1. This financial summary report contains forward-looking statements regarding estimations, forecasts, targets and plans in relation to the results of operations, financial conditions and other overall management of the company and/or the group as a whole (the forward-looking statements). The forward-looking statements are made based upon, among other things, the company's current estimations, perceptions and evaluations. In addition, in order for the company to adopt such estimations, forecasts, targets and plans regarding future events, certain assumptions have been made. Accordingly, due to various risks and uncertainties, the statements and assumptions are inherently not guarantees of future performance, may be considered differently from alternative perspectives and may result in material differences from the actual result. Differences exist between Japanese GAAP and the accounting principles generally accepted in the United States (U.S. GAAP) in certain material respects. Such differences have resulted in the past, and are expected to continue to result for this period and future periods, in amounts for certain financial statement line items under U.S. GAAP to differ significantly from the amounts under Japanese GAAP. For example, differences in consolidation basis or accounting for business combinations, including but not limited to amortization and impairment of goodwill, could result in significant differences in our reported financial results between Japanese GAAP and U.S. GAAP. Readers should consult their own professional advisors for an understanding of the differences between Japanese GAAP and U.S. GAAP and how those differences might affect our reported financial results. To date, we have published U.S. GAAP financial results only on a semiannual and annual basis, and currently do not expect to publish U.S. GAAP financial results for the period reported in this financial summary report.

Our exposure to securitized products and related investments as of December 31, 2010 is outlined below. (Figures are on a managerial basis and rounded off.)

[Balance, net unrealized gains (losses), realized gains]

The balance as of the end of December 2010 decreased to ¥1.40 trillion in total, a decrease of ¥0.34 trillion compared with the balance as of the end of March 2010, mainly due to sales of securitized products, which have risks of being downgraded or deteriorated, and redemptions.

Net unrealized losses were ¥72 billion, improved by ¥53 billion compared to the end of March 2010.

The effect on the P/L for the nine months ended December 31, 2010 was a gain of ¥2 billion as a result of market recovery.

The above table does not include mortgage-backed securities arranged and guaranteed by U.S. government sponsored enterprises, etc., Japanese RMBS such as Japanese Housing Finance Agency securities, and products held by funds such as investment trusts. These are also applicable to the tables in this document.

2. Following the publication of Tentative Solution on Reclassification of Debt Securities (Practical Issue Task Force No. 26, The Accounting Standards Board of Japan, December 5, 2008), some of our securitized products were reclassified into securities being held to maturity from securities available for sale at and after the end of January 2009. The balance and net unrealized gains (losses) of the securities being held to maturity in the above table are based on book value before reclassification.
