Item 2.02 Results of Operations and Financial Condition.

The information in Item 2.02 of this Current Report, including the accompanying exhibit, is being furnished and shall not be deemed filed for the purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the Exchange Act), or otherwise subject to the liabilities of Section 18. The information in Item 2.02 of this Current Report shall not be incorporated by reference into any registration statement or other document filed pursuant to the Securities Act of 1933, as amended, or the Exchange Act, regardless of any general incorporation language contained in such filing.

On March 3, 2011, Marvell Technology Group Ltd. (Marvell) issued a press release regarding its financial results for its fourth fiscal quarter and fiscal year ended January 29, 2011. A copy of the press release is furnished herewith as Exhibit 99.1 and is incorporated by reference herein.

Discussion of Non-GAAP Financial Measures

In addition to disclosing financial results calculated in accordance with U.S. generally accepted accounting principles (GAAP), Marvell also reports non-GAAP financial measures. Pursuant to the requirements of Regulation G, Marvell has provided reconciliations with the press release of the non-GAAP financial measures to the most directly comparable GAAP financial measures included in the press release. Non-GAAP financial measures exclude the effect of stock-based compensation, amortization and write-offs of acquired intangible assets, restructuring costs and certain other expenses and benefits.

Marvell believes that the presentation of non-GAAP financial measures provides important supplemental information to management and investors regarding financial and business trends relating to its financial condition and results of operations. Marvell uses non-GAAP financial measures as a tool to enhance its understanding of certain aspects of its financial performance. Marvell does not consider these measures to be a substitute for, or superior to, the information provided by GAAP financial measures. Consistent with this approach, Marvell believes that disclosing non-GAAP financial measures to the readers of its financial statements provides such readers with useful supplemental data that, while not a substitute for GAAP financial measures, allows for greater transparency in the review of its financial and operational performance. Marvell has chosen to provide this information to investors to enable them to perform comparisons of operating results in a manner similar to how Marvell analyzes its operating results internally. Management also believes that these non-GAAP financial measures may be used to facilitate comparisons of Marvell's results with that of other companies in its industry.

Externally, management believes that investors may find Marvell's non-GAAP financial measures useful in their assessment of Marvell's operating performance and the valuation of Marvell. Internally, Marvell's non-GAAP financial measures are used by management in the following areas:

Management's determination of the pro forma EPS utilized to measure the achievement of stock-based awards (adjustments may vary from award to award) for certain Marvell executive officers;

Management's evaluation of Marvell's operating performance;

Management's establishment of internal operating budgets; and

Management's performance comparisons with internal forecasts and targeted business models.

Non-GAAP financial measures are adjusted by the exclusion of the following items:

Stock-based compensation. Stock-based compensation relates primarily to employee stock options and restricted stock units issued. Stock-based compensation expense is a non-cash expense that is difficult to predict as its valuation is affected by changes in market forces, such as the price of Marvell's common shares, which is not within the control of management. Accordingly, management excludes this item from its internal operating forecasts and models.

Edgar Filing: MARVELL TECHNOLOGY GROUP LTD - Form 8-K

Amortization and write-off of acquired intangible assets. Purchased intangible assets relate primarily to existing and core technology, and customer relationships of acquired businesses. Management considers these charges non-cash in nature and unrelated to Marvell's core operating performance.

Restructuring. Restructuring represents charges that are not directly related to Marvell's ongoing or core business results. Management regularly excludes such items from internal operating forecasts and models because they are not considered a core operating activity for Marvell and because the frequency and variability in the nature of the charges can vary significantly from period to period. Excluding this data provides investors with a basis to compare Marvell's performance against the performance of other companies without this variability.

Other. From time to time, Marvell has other costs/benefits that are not directly related to Marvell's ongoing or core business results. For example, during fiscal 2010, Marvell recorded a \$72 million charge in connection with the settlement of a class action lawsuit related to its historical stock option granting practices. Based on the size and nature of the settlement, management considers these charges to be unrelated to Marvell's core operating performance. Excluding this data provides investors with a basis to compare Marvell's performance against the performance of other companies without this variability.

The calculation of non-GAAP net income per share is adjusted for the following item:

Non-GAAP net income per share is calculated by dividing non-GAAP net income by non-GAAP weighted average shares (diluted). For purposes of calculating non-GAAP net income per share, the GAAP weighted average shares outstanding (diluted) is adjusted to exclude the potential benefits of stock-based compensation costs expected to be incurred in future periods but not yet recognized in the financial statements. The expected compensation costs are treated as proceeds assumed to be used to repurchase shares under the GAAP treasury stock method. Since Marvell's non-GAAP net income does not reflect the effects of these compensation costs, management believes these amounts should not be applied to the repurchase of shares in calculating non-GAAP net income per share.

Non-GAAP financial measures should be considered supplemental to, and not as a substitute for, or superior to, financial measures calculated in accordance with GAAP. Non-GAAP financial measures have limitations in that they do not reflect all of the costs associated with the operations of Marvell's business as determined in accordance with GAAP. As a result, you should not consider these measures in isolation or as a substitute for analysis of Marvell's results as reported under GAAP. Marvell expects to continue to incur expenses similar to the non-GAAP adjustments described above, and exclusion of these items from Marvell's non-GAAP net income should not be construed as an inference that these costs are unusual, infrequent or non-recurring.

Item 8.01 Other Events.

Marvell also announced today that its Board of Directors has authorized Marvell to repurchase up to an additional \$500 million, for a total of \$1 billion, of its outstanding common shares.

Marvell intends to effect the repurchase program in accordance with the conditions of Rule 10b-18 under the Exchange Act. The repurchase program will be subject to market conditions and other factors and does not obligate Marvell to repurchase any dollar amount or number of its common shares. The program may be extended, modified, suspended or discontinued at any time. The repurchases, which are expected to be funded from Marvell's current cash and short-term investments position of over \$2.9 billion, may occur in open market, privately negotiated or block transactions. As of February 28, 2011, Marvell has purchased approximately \$150 million under the existing repurchase authorization bringing the total available under the repurchase program up to approximately \$850 million.

Item 9.01 Financial Statements and Exhibits.

(d) Exhibits.

SIGNATURE

Pursuant to the requirements of the Securities Exchange Act of 1934, as amended, the registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.
