CRYO-CELL REPORTS FINANCIAL RESULTS FOR First Quarter 2012

OLDSMAR, Fla. - April 16, 2012 - Cryo-Cell International, Inc. (OTC:QB Markets Group Symbol: CCEL) (the "Company"), the world's first private cord blood bank to separate and store stem cells in 1992, today announced results for the first quarter ended February 29, 2012.

"Cryo-Cell's first quarter 2012 results are indicative of the many changes that are taking place at the Company," stated David Portnoy, Cryo-Cell's Chairman and Co-CEO. "In particular, the decrease in revenues is primarily a reflection of our increased pricing without the commensurate return from our new branding strategy and national sales force."

Mark Portnoy, Cryo-Cell's Co-CEO, added, "Although we were aware that the timing of the rise in expenses would not correlate directly with the timing of the rise in revenues, given the Company's unique stem cell storage services, large recurring revenue stream and strong cash position, this ongoing investment in the Company's future is the correct strategy at this time. Since Cryo-Cell was the first company in the world to separate and store stem cells in 1992, the new branding and sales initiatives will help maintain our leadership in the field."

Financial Results

Consolidated revenues for the first quarter of fiscal 2012 were approximately \$4.2 million compared to approximately \$4.5 million for the first quarter of fiscal 2011. The revenues for the first quarter of fiscal 2012 consisted of approximately \$3.8 million in processing and storage fee revenue and approximately \$342,000 in licensee income compared to approximately \$4.1 million in processing and storage fee revenue and approximately \$323,000 in licensee income for the first quarter of fiscal 2011. Licensee income for the three months ended February 29, 2012 consisted of approximately \$337,000 in royalty income earned on the processing and storage of cord blood stem cell specimens in geographic areas where the Company has license agreements. The remaining licensee income related to installment payments of non-refundable up-front license fees from the licensees of the Company's umbilical cord blood program in Nicaragua. Licensee income for the three months ended February 28, 2011 principally consisted of approximately \$318,000 in royalty income earned on the processing and storage of cord blood stem cell specimens in geographic areas where the Company has license agreements. The remaining licensee income related to an installment payment of a non-refundable up-front license fee from the licensee of the Company's umbilical cord blood program in Nicaragua.

The Company reported a net loss for the three months ended February 29, 2012 of approximately (\$1.7 million), or (\$0.15) per basic and diluted share, compared to net income of approximately \$233,000, or \$0.02 per basic and diluted share for the three months ended February 28, 2011. The decrease in net income for the three months ended February 29, 2012 principally resulted from the cancellation of the Bio-Stor Revenue

Edgar Filing: CRYO CELL INTERNATIONAL INC - Form 8-K

Sharing Agreement resulting in a pre-tax charge for extinguishment of debt in the amount of approximately \$1,200,000. Also, included in the decrease in net income is a 26% increase in selling, general and administrative expenses, due mainly to an increase of \$191,000 in stock option compensation and the increase in sales and marketing initiatives. This is partially offset by a 12% decrease in cost of sales. In addition, research and development expenses were approximately \$15,000 for the three months ended February 29, 2012, a decrease of approximately \$21,000 or 59% in comparison to the same period in 2011.

At February 29, 2012, the Company had cash and cash equivalents of \$4,320,073. The Company's cash decreased by approximately \$2,000,000 during the first three months of fiscal 2012, primarily as a result of the cancellation of the Bio-Stor Revenue Sharing Agreement and the stock repurchase plan pursuant to which the Company has repurchased 415,117 shares of the Company's common stock for a total of approximately \$754,000. The cancellation of the Bio Stor Revenue Sharing Agreement will result in an approximate \$400,000 cash savings per year from a reduction of interest expense. As of February 29, 2012 the Company had no long-term indebtedness.

About Cryo-Cell International, Inc.

Cryo-Cell International, Inc. was founded in 1989 and was the world's first private cord blood bank to separate and store stem cells in 1992.
