

NRG ENERGY, INC.  
Form 425  
December 15, 2008

Filed by Exelon Corporation

Reg. No. 333-155278

Pursuant to Rule 425 under the

Securities Act of 1933, as amended

Subject Company: NRG Energy, Inc.

On December 15, 2008, Exelon began using the following presentation in discussions with investors:

Exelon + NRG: A Compelling  
Opportunity for Value Creation  
Investor Meetings  
December 2008

#### Forward-Looking Statements

This presentation includes forward-looking statements. These forward-looking statements include, for example, statements regarding benefits of the proposed merger, integration plans and expected synergies. There are a number of risks and uncertainties that could cause actual results to differ materially from the forward-looking statements made herein. The factors that could cause actual results to differ materially from these forward-looking statements include Exelon's ability to achieve the synergies contemplated by the proposed transaction, Exelon's ability to

promptly and effectively integrate the businesses of NRG and Exelon, and the timing to consummate the proposed transaction and obtain required regulatory approvals as well as those discussed in (1) Exelon's 2007 Annual Report on Form 10-K in (a) ITEM 1A. Risk Factors, (b) ITEM 7. Management's Discussion and Analysis of Financial Condition and Results of Operations and (c) ITEM 8. Financial Statements and Supplementary Data: Note 19; (2) Exelon's Third Quarter 2008 Quarterly Report on Form 10-Q in (a) Part II, Other Information, ITEM 1A. Risk Factors and (b) Part I, Financial Information, ITEM 1. Financial Statements: Note 12;

(3) Exelon's preliminary

prospectus/offer to exchange that is contained in the Registration Statement on Form S-4 (Reg. No. 333-155278) that Exelon has filed with the SEC in connection with the offer; and (4) other factors discussed in Exelon's filings with the SEC. Readers are cautioned not to place undue reliance on these forward-looking statements, which apply only as of the date of this filing. Exelon does not undertake any obligation to publicly release any revision to its forward-looking statements to reflect events or circumstances after the date of this filing, except as required by law.

Statements made in connection with the exchange offer are not subject to the safe harbor protections provided to forward-looking statements under the Private Securities Litigation Reform Act of 1995.

All information in this presentation concerning NRG, including its business, operations, and financial results, was obtained from public sources. While Exelon has no knowledge that any such information is inaccurate or incomplete, Exelon has not had the opportunity to verify any of that information.

**Important Additional Information**

This communication relates, in part, to the offer (the Offer ) by Exelon Corporation ( Exelon ) through its direct wholly-owned subsidiary, Exelon Xchange Corporation ( Xchange ), to exchange each issued and outstanding share of common stock (the NRG shares ) of NRG Energy, Inc. ( NRG ) for 0.485 of a share of Exelon common stock. This communication is for information only and does not

constitute an offer to exchange, or a solicitation of an offer to exchange, NRG shares, nor is it a substitute for the Tender Offer Statement on Schedule TO or the Prospectus/Offer to Exchange included in the Registration Statement on Form S-4 (Reg. No.

333-155278) (including the Letter of Transmittal and related documents and as amended from time to time, the Exchange Offer Documents ) filed by Exelon and Xchange with the Securities and Exchange Commission (the SEC ) on November 12, 2008.

The Offer is made only through the Exchange Offer Documents. **Investors and security holders are urged to read these documents** and other relevant materials as they become available, because they will contain important information.

Exelon and Xchange expect to file a proxy statement on Schedule 14A and other relevant documents with the SEC in connection with the solicitation of proxies (the NRG Meeting Proxy Statement ) for the 2009 annual meeting of NRG stockholders (the NRG Meeting ). Exelon will also file a proxy statement on Schedule 14A and other relevant documents with the SEC in connection with the solicitation of proxies for a meeting of Exelon shareholders (the Exelon Meeting ) to be called in order to approve the issuance of shares of Exelon common stock pursuant to the Offer (the Exelon Meeting Proxy Statement ). **Investors and security holders are urged to read the NRG Meeting Proxy Statement and the Exelon Meeting Proxy Statement and other relevant materials as they become available, because they will contain important information.**

Our Exchange Offer

Compelling Value for NRG Shareholders

Timeline

Why Tender Your Shares

Appendix

Overview of Exelon Corporation

The Exchange Offer

On  
November  
12  
,  
Exelon

launched  
an  
exchange  
offer for  
all of the outstanding shares of NRG

Filed Form S-4 with the SEC

Fixed exchange ratio of 0.485 Exelon share for each NRG common  
share

Represents

a  
37%  
premium  
to  
the  
October  
17  
NRG  
closing  
price

Initial exchange offer period expires January 6, 2009

5  
th  
th

### Financing Is Not an Obstacle

Exelon believes it can secure committed financing for the transaction at the appropriate time

We believe a negotiated combination can be structured in a way to reduce refinancing requirements to \$4B or less

We believe that the contemplated structure would not trigger the change of control provision for NRG's \$4.7B of Senior Notes, and would substantially improve credit metrics for those bondholders

Exelon's relationships with many of NRG's banks should facilitate arrangements for new credit facilities once current conflicts are eliminated

We believe that the NRG direct lien program for power marketing could be left in place

6

Reflecting our confidence that we can obtain secure committed financing at the appropriate time, our offer is not subject to a financing condition

Full and generous price  
upfront premium of 37%

Tax-free opportunity to participate in the future growth  
of the largest and most diversified US power company,  
with a substantially improved credit profile and access

to liquidity

Requisite scope, scale and financial strength

Stronger credit metrics and investment grade balance sheet

Best-in-class nuclear and fossil operations

Low-cost generator, operating in the most attractive markets

Exelon 2020 principles will be adapted to the combined fleet

Potential for substantial synergies

Manageable regulatory hurdles to close  
Compelling Value for NRG Shareholders

Percent Contribution of Free Cash Flow

11

1. NRG's 12/1/2008 NRG's Path to Shareholder Value presentation, slide 4. Implied ownership based on a 0.485x exchange ratio

2. PECO PPA assumes market prices as of 11/30/2008. Assumes carbon at \$10-20 per tonne. Not necessarily representative of either company's internal forecast or indicative of results for any other year.

NRG states they contribute 30% of the free cash flow while getting 17% ownership of the pro-forma company based on offer

NRG's position is only a 2008 calculation

Ignores PECO PPA roll-off in 2011 and Exelon carbon uplift

Factoring in these two omitted pieces for 2008, NRG's free cash flow contribution of the pro-forma company would be 15-17% for 2008

Exelon 2020 and NRG  
Offer more low carbon  
electricity in the  
marketplace  
Reduce emissions from  
coal/oil fired generation  
Help our customers

and the communities  
we serve reduce their  
GHG emissions  
Reduce or offset our  
footprint by greening  
our operations  
Adapt Elements of  
Exelon 2020 to NRG  
Expand the 2020 Plan

Expand internal energy efficiency, SF6,  
vehicle, and supply chain initiatives to NRG  
portfolio

Offset a portion of NRG's GHG emissions

Expand energy efficiency program offerings

Add capacity to existing nuclear units  
through uprates

Add new renewable generation

Add new gas-fired capacity

Continue to explore new nuclear

Address older/higher emitting coal  
and oil units

Invest in clean coal technology R&D  
20

Taking the next step in Exelon's  
commitment to address climate change

We look at fundamental value creation under a wide range of future commodity price scenarios and our analysis suggests \$1-3 billion of value, possibly more.

Gas price is long-term price in 2008 \$/MMBtu; coal price is long-term price in 2008 \$/ton for PRB8800 excluding transportation; new build cost is long-term combined cycle cost in PJM in 2008 overnight \$/kW; carbon year is year in which national cap and trade starts; carbon price is in 2012 \$/tonne assuming 7% escalation; moderate recession assumes conditions consistent with current forward prices; and severe recession assumes five years of no load growth.

Exelon More Than Meets the Five  
Imperatives

Outlined by NRG on May 28, 2008

- 1.
- 2.
- 3.

4.

5.

NRG's Stated Imperatives

MUST

accumulate generation at competitive cost

This transaction accomplishes in one step what several transactions might have accomplished for NRG in these regards. Given the current difficulty in accessing capital markets, it is unclear whether NRG would have the ability to meet this objective without Exelon. Exelon provides NRG stakeholders with broad trading expertise and sound power marketing and risk management practices. Exelon's significant experience in markets with locational prices is particularly relevant since ERCOT is moving to a PJM-type structure. Exelon's breadth of operations and depth of service allows significant access to customers, retail providers, and other sales channels.

NRG stakeholders become part of the most diversified and competitive generation portfolio operating in 12 different states and 6 different regional transmission organizations.

Deal expected to provide NRG stakeholders with significant value and upside and a share of the largest unregulated generation fleet in the United States.

MUST

be geographically diversified in multiple markets

MUST

develop and expand our route to market through contracting with retail load providers, trading, direct sales, etc

MUST

have sophisticated ability to trade, procure, hedge, and originate for electricity and input fuels

MUST

develop depth and breadth in key markets, particularly across fuel types, transmission constraints and merit order

Exelon Combination More

than Meets These Imperatives

26  
Why Tender Your NRG Shares?  
26

Tendering

expiration will provide a strong signal of your support  
for a negotiated deal

Exelon believes its proposal represents the best  
immediate and long-term value for your investment,  
providing:

Increased scale and generation efficiency

Enhanced ability to pursue capital-intensive projects

Stronger credit metrics with an investment grade balance sheet  
gives access to greater liquidity

Greater stock trading liquidity and appreciation potential

Ability and intention to pay quarterly dividends on common  
stock
