board of directors is committed to establishing and maintaining executive compensation practices designed to support the development of the company's capabilities and business objectives, enhance our profitability and enhance long-term stockholder value. Toward these aims, in March 2006, our board of directors established a compensation committee. This committee reports to the board on executive compensation matters.

Compensation Committee

Membership

The committee is currently comprised of three independent members of the Board. Director independence is, at a minimum, consistent with applicable rules for NASDAQ-traded issuers, Rule 16b-3 of the Exchange Act, and Section 162(m) of the Internal Revenue Code. Currently, the members of the committee are James K. Harlan (chairman), George P. Farley and Mark J. Lister. David Hurley was appointed to and served as chairman of the Compensation Committee from June, 2008 through November, 2008, a period of time when Mr. Harlan had recused himself from all compensation matters while he was an active candidate for representative to the United States Congress.

Process and procedures for considering and determining executive and director compensation.

Among other things, the committee has the authority and responsibility under its charter to:

- Approve our compensation philosophy.
- Formulate, evaluate, and approve compensation for our officers, as defined in Section 16 of the Securities and Exchange Act of 1934 and rules and regulations promulgated therein.
- Formulate, approve, and administer cash incentives and deferred compensation plans for executives. Cash incentive plans are based on specific performance objectives defined in advance of approving and administering the plan.
- Oversee and approve all compensation programs involving the issuance of our stock and other equity securities.
- Review executive supplementary benefits, as well as our retirement, benefit, and special compensation programs involving significant cost to us, as necessary and appropriate.
- Review compensation for terminated executives.
- Oversee funding for all executive compensation programs.
- Review compensation practices and trends of other companies to assess the adequacy of our executive compensation programs and policies.
 - Secure the services of external compensation consultants or other experts, as necessary and appropriate. These services, as required, will be paid from funds provided by the company. This system is designed to ensure the independence of such external advisors.
- Approve employment contracts, severance agreements, change in control provisions, and other compensatory arrangements with our executives.

Role of Chief Executive Officer in Recommending Executive Compensation.

The committee makes all compensation decisions related to our named executive officers. However, our Chief Executive Officer regularly provides information and recommendations to the committee on the performance of the executive officers, appropriate levels and components of compensation, including equity grants as well as other

information as the committee may request.

Compensation Goals

Our compensation policies are intended to achieve the following objectives:

- reward executives and employees for their contributions to our growth and profitability, recognize individual initiative, leadership, achievement, and other valuable contributions to our company.

-10-

- to link a portion of the compensation of officers and employees with the achievement of our overall performance goals, to ensure alignment with the our strategic direction and values, and to ensure that individual performance is directed towards the achievement of our collective goals;
- to enhance alignment of individual performance and contribution with long-term stockholder value and business objectives by providing equity awards;
- to motivate and provide incentives to our named executive officers and employees to continually contribute superior job performance throughout the year; and
- to obtain and retain the services of skilled employees and executives so that they will continue to contribute to and be a part of our long-term success.

Compensation programs and policies are reviewed and approved annually but could be adjusted more frequently if determined by the committee. Included in this process is establishing the goals and objectives by which employee and executive compensation is determined. Executive officers' performance is evaluated in light of these performance goals and objectives. The committee consults the Chief Executive Officer on the performance of other company executives.

Compensation Surveys and Compensation Consultants

In determining compensation levels, we review compensation levels of companies that we deem to be similar to our company regardless of their location, competitive factors to enable us to attract executives from other companies, and compensation levels that we deem appropriate to retain and motivate our executives. From time to time, we retain the services of independent compensation consultants to review a wide variety of factors relevant to executive compensation, trends in executive compensation, and the identification of relevant peer companies. The committee makes all determinations regarding the engagement, fees, and services of our compensation consultants, and our compensation consultants report directly to our committee.

Elements of Compensation

Compensation for our executives is generally comprised of:

- base salary which is targeted at a competitive level and used to reward superior individual job performance of each named executive officer and to encourage continued superior job performance;
- cash bonuses which are tied to specific, quantifiable and objective performance measures based on a combination of corporate and individual goals, and discretionary bonuses;
- equity compensation which is based on corporate and individual performance, and discretionary equity awards.
 - severance and change of control agreements;
 - other benefits plan and programs.

The principles which serve as the basis for executive compensation practices apply to the compensation structures for all employees. Namely, corporate and individual performance are the key factors which determine incentive compensation.

The committee considers each component of executive compensation in light of total compensation. In considering adjustments to the total compensation of each named executive officer, the committee also considers the value of previous compensation, including outstanding equity grants and equity ownership.

Compensation paid to executive officers must be approved by our board of directors or by the committee. The committee conducts several meetings in person or telephonically to review and consider our compensation program and policies, as well as specific elements of executive compensation.

Compensation Considerations

In setting compensation levels for a particular executive, the committee takes into consideration

- the proposed compensation package as a whole
- each element of compensation individually

- the executive's past and expected future contributions to our business
 - our overall company performance,
 - our financial condition and prospects,
 - the need to retain key employees, and
 - general economic conditions.

In order to enable the company to hire and retain talented executives, the committee may determine that it is in the best interests of the company to negotiate packages that may deviate from the company's standard practices in setting the compensation for certain of its executive officers when such deviation is required by competitive or other market forces.

Base Salary

Base salaries for the named executive officers and other executives are determined based on market data analysis of comparable positions in the identified compensation peer group. A competitive base salary is provided to each executive officer to recognize the skills and experience each individual brings to the company and the performance contributions they make. When determining the base salary for an executive, we reference a target of the base salaries of similar positions in the identified compensation peer group. Other factors are also taken into account such as internal comparisons, individual skills and experience, length of time with the company, performance contributions and competitiveness of the marketplace. Salaries are reviewed on an annual basis, taking into account the factors described above, and are made in connection with annual performance reviews. The amounts of such adjustments are calculated using merit increase guidelines based on the employee's position within the relevant compensation range and the results of his or her performance review. The recommended percentage increases are established annually and reflect the committee's assessment of appropriate salary adjustments based on competitive surveys and general economic conditions.

Pursuant to his employment agreement in August 2006, Mr. Marshall, our former Chairman, Chief Executive Officer and President received an annual base salary of established initially at \$250,000 with a provision for annual review of compensation. After a review of Mr. Marshall's performance and consideration of prevailing compensation levels for executive talent such as is required for the company, the committee increased Mr. Marshall's annual base salary to \$350,000, effective October 1, 2007. After considering the factors described above, the committee determined not to make any adjustments to Mr. Marshall's base salary during 2008.

In connection with his hiring and the negotiation of his compensation package in March 2006, Mr. Wallace, our Chief Financial Officer and Principal Accounting Officer, received an annual base salary of \$190,000. In February 2007, after the initial year of service and a review of compensation levels for the CFO of similarly sized public companies, the committee increased Mr. Wallace's annual base salary to \$210,000 effective February 1, 2007. On October 24, 2007, the board approved Mr. Wallace's employment agreement which increased Mr. Wallace's annual base salary to \$225,000. After considering the factors described above, the committee determined not to make any adjustments to Mr. Wallace's base salary during 2008. In April 2009, Mr. Wallace voluntarily agreed to reduce his annual base salary to \$200,000.

During the fourth quarter of 2007, the committee reviewed prevailing practices for compensation of professionals in similar functions as Mr. Hayden and Stephen McCahon, who as co-founders of our company have significant stock holdings. During 2006, Mr. Hayden, our Executive Vice-President and Mr. McCahon, our former Executive

Vice-President, each received an annual base salary of \$183,750. Effective December 3, 2007, the committee increased the annual base salaries of Messrs. McCahon and Hayden to \$235,000 and \$225,000, respectively. After considering the factors described above, the committee determined not to make any adjustments to either Mr. McCahon's or Mr. Hayden's base salaries during 2008. In April 2009, Mr. Hayden voluntarily agreed to reduce his annual base salary to \$200,000.

Other than the annual base salary for Mr. Marshall, the levels of annual base salary were determined based on the recommendation made by our former Chief Executive Officer and approved by the committee. Each individual's educational qualifications, leadership skills, demonstrated knowledge and business accomplishments were also evaluated in determining base salary levels. In light of prevailing economic conditions in August 2009, the committee accepted the voluntary reduction of salary for Messrs. Wallace and Hayden.

Cash Bonus

Our practice is to periodically consider awarding cash bonuses based upon, among other things, accomplishment of key objectives and overall performance. In addition, from time-to-time the committee may approve payment of bonuses to executives or key contributors for special accomplishment or other reasons. These goals may include progress made in technical programs and technology and product development, improved utilization of company resources and progress in relationships with key customers and strategic alliances and financing activities and the financial results of the company. Generally, the company does not disclose specific targets relating to these goals, because doing so may disclose confidential business information.

Although significant advances were made in LGE technology research and development, and customer relations and certain battle field products were delivered to our customer, the committee determined not to award cash bonuses for 2008.

Long-Term Incentives for Non-Executive Employees

The long-term program defined by the committee in 2007 remained unchanged in 2008, and includes three major elements: (1) an annual equity grant based on a percentage of base compensation for all employees other than officers, (2) performance incentive grants to selected managerial, technical, and administrative employees at all levels with vesting of a portion of these grants keyed to achievement of objectives defined in the annual budgeting and planning process and approved by the Board Committee, and (3) special grants for specific accomplishments or contributions as determined by the Board Committee. The first and second elements of this program lead to expected grants made during the fourth quarter as part of the budgeting and planning process, while the third element may lead to grants only from time to time, if at all. Generally, the restricted stock grants under the first two elements of this program vest over three years to provide for retention and long run commitment to the success of the company and the grants under the third element vest upon the earlier of the achievement of the performance objective or five years from grant.

In 2008, the committee determined that offering employees the right to exchange their existing options for new options was, at that time, a preferable means of providing long-term incentive compensation in lieu of stock-based compensation or cash bonuses at that time. In connection with the exchange offer, which was completed on March 9, 2009, employees were offered the right to exchange two existing options for one new option. In the exchange offer, the company issued 1,751,269 new options in exchange for 3,502,536 old options. The new options, which are fully vested, are exercisable at any time over a three year period. The exercise price of the new options is \$0.50 per share. There were no new equity grants made to non-executive employees in 2008, except for new hire grants made in the normal course of business.

The long term program, which remains in place for 2009, seeks to provide all employees with an equity interest in the company and its success. The opportunity to realize significant increments over base annual compensation if the company succeeds in building value for customers and stockholders is intended to support recruitment and retention of talented professionals who are sought by larger businesses. The use of restricted stock and option grants reflects the desire to provide greater equity incentives with reduced stockholder dilution while utilizing fewer shares from stockholder approved equity compensation plans that are subject to overall and annual limits. Our restricted stock grants typically vest over several years and the performance based grants subject to accelerated vesting when targets are met and revocation if performance targets are not reached within defined periods. Specific performance targets are defined in the planning and budgeting process and may include items that are company confidential and, in some cases, subject to classification or confidentiality restrictions imposed by our customers. The portion of equity compensation grants linked to performance has initially been set at a modest percentage, but this is intended to increase over time as the scope and predictability of the company's activities in various areas increase. The initial performance targets for this newly defined long term compensation program have a high probability of being

achieved. In future years, the portion and achievement likelihood for performance compensation may be adjusted with the growth, predictability, and maturity of the company's planning and budgeting process.

Long-Term Incentives for Executives

In 2008, the committee determined that offering employees the right to exchange their existing options for new options was, at that time, a preferable means of providing long-term incentive compensation to executives. In connection with the exchange offer, which was completed on March 9, 2009, employees were offered the right to exchange two existing options for one new option. In the exchange offer, the company issued 1,751,269 new options in exchange for 3,502,536 old options. The new options, which are fully vested, are exercisable at any time over a three year period. The exercise price of the new options is \$0.50 per share.

During 2008, the committee determined to grant stock options to Mr. Marshall to purchase 800,000 shares of common stock, but determined that such grant would be made in connection with the completion of the exchange offer. In connection with the exchange offer, Mr. Marshall and Mr. Wallace respectively exchanged the 200,000 and 420,000 options granted to them in exchange for 100,000 and 210,000 new options on the same terms and conditions as the other employees and directors participating in the exchange offer. Mr. Marshall held 800,000 non-plan options issued as an inducement to join the company in 2006, which were not eligible to participate in the exchange offer. On March 12, 2009, Mr. Marshall received an additional grant of 800,000 stock options having an exercise price of \$0.50 which vested as follows: 400,000 on March 9, 2009, (the date the new options were issued in the exchange offer), 200,000 on each of the first and second anniversaries of the grant date, and expiring on March 9, 2012. The purpose of the March 12, 2009 grant was to provide Mr. Marshall with a long-term incentive which more closely approximated the current market price of our common stock. Pursuant to the separation agreement entered into with Mr. Marshall on March 31, 2009, we accelerated the vesting of 137,500 unvested shares of restricted stock and unvested options to purchase 800,000 shares of common stock. Pursuant to the terms of the respective option agreements, the options expired unexercised on June 29, 2009.

Mr. McCahon and Mr. Hayden did not participate in the exchange offer as they did not have outstanding eligible options subject to the exchange offer. The committee determined not to make equity awards to these officers in 2008 since they have a substantial amount of equity.

No other long-term equity incentives were granted to Named Executive officers during 2008.

Severance and Change in Control Agreements

Pursuant to Mr. Marshall's employment agreement, as amended, if Mr. Marshall's employment is terminated by us without "cause", or by Mr. Marshall for "good reason", he would receive payment of his base salary and benefits for 12 months, in monthly installments. Additionally, following a change of control, all unvested stock options and restricted stock granted to Mr. Marshall will immediately vest and become exercisable for the full term of the option and all other unvested equity awards shall immediately vest. In negotiating these terms, the committee determined that it was in the best interest of the company, in light of the authority vested in the Board as a whole to determine the acceptability of any discussions or prospective transactions, to provide Mr. Marshall as CEO with incentives to support the development and completion of transactions that might lead to a change of control without concern for the impact of any such transaction to him relating to vesting of equity awards or cash compensation related to transition of employment that might occur following a change of control.

Pursuant to the separation agreement entered into with Mr. Marshall on March 31, 2009, we paid to Mr. Marshall a lump sum payment of \$135,000 and agreed to pay to Mr. Marshall twelve monthly payments of \$29,167. In addition, we accelerated the vesting of 137,500 unvested shares of restricted stock and unvested options to purchase 800,000 shares of common stock. Pursuant to the terms of the respective option agreements, they expired unexercised on June 29, 2009.

Pursuant to Mr. Wallace's employment agreement, if Mr. Wallace's employment is terminated by us without "cause", he would receive payment of his base salary and benefits for six months, in monthly installments. If Mr. Wallace is terminated within three months following a change of control, all unvested stock options granted to Mr. Wallace will immediately vest and become exercisable for the full term of the option and all other unvested equity awards shall immediately vest.

In connection with Mr. McCahon's resignation from the company, we entered into a confidentiality agreement with Mr. McCahon pursuant to which he agreed to provide business and financial services to us for an initial term of twelve months for a fee of \$18,750 per month.

Other Benefit Plans and Programs.

Executives are eligible to participate in benefit programs designed for all of our full-time employees. These programs include a 401(K) savings plan and medical, dental, disability and life insurance programs. We currently cover the majority of such medical, dental and insurance payments requiring a minor co-pay from the employee. Additionally, under our 401(K) plan employees are eligible to contribute to their 401(K) accounts through payroll deductions. In 2007, we implemented an employer match benefit where we matched 50% of the employees' 401(K) contribution up to 3% of their eligible compensation.

Pursuant to his employment agreement, during 2008 Mr. Marshall received \$39,411 related to payments of temporary living and automobile expenses. On March 12, 2009, Mr. Marshall's employment agreement was amended to provide Mr. Marshall with a life insurance policy with a benefit of up to \$3,000,000, provided that the annual premiums and other costs to the company under the policy do not exceed \$14,000. Mr. Marshall will also be provided with a tax gross up for the life insurance policy, his housing, travel and car allowance. Additionally, the company will pay Mr. Marshall's reasonable costs associated with relocation to the Tucson, Arizona area.

AUDIT COMMITTEE REPORT

The responsibilities of the audit committee are to assist the board of directors in fulfilling the board's oversight responsibilities with respect to (i) the integrity of the company's financial statements; (ii) the system of internal control over financial reporting; (iii) the performance, qualifications and independence of the company's independent registered public accounting firm; (iv) the company's internal audit function and (v) compliance with the company's ethics and applicable legal and regulatory requirements. The committee fulfills its responsibilities through periodic meetings with our independent registered public accounting firm, internal auditors and members of our management.

Throughout the year the audit committee monitors matters related to the independence of BDO Seidman LLP, our independent registered public accounting firm. As part of its monitoring activities, the committee obtained a letter from BDO Seidman, containing a description of all relationships between us and BDO Seidman. After reviewing the letter and discussion it with management, the audit committee discussed with BDO Seidman's objectivity and independence. Based on its continued monitoring activities and year-end review, the committee has satisfied itself as to BDO Seidman's independence. BDO Seidman also has confirmed in its letter that, in its professional judgment, it is independent of the company within the meaning of the Federal securities laws and within the requirements of Rule 3526 of the Public Company Accounting Oversight Board, "Communication with Audit Committees Concerning Independence."

The audit committee also discussed with members of our management, our internal auditors and our independent registered public accounting firm, the quality and adequacy of our internal controls and the internal audit function's management, organization, responsibilities, budget and staffing. The audit committee discussed and reviewed with the independent registered public accounting firm all matters required by auditing standards generally accepted in the United States, including those described in SAS 114, "The Auditor's Communication with Those Charged with Governance," as adopted by the Public Company Accounting Oversight Board. With and without management present, the committee discussed and reviewed the results of the independent registered public accounting firm's examination of the financial statements. The committee also discussed the results of the internal audit examinations.

The committee reviewed and discussed our audited financial statements as of and for the fiscal year ended December 31, 2008 with our management and BDO Seidman. Management has the responsibility for the preparation and integrity of our financial statements and BDO Seidman, as our independent registered public accounting firm, has the responsibility for the examination of those statements. Based on the above-mentioned review and discussions with management and BDO Seidman, the audit committee recommended to our board of directors that our audited financial statements be included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2008 for filing with the Securities and Exchange Commission. The Committee also reappointed BDO Seidman as our independent registered public accounting firm.
