PROXY STATEMENT

FOR THE ANNUAL MEETING OF STOCKHOLDERS

To be held on August 9, 2006

This proxy statement is furnished in connection with the solicitation of proxies by and on behalf of our Board of Directors for use at our Annual Meeting of Stockholders to be held at the offices of Foley Hoag LLP, Seaport World Trade Center West, 155 Seaport Boulevard, Boston, Massachusetts on August 9, 2006 and at any adjournment or adjournments thereof. We are a Delaware corporation and our principal executive offices are located at 22 Cherry Hill Drive, Danvers, Massachusetts 01923.

We will bear any cost of solicitation. Some of our officers and employees may solicit proxies by correspondence, telephone or in person, without extra compensation. We may also pay to banks, brokers, nominees and other fiduciaries their reasonable charges and expenses incurred in forwarding proxy material to their principals. It is expected that this proxy statement and the accompanying proxy will be mailed to our stockholders on or about July 12, 2006.

We have fixed the close of business on July 3, 2006 as the record date for the Annual Meeting. Only stockholders of record at the close of business on July 3, 2006 will be entitled to receive notice of, and to vote at, the Annual Meeting. As of July 3, 2006, there were outstanding and entitled to vote 26,561,570 shares of our common stock, \$.01 par value per share. Our by-laws require that a majority in interest of all stock issued, outstanding and entitled to vote at a meeting shall constitute a quorum. Abstentions and broker non-votes will be counted as present or represented for purposes of determining the existence of a quorum. A non-vote occurs when a broker or nominee holding shares for a beneficial owner does not vote on a proposal because the broker or nominee does not have discretionary voting power and has not received instructions from the beneficial owner.

Proposal no. 1 (election of directors) requires the affirmative vote of a plurality of the votes cast by holders of our common stock entitled to vote thereon, provided a quorum is present. Abstentions and broker non-votes will not be included in calculating the number of votes cast on Proposal no. 1. Proposal no. 2 (issuance of shares of common stock) requires the affirmative vote of the holders of a majority of the shares of our common stock present in person or by proxy at the meeting and entitled to vote thereon, exclusive of shares of common stock issued to the former shareholders of Impella CardioSystems AG in connection with our acquisition of Impella in May 2005, provided that a quorum is present. Abstentions and broker non-votes will not be included in calculating the number of votes cast on Proposal no. 2. Votes will be tabulated by American Stock Transfer & Trust Company, our transfer agent.

THE ENCLOSED PROXY, IF EXECUTED AND RETURNED, WILL BE VOTED AS DIRECTED ON THE PROXY OR, IN THE ABSENCE OF SUCH DIRECTION, FOR THE NOMINEES FOR DIRECTORS (PROPOSAL NO. 1) AND FOR THE ISSUANCE OF SHARES OF COMMON STOCK (PROPOSAL NO. 2). IF ANY OTHER MATTERS SHALL PROPERLY COME BEFORE THE MEETING, THEY WILL BE VOTED BY THE PROXIES IN ACCORDANCE WITH THEIR BEST JUDGMENT. THE PROXY MAY BE REVOKED AT ANY TIME PRIOR TO EXERCISE BY FILING WITH OUR SECRETARY A WRITTEN REVOCATION, BY EXECUTING A PROXY WITH A LATER DATE, OR BY ATTENDING AND VOTING AT THE MEETING.

Our annual report to stockholders for the fiscal year ended March 31, 2006, including financial statements audited by PricewaterhouseCoopers LLP, an independent registered public accounting firm, is being mailed to each of our stockholders simultaneously with this proxy statement.

Arrangements with Executive Officers and Directors

Employment Agreements. On April 5, 2004 we entered into an employment agreement with Michael R. Minogue in connection with his employment as our President and Chief Executive Officer. In the employment agreement, we have agreed to employ Mr. Minogue as our President and Chief Executive Officer, reporting to the Board of Directors. The agreement initially provided for an annual salary of \$325,000 for the fiscal year ended March 31, 2005, and a target bonus for such fiscal year of up to \$325,000. Mr. Minogue's employment agreement also provides that our Compensation Committee will review Mr. Minogue's salary and target bonus on an annual basis. On June 1, 2006, Mr. Minogue's salary and target bonus were each increased to \$345,000. All salary is payable in semi-monthly installments in accordance with our practice. In addition, pursuant to the employment agreement, Mr. Minogue was granted options to purchase 400,000 shares of our Common Stock, a one-time sign-on housing allowance of \$300,000, reimbursement of customary relocation expenses, and reimbursement of certain new housing expenses of up to \$100,000. Our Compensation Committee subsequently authorized approximately \$73,416 in additional relocation expenses. The agreement also provides for, among other things, certain vacation, life insurance and other benefits to Mr. Minogue. The employment agreement has an indefinite term, and is terminable by either party by notice to the other.

On December 13, 2005, Daniel Sutherby accepted our offer letter to become our new chief financial officer. The offer letter provided that Mr. Sutherby will receive an annual salary of \$225,000 and a signing bonus of \$50,000. In addition, Mr. Sutherby is eligible for a potential on target bonus of \$100,000 annually. The offer letter provides for the grant to Mr. Sutherby of an option to purchase 80,000 shares of our common stock on the date his employment starts, with an exercise price equal to the closing price of our common stock on the date of grant and vesting over four years. Upon a change of control, Mr. Sutherby's unvested options will become fully vested. Furthermore, if as a result of the change in control Mr. Sutherby's position is eliminated, or his responsibilities are substantially diminished or he is required to relocate, he will be eligible to continue to receive his base salary and medical benefits for up to one year.

Each of our other executive officers has entered into standard employment agreements, which contain customary provisions relating to the handling of proprietary information and assignment of inventions, as well as

restrictions on competition and solicitation during the period of employment and for two years post-termination. In addition, the agreement provides that we may terminate the employee with or without cause, but in the case of a termination without cause more than six months after the date employment begins, we are required to provide 28-days prior notice.

In addition, we have entered into a letter agreement with Javier Jimenez that provides for relocation benefits in connection with his relocation to Germany. The agreement provides reasonably comparable substitutes for benefits he received from us as a domestic employee that are not available in Germany, such as our standard health insurance benefits. It also requires us to cover expenses and other costs related to his relocation, such as reimbursement for housing expenses and utilities, automobile expenses, incremental tax liabilities resulting from the relocation, and periodic travel expenses.

Change of Control Agreements. We have entered into change of control agreements with Messrs. Minogue and Kung. The agreements were entered into in order to provide the individual with a sense of job security and the ability to focus on his work without needing to worry about losing his job upon a change of control. The agreements specifically provide that, following a change of control, we will continue to employ Messrs. Minogue and Kung for twenty-four months in their same or a similar position at a base annual salary equal to at least twelve times the highest monthly base salary received within the last twelve months prior to the change of control and an annual bonus equal to the average bonus of the executive over the last three years. In addition, each of Messrs. Minogue and Kung agrees to remain our employee for six months following a change of control. Upon a change of control, and if the executive is still employed at the end of this six months, all unvested stock options and stock appreciation rights held by the executives will become vested. Any of the executives can terminate his employment for good reason, and we may terminate the employment of any of these executives for cause. The agreement also provides for a continuation of certain benefits provided to the executives prior to the change of control.

Compensation of Directors

Directors who are not our employees receive an annual retainer of \$15,000 or an equivalent value of our Common Stock, at the individual's option, and \$1,200 for attendance at in-person meetings of our Board of Directors, \$1,000 for attendance at meetings of Committees of our Board of Directors and \$600 for attendance at all telephonic meetings. Our Lead Director receives an additional \$20,000 annually. The Chair of our Audit Committee receives \$1,500 for attendance at meetings of our Audit Committee.

Our directors are also eligible for additional compensation in the event that they perform additional services in excess of the normal time commitments we expect of our directors. As a result, in the third quarter of fiscal 2006 we issued bonuses to Dorothy Puhly and W. Gerald Austen in the amounts of \$5,000 and \$2,000 respectively, in recognition of their contributions.

We are able to award non-qualified stock options to our non-employee directors under any of our three active stock option plans with shares remaining available for future issuance: our 1989 Non-Qualified Stock Option Plan for non-employee directors, our 1998 Equity Incentive Plan, and our 2000 Stock Incentive Plan. The currently eligible non-employee directors are Dr. Austen, Ms. Puhly, and Messrs. Dollens, Gottlieb, Lataif, O'Brien, O'Connell and Termeer. Dr. Austen, Ms. Puhly, and Messrs. Gottlieb, O'Brien, O'Connell and Termeer each were granted options to purchase 8,000 shares of our common stock under our 2000 Stock Incentive Plan on August 10, 2005. These options have an exercise price of \$10.06 per share and vest in full on August 9, 2006. Messrs. Lataif and Dollens were each granted an option to purchase 25,000 shares of our common stock under our 2000 Stock Incentive Plan upon their appointments to our board on September 29, 2005 and January 13, 2006, respectively, at exercise prices of \$10.01 and \$10.27 per share, respectively, and vest in annual 20% increments beginning on the first anniversary of the respective grant date.

Compensation Committee Interlocks and Insider Participation in Compensation Decisions

Our Compensation Committee consists of W. Gerald Austen, Ronald W. Dollens, John F. O'Brien (Chair), and Henri A. Termeer. No member of our Compensation Committee is a former or current officer or employee. Mr. Minogue, while not a member of the Compensation Committee, makes recommendations to the Compensation Committee regarding executive officer compensation, for executive officers other than himself, including the awards of stock options, and often participates in the Committee's deliberations but does not vote on such matters. None of our executive officers serves as a member of the Board of Directors or Compensation Committee of any entity that has one or more executive officers serving as members of our Board of Directors or Compensation Committee.

COMPENSATION COMMITTEE REPORT

Our primary objective as the Compensation Committee in developing executive compensation policies is to attract and retain superior talent to enable the Company to achieve its business objectives and to align the financial interests of its executive officers with the financial interests of its stockholders. The compensation of executive officers consists of base compensation, bonus, the grant of options and participation in benefit plans generally available to employees.

In setting overall compensation for the last fiscal year, we reviewed the recommendations of the Chief Executive Officer and strove to maintain base compensation for the executive officers at levels which we believe are competitive with the compensation of comparable executive officers in similarly situated companies, while relying upon stock options and a bonus program to provide significant performance incentives.

We maintain a bonus plan for executive officers. Under the bonus plan, a bonus was determined for each executive officer (other than the Chief Executive Officer) based on the Company's performance and achievement of certain objective and subjective goals and the Chief Executive Officer's evaluation of the individual's performance. The goals established for each executive officer vary depending upon the responsibilities of the officer, and include goals based upon operating results, product development or regulatory milestones and the cost of achieving those milestones, and the achievement of certain sales objectives. Certain of the executive officers' goals have milestones that do not directly correspond in timing to the Company's fiscal year-end and certain of the goals are measured in intervals of greater than one year. Accordingly, bonus amounts for which executive officers are eligible can vary from fiscal year to fiscal year. In granting these bonuses, we considered the recommendations of our Chief Executive Officer.

Each of the executive officers is eligible to receive grants of options under the 1998 Equity Incentive Plan and the 2000 Stock Incentive Plan. In determining the number of options to be granted to each executive officer, we review recommendations provided by the Chief Executive Officer based upon the officer's position of responsibility and anticipated contribution to the Company, the number of shares of Common Stock subject to options held or previously granted to the officer and the individual performance of the officer.

For the fiscal year ended March 31, 2006, Mr. Minogue, the Chief Executive Officer during the fiscal year, received a base salary of \$325,000, a bonus of \$325,000 and a grant of stock options covering 100,000 shares of our common stock. Mr. Minogue's base salary, bonus and option grant were determined by the Compensation Committee based upon the requirements of Mr. Minogue's employment agreement and a review of his performance during the fiscal year. In establishing Mr. Minogue's bonus, which represented the full amount of his target bonus for fiscal 2006, the Compensation Committee took into account, among other things, the successful acquisition of Impella CardioSystems AG, the recruitment of our chief financial officer and other key employees, the expansion of our product lines and research efforts, and the importance of Mr. Minogue to the future direction of our company. Based upon these same factors, we also decided to increase Mr. Minogue's base salary and target bonus for fiscal 2007 to \$345,000 and to grant Mr. Minogue stock options covering 260,000 shares in fiscal 2007.

AUDIT COMMITTEE REPORT

The Board of Directors appointed an Audit Committee to review the Company's consolidated financial statements and financial reporting procedures, the adequacy and effectiveness of its accounting and financial controls and the independence and performance of its independent registered public accounting firm. The Audit Committee also selects our independent registered public accounting firm. The Audit Committee is governed by a written charter adopted by the Board of Directors. A copy of the *Audit Committee Charter*, as amended in June 2004, is available through the About ABIOMED Corporate Governance section of our website, located at www.abiomed.com and can also be found as Appendix A to the proxy statement we filed with the Securities and Exchange Commission in July 2004 relating to our 2004 annual meeting of stockholders.

The Audit Committee currently consists of four non-employee directors. Each member of the Audit Committee is independent within the meaning of the marketplace rules of the Nasdaq Stock Market, Inc.

The Company's management is responsible for the financial reporting process, including the system of internal controls, and for the preparation of consolidated financial statements in accordance with generally accepted accounting principles. The Company's independent auditors are responsible for auditing those financial statements. Our responsibility is to monitor and review these processes. However, we are not professionally engaged in the practice of accounting or auditing and are not experts in the fields of accounting or auditing, including with respect to auditor independence. We have relied, without independent verification, on the information provided to us and on the representations made by the Company's management and independent auditors.

In fulfilling our responsibilities as the Audit Committee, we conferred with PricewaterhouseCoopers LLP, the Company's independent registered public accounting firm for the fiscal year ended March 31, 2006, regarding the overall scope and plans for PricewaterhouseCoopers' audit of the Company's financial statements for the fiscal year ended March 31, 2006 (fiscal year 2006). We met with them, with and without the Company's management present, to discuss the results of their examinations and their evaluations of the Company's internal controls and the overall quality of the Company's financial reporting. We reviewed and discussed the audited consolidated financial statements for the fiscal year 2006 with management and the independent auditors.

In addition, during the course of fiscal year 2006 and thereafter before filing the Corporation's Annual Report on Form 10-K for fiscal year 2006, our management completed the documentation, testing, and evaluation of the Company's system of internal control over financial reporting in response to the requirements set forth in Section 404 of the Sarbanes-Oxley Act of 2002 and related regulations. We were kept apprised of the progress of the evaluation and provided oversight to management during the process. In connection with this oversight, we received periodic updates provided by management and PricewaterhouseCoopers at each scheduled Audit Committee meeting, as well as at a number of special meetings to review our progress. At the conclusion of the process, management provided us with, and we reviewed, a report on the effectiveness of the Company's internal control over financial reporting. We also reviewed the report of management contained in the Company's Annual Report on Form 10-K for fiscal year 2006 filed with the SEC, as well as PricewaterhouseCoopers' Report of Independent Registered Public Accounting Firm included in the Company's Annual Report on Form 10-K related to its audit of (i) the consolidated financial statements, (ii) management's assessment of the effectiveness of internal control over financial reporting, and (iii) the effectiveness of internal control over financial reporting.

We reviewed the Company's audited financial statements with management and PricewaterhouseCoopers. We discussed with PricewaterhouseCoopers the matters required to be discussed by Statement of Auditing Standards No. 61, including a discussion of its judgments as to the quality, not just the acceptability, of the Company's reporting mechanisms and such other matters as are required to be discussed with the Audit Committee in accordance with the standards of the Public Company Accounting Oversight Board (United

States). In addition, we received from PricewaterhouseCoopers the written disclosures and the letter required by Independence Standards Board Standard No. 1 and discussed these documents with PricewaterhouseCoopers, as well as other matters related to PricewaterhouseCoopers independence from management and the Company.

Based on the reviews and discussions referred to above, and subject to the limitations on our role and responsibilities referred to above and in the Audit Committee Charter, we recommended to the Board of Directors that the Company's audited financial statements be included in its Annual Report on Form 10-K for fiscal year 2006 for filing with the Securities and Exchange Commission.

PROPOSAL NO. 2

APPROVAL OF ISSUANCE OF SHARES OF COMMON STOCK

Proposal Two is the approval of our issuance of up to 3,000,000 shares of our common stock to the former shareholders of Impella CardioSystems AG. The issuance of these shares would be in lieu of cash payments we might otherwise be required to make to them. We are requesting stockholder approval in order to satisfy Nasdaq Marketplace Rule 4350(i)(1)(C)(ii), which requires stockholder approval for any potential issuance of common stock that would equal or exceed 20% of our common stock or voting power outstanding prior to such issuance.

Background Acquisition of Impella CardioSystems AG

On May 10, 2005, we completed our acquisition of Impella CardioSystems AG pursuant to a share purchase agreement dated April 26, 2005. At the closing of the acquisition, we issued to the former shareholders of Impella as partial consideration for the acquisition an aggregate of 4,029,004 shares of our common stock, of which 210,000 shares were to be held in escrow through November 2006 to be available to indemnify us in the event of potential indemnification claims pursuant to the terms of the share purchase agreement. In addition, we paid an aggregate of approximately \$1.8 million in cash in connection with the cancellation of Impella convertible securities outstanding at the time of the acquisition, in lieu of shares of our common stock issuable at closing to one of Impella's former stockholders, and as payment of a portion of Impella's transaction expenses. As of March 31, 2006, 6,179 of the 210,000 escrowed shares have been returned to us as a result of the settlement of undisclosed pre-acquisition liabilities.

In addition to the consideration and other payments made at or about the closing of the acquisition, the share purchase agreement provided for additional contingent consideration which could become payable upon the occurrence of events relating to the price of our common stock and the achievement of milestones related to approvals from the United States Food and Drug Administration, or FDA, and unit sales of Impella products.

First, in the event the market price of our common stock at the end of the eighteen-month period following the closing of the acquisition is at or above \$15 and below \$18, we will be required to pay to the former stockholders of Impella an amount equal to 4,200,000 times the difference between the market price and \$18, subject to adjustment as described below. The market price of our common stock for this purpose is defined in the share purchase agreement as the daily volume weighted average price per share for the last 20 trading days of the eighteen-month period following the closing of the transaction. This payment may be made, at our option, by any combination of cash or stock. If the payment is made in shares of our stock, the calculation of the number of shares to be issued is based on the same market price used to determine the price on the 18-month date. In addition, the agreement provides that this amount is reduced to the extent that the Impella stockholders have, prior to the 18-month date, sold any of the shares we issued to them at the closing. Based on the number of shares sold by the former Impella stockholders as of May 19, 2006, the 4.2 million shares used to calculate the payment has been reduced to approximately 3.8 million shares. As a result, by way of example:

if the average stock price on the 18-month date is \$16, we will be obligated to pay additional consideration of approximately \$7.6 million,

if the average stock price on the 18-month date is \$17, we will be obligated to pay additional consideration of approximately \$3.8 million, and

if the average stock price on the 18-month date is outside of the \$15 to \$18 range, we will not be obligated to pay any additional consideration.

Second, subject to certain exceptions based on future stock price performance which are described below, we have agreed to make additional payments of up to \$16.75 million based on the following milestones:

upon FDA approval of Impella's 2.5 liter pump system, a payment of \$5,583,333,

upon FDA approval of Impella's 5.0 liter pump system, a payment of \$5,583,333, and

upon the sale of 1,000 units of Impella's products worldwide between the closing and December 31, 2007, a payment of \$5,583,334. These milestone payments may be made, at our option, by a combination of cash or stock, except that no more than an aggregate of \$15 million of the aggregate of \$16.75 million of potential milestone payments may be made in the form of stock. If the payment is made in stock, the stock is valued based on the daily volume weighted average price per share for the 20 trading days before and after the date of the applicable milestone. In addition, if the applicable market price per share is \$22 or more on the date of the achievement of a milestone, no additional contingent consideration will be required with respect to the applicable milestone. If the market price per share is between \$18 and \$22 on the date of the achievement of a milestone, the applicable milestone payment will be reduced ratably. If the market price per share is less than \$18, we will be obligated to pay the full amount of any milestone payments that are triggered. Accordingly, there is no lower limit on the number of shares we may need to issue to satisfy these potential payments since it depends on the market price per share on the date of the achievement of a milestone. However, we are only asking for approval to issue up to 3,000,000 shares of our common stock.

In addition, we are prohibited under the agreement from delivering or being obligated to deliver a number of shares of our stock that would require our stockholders to approve, or have approved, this transaction under applicable Nasdaq rules or other securities laws.

Nasdaq 20% Rule

The only approval required to consummate our acquisition of Impella was the approval of our Board of Directors, which we obtained. However, because our common stock is traded on the Nasdaq National Market, we are subject to the rules of the Nasdaq Stock Market, including Nasdaq Rule 4350(i)(1)(c)(ii), or the Nasdaq 20% Rule, which requires that we seek stockholder approval for any issuance or potential issuance of common stock in connection with the acquisition of another company where (a) the number of shares of common stock that may be issued could equal or exceed 20% of the number of shares or common stock outstanding before such issuance, or (b) the voting power of the number of shares of common stock that may be issued could equal or exceed 20% of the voting power outstanding before such issuance. As of April 26, 2005, the date we signed the share purchase agreement, we had 22,105,611 shares of our common stock outstanding. As a result, we may not issue more than 4,421,121 shares of our common stock in connection with the acquisition without stockholder approval.

Reason for Proposal

Since our acquisition of Impella, our board has concluded that in order to preserve our cash resources for general working capital and our ongoing research and development efforts, it may be in the best interests of ABIOMED to issue shares in lieu of cash payments in the event we are required to satisfy some or all of the contingent payments arising under the share purchase agreement. However, because the issuance of shares beyond the limitation imposed under the share purchase agreement will trigger the application of the Nasdaq 20% Rule, we are seeking stockholder approval of this potential issuance in order to provide our board with the flexibility to issue up to 3,000,000 additional shares towards the payment of any potential contingent payments in stock if our board determines that doing so would be in the best interest of our company. Even if our stockholders approve Proposal no. 2, our board may still decide to make all or part of any contingent payments in cash.

Effect of Proposal on Existing Stockholders

If the stockholders approve this Proposal No. 2, then we will not seek further stockholder approval prior to any issuance of common stock to the former stockholders of Impella in connection with the issuance of shares in lieu of the cash payments in an amount of up to \$28,150,000 that we would, in the absence of our stockholders' approval (and that of the former Impella shareholders), be required to make.

The common stock that may be issued to former Impella stockholders will not have any preemptive rights and will be of the same class as, and identical with, our current authorized common stock. To the extent that we issue any amount of common stock to the former Impella stockholders in connection with the contingent payments, our existing stockholders will experience a corresponding dilution in their ownership interest. As a result, any increase in the number of shares of our common stock outstanding would have the effect of decreasing our earnings or loss per share, as applicable, for periods ending subsequent to such increase, because any earnings or losses we may experience would be spread over a greater number of shares of our common stock. We cannot predict the number of shares of common stock we may ultimately issue to the former Impella stockholders, because it will depend in part on future events, including whether or not the milestones are achieved, our determination of whether to pay all or part of any contingent payments in cash or stock, and the fair market value of our common stock at the time of the 18-month date or the achievement of the relevant milestone, as applicable.

Our Board of Directors recommends that you vote FOR the approval of the potential issuance of up to 3,000,000 shares of our common stock to the former shareholders of Impella CardioSystems AG in lieu of cash payments we might otherwise be required to make to them, in order to satisfy Nasdaq Marketplace Rule 4350(i)(1)(C)(ii), which requires stockholder approval for any potential issuance of common stock that would equal or exceed 20% of our common stock or voting power outstanding prior to such issuance.

OTHER MATTERS
Independent Registered Public Accounting Firm

Our Board of Directors has not yet selected an independent registered public accounting firm to audit our consolidated financial statements for the fiscal year ending March 31, 2007. At an upcoming meeting, our Audit Committee will select our independent registered public accounting firm for the current fiscal year.

We expect that a representative of PricewaterhouseCoopers LLP, our independent registered public accounting firm for fiscal 2006, will be present at our Annual Meeting to respond to appropriate questions and will be given an opportunity to make a statement if he or she so desires.

Audit and Other Fees

The following table shows fees for professional audit services paid by us to PricewaterhouseCoopers for the audit of our annual financial statements for the fiscal years ended March 31, 2005 and March 31, 2006, and fees paid by us to PricewaterhouseCoopers for other services during those fiscal years:

Fees	March 31, 2005	March 31, 2006
Audit fees	\$ 563,350	\$ 786,107
Audit-related fees		86,566
Tax fees		
All other fees		
Total	\$ 563,350	\$ 872,673

Audit fees. Audit fees include fees paid by us to PricewaterhouseCoopers in connection with their annual audit of our financial statements and their review of our interim financial statements as reported in our quarterly filings with the SEC. Audit fees also include fees paid by us to PricewaterhouseCoopers in connection with their annual audit of our management's assessment of the effectiveness of our internal controls over financial reporting and their audit of these internal controls.

Audit-related fees. Audit related fees include fees paid by us to PricewaterhouseCoopers that principally cover assurance and related services that are traditionally performed by our independent registered public accounting firm, including special procedures required by regulatory requirements such as SEC registration statements.

Tax fees. Tax fees cover services performed by the tax personnel of PricewaterhouseCoopers except those services specifically related to the audit of our financial statements, and include fees for tax compliance, tax planning and advice.

All other fees. No other fees were paid to PricewaterhouseCoopers that were not audit or tax-related.

Our Audit Committee has determined that the services PricewaterhouseCoopers performed for us during fiscal 2006 were at all times compatible with that firm's independence.

Policy on Pre-Approval of Audit and Non-Audit Services

Our Audit Committee has the sole authority to approve the scope of the audit and any audit-related services as well as all audit fees and terms. Our Audit Committee must pre-approve any audit and non-audit related services by our independent registered public accounting firm. Our Audit Committee will not approve the engagement of our independent registered public accounting firm to perform any services that our independent registered public accounting firm would be prohibited from providing under the applicable securities laws or the

rules of the Nasdaq Stock Market, Inc. In assessing whether to approve use of our independent registered public accounting firm for permitted non-audit services, our Audit Committee tries to minimize relationships that could appear to impair the objectivity of our independent registered public accounting firm. Our Audit Committee has delegated pre-approval authority for non-audit related services to the Chair of our Audit Committee within the guidelines discussed above. The Chair is required to inform our Audit Committee of each decision at the next regularly scheduled Audit Committee meeting following the decision to permit our independent registered public accounting firm to perform non-audit related services.

Reporting under Section 16(a) of the Securities and Exchange Act of 1934

Section 16(a) of the Securities Exchange Act of 1934 requires that our executive officers and directors, and persons who own more than 10% of our Common Stock, file reports of ownership and changes of ownership on Forms 3, 4 and 5 with the Securities and Exchange Commission, and furnish us with copies of such filings.

Based solely upon review of Forms 3, 4 and 5 and amendments thereto furnished to us with respect to the fiscal year ended March 31, 2006 and on written representations from certain reporting persons that were not required to file Forms 5 with respect to our most recent fiscal year, we believe that all Section 16(a) filing requirements applicable to our officers, directors and greater-than-10% stockholders were fulfilled in a timely manner except that a Form 4 filing reporting a sale of stock by the wife of our former director David Lederman was filed one day late and the Form 4 filings reporting our initial grant of stock options to Messrs. Lataif and Dollens were filed one and two days late, respectively.

Other Proposed Action

Our Board of Directors knows of no other business to come before the Annual Meeting of Stockholders. However, if any other business should properly be presented at the meeting, the proxies will be voted in accordance with the judgment of the person or persons holding the proxies.

Incorporation by Reference

To the extent that this proxy statement has been or will be specifically incorporated by reference into any of our filings under the Securities Act of 1933, as amended, or the Securities Exchange Act of 1934, as amended, the sections of the proxy statement entitled Compensation Committee Report and Performance Graph shall not be deemed to be so incorporated, unless specifically otherwise provided in any such filing.
