These statements involve risks and uncertainties, including, but not limited to, the extent and timing of a rebound in the global economy; changes in exploration and production spending by our customers; changes in the level of oil and natural gas exploration and development; improved pricing; general economic, business and political conditions in key regions of the world; terrorism; and other factors detailed in our most recent Form 10-K, Form 10-Q and other filings with the Securities and Exchange Commission. If one or more of these risks or uncertainties materialize (or the consequences of such a development changes), or should underlying assumptions prove incorrect, actual outcomes may vary materially from those forecasted or expected. We disclaim any intention or obligation to update publicly or revise such statements, whether as a result of new information, future events or otherwise.
