Commission file number 0-5286

KEWAUNEE SCIENTIFIC CORPORATION

(Exact name of registrant as specified in its charter)

Edgar Filing: KEWAUNEE SCIENTIFIC CORP /DE/ - Form 10-Q

Delaware (State or other jurisdiction of incorporation or organization)	38-0715562 (IRS Employer Identification No.)
2700 West Front Street	
Statesville, North Carolina (Address of principal executive offices)	28677-2927 (Zip Code)
Registrant's telephone number, including area code: (704) 873-7202	

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See definition of large accelerated filer, accelerated filer, and smaller reporting company in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer <input type="checkbox"/>	Accelerated filer <input type="checkbox"/>
Non-accelerated filer <input type="checkbox"/> (Do not check if a smaller reporting company)	Smaller reporting company <input checked="" type="checkbox"/>

Indicate by check mark whether the registrant is a shell company (as defined by Rule 12b-2 of the Exchange Act). Yes No

As of March 5, 2012, the registrant had outstanding 2,579,464 shares of Common Stock.

Kewaunee Scientific Corporation

Notes to Consolidated Financial Statements

(unaudited)

A. Financial Information

The unaudited interim consolidated financial statements of Kewaunee Scientific Corporation (the Company or Kewaunee) have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission (the Commission). Accordingly, certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted, although the Company believes that the disclosures are adequate to make the information presented not misleading.

These interim consolidated financial statements include all adjustments (consisting of normal recurring adjustments) necessary for a fair presentation of these financial statements and should be read in conjunction with the consolidated financial statements and notes included in the Company's 2011 Annual Report to Stockholders. The results of operations for the interim periods are not necessarily indicative of the results of operations to be expected for the full year. The condensed consolidated balance sheet as of April 30, 2011 included in this interim period filing has been derived from the audited financial statements at that date, but does not include all of the information and related notes required by generally accepted accounting principles (GAAP) for complete financial statements.

The preparation of the interim consolidated financial statements requires management to make certain estimates and assumptions that affect reported amounts and disclosures. Actual results could differ from those estimates.

B. Inventories

Inventories consisted of the following (in thousands):

	January 31, 2012	April 30, 2011
Finished products	\$ 3,957	\$ 2,887
Work in process	1,479	1,697
Raw materials	6,326	5,882
	\$ 11,762	\$ 10,466

For interim reporting, LIFO inventories are computed based on year-to-date quantities and interim changes in price levels. Changes in quantities and price levels are reflected in the interim consolidated financial statements in the period in which they occur.

C. Comprehensive Income (Loss)

A reconciliation of net earnings and total comprehensive income for the three and nine months ended January 31, 2012 and 2011 is as follows (in thousands):

	Three months ended January 31, 2012	Three months ended January 31, 2011
Net earnings (loss)	\$ (122)	\$ 86
Change in cumulative foreign currency translation adjustments	(84)	(133)
Change in fair value of cash flow hedge, net of tax	(27)	107
Total comprehensive income (loss)	\$ (233)	\$ 60

Edgar Filing: KEWAUNEE SCIENTIFIC CORP /DE/ - Form 10-Q

	Nine months ended January 31, 2012	Nine months ended January 31, 2011
Net earnings (loss)	\$ (225)	\$ 1,598
Change in cumulative foreign currency translation adjustments	(319)	(151)
Change in fair value of cash flow hedge, net of tax	(121)	(101)
Total comprehensive income (loss)	\$ (665)	\$ 1,346

Assets and liabilities for the Company's foreign subsidiaries are translated at exchange rates prevailing on the balance sheet date. Revenues and expenses are translated at weighted average exchange rates prevailing during the period and any resulting translation adjustments are reported separately in stockholders' equity.

D. Segment Information

The following table provides financial information by business segments for the three and nine months ended January 31, 2012 and 2011 (in thousands):

	Domestic Operations	International Operations	Corporate	Total
Three months ended January 31, 2012				
Revenues from external customers	\$ 17,142	\$ 4,432	\$	\$ 21,574
Intersegment revenues	1,369	511	(1,880)	
Operating earnings (loss) before income taxes	233	504	(873)	(136)
Three months ended January 31, 2011				
Revenues from external customers	\$ 19,108	\$ 3,460	\$	\$ 22,568
Intersegment revenues	1,054	96	(1,150)	
Operating earnings (loss) before incomes taxes	774	148	(748)	174

	Domestic Operations	International Operations	Corporate	Total
Nine months ended January 31, 2012				
Revenues from external customers	\$ 64,364	\$ 9,493	\$	\$ 73,857
Intersegment revenues	1,770	777	(2,547)	
Operating earnings (loss) before income taxes	1,600	704	(2,555)	(251)
Nine months ended January 31, 2011				
Revenues from external customers	\$ 62,324	\$ 10,727	\$	\$ 73,051
Intersegment revenues	2,222	743	(2,965)	
Operating earnings (loss) before incomes taxes	4,470	481	(2,430)	2,521

E. Defined Benefit Pension Plans

The Company has non-contributory defined benefit pension plans covering substantially all salaried and hourly employees. These plans were amended as of April 30, 2005, no further benefits have been, or will be, earned under the plans, subsequent to the amendment date, and no additional participants will be added to the plans. Contributions of \$402,000 were paid to the plans during the nine months ended January 31, 2012, and the Company does not expect any contributions to be paid to the plans during the remainder of the fiscal year. Contributions of \$719,000 were made during the nine months ended January 31, 2011.

Pension expense consisted of the following (in thousands):

	Three months ended January 31, 2012	Three months ended January 31, 2011
Service cost	\$ -0-	\$ -0-
Interest cost	235	240
Expected return on plan assets	(326)	(289)
Recognition of net loss	179	172
Net periodic pension expense	\$ 88	\$ 123

Edgar Filing: KEWAUNEE SCIENTIFIC CORP /DE/ - Form 10-Q

	Nine months ended January 31, 2012	Nine months ended January 31, 2011
Service cost	\$ -0-	\$ -0-
Interest cost	705	720
Expected return on plan assets	(978)	(867)
Recognition of net loss	537	516
Net periodic pension expense	\$ 264	\$ 369

F. Earnings Per Share

Basic earnings per share is based on the weighted average number of common shares outstanding during the three and nine month periods. Diluted earnings per share reflects the assumed exercise and conversion of outstanding options under the Company's stock option plans, except when options have an anti-dilutive effect. Options to purchase shares of 308,800 were not included in the computation of diluted earnings per share for the three and nine month periods ended January 31, 2012, because the effect would be anti-dilutive as a result of the reported net losses. Options to purchase shares of 119,600 were not included in the computation of diluted earnings per share for the three and nine month periods ended January 31, 2011, because the option exercise prices were greater than the average market price of the common shares at that date, and accordingly, such options would have an antidilutive effect.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The Company's 2011 Annual Report to Stockholders contains management's discussion and analysis of financial condition and results of operations at and for the year ended April 30, 2011. The following discussion and analysis describes material changes in the Company's financial condition since April 30, 2011. The analysis of results of operations compares the three and nine months ended January 31, 2012 with the comparable period of the prior year.

Results of Operations

Sales for the three months ended January 31, 2012 were \$21,574,000, a decrease of 4.4% from sales of \$22,568,000 in the comparable period of the prior year. Sales from Domestic Operations were \$17,142,000, down from \$19,108,000 in the comparable period of the prior year. The decrease was primarily due to a continuing decline in orders for publicly-funded K-12 education projects, primarily wood furniture, and lower sales of technical furniture products. Sales from International Operations were \$4,432,000, up from sales of \$3,460,000 in the third quarter last year. Sales benefited from the beginning of shipments for a large international project in the order backlog. Additional international sales of \$720,000 for products manufactured late in the quarter were not recorded as a sale because the customer failed to secure shipping containers and take delivery of the products. The Company continues to have a strong backlog of international orders, including a large project that has experienced a lengthy construction delay due to extraordinary building construction complications.

The order backlog was \$77.1 million at January 31, 2012, as compared to \$65.7 million at April 30, 2011 and \$68.2 million at January 31, 2011.

Sales for the nine months ended January 31, 2012 were \$73,857,000, up 1.1% from sales of \$73,051,000 in the same period last year. Domestic Operations sales were \$64,364,000, up from sales of \$62,324,000 in the same period last year. International Operation sales were \$9,493,000, down from sales of \$10,727,000 in the same period last year.

The gross profit margin for the three months ended January 31, 2012 was 17.5% of sales, as compared to 18.4% of sales in the comparable quarter of the prior year. The gross profit margin for the nine months ended January 31, 2012 was 16.0% of sales, as compared to 20.0% of sales in the comparable period of the prior year. The decreases in gross profit margin for the current year periods were due to the combination of lower selling prices and higher costs paid for raw materials, particularly steel and epoxy resin.

Operating expenses for the three months ended January 31, 2012 were \$3,990,000, or 18.5% of sales, as compared to \$4,007,000, or 17.8% of sales, in the comparable period of the prior year. Operating expenses for the nine months ended January 31, 2012 were \$11,950,000, or 16.2% of sales, as compared to \$11,953,000, or 16.4% of sales in the comparable period of the prior year. Expenses for both periods of the current year were relatively flat with the comparable periods of the prior year, as higher operating expenses at International Operations were offset by lower operating expenses at Domestic Operations.

Interest expense was \$110,000 and \$333,000 for the three and nine months ended January 31, 2012, respectively, as compared to interest income of \$17,000 and interest expense of \$105,000 for the comparable periods of the prior year. The increases in interest expense for the current year periods resulted primarily from higher levels of borrowings.

Other income was \$193,000 and \$228,000 for the three months and nine months ended January 31, 2012, respectively, as compared to \$1,000 and none for the comparable periods of the prior year. Both periods of the current year include income of \$156,000 related to a property insurance settlement.

An income tax benefit of \$170,000 and \$237,000 was recorded for the three months and nine months ended January 31, 2012, respectively, as compared to income tax expense of \$49,000 and \$792,000 recorded for the comparable periods of the prior year. The effective tax rates for the three and nine months of the current year were 125% and 94%, respectively. The unusually high effective tax rates for the current year periods resulted from the combination of federal and state income tax credits and reported net losses. The effective tax rates for the three and nine months comparable periods of the prior year were 28% and 31%, respectively. The effective rates for the prior year periods were lower than the statutory rate due to the favorable impact of lower tax rates for the Company's international subsidiaries and the impact of state and federal tax credits.

Net earnings attributable to the noncontrolling interests reduced net earnings by \$156,000 for the three months ended January 31, 2012, as compared to a reduction of net earnings of \$39,000 for the comparable period of the prior year. Net earnings were reduced by \$211,000 and \$131,000 for the nine months ended January 31, 2012 and 2011, respectively. Noncontrolling interests relate to the Company's two subsidiaries that are not 100% owned by the Company. The increases in the current year periods resulted from increased net earnings of the two subsidiaries over the comparable periods of the prior year.

Edgar Filing: KEWAUNEE SCIENTIFIC CORP /DE/ - Form 10-Q

A net loss of \$122,000, or \$0.05 per diluted share, was reported for the three months ended January 31, 2012, compared to net earnings of \$86,000, or \$0.03 per diluted share, in the prior year period. A net loss of \$225,000, or \$0.09 per diluted share, was reported for the nine months ended January 31, 2012, compared to net earnings of \$1,598,000, or \$0.62 per diluted share, for the same period last year.

Liquidity and Capital Resources

Historically, the Company's principal sources of liquidity have been funds generated from operations, supplemented as needed by short-term borrowings under the Company's revolving credit facility. Additionally, certain machinery and equipment are financed by non-cancellable operating leases or capital leases. The Company believes that these sources will be sufficient to support ongoing business requirements, including capital expenditures through the current fiscal year.

The Company had working capital of \$21,487,000 at January 31, 2012, compared to \$22,115,000 at April 30, 2011. The ratio of current assets to current liabilities was 2.2-to-1.0 at January 31, 2012, compared to 2.1-to-1.0 at April 30, 2011. At January 31, 2012, advances of \$6,401,000 were outstanding under the Company's bank revolving credit facility, as compared to advances of \$6,588,000 outstanding as of April 30, 2011. Total bank borrowings and capital lease obligations were \$10,176,000 at January 31, 2012, as compared to \$10,574,000 at April 30, 2011.

The Company's operations provided cash of \$4,309,000 during the nine months ended January 31, 2012. Cash was primarily provided from a decrease in accounts receivable of \$7,255,000 which was partially offset by an increase in inventory of \$1,296,000 and a decrease in accounts payable and other accrued expenses of \$2,561,000. The Company's operations provided cash of \$6,135,000 during the nine months ended January 31, 2011, with cash primarily provided from a decrease in accounts receivable of \$5,094,000 and earnings, which were partially offset by an increase in inventory of \$2,171,000.

During the nine months ended January 31, 2012, net cash of \$1,326,000 was used in investing activities, primarily for capital expenditures. This compares to the use of \$4,698,000 for investing activities in the comparable period of the prior year, primarily for capital expenditures related to the expansion of the Company's Statesville, North Carolina manufacturing facilities.

The Company's financing activities used cash of \$1,171,000 during the nine months ended January 31, 2012, primarily for cash dividends of \$773,000 paid to stockholders, repayment of short-term borrowings of \$187,000, and payments on long-term debt of \$150,000. Financing activities used cash of \$1,062,000 in the same period of the prior year, primarily for cash dividends of \$772,000 paid to stockholders and repayment of short-term borrowings of \$4,176,000, offset by \$4,000,000 of proceeds from new long-term debt. The proceeds of the term loan were used primarily to fund the expansion of the Company's Statesville, North Carolina manufacturing facilities.

Outlook

The Company's ability to predict future demand for its products continues to be limited given, among other general economic factors affecting the Company and its markets, the Company's role as subcontractor or supplier to dealers for subcontractors, and the fact that demand for its products is dependent upon the number of laboratory construction projects planned and/or current progress in projects already under construction. Customer changes to product designs and delivery dates for orders may also delay the start of manufacturing and shipment of orders, which in return may impact the timing of sales revenue and increase manufacturing costs.

Regarding the short-term, the Company's expectations are that the on-going economic slowdown in the United States will continue to adversely impact the domestic demand for the Company's products, particularly wood furniture. However, opportunities in the international laboratory marketplace are expected to continue to improve. The Company expects to benefit from lower operating costs related to recent headcount reductions and on-going cost savings initiatives at its Statesville location. It is uncertain whether the recent significant rise in the price of oil will result in higher transportation costs and prices paid for petroleum-based raw materials.

Safe Harbor Statement under the Private Securities Litigation Reform Act of 1995

Certain statements in this report constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 (the Reform Act). Such forward-looking statements involve known and unknown risks, uncertainties and other factors that could significantly impact results or achievements expressed or implied by such forward-looking statements. These factors include, but are not limited to, economic, competitive, governmental, and technological factors affecting the Company's operations, customer changes to product designs, customer changes to delivery dates, markets, products, services, and prices, as well as prices for certain raw materials and energy. The cautionary statements made pursuant to the Reform Act herein and elsewhere by the Company should not be construed as exhaustive. The Company cannot always predict what factors would cause actual results to differ materially from those indicated by the forward-looking statements. In addition, readers are urged to consider statements that include the terms believes, belief, expects, plans, objectives, anticipates, intends or the like to be uncertain and forward-looking. Over time, the Company's actual results, performance or achievements will likely differ from the anticipated results, performance or achievements that are expressed or implied by the Company's forward-looking statements, and such difference might be significant and harmful to stockholders' interests. Many important factors that could cause such a difference are described under the caption Risk Factors, in Item 1A of the Company's 2011 Annual Report on Form 10-K.

REVIEW BY INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

A review of the interim consolidated financial information included in this Quarterly Report on Form 10-Q for each of the three and nine month periods ended January 31, 2012 and January 31, 2011 has been performed by Cherry, Bekaert & Holland, L.L.P., the Company's independent registered public accounting firm. Their report on the interim consolidated financial information follows.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

We have reviewed the accompanying consolidated balance sheet of Kewaunee Scientific Corporation and its subsidiaries (the Company) as of January 31, 2012, and the related consolidated statements of operations for the three month and nine month periods ended January 31, 2012 and 2011 and the related consolidated statements of cash flows for the nine-month periods ended January 31, 2012 and 2011. These interim consolidated financial statements are the responsibility of the Company's management.

We conducted our reviews in accordance with the standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States), the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our reviews, we are not aware of any material modifications that should be made to the interim consolidated financial statements referred to above for them to be in conformity with accounting principles generally accepted in the United States of America.

We previously audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheet as of April 30, 2011, and the related consolidated statements of operations, comprehensive income and stockholders' equity and cash flows for the year then ended (not presented herein) and in our report dated July 15, 2011, we expressed an unqualified opinion on those consolidated financial statements. In our opinion, the information set forth in the accompanying consolidated balance sheet as of April 30, 2011 is fairly stated in all material respects in relation to the consolidated financial statement from which it has been derived.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

There are no material changes to the disclosures made on this matter in the Company's Annual Report on Form 10-K for the fiscal year ended April 30, 2011.

Item 4. Controls and Procedures

(a) Evaluation of disclosure controls and procedures

An evaluation was performed under the supervision of, and with the participation of, the Company's management, including the Chief Executive Officer (CEO) and Chief Financial Officer (CFO), of the effectiveness of the design and operation of the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended) as of January 31, 2012. Based on that evaluation, the Company's management, including the CEO and CFO, concluded that, as of January 31, 2012, the Company's disclosure controls and procedures were adequate and effective and designed to ensure that all material information required to be filed in this quarterly report is made known to them by others within the Company and its subsidiaries.

(b) Changes in internal controls

There was no significant change in the Company's internal control over financial reporting that occurred during the most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II. OTHER INFORMATION
