REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Trustees, Investment Plan Committee, Audit Committee, and Participants

CONSOL Energy Inc. Investment Plan for Salaried Employees

We have audited the accompanying statements of net assets available for benefits of CONSOL Energy Inc. Investment Plan for Salaried Employees (the Plan) as of December 31, 2011 and 2010, and the related statement of changes in net assets available for benefits for the year ended December 31, 2011. These financial statements are the responsibility of the Plan s management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2011 and 2010, and the changes in net assets available for benefits for the year ended December 31, 2011, in conformity with accounting principles generally accepted in the United States of America.

Our audits were performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental Schedule H, Part IV, Line 4(i) Schedule of Assets Held for Investment Purposes at End of Year as of December 31, 2011 is presented for the purpose of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by the Department of Labor s Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan s management. The supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

CONSOL ENERGY INC. INVESTMENT PLAN FOR SALARIED EMPLOYEES

Notes to Financial Statements

December 31, 2011 and 2010

1. DESCRIPTION OF PLAN

The following brief description of CONSOL Energy Inc. Investment Plan for Salaried Employees (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General The Plan is a defined-contribution plan covering salaried, operations and maintenance, production and maintenance, and warehouse and maintenance employees of CONSOL Energy Inc. and participating employers (CONSOL Energy or the Company). Eligible employees can participate in the Plan on the first day of the first full pay period following the later of the start of regular full-time employment or the date they first become eligible. In addition, employees classified as casual employees are eligible to participate in the Plan on the date during the 12 consecutive month period, commencing on the employee's employment date or reemployment date, on which the employee actually completes 1,000 hours of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

During 2011 and 2010, the Plan offered CONSOL Energy common stock (CONSOL Stock Fund) as an investment option to Plan participants. The CONSOL Stock Fund is an Employee Stock Ownership Plan (ESOP) where participants can elect to have dividends paid out to them in cash instead of being reinvested in the CONSOL Stock Fund in their Plan account. For the years ended December 31, 2011 and 2010, approximately \$47,000 and \$31,000 in dividends from the CONSOL Stock Fund were paid to participants in cash, respectively.

Contributions Each year participants can, with certain restrictions, contribute a maximum of 75% of eligible compensation to the Plan. Newly eligible employees automatically become participants in the Plan beginning with the first payroll deduction following forty-five days from the date they first become eligible (as defined by the Plan) and contribute at the rate of 6% of eligible compensation (4% for employees of Fairmont Supply Company and its subsidiaries, participating employers in the Plan that are a qualified separate line of business), unless the participant elects not to contribute. Under this automatic enrollment provision, participant assets are invested in accordance with a managed account feature offered by the Plan's trustee, Bank of America Merrill Lynch (Merrill Lynch), based on certain demographics of the participant. A participant may also designate from 1% to 75% (not to exceed \$10,000) of any quarterly or annual incentive compensation payment as a supplemental contribution. Contributions may be made with before-tax or after-tax dollars.

Table of Contents

CONSOL ENERGY INC. INVESTMENT PLAN FOR SALARIED EMPLOYEES

Notes to Financial Statements

December 31, 2011 and 2010

1. DESCRIPTION OF PLAN (Continued)

CONSOL Energy matches these contributions (excluding deferrals of incentive compensation payments), dollar for dollar, up to 6% of eligible compensation (fifty cents on every dollar up to 12% of eligible compensation for employees of Fairmont Supply Company and its subsidiaries). Company matching contributions for certain participants of the Plan are considered nonforfeitable, safe-harbor contributions within the meaning of that term under the final Internal Revenue Code (the Code) 401(k) and 401(m) regulations.

In addition, certain eligible employees of Fairmont Supply Company and its subsidiaries receive qualified non-elective (QNEC) contributions equal to \$1,500 per year. In 2010, certain eligible employees of CNX Gas Corporation (CNX Gas) also received QNEC contributions equal to 3% of eligible compensation. Effective January 1, 2011, the Plan was amended to eliminate the QNEC contribution provision for CNX Gas participants. As a result, there were no QNEC contributions made to the participant accounts of employees of CNX Gas for the year ended December 31, 2011. The Company may also make discretionary contributions to the Plan ranging from 1% to 4% of eligible compensation for eligible employees (as defined by the Plan). There were no such discretionary contributions made by the Company for the years ending December 31, 2011 and 2010. Total contributions credited to a participant's account (employee and Company contributions, exclusive of catch-up contributions) may not exceed \$49,000 per year for the years 2011 and 2010, respectively.

Participant Accounts Each participant's account is credited with the participant's contributions and allocations of the Company's contributions and Plan investment earnings and is charged with an allocation of administrative expenses and Plan investment losses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Investment Options Upon enrollment in the Plan, a participant may direct employee and Company contributions in any of the funds included in the supplemental schedule of assets held for investment purposes at end of year, except for E.I. DuPont de Nemours & Company (DuPont) Common Stock. This investment option is no longer available to Plan participants.

Notes to Financial Statements

December 31, 2011 and 2010

1. DESCRIPTION OF PLAN (Continued)

Vesting Participants are immediately vested in their contributions and any matching contributions, QNEC contributions, or discretionary contributions made by the Company plus actual earnings (losses) thereon.

Notes Receivable from Participants Participants may borrow up to one-half of their account balances subject to a \$1,000 minimum and required regulatory loan maximum limitations. Such loans are repayable over periods of 12 to 60 months (120 months maximum if for the purchase of a principal residence) and are secured by the balance in the participant's account. The rate of interest on loans is commensurate with the average rate charged by selected major banks for secured personal loans and remain fixed for the life of the loan. Loans are repaid over the period in installments of principal and interest via payroll deductions or through ACH account debit for participants that terminate employment subsequent to the loan's execution. A participant also has the right to repay the loan in full, at any time, without penalty. At December 31, 2011, loan interest rates ranged from 3.25% to 9.25%.

Payment of Benefits Participants who retire from active service may elect to defer withdrawals until April of the calendar year following the later of the year in which the participant attains age 70 1/2 or the year following retirement or termination of employment. They may also elect an option to have their account distributed over a period of not less than two years or more than a period which would pay the account balance during the participant's actuarial life in either a fixed or variable amount. Before-tax deposits may be withdrawn only in the event of a participant's retirement, death, termination, attainment of age 59 1/2 or defined hardship. At December 31, 2011 and 2010, approximately \$77,000 and \$729,000 was payable to withdrawing participants, respectively.

Plan Termination Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Notes to Financial Statements

December 31, 2011 and 2010

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting The accompanying financial statements of the Plan have been prepared under the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (US GAAP).

Fully Benefit-Responsive Investment Contracts Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits presents the fair value of the fully benefit-responsive investment contracts held in the CONSOL Energy Inc. Stable Value Fund (Stable Value Fund or SVF) as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

Investment Valuation and Income Recognition The Plan s investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Dividend income is recorded on the ex-dividend date and interest income is recorded on the accrual basis. Realized gains and losses on the sale of DuPont and CONSOL Energy common stock are based on the average cost of the securities sold. Net appreciation (depreciation) includes the Plan s gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest on notes receivable from participants is recognized over the term of the notes and is calculated using a simple-interest method on principal amounts. If a participant does not make a loan repayment on at least a quarterly basis, the Plan administrator considers the loan to be defaulted on the last day of the calendar quarter following the calendar quarter in which the last payment was due, and reclassified as a distribution based upon the terms of the Plan document.

Payment of Benefits Benefits are recorded when paid.

Notes to Financial Statements

December 31, 2011 and 2010

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Administrative Expenses Expenses incurred in connection with the operation of the Plan with regard to the purchase and sale of investments and certain trustee and professional fees are paid by the Plan. Other administrative expenses are paid by CONSOL Energy at no cost to the Plan.

Use of Estimates The preparation of financial statements in conformity with US GAAP requires Plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

ESOP The Plan's ESOP provision provides that participants may invest a portion or all of their account in Company stock. The ESOP provision also contains a put option in accordance with the requirements of the Code, which is a right for any participant who is otherwise entitled to a distribution from the Plan to require the Company stock in their ESOP account be repurchased by the Company if it is not readily tradable on an established market. Participants who elect to invest their account balance in Company stock have voting rights commensurate with their shares and participants are fully vested at all times in dividends paid on the acquired Company stock. A participant also has the right to diversify stock in their accounts pursuant to the provisions of the Plan document. At December 31, 2011 and 2010, and from the period since inception of the ESOP, there were no Company contributions in the form of stock.

New Accounting Pronouncements In January 2010, the Financial Accounting Standards Board (FASB) issued new guidance which expanded the required disclosures about fair value measurements. In particular, this guidance requires (i) separate disclosure of the amounts of significant transfers in and out of Level 1 and Level 2 fair value measurements along with the reasons for such transfers, (ii) information about purchases, sales, issuances and settlements to be presented separately in the reconciliation for Level 3 fair value measurements, (iii) fair value measurement disclosures for each class of assets and liabilities and (iv) disclosures about the valuation techniques and inputs used to measure fair value for both recurring and nonrecurring fair value measurements for fair value measurements that fall into either Level 2 or Level 3. This guidance was effective for annual reporting periods beginning after December 15, 2009, except for (ii) above, which was effective for fiscal years beginning after December 15, 2010. The adoption of this guidance did not have a material effect on the Plan's net assets available for benefits, changes in net assets available for benefits, or related disclosures.

Table of Contents

CONSOL ENERGY INC. INVESTMENT PLAN FOR SALARIED EMPLOYEES

Notes to Financial Statements

December 31, 2011 and 2010

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

In May 2011, the FASB issued guidance to create a consistent framework for the application of fair value measurements between US GAAP and International Financial Reporting Standards. This guidance includes wording changes to US GAAP to clarify the intent about the application of existing fair value measurements and disclosure requirements and to change a particular principle or existing requirement for measuring fair value or disclosing information about fair value investments. There are no additional fair value measurements required upon adoption of this guidance. This pronouncement is effective for reporting periods beginning after December 15, 2011, with early adoption prohibited, requiring prospective application only. The Plan is currently evaluating the effect that the provisions of this pronouncement will have on its financial statements.

3. ASSET TRANSFERS

Asset transfers to the Plan for the year ended December 31, 2011 of approximately \$88,000 represents the remaining investment account balances attributable to former employees transferred from the Rochester & Pittsburgh Coal Company 401(k) Savings and Retirement Plan (the R&P Plan). The R&P Plan was terminated by the Board of Directors of the Company on December 31, 2008, and the termination of the R&P Plan was completed on October 31, 2011.

4. CONTRACTS WITH INSURANCE COMPANIES

The Plan has direct holdings of fully benefit-responsive investment contracts in its SVF. The SVF is comprised of guaranteed investment contracts (GIC), separate account portfolios (SAP), and synthetic GICs (SYN), all of which are held with multiple insurance companies and banks.

Traditional GICs expose the Plan through the SVF to direct credit risk associated with each contract issuer. To mitigate this risk, investment guidelines prohibit the Plan from purchasing contracts with a credit rating lower than Aa3/AA. In addition, the weighted average credit rating of all GIC contracts must be A3/A- or higher at all times and no single GIC issuer may represent more than 5% of the total SVF. Additionally, the Plan administrator, together with the Plan's third party investment advisors, continually monitor the issuers of these investments through external credit rating agencies and monitor credit rating history, downgrade/upgrade notifications, and analyst reports for all current and potential issuers. There are no reserves against contract value for credit risk of the contract issuers or otherwise.

Table of Contents

CONSOL ENERGY INC. INVESTMENT PLAN FOR SALARIED EMPLOYEES

Notes to Financial Statements

December 31, 2011 and 2010

4. CONTRACTS WITH INSURANCE COMPANIES (Continued)

Participants may ordinarily direct the withdrawal or transfer of all or a portion of their SVF investment at contract value for Plan permitted benefit payments. Certain events may limit the ability of the Plan to transact at contract value with the issuer. Such events include amendments to Plan documents (including complete or partial Plan termination or merger with another plan), changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, bankruptcy of the Company or other Plan sponsor events (i.e. divestitures or spin-offs of a subsidiary, location closings or layoffs) which cause a significant withdrawal from the Plan, or failure of the Plan to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable of occurring.

Based on certain events specified in the fully benefit-responsive investment contracts (i.e. GICs, SAPs and SYNs), both the Plan and issuers of such investment contracts are permitted to terminate the investment contracts. If applicable, such terminations can occur prior to the scheduled maturity date.

Examples of termination events that permit issuers to terminate investment contracts include the following:

The Plan sponsor's receipt of a final determination notice from the Internal Revenue Service that the Plan does not qualify under Section 401(a) of the Code.

The Plan ceases to be exempt from federal income taxation under section 501(a) of the Code.

The Plan or its representative breaches material obligations under the investment contract such as failure to satisfy its fee payment obligations or failure to follow the contract's equity wash provisions.

The Plan or its representatives makes a material misrepresentation.

The Plan makes a material amendment to the Plan (including complete or partial termination or merger with another plan) and/or the amendment adversely impacts the issuer.

The Plan, without the issuer's consent, attempts to assign its interest in the investment contract.

The balance of the contract value is zero or immaterial.

Mutual consent.

The termination event is not cured within a reasonable time period, i.e., 30 days.

Table of Contents

CONSOL ENERGY INC. INVESTMENT PLAN FOR SALARIED EMPLOYEES

Notes to Financial Statements

December 31, 2011 and 2010

4. CONTRACTS WITH INSURANCE COMPANIES (Continued)

For SAPs and SYNs, additional termination events include but are not limited to the following:

The investment manager of the underlying securities is replaced without the prior written consent of the issuer.

The underlying securities are managed in a way that does not comply with the investment guidelines. For GICs, the contract value is adjusted to reflect a discounted value based on surrender charges and other penalties at termination. For SAPs and SYNs, termination is at market value of the underlying securities less unpaid issuer fees or charges. If the termination event is not material based on industry standards, it may be possible for the Plan to exercise its right to require the issuer that initiated the termination to extend the investment contract for a period no greater than what it takes to immunize the underlying securities and/or it may be possible to replace the issuer of a SAP or SYN that terminates with another SAP or SYN issuer. Both options help maintain stable contract value.

The aggregate crediting rates for all contracts as of December 31, 2011 and 2010 were 3.26% and 3.50%, respectively. Contract or crediting rates for GICs are negotiated with the issuer and are effective for the life of the contract. The contract or crediting rates for SAPs and SYNs are reset either four times or six times per year and are based on the performance of the portfolio of assets underlying these contracts. Inputs used to determine the crediting rate include each contract's portfolio market value of fixed income assets, current yield-to-maturity, duration, and market value relative to contract value. All contracts have a guaranteed rate of at least 0% or higher with respect to determining interest rate resets. If future crediting rates increase or decrease, the adjustment from fair value to contract value would change in the same direction. The average market value yield of the SVF based on the actual earnings of the underlying assets was approximately 4.16% and 5.89% in 2011 and 2010, respectively. The average yield of the SVF based on the actual interest rate credited to participants' accounts in 2011 and 2010 was approximately 3.12% and 3.55%, respectively.

Participants investing in the SVF or collective trusts are assigned units at the time of investment based on the net asset value per unit.

5. FAIR VALUE MEASUREMENTS

US GAAP for fair value measurements provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. An active market for the asset or liability is a market in which the transaction for the asset or liability occurs with sufficient frequency and volume to provide pricing information on an ongoing basis.

Level 2: Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, or other inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets and liabilities measured at fair value. There have been no changes in the methodologies used at December 31, 2011 and 2010.

Table of Contents

CONSOL ENERGY INC. INVESTMENT PLAN FOR SALARIED EMPLOYEES

Notes to Financial Statements

December 31, 2011 and 2010

5. FAIR VALUE MEASUREMENTS (Continued)

Stable Value Fund The SVF is comprised of a short-term investment fund in addition to GICs, SAPs and SYNs, all of which are held with multiple insurance companies and banks. These fully benefit-responsive contracts are valued at fair value on the statements of net assets available for benefits and are credited with actual earnings on the underlying investments and charges for participant withdrawals and administrative expenses. The following disclosures provide information about the nature of the investments in the SVF and how fair value of these investments is measured.

U.S. Government Security Fund This security is a short-term investment fund (i.e. money market fund) designed to provide daily liquidity to the SVF and is stated at cost plus accrued interest, which approximates fair value. The fund seeks to preserve a net asset value of \$1 per share and can be validated with a sufficient level of market activity and therefore, is classified within Level 1 of the fair value hierarchy.

Guaranteed Investment Contracts The insurer maintains the assets (underlying portfolio owned by insurer) of the GIC in a general account, backed by the full faith and credit of the insurer. Regardless of the performance of the general account assets a GIC will provide a fixed rate of return as negotiated when the contract is purchased. GICs are valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations (similar to weighted average life) considering the credit-worthiness of the issuer and have been classified within Level 2 of the fair value hierarchy.

Separate Account Portfolios SAPs are investment contracts invested in insurance company separate accounts established for the sole benefit of SVF participants. SAPs are comprised of two components, an underlying pool of assets and a wrap contract. The insurer owns the individual underlying assets and the wrap contract (similar to a GIC); however, the assets in a SAP are maintained in a separate account, fully fenced-off from the general assets of the insurer. The Plan participates in the underlying experience of the SAP via future periodic rate resets. Fair value of SAPs are determined by the market values of the underlying securities and the value of the wrap using observable market data by the insurer as of the valuation date, which approximates fair value. SAPs held by the Plan provide for daily redemptions by the Plan at reported net asset value with no advance notice requirement. This Plan is permitted to redeem investment units at net asset value on the measurement date. SAPs are classified within Level 2 of the fair value hierarchy.

Table of Contents

CONSOL ENERGY INC. INVESTMENT PLAN FOR SALARIED EMPLOYEES

Notes to Financial Statements

December 31, 2011 and 2010

5. FAIR VALUE MEASUREMENTS (Continued)

Synthetic GICs SYNs are comprised of an underlying pool of assets (owned by the Plan) and a wrap contract designed to provide principal protection and accrued interest over a specified period of time assuming that the underlying assets meet the requirements of a GIC. Short-term investment funds include cash and short-term securities (money market type funds) that mature within three months or less at date of purchase and are valued at amortized cost, which approximates fair value (Level 1), and liquid government debt securities valued using quoted market prices, broker or dealer quotations, or alternative pricing sources with reasonable levels of price transparency that are traded in markets that are not considered active (Level 2). Fixed income collective trusts invest in high quality fixed income securities across the short, intermediate, and core sectors, and are valued at the net asset value per share on the valuation date (Level 2). Other fixed income funds include government debt securities and corporate bonds valued using the observable quoted price reported in markets that are not considered active or pricing services based on market transactions for comparable securities of issuers with similar credit ratings (Level 2). In addition, there is one fixed income fund that is valued at fair value based on certain security price validations and a review based on unobservable inputs and is therefore classified within Level 3 of the fair value hierarchy. Swap contracts are valued at fair value utilizing pricing models and taking into consideration exchange quotations on underlying instruments, dealer quotations and other information (Level 2). Any accrued interest on the underlying investments in the SYNs is also included as a component of the fair value of those investments. Fair value of the wrap contracts is determined by taking the difference between the actual wrap fee of the contract and the price at which the wrapper would issue an identical contract under current market conditions. That change in fees is then applied to the year-end book value of the contract to determine the wrap contract's fair value. Wrap contracts generally change the investment characteristics of underlying securities (such as corporate debt or U.S. government securities) to those of GICs. The wrap contract provides that benefit-responsive transactions may be processed at contract or face value. Benefit-responsive distributions are generally defined as a withdrawal due to a participant's retirement, termination, or death, or participant-directed transfers, in accordance with the terms of the Plan (see Note 4).

CONSOL ENERGY INC. INVESTMENT PLAN FOR SALARIED EMPLOYEES

Notes to Financial Statements

December 31, 2011 and 2010

5. FAIR VALUE MEASUREMENTS (Continued)

Interests in Registered Investment Companies The shares of registered investment companies are public investment vehicles valued at quoted market prices, which represent the net asset values of the shares held in such funds. Each of these funds is considered an open ended interest in a registered investment company and valued using a market approach. Fair value is based on a daily net asset value that can be validated with a sufficient level of observable activity in an active market (i.e. purchases and sales at net asset value) and therefore these interests in registered investment companies have been classified within Level 1 of the fair value hierarchy.

Collective Trusts Collective trusts are valued at the net asset values per unit as determined by the collective trusts as of the valuation date, which approximates fair value. The net asset values are based on the value of the underlying assets owned by the collective trusts, minus their liabilities, and then divided by the number of shares outstanding. Collective trusts are not available in an exchange and active market, however, the fair values are determined based on the underlying investments as traded in an exchange and active market. Collective trusts held by the Plan provide for daily redemptions by the Plan at reported net asset value with no advance notice requirement. The Plan is permitted to redeem investment units at net asset value on the measurement date. Due in part to the units of the collective trusts not being actively traded, the fair value measurements have been classified within Level 2 of the fair value hierarchy.

Common Stock and Common Stock Fund DuPont Common Stock and the CONSOL Stock Fund are stated at fair value as quoted on a recognized securities exchange and are valued at the last reported sales price on the last business day of the respective Plan year. As a result, the fair value measurements of these investments have been classified within Level 1 of the fair value hierarchy.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

CONSOL ENERGY INC. INVESTMENT PLAN FOR SALARIED EMPLOYEES

Notes to Financial Statements

December 31, 2011 and 2010

5. FAIR VALUE MEASUREMENTS (Continued)

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 asset for the year ended December 31, 2011:

<i>(in thousands of dollars)</i>	Level 3 Assets For the Year Ended December 31, 2011 Stable Value Fund-Other Fixed Income Funds
Balance, Beginning of Year	\$ 80
Unrealized Gains Relating to Instruments Still Held at the Reporting Date	4
Sales	(6)
Balance, End of Year	\$ 78
Amount of Total Gains for the Period Attributable to the Change in Unrealized Gains Relating to Assets Still Held at the Reporting Date	\$ 4

Gains and losses (realized and unrealized) included in changes in net assets for the period above are reported in net depreciation in fair value of investments in the statement of changes in net assets available for benefits.

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfers from one fair value level to another. In such instances, the transfer is reported at the end of the reporting period. The Plan reclassified certain underlying SYN assets totaling approximately \$4,000,000 from Level 1 to Level 2 within the fair value hierarchy because certain significant inputs became observable less frequently due to decreased market activity because the observable quoted prices were reported in markets that were not considered active during the year ended December 31, 2011.

Notes to Financial Statements

December 31, 2011 and 2010

6. INVESTMENTS

The following presents individual investments that represent 5% or more of the Plan's net assets available for benefits at December 31:

<i>(in thousands of dollars)</i>	2011	2010
CONSOL Stock Fund	\$ 148,510	\$ 188,764
Columbia Acorn Fund	56,380	24,038**
*Metropolitan Life Insurance Co. (SAP)	66,136	64,604
*Jennison Intermediate Core Bond Fund	66,665	62,561
*Prudential Core Cons. Inter. Bond Fund	64,997	61,443
*GEM Trust Short Duration	72,122	71,283

* These investments are included in the Stable Value Fund.

** For comparative purposes only. Amount does not exceed 5% of net assets available for benefits.

During 2011 the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) depreciated in value by approximately \$(46,190,000) as follows:

<i>(in thousands of dollars)</i>	Net Appreciation (Depreciation) in Fair Value of Investments
Stable Value Fund	\$ 17,985
Registered Investment Companies	(18,593)
Common Stock:	
E.I. DuPont de Nemours & Company	(3,224)
CONSOL Stock Fund	(42,132)
Collective Trusts	(226)
	\$ (46,190)

CONSOL ENERGY INC. INVESTMENT PLAN FOR SALARIED EMPLOYEES

Notes to Financial Statements

December 31, 2011 and 2010

6. INVESTMENTS (Continued)

The SVF is a separate account held by the Plan. The investment contracts are entered into based on an evaluation of the credit risk of the contract issuers and/or third party guarantors. Collateral is generally not provided. The SVF includes traditional GICs and SAPs as well as SYNs. SYNs provide for a return on principal over a specified period of time through the use of underlying assets and a benefit responsive wrap contract issued by a third party.

The following reflects the adjustment between the underlying securities and the insurance contract values in the SVF:

<i>(in thousands of dollars)</i>	December 31	
	2011	2010
Investments at Fair Value	\$ 615,690	\$ 606,849
Wrap Contracts (at Fair Value)	28	56
	615,718	606,905
Adjustment from Fair Value to Contract Value	(28,392)	(20,656)
Investments at Contract Value	\$ 587,326	\$ 586,249

The composition of assets of the SVF at contract value as of December 31, 2011 and 2010 are as follows:

<i>(in thousands of dollars)</i>	2011	2010
Synthetic Guaranteed Investment Contracts	\$ 411,495	\$ 404,932
Separate Account Portfolios	105,268	103,360
Guaranteed Investment Contracts	40,794	49,299
Short-term Investment Fund	29,769	28,658
	\$ 587,326	\$ 586,249

Table of Contents

6. INVESTMENTS (Continued)

SYNs within the SVF are comprised of the following:

<i>(in thousands of dollars)</i>	Credit Rating	December 31	
		2011	2010
SYNs (at Contract Value):			
Prudential Retirement Ins. & Annuity Co.	AAA	\$ 128,735	\$ 125,396
ING Life Insurance & Annuity Co.	AA	43,398	42,371
Monumental Life Insurance Co.	AA	43,398	42,371
State Street Bank & Trust	AA	43,397	42,370
ING Life Insurance & Annuity Co.	AA	50,856	50,808
Monumental Life Insurance Co.	AA	50,856	50,808
State Street Bank & Trust	AA	50,855	50,808
Total SYNs (at Contract Value)		\$ 411,495	\$ 404,932

The composition of changes in net assets of the SVF for the year ended December 31, 2011 is as follows:

<i>(in thousands of dollars)</i>	
Employer Contributions	\$ 7,920
Participant Contributions and Rollovers	29,079
Total Contributions	36,999
Asset Transfers In	2
Interest and Dividend Income	326
Net Realized/Unrealized Appreciation in Investment Value	17,985
Benefits Paid to Participants	(74,088)
Administrative Expense	(179)
Net Loan Activity	(471)
Net Interfund Transfers	20,503
Increase in Net Assets Available for Benefits	1,077
Net Assets Available for Benefits Beginning of Year	586,249
End of Year	\$ 587,326

CONSOL ENERGY INC. INVESTMENT PLAN FOR SALARIED EMPLOYEES

Notes to Financial Statements

December 31, 2011 and 2010

7. TAX STATUS

The Plan obtained its latest determination letter on June 3, 2011, in which the Internal Revenue Service (IRS) stated that the Plan, as then designed, was in compliance with the applicable requirements of the Code. Although the Plan has been amended since receiving the determination letter, Plan management and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a tax liability (or asset) and related interest and penalties or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions, and the IRS completed its audit of the Plan for the year ended December 31, 2005. As a result of this examination, the Company made a corrective contribution on February 13, 2012 of approximately \$72,000 (plus related earnings) to the Plan on behalf of certain casual employees that were improperly excluded from participating in the Plan on a timely basis for the Plan years ending December 31, 2004 through December 31, 2010. The resulting tax deficiency related to this examination was paid by the Company. As a result of the conclusion of this audit by the IRS, the Plan is no longer subject to income tax examinations for years prior to 2011.

8. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2011 and 2010 to Form 5500:

<i>(in thousands of dollars)</i>	2011	2010
Net Assets Available for Benefits per the Financial Statements	\$ 1,091,545	\$ 1,147,875
Amounts Allocated to Withdrawing Participants	(77)	(729)
Net Assets Available for Benefits per the Form 5500	\$ 1,091,468	\$ 1,147,146

Table of Contents

CONSOL ENERGY INC. INVESTMENT PLAN FOR SALARIED EMPLOYEES

Notes to Financial Statements

December 31, 2011 and 2010

8. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500 (Continued)

The following is a reconciliation of benefits paid to participants per the financial statements for the year ended December 31, 2011, to Form 5500:

(in thousands of dollars)

Benefits Paid to Participants per the Financial Statements	\$ 112,331
Amounts Allocated to Withdrawing Participants at December 31, 2011	77
<u>Less:</u> Amounts Allocated to Withdrawing Participants at December 31, 2010	(729)

Benefits Paid to Participants per Form 5500	\$ 111,679
---	-------------------

Amounts allocated to withdrawing participants are recorded on the Form 5500 for benefit claims that have been processed and approved for payment prior to December 31, 2011, but not yet paid as of that date.

9. TRANSACTIONS WITH PARTIES-IN-INTEREST

Certain Plan investments include several underlying SYN assets within the SVF as well as two collective investment funds managed by Merrill Lynch or its parent company, Bank of America, N.A. Merrill Lynch is the trustee as defined by the Plan and, therefore, these transactions qualify as those conducted with a party-in-interest to the Plan. In addition, other underlying SYN assets include funds managed by State Street Bank & Trust, one of the custodians of the Plan. Therefore, these transactions qualify as those conducted with a party-in-interest to the Plan.

One of the investment vehicles available to participants, the CONSOL Stock Fund, contains stock of CONSOL Energy. The Plan held 4,046,582 shares and 3,872,881 shares of CONSOL Energy common stock at December 31, 2011 and 2010, respectively. Transactions in this investment qualify as party-in-interest transactions which are exempt from the prohibited transaction rules of ERISA.

CONSOL ENERGY INC. INVESTMENT PLAN FOR SALARIED EMPLOYEES

Notes to Financial Statements

December 31, 2011 and 2010

10. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

In accordance with the investment strategy of the Plan's investment contracts, the Plan's investment manager may execute transactions in interest rate swap contracts that may give rise to varying degrees of off-balance-sheet market and credit risk. These swap contracts can be executed on an exchange or negotiated in the over-the-counter market and involve an agreement to exchange periodic interest payment streams (fixed vs. variable) calculated on an agreed upon periodic interest rate multiplied by a predetermined notional principal amount. Market risk arises from the potential for changes in value of swap contracts resulting from fluctuations in interest rates. The gross notional (or contractual) amounts used to express the volume of these transactions do not necessarily represent the amounts potentially subject to market risk. In many cases, these swap contracts serve to reduce, rather than increase, the Plan's exposure to losses from market and other risks. In addition, the measurement of market risk is meaningful only when all related and offsetting transactions are identified. The Plan's investment managers generally limit the Plan's market risk by holding or purchasing offsetting positions.

Notes to Financial Statements

December 31, 2011 and 2010

11. SUBSEQUENT EVENTS

Effective January 1, 2012, employees classified as casual employees no longer have to complete 1,000 hours of service during a 12 consecutive month period, commencing on the employee's employment date or reemployment date, in order to be eligible to participate in the Plan. The Plan was amended to allow employees classified as casual employees to be eligible to begin participation on the first day of the first full pay period following their date of hire, subject to the Plan's automatic enrollment provisions.

Bank of America, N.A., as trustee for the Merrill Lynch Extended Market Index Trust and the Merrill Lynch Equity Index Trust, announced that it would discontinue these collective trusts and remove them as investment options in the Plan effective February 29, 2012. As a result of this decision, the Plan administrator selected new investment options (Vanguard Institutional Index Fund, Vanguard Mid-Cap Index Fund, and Vanguard Small-Cap Index Fund) to replace these collective trusts. Any investments in the options that were eliminated were transferred to the new investment options on February 29, 2012, and contributions directed to the options that were eliminated were also allocated to the new investment options selected to replace these collective trusts.
