**Radian Reports First Quarter Net Income of \$114 Million**

PHILADELPHIA, Pa., April 24, 2007 Radian Group Inc. (NYSE: RDN) today reported that for the quarter ended March 31, 2007, Radian earned net income of \$113.5 million and diluted net income per share of \$1.42. Book value per share at March 31, 2007, was \$52.00, an increase of 14 percent from a year earlier.

Our core mortgage insurance and financial guaranty businesses had strong production performance this quarter, with a 35 percent jump in flow MI over last year and strong growth in written and earned premium for FG, said Chief Executive Officer S.A. Ibrahim.

Our primary book was not significantly affected by the disruptions in the sub-prime market in recent months, Mr. Ibrahim added. I believe this is a validation of our long-term approach to risk management in all areas, including sub-prime and Alt A, where we have remained disciplined in diversifying our book of business across geographies, products, clients and origination years.

In the Financial Services segment, net income was \$10.8 million, down from \$38.7 million for the same period last year, primarily as a result of an operating loss at C-BASS.

The company also provided an update on its proposed merger with MGIC, which was announced in February this year. Radian and MGIC currently anticipate completing the merger late in the third quarter or early in the fourth quarter of 2007. To do this, both Radian and MGIC must obtain stockholder approval, with votes scheduled for early next month, as well as additional regulatory approvals.

The key financial highlights of the quarter ended March 31, 2007, are as follows:
