### Subsidiary Highlights

We are pleased with the performance of the Jaguar Land Rover business which turned profitable for the year ended March 31, 2010 reporting a Profit before Tax of GBP 32 million. The financial results are not comparable over the previous year where the business was under the company's ownership for the 10 month period from June 2, 2008 - March 31, 2009. With the positive market reception of the enhanced product range in an improved market environment as well as continued cost reduction efforts, the business was able to show sustained quarter on quarter improvement towards solid profitability in Q3 and Q4 of FY10. During the year the company put in place a long term financing plan including the drawdown of GBP 340 million EIB loan and syndication of inventory financing.

Wholesale volumes for FY 2009-10 were 193,982 units compared with sale of 167,348 units in the 10 month period June 08 - March 09. Both Land Rover and Jaguar launched the updated 2010 Model Year products (Range Rover, Range Rover Sport, Discovery 4, XF and XK) to critical acclaim with the respective wholesale sales for the year coming in at 146,564 units and 47,418 units. Jaguar Land Rover retail sales improved favorably in the second half of the year, after addressing the effects of the global economic turndown and launching new model year products. There was strong recovery in the UK where Land Rover retail sales were up 25% year on year. The Jaguar XF improved in the UK by 28% year on year. China also continued to show significant growth for JLR with Jaguar growing by 38% and Land Rover 55% year on year.

Tata Daewoo Commercial Vehicles Company Limited, company's subsidiary based in South Korea, continued to see improvement in domestic demand while exports came under pressure resulting in overall sales decline of 4% over the previous year. Tata Motors Finance Limited, the company's captive financing subsidiary reported net profit of Rs. 44.16 crores and improved its NPA performance through better collection efficiency.
