PROPOSAL 1

APPROVAL OF AN AMENDMENT TO THE COMPANY'S AMENDED AND RESTATED CERTIFICATE OF INCORPORATION TO EFFECTUATE THE REVERSE STOCK SPLIT

Overview

The Board of Directors has approved, and is hereby soliciting stockholder approval of, an amendment to the Company's Amended and Restated Certificate of Incorporation in the form set forth in APPENDIX A to this proxy statement (the "Reverse Stock Split Amendment") to effect a reverse split of our issued and outstanding shares of Common Stock at a ratio of between 1-for-20 and 1-for-30, inclusive, which ratio will be selected at the sole discretion of the Board of Directors at any whole number in such range, with any fractional shares that would otherwise be issuable as a result of the Reverse Stock Split being rounded up to the nearest whole share.

A vote "**FOR**" this proposal will constitute approval of the Reverse Stock Split Amendment providing for the combination of between twenty (20) and thirty (30) shares of Common Stock, inclusive, as determined in the sole discretion of the Board of Directors, into one (1) share of Common Stock. If our stockholders approve this proposal, the Board of Directors will have the authority, but not the obligation, in its sole discretion and without further action on the part of our stockholders, to select the Reverse Stock Split ratio in the range above and implement the Reverse Stock Split by filing the Reverse Stock Split Amendment with the Secretary of State of the State of Delaware at any time after the approval of the Reverse Stock Split Amendment.

Except for any changes as a result of the treatment of fractional shares, each stockholder will hold the same percentage of Common Stock outstanding immediately following the Reverse Stock Split as such stockholder held immediately prior to the Reverse Stock Split.

In determining the Reverse Stock Split ratio, if any, following receipt of stockholder approval of this proposal, the Board of Directors may consider, among other things, various factors such as:

- the historical trading price and trading volume of the Common Stock;

the then prevailing trading price and trading volume of the Common Stock and the expected impact of the Reverse Stock Split on the trading market for the Common Stock;

the number of shares of our Common Stock outstanding;

the minimum price per share requirements of The NASDAQ Capital Market;

which Reverse Stock Split ratio would result in the least administrative cost to us; and

prevailing general market and economic conditions.

The Reverse Stock Split will not change the number of authorized shares of Common Stock or Preferred Stock as designated by our Amended and Restated Certificate of Incorporation. Therefore, because the number of issued and outstanding shares of Common Stock will decrease, the number of shares of Common Stock remaining available for future issuance will increase.

If our stockholders approve the Reverse Stock Split, it is expected that the Reverse Stock Split will be implemented promptly. However, the Board of Directors reserves the right, notwithstanding stockholder approval of this proposal and without further action by the stockholders, to elect not to proceed with the Reverse Stock Split if, at any time the Board of Directors, in its sole discretion, determines that it is no longer in our best interest and the best interests of the stockholders to proceed with the Reverse Stock Split.

Purpose of the Reverse Stock Split Amendment

The purpose of the Reverse Stock Split is to decrease the total number of shares of our Common Stock outstanding and thereby potentially increasing the market price of our Common Stock. Our Common Stock currently trades on The NASDAQ Capital Market under the symbol “NETE,” and we are required to continually meet the listing requirements of The NASDAQ Capital Market (including a minimum bid price for our Common Stock of \$1.00 per share) to maintain the listing of our Common Stock on The NASDAQ Capital Market.

On June 19, 2015, we received a deficiency letter from NASDAQ indicating that for 30 consecutive trading days, our Common Stock had a closing bid price below the \$1.00 per share minimum. In accordance with NASDAQ Listing Rules, we were provided a compliance period of 180 calendar days, or until December 16, 2015, to regain compliance with this requirement. We can regain compliance with the minimum closing bid price requirement if the bid price of our Common Stock closes at \$1.00 per share or higher for a minimum of 10 consecutive business days. If we do not regain compliance with the minimum closing bid price requirement during the initial 180-day compliance period, we may be eligible for an additional 180-day compliance period, provided that we meet the continued listing requirement for market value of publicly held shares and all other initial listing standards, with the exception of the bid price requirement, and we notify The NASDAQ Capital Market staff of our intention to cure the deficiency during the additional compliance period. If we do not regain compliance with the minimum closing bid price requirement by December 16, 2015 and are not eligible for an additional compliance period at that time, The NASDAQ Capital Market will provide written notice that our securities are subject to delisting. At such time, we would be entitled to appeal the delisting determination to a NASDAQ Listing Qualifications Panel.

The Board of Directors has considered the potential harm to us and our stockholders should NASDAQ delist our Common Stock on The NASDAQ Capital Market. If our Common Stock is delisted, it could be more difficult to buy or sell our Common Stock and to obtain accurate quotations, and the price of our stock could suffer a material decline. Delisting would constitute an event of default under the Company’s senior convertible notes (the “Notes”), and we could be required to redeem all or a portion of the Notes. In addition, the threat of delisting as stated in the deficiency letter, if not cured or waived, would constitute a failure to satisfy an equity condition under the Notes and under the Certificate of Designations, resulting in the Company’s inability to pay (a) the interest under the Notes and/or the dividends with respect to the Preferred Stock and (b) the installments of the principal amounts of the Notes and of the Preferred Stock in our Common Stock. Delisting may also impair our ability to raise capital, which would have a negative effect on our business plans and operations.

IF OUR STOCKHOLDERS DO NOT APPROVE THIS PROPOSAL 1, WE WOULD LIKELY BE DELISTED FROM THE NASDAQ CAPITAL MARKET DUE TO OUR FAILURE TO MAINTAIN A MINIMUM BID PRICE FOR OUR COMMON STOCK OF \$1.00 PER SHARE AS REQUIRED BY THE APPLICABLE NASDAQ RULES.

Impact of the Reverse Stock Split Amendment if Implemented

If approved and implemented, the Reverse Stock Split will be realized simultaneously and in the same ratio for all of our issued and outstanding shares of Common Stock. Any fractional shares that would otherwise be issuable as a result of the Reverse Stock Split will be rounded up to the nearest whole share. The Reverse Stock Split will affect all stockholders uniformly and will not affect any stockholder's percentage ownership interest in the Company (subject to the treatment of fractional shares). In addition, the Reverse Stock Split will not affect any stockholder's proportionate voting power (subject to the treatment of fractional shares).

Stockholders should also recognize that once the Reverse Stock Split is effected, they will own fewer number of shares than they owned prior to the Reverse Stock Split (a number equal to the quotient of the number of shares owned immediately before the Reverse Stock Split divided by, for example, 20, assuming a ratio of 1-for-20).

Our authorized capital stock currently consists of 300,000,000 shares of Common Stock and 1,000,000 shares of Preferred Stock. If the Reverse Stock Split is implemented, the number of authorized shares of Common Stock would remain at 300,000,000 shares, thereby effectively increasing the number of shares of Common Stock available for future issuance. In addition, the total number of authorized shares of Preferred Stock would remain at 1,000,000 shares. The conversion ratio of our issued outstanding shares of Preferred Stock will adjust proportionately with the ratio of the Reverse Stock Split.

The principal effects of the Reverse Stock Split Amendment will be as follows:

each twenty (20) to thirty (30) shares of Common Stock, inclusive, as determined in the sole discretion of the Board of Directors, owned by a stockholder, will be combined into one new share of Common Stock, with any fractional shares that would otherwise be issuable as a result of the split being rounded up to the nearest whole share;

the number of shares of Common Stock issued and outstanding will be reduced;

proportionate adjustments will be made to the per share exercise prices and/or the number of shares issuable upon exercise or conversion of outstanding options, warrants, and any other convertible or exchangeable securities (including the Notes and Preferred Stock) entitling the holders to purchase, exchange for, or convert into, shares of Common Stock, which will result in approximately the same aggregate price being required to be paid for such securities upon exercise or conversion as had been payable immediately preceding the Reverse Stock Split;

the number of shares reserved for issuance or under the securities described immediately above will be reduced proportionately; and

the number of shares of Common Stock available for future issuance will increase accordingly.

Certain Risks Associated with the Reverse Stock Split

Certain risks associated with the Reverse Stock Split are as follows:

There can be no assurance that we can regain compliance with the minimum closing bid price requirements of NASDAQ for our Common Stock, and there can be no assurance that we will continue to meet the other listing requirements of The NASDAQ Capital Market.

If the Reverse Stock Split is approved and implemented and the market price of our Common Stock declines, the percentage decline may be greater than would occur in the absence of the Reverse Stock Split.

There can be no assurance that the Reverse Stock Split will increase the per share price for our Common Stock. While we expect that the Reverse Stock Split will result in an increase in the per share price of our Common Stock, the Reverse Stock Split may not increase the per share price of our Common Stock in proportion to the reduction in the number of shares of our Common Stock outstanding. It also may not result in a permanent increase in the per share price, which depends on many factors, including our performance, prospects and other factors that may be unrelated to the number of shares outstanding.

We will have fewer shares that are publicly traded. As a result, the trading liquidity of our Common Stock may decline. Accordingly, the total market capitalization of our Common Stock after the may be lower than the total market capitalization before the Reverse Stock Split. Moreover, in the future, the market price of our Common Stock following the Reverse Stock Split may not exceed or remain higher than the market price prior to the Reverse Stock Split.

The Reverse Stock Split may result in some stockholders owning “odd lots” of less than 100 shares of Common Stock. · Odd lot shares may be more difficult to sell, and brokerage commissions and other costs of transactions in odd lots are generally somewhat higher than the costs of transactions in “round lots” of even multiples of 100 shares.

The number of shares of Common Stock available for future issuance will effectively be increased, which potentially allows us to raise additional capital in the future through the issuance and sale of equity securities from time to time, as the Board of Directors may deem advisable. The issuance in the future of such additional authorized shares may have the effect of diluting the earnings or loss per share and book value per share, as well as the ownership and · voting rights of the holders of our then-outstanding shares of capital stock. In addition, an increase in the number of authorized but unissued shares of our Common Stock may have a potential anti-takeover effect, as our ability to issue additional shares could be used to thwart persons, or otherwise dilute the stock ownership of stockholders, seeking to control us. The Reverse Stock Split is not being recommended by the Board of Directors as part of an anti-takeover strategy.

Effective Time

If approved and implemented, the Reverse Stock Split would become effective on the date specified in the Reverse Stock Split Amendment filed with the office of the Secretary of State of the State of Delaware (the “Effective Time”). Except as explained below with respect to fractional shares, at the Effective Time, shares of our Common Stock issued and outstanding immediately prior thereto will be combined, automatically and without any action on the part of our stockholders, into one share of our Common Stock in accordance with the Reverse Stock Split ratio of between 1-for-20 and 1-for-30, inclusive.

After the Effective Time, our Common Stock will have a new Committee on Uniform Securities Identification Procedures (“CUSIP”) number, which is a number used to identify our equity securities, and stock certificates with the old CUSIP numbers will need to be exchanged for stock certificates with the new CUSIP numbers by following the procedures described below.

After the Effective Time, we will continue to be subject to periodic reporting and other requirements of the Securities Exchange Act of 1934, as amended (the “Exchange Act”). Unless our Common Stock is delisted by NASDAQ because of our failure to comply with the \$1.00 minimum bid price requirement, our Common Stock will continue to be listed on The NASDAQ Capital Market under the symbol “NETE,” although NASDAQ will add the letter “D” to the end of the trading symbol for a period of 20 trading days after the Effective Time to indicate that the Reverse Stock Split has occurred.

Board Discretion to Implement the Reverse Stock Split Amendment

If stockholder approval is obtained for the Reverse Stock Split Amendment to effect the Reserve Stock Split, the Board expects to select an appropriate ratio and implement the Reverse Stock Split promptly. However, the Board reserves the authority to decide, in its sole discretion, to delay or abandon the Reverse Stock Split after such vote and before the effectiveness of the Reverse Stock Split if it determines that the Reverse Stock Split is no longer in the best interests of the Company and the stockholders.

Fractional Shares

Our stockholders will not receive fractional post-Reverse Stock Split shares in connection with the Reverse Stock Split. Instead, any fractional shares that would otherwise be issuable as a result of the Reverse Stock Split will be rounded up to the nearest whole share.

No Going-Private Transaction

Notwithstanding the decrease in the number of outstanding shares following the proposed Reverse Stock Split, the Board of Directors does not intend for the Reverse Stock Split to be the first step in a “going-private transaction” within the meaning of Rule 13e-3 of the Exchange Act. In fact, since all fractional shares of Common Stock resulting from the Reverse Stock Split will be rounded up to the nearest whole share, there will be no reduction in the number of stockholders of record that could provide the basis for a going-private transaction.

Effect on Beneficial Holders of Common Stock (i.e., Stockholders Who Hold In “Street Name”)

Upon the Reverse Stock Split, we intend to treat shares held by stockholders in “street name,” through a bank, broker or other nominee, in the same manner as registered stockholders whose shares are registered in their names. Banks, brokers or other nominees will be instructed to effect the Reverse Stock Split for their beneficial holders holding our Common Stock in “street name.” However, these banks, brokers or other nominees may have different procedures than registered stockholders for processing the Reverse Stock Split. If a stockholder holds shares of our Common Stock with a bank, broker or other nominee and has any questions in this regard, stockholders are encouraged to contact their bank, broker or other nominee.

Effect on Registered “Book-Entry” Holders of Common Stock

Certain of our registered holders of Common Stock may hold some or all of their shares electronically in book-entry form with the transfer agent. These stockholders do not have stock certificates evidencing their ownership of the Common Stock. They are, however, provided with a statement reflecting the number of shares registered in their accounts.

If a stockholder holds registered shares in book-entry form with the transfer agent, no action needs to be taken to receive post-Reverse Stock Split shares. If a stockholder is entitled to post-Reverse Stock Split shares, a transaction statement will automatically be sent to the stockholder’s address of record indicating the number of shares of Common Stock held following the Reverse Stock Split.

Effect on Certificated Shares

Some of our registered stockholders hold all their shares in certificate form or a combination of certificate and book-entry form. If any of your shares are held in certificate form before the Effective Time (the “Old Certificates”), you do not need to take any action to exchange your Old Certificates unless you want to make a sale or transfer of stock. After the Effective Time, upon request, we will issue new certificates (the “New Certificates”) to anyone who holds Old Certificates in exchange therefor. Any request for New Certificates into a name different from that of the registered holder will be subject to normal stock transfer requirements and fees, including proper endorsement and signature guarantee, if required.

No New Certificates will be issued to a stockholder until the stockholder has surrendered all Old Certificates to the transfer agent. Stockholders will then receive one or more New Certificates representing the number of whole shares of Common Stock to which they are entitled as a result of the Reverse Stock Split. Until surrendered, we will deem outstanding Old Certificates held by stockholders to be cancelled and only to represent the number of whole shares of post-Reverse Stock Split Common Stock to which these stockholders are entitled.

Any Old Certificates submitted for exchange, whether because of a sale, transfer or other disposition of stock, will automatically be exchanged for New Certificates. If an Old Certificate has one or more restrictive legends on the back of the Old Certificate, the New Certificate will be issued with the same restrictive legends that are on the back of the Old Certificate.

STOCKHOLDERS SHOULD NOT DESTROY ANY STOCK CERTIFICATE AND SHOULD NOT SUBMIT ANY STOCK CERTIFICATE UNTIL REQUESTED TO DO SO.

Accounting Matters

The Reverse Stock Split will not affect the par value of a share of our Common Stock. As a result, as of the Effective Time, the stated capital attributable to Common Stock on our balance sheet will be reduced proportionately based on the Reverse Stock Split, and the additional paid-in capital account will be credited with the amount by which the stated capital is reduced. Reported per share net income or loss will be higher because there will be fewer shares of Common Stock outstanding. In the Company’s future financial statements, per share net income or loss and other per share amounts for periods ending before the Reverse Stock Split would be recast to give retroactive effect to the Reverse Stock Split.

Material United States Federal Income Tax Considerations

The following is a discussion of certain material U.S. federal income tax consequences of the Reverse Stock Split to U.S. holders (as defined below). This discussion is included for general information purposes only and does not purport to address all aspects of U.S. federal income tax law that may be relevant to U.S. holders in light of their particular circumstances. This discussion is based on the Internal Revenue Code of 1986, as amended (the “Code”), and current Treasury regulations, administrative rulings and court decisions, all of which are effective as of the date hereof and subject to change, possibly on a retroactive basis. Any such change could affect the continuing validity of this discussion. There can be no assurances that the Internal Revenue Service (“IRS”) will not challenge one or more of the tax consequences described herein, and we have not obtained, nor do we intend to obtain, a ruling from the IRS, or an opinion from counsel, with respect to the U.S. federal income tax consequences of the Reverse Stock Split.

ALL STOCKHOLDERS, IN PARTICULAR THOSE THAT ARE NON-U.S. HOLDERS, ARE URGED TO CONSULT THEIR TAX ADVISORS AS TO THE PARTICULAR U.S. FEDERAL, STATE, LOCAL, AND FOREIGN INCOME AND OTHER TAX CONSEQUENCES TO THEM OF THE REVERSE STOCK SPLIT.

This discussion generally applies only to beneficial owners of shares of Common Stock that are held as “capital assets,” as such term is defined in Code Section 1221 (*i.e.*, generally for investment). This discussion does not address tax consequences to stockholders that are subject to special tax rules, such as banks, insurance companies, regulated investment companies, real estate investment trusts, personal holding companies, U.S. holders whose functional currency is not the U.S. dollar, partnerships (or other flow-through entities for U.S. federal income purposes and their partners or members), persons who acquired their shares in connection with employment or other performance of services, broker-dealers, foreign entities, nonresident alien individuals, U.S. expatriates, tax-exempt entities, dealers in securities, traders in securities who elect to use a mark-to-market method of accounting, and banks.

If a partnership (or other flow-through entity) is a beneficial owner of shares of our Common Stock, then the tax treatment of a partner (or equity holder of such flow-through entity) will generally depend upon the status of such partner (or equity holder) and the activities of the partnership (or flow-through entity). A beneficial owner of our shares of Common Stock that is a partnership (or other flow-through entity) and the partners (or equity holders) of such partnership (or other flow-through entity) are urged to consult with their own tax advisors regarding the tax consequences discussed herein.

As used herein, the term “U.S. holder” means a beneficial owner of shares of Common Stock that is, for U.S. federal income tax purposes:

an individual citizen or resident of the United States;

a corporation or other entity taxed as a corporation created or organized in or under the laws of the United States or any State or political subdivision thereof;

an estate the income of which is subject to U.S. federal income tax regardless of its source; or

a trust (A) if a U.S. court is able to exercise primary supervision over the administration of the trust and one or more “U.S. persons” (as defined in the Code) have the authority to control all substantial decisions of the trust or (B) that has a valid election in effect to be treated as a U.S. person.

Pursuant to the Reverse Stock Split, each holder of our Common Stock outstanding immediately before the effectiveness of the Reverse Stock Split will become the holder of fewer shares of our Common Stock after consummation of the Reverse Stock Split.

The Reverse Stock Split should be treated as a recapitalization for U.S. federal income tax purposes. Therefore, other than with respect to any stockholder that receives one whole share for each fractional share (as described below), a stockholder generally will not recognize gain or loss by reason of such stockholder's receipt of post-Reverse Stock Split shares pursuant to the Reverse Stock Split solely in exchange for pre-Reverse Stock Split shares held by such stockholder immediately before the Reverse Stock Split. Subject to the following discussion regarding a stockholder's receipt of a whole post-Reverse Stock Split share in exchange for a fractional share, a stockholder's aggregate tax basis in the post-Reverse Stock Split shares received pursuant to the Reverse Stock Split will equal the stockholder's aggregate basis in pre-Reverse Stock Split shares exchanged therefor (excluding any portion of the holder's basis allocated to fractional pre-Reverse Stock Split shares) and will be allocated among the post-Reverse Stock Split shares received in the Reverse Stock Split on a pro-rata basis.

A stockholder may recognize gain or loss from the disposition of a fractional pre-Reverse Stock Split share in exchange for a whole post-Reverse Stock Split share, which may affect such stockholder's adjusted basis and holding period in such whole share received. The treatment of the exchange of a fractional share for a whole share in the Reverse Stock Split is not clear. We intend to treat the issuance to a stockholder of a whole share in exchange for a fractional share as a nontaxable event, but there can be no assurance that the Internal Revenue Service would not contend, or that a court would not find, that a stockholder should recognize gain or loss on its receipt of a whole share in exchange for a fractional share. If you are a stockholder who receives a whole post-Reverse Stock Split share pursuant to the Reverse Stock Split solely in exchange for a fractional pre-Reverse Stock Split share, you should consult your tax advisor regarding the tax consequences of the Reverse Stock Split. To the extent gain or loss is recognized, such gain or loss will equal the difference between (i) the portion of the tax basis of the pre-Reverse Stock Split shares allocated to the fractional share, and (ii) the fair market value of the post-Reverse Stock Split whole share received in exchange for such fractional share. Any such gain or loss will be a capital gain or loss and will be short-term if the pre-split shares were held for one year or less, and long-term if held for more than one year. Stockholders who have used the specific identification method to identify their basis in the pre-Reverse Stock Split shares held immediately before the Reverse Stock Split should consult their own tax advisors to determine their basis in the post-Reverse Stock Split shares received in exchange therefor in the Reverse Stock Split.

Subject to the discussion above regarding a stockholder's receipt of a whole post-Reverse Stock Split share in exchange for a pre-Reverse Stock Split fractional share, a stockholder's holding period in the post-Reverse Stock Split shares received pursuant to the Reverse Stock Split will generally include the stockholder's holding period in the pre-Reverse Stock Split shares surrendered in exchange therefor, provided the pre-Reverse Stock Split shares surrendered are held as capital assets at the time of the Reverse Stock Split.

Required Vote of Stockholders

Approval of this Proposal 1 requires the affirmative vote of a majority of our capital stock represented and entitled to vote at the Special Meeting. Abstentions and broker non-votes will have no effect on the outcome of this Proposal 1. Unless instructions to the contrary are specified in a properly executed and returned proxy, the proxy holders will vote

the proxies received by them **“FOR”** this Proposal 1.

The Board recommends a vote “FOR” the proposal to approve an amendment to the Company’s Amended and Restated Certificate of Incorporation to effectuate the Reverse Stock Split.

PROPOSAL 2

APPROVAL OF THE ISSUANCE OF COMMON STOCK TO CERTAIN DIRECTORS AND OFFICERS OF THE COMPANY PURSUANT TO THE LETTER AGREEMENT, INCLUDING UPON EXERCISE OF CERTAIN OPTIONS

Overview

On September 11, 2015, the Company entered into the Letter Agreement with certain accredited investors, including certain of the Company's directors and officers, providing for the issuance by the Company to the Investors of 11,357,143 restricted shares of Common Stock in the aggregate (the "Restricted Shares") and options to purchase 11,357,143 restricted shares of Common Stock, (the "Restricted Options"). Such investors include, among others, Steven Wolberg, Chief Legal Officer & Secretary of the Company; William Healy, a director of the Company; Kenges Rakishev, a director of the Company; and Star Equities LLC, which Oleg Firer, Chief Executive Officer and a director of the Company, is a managing member of Star Equities LLC (together, the "Company Investors").

On October 7, 2015, the Company Investors entered into separate Additional Letter Agreement with the Company (the "Additional Letter Agreement") pursuant to which the Company Investors agreed that the Restricted Shares would not be issued to the Company Investors until either (a) the approval by the Company's stockholders, in accordance with NASDAQ Listing Rule 5635 within 120 days from the date of the Additional Letter Agreement, and, (b) in the event that such stockholders approval is not obtained within such 120 days, either (at each Company Investor's option) (i) the Restricted Shares per share purchase price will be deemed to be \$0.20, in which case the Company Investor will have paid to the Company the difference between the previously paid purchase price for such Company Investor's portion of the Restricted Stock or (ii) the number of Restricted Shares issuable to such Company Investor will have been adjusted to reflect \$0.20 per share price.

The Restricted Options were amended and restated as of September 11, 2015 to provide that the option cannot be exercised, and the Company will not issue shares of Common Stock in connection with any such exercise, until and unless (i) the Company's stockholders shall have approved the issuance of shares of common stock in connection with any such exercise or (ii) The NASDAQ has provided a waiver of Listing Rule 5635 (the "Amended Restricted Options").

Each Amended Restricted Option will expire on the fifth (5th) annual anniversary of the date of the Letter Agreement and shall be exercisable (prior to its expiration) into one (1) Restricted Share at the exercise price equal 110% of the closing trading price per one (1) share of Common Stock reported on The NASDAQ Capital Market on the date of the

Letter Agreement. Each Investor may elect to exercise it or his Amended Restricted Option through a cashless exercise, in which case such Investor would receive upon such exercise the “net number” of shares of Common Stock determined according to the formula set forth in such Investor’s Restricted Option. The Board of Directors reserved 11,357,143 shares of authorized but unissued Common Stock for the issuance in connection with the exercise of the Restricted Options.

The Restricted Shares and the Amended Restricted Options, including the shares of Common Stock issuable upon exercise of the Amended Restricted Options, were issued to the Investors in reliance upon the exemption from registration afforded by Section 4(a)(2) of the Securities Act of 1933, as amended (the “Act”). All of the Restricted Shares and Amended Restricted Options (including the shares of Common Stock issuable upon exercise of the Amended Restricted Options) are deemed “restricted securities” within the meaning of Rule 144 under the Act.

Why We Need Stockholder Approval

Pursuant to the Letter Agreement, as modified by the Additional Letter Agreement, Star Equities, LLC purchased 2,857,143 Restricted Shares and 2,857,143 Restricted Options, Steven Wolberg purchased 357,143 Restricted Shares and 357,143 Amended Restricted Options, William Healy purchased 714,286 Restricted Shares and 714,286 Amended Restricted Options and Kenges Rakishev purchased 7,142,857 Restricted Shares and 7,142,857 Amended Restricted Options. Because our Common Stock is listed on The NASDAQ Capital Market, we are subject to NASDAQ’s rules and regulations. Under NASDAQ Listing Rule 5635, we are required to obtain stockholder approval prior to the issuance of Common Stock to the Company Investors pursuant to the Letter Agreement, as modified by the Additional Letter Agreement, including upon exercise of the Amended Restricted Options.

Required Vote of Stockholders

Approval of this Proposal 2 requires the affirmative vote of a majority of our capital stock represented and entitled to vote at the Special Meeting. Abstentions and broker non-votes will have no effect on the outcome of this Proposal 2. Unless instructions to the contrary are specified in a properly executed and returned proxy, the proxy holders will vote the proxies received by them **“FOR”** this Proposal 2.

The Board recommends a vote “FOR” the proposal to authorize the issuance of Common Stock to certain directors and officers of the Company pursuant to the Letter Agreement, including upon exercise of certain options.

PROPOSAL 3

APPROVAL TO AUTHORIZE THE ADJOURNMENT OF THE SPECIAL MEETING, IF NECESSARY TO SOLICIT ADDITIONAL PROXIES, IN THE EVENT THAT THERE ARE NOT SUFFICIENT VOTES AT THE TIME OF THE SPECIAL MEETING TO APPROVE PROPOSAL 1

Our stockholders are being asked to approve a proposal that will give us authority to adjourn the Special Meeting, if necessary, for the purpose of soliciting additional proxies in favor of Proposal 1 if there are not sufficient votes at the time of the Special Meeting to approve and adopt Proposal 1. If this Proposal 3 is approved, the Board of Directors may adjourn the Special Meeting to any date it chooses. In addition, the Board of Directors may postpone the Special Meeting before it commences, whether for the purpose of soliciting additional proxies or for other reasons. If the Special Meeting is adjourned for the purpose of soliciting additional proxies, stockholders who have already submitted their proxies at any time prior to their use do not need to submit new proxies unless they desire to change their voting instructions. The Company does not intend to call a vote on this Proposal 3 if Proposal 1 has been approved at the Special Meeting.

Required Vote of Stockholders

Approval of this Proposal 3 requires the affirmative vote of a majority of our capital stock represented and entitled to vote at the Special Meeting. Abstentions and broker non-votes will have no effect on the outcome of this Proposal 3. Unless instructions to the contrary are specified in a properly executed and returned proxy, the proxy holders will vote the proxies received by them “**FOR**” this Proposal 3.

The Board recommends a vote “FOR” the proposal to authorize the adjournment of the Special Meeting, if necessary to solicit additional proxies, in the event that there are not sufficient votes at the time of the Special Meeting to approve Proposal 3.
