2009 ANNUAL REPORT

NOTICE OF 2010 ANNUAL MEETING AND PROXY STATEMENT

2009 ANNUAL REPORT ON FORM 10-K

TO OUR SHAREHOLDERS:

The year 2009 was transformative for Transgenomic as we embarked on a number of initiatives with potential to greatly increase our presence in the molecular diagnostic industry and to positively affect the financial performance of our company for many years to come.

We completed the licensing of COLD-PCR from the world-renowned Dana-Farber Cancer Institute with the goal of playing a significant role in realizing the promise and power of personalized medicine. COLD-PCR (Coamplification at Lower Denaturation Temperature-PCR) allows us to discover genetic mutations in tissue samples with sensitivity as much as 50 to 100 times higher than competing technologies. By obtaining a more accurate picture of mutated DNA molecules, we may be able to discover why and how certain drugs work in some people and not in others. This knowledge may allow for the resurrection of a number of drug candidates that failed in pivotal trials, as well as new testing that could be initiated in a much more tightly targeted patient population. We also may be able to detect disease earlier and subsequently monitor the disease and therapeutic response.

We believe COLD-PCR has the potential to be a game changer and to give us the opportunity to develop better, more accurate mutation tests and add them to our product offering. In conjunction with a pharmaceutical company partner, we have validated the ability of COLD-PCR to detect colorectal tumor associated KRAS mutations with 100% concordance between mutation results obtained in plasma and the matched tumor KRAS genotype. Throughout 2010 we will continue our validation studies. Our goal is to develop additional cancer assays to complement our KRAS kit run on our SURVEYOR Nuclease and WAVE® HS DHPLC platforms, and for processing both in our CLIA-certified laboratory and pharmacogenomics laboratory as well as direct sales to end users.

We continued our work in mitochondrial mutations in neurological diseases with the signing of an exclusive licensing option for a set of validated mitochondrial DNA mutations found in Parkinson's disease patients. We believe these mutations can form the basis of a novel and accurate diagnostic test that will work with our platform mitochondrial mutation detection technology. We are also looking at mitochondrial mutations in Alzheimer's disease, heart disease and other diseases that may be caused by oxidative stress. We have the exclusive license to perform this testing in our laboratory or convert these tests into a kit format for broad sale.

We expanded our potential diagnostic offerings in early 2010 by licensing intellectual property related to a test to determine if there is an increased risk for developing autism in a newborn with an autistic sibling. Such siblings have more than twice the chance of autism. It has been shown that early intervention can have a significant impact on the development of an autistic child. Recent research has shown that there are signs of developing autism as early as 12 months of age, but these signs are often missed. By developing and commercializing this test, we can provide a valuable service for parents of children in the elevated risk group. We expect to develop this test in our CLIA laboratory and to begin marketing it through our lab sales team in the second quarter of 2010.

Our 2009 financial results were impacted by the worldwide recession and credit crunch. We reported a net loss of \$1.9 million for the year, compared with a net loss for 2008 of \$495,000. Net sales were \$22.0 million, down from \$24.0 million for 2008, largely due to a 12% decline from the instrument sales side of our business. Sales in our laboratory services business were up 7%. Due to careful working capital management, cash flow from operations was \$1.3 million for 2009, whereas cash used in operations was \$413,000 for 2008. We believe that the work we are doing on the diagnostic side will provide for smoother and accelerating revenues in the coming years.

We are very excited by the potential for growth that resides at Transgenomic, and I thank you for your continued support.

Craig Tuttle

Your proxy is being solicited by the Board of Directors of the Company and will give them or our Chief Executive Officer the power to vote on your behalf at the Annual Meeting. Where no instructions are indicated, the Board of Directors or the Chief Executive Officer will vote **FOR** each of the proposals that will be considered at the Annual Meeting. In addition, the Board of Directors believes outstanding shares owned by current executive officers and directors of the Company will be voted **FOR** each such proposal. Shares owned by these persons represent approximately 2% of the total shares outstanding as of the Record Date.

You may revoke your proxy at any time before it is exercised by the Board of Directors or the Chief Executive Officer at the Annual Meeting. If you decide to do this, you will need to give the Secretary of the Company written notice that you want to revoke the proxy or you can submit a new proxy to the Secretary. In addition, if you attend the Annual Meeting in person, you may withdraw your proxy and vote in person. Shares of common stock entitled to vote and represented by properly executed, returned and unrevoked proxies will be considered present at the Annual Meeting for purposes of establishing a quorum. The holders of at least a majority of our common stock issued and outstanding on the Record Date must be present at the Annual Meeting, either in person or by proxy, in order for there to be a quorum.

PROPOSAL TO ELECT CLASS I DIRECTORS

Board of Directors and Committees

Our entire Board of Directors consists of seven positions of which six are currently occupied. The Board of Directors is divided into three classes with directors in each class serving for a term of three years. The terms of office of the current Class I, Class II and Class III directors will expire in 2010, 2011 and 2012, respectively.

The Board of Directors has nominated Craig J. Tuttle and Michael B. McNulty as Class I directors to serve three-year terms expiring in 2013. The Board of Directors knows of no reason why Mr. Tuttle or Mr. McNulty might be unavailable to serve. There are no arrangements or understandings between Mr. Tuttle or Mr. McNulty and any other person pursuant to which he was selected as a nominee. Mr. Tuttle and Mr. McNulty are current members of the Board of Directors and each has expressed an intention to continue to serve on the Board of Directors if he is elected.

The election of a director requires the affirmative vote of a plurality of the shares present in person or represented by proxy at the Annual Meeting and entitled to vote. This means that votes withheld and broker nonvotes with respect to the election of director will have no effect on the election of director. If either Mr. Tuttle or Mr. McNulty is unable to serve as a director, the Board of Directors may nominate a substitute nominee. In that case, the Board of Directors will vote all valid proxies that voted in favor of Mr. Tuttle or Mr. McNulty, as the case may be, for the election of the substitute nominee.

The Board of Directors recommends that the stockholders vote FOR the election of Mr. Tuttle and Mr. McNulty as Class I Directors.

The Board believes that each director nominee possesses the qualities and experience that nominees should possess. The Board seeks out, and the Board is comprised of, individuals whose background and experience complement those of other Board members.

The following table sets forth information about our directors, including the nominees who are to be voted on at the Annual Meeting. The Board of Directors has determined that Messrs. McNulty, Schuh, Markin, Sloma and Sklar are independent directors of the Company under the listing standards adopted by the Securities and Exchange Commission.

The Board selected Mr. Sloma to serve as a director because of his valuable financial expertise, including his extensive public accounting experience, executive experience and his service on other public company boards. The Company also benefits from Mr. Sloma's status as a financial expert under Sarbanes Oxley.

Information regarding our other executive officers is found in our Form 10-K that is part of the Annual Report to Stockholders that accompanies this Proxy Statement. The Board of Directors has adopted a code of ethical conduct that applies to our principal executive officers and senior financial officers as required by Section 406 of the Sarbanes Oxley Act of 2002. This code of ethical conduct is embodied within our Business Ethics Policy, which applies to all persons associated with the Company, including our directors, officers, and employees. The Business Ethics Policy is available on our website at www.transgenomic.com.

The Board of Directors conducts its business through meetings of the Board and actions taken by written consent in lieu of meetings and by the actions of its committees. During the year ended December 31, 2009, the Board of Directors held six meetings and acted by written consent in lieu of a meeting one time. All directors attended at least 75% of the meetings of the Board of Directors and of the committees of the Board of Directors on which they served during 2009.

There are no family relationships among directors or executive officers of the Company. There are no arrangements or understandings between any of our directors, director nominees or executive officers pursuant to which he was or is to be selected as a director, director nominee or executive officer. None of our directors, director nominees or executive officers have been subject to legal or regulatory proceedings during the past ten years which are material to an evaluation of the ability or integrity of such person to serve the Company.

The Board of Directors has established and assigned certain responsibilities to an Audit Committee and a Compensation Committee. We do not have a standing nominating committee. The Board determined that due to the relatively small size of the Board, and due to the policy on director nominations, which is described below, it was not necessary to form a separate committee to evaluate director nominations. Under the director nomination policy, director candidates are identified primarily through suggestions made by directors, management and stockholders of the Company. We have implemented no material changes to the procedures by which stockholders may recommend nominees for the Board of Directors. The Board of Directors will consider director nominees recommended by stockholders that are submitted in writing to the Secretary or Chief Executive Officer of the Company in a timely manner and which provide necessary biographical and business experience information regarding the nominee. All candidates for director will be evaluated based on their independence, character, judgment, diversity of experience, financial or business acumen, ability to represent and act on behalf of all stockholders, and the needs of the Board. The Board also values diversity as a factor in selecting nominees to serve on the Board. Although the Board does not have a specific policy on diversity, the Board considers the criteria noted above in selecting nominees for directors, including members from diverse backgrounds who combine a broad spectrum of experience and expertise. Absent other factors which may be material to its evaluation of a candidate, the Board expects to nominate incumbent directors who express an interest in continuing to serve on the Board. The independent directors of the Company review and consider all candidates to serve as a director of the Company who are properly suggested by directors, management and stockholders of the Company, and the Board of Directors selects its nominees to serve as a director of the Company from among those candidates who are recommended to the Board of Directors by a majority of the independent directors of the Company.

Audit Committee. The Audit Committee's primary duties and responsibilities include monitoring the integrity of our financial statements, monitoring the independence and performance of our external auditors, and monitoring our compliance with applicable legal and regulatory requirements. The functions of the Audit Committee also include reviewing periodically with independent auditors the performance of the services for which they are engaged, including reviewing the scope of the annual audit and its results, reviewing with management and the auditors the adequacy of our internal accounting controls, reviewing with management and the auditors the financial results prior to the filing of quarterly and annual reports, reviewing fees charged by our independent auditors and reviewing any transactions between the Company and related parties. Our independent auditors report directly and are accountable solely to the Audit Committee. The Audit Committee has the sole authority to hire and fire the independent auditors and is responsible for the oversight of the performance of their duties, including ensuring the independence of the independent auditors. The Audit Committee also approves in advance the retention of, and all fees to be paid to, the independent auditors. The rendering of any auditing services and all non-auditing services by the independent auditors is subject to the approval in advance of the Audit Committee. The Audit Committee operates under a written charter which is available on our website at www.transgenomic.com. The Audit Committee is required to be composed of directors who are independent of the Company under the rules of the Securities and Exchange Commission. The current members of the Audit Committee are directors Sloma, Markin and McNulty. The Board of Directors has determined that Mr. Sloma qualifies as an audit committee financial expert under the rules of the Securities and Exchange Commission. The Audit Committee met six times during 2009.

Oversight of Risk Management. Risk is inherent with every business, and how well a business manages risk can ultimately determine its success. We face a number of risks, including economic risks, financial risks, legal and regulatory risks, and others, such as the impact of competition. Management is responsible for the day-to-day management of the risks that we face, while the Board, as a whole and through its committees, has responsibility for the oversight of risk management. In its risk oversight role, the Board is responsible for satisfying itself that the risk management processes designed and implemented by management are adequate and functioning as designed.

While the Board is ultimately responsible for risk oversight, the Board has delegated to the Audit Committee the primary responsibility for the oversight of risks facing the Company. The Audit Committee's charter provides that it will discuss our major financial risk exposures and the steps we have taken to monitor and control such exposures.

Compensation Committee. The Compensation Committee reviews and approves our compensation policy, changes in salary levels and bonus payments to our executive officers and other management and determines the timing and terms of awards made pursuant to our 2006 Equity Incentive Plan. The Compensation Committee operates under a written charter which is available on our website at www.transgenomic.com. The Compensation Committee currently consists of directors Markin, Sklar and Schuh, each of whom has been determined by the Board of Directors to be independent under the rules of the Securities and Exchange Commission. The Compensation Committee met two times during 2009.

Section 16(a) Beneficial Ownership Reporting Compliance. Item 405 of Regulation S-K requires disclosure of any known late filing or failure by an insider to file a report required by Section 16 of the Securities Exchange Act of 1934. We believe all Section 16 reports were filed in a timely manner during 2009 except as follows:

Reporting Person	Total Number of Forms Filed Late	Total Number of Transactions Reported Late
Rodney Markin	1	1
Michael B. McNulty	1	1
Antonius P. Schuh	1	1

⁽¹⁾ Represents the grant date fair value of stock option awards granted in fiscal 2009 in accordance with U.S. GAAP. For valuation assumptions used for the fair value of the awards, refer to our Form 10-K for the fiscal year ended December 31, 2009, Part II, Item 8, Section B Summary of Significant Accounting Policies, Stock Based Compensation .

⁽²⁾ Mr. Duman did not stand for re-election at the 2009 Annual Meeting.

⁽³⁾ Mr. Witney resigned from the Board of Directors during the second quarter of 2009.

⁽⁴⁾ Mr. Pauluzzi resigned from the Board of Directors during the first quarter of 2009.

Directors who are also officers or affiliates are not separately compensated for serving on the Board of Directors other than reimbursement for out-of-pocket expenses related to attendance at board and committee meetings. Independent directors are paid an annual retainer of \$20,000 and they receive reimbursement for out-of-pocket expenses related to attendance at board and committee meetings. Independent directors serving on any committee of the Board of Directors are paid an additional annual retainer of \$2,500 unless they are also a chairman of a committee. The Chairman of the Audit Committee receives an additional annual retainer of \$8,000 and the chairman of any other committee receives an additional annual retainer of \$4,000. All directors fees paid annually or quarterly were pro rated for partial periods. In addition, any independent director who attends more than four meetings, which includes committee meetings, per quarter receives a \$500 per meeting fee for each meeting attended over the four.

Our non-employee and non-affiliated directors are issued options to purchase 15,000 shares of common stock under our 2006 Equity Incentive Plan upon initial appointment to the Board. These options are typically granted at the next scheduled Compensation Committee meeting. For options granted prior to March 28, 2003, such options vest at the rate of 20% per year of service on the Board. Additional grants were made from time to time so that each non-employee director would hold 15,000 unvested options at any time. Effective March 28, 2003, the options granted to a non-employee and non-affiliated director upon initial appointment to the Board vest at the rate of 33 1/3% per year of service on the Board. Additional annual grants of options to purchase 5,000 shares of common stock will be made on a date reasonably close to the annual shareholders meeting to be determined by the Compensation Committee in its sole discretion, with such options vesting on the third anniversary of the grant. All options granted to non-employee directors have exercise prices that represented the fair market value of our stock on the grant date. Exercise prices on outstanding options granted to our non-employee directors range from \$0.45 per share to \$13.00 per share. On December 28, 2005, the Company's directors approved a plan to accelerate the vesting of all outstanding stock options. Aside from the acceleration of the vesting date, the terms and conditions of the stock option award agreements governing the underlying stock option grants remained unchanged. All such options were out-of-the money, and accordingly, the accelerated vesting resulted in no compensation expense since there was no intrinsic value associated with these fixed awards at the date of modification. Accelerating the vesting of these options allowed the Company to avoid recognition of compensation expense associated with these options in future periods.

Equity Incentive Plan and Other Compensation Plans

2006 Equity Incentive Plan. The Company's 2006 Equity Incentive Plan (the "Plan") allows the Company to make awards of various types of equity-based compensation, including stock options, dividend equivalent rights ("DERs"), stock appreciation rights ("SARs"), restricted stock, restricted stock units, performance units, performance shares and other awards, to employees and directors of the Company. The Plan was adopted in 2006 as a modification of the Company's 1997 Stock Option Plan (the "Prior Plan"). In addition to providing for additional types of equity-based awards, the Plan increases the total number of shares of common stock that the Company may issue from 7,000,000 under the Prior Plan to 10,000,000 shares under the Plan; provided, that no more than 5,000,000 of such shares may be used for grants of restricted stock, restricted stock units, performance units, performance shares and other awards. Outstanding options exercisable for a total of 3,331,731 shares of our common stock are outstanding at the Record Date, of which 2,742,005 may be exercised at this time. Outstanding options have exercise prices ranging from \$0.36 to \$13.00 per share.

The Plan is administered by the Compensation Committee of the Board of Directors (the "Committee") which has the authority to set the number, exercise price, term and vesting provisions of the awards granted under the Plan, subject to the terms thereof. Either incentive or non-qualified stock options may be granted to employees of the Company, but only non-qualified stock options may be granted to non-employee directors and advisors. However, in either case, the Plan requires that stock options must be granted at exercise prices not less than the fair market value of the common stock on the date of the grant. Options issued under the plan vest over periods as determined by the Compensation Committee and expire ten years after the date the option was granted. Compensation expense is based on the calculated fair value of the awards as measured at the grant date and is expensed ratably over the service period of the awards (generally the vesting period). If the option holder ceases to be employed by the Company, the Company will have the right to terminate any outstanding but unexercised options.

Employee Savings Plan. The Company maintains an employee savings plan that is intended to qualify as a tax-qualified plan under Section 401(k) of the Internal Revenue Code. This plan allows for voluntary contributions up to statutory maximums by eligible employees. We match a specific proportion of these contributions, subject to limitations imposed by law. We may make additional contributions to the savings plan on behalf of our employees if our Board of Directors decides to do so. For the years ended December 31, 2009 and 2008, Company contributions to the 401(k) plan were \$73,933 and \$159,215, respectively. Effective June 1, 2009 we discontinued matching 401(k) contributions for the remainder of 2009 due to our expense reduction initiatives.

Employment Agreements

We have entered into employment agreements with Craig J. Tuttle, our President and Chief Executive Officer, Debra A. Schneider, our Chief Financial Officer, Vice President, Secretary and Treasurer and Eric P. Kaldjian M.D., our Chief Scientific Officer. Mr. Tuttle's employment agreement was renewed for an additional two years ending on July 12, 2010. Ms. Schneider's employment agreement was renewed for an additional one year ending on December 4, 2010. Dr. Kaldjian's employment agreement was renewed for an additional one year ending on December 31, 2010. Each employment agreement provides that the executive officer will be entitled to receive severance payments from the Company if his or her employment is terminated involuntarily except if such termination is based on just cause, as that term is defined in the employment agreement. The severance payment payable in such circumstances is equal to their annual base salary at the time of termination and will be paid to them over a twelve-month period. The employment agreements provide that the severance payment provisions will be honored if the Company is acquired by, or merged into, another company and their positions are eliminated as a result of such acquisition or merger. These severance payments are designed to provide the executive officers with an amount of cash sufficient to provide for living expenses and other needs which would normally be paid from his or her monthly base salary payments in situations where the executive officer's employment was not terminated voluntarily. In addition, the payments are designed so as to not exceed the maximum amount which may be paid without imposition of the excise tax imposed by Section 4999 of the Internal Revenue Code or resulting in a loss of the Company's income tax deduction for any portion of these payments under Section 280G of the Internal Revenue Code if such payments are made after, or in contemplation of, a change of control transaction. Mr. Richards does not have an employment agreement with the Company.

REPORT OF THE AUDIT COMMITTEE

The Audit Committee is comprised of Gregory T. Sloma, Rodney S. Markin, M.D., Ph.D., and Michael B. McNulty, each of which is an independent director of the Company under the rules adopted by the Securities and Exchange Commission.

The Company's management is responsible for the preparation of the Company's financial statements and for maintaining an adequate system of internal controls and processes for that purpose. McGladrey & Pullen LLP (McGladrey) acts as the Company's independent auditors and they are responsible for conducting an independent audit of the Company's annual financial statements in accordance with auditing standards generally accepted in the United States of America and issuing a report on the results of their audit. The Audit Committee is responsible for providing independent, objective oversight of both of these processes.

The Audit Committee has reviewed and discussed the Company's audited financial statements for the year ended December 31, 2009 with management of the Company and with representatives of McGladrey. Our discussions with McGladrey also included the matters required by Statement on Auditing Standard No. 114. In addition, we received written disclosures and a letter from McGladrey regarding its independence as required by Independent Standards Board Standard No. 1 and this information was discussed with McGladrey.

Based on the foregoing, the Audit Committee has recommended that the audited financial statements of the Company for the year ended December 31, 2009, be included in the Company's Annual Report on Form 10-K to be filed with the Securities and Exchange Commission.
